Hark the fierce yell, the savage cry, The war whoop rends the westernsky! Extermination leads the van, Death spares not famale, child or man.

Hark the fierce yell ! sad echo, hear ! Terrific death approaching near. The horrid sound appals the brave, Whose glory is to spare and save.

Hark the fierce yell, the warning Is struck, and lays the warrior low! The bleeding body yeilds the strife, And dying feels the scalping knife.

From ambush hear the cry arise! The savage whoop declares surprise; Each rifle marks, its aim unseen, And lays the warrior on the green.

There was not a gun fired from the fort before the surrender. It was the opinion of the officers that the first fire from the guns prepared for the purpose would have moved down the enemy's ranks if they had persisted in advancing, and thrown his whole force into confusion. No doubt was entertained by any man that I heard, that the British force would not only have been repulsed, but every man taken or destroyed, if the General would have permitted his officers and men to fight.

> M a vid , 29 August, 1812. On Monday last our court c mmeuced Between 2 and 3 clock an express arrived from the town of Erie, giving notic that an attack was apprehended by the officers of he militia new doing garrison duty at that place. The alarm was occasioned by the ppearance of five sail of British sloops of war, and double that number of boats espied about eighteen miles westwardly of the town of Erie. The court met to re ceive a few bills of in ictment, and immediately adjourned. In about two hours two companies marched from this place fo Evic, being inhabitants of the place and its vicinage. The gentlemen of the bar, ju rors, suitors, &c. generally took up arms and fell into the ranks; the alarm sprad like wildfire; the people in this county, Venango and Mercer, turned out as volun teers almost en masse, numbers of whom were exempted from doing duty by their

execrations of his country and posterity.

The information received here of gen ull's capitulation, adds very considerably the general alarm. A few hours ago I poke with a gentleman who was in De roit at the time the capitulation took place. To one that I have seen or heard of, but speaks of Hull as one of the most notorious traitors that any country ever produced. It is asserted with confidence that general Hull had under his command 2500 men, and the British force did not exceed 600 regulars and about 400 savages.

It is not doubted but that, even with a

moderate share of prudence and courage, he might have gained a complete victory. When the officers and men found that they would not be permitted to make an attack, a number of them wept, some of them broke their swords, and others their arms, from the disappointment, and seemed to be in a state of desperation. I herein inclose you a copy of the capitulation, which I received from an efficer, and may be depended on as genuine.

colars respecting the expedition lately com-

minded by brig. gen. Hull, and its disas

trous result, as might enable them correct-

ly to appreciate the conduct of the fficers

and men, and to dev lope the causes which

produced so foul a stain upon the national

with the hope of conquest. No enemy ap-

on Malden, it would doubtless have fallen

an easy victory. I know gen. Hull after-

wards declared he regrett d this attack

had not be n made, and he had every rea-

son to believe success would have crowned

his eff rts. The reason given for delaying

our operations, was to mount our heavy

cannon, and to afford to the Canadian mi

litia time and opportunity to quit an ob-

noxious service. In the course of two weeks,

the number of their militia who were em-

hodied had decreased by desertion from six

hundred to one hundred men; and, in the

course of three weeks, the cannon were

mounted, the ammunition fixed, and every

preparation made for an immediate invest-

ment of the fort. At a council, at which were present all the field officers, and which

was held two days before our preparations

were completed, it was unanimously agreed

to make an immediate attempt to accom-

plish the object of the expedition. If by

waiting two days we could have the service

of our heavy artillery, it was agreed to

wait; if not, it was determined to go with-

out it and to attempt the place by storm. This opinion appeared to correspond with

he views of the general, and the day was

pointed for commencing our march. He

eclared to me, that he considered himself

edged to lead the army to Malden. The

mmunition was placed in the waggons;

he cannon were embarked on board the

latting batteries, and every requisite arti-

cle was prepared. The spirit and zeal, the

arder and animation displayed by the offi

The bearer will fill the vacancy." The doubtful fate of this letter rendered it necessary to use circumspection in its details, and therefore these blanks were left. The word 'capitulation' will fill the first, and 'commanding general' the other. As no enemy was near us, and as the superiority of our force was manifest, we could see no necessity for capitulating, nor any propriety in alluding to it. We therefore determined in the last resort to incur the responsibility of divesting the general of his command. This plan was eventually prevented by two of the commanding officers of regiments being ordered upon de-

On the 13th, the British took a position opposite to Detroit, and began to throw up works During that and the two fellowing days, they pursued their object without interruption, and established a battery for two 18 pounders and an 8 inch howitzer. About sun set on the evening of the 14th, a detachment of 350 men from the regiments commanded by cel. M'Arthur and myself, was ordered to march to the river R isin, to escort the provisions, which had some time remained there protecte! by a party under the command of capt Brush.

On Saturday the 15th, about 1 o'cleck, a flag of truce arrived from Sandwich, bearing a summons, from gen. Breck, for the surrender of the town and tort of Detroit, stating, he could no longer restrain the fury of the savages. To this an immediate and spirited retusal was returned. About 4 o'clock their batteries began to play upon the town. The fire was returned and continued without interroption and with little

Between 6 and 7 o'clock, they had eff cted their landing, and immediately took up their line of march. They moved in a close column of platoons, twelve in front, upon the bank of the river. The fourth regiment was stationed in the ort; the Ohio voius teers and a part of the higan militia, behind some pickets, in a situation in which the whole flank of the enemy would have been exposed. The residue of the Michigan militia were in the upper part of the town to resist the incurions of the savages. Two 24 pounders loaded with grape-shot, were posted upon a commanding emin nce, ready to sweep the advancing column. In this situation, the superiority of our position was apparent, and our troops, in the eager expectation of victory, awaited the approach of the enemy. Not a sigh of discontent broke upon the ear; not a look of cowardice met the eye. Every man expected a proud day

for his country, and each was anxious that his individual exertion should contribute to the general result. When the head of their column arrived within about five hundred yards of our line, orders were received from general Hull for the whole to retreat to the fort, and for the 24 pounders not to open upon the enemy.
One universal burst of indignation was apparent upon the receipt of this order. Phose, whose conviction was the deliberate result of a dispassi nate examination of passing events, saw the folly and improriety of cr w ing 1100 men into a lit tle work, which 300 could fully man, and into which the shot and shells of the enemy were falling. The fort was in this manner . filled; the men were directed to stack their arms, and scarcely was an opportunity afforded of moving. Shortly after a white flig was hung out upon the walls. A British officer rode up to enquire the cause. A communication passed between the commanding generals, which ended in the capitulation submitted to you. In entering into this capitulation, the general took counsel from his own feelings only. Not an offi-cer was consulted. Not one anticipated a orrender, till he saw the white flig disyed. Even the women were indignant a so shameful a degradation of the Amehave felt, but he who held in his hands the

The situation in which this degeance. This fatal and unaccountable step tachment was placed, although the result of accident, was the best for annoying the enemy and cutting off his retreat that could have been selected. With his raw troops enclosed between two fires and no hopes of succour, it is hazarding little to say, that

very few would have escaped. I have been informed by col. It was calculated we could readily procure three months' provisions, inendent of 150 barrels flour, 300 head of cattle which had been forwarded from the state of Ohio, and which remained at the river Raisin under capt. They know and feel, that no circumstance in our situation, none in that of the enemy, can excuse a capitula-tion so dishonorable and unjustifiable. This too is the universal sentiment among the troops; and I shall be surprised to learn that there is one man who thinks it was nessary to sheath his sword, or to lay down

### GEN. HULL'S DESPATCH. Washington City, Sept. 19. Yesterday afternoon, at 2 d'clock,

Lieut. Anderson, of the United States army, reached this city, bearer of despatches from Brigadier General WIL-LIAM HULL, to the Department of War, of which the following copies have been obtained for publication :

Montreal, 8th Sept. 1812. SIR-The inclosed despatch was prepared on my arrival at Fort George, and it was my intention to have forwarded it from that place by major Witherell, of the Michigan volunteers .-I made application to the commanding officer at that post, and was refused; he stating that he was not adthorised, and general Brock was then at York .-We were immediately embarked for this place, and major Witherell obtained liberty at Kingston to go home on

This is the first opportunity I have

had to forward the despatches. The fourth United States' regiment is destined for Quebec, with a part of the first. The whole consist of a little over three hundred. Sir George Prevost, without any re-

quest on my part, has offered to take my parole, and permit me to proceed to the states. Lieut. Anderson, of the eighth regi-

ment, is the bearer of my despatches. He was formerly a Lieut, in the Artillery, and resigned his commission on account of being appointed Marshal of the Territory of Michigan. During the campaign he has had a command in the Artillery; and I recommend him to you as a valuable officer.

He is particularly acquainted with the state of things previous and at the time when the capitulation took place. He will be able to give you correct information on any points, about which vou may think proper to enquire. I am very respectfully,

Your most obedient servant, W. HULL. Hon. W. Eustis, Secretary of the Department of War.

Fort George, August 26, 1812. Sin-Enclosed are the articles of capitulation, by which the Fort of Detroit has been surrendered to Major

General Brock, commanding his Britannic Majesty's forces in Upper Canada, and by which the troops have become prisoners of war. My situation at present forbids me from detailing the particular causes which have led to this unfortunate event. I will, how-

ever, generally observe, that after the surrender of Michillimackinac, almost. every tribe and nation of Indians, ex-cepting a part of the Miamies and Delawares, north from beyond Lake Superior, west from beyond the Mississippi, south from the Ohio and Wabash, and east from every part of Upper Canada, and from all the intermediate country, joined in open hostility, under the British standard, against the army I commanded, contrary to the most solemn assurances of a large por-

tion of them to remain neutral; even the Ottawa Chiefs from Arbecrotch, who formed the delegation to Washington the last summer, in whose friendship I know you had great confidence, are among the hostile tribes, and several of them distinguished leaders. Among the vast number of chiefs who led the hostile bands Tecumseh, Marpot, Logan, Walk-in-the-wa-ter, Split-Log, &c. are considered the principals. This numerous assemblage of savages, under the envire influence and direction of the British commander, enabled him totally to obstruct the only communication which I had with my country. This communication had been opened from the settlements in the state of Ohio, two hundred miles through a wilderness, by the fatigues of the army, which I marched to the frontier on the river Detroit. The body of the Lake being commanded by the British armed ships, and the shores and rivers by gun boats, the army was totally deprived of all communication by water. On this extensive road it depended for transportation of provisions, every other supply, on pack horsesall its operations were successful until its arrival at Detroit, and in a few days it passed into the enemy's country, and all opposition seemed to fall before it. One month it remained in possession of this country, and was fed from its resources. In different directions, detachments penetrated sixty miles in the settled part of the province, and the inhabitants seemed satisfied with the change of situation, which appeared to be taking place—the militia from Amherstburg were daily deserting, and the whole country, then under the control of the army, was asking for protection. The Indians generally, in the first instance, appeared to be neutralized, and determined to take no part in the contest. The fort of Amherstburg was 18 miles below my encampment. Not a single cannon or mortar was on wheels suitable to carry before that place. I consulted my officers, whether it was expedient to make an attempt on it with the bayonet alone, without cannon, to make a break in the first instance. The council I called was of the opinion it was not .- The greatest industry was exerted in making preparation, and it was not until the 7th of Aug. that two 24 pounders, and three howitzers were prepared. It was then my intention to have proceeded on the enterprize. While the operations of the army were delayed by these preparations, the clouds of adversity had been for some time and seemed still thickly to be gathering around me. The surrender of Michillimackinac opened the northern hive of Indians, and they were swarming down in every direction. Reinforcements from Niagara had arrived at Amherstburgh under the command of colonel Procter. The desertion of the militia ceased. Besides the reinforcements that came by water, I received information of a very considerable force under the command of maj. Chambers, on the river Le French with four field pieces, and collecting the militia on his route, evidently destined for Amherstburgh; and in addition to this combination, and increase of force, contrary to all my expectations, the Wyan-

dots, Chippewas, Ottawas, Pottawata-

mies, Munsees, Delawares, &c. with

whom I had the most friendly inter-

course, at once passed over to Am-

hertsburg, and accepted the tomshawk
