LAND FOR SALE.

AGREEABLY to the last Will and Testament of Jeremiah Hayes, deceased, I will proceed to sell on the premises, on , Wednesday the 12th day of April next, all the land belonging to the said deceased, viz. one tract containing about one land of Thomas Buchanan, Esq. and the land of Mr. Samuel Lynch: Also, the half of an Island, in the Potomac, containing seven acres and three quarters. These lands are as good, and as well adapted to grain and clover, as any in the county. There are about fifty acres of river bottom, thought to be as good as any bottom from Cumberland to the mouth of said river. The buildings are a good log dwelling house and kitchen, a smoke house, corn crib and stable-Also, two apple orchards and a peach orchard in the height of bearing. Persons wishing to purchase, may see the lines, by applying to Mr. Benjamin Meades, living on Chew's farm, and near the premises. An indisputable title will be given and possession may be had immediately-The terms will be made easy, and due attendance given, at the time and place of sale, by JOHN WEST, Executor.

N. B. There are about one hundred acres cleared, the rest in timber.

(5 W.

March 1, 1815.

GOOD BARGAINS of Houses and Lots may be had if applied

for immediately. BLANK DEEDS FOR SALE AT THIS OFFICE.

To the Freeholders of the Dis. trict composed of the Counties of Berkeley, Hampshire, Hardy and Jefferson.

FELLOW CITIZENS

I offer myself to your consideration as candidate to represent you in the next Congress of the United States. It is possible the curious may be disposed to inquire, why I have become a candidate without the sauction of a committee? To this interrogatory, I answer, that the recent method of nominating candidates by committees, however highly I may incline to appreciate the practice, is, ngvertheless, as it seems to me, no way preferable to the ancient custom, which every one understands. Again, I have been induced to declare myself at this time. and in this way, by request of my friends. who think with me, it is the wish of a majority of the Freeholders of the Districk If, bowever, we should be mistaken in this particular, whatever the result may be, I will cheerfully submit to, when fair by ascertained on the day of the Election all I desire is to give the people an opportunity of making a selection, and all I ask, is an unbiassed expression of public opinion. This manner of proceeding appears perfectly congenial with the first principles of our government, with all our political institutions, and consequently can be liable to no rational objection .-Here, perhaps, it may not be improper to premise, that I trust my deport ment on this occasion will be found fair and manly; and that if I should men with an opponent, he shall receive from me, all the politeness and decorum, due from one gentleman to another.

To those gentlemen in the upper parts of the district, with whom I have not the pleasure of a personal acquaintance, I am persuaded I shall be exportated from the myself, when they are informed, that I am a Farmer in the middle walks of life. and that if honored with their suff ages, my circumstances are such, that I will neither be driven from the path leading to the prosperity of our country, by want or poverly, nor allured from it by avarice or ambition.

Citizens of the District, if an ardent attachment to my native soil; if many friends and relatives, whom I esteem and venerate; if a numerous progeny intertwined with every moral perception of my heart; if either, or all these considerations combined, can rivet a man to his country and to liberty- These motives, these inducements, which in my estimation, are the most powerful that can operate on the human mind, shall be left by me, as pledges in your hands, that I will stedfastly adhere to your interest, and the honor of the nation.

I am, gentlemen, your humble servant, MAGNUS TATE. Berkeley County, Jan. 19, 1815.

CF WE are an horised to state that FRANCIS WHITE, Esq. will be a candidate at the election in April next, to represent the counties of Hardy Hampshire, Berk ley and Jefferson, in the nex Jongress of the U.S.

> RIGHMOND, FEB. 7. MEDICAL NOTICE.

The prevailing Epidemic, known in different sections of the country, by different names-in the western states, by the appellation of the cold plague, is properly a grade of typhus fever. In regions where it rages, there must be present with complete and equable impetus, throughout the whole mass. Those vessels more remote from the centre of motion, must languish most. Hence the surface is first enfeebled; and external in cold houses, or are badly supplied with fuel for fires and especially such as are exposed to fatigue and to the weather, will. furnish the greater number of instances of this form of disease. The enfeebled surface under the influence of cold which it is not prepared to resist, is imperceptibly brought into a condition approximating to a state of death; whilst the powers of life repelled from the surface and concentrated upon the vital organs produce a' storm of excitement which threatens

speedy destruction-The excitement, thus pent up, determines upon the head, upon the chest, and upon the glands of the throat-

Upon this theory of the disease, blood letting must necessarily, in most instances, be pernicious. By the sudden loss of blood, the surface, almost deprived of life, is instantly left destitute of excitement; that is reduced to a state of death. No measures within the reach of human power can afterwards prevent the destruction of the patient.

For the cure, the first intention should be by the application of heat, in some way to restore a due portion of excitement to the surface. And this can be done more speedily and effectually, by the agency of the patent steam bath, where it can be had than by other means. After the use of the bath the bowels should be cleared by a gentle but brisk cathartic : sav salts, senna and manna, after the operation of the cathartic, the bath should be repeated; and if the symptoms still continue, a large blister should be drawn upon any part most contiguous to the seat of pain. And in any very alarming case, it would be highly useful to wrap the patient in a blanket, wrung out of heated spirit of very high proof, in which a portion of spirit of terpentine has been previously dissolved. Possibly, in some instances, this treatment might supercede the necessity of blisters. If, however, the throat be considerably affected, a blister to be applied to the neck, to extend down the back or breast, so as to secure a blistered surface, equal in area to an hundred or an hundred and twenty square inches. A second or third catharc may frequently be found necessary: but no blood letting should be tried until the excitement of the surface is by some means first properly secured. The explanation here given of this

slarming complaint, will account for its thing like contagion. And regular liv. ng, moderate exercise, and a constant use of good fires, will be found generally Sectual to prevent its assault.

SAML, K. JENNINGS. Feb. 6th, 1815.

will be particularly necessary to prevent a | of the confusion, in which the explosion | a religious sect of christians, and not the confined state of the bowels, by using of the magazine involved the town or the abode of a hostile tribe of savages. > Department of State, Feb. 28, 1815. Sir-I have had the honor to receive your letter, requesting, on behalf of the committee of foreign relations, any information which this department possesses, relative to the misconduct that has been imputed to the American troops in Upper Canada during the late war, and in reply I have the honor to state that the charges appear to be confined to three. 1st, the alledged burning of York; 2d, the burning of Newark, and 3d, the burning of

ravian towns. 1st. The burning of York, or of any of its public edifices, or of any of its private | with the vengeance that had been inflicthouses, has never been presented to the ed; and, in his proclamation of the 12th view of the American government, by its of January, 1814, he expressly declared, own officers, as matter of information; that for the burning of Newark, "the opand it never was exhibited by the British government, or any of its officers, as matter of complaint, until it was asserted in the address of the governor in chief to the provincial parliament of Canada, on the 24th of January, 1915, "that, as a just retribution, the proud capitol at Washington, has experienced a similar fate to that inflicted by an American force, on the seat of government in Upper Canada." This assertion, having led to an inquiry, I am enabled, from official documents, and general information, to state the foltion of the committee.

lowing facts of the case for the informa-The town of York, in Upper Canada, was taken by the American army, under the command of Gen. Dearborn, on the 27th of April, 1813, and it was evacuated on the succeeding 1st of May; although it was again visited for a day, by an American squadron under the command of Com. Chauncey on the 4th of August. At the time of the capture the British troops on their retreat, set fire to their magazine, and great injury was done by the explosion, to the property, as well as to persons within the range of its effects. At the time of the capture as well as at the time of Commodore Chauncey's visit, the public stores were seized, and the public store houses were destroyed; but the destruction of public edifices for civil uses, or of private property, was not only unauthorised, but positively forbidden, by the American commanders; and, it spine like contribut referring to any destroyed by the American troops. It has recently, however, appeared, that a public building of little value, called the parliament house, (not the government house,) in which it is said that an American scalp was found, as a part of the decoration of the speaker's chair had been burnt; whether it was so, and if it was, P. S. When this affection prevails it whether it was an accidental consequence

dividual, has not been ascertained. The ** Benevolent Editors of newspa- silence of the military and civil officers of the provincial government of Canada chairman of the committee of foreign relations. seems to indicate, that the transaction was not deemed, when it occurred, a cause, either for retaliation or reproach.

2d. The burning of Newark, adjacent to Fort George, occurred on the 10th of December, 1813. The act was vindicated by the American general, as necessary to his military operations; but as soon The committee on foreign relations, to as the American government heard of it, whom was referred the message of the instructions, dated the 6th of January, President of the United States on the 1814, were given by the department of 26th of September last, respecting the war, to major general Wilkinson, "to disavow the conduct of the officer who by the enemy on the plea of retaliation, | committed it, and to transmit to governor Prevost, a copy of the order, under cohad ensued the wanton and unjustifiable destruction of Newark, passing the bounds of just retaliation, they were to be attributed to the influence of irritated of the government of the United States, which had for its object the devastation of private property."

But the disavowal of the American government was not the only expiation of the unauthorised offence committed by ts officer; for, the British government undertook itself, to redress the wrong .-A few days after the burning of Newark the British and Indian troops crossed the Niagara for this purpose; they surprised and seized Fort Niagara; they burnt the villages of Lewistown, Manchester, Tuscarora, Buffaloe, and Black Rock, desolating the whole of the Niagara frontier, the Indian villages usually called the Mo- and dispersing the inhabitants, in the extremity of the winter. Sir George Prevost himself appears to have been satisfied portunity of punishment had occurred; that a full measure of retaliation had taken place, and that it was not his intention to pursue further a system of warfare, so revolting to his own feelings, and so little congenial to the British character, unless the future measures of the enemy should compel him again to resort to it." With nis answer to major general Wilkinson, which has been already noticed, he transmitted a copy of the proclamation, "as expressive of the determination as to his future line of conduct," and added, "that he was happy to learn, that there was no probability, that any measures, on the part of the American government, would oblige him to depart from it."

3d. The places usually called the Moravian towns, were mere collections of Indian huts and cabins, on the river Re trench or Thames, not probably worth in the whole, one thousand dollars. The Indians who inhabited them, of whom were some notoriously hostile to the U. States, had made incursions the most cruel into their territory. When, therefore, the American Army under general Harrison invaded Canada on the

1813, the huts and cabins of the hostile Indians were destroyed .-But this species of warfare has been invariably pursued, by every nation engaged in war with the Indians of the American continent. However it may be regretted on the score of humanity, it appears to be the necessary means of averting the still greater calamities of savage hostilities, and it is believed, that the occurrence would never have been made the subject of a charge against the American troops, if the fact had not been misrepresented or misunderstood. Many people at home, and most people abroad, have been led to suppose, that the Moravian towns were the peaceable settlements of

I have the honor to be, &c. JAS. MONROE. To the hon, William W. Bibb.

Navy-Despartment, Fcb. 18. Sir-In compliance with the request of the committee of the Senate, communicated to me by your note of the 14th current, I have the honor to transmit to you, herewith, extracts from the letters of commodore Chauncey to the Secretary of the Navy, on the subject of destroying the public store houses and stores at York, in Upper Canada, and which is all the information in this department on

that subject. I have the honor to be, very respectfully, sir, your obedient servant, B. W. CROWNINSHIELD.

Hon. Wm. W. Bibb. Chairman of a committee of the Senate.

Extract of a letter from commodore Isanc Chauncey to the Secretary of the navy, dated off York, U. C. April 20, 1813. "The enemy set fire to some of his principal stores containing large quantities

From the same to the same, dated off Nia-

gara, Aug. 4, 1813. "In the evening of the 30th ultimo. we weighed and stood for York, arrived and anchored in that harbor, at about 3, P. M.; on the 31st, ran the schooners into the upper harbor, landed the marines and the soldiers, under the command of Colonel Scott, without opposition; found several hundred barrels of flour and provisions in the public storehouses, five pieces of cannon, eleven boats, and a quantity of shot, shells, and other stores; all which was either destroyed or brought away. On the first instant, after having received on board all that the vessels could take, I directed the barracks and the public storehouses to be burned; we then re-embarked the men, and proceeded to this place, where I arrived yester-

Letter from General Henry Dearborn to the Hon. Joseph B. Varnum, a member

of the Senate. Boston, October, 17, 1814.

Dear Sir-In reply to your letter of the 11th inst. I assure you in the most explicit manner, that no public or private buildings were burned or destroyed by the troops under my command, at York, in Upper Canada, excepting two blockhouses, and one or two sheds belonging to the navy yard. I placed a strong guard in town with positive orders to prevent any plunder or depredation on the inhabitants; and when leaving the place, a letter was received from judge Scott, chief justice of the superior court, in which he expressed his thanks for the humane treatment the inhabitants had experienced from our troops, and for my particular attention to the safety of their persons and property. A frigate on the stocks, and a large storchouse, containing their naval stores, were set on fire by the enemy, subsequent to their offer of sur-

rendering the troops and public property. Several of the most valuable public buildings, connected with their principal military positions, were destroyed by the explosion of their magazine, which proved so fatal to our troops; and although there were strong provocations for burnng or destroying the town, nothing of the kind took place, more than I have already mentioned, either by the army or

Yours, with respectful esteem, H. DEARBORN. Hon. Joseph B. Varnum.

INTERESTING LETTERS.

Extract of a letter from Paris, published in the London Statesman.

"Three-fourths of the population who ppear in public are military. In taverns I have had some opportunity of conversng with them, and hearing their observaions amongst each other-They universally breathe war and venom against all Europe, and particularly against England. The freedom of conversation is truly astonishing, and indeed alarming. I have heard a man declare in the presence of

to a fictitious general, Valhubert.

the French people are now very different | American coast." from what they were before the revolution. It is easy to observe, that the enthusiastic attachment to the Bourbons offormer days no longer exists-not a single Bourbon sign is to be seen over a shop or wine-house in the country towns, and scarcely any even in Paris. Copy of a letter from Brig. Gen. Winchester, to the Secretary of War, dated Mobile, 17th Feb. 1815.

SIR .- It becomes my duty to communicate to you the unpleasant news of the loss of Fort Bowyer. It was closely invested by land, as well as water, on the 8th inst. On the 10th and 11th I passed a detachment over the bay with a view to divert the enemy from his object; but it arrived about 24 hours too late, though time enough to capture one of the enemy's barges with 17 seamen, who say the garrison capitulated on the 12:h; that the besiegers had advanced their works on the land side to within certain musket shot of the parapets of the fort; that the loss in killed on either side is inconsiderable. I am io possession of no other account but that which comes from the prisoners. About 30 of the enemy's vessels; besides boats and barges, are laying within the bar and above Mobile Point, and several ships of the line on the south and west of Dauphin Island. The wind is fair, and I expect the honor of seeing them here every night--if I do; I have great confidence my next will be on a pleasanter subject. I have the honor to be, with considera-

tion of great respect, your most obedient great praise. They nailed their own co-

tured by the enemy's barges after the

troops had landed.

The Privateer Chasseur.

Capture of his Britannic Majesty's Schr. St. Lawrence, Lt. James E. Gordon, commander, by the private armed brig Chassour, of Baltimore, Thomas Boyle, Esq. commander.

Letter from captain Boyle, to Mr. George P. Stevenson, one of the owners of the Chasseur,

At Sea, March 2, 1815 Dear Sir-I have the honor to inform you, that on the 26th Feb. being about

| Lieutenant Colonel Lawrence to General | I received the information that the enemy , two leagues from the land - At 11 A. M. intended passing this Fort to co-operate | discovered a schooner, bearing N. E. of with their land forces, in the subjugation | us, apparently running before the wind; of Louisiana. and the destruction of the | made every possible sail in chase, the city of New-Orleans. To effect this with | convoy in sight from the mast head, to more facility, they were first with their | leeward, laying to off Havana; at meriheavy bomb vessels to bombard this place | diam, gaining fast on the chase, that apinto compliance. On the grounds of this | peared to be a large, long, low, pilor built information, I turned my attention to the | schooner, with yellow sides - she hauled up more to the northward, and apparentmagazines in different parts of the garri- ly was, endeavoring to escape us. At son, that if one blew up I could resort to | half past meridian I fired a gun and hoistanother, built covers for my men to se- | ed the American flag, to ascertain, if nossible, the nation which she belonged to; but she showed no colors-she was carrywithout the work. Early in the day of | ing a press of sail, and in a few minutes. the 7th inst. I was advised of their ap- | carried away her foretopmast. She was proach, and on the 9th at a quarter past | at this time about three miles from usthey cut away the wreck of the topmast immediately and trimmed her sails sharp they anchored two and one quarter miles by the wind. At 1 P. M. drawing up with below-at half past eleven, and at half him very fast, she fired a stern chase gun past twelve they advanced two barges ap- at us, and hoisted English colors, showing at the same time only three ports, in the side next to us.

> Under the impression that she was a running vessel bound to Havana and ham of the Navy, to open on them ; its | weakly armed and manned, I tried every well directed shot caused a precipitate re- effort to close with him as quick as possible. Saw but very few men on his deck. and hastily made preparation for action. though my officers, myself and men, did not expect any fighting, of course we were not completely prepared for action. At 1 25 we were within pistol shot of him when he opened a tier of ten ports on a side, and gave us his broadside of round, grape and musket balls .- I then opened the Chasseur's fire from the great guns and musquetry, and endeavored to close with him for the purpose of boarding; we having quick way at the time, shot ahead under his lee, he put his helm up, for the purpose of wearing across our stern and to give us a raking fire, which I prevented by timely taking notice of his intention, and puting our helm hard up al-

so. He shot quick ahead, and I closed within ten yards of him; at this time both fires were heavy, severe and destructive. I now found his men had been concealed under his bulwark, and that I had a heavy enemy to contend with, and at 1 40 gave the order for boarding, which my brave officers and meu cheerfully obeyed with unexampled quickness. instantly put the helm to starboard to lay her, she surrendered. Mr. W. N. Christie, prizemaster, from his courage and activity got on board of her ; out boat and sent her on board; she proved to be His Britannic Majesty's schooner St. Lawrence, commanded by Lt. James E. Gordon, formerly the famous privateer Atlas manifested the greatest firmness and the of Philadelphia, built in the Chesapeake, mounting 15 guns, 14 twelve pound carronades, upon an improved construction, and a long nine; allowed a complement of seventy-five men, and had on board a number of soldiers, marines and some gentlemen of the navy passengers; bound express to the squadron off New Orleans; having by report of her commander, six killed and seventeen wounded; but by various other reports, 15 killed, and 23

wounded, most of them badly wounded, himself among the latter. The C's sails and rigging suffered much, and from the zeal and anxiety of her brave crew to do their duty, and thereby exposing themselves, I had five men killed and eight wounded, myself amongst the latter, though very slightly. Thus ended the action in fifteen minutes after its commencement, and about 8 mi-

ry respect, equal to our own. The Chasseur mounts six 12 pounders and eight short 9 pound carronades, (the -latter taken from one of her prizes) ten of our 12 pound carronades having been thrown over board while hard chased by he Barossa frigate; and she had on board 89 men, besides several boys.

nutes close quarters, with a force, in eve-

From the number of hammocks, full of bed clothes, &c. found on board the St. Lawrence, it would lead to a belief that many more were killed than reported .-The St. Lawrence fired double the weight of shot that we did ; from her 12's, at close quarters, she fired a stand of grape, and 2 bags, containing two hundred and twenty musket balls eachwhen from the Chasseur's nines, she fired sia and four pound shot, having no othe except some few grape. Was I to close this letter without mentioning the deermined bravery of my first lieutefant, Mr. John Dicter, I shall be acting very
