FRENCH HISTORY.

TO THE EDITOR OF THE BALT. PATRIOT.

Some very interesting "Letters on the Revolution in France," by a French general officer, have been lately published in New-York. Though evidently written under numerous disadvantages, precluding the attention necessary to digest the matter and polish the phraseology, they may nevertheless claim the merit of rigid candor, to which few authors are entitled, who write in relation to the "powers that be," or to parties June, the emperor had appointed marshal which have so recently left the stage.

"The enemies being put upon their guard at all points, and having been thus enabled to unite two scattered armies, the Prussians and the English, more than double in numbers to the French, the able and bold dispositions of Napoleon were made abortive through the treason of Bourmont, Clouet Gordon, &c.

"The emperor had chosen for his great movement behind the forest of Fagne, the very same day that the duchess of Cumberand was to give a ball to the officers of the staff of the English army at Brussels Had it not been for the treason of Bourmont, &c. the Prossian and English armies would have been surprised in their cantonments; they would have been beaten in detail, and no general battle could have taken place. When the emperor returned from ba, the marshal being sent by the king to Franche Comte, Bourmont, as well as the marshal, abandoned the royal cause, when they saw how irresistible was the tide of opinion in the country in favor of Napoleon. Hence he affected the greatest zeal for Napoleon. He hastened to Paris to pay him his court; and from the 28th or 29th of March. he was to be seen almost every day at the emperor's levee, who nevertheless was very reluctant to trust him with a command.
