So many should a debt contract, And then forget to pay! Now I'm oblig'd to sweat and toil, And wear my strength away. For those who when they get the work,

· Forget to bring the pay. What vain excuses men will plead,

A payment to delay; And many think that promises, Will answer well for pay.

Another says hard times, hard times, Don't hurry me, I pray, Not thinking that more hard the times, The more I want my pay.

There others are, whom should you dun, And dun till you are grey,
Would never pay a cent, unless
Compell'd by law to pay.

He'll do as well without as I, Says one, and wait he may; The affluent cannot see my need, The poor think hard to pay.

Some rather choose to put it off Until some future day, Then they forget they owe a cent, And so will never pay.

Therefore from men of different sorts, And men of different way, The rich, the poor and promiser, Tis hard to get my pay.

For once let reason be your guide, Attend without delay,
How can a poor mechanic live,
Unless he gets his pay.

Come then and pass this new resolve, And to yourselves thus say, Although I negligent have been, I now myself will pay.

AMSTERDAM, APRIL 29.

There are here more than 600 unhappy Swiss and German families who want to go to America, destitute of every thing; men, women, and children, run about the streets begging a morsel of bread to keep them from starving, while waiting their departure, some of them, who were provided with money to pay their passage, having been deceived and plundered by a German, who made them believe that he was commissioned to receive (on giving them a receipt) part of the passage money on account. he promised them a good vessel, &c. He made some of them proceed to the Helder, the others were to embark here, but in neither of the two ports was there either vessel or Captain of the names which he had given them. The pretended agent vanished last Friday, carrying away a sum of money. which is estimated at several thousand florins, leaving his victims in the most deplorable situation .- Every measure has been taken to discover this swindler, but hitherto without avail. It is believed that measures will be adopted to relieve the distress of those unfortunate people who have suffered themselves to be imposed on by knaves.

#### THE MISSISSIPPI TERRITORY

NASHVILLE, (TEN.) JUNE 10

We are gratified in being able to state that the division of the Mississippi territory, made by the last Congress is very generally approved of by the people. The election for the convention to frame a State constitution took place in the western part last week. where in most cases gentlemen of respectais anticipated it will not be very long before the people of the eastern section will also be permitted to elect a convention. It will settle faster than any new country ever did. General Coffee is now surveying one hundred townships adjoining Madison county, lying on both sides of the Muscle Shoals. off into three counties. All west of Madison county, north of Tennessce river, and south of the State of Tennessee, is made one county, and is called Elk County, the seat of justice for which is at Fort Hampton. All south of Tennessee River, east of the Chickasaw boundary line, north of the high lands that divide the waters of the Tennes.

see from the waters of the Mobile, and west of the Cherokee boundary line, is made another county, called Blount County, the seat of justice of which is at Milton's Bluff, All south of Blount county, to the east of Tombigbee river, to the north of Wark county, and west to the highlands that divide the waters of the Alabama from the waters of the Tombigbee, is made another county, called Sevier County, the seat of justice of which is at the falls of the Black Warrior.\* These counties are settling very fast and by the time the land can be sold, will contain a dense population. It is expected the sale of those lands will be at Huntsville, in November next, and they will sell higher per acre than any public land ever offered by the U. States: It is supposed the hundred townships now surveying, will produce nine millions of dollars, when sold; but, from the short time allowed by law to keep the office open, it is apprehended that only a small part can be exposed for sale this fall. The consequence of which will be, that many who are now vesting their funds in script expecting to purchase lands, will be disappointed in their calculations, as they will probably have to wait until another law is passed to continue the sales.

\* Phis is the highest point of navigation of the waters of Mobile; is surrounded by good land, and is only, 70 miles from Huntsville; of course we may soon expect to see a large thriving town at this place.

H. Perry of the U. S. Navy, by John Heath, late Capt. of the marine Corps." Tho this is the title of the pamphlet, charges of equal " deliberate injustice and malevotent persecution" are also exhibited against Commodore Chauncey. Capt. Heath states that, on the 16th of September last, at Messina, Capt. Perry, commanding the Java, sent for him (Heath) Captain of the Marines, then indisposed and undressed in his state room, to come on the Quarter deck: before he was dressed another message came. He soon however appeared on deck. Perry ordered him to muster the marines. This being done, Perry pointed to the hatch way and said to Heath; "you may go below, Sir, I have no farther use for your services, on board this ship." Here he remained two days, when he solicited his arrest and charges, by a note to Perry. On reading this, Perry sent for Heath, gave him most abusive language, and a blow. Dec. 28th, Chauncey wrote to Heath that a court martial would set the next day, to hear any charges Heath might bring forward against Perry. Heath replied he was himself a prisoner under arrest, had been confined above three months, leave being refused to go on shore, and the application treated with contempt; and he wished previously to be himself tried; however, if Chauncey insisted otherwise, he would bring forward his charges against Perry. Chauncey replied, that on account of the arrival of the Spark, he, (Heath) might immediately be tried. Heath states that no officer of the Sparke was on the court martial; that Chauncey and Perry had been determined, by severity and cruelty of long confinement, to compel him to agree to any terms; but, the Spark bringing information that the Java most return immediately to the U States, they were afraid to have the court martial there.
