In woe, or warp'd by life's rude storm

Repeated o'er and o'er again; It sweetens every hope that lives, And rids the aching heart of pain.

That's swiftly stolen from beauty's lip; Though frowning eyes the joy would nip. There is a mutual kiss, that flies,

From lip to lip, unstrain'd and free, When beating heart to heart replies In tones of truest ecstacy. 'Tis there love reigns in greatest power, And revels all the bright day long.

In smiles, nor dreams an angry hour, Will come to blast his haleyon song. There is a kiss in sadness taken, That thrills with bliss mixt up in woe, And fondly whispers, "Oh, forsaken!" Love and life, and all must go!"

Hast seen two hearts long parted meet, With heaven's own fire in each fond eye? In hearts as warm, or lips as sweet,

This kiss supplants the struggling sigh.

There is a fervid kiss that tells A touching tale—an earnest pray'r; And hope, and all that in it dwells— Life, love, and joy, and all is there.

There is an odious kiss, that creeps From lips that breathe seduction's air, With many oaths how oft it sweeps Down virtue's barrier!-Maids, beware!

SLAVE TRADE. It affords us pleasure to announce that the United States ship Cyane, Captain Trenchard, has cap-tured four vessels which were engaged in this detestable traffic. The vessels captured are the schooners Plattsburgh, Science, (formerly one of our pilot boats) Endymion and Esperanza. The two former arrived at this port yesterday afternoon; the Esperanza, and Endymion arrived this morning.

A meeting was to be held at Sierra Leone, on

the 6th March, for the purpose of forming an Agricultural Society. Died, on the 29th of April, on board the schr. Esperanza, Captain Robert L. Perry, of a consumption. On the 7th March, at Sherbro, coast of Africa, Colonel Stephen Lush, Jun. of Albany.

"We watered at Sierra Leone, and proceeded immediately to the southward. Since passing Sherbro Island we have detained ten slaving vessels, four of which we send in for adjudication, the others being so well covered with false papers, were given up. The number of vessels engaged in this inhuman traffic is incredible; not less than 200 at present on the coast, all of them fast sailors, well manned and armed, and, I am sorry to add, many of them owned by Arkansas, aithough under foreign flags.

We have been constantly chasing night and day since our arrival on the coast, and sometimes have had several in sight at the same time. We are at this moment in chase of a schooner called the Colodero, which has escaped from us twice already, by very superior sailing, and I fear we shall not be able to come up with her to-day. We have seen but one American trading vessel

The Myrmidon, Capt. J. Leake, came in on Tuesday with five schooners, detained by that vessel and H. M. ship Morgiana, Capt. Sandiland. These vessels are seized, we understand, conti guous to the Galinas, engaged in that abominable board one hundred and five slaves, the others had not completed their cargoes.

It is truly lamentable to reflect on the extent, to which this traffic is now carried on almost in our own neighborhood; indeed it auld appear, that the principal part of these nefarious traders seems confined, in a great measure, to a range of a few legrees north and south of this colony Felt 19 .- Our harbor continues at present a most

A letter from St. Louis under date of the 24th ult informs us, that some difficulty will be experienced on account of the negli gence of the proper officers in issuing the usual proclamation for holding the election.

We understand, that Silver Dollars are mported into the United States from England. Three vessels have recently brought in greater or less quantities. It is said, that in London they cost 59 and a half pence per ounce-equal to 51 and a half pence per dollar-54 pence or 4 shillings 6 pence being the par, the dollars are consequently five per cent, under par. AGRICULTURAL.

The following article from a practical farmer deserves particular attention. A HINT TO CORN PLANTERS.

Dr Moore, of Maryland, who has written a treatise on agriculture, asserts that agriculnately these mad and nefarious projects are ture is more followed and less understood, of no avail, and will only serve to ruin a few than other mechanical branches in the U.

He says, if good ground is cultivated in a proper manner, every person may plant two hills of corn for one he does now, on the

same ground-and the corn will be equally as good, which is a double crop. He further says, the general average depth of corn ground, as broken up and planted, is about three and a half to four inches; and that one week's hot sun, after the ground becomes. droughty, will dry the ground and scorch the and if you plough twelve or fourteen inches
