TANCE'S SARSAPARILLA VEGETA-BLE OR BLOOD PILLS.

FOR PURIFYING THE BLOOD!

BALTIMORE. July 29, 1843.

This is to certify, that I was afflicted with a violent pain in the breast and right arm, which I suppose proceeded from the impure state of my blood. I was recommended to take Hance's Sarsaparilla or Blood Pills, and after taking one box, the pain was entirely removed from my breast and arm. I found them extremely gentle in their operation, and would recommend them to every person in want of a mild purgative.

THE DRUNKARD'S HOME.

Whence avery comfort's field;
Where want, disease and ruin meet,
And every hope is dead!
The drunkard's home, more cheerless far
Than even convict's cell,
With granite wall and iron bar,
For guilty ones to dwell;
O, better far the vanits of death,
For there all sufficiency crass,
And care-worn pigrims yield their breath,
And sleep the sleep of peace.
The drunkard's home! that barren waste!
That desert of the soul,
With one green oasis graced,
Where streams of confort roll;
Sticken as by the simoon's blast,
All blies is prostrate laid,
And pity, weeping, stands aglust
The drunkard's home! the rock-girt strand

The drunkani's home! the rock-girt strand
Where honor shipwrecked lies,
The den where murder dies his hand—
Where Virue, poisoned, dies;
Where Vies spreads round its filthy slime,
Where Falschood forms her lair,
The haunt of Infamy and Crime,
Of Madness and Despair.

The drunkard's home! ye generous youth, Yet from intemperance free, Attend the warming voice of truth, 'And from the poison fice:
Touch not the cup of liquid fire, Beware of habit's chain, Quench the first spark of wild dealre, And spurn the damning bane.

HARVESTS WITHOUT PREVIOUS SOWING.—In the Schnellpost of yesterday we find an account of a method of compelling the wheat plant to become perennial, like grass, and to perfect its grains annually without annual sowing of seed, which has been successfully practiced at Constance, in Germany. It was discovered by a steward of an estate named Kern. His method, after plowing and manuring the land and sowing it with summer or winter wheat, is to mow it in spring before the earmakes its appearance. This process is repeated several times in the season, and the product is used as hay. The plant is then allowed to grow and be cut in the ordinary manner. The next year it ripens earlier and bears more abundantly than when treated in the ordinary manner. It is manured in the rautumn like grass in the meadows, and in spring cleared from weeds. In this manner, from one field four successive harvests have been gathered.— N. Y. Post.

EMARCIPATED SLAVES.—The schr. Thomas H:
Thompson, which arrived at Boston on Wednesday from Richmond, Va., brought 66 emancipated slaves, who recently "belonged" to a gentleman owning a plantation at Seven Mile Reach, Va.—He died about three years ago, and made provision in his will for having them freed, and left a lega-

These are the pight kind of emigrants for lowa.

Population of the Grave.—From extensive calculations it seems the average of human births per second, since the birth of Christ to this time, is about 815; which gives about twenty-two thousand millions; and after deducting the present supposed population of the world, (960,000,000,) leaves the number of thirty-one thousand and forty millions that have gone down to the grave; giving death and the grave the victory over the living to the number of thirty thousand and eighty millions. Of this number in the grave about 9,000,000,000 have died by War, 7,920,000,000 by Famine and Pestilence, 500,000,000 by Intoxicating drink, 13,000,000,000 natural or otherwise.

Thus it will be seen that war and strong drink have sent nearly one third of the human race to a premature grave.

mature grave.

A mechanic in Boston has hit upon a plan of constructing umbrellas, says the Boston Atlas, which will, almost prevent their being stolen!—When it is shut, the end of the handle can be unscrewed, taken off, and put into the pocket; and, in taking it off, it locks the umbrella so that it cannot be opened. So, if a thief should steal or of them, he would find that he has got one with the end of the handle gone, and moreover, that he could not use it, for he would be unable to open it. Neither could he sell it, for he would hardly be able to find a purchaser for an imperfect one.—Thus, it will be perceived, that this invention is all but a preventive to umbrella stealing, incredible as it may seem.

THE UNION.

The London Times hints with confidence an apparent self complacency, at the prospects of nemberment of this Union, as the result of the acquisition of territory from Mexico and the question (of slavery) likely to arise as to the disposa

The Baltimore American, which, Whig though it be, often takes broad and expanded views upor national affairs, says with as much force as beau

The disruption of this Union is not likely t fulfil the predictions, or gratify the wishes of any who look with distrust upon its permanence, or

who look with distrust upon its permanence, or with jealousy at its growing greatness.

"As it has often happened, so it may happen ngain, that a crisis, which looks portenious at a distance, will diminish as it is approached; and when it has been met and passed, one will be surprised that so small a matter could have ever caused so much alarm. Thus the traveller towards Oregon, when he beholds the lofty range of the Rocky Mountains, is terrified at the sight and despairs of crossing them. But as he advances along the route of the South Pass he finds himself, by and by, at the sources of streams which flow to the Pacific, having scarcely been conscious of an ascent and quite unable to determine when the exact line of the highest elevation was passed."

Admitting the heavy expenses of the war, the

Admitting the heavy expenses of the war, the American also regards that question as " a narrow calculation" and for the following sound and patriotic reasons :

"For, among the results of this war, besides the acquisition of territory, the demonstrated fact of our ability to bring powerful armies into the field, at short notice, and to win victories with such at short notice, and to win victories with such newly levied troops against preponderating odds of numbers and discipline, may be of inestimable value in warning foreign nations to keep peace with us on any terms. A war of eighteen months with Mexico may possibly be the means of saving us from a war of some years with England. We here leave out of view the particulars of the origin of the war and the special incidents which characterized the opening scenes of the drama. History will speak of these things and in the end will pronounce, no doubt, impartially. Individuals will figure in those details, creditally or otherwise, as the case may be; but in the or otherwise, as the case may be; but in the vast range of the life and growth of the Republic, the war and its results must be regarded as events national in their character and in-

### THE OLD WHIG ISSUES.

The Whigs are now willing, says the Union to confess in terms that the leading issues which they have rallied upon for the last twenty years are not only no longer available, but that their place has been effectually taken by Democratic measures, to the great prosperity of the country and the complete satisfaction of the public mind.

The Louisville Journal—published under the eye of Mr. Clay, and generally regarded as the especial organ of his opinions—makes its confession on the subject as follows:

"The protective policy is not now an issue before the people, for, in addition to the fact that the present locofoco tariff is unequivocally, avowedly protective in its features, we all know that the payment of the great war debt will require such a tariff, for at least a quarter of a century, as will aff-rd all the protection that the most strenu-vus advocates of protection regard as desirable. A national bank is not now an issue before the people, for the Whigs, although their opinions are unchanged as to the ultimate necessity of such an institution, are resolved to make no movemen in favor of it, as long as the State institution continue their present prosperous career—to make no movement in favor of it, until another financia convulsion shall impress the fact of its necessit upon the minds of the people of the United States.

# GEN. TAYLOR'S PROSPECTS.

champion of Gen. Taylor, has thrust him aside since his late letters. The Mobile Advertiser, the leading Whig journal of Alabama, and once an open advocate of Gen. Taylor's election, now omes out and goes for Mr. Clay "against the world," if Harry of the West will consent to be a candidate. The Advertiser, moreover, employs the following strong language, which is an evident thrust at General Taylor himself. The editor does not seem to regard him as much of a Whig:

Whig:

"And, further, we trust the great Whig party
of the United States will support no man who does
art know himself, whether he be a Whig or a Democrat, or who does for know his own opinions on the
great leading political questions of the day. In regard to Henry Clay we all know him, and know
where to find him. We know him to be, all over,
heart and soul, American! In the language of
heart and soul, American! In the language of heart and soul, American! In the language of a cotemporary—the world knows him and admires him—his enemies know and respect him. The cople are not willing to give him up; they are reluctant to listen to the mention of any other name. Especially do we object to any course that shall place in the high station of Executive of this nation any man toho is not a Whig openly, boldly, decidelly, and who will not fearelessly arous the course for a regnature agitation. it. Without any desire for a premature agitation of the Presidential question, these are our senti-

To show the effect produced by Gen. Taylor's late letters, we quote a few passages from neutral papers, which are supposed to watch the signs of the times without the coloring of party feeling . From the New Orleans Times.

Appearances indicate a lukewarmness towards Appearances indicate a lukewarmness towards Gen Taylor on the part of many of the Whig purnals, especially at the North. These presses seemed hugely inclined to make Gen. Taylor a "no party President" so long as they believed him a thorough-going Whig; but they show signs of faltering, now that his sentiments, so far as may be gathered from his published communications, prove him to be no politician, and an avowed opponent of party exclusiveness.

From the Mobile Herald.

The excitement in favor of Gen. Taylor seem to be growing cool in the East, and indeed in the

South also.

This is a fact (says the N. O. Delta) which the most unobservant cannot fail to perceive—it is vident, not to go beyond our own city. With the Halletin it is—

"Oh, no, we never mention ins.
His name is never heard."
The National scarcely now ever chaunts a Taylor staye. If ever it does it is sure to end with—

DO JUSTICE TO ALL.

There is a catholic spirit (says the Richmond Enquirer,) in the following well expressed and sound views of the Petersburg Republican, which must commend them to the patriots of all parties How different from the recent infuriated attacks of some of the Whig press upon gallant officers, who have met the brunt of battle, but whose Democratic principles make them a target for abuse! How different from the wanton and bitter sneers and vituperation, aimed at an administration, under whose auspices our arms have won such brilliant victories! The country will do justice to all, whether at home or abroad, whether Whig or Demogra'. The reflections upon the Wilmot Proviso question are judicious and well founded. We fully agree with the writer, that " the ship will weather the storm." But to effect this end, the conservative spirit of the Constitution must be fally carried out:

"The gallant and experienced Scott has performed his great task formed his great task, with a fidelity and vigor, which will reflect new honor on that distinguishwhich will reflect new honor on that distinguished General. Virginia may well be proud to claim him and Taylor as natives of her soil. The country-will do justice to the merits of all her citizens, of whatever party, civil or military, who by their services shall have contributed to bring this war to an carly and honorable close. When the prejudices and excitements of the day shall have subsided, history will do ample justice to the patriotic energy, the steady perseverance and the judicious conduct of Mr. Polk's Administration in the management of this war. The toils and hardships endured by the army and navy will be recounted, their victories will be celebrated, and the loss of those who have fallen by disease or the sword will be deplored and their examples held up to excite the emulation of future times. The close of this war will be fraught with great consequenof this war will be fraught with great consequences. The terms of the treaty will excite universal interest, especially as to the acquisition of new territory. Should a vast tract of New Mexicea. The terms of the treaty will excite universal inferest, especially as to the acquisition of new territory. Should a vast tract of New Mexico and California be acquired by treaty—a new and momentons question will arise as to the terms and conditions of its territorial organization.—
The Wilmot proviso will again be brought forward, and it is to be apprehended, that a contest like that of the Missouri compromise, but of greater magnitude and still more stormy will agitate—perhaps convulse the Union. The future will teem with great events. It is to be hoped, however, that the spirit of compromise, in which the Constitution was framed, will still preserve it amid all the shocks of party or sectional fury, and we doubt not that the ship of State will weather the storm. Whatever ultraists on either side may threaten or fear, the great body of the people have confidence in the stability of the Union. To ensure this, nothing is so necessary as a preservation of the ederal government within the limits prescribed by the Constitution. If this was necessary when there were only thirteen States—bow more more exercises the constitution. names prescribed by the Constitution. It has was necessary when there were only thirteen States—how much more necessary, now, when the number has been so wonderfully enlarged, and every new acquisition of territory will increase this necessity. The Union is safe while the General Government remains within its constitutional sphere."

### THE OLD GAME.

We observe that some of the more prominent. Whig journals, the Louisville Journal, Mr. Clay's Organ at their head, are repeating the disgraceful scenes enacted by them so successfully in the memorable campaign of 1840. They are repudi-ating their old cherished measures, we are bound to believe, for no other purpose than to mislead and deceive the people. A late number of the Journal, for instance, after declaring that the protective policy was no longer an issue before the reople, thus speaks of a National Bank :

"A National Bank is not now an issue before the people, for the Whigs, although their opinions are unchanged as to the ultimate necessity of such an institution, are determined to make no move in favor of it, as long as the State institutions conin favor of it, as long as the State institutions continue their present prosperous career—to make no movement in favor of it, until another financial convulsion shall—impress the fact of its necessity upon the minds of the people of the United States. Thus most of the issues that divided the parties in 1832, in 1836, in 1840, in 1844, are now either obsolete or are adjourned to a future, and, perhaps, a distant day; the awkward and miserable subtreasury, with one hand full of gold and silver for the government, and the other full of rags for the people, being almost the only one of the old questions.

We can place no reliance, whatever, in these professions of the Whigs. We believe they are made to deceive. It is but a repetition of the game of deception which they played off but too successfully upon a confiding people in 1840. Who does not recollect the indignation with which they then denied that they were in favor of a National Bank or the protective policy, and the triumphant manner with which they referred to the recorded votes and oft expressed opinions of their candidates both for President and Vice President, in opposition to those measures, as conclusive evidence of the truth of their assertions. Yet, in the face of these facts, they scarcely assumed the reins of power, before they attempted to foist those obnoxious measures upon the country-abusing without measure, and without stint, the Vice President their choice, because he had too much regard for his pledges and the best interests of the country to permit them to accomplish their designs.

It requires no prophet to foresee that the Whigs are now preparing to re-enact the same scenes But will the people, after such dear-bought experience, confide in their professions and promises? We cannot believe it.—Lynchburg Republican.

"The officers of the general government are awake to the importance of this subject; and there is no doubt that there will be much agitation in both houses of Congress upon it. In the Senate, I have no doubt, it will be examined in all its bearings; and I sincerely hope that something will be found to arise from it calculated to place our institutions upon a still more firm and enduring the sais than they even now are. The very best thing which can be done, when all is said upon the subject that may be said, will be to let it alone entirely—leaving to the people of the territory to be acquired, the business of settling the matter for themselves; for where slavery has no existence, all the legislation of Congress would be powerlers to give it existence; and where we find it to exist, the people of the country have themselves adopted the institution; they have the right, alone, to determine their own institutions; and, as the matter so exists eleewhere, they are not to be condemned for its existence."

By The Fall Term of the Jefferson Superior Court, will commence on Monday, 18th October. INTERRESTING TRIAL

A Trial of considerable interest was before the County Court of Clarke, on Monday last. An individual, by the name of James L. Andrews, recently from Ohio, was arraigned for having attempted to persuade a negro man, the property of JAMES CASTLEMAN, Esq., to abscond from his master. It appeared on the trial, that the young Mesers. Castlemans, had some reason to suspect the intermeddling of Andrews with their servants, and determined to watch for him. Accordingly on the night of the 18th September, they secreted themselves in their father's barn, where they would have an oportunity of seeing us well as

hearing the approach of any one from the public road. The Negro and Andrews having by some means gotten together, they were heard to enter the barn-Andrews telling the negro the distance to Bath, and from thence to Pennsylvania, and promising his assistance in getting the negro across the water courses that might intervene .-After this, the two separated, Andrews going to the loft for the purpose of sleeping and the negro utending to go to the House. The Mesers. Casllemans, however, were too quick for them, and arrested the negro as he came from the barn, and sent him up to the loft for his friend, Mr. Andrews. They were both secured, and lodged in the juil of the county. The facts as above stated, were elicited by the evidence of Mr. Henry Castleman, the only witness, though there were several others, examined on Monday. The Court deemed the evidence sufficiently-strong to send the priso ner on for further trial, which will take place at he next Spring Term of the Superior Court.

The people of Clarke have suffered so much by the absconding of their slaves during the past year, that the fanatic who is discovered intermed dling with the relation between master and servant in that county, need expect no quarter. In view, indeed, of all the facts, we can scarce see how they can restrain themselves within the slow and uncertain process of the law.

THE CANAL.

In reference to the meeting of the Directors of the Chesapeake and Ohio Canel Company in Balimore, on Tuesday week, the Cumberland Civilian says: "We learn that the contractors mad an exhibit to the Directors, which satisfactorily demonstrated that the amount necessary to con elete the Canal (eleven hundred thousand dollars) and been subscribed by capitalists at the north, i Alexandria, and elsewhere; and that in consc mence of this showing the board adjourned to neet the State's Agents on Friday next, to arrange the details necessary for the immediate commence ment of the work. If nothing occurs to man these flattering prospects, it is expected that operations on the Canal will be commenced on or about the 15th of October."

MARBLE YARD.
Those of our cititzens who may wish to procure appropriate mementoes for their deceased friends save every advantage offered at the Marble Yard of Messrs, Anderson & Ring, in this town.-These gentlemen have but recently commenced in this place, and deserve, as we hope they may receive, all the orders that may be needed by our citizens In their line. Their work is of the very neatestand most superior kind, and will compare is vorably with any that can be obtained in Baltimore or elsewhere. The convenience of a yard of this kind in our midst, can be appreciated by those who have been put to the trouble, risque and uncertain ty, of having their orders filled at a distance.

LECTURE ON LIGHT.

Professor Borsfold, who has been entertaining the people of Virginia in different regions with his Scientific Lectures, purposes to delivera Lecture in the Court-house on Thursday evening, on the subject of Light. The movements of light, color prismatic spectrum, &c. The Microscope will e used to illustrate the Lecture, and one hundred and sixty pictures will be exhibited, each one calling forth remarks upon the Action of Light in transmitting the different colors. Prof. B. has ex-cellent Apparatus for exemplifying his subject.

AN UNNATURAL PARENT.

Quite an excitement was occasioned at Harpe Ferry on Friday last, by the discovery of a child in the Government Canal along the Potomac, which had evidently never known the fostering care of an "anxious mother." The child was a fine boy, and was doubtless thrown into the Canal to conceal the guilt of an unnatural parent. An inquest was held over the body, and it was given as the opinion of the jury, under oath, that" the child was born alive, and came to its death by being drowned, by some person or persons, or from some other cause."-Free Press.

UNFORTUNATE APPAIR.

We are very much pained to learn, that on Sunday morning last, Mr. Jone M. Ett.torr, of Warren county, lost his life in a rencountre with John I. Jourson, of the same county. It seems as though an old quarrel had existed between the parties—they met by some means, on the public road, near the "Stone Bridge," a fight ensued, and the sad result was that Mr. Elliott lost his life by having his skull battered to pieces with a fence rail. The deceased was one among the most intelligent and respectable gentlemen of Warren county. He leaves a young family, and a large circle of devoted friends, to mourn his untimely

According to the statement of the Secretary, the receipts into the Treasury, for the first nine nonths, under the revenue Tariff, shew an increase of THREE MILLIONS over the corresconding period under the Tariff of '42. The amount already received is \$26,000,000, and it is estimated that it will reach \$36,000,000 by the close of the year. It will be recollected that the Whig prophets said the amount of revenue under the late act would not exceed \$21,000,000, and some put it as low as \$16,000,000. The reduction of the Tariff, too, was to " ruin the country." Now what has become of these prophecies, and

We learn from the Richmond papers that the tockholders of the Louisa Railroad Company have, by a vote of 1,048 to 78, adopted "Sonthern" route via Charlottesville and Rock-fish Gap, as the line of extension of the Louisa Railroad to the West-General Gordon, the tate proxy, voting with the friends of the South The question between the North ern and Southern route has excited great in-

The Louisa Rail Road, it will be recollected, i finished for a distance of 45 miles; its eastern ter-minus forming the Junction with the Richmond and Fredericksburg Rail Road at a point about 25 miles north of Richmond, and its present wes-tern terminous being at Gordonsville. In consequence of the passage of an act by the last Legis lature of Virginia, making a subscription towards the extension of the road westwardly, the Company directed surveys to be made during the pas summer with a view of ascertaining the most el gible route for the extension, and also the bes the Blue Ridge into the great Valley of Virginia It was generally understood that the Ridge could be passed by a Rail Road at only two places, viz: Rockfish Gap, on the Southern route, and Powell's Gap, on the Northern route. While, therefore. the surveys were in progress the merits and claim of the two routes were matters of discussion, until at length the people of the districts to be affected by the proposed extension became divided into two parties, each upholding its favorite route, and both naking liberal subscriptions towards the consum mation of the object in view. Within a fortnigh past the engineer has submitted his report, in whic decided preference is expressed for the South ern route. More recently the Board of Public Works of Virginia, having the Engineer's report before them, voted unanimously against making the State's subscription, and in favor of a new sur vey. Finally, at the general meeting of the stock-holders of the Louisa Rail Road Company, held on Thursday last, they determined by the large vote of 1,047 to 78, to extend their road by the Southern route, via Charlottsville, to Rockfish

SHENANDOAH IMPROVEMENT.

We feel it to be a duty, says the Alexandria Gaette to collect all the facts we can, going t show the importance of the contemplated improve-ment of the Shenandoah river. The mineral riches of the region of country to be benefitted by the mprovement, are not yet known or appreciated. A letter before us, from a highly intelligent gentleman, well acquainted with the upper country, teman, well acquainted with the upper country, says: "The gentleman who owns the land, on which were shown at Front Royal, informs me that the vein which he accidentally discovered, is several feet thick, where the abrasion of the bank had laid it bare. There can be no reason to doubt its abondance, though there has been poshing done to see dance, though there has been nothing done to ascertain the extent of the mine, as there is, at present, in this region, no demand for the article.—
Coal has been lound all along the foot of the North Mountain in that vicinity. With regard to slate—the quarry is on the bank of the North River, about three miles from Port Republic. It has never been much opened, but from the exposure in many places on the bank, there is manifestly a very extensive field. It would require very little to quarry it, and it is very accessible—as the water is navigable by boats to the very edge of the quarry. As regards iron I suppose any quantity could be manufactured in this region, if there were such a demand, and at such prices, as would render its manufacture profitable. A gentleman has lately discovered on his lands near Port Republic, large quantities of iron ore, which, he says, makes dance, though there has been nothing done to aslarge quantities of iron ore, which, he says, makes iron of the best quality, equal to any he has ever seen. There can, I think, he no doubt but that the greatest abundance of Iron, slate, and coal, might be expected from this section of the State. When it is recollected, that coal, iron, slate, timber, limestone, markle, avenue, the will not be a section of the state. when it is reconcered, that coal, iron, since, the ber, limestone, marble, granite, &c., will not bear transportation on Rail Roads, for any considera-ble distance, and that the conveyance of these ar-ticles, by water, to market will be so advantageous in view of cheapness of carriage, the importance of the proposed improvement of the Shenandon must be seen and acknowledged by all interested in developing the riches and resources of our State.

A MODERN PATRIOT.

One Major Gen. Appleton Howe, who holds a commission from the Governor of Massachusetts, has been recently giving an exhibition of the spirit which no doubt possessed some of his ancestors in the revolution. -He was applied to to join in the funeral ceremonies in Boston, to the gallant Lincoln-a descendant of the able revolutionary stock of that name-who fell at Buena Vista, but that modern patriot, Maj. Gen. Howe, refused to join in the ceremonies, and sent a letter of declination, which contains the following infamous sentiments:

of declination, which contains the following infamous sentiments:

"It seems to me that the cause in which he fell is one which ought to cover with shame, instead of honor, all who are engaged in it. The Mexican war has been pronounced, justly, I think, infamous; and I do not know of any reason which has been assigned in justification of it, which might not be urged with equal truth and propriety as a reason for making war on the government of the United States. If the Government of Mexico have been perfidious in regard to treatice, so have ours; if that government have failed to pay their just debts at the proper time, so have ours; if that government have trampled on the rights and liberties of individuals who desired to reside within her borders, so have ours.

"In a cause like this, however cool one may be in danger, however daring in exploits, or however reckless of consequences, I can see no reason which should entitle such a one to any public honor, which would not apply with equal force to the case of a duelist or a pirate, who should exhibit equal evidence of bravery. I know it may be said that Capt. Lincolu belonged to the regular army, and that his duty was to obey the orders of his superior officers; but I am not aware that the orders commanding him to the Mexican territory were repugnant to his inclinations, or that he made any effort to be excused from the duties assigned him on that station, and in this view, he should be placed on a par with the volunteer corps of the army, whose infamy, I hope, may be as lasting as the cause they have espoused."

THE ARREST OF AVERETT .--- We have an ounced the arrest of W. B. Averett, the late teller of the Branch Bank of Virginia, and his return to Lynchburg. The Lynchburg Republican, of Thursday last, says:

Thursday last, says:

Averett says that it was his intention to return, but could not do so directly without subjecting himself to arrest and confinement. He also says that he would have returned with the individuals who arrested him at Bean's Station, but for the rough manner in which they had prepared to bring him. He declares further, we understand, that he has not used any of the money of the bank, but that it is gone in the way of accommodation to friends. When he was committed to jail, his person was duly examined, and only two hundred dollars on the Farmer's Bank found in his possession, which he averred was all the money he had, and that he considered his own. All of which statements are generally believed to be true.

THE ADDRESS OF SILAS WRIGHT.

In Mr. WRIGHT's address read by Senator Dix at the N. Y. Agricultural Fair, the following admirable argument in favor of liberal laws, and indirectly against the "home market," is peculiarly characteristic of him, who, during his life

liarly characteristic of him, who, during his life captivated and convinced even his enemies by the graceful power of his logic:

The present surplus of bread-stuffs of this country could not have been presented in a more distinct and interesting aspect than during the present year. A famine in Europe, as wide-spread as it has been devastating and terrible, has made its demands upon American supplies, not simply to the extent of the ability of the suffering to purchase food, but in superadded appeals to American sympathy in favor of the destitute and starving. Every call upon our markets has been fully met, and the heart of Europe has been filled with warm and grateful responses to the benevolence of our countrymen, and yet the avenues of Commerce are filled with the productions of American Agriculture. Surely the consumption of this country is not now equal to its agricultural productions!

Agriculture. Surely the consumption of this country is not now equal to its agricultural productions!

If such is our surplus in the present limited extent and imperfect condition of our agriculture, can we hope that an exclusive domestic market is possible, to fornish a demand for its mature abundance? In this view of this great and growing interest, can we see a limit to the period when the United States will present in the commercial markets of the world, large surpluses of all the varieties of breadstuffs, of beef, pork, butter, cheese, cotton, tobacco, and rice, beyond the consumption of our own country? And who, with the experience of the last few years before him, can doubt that the time is now at hand when the two great staples of Wool and Hemp will be added to the list of our exportations?

These considerations, and others of a kindred character, which time will not permit me to detail, seem to me, with unfeigned deference, to prove that the agriculture of the United States, for an indefinite period yet to come, must continue to visid a manda supplies of our represents

that the agriculture of the United States, for an indefinite period yet to come, must continue to yield ample supplies of our principles staples, far beyond any possible demand of the domestic market, and must remain as it now is, and has ever been, an exhorting interest. As such, it must have a direct concern in the foreign trade and commerce of the country, and in all the regulations of our own and of foreign governments, which affect either, equal to interest in a stable and adequate market.

If this conclusion be sound, then our farmers must surrender the idea of a domestic market to furnish the demand, and measure the value of their productions and prepare themselves to meet

their productions and prepare themselves to meet the competition of the commercial world, in the sale of the fruits of their labor.

YELLOW FEVER IN NEW ORLEANS .- A New Orleans correspondent of the Bultimore Sun, gives the following heart-rending accounts of the

vellow fever in that devoted city: Yellow lever in that devoted city:

I write in the midst of an epidemic such as New Orleans never knew before. Truly, grim death stalks unresisted through the streets of this devoted city. Oh, it sickens the heart to see the plumed hearses throughing the cemeteries—to see them hurrying along the thoroughfares unattending more cases, by even a single friend to see pumed nearses thronging the cemeteries—to see them hurrying along the thoroughfares unattended, in most cases, by even a single friend to see the departed inurned. From early dawn to dark and in the gloom of night, sable conveyances may be seen—with nodding plumes like grim sentinels over the coffined corpse within—passing hastily towards the depository for the dead: and almost hourly the rolling of the muffled dram or the mournful music of mellow horns, proclaim that another of the civic or military brotherhood is attended to the tomb by those with whom he so lately associated. It is enough to strike terror to the stoutest heart, to walk the deserted atreets. On every hand are heard the notes of woe. At one moment the tone of fervent prayer for the dying strikes the ear; a little farther on, and waling for the dead breaks the silence. None are exempt from the dreadful scourge which is wielded by the fell tyrant. The strokes fall indiscriminately, and high and low, rich and poor, old and young, totter and fall to rise no more.

The Delta says, there have not been less than 50,000 cases of yellow fever in New Orleans this scason, out of a population of 70,000 to 80,000 souls. The number of deaths by the fever during the month of August, is given at 1,128. It appears by this that scarcely four per cent., of all

he cases, result fatally.

The Mobile Register of the 18th instant says that there is no decrease in the number of yellow fever cases in that city, and that the disease is

more stubborn than formerly.

The number of deaths in New Orleans, by yellow fever, during the twenty-four hours ending on the 17th ult., at 9, A. M., was twenty-four.

Mysterious Affair.—The Lynchburg Virginian, of Sept. 23, says: "On Saturday week, Mr. Littlejohn Moon, a highly respectable cilizen of Campbell county, whilst in one of his fields where his hands were at work, was approached by a man on foot, who proposed to buy a horse upon which Mr. M. was then mounted. The price, \$120, was agreed upon; Mr. Moon, at the time, doubling whether the stranger had the cash to pay it. He pulled out, however, a roll of notes, and presented sixtwenty-dollarbills. Mr. Moon's suspicions as to his being a passer of counterfeit money were awakened, and with a view to see how much he had, he intimated a preference for larger notes; the stranger gave him, in exchange, two fifty dollar bills and one twenty. Mr. M. then as a measure of precaution, intimated that he would be obliged to ride to the village of Leesville, close at hand, to inquire whether the bills were genuine. To this the man somewhat reductantly assented, and promised to await his return, rather than accompany him. On leaving Leesville, Mr. M. was joined by a neighbor, and, on seeing, at some distance, that another person was likely to join him, the stranger made for the woods and has not since been heard from. The notes are genuine, and are now in the possession of Mr. Moon. The man was evidently very anxious to purchase the horse, and his abrupt departure without the money or the animal, is well calculated to induce the suspicion that he had some reason to avoid scrutiny. He is represented as a small man, of middle age, travel soiled and tolerably well clad. The sum of money in his possession must have been of considerable amount."

FREAKS OF TRADE.—Wheat is selling a \$1 50 per bushel on the West Branch of the Susquehanna, the crop having almost totally failed in that region the last season. The Baltimore American, of Saturday, mentions the following curious freak of trade:

can, of Saturday, mentions the following curious freak of trade:

Within a week or so our flour trade has been marked by the peculiar and unwonted circumstances of the shipment of parcels hence for Harrisburg, Wilkesbarre, and other points on the Susquehanna, for the purpose of supplying the local wants of these places. This singular freak of trade has its explanation in the facts—that the wheat crop in the Susquehanna valley is said to be much less in quantity than was reported before harvest; that those farmers who have wheat will not bring it to market at the present prices; and that the old crop being entirely exhausted by the past European demand, the supplies must of necessity come from the nearest market which can furnish them.

THEIR GRAVES DO NOT PROTECT THEM .- The llowing is one of the resolutions passed by the Democrats in the Legislature of New Hampshire, in relation to the war:

"Resolved, That we tender our sympathy to the friends and relatives of the brave men, who since the commencement of the war, have fallen in defence of their country."

error" of Gen. Pillow and his name which the Whig journals entertain; and indulges in the fol-

chiet to the War Department. A man who performs actions like these cannot be despised by his bitterest enemies, whatever they may say of him; and the good sense and honorable feeling of the American people will not permit him to sink under the load of obloquy which his enemies throw upon him. The editors of the Picayune, the Bulletin, the National, and all other Whig journals will find it a fruitless task to endeavor to write down a man like Gen. Pillow, unexceptionable in the relations of private life, who freely sheds his blood in his country's cause, and who has invariably shown that he was equal in point of military skill and mental resources to any emergency in which the fortune of war has found bim. We tell our whig brethren they cannot write down such a man; but may, and if they continue their present course, certainly will, write him up."

his vision, which was heretofore nearly destroyed, has been completely restored. Feeling, as Mr. Dust doubtless does, grateful for the kind office performed by Dr. Tannor, he addressed to him a letter highly complimentary of his skill, from which the following is an extract:—

"In justice to my young friend I is the cross of Christ—of a benefactor, not merely of a race or people, but of markind. The vault lighted by suspended worlds is the temple within which the great solemnities are celebrated. The nations of the earth are mourners, and the spirits of the just made perfect, descending from their golden thrones on high, break forth into songs like this:

which the following is an extract:—

"In justice to my young friend, I take great pleasure in announcing to the public the benefit I have received from his skill and attention. I have been laboring under an obscurity of vision for some time, which daily and regularly grew more and more obscure, until I had lost the sight of my eyes to such a degree as to render me incapable of reading any print whatever. This unhappy and disagreeable condition was caused by the growth of a false membrane, covering the Iransparent corner of the eye, which was successfully removed by false membrane, covering flie Iransparent corner of the eye, which was successfully removed by Dr. Isaac S. Tannen, of Shepherdstown, to whom I now feel indebted for the restoration of my sight. I hope the Doctor will accept this statement as a tribute of gratitude and respect, for the invaluable services I have received at his hands.

"VALENTINE DUST."

To this letter, Dr. TANNER furnished the folowing in reply, which has also been furnished us

or publication:
SHEPHERDSTOWN Sept. 3, 1347. Shephendstown Sept. 3, 1847.

I must herewith in return, acknowledge the deep sense of gratitude which I feel for the honor my friend has conferred upon me, not only in the kindness and friendship evinced in this statement to the public of the value of my services, but also in the compliment he has paid me, by reposing that implicit confidence in my skill, so essentially incessary to insure success in a case so vitally important as is that of an operation upon the organ of vision. Actuated, as the gentleman has been, in this instance, by motives truly just and honorable, I take great pleasure in responding, that I feel much complimented and honored by his enunciation, as well as elated, to thisk that I have been able in this instance, to remove one of the principle and numerous barriers, so frequently interposed, to beset and obstruct the channel of the health and happiness of this life, and which, so often, casts a gloom and a hoppeless despondency over the bright prospects of the aged, in their declining years; and that I shall not fail to appreciate with the greatest degree of respect this sentiment of gratitude. Respectfully,

ISAAC S. TANNER.

WESTERN VIRGINIA LAND COMPANY .- An association under this title has recently been formed in England, the capital of which is £150,000, in six thousand shares of £25 each. The trustees are Sir Arnold James Knight and Charles £dward Rawlins, Jr., Esq. merchant, Liverpool; shipping agent at Liverpool, John Taylor Crook, Esq. merchant, and Mr. Thomas Rawlins of Brooklyn, N. Y., is commissioner for Western Virginia. The object of this association is the purchase of large tracts of land in Western Virginia, which land is to be sold to imigrants in lots of eighty acres and apwards, at low prices. A deposit of sixpence per acre will be required for any quantity purchased, but the purchaser will not be required to make his selection of the quantity secured by deposite until bis arrival on the land. The residue in instalments, within a period of five years from the day of the purchase.

One of the articles of the association says:—

"When the number of any religious denomination of Christians settled on the lands will require a minister of their faith, the company will grant not less than fifty acres to aid in compensation for his services." The association is registered under an act of the British Parliament. This project is highly recommended by many gentlemen of the United States, conversant with Western Virginia. Among the pames are General Armstrong, the consul at Liverpool; Messrs. Maury, of Liverpool; Elliott Cresson of Philadelphia, and the Rev. Dr. Campbell, of Virginia, and this appears a good opening for the proprietors to sell on advantageous terms to all parties.

A Hardsome Testimonial.—We saw yesterday at the establishment of Messrs. S. Kirk & Son, a magnificent silver pitcher of the capacity of one gallon, which has been made to order.—The following inscription upon it indicates from whom it comes and for whom designed:—"Presented to James Murray, Civil Engineer, by the supervisors and others, lately employed by him, in the department of repairs of the Baltimore and Ohio Railroad, as a slight testimonial of their high regard for his professional skill, and of their grateful remembrance of the urbanity and kindness of manner which ever marked his intercourse with them." The pitcher is richly and beautifully chased. The design upon it is a view of Harpers-Ferry, claborately wrought in bold relief, and exhibiting an excellent pitcure. The Potomac and Shenandoah rivers are seen approaching each other, and uniting and bersting through the mountains, the gorge of which, with the precipitous cliffs, are exhibited. Rome, ever avaricious of relics, though she has gathered into her Urn the ashes of the great and good of near thirty centuries, reverentially claims and embains and shrines with her soul-subduing litanies, the heart of yet another—
"Who through the fees has borne her banished gods."

Behold now a nation which needeth not to speak its melancholy precedence. The lament of Ireland comes forth from palaces deserted, and from shrines restored; from Boyne's dark water, witness of her desolation, and from Tara's lofty hill, ever echoing her renown. But louder and deeper yet that wailing comes from the lonely huts on the mountain and moor where the people of the greenest Island of all the seas are expiring in the midst of insufficient though world wide charities. Well indeed may they deplore O'Connell, for they were his children:

"A love so veloment, so strong, so pure,

"A love so veloment, so strong, so pure,

That neither age could change nor art could cure."

Again and again, as if they feared to disturb him with excess sorrow, of they plead;

turb him with excess sorrow, of they pleas;

'If yet we keep

Vigits of grief, and echo groun for groun.

'Tis not for thee; but for ourselves we weep,

Whose mblest pillar lies in thee o'erthrown.'

The pageant pauses. Next to the Chief Mournor, space is opened for America, cidest of the new
born Nations. Why shall not America accept
that distinguished privilege? O'Connell was a
champion of Universal Constitutional Freedom.

That is her own cause—all her own. She arms champion of Universal Constitutional Freedom. That is her own cause—all her own. She arms and instructs and sends forth all its chieftains; and when one of them falls in the ever-continuing conflict, be his faith, his tongue or his lineage what it may; whether he die on the snowy plains of l'oland, among the classic Islands of Greece, under the bright skies of Italy, among the vineclad hills of France, or in the green valleys of Ireland; be he Kosciusko, or Bozzaris, or Lafayette, or O'Connell, America bastens to bear witness that he was her So'dier, Citizen, and Representative.

The Murner of Young Cooms.—A letter from Bayou Sara, La., dated Sept. 17, in the New Orleans, Delta, says: "O'Blennis was again arraigned before the District Court of Point Conpee, raigned before the District Court of Point Coupee, for the murder of Frank Coombs, on Monday last, but whilst the Court was progressing, the District Attorney, William Bealty, finding there was no chance for a conviction, entered a nolle procequi, which closes the matter forever on this earth.

MEXICAN AFFAIRS-PARADES AND SANTA ANA. MEXICAN APPARES—PARADES AND SANTA ANA.
We learn that one of the Mexicon prisoners mow
in our city, received, via Tampico, by the laters
arrival, a letter from a friend in the city of Mexico,
dated on the afternoon of the 28th, in which it is
stated that Gen. Parades had entered the city of
Mexico with a large force, and arrested Santa Ana,
and imprisoned him in the carcel San Jago. We
give the report for what it is worth, neither denying nor endorsing its truth. Parades at the last
accounts was at the town of Toluca, near the capitol, ready to take advantage of any mis-stepof his
old enemy.—N. O. Delia, 21st ult.

SHAWL SALE IN NEW YORK.—The N. Y. Express says the Shawl sale of H. H. Lewis & Co., on Wednesday, was well attended, and good prices obtained. Rich camel hair long shawls sold ces obtained. Rich camel hair long shawls sold at \$105 a \$140; silver colored do. \$91; black taffeta, do. \$91; green satin damaak \$20; crape shawls, 5-4 crimson, \$10; scarlet scarfs 10 shillings; rich embroidered \$4.50; extra do \$12; 7-4 white crape \$7; 8-4 do. \$12; 8-4 scarlet embroidered satin, \$10. The fancy goods brought prices much under Broadway rates. The sale is to be continued.

Iowa U. S. Senators.—Mr. Baker, member of the Legislature of Lee county, lowa, has resigned. His place, it is supposed, will be immediately filled by a Democrat, thus securidg to that porty the two United States Senators by a majority of two.

Signess at the East.—We learn from the Boston papers that considerable sickness prevails in all the towns in that vicinity. Dysentery is the prevailing disorder, and it has almost assumed the form of an epidemic. Unless it be immediately checked, it assumes a malignant form and a fatal result ensues. In Lowell, we understand that the deaths have run up to as high as 60 in one week. In fact there is scarcely a family in which this disorder has not entered.

SETTLERS WANTED-Lands Given to them. The State of Arkansas invites Emigranta to taxes, and no payment will be required

The Auditor, upon proof of settlement, will make a deed, which deed the Supreme Court of the State has decided will be valid. The forfeited tracts comprise some of the finest lands in the State, and now is the cleance for a cheap home or speculation. The Little Rock (Ark.) Banner of fice has just issued a volume of 77 octavo pages, containing a list of all the land which the State can donate, and the laws relating thereto.

THE EQUINOCTIAL STORM AND ITS EFFECTS. The New York Herald of Sanday, gives some account of the storm which had prevailed for a

day or two:—

"Yesterday (Saturday) morning the wind hauled to the northeast, from which quarter it blew a perfect gale, accompanied by sudden gushes and torrents of rain. As late as 12 o'clock last night, the storm was raging without the slightest indications of an abatement. The streets throughout the city were flooded, and it is presumed that the cellars in the lower part of the city have suffered great damage. The air, during the day, was cold, dreary and exceedingly uncomfortable—fires and overcoats were in general requisition.

"Apprehensions are entertained for the safety of vessels on the coast; but, as yet, we have heard of nothing beyond a few slight accidents in the bay. Many of the steamboats leaving for the Sound and other places, were obliged to defer their departure. It is said that a number of unfinished buildings in Broadway, and other parts of the city, suffered by the yiolence of the wind. In Brooklyn the streets were covered with trees, lying about in confusion, having been torn up by the winds."

House's IMPROVED TELEGRAPH.—The Philadelphia Inquirer of yesterday says :--

delphia Inquirer of yesterday says:—
The magnetic telegraph, with House's improvement, is now in full operation between this city and Cincinnati. Messages are received and forwarded with perfect case. This improvement is of much importance, and greatly calculated to facilitate the transmission of news and messages of every description. The characters are quite large, made by the Telegraph itself, in apparently printed letters, and with the utmost rapidity.—
There can indeed be no mistake with regard to advices forwarded by this plan. The results are truly wonderful.

The Magnetic Telegraph is now completed to Louisville, Kentucky.

Revival.—A great revival of religion is now in progress at Holy Springs, Miss. The Gazette of that place of the 10th says:—Since the revival commenced, more than ninety of our citizens have made a profession of religion, and there are yet many others anxiously inquiring what they shall do to be saved. Seventy-two of those who have made a profession of religion, have joined the Methodist Church in this place. This great revival has apread throughout every portion of our county. We believe that at least one thousand persons have made a profession of religion, and united themselves to the different churches in Marshall county, within the past three months.

WARRING TO THE YOUNG.—The following an-ecdote appeared in the N. O. Daily National, of

A hundred dollar bill of the Louisiana State Bank was paid into the Citizens Bank on Saturday last, with the following lines written on its back :— This is the last hundred of \$10,000 left back:—"This is the last hundred of \$10,000 left me by my father; and whither has the money gone—whither! It was squandered in gambling houses, in bar-rooms and in brothels. If this bill falls into the hands of any young man, let it teach him to flee from bad company, for it is that which has reduced me to my deplorable situation. I am lost, lost, forever lost,!" The wages of sin is death, says the inspired writer. In this poor young man's case, what youth in the blindness of its avidity calls pleasure."

ROBBERY AT THE WARM SPRINGS .- We learn ROBBERY AT THE WARM SPARROS.—We learn from the the Staunton, Va., Democrat, that a daring robbery was committed at the Warm Springs, on Friday night last. The large iron chest that was kept in one of the front rooms of the Hotel, belonging to Dr. Brockenbrough, was carried off, about three-fourths of a mile, and by means of powder introduced through the key-hole, and a slow match, was blown to atoms. 'The Dr.'s loss is between 4,000 and \$5,000.

GUBERNATORIAL NORMATIONS.—The Democratic convention of Massachusetts has nominated for Governor, Gen. Caleb Cushing, and for Lieut. Governor, Henry W. Cushiman. The Democratic convention of Connecticut have nominated Geo. S. Catlin for Governor, and Origen S. Seymour for Lieut. Governor. Daniel Haines has been nominated by a State convention, at Trenton, as a Democratic candidate for Governor of New Jersey, and Hon. William Wright, by the whig convention, as the Whig candidate.

vention, as the Whig candidate.

Schneely's Steam Ergire.—A new rolary steam engine, of 25 horse power, was exhibited at the machine shop of Dunham and Browning, corner of West and North More streets, on Saturday afternoon, and fully realized all the expectations that had been formed of it by its inventors. The advantages of this engine over the reciprocating motion are very great. It is worked by two pistons inside the cylinder, and saves about 25 per cent. in space, weight, fuel and steam, while its increase of power is about 33 per cent. over other engines now in use. The inventors of this engine are two brothers, Messrs. W. & T. Schnebly, of Hagerstown, Md. They devoted ten years to this object, and at last have constructed a machine that fully realizes their aim, and we have no doubt it will prove as profitable to them as it will be beneficial to the public.—N. Y. Evening Mirror.

Monat Henorsh.—The New York Express re-lates a touching anecdote, and one calculated to illustrate the moral heroism of the poor. The

editor says:—

"A day or two ago, a young female visited the Almshouse for permission to transport a twin-sister to the Lunatic Asylum. On inquiring into her condition, it was found that she was the only healthy member of a very poor and afflicted family. Her father is in the Lunatic Asylum, and in compliance with her prayer, her little sister was sent to the same desolate abode.

Her mother, two little sisters and a little brother are all in feeble health, and every morsel of food which they have eaten for months past, has been hardly earned by the daily labor of the little girl in question."

A VENERABLE GONE.—The New York papers announce the death of the venerable Major Wm. Potham, at the age of 95. He was President of the Cincinnati Society. An interesting event, was the visit of the venerable Mr. Custis, grandson of Washington, to Major Potham, about a year ago, when they gathered about them all the veterans of the revolution in New York.

A DOUBLE WITHDRAWAL.—Mr. Jas. Hagerty announces that he has withdrawn from the field as an independent candidate for Congress in the third district of Maryland, and from the Whig par-

ving circumstances; ere must be an actual seduction of the fe ale by the male.

2. The female must be under the age of twen-y-one years.

 She must be of good reputation.
 The seduction must have been accomplished by means of a promise of marriage; and
 Such promise of marriage must be proved by other witnesses than the female so seduced.
 This law appears to be well guarded, but we magine it will rarely take effect. A public seniment which should brand the seducer as the present does the seduced, would be worth a hundred not laws.

A Misenance Quinsic.—The wise authorities of the city of Boston refused to pay Capt. Youennes the \$2000 reward, offered for the arrest of Albert J. Tirrell, the murderer of Maria Bickford, and that, as Tirrell had been acquitted of the murder, Capt. Y. was not entitled to the reward! It was afterwards said that these sagacious Bostonians were to make Capt. Youennes a present of \$1000, but the Picayune, states that he has returned to New Orleans, having borne his own expenses to Boston and back, without receiving one cent. This is really the most contemptible quibble in law that we ever yet heard of.

MILLERISM.—The Adventists continue their meetings in the Big Tent, at Niblo's, New York. They have had large and attentive audiences.—Rev. R. Hutchinson, of Canada, endeavored to show that the Kingdom of God on earth is at hand. Rev. J. Litch, of Philadelphia, lectured also. His object was to prove that Israel cannot be restored prior to the coming of Jesus.

PRIZE SOLD BY O'LEARY .- A Prize of \$10,00 in the Alexandria Lottery, drawn September 18 was sent to Washington by A. D. O'LEARY, fro his Lucky Exchange and Lottery Office on Lodoun Street, Winchester, Va.—Win. Rep.

POPULATION OF ROME.—The city is divided into 54 parishes, containing 73,530 families. The ecclesiastical population consists of 39 bishops, 1514 students. The whole population amounts to 175,883 inhabitants, not including the Israelites, who are 8000 in number. The population increased since last year by 5684.

NEW MANUFACTURING TOWN .- The prop tors of the valuable property at the Great Falls of the Potomae, already laid off and incorporated as "South Lowell," intend, the Alexandria Gazette learns, to offer inducements rarely presented for the establishment of manufactories there.

Iowa U. S. SENATORS .- Mr. Baker, a member of the Legislature, of Lee county, lowa, has re-signed. His place, it is supposed, will be imme-diately filled by a democrat, thus securing to that party the two U. S. Senators by one majority.

GER. TAYLOR'S PORTRAIT.—The Richmond Republican states that Mr. Brown, of that city, has been offered \$5,000 for one half his interest in his portrait of Gen, Taylor.

VALUABLE LITERATURE.-It is stated that the opyright of Dr. Chalmers' Works, in his biogra-bly yet to be written by Dr. Hanna, his son-in-aw, has been sold for more than fifty thousand

SAD AFFAIR.—A short time since, at Sandlake, (N. Y.) a woman cut off the tongue of a boy, to whom she was step-mother. The reason she assigns for so doing, was to stop his telling lies.

Does it Prove Anything?—An exchange paper relates the following circumstance: A gentleman of great distinction, was an ardent admirer of Mr. Thomas Jefferron; and, to indicate his esteem, he pledged himself to give that great name to his first child—" nolus volus." It so happened that the first born was a female; yet as "Gen. Taylor never surrenders"—Thomas Jefferson Taulor—became her name. She is now the wife of Col. Jefferson Davis, of Mississippi. Now, as Gen. Taylor is chary of his opinions—we only want to know whether this proves anything?

Introductory Letters.—Two cases are now on trial at Fredericksburg, Va., those of Gardner vs. Goolrick and Kelly, Ball & Co., vs. the same, involving the extent of liability to which introductory letters bind the writer. Letters of recommendation were given by Goolrick to houses in Baltimore, in favor of an individual who was unable to meet his demands, and suit is brought against Goolrick to recover the amount. The ablest counsel are employed on both sides, and much interest excited.

General Produce Dealers, Baltimore.

BALTIMORE, TURBDAY MORKING. 
September 28, 1817.

DEAR SIR:—During the past week there has been a continued fair demand for Flour and Grain at gradually mproving prices—a demand fully equal to receipts and coasionally exceeding them. The stock of Howard treet flour on hand is now exceedingly light. On Tuesday, there was more firmners in the market, and sales of a sw hundred blus were made at 5 25 a 25 373. Sales on Wednesday of 500 bbis at the same rate. On Thursday here was a further advance in price, and sales to the exent of 1200 or 1300 bbis at the latter rate. On Saturlay dealers declined further operations at the same rates and there was nothing done. Yesterday sales of some 50 bbis at \$52.

day dealers declined furnier operations at the same rates and there was nothing done. Yesterday sales of some 600 bbls at \$54.

GRAIN—The supply of Wheat during the week has been limited and prices have advanced. On Wednesday I and 2 cents advance was obtained on good to prime reds. On Thursday holders were firm and realized a cent more. On Friday sales of good to prime rels at 106 at 12 to \$1 15; Yesterday sales were made at 108 a \$1 15 for good to prime reds, and 103 a \$1 08 for common reds. Family flour white wheat is worth 130 a \$1 35. The supply of Corn for the week has been unusually small and there is more firmness in the price; Sales of white at 35 cents and yellow at 63 cents. Sales of Rye at 75 cents. Outs are worth 35 a 40 cents.

CATTLE—There has been a slight improvement in prices—sales at 2 a \$3 on the hoof.

BALTIMORE, Wednesday morning, September 29, 1817.

Mr. Editor:—Dear Sir—At the close of my remarks upon the Flour market last week, I stated that dealers were holding at 5 374; on Wednesday considerable sales took place at these figures. On Thursday, 65 50 was obtained, at which price, also, several lots were taken on Friday and Saturday. On Monday, an additional advance of 121 cts was asked and obtained. To day moderate sales have been effected at 55 624, but there are more sellers than buyers at this price; the market cannot therefore be said to be active. Flour is very secarce, and our receipts very light both in Flour and Wheat.

The approaching election is lending much zeal and activity to the Politicians of both parties here, but I have never known the absence of excitement so entirely.—All parties seem to vie with each other in maintaining a most orderly and peaceable demeanor. The candidates really seem to outdo each other in speaking moderately and respectfully of the character, pretensions and claims of the respectfully of the character, pretensions and claims of the respectfully of the character, pretensions and claims of the respectfully of the character, pretensions and claims of the respectfully of the character, pretensions and rains as it should be; it exhibits an amount of DECENTOLERATION to the opinion of others, which I thought not very likely to exist at the present day any where.

Yours truly,

# HOWES' & CO.'S Great United States Circus.

J. C. HOWES, Agent. ing a TREBLE COMPANY, and by far the largest Establishment ever organized, consisting of

Two Hundred Men and Horses, WILL exhibit at Wischesten, Oct. 11—at Charlestown, Tuesday Oct. 12—at Han-pers-Ferny, Oct. 13—at Sharpsburg, Oct 14—

Admittance to Box 25 Cents. The Company will make their Grand Proces-on through the principal streets, at 9 o'clock in se morning, headed by the great and magnificent

GOLDEN CHARIOT, drawn by Twenty beautiful cream colored horses and driven in hand by the celebrated driver Mark Jourseon. The exterior is literally covered with gold, the interior is lined throughout with the richest crimson velvet, and of sufficient capacity to seat 30 people. This vehicle is allogether superior to the one used by Van Amburgh, or any other that has ever been seen in the United States, and cost the proprietors Six Thousand Dollars. Next comes the

Tom Thumb Coach, drawn by two real Shetland Ponies, contrasted with the Ponderous Band Charlot, it forms a sight

leasing in the extreme.
This is followed by the

Bas Carriage,

on which is fitted up a Furnace and Gasometer Pipes, and other apparatus, (at an enormous expense,) for lighting this extensive establishment, which will be lighted more brilliant than mid-summer sun, by the best Gas, flowing from two hundred burners. This novel sight can only be seen at Howes' & Co.'s United States Circus. After which comes a train of thirty Carriages, containing Performers, Wardrobes, &c.

An engagement has been made for the season with Mr. W. H. KEMP, the celebrated Clown from Astley's Amphitheatre, Drury Lane, and other Theatres in London, who, from his unquestionable superjority, has won for himself the cnivable sobriquet of THE MODERN GRIMALDI. He was twice called to appear at Windsor Castle, by special command of Queen Victoria, and was granted an audience of royalty—an honor to which few public performers could ever aspire. Her Majesty and Prince Albert were also visiters to Astley's Royal Amphitheatre on the first production of Pantomine of Harlequin's Frolics, or Mistakes of a Night, which beautiful entertainment will be given with all original effects, at every evening's performance on a revolving barrel at full speed, and accomplishing the most novel teats with amazing velecity—propelling himself solely with his feet.

Mr. W. O. DALLE, first principal Equestrian and Vaulter of the country, having thrown the greatest number of somersets (87.) ever accom-

and Vaulter of the country, having thrown the greatest number of somersels (87,) ever accomplished by any performer in the world. His Stilt Vaulting while in England, in Batty's Company, made a great sensation, no performer on that side of the Atlantic ever liaving accomplished over 50 or 60 somersels.

or 60 somersets.

Mr. T. MoFARLAND, the only rival in vault Mr. T., McFARLAND, the only rival in vaulting of Mr. Dale, and the hero of 79 somerests, for which he holds a gold medal. The audience will have an opportunity of seeing two of the greatest Vaulters in the world, actually contesting the championship of their profession.

B. W. CARROL, the great Two Horse Rider and Vaulter is also attached to this company.

Mr. G. W. SERGEANT, in his Shakesperian Chappenship Act.

Mr. G. W. SERGEANT, in his Shakesperian Changeable Act.

The Juvenile Prodigies, WILLIAM and GEORGE, Pupils of Mr. Nixon, form not the least interesting part of the spectacle. For a full description of performance, see bills and phamphlets at the principal Hotels.

BLANKS, OF ALL KINDS, FOR SALE

DR. SWEETZER'S PANACEA.

THIS Medicine is warranted, on oath, not to contain a particle of Calomel, Corrosive Sublimate, Arsenic, Chloride of Gold, or any deleterious minerals.

The principle upon which this wedicine acts, is by assisting and harmonizing with nature; it drives out all foul acrimonious humors from the blood and bo by, and by assimilating with and strengthening the gastric juice of the stomach, it assists digestion; in short there is not a vein, strery, muscle or nerve in the human body, that is not strengthened by the Panacsa, and it also possesses the remarkable property of removing mercury from the bones and joints.

FOR ERUPTIONS OF THE SKIN,
Scurvy, Scorbutic Affections, Tumors, Scrofula or
King's Evil, White Swellings, Erysipelas, Uicers,
Cancers, Running Sores, Scabs and Biles, time
and a determined perseverance in Dr. Sweetzer's Paracea, will effect a cure.

Rejection of food, Nausea, Vomitings, Nervons affections, Bilious complaints, Head-ache, Palemess, or Female Irregularities, Dr. Sweetzer's Paracea will soon effect a cure; but if obstinute, or attended with griping, flying pains, the dose should be increased, and the cure will soon be effected. Let not the patients frighten themselves with the idea that they are too weak to take anoth medicine; but bear in mind that this mildly operating medicine puts not weakness into the Irame, but must certainly draws weakness out, leaves strength in its place, and by giving composed sleep at night, and an appetite for any kind of food, re-animales the whole frame with vigorous action, improving the mind and clearing the sight.

SCROULL AND GLANDLAR AFFEUTIONS.

Scrouls is said to be hereditary, the infant receiving from its parents the seeds of this disease, which increases with its years, if neglected and not subjected to frequent purification with Dr. SWETZER'S PARACEA. The glands are placed in the corners of the body, and out of the way of direct communication; their real use is a subject on which much difference of opinion prevails; it suffices us to know that when in a diseased state, they are canable of being purified and cleaned by tices us to know that when in a diseased state, they are capable of being purified and cleansed by a long course of Dr. Sweetzen's Panacea, which restores them to sound and proper action. Scrofulous persons can never pay too much attention to their blood, its purification should be their first thought, for after a long course of perseverance they will even cure hereditary disease.

In case of Jaundice, Asthma, Liver complaints Tic Doloreux, Rheumatism or Rheumatic Gon Dr. Sweetzen's Panacea cannot be too high

Dr. Sweetzer's Panacea cannot be too highly extolled; it searches out the very root of the discase, and by removing it from the blood, makes a cure certain and permanent.

For diseases of the Bladder and Kidneys, Strictures, Gravel, Stone, Piles, Pistala, Urinary Obstructions and Extreme Costiveness, Dr. Sweetzer's Panacea is the best remedy eyer tried; it removes all those acrimonious humors from the blood which give rise to the above diseases, and by keeping the blood in a pure condition, insures health.

by keeping the blood in a pure condition, insures health.

For Dropsy, Falling of the Bowels, Impurities of Blood, Mercurial Taint, Weakness of the Spine, Flow of blood to the head, Giddiness, Singing or Buzzing noise in the head and cars, Dr. Sweet-Zen's Paracea will give certain relief; in all severe and chronic cases, the patients cunnot be too often reminded that larger doses and persecerance will effect a cure.

In Chills and fevers, billous fever, affections of the gene and cars.

the eyes and ears, spongy and bleeding gums, Bronchitis, and recent coughs and colds, Dr. Sweetzer's Panacea will be found perfectly sure and certain in its effects. GRAVEL AND URINARY COMPLAINTS

GRAVEL AND URINARY CONFLAINTS.

These complaints we generally attended with the most fatal consequences, and are seldom or never cured by the present mode of treatment; they usually accompany the patient to the grave, after suffering the most excrutiating pain and torture. The cause of these complaints are the same as all others, the dross of the blood becomes incrusted on the finest marrow passages, whence arise morbid secretions and stoppages of urine.—You will find the most powerful diurctics of no use, as they only increase the quantity of urine and do not purify and strengthen the paris. By purifying the blood with Dr. Sweetzer's Paragera, you remove the cause of the disease, consequently it

remove the cause of the disease, consequently in caunot exist any longer, after sufficient persever ance in its use has deprived the blood and body of all acrimonious humors and incrustations. DISEASES OF THE LUNGS-CONSUMPTION This is a very prevalent and fatal disease; it results mostly from neglected coughs, colds, and bronchitis, also from improper treatment in many other cases, such as measels, fevers, inflamations and small pox, and a host of other badly treated diseases; where the cause, instead of liaving been thoroughly removed from the blood and body, have only been palliated or removed from one part to break out in another. By divesting your bodies from all foul humors, through the medium of Dr. Swellwerts Panacea, the cure is at once rendered certain and permanent. Recollect while there is acrimonious humors floating in the circulation, it is as apt to settle on the langs as any other part of the body; this is the reason that consumption is so prevalent.

sumption is so prevalent. BILES, SORES AND ULCERS,

Which you see on the exterior, come from, and have their source in, the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do, and produce most violent inflamatory disorders. The humor which occasions these sores is of a highly acrimonious burning nature. We know it from the pain it gives in forming, and afterwards from its rapidly ulcerating and corroding the feshi and skin of the part where it breaks out. This shows the necessity of frequently purifying the blood with Dr. Sweetzer's Panacea, and keeping such malignant humors in subjection. Should you have a bile or ulcer, be thankful that nature has taken the trouble to warn you of the danger your life and body is in, for it is a warning that the blood is foul. Had this same acrimony selected the lungs instead of the surface of your body far its seat, consumption of the lungs would have been the consequence. Delay not then to purify and cleanse with Dr. Sweetzer's Panacea.

Spinal affections, enlargement of the bones and joints, white swellings, hip joint complaint, ruptures, falling of the bowels and would disease, will find a speedy cure in Dr. Sweetzen's Panacea. Where the disease has been of long standing, the time required to make a cure will be longer, but the patient may rest assured that a determined perseverance will-effect it. BROXCHITIS, ASTHMA AND DISEASES OF THE

WINDIPE.

These diseases proceed from the seriosity or corrupt humors of the blood, having settled itself on the inroat and lungs, and stopped them up, so that they cannot draw sufficient air in for respiration. Dr. Sweetzer's Panacea will give immediate relief, and to make the cure perfect and certain, it should be continued some time after, to free the system from all bad humors.

DR. SWEETSER'S PANACEA, being composed only of a vegetable matter, or medicinal posed only of a vegetable matter, or medicinal

DR. SWEETSER'S PANACEA, being composed only of a vegetable matter, or medicinal herbs, and warrented, on oath, as containing not one particle of mercurial, mineral, or chemical substances, is found to be perfectly harmless to the most tender age, or the weakest frame, under any stage of human suffering.

TRY TO BE HONEST AND HAPPY.

There's much in the world that is doubtful,
There's much we shall ne'er understand—
Why Virrus should live in a Poox-nouse,
And Vice on the fat of the land.
For those who are fretful and poeylsh,
This duty remains to fulfill;
But try to be honest and happy,
And let the world do as it will.

The poor wretch who walks upon crutches, May often be envied far more Than he who in splendid apparel Can shut on the begar his door; He cards nut for claret or sherry; Of luxries he has not his fill—Yet dares to, be honest and happy, And lets the world do as it will.

He boasts no lordly possessions,
No livery at table to wait;
He maketh no lollow professions
To cheat his friend sooner or late;
He ruins no hard-working trademan,
Who gets but a curse for his bill;
But tries to be honest and happy,
And lets the world do as it will.

Oh! who then would grumble at fortune,
Though sorrow and tolling beidd?
The man who with wealth is a villain,
Might be virtuous were it denied!
Too much may overburden and sink you,
Too bille of kept you from ill;
Then try to be honest and happy,
And let the world do as it will.

The man who with plenty is honest, Hath little to ask for his name; But he who, though humble, is upright, Shall live in the annals of fame. Shall live in the annua of the control of the vicious may mock at his mem'ry, But ages will think on him still,—
Then try to be honest and happy,
And let the word do us it will.

### Miscellaneous.

SOUND TRUTH AND GOOD ADVICE. Much sound philosophy is often contained in a few words; and the whole practical result for years of experience, may be found couched in homely phraseology, or concealed in the uncoult proverbs of the rude yeomanry. Dow, Jr. has effected a similar thing in this short extract:

"My young friends I wish to impress it upon your minds, that others don't care so much for you

your minus, that others uon't care so much for you as you imagire. They, no doubt, would like to see you do well in the world; but they are not going five miles cut of the way to do you a good turn. So if you wish to obtain the summit of honor, wealth and distinction, you must spit on your hands, stick in your toe nails, and climb way, without waiting for some body to give you

That is it, to a t. That paragraph is worth a whole library of Young Men's Guides, and Young Gentlemen's Companions, to say nothing of Essays upon the formation of Character. It is as says upon the formation of Character. It is as true as the book of Job, and wise are they who learn it carly. Multiudes of elever young fellows live in inglorious ease, waiting for a chance, and lianging by the skirts of somebody's coat, by which they expect to get a lift in the world. But they'll be disappointed, the broadcloth grasp must give way, and down they'll tumble into the gulf of despondency. Young men, your friends never will help you, if they havn't a heavy per centage to make out of you by it. Depend upon it, they'll use you, no doubt of that; but they'll be sure to let you drop just as soon as policy or interest delet you drop just as soon as policy or interest de-mand it. Besides, who would be a dough ball, to be rounded by others' hands? If your iriends of fer to patronize you, give them the cold shoulder; show them that you have learned to walk; talk as if your tongue was cut; in a word, be indepen-dent and a genilemen, and you'll find courtiers, in-stead of alienated friends, who grudge you a favor.

MOTHER OF THE GRACCHI.

"I am weary," said the aspiring Cornelia, "of being called the Scipio's daughter. Do nobly, my son, and men shall style me the mother of the

Gracchi!"

It is indeed a blessed thing to be a mother, when you are the mother of children distinguished for their goodness. Children grown to maturity, who are eminent for their intellectual and moral acquisitions, marked among men for the expression of noble thoughts and the performance of noble deeds; reflect honor on her who gave them birth. She lives in them. Her character shines in their

glory.

Alothers, what shall be your children? Catch Mothers, what shall-be-your children? Catch the spirit of the Roman matron, and chastening this spirit by the pure spirit which is above—baptizing it into the name of the Father, the Son, and the Holy Ghost—barn with unextinguishable ambition of being the mothers of Christian sons and daughters—sons and daughters who shall be blessings to the church and the world, and receive the plaudit "Well done, good and faithful servants," in the presence of an assembled universe! Those are jewels indeed, whom the Saviour acknowledges to be such, and sets in his crown, to sparkle since forever. Shall those now your little ones, so shine in bliss and glory? We hope, we pray that they may.

THE EXISTENCE OF A GOD.

THE EXISTENCE OF A GOD.

The universe burns with Deity. All nature seems vocal to declare a Great First cause. The mighty sun, as he pursues his never ending course, proclaims the greatness of an Invisible Being.—
The pale and silvery beams of the sister orb, as she scatters the gloom of night, seems to woo men to acknowledge this great truth. The countless host of stars, as they gem the heavens, like diamonds set in the coronet of darkness, all declare host of stars, as they gem the heavens, like dia-monds set in the coronet of darkness, all declare that their lamps were lit at the shrine of Divinity. The hoarse voices of the angry billows, in their seaseless rise and fall, murmer that they evidence the fact. The bone and muscle of every beast of the field—the waving of the wing of every bird of the air—the beauty of the smallest insect which thoats in the breeze attest the solemn truth. Every free, every plant, every flower, alike witness the tree, every plant, every flower, alike witness the same fact. Every thing is indelibly stamped with the impress of a Deity.

Fairnship.—In young minds there is commonly a strong propensity to particular intimacies and triendships. Youth, indeed, is the season when friendships are sometimes formed, which not only continue through succeeding life, but which glow to the last, with a tenderness unknown to the connexions begun in cooler years. The propensity, therefore, is not to be discouraged, though, at the same time, it must be regulated with much circumspection and care.

same time, it must be regulated with much cirsumspection and care.

Too many of the pretended friendships of youth
are mere combinations in pleasure. They are often founded on capricious likings, suddenly contracted, and suddenly dissolved. Sometimes they
are the effect of interested complainance and flattery on the one side, and of credulous fondness on
the other. Such rash and dangerous connexions the other. Such rash and dangerous connexions should be avoided, least they afterwards load us ith dishonor. We should ever have it fixed in our memories

We should ever have it fixed in our memories, that by the character of those whom we choose for our friends, our own is likely to be formed, and will certainly be judged of by the world. We ought, there ore, to be slow and cautious in contracting intimacy; but when a virtuous friendship is once established, we must ever consider it as a sacred engagement.

A son of Erin gave the following toast :-"Here's wishing ye may never die, nor no body kill ye, until ye knock yer brains out against the silver knocker of yer own door."

Bachelors.—Dr. Johnson gives the philosophy of marriage in a few words: "A married man," says he, "has many cares; but a bache'or has no pleasures. Cutting himself off from life's purest and most exquisite enjoyments for fear of some trifling annoyance, he enulates the sagacity of the wiseacre who amputated his leg to secure himself from corns."

TRICKS OF TRADE.—The New York shop-keepers hire fashionably dressed young ladies to call in and walk out of their stores once in ten minutes during the day, to attract customers by sympathy, says Yankee Doodle.

THE subscriber proposes to open a Select and Classical School at Wheatland, Jefferson County, Va., on the first of October next. He will, himself, be the instructor in the Mathematics and himself, be the instructor in the Mathematics and other English Branches, and in the French, to such as may desire to learn that language. The Latin and Greek will be taught by an accomplished and well qualified instructor. The course of instruction in the several English Departments, and the text book used, will be modelled upon those of the West Point Academy, of which the subscriber is a graduate. In the Latin and Greek, approved text books will be used.

The subscriber deems it unnecessary to those in his neighborhood, but to those at a distance it may be proper to say, that Wheatland is a retired, healthy and most favorable situation for a school, within a few miles of Charlestown, through which

Will be Published in Washington, D. C., on the 7th of Decem-ber next, No. 1 of the U. STATES REPORTER. A Daily Journal of Government, Legislative, and

General News.

THE subscriber is now enabled to announce the completion of his arrangements for the establishment of a well organized and independent Journal of News at the Sent of the General Government.

The leading features of the United States Reforts a will be the following:

1. Early intelligence of the movements of the various Departments of the Government, in reference to domestic affairs and the foreign relations of the country, will be given with scrupulous fidelity. Possessing peculiar facilities for obtaining information, the "Reporter" will be enabled frequently to communicate, exclusively, intelligence of the most important character.

II. The Verbaim Reports of the Proceedings and Debates of the United States Senate, which the proprietor is bound to furnish daily to Gar body, in accordance with the terms of the contract made at the close of last session of Congress. The arrangements now made will at once fully secure to the Senate of the United States an authentic and complete record of its debates; and to the people—in a greatly enlarged degree—the benefit of the experience, sagacity and statesmanship of that body to which they have ever looked with solichous and respectful regard.

III. The Proceedings and Debates in the House of

and to the people—in a greatly enlarged degree—the benefit of the experience, sagnety and state-manship of that body to which they have ever looked with solichous and respectful regard.

III. The Proceedings and Debates in the House of Representatives will also be given, with fulness, impartiality, and the utmost promptitude. Each day's record will be completely made up, and appear in the "Reporter" next morning.

IV. A Synoptical View of the Proceedings and Debates of all the State Legislatures will be regularly, given. Members of Congress, and all classes of realers, will thus be kept fully and systematically informed of domestic legislation in all-sections of the United States.

V. Early intelligence of all important movements in the Legislatures of Great Britain and France will be communicated by every steamer from Europe, through reporters in London- and Paris, who possess pocullar facilities for obtaining information.

VI. The General News of the day will be given in a condensed form, with industry and attention.

Euch is a brief view of what the "United States Reporter" is designed to be. All the plans and arrangements have been well matured, and the hope is confidently cherished, that the "United States Reporter" will prove itself an energatic, industrious, dignified, and perfectly independent journal. It will have no party view—no political bias. The proprietor, by the terms of his contract with the Senate of the United States, is bound to the condition that "the paper shall contain no political discussions except the debates." It will be a vehicle of nkws—not the organ of any set of opinions. The grand aim of the subscriber is to establish at the seat of Government a faithful and prompt reporter of all sorts of intelligence—a responsible agent, on which the politician, the business man, the manufacturer, the mochanic, and every one interested in the affairs of Congress and the Government a faithful and prompt reporter of all sorts of intelligence—a responsible agent, on which the politician the reach

sued from the same establishment,

THE MIRROR OF CONGRESS.

This publication will contain exclusively, the reports of the proceedings and debates of the Congress of the United States. It will be issued semi-weekly, in an elegant quarto form, throughout the semions of Congress, and will be farnished to subscribers at the rate of two dollars for the long session, and one dollar for the short session. It is believed that this great national work will be deemed indispensable in the library of every public institution, politician, and professional man, throughout the country; and that it will be regarded by the great mass of the peuple as the very best political text book for their own instruction and that of their children.

IMPORTANT ANNOUNCEMENT

for their own instruction and that of their children.

IMPORTANT ANNOUNCEMENT.

Throughout the sessions of Congress, Extras will be issued from the office of the "United States Reporter," containing the reports of all such debates as may possess particularly exciting interest.

All newspapers throughout the United States who publish this prospectus once a week from this date till the meeting of Congress, will be entitled to an exchange with the "United States Reporter," and will be placed on the list of those to whom the extras will be despatched.

WHOLESALE AND RETAIL.

THE subscriber most respectfully informs the public, that he keeps constantly on hand a general assortment of Parlor and Cooking Stoves, of the most approved patterns.—

He is now manufacturing and receiving a splendid assortment of Air-light Stores. For parlors and chambers. He has recently obtained a Patent for a Ventilating Air-tight Stove, which keeps up a constant circulation of air in the room, and when the Stove is closed up, the ventilator is opened at the same time, and the close, oppressive air passes off through the ventilator, and the same pleasant, healthy heat is produced as from a fire-place or open Stove. He is sole agent for Pierce's American Air-tight Cook Stove, the best offered in this market. There are five sizes, for coal or wood. House keepers and farmers should by all means examine this superior Cooking Stove. There is a great saving of fuel, and the ozen possesses an advantage over almost any other kind of Stove now in use. It is very large, and the top being fire-brick, the moisture is absorbed during baking, and combines the advantages both of a Brick oven and a Cook Stove. He keeps, also, Air-tight Cooking Rangers, and a superior assortment of Grates for fire-places. Also puts up Furnaces for heating dwellings, banks, churches, stores, &c.

A Li Rheumatic persons have very good reaA son for rejoicing, that they can obtain an article that will set all rheumatic complaints at defiance. We wonder that people will suffer a moment with this distressing and excrutiating pain when they can find a certain cure in this preparation. The certificates that the proprieters have, would astonish the most incredulous. Patients, who have been laid up for years, and who never expected again to be about, in health or without crutches, have been almost miraculously raised from their bed of pain, and restored to their friends, sound in their limbs and entirely free from pain of any kind. This is no fiction, but fact, and thousands who have used it can testify to its usefulness. Beware of counterfeits. ness. Beware of counterfeits.

DR. TOWNSEND'S SARSAPARILLA,— THE MOST EXTRAORDINARY ME-DICINE IN THE WORLD.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without romiting, purging, sickening, or debilitating the patient.

The great beauty and superiority of this Sarmaparilla over all other remedies is, while it cradicates disease, it invigorates the body.

IT HAS PERFORMED

MORE THAN 15,000 CURES THIS YEAR,
1,000 Cures of Dyspepsia,
2,500 Cures of Oppepsia,
2,500 Cures of Oppepsia,
2,500 Cures of General Debility, and want of Nervous Energy.
3,000 Female Complaints, and over
7,000 Cures of diseases
Of the Blood, viz:—Ulcers, Scrofula, Piles, Erysipelas, Salt Rheum, Pimples on the face, &c., forgether with numerous cases of Consumption, Liver Complaint, Spinal Affections, &c. This we are aware, mustappear incredible, but we have letters from physicians and our Agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq. one of the most respectable druggists in Newark, New Jersey, informs us that he can refer to more than one hundred and fifty cases in that place alone.—
There are thousands of cases in the city of New York, which we will refer to with pleasure, and to men of character well known.

UNITED STATES OFFICEH. NEW CABINET MANUFACTORY.

UNITED STATES OFFICER.

UNITED STATES OFFICER.

Captain G. W. McLean, member of the New Jersey Legislature, late of the United States Navy has kindly sent us the following certificate. It tells its own story: Rahrcay, Jan. 25, 1847.

A year since I was taken with the influenza and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attributed it entirely to the said Sarsaparilla. I have continued taking it, and find that I improve every day. I believe it saved my life, and would not be without it under any consideration.

G. W. McLean. THE EDITOR.—John Jackson, Esq. Editor of the Rahway Republican, published the above certificate, and remarks in an editorial as follows:

The success of Dr. Townsend's preparation of Sarsaparilla appears to be of the most extraordinary character. We publish to day two certificates in its behalf one from Capt. McLean, of this town, and one from Rev. Mr. White, of Staten Island, a gentleman well known in Ruhway.—Capt. McLean believes the medicine to have saved his life, and Mr. White seems to entertain an equally strong confidence in its efficacy. Intelligent men like these would not praise so strongly what they did not fully believe to deserve it.

SCROFULA CURED.—This certificate was handed into Dr. Townsend's office this week, and conclusively proves that his Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

anprecedented,
THREE CHILDREN,—Dr. Townsend—Dear Sir: Three Children.—Dr. Townsend—Dear Sir:
I have the pleasure to inform you that three of my
children have been cured of the Scrofula by the
use of your excellent medicine. They were afflicted very severely with bad sores; have taken
only four bottles; it took them away, for which I
feel myself under deep obligation.

Yours respectfully,
ISAAC W. CRAIN, 106 Wooster st.
New York, March 1, 1847.

RHEUMATISM AND THE PILES .- Dr. Townsend RHEUMATISM AND THE PILES.—Dr. Townsend —Dear Sir:, My wife has been for several years afflicted with rheumatism. She has tried many different remedies to obtain some relief, but all to no purpose. She was finally induced, by seeing your advertisement, to give your Sarsaparilla a trial. We procured some of it from your agent, (Mr. Van Buskirk) and it gives me pleasure to state that after using it she experienced great relief, and was in a very short time perfectly curel, I was also (together with another man in my employ) badly troubled with piles, and by using a small quantity of your Sarsaparilla, our complaint was completely cured. I consider it one of the best of medicines, and would advise all who are afflicted to give it a trial.

123 Market street, Newark. GREAT FEMALE MEDICINE .- Dr. Townsend's GREAT FEMALE MEDICINE —Dr. Townsend's
Sarsaparilla is a sovereign and speedy cure for inciplent consumption, barrenness, loucorahea, or
whites, obstructed or difficult menstruation, incontinence of urine or involuntary discharge thereof,
and for the general prostration of the system—
no matter whether the result of inherent causes,
or produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects upon the human frame. Persons all
weakness and lassitude before taking it, at once
become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause
of barrenness.

ence. It immediately counteracts the nervicessness of the female frame, which is the great causo
of barrenness.

It will not be expected of us in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that tiundreds of cases have been reported to us. Several
cases, where families have been without children,
after using a few bottles of this invaluable medicine, have been blessed with healthy offspring.

Dr. Townsend---My wife being greatly distressed by weakness and general debility, and suffering
continually by pain and a sensation of bearing
down, falling of the womb, and with other difficulties, and haying known cases where your medicine has effected great cures, and also hearing it
recommended for such cases as I have described,
I obtained a bottle of Extract of Sarsaparilla, and
followed the directions you gave me. In a short
time it removed her complaints and restored her
to health. Being grateful for the benefits she received, I take pleasure in thus acknowledging it,
and recommending it to the public.

Albany, August 17, 1844.

Albany, August 17, 1844. NERVOUS DEBILITY.—Dr. Townsend's Sarsa-parilla is performing thousands of cures in Nervous Diseases, especially in nervous prostration and general debility of the system. It effects the most astonishing results. The patient frequently feels relieved in ten minutes. The following proof from a highly respectable gentleman is in point:

NEW YORK, Dec. 28, 1846.

New York, Dec. 28, 1846.

Dr. Townsend—Dear Sir: I have been severely afflicted for a length of time with great physical debility and prostration of the whole nervous system. At times I have fallen in the streets by attacks of dizziness in the head, accompanied with singing in the ears. I also suffered with the dyspepsia, sickness at the stomach, and sensation of faintness. I read that your Sarsaparilla was used for such complaints, and procured a bottle, and to my astonishment and surprise, before I had used the one bottle, I was like another man; indeed it cured me entirely; I have never been so surprised at any result in my life. I consider your medicine a great blessing, and will extend its use as far as possible. You are at liberty to publish this if you choose. I live and can be seen at No. 58 Prince street.
