THE undersigued, for himself and others, having purchased the Water Power and Estate known as Strider's Gulf Mills, at the apper terminus of Harpers-Forry—and a Company having been organized, and application made to the Legislature of Virginia for a Charter—proposes, as soon as the Charter is obtained, the erection of large and extensive Paper and Woollen Factories, which will give employment to 250 to 300 hands, and with machine shops and mechanics, probably over 100 families, who must necessarily purchase their provisions and sustenance from the farmers occupying the fertile valleys around, from which it is to be hoped they will be liberally supplied.

But as the crection of such extensive Factories and furnishing them with machinery, the erection of dwellings for so large a number of hands, and the large amount of funds requisite for stocking or furnishing the mills with materials for manufacture, involves a very large outlay of capital,

or furnishing the mills with materials for manufacture, involves a very large outlay of capital, and the proprietors are anxious as fast as possible to push the improvements even greatly beyond those proposed above, the limit of means alone seeming almost the only limit of useful and profitable improvement. We are induced to propose, that the citizens in this vicinity unite their means with ours in carrying forward these great and useful improvements, by becoming subscribers to the stock in "The Shenandoah Paper Manufacturing Company," as we think a more useful or turing Company," as we think a more useful or profitable investment of funds could not be made, independent of the benefits such establishments confer on the adjacent country.

Should the clizens in this vicinity take stock to the amount of eight or ten thousand dollars, or more was hall or seed at the stock to the amount of eight or ten thousand dollars, or

to the amount of eight or ten thousand dollars, or more, we shall proceed at once to the erection of a Factory not less than sixty-five by two hundred feet, four stories in height, and of the most per manent materials and workmanship, for the double purpose of the manufacture of paper and of woollen goods. We have secured the means of filling them with the requisite machinery, and supplying them with workmen; we however wish your aid in amounts equal to the cost of erecting the buildings, or greater, if you desire, and books will be opened for substriptions as soon as the Charter is obtained.

We also invite the attention of canitalists to the

We believe that safer and more profitable investments could nowhere be made.

could nowhere be made.

The above may seem premature, but as the season for commencing is so rapidly approaching, we throw out these suggestions thus early, that the citizens may be informed upon a subject which we believe cannot be indifferent to them, and hope, they having an opportunity to examine the subject fully, will have their minds made up and-be prepared to act as soon as the books are opened. Persevere!

Push onward—upward—higher still!

Do not longer triffe here;
Every moment, now, is precious—

### General Intelligence.

The Triument of Chicogoroum.—A most remarkable instance of the happy effects of Chloroform, in overcoming the severest pains incident to human nature, occurred in Georgetown very recently, in a case of obsettrics. We learn from the National Intelligencer, that Dr. Cragin, the attending physician, after ascertaining that the patient was of a constitution to hear the chloropatient was of a constitution to bear the chloroform, administered it in the usual mode. The patient slept soundly for about an hour, and when she awoke found herself the mother of her sixth child, without having been sensible of the slightest pain.

YANKEE ENTERPRISE IN RUSSIA —We learn from the European papers, received by the Hibernia, that the American lirm of Harrison, Winans & Eastwick, the well known contractors for the cars and locomotives on the St. Petersburg and Moscow Railway have obtained the contract for the new iron bridge across the Neva. Mr. Winans, of this firm, is now in Baltimore, on a visit but will shortly return to Russia, to fulfi his contracts with that government. Another enterprising American firm have obtained an exclusive privilege of cutting ice for foreign markets, and are rapidly constructing a pier, ice-house &c., between St. Petersburg and Cronsvadt.

CURIOUS CASE.—The Lexington Gazette publishes a letter from Salem, giving an account of the arrest at a place about thirteen miles from that village, of an apparent young gentleman, but a real young woman, and a negro man about 50 years old, who were making their way to Ohio. The female gave her name as "Elizabeth Hamilton, daughler of a widow Hamilton on Buffalo creek." The negro belonged to Mr. Hardigan, of Lexington. They were both committed to juil—the woman for kidnapping—and the negro as a runaway, and for horse stealing. The Gazette says it will be hard to ascertain whether Miss H. ranaway with John, or whether John has been satch a villain as to persuade Miss II. to go with him.—Richmond Times.

The Price of Pic Iron.—An erroneous statement has been travelling the rounds of the newspapers, to the effect that pig iron has declined twenty dollars per ton. A correspondent states that the recent advance of some \$10 per ton in pig iron was caused by an accidental, and of course, temporary scarcity of the article in the principal cities of this country, continuing, as it was generally predicted, but a short time—say from about the middle of September until the close of January—during which time prices advanced from \$30 to \$31 to \$40 per ton. The market price is now \$30 to \$31 for best Baltimore forge pig, so that the actual decline is only \$10 per ton, being precisely the advance that, unfortunately for the iron interests of this country, occurred as stated above.

A Malicious Barber.—At Cazenovia, Pa., on Thursday week last, Peter Toussaint, a colored barber, attempted (and perhaps succeeded) to murder J. Woodward, Eeq., of that place, whilst shaving him. THE LOAN BILL—UNCONSTITUTIONALITY OF THE WAR.

In private life, a man who blows hot and blows cold in the same breath, is set down as weak in intellect, and his judgment on matters of consequence of no value, and not worth heeding.—

What a humiliating spectacle would not it present to the world? and what a powerful argument would it not furnish to despotic governments to use against the instability of any government whose representatives acted in this imbecile manner!

Such a spectacle has been witnessed in the U. States. A short time since the House of Representatives at Washington passed a resolution, by a large majority, that the war in which the United.

CHLOROFORM IN CASES OF INSANITY .- At the Almshouse on yesterday the wonderful effects of hat remarkable agent, chloroform, were exhibited n a most striking and useful manner. It became necessary to remove to another apartment a man who had been brought in about a week since, a violent maniac, and who had continued in a con-

dition of raving insanity, endaugering all who approached him. The attending physician, Dr. Baxley, having been consulted by the overseer relative to his removal, determined to place him under the influence of chloroform, and with the aid of assistants, in three-fourths of a minute, reduced him from a state of unovernable forward duced him from a state of ungovernable fury and resistance, to one of perfect quietude and uppar-ent sleep, thus enabling the proper officers to put on him a straight-jacket, and to remove him to a distant part of the building in a condition of non-When he awakened he was perfectly tranquil

'If this occurs,' says Zadikel, 'the month of February will be extraordinarily mild, and March be less severe, a great deal, than is foretold by the planets' aspects, and then will the summer suffer the reaction, and be excessively wet and stormy.'" WEALTH or Exclass.—The London Times admits that "the annual saving of the nation over and above its expenses, or in other words, its accretion of capital, is not less than fifty millions pounds (\$240,000,000) annually;" and the London Daily News states that "the banking deposits and lodgments on current occount in Great Britain alone, cannot be estimated at less than three handred, millions," or the corrections sum of one

The oldest of the five generations is minety siz years of age—the youngest is between two and three months old, so that the distance which separates the two extremes is but little less than a century. Alas, then, for the scientific intelligence of Britain, and the philanthropy of its weathy men, when millions pour into their groaning cofters, and the poor languish and die from destitution in their cellars and garrets. Driven to Desperation.—A widow woman, with six children, attempted to commit suicide in New York, on Friday night, by swallowing laudanum, but assistance was immediately rendered, and her life was saved. The poor woman was in the most destitute circumstances, and having made unsuccessful application for work that day, came home and put her two youngest children to bed, without food, and then went out and returned with the laudanum; but her eldest daughter suspecting something wrong, gave the alarm. The family was supplied with articles of comfort by some charitable persons.

Of all the portions of our life, the spare moments are the most fruitful in good or cvil. They are the gaps through which temptations findithe casiest access to the garden of the soul.

In reply to your inquiries, I have again to repeat, that I have neither the power nor the desire to dictate to American people the exact manner in which they should proceed to nominate me for the Presidency of the United States. If they desire such a result, they must adopt the means best suited in their opinion, to the consummation of the purpose; and if they think fit to bring me before them for this office, through their legislatures, mass-meetings, or conventions. I cannot object to mass-meetings, or conventions, I cannot object to their designating these bodies as Whig, Demo-cratic, or Native—But in being thus nominated, I must insist on the condition—and my position on this point is immutable—that I shall not be brought forward by them as the exponent of their

party doctrines.
In conclusion, I have to repeat, that if I wer nominated for the Presidency, by any body of my fellow-citizens, designated by any name they might choose to adopt, I should esteem it an honor, and would accept such nomination, provided it had been made entirely independent of party considerations. I am sir, very respectfully,

We cannot too seriously impress upon the Democratic party throughout Virginia the impor tance of a prompt observance of one recommendation of the late Democratic Convention, viz:—
that they should hold Conventions in their respective Electoral Districts, at their earliest convenience, for the purpose of appointing four delegates from each of said districts to attend the Democratic Convention, which will assemble in Baltimore on the 4th Monday in May next—and also an equal number of gentlemen to act as alternates. We would advise our friends to hold county meetings at their earliest court days, and agree upon a time and place in each electoral district, when and where the Convention shall be held to appoint the four delegates and alternates to the Baltimore of that Convention. tance of a prompt observance of one recommen four delegates and alternates to the Baltimore Convention - Richmond Enquirer.

DEMOCRATIC COUNTY CONVENTION.

The Delegates from the several Precincts i the County, to consider the expediency of nom nating two Democratic candidates for the House of Delegates, met at the Court House, in Charles town, on Friday last. Mr. WALTER J. BURWELL was called to the Chair, and B. F. WASHINGTON

We have been requested, since the proceed ings of the county Convention were in type, to state that neither Messrs. Moore or Lucas can find it compatible with their private interest, to accept the nomination so freely conferred. They return to the Convention their thanks for the hon or of the selection, but circumstances will not per mit them to be considered as candidates for the Legislature at the approaching election.

A Mass Meeting of the Democratic party wi he held at March Court, when the whole subject will be again brought up for consideration. Our own impression is, that the best interests of the Democratic party in this county-its unity, its concert, its organization-demand that we should have candidates for the Legislature. If our friends, however, at the Mass Meeting, think otherwise, we and those who act with us, will most cheerfully acquiesce.

THE TREATY.

The Senate not yet Acted.

The doors of the Senate still continue closed and the fate of the treaty is yet undecided. The question will, however, it is confidently believed he settled early in the present week. Specula tions are rife about the result. The ratification requires two thirds of the votes; and no one can positively say how many of each party will vote against it, and whether it will receive the const tutional sanction. How many Whigs or how many Democrats will vote against it, no one can possibly ascertain; yet the sentiment of the country demands its acceptance, if it be such as repre sented, and those who oppose it may incur a fear ful responsibility, if they suffer past prejudices of the General consents to run, but not as a "Whig, future political advantages, to sway their judgment and control their actions.

It will not do. Democrats can never be caught.

The Washington Union, of Saturday night, says:—"The general impression seems to be to-day more decided in favor of the ratification of the treaty with a few modifications. Some seem to consider that the striking out of the 10th clause, respecting the Maxican grants of land, decreases the chance for its ratification. This would seem to be a misiake. On the contrary, the modification in this respect, which is recommended by the tion in this respect, which is recommended by the President, increases the chance for its confirmation. The question will probably be taken early in the next week."

CLARRE COUNTY. EDWIN W. CONGRESS. Nothing of the least general interest has ocurred in either House of Congress, the last week. An exciting debate has been going on in the House on the Appropriation bill. Politics, Religion, the Mexican War, Native Americanism, and a hundred other matters, have been lugged into the controversy. President-making seems to be now the order of the day in Washington.

OT CHARLES J. FAULKNER and AARON MYERS. Esq'rs., have been nominated as the Whig cand? dates for the Legislature, from the County Berkeley. We publish the Address of the Whig Convention to the people of Virginia, and hope its length will deter no one from reading it through. Containing, as it does, a full exposition of the present principles of the Whig party of this State, it must be regarded as a document of no ordinary interest and importance. Upon all the great questions that now agitate the country, it is singularly explicit. Respecting Gen. Taylor's position on the political chees board, it is exceedingly clear—"clear as mud." In a word, we call attention to it as the real platform upon which the "Shirtless Party" now stand!—Richmond Examiner.

Puerla Carello, Feb 1348

I regret exceedingly that it devolves upon me to record a very serious emeute which occurred on 24th ult. at the city of Caraceas, and in the Halla of Congress—an attack by the order of Government, or with its consent, upon the Representatives of the people, in solemn deliberation, which resulted in the death of several members of the House of Representatives. Subsequently the Government, through violence and menaces, procured the passage of whatever measure it though proper to present; in fact the members who have not been able to escape are vigilantly and strictly guarded by the military, and therefore the will of one prevails, or rather the bayonet is now the Legislative and Executive.

All eyes and hopes rest upon Gen. Jose Antonio Parez, for the re-establishment of order and the Constitution, which has been most outrageously violated by the enemies of a free and enlightened government. There has been an embargo for several days past upon all vessels, both at this port and Laguayra, but by the strenuous exertions of Mr. Shields, U. S. Consol, the obnoxious decree was removed. Upwards of forty distinguished citizens of Caraceas embarked from Laguayra 1st inst. for Curacoa. No passports will be granted under any consideration for the present, consequently no persons of any nation can leave the country. A U. S. vessel of war is much wanted here at present to protect the interest of American residents.

When the Representatives of the people were atacked, as described above, they had under consideration articles of impeachment against the President, Gen. Monargas, which were likely to be adopted. This will account for the bloody at tack made by the minions of the Executive.

BALTIMORE, Saturday evening, March 4, 1348.

J. W. BELLER, Esq. —Deer Sir—The market for floward street flour has been quite active the past week with some advance in price. From Saturday to Tuesday last, 200 bhls were sold at \$5.75. On Wednerday last, 200 bhls were sold at \$5.75. On Wednerday in the some 200 bbls, were taken at \$5.874. Yesterday, (Friday, dealers beld for \$6—we heard of 300 bbls sold at \$5.933. The advance is in a great measure owing to there being no stock of City Mills flour. A moderate stock of Howard street, with light receipts for some days past, shippers to some extent had delayed purchasing in hopes of lower prices. But three vessels are now ready, and they are forced into market.

GRAIN-No Wheat in farket—red is worth 1.25 to \$1.30. A moderate supply of Corn—white and yellow 41 to 48 cents.

SEEDS—Sales of fair to prime Cloverseed, are making at 3.75 to \$1. Flarseed is in demand at 1.35 to \$1.371. CATPILE—There were 533 head Beeves offered at the scales on Monday, some of which were of a superior quality. 350 head were sold and 183 driven to other markets. Prices ranged from 2.75 to \$1 on the hoof—equal to 5.50 a \$5.75 net.

J. W. BELLER, E-q.: DEAR SIR—I have to report our Flour market this week quite active up to Saturday morn-Flour market this week quite active up to Saturday morning. Considerable sales of Flour were made at 5.75, 5874 and \$5.934 during the week in Howard at brands, but the Steamer's news, which was communicated at 9 o'clock on that day, with a decline in England of 1 shilling per bibl, supended operations, and consequently I have no sales to report since.

Our receipts of Flour are alightly on the increase.—They amount his week to nearly 10,000 bils. We have exported in the same period, 5.660 bils.

The samply of grain is limited, and our City Mills are doing very little.

FACTS TO BE REMEMBERED That Consumption is almost always produced by a cold that might easily be cured. That Wistar's Balsam of Wild Cherry will cure any cough or cold, no matter of how long standing. That its milder form of Consumption itself is also cured by this Balsam. That is in cured by many lawyers, clergymen and physicians, that this Balsam has never been equaled for efficacy in all affections of the Lunga and Liver. That scores now rejoice in the powersion of good health who, but for this Balsam, would have been in their graves—having been given up to die by their friends and physicians. Above all, remember that this invaluable medicine has been imitted under various names, and that De Wistar's Genine Balsam of Wild Cherry only can be relied upon to CURE. It has been warranted to cure Ashma in every stage—wint no physician has ever achieved—and has never been known to fail. For delicate health in young femalest it stands unrivalled—as it does for all diseases of this climate.

Knabe & Gæhle's Piano Factory. In calling the attention of the public to this manufactory, the undersigned is impressed with the belief that he is rendering a service to the lovers of music and conferring a favor upon the public, as thy so doing he brings to notice an establishment of unquestionable merit. During my stay in Baltimore, I have had an opportunity of stay in Baltimore, I have had an opertunity of examining its interior arrangements, and can, therefore, conscientiously give the assurance, that in all that imparts despatch, efficiency and power, combined with beauty in design and execution, the factory of these gentlemen is unexcelled by any other in the United States.

The instruments made by Messre, Knabe & Gable, are built with the most consummate care, taste and judgment; their finish is exquisite—their tone at once full, clear-and brilliant. In a word, it is but justice to these gentlemen when I say—that, while by their genius and acquirements, they are competent—their industry, zeal and ambition, are such as to ensure to the elaborations of their skill a degree of mechanical nicety, as

A CHEAP BREAKFAST.

A son of Erin at Schenectady, third the break-fast bell ring on board of a canal-boat just starting out for Buffalo. The fragrance of the viands in-duced him to go on board.

"Sure, captain, dear," said he, "and what'll ye ax a poor man for travelling on yer illegant swan ov a beat?"

"Only a cent and a half a mile, and found." replied the captain.
"And it's the vittles ye mean to find, sure?" Yes, and if you're going along, go down to

"What do you want to stop for ?" inquired the captain.

"How far have we come, just ?" asked Pat.

"Only a little over a mile."

Pat handed the captain two cents, and coolly told him that he believed he would go no farther with him, as Judy would wait her breakfast, not knowing that he had breakfasted out.

The joko was so good that the captain took the cents, ordered the boat to be stopped, helped Pat ashore, and told him that should he ever have occasion to travel that way again he should be happy

It arose from the following circum-stance: Two men living near neighbors, had a falling out about the cow of one of the parties fre-

raining out about the cow of one of the parties frequently getting into the enclosure of the other, and which finally resulted in the death of the cow; she having been set on by dogs and chased till she ran against a stump and broke her neck.

The case was submitted to a jury of respectable and wealthy farmers. After hearing related all the circumstances, the jury made up their minds that the owner of the cow could not afford to lose her, and that the owner of the dogs was to lose her, and that the owner of the dogs was not able to pay for her; they therefore rendered the following verdict, that the jury should pay the value of the cow, the magistrate treat the party, and the constable pay the costs.

The verdict was immediately ratified and satis-

fied, to the great joy of the entire neighborhood [Kentucky Democrat.

"STIR UP THEM MONKIES."—An exchange gives the following touching harrangue, delivered u a late menagaric scene :

In a late menagaric scene:

This, ladies and gentlemen, is the natural kangaroo—the animal what approaches to man second only to the baboon; it skips about with much velocity on its hind legs, of which it has two, from rock to rock. It would be much more like man if it hadn't a tail—but this defect it remedies with much art. It curls it gently into its waistcoat pocket and nobody is any the wiser. It feeds principally upon what he can get, and is found in the Island of Borneo, which I have a brother whowas born there myself. My brother has often seen the kangaroos as well as myself feeding upon clams by the sea shore, admiring the sweetness of the meat and shaving themselves with the upon crams by the sea shore, admiring the sweet-ness of the meat and shaving themselves with the shells. The kangaroo is remarkable for his va-lise, which is a natural decayity in his abdomen, into which he puts his kittens and is exceedingly portable. These are the guinea pigs from the faland of Guinea; they are as yellow as guineas

Two colored gentlemen in the West went out large cave with a small entrance.

large cave with a small entrance.

Peeping in, they discovered three young hear whelps in the interior. Look heah, Jim! said one—'While I goes in and gets de young bars, you just watch heah for de old 'un.'

Jim got asleep in de sun, when, opening his eyes suddenly, he saw the old she-bear squeezing her way into the cave. Quick as wink, he caught her by the tail.

'Hello, dar !' says Jumbo in the cave—'Hello dar Jim!—what darky de hole!' 'Lord bress you, Jumbo! save yourself, honey, for if dis tail aum out, y'll soon find out what darky de hole.'

BEAUTY.-An ancient importinent rhyme divides female beauty in four orders, as follows

"Long and lazy, little and loud," Fair and false, dark and proud." Arrant scandal! the following is the true read

"Tall and splendid, little and neat, Fair and pleasant, dark and sweet."

" High and beauteous, little and witty, Fair and lovely, dark and pretty."

Htsroax.—"Charles, my son," said a pious old lady to her grandson, who was attending an Eastern college; "Charles, my son, what history is mostly read at college?"

"Why, grandms," replied young hopeful, "there are a great many read, but the one most attentively perused by the students is called the history of the Four Kings!"

"My dear poliy, I am surprised at your taste in wearing another woman's hair on your head," said a man to his wife.

"My dear Joe, I am equally astonished that you persist in wearing another sheeps wool on your back."

What carotty headed, ugly little brat, is that madam? Do you know his name? Why yes, that's my youngest son! You dont say so, indeed? why what a dear little sweet dove eyed chernb he is, to be sure! This is the fashionable scientific way of backing right square out.

"Why was the battle of Reseca de la Palma like the marriage of Adam and Eve?"

"Because it was a short engagement followed by a long race."

Fun is fun, but when a young fellow sees another one walking off with his sweetheart, it is no fun at all. So says a young acquaintance of Rio Coffee. Y Harpers-Ferry, Feb. 23, 1848. None are so invincible as your half-witted peo-ple, who know just enough to excite their pride, but not near enough to cure their ignorance.

When is a chickens neck like a bell? When it is rung for dinner. "Ma'am, your shawl's dragging in the mud."
"Well, suppose it is? Isn't it fashionable?"

Life is a dreams, and mankind the actors.

COMPOUND SYRUP OF WILD CHERRY.
THE GREAT REMEDY FOR
CONSUMPTION,

DR. SWAYNE'S

CON SUMPTION,

Colds, Coughs, Spitting of Blood, Bronchitis, Difficulty of Breathing, Ashma, Pain in the Side and Breast, Whooping Cough, Croup, and all Disorders of the Liver, and Lungs, Broken Constitution, &c., &c.

Tills "Celebrated Remedy" has now, by its intrinsic virtues, acquired a celebrity which can never be shaken by the many quack "Nostrums" with which the country abounds. "The public are fast learning that this is the only remedy that can be relied upon for the speedy and permanent cure of all Diseases of the Lungs. It is literally sweeping Consumption from the land; wherever it is introduced and become known, all others dwindle into insignificance. The public have been "humbugged" long enough, and now resert to a medicine which the testimony of the most eminent physicians in the land has placed beyond the reach of criticism.—It requires no bolstering up, by publishing columns of forged certificates—but it is enough to let the public know where it can be obtained, and one trial will convince all of its great efficiency in curing those distressing diseases above named, which have baffled the skill of the most learned practitioners for ages herrotogre.

DR. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY was the first preparation from that valuable tree which was ever introduced to the public, and ample proof is afforded of its success by the country being flooded with "Balsams," "Candies," and "Mixtres," of Wild Cherry, not one of which is prepared by a regular physician, although they have assumed the names of respectable physicians to give currency to their "Nostrums." Therefore the public should be on their guard, and not have a worthless mixture palmed upon them for the original and genuine preparation, which is only prepared by DR. SWAYNE, N. W. corner of Eighitt and Race streets, Philadelphia.

STOVES, STOVES. WHOLESALE AND RETAIL. THE subscriber most respectfully informs the public, that he keeps constantly on hand a general assortment of Parlor and Cookeneral assoriment of Parlor and Cooking Stoves, of the most approved patterns.—
He is now manufacturing and receiving a splendid assortment of Air-light Stoves, for parlore and chambers. He has recently obtained a Patent for a Ventilating Air-light Stove, which keeps up a constant circulation of air in the room, and when the Stove is closed up, the ventilator is opened at the same time, and the close, oppressive air passes of through the ventilator, and the same pleasant, healthy heat is produced as from a fire-place or open Stove. He is sole agent for Pierce's American Air-light Cook Stove, the best offered in this market. There are five sizes, for coal or wood. House keepers and farmers should by all means examine this superior Cooking Stove. There is a great saving of fuel, and the oven possesses an advantage over almost any other kind of Stove now in use. It is very large, and the top being fire-brick, the moisture is absorbed during baking, and combines the advantages both of a Brick oven and a Cook Stove. He keeps, also, Air-tight Cooking Rangers, and a superior assortment of Grates for fire-places. Also puts up Furnaces for heating dwellings, banks, churches, stores, &c.

DR. TOWNSEND'S SARSAPARILLA,— THE MOST EXTRAORDINARY ME-DICINE IN THE WORLD.

This extract is put up in quart bottles; it is six times cheaper, pleusanter, and warranted superior to any sold. It cares diseases without romiting, purging, sickening, or debititating the patient.

The great beauty and superiority of this Sarsaparilla over all other remedies is, while it eradicates disease, it invigorates the body.

Of the Blood, viz:—Ulcers, Scrofula, Piles, Erysipelas, Salt Rheum, Pimples on the face, &c., together with numerous cases of Consumption, Liver Complaint, Spinal Affections, &c. This we are aware, must appear incredible, but we have letters from physicians and our Agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq. one of the most respectable druggists in Newark, New Jersey, informs us that he can refer to more than one hundred and fifty cases in that place alone.—There are thousands of cases in the city of New York, which we will refer to with pleasure, and to men of character well known.

UNITED STATES OFFICER.
Captain G. W. McLean, member of the New Jersey Legislature, late of the United States Navy has kindly sent as the following certificate. It tells its own story: Rahrcay, Jan. 25, 1847.

A year since I was taken with the influenza and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attributed it entirely to the said Sarsaparilla. I have continued taking it, and find that I improve every day. I believe it saved my life, and would not be without it under any consideration.

G. W. McLean. sideration.

THE EDITOR.—John Jackson, Esq. Editor of the Rahway Republican, published the above cer-tificate, and remarks in an editorial as follows: The success of Dr. Townsend's preparation of Sarsaparilla appears to be of the most extraordinary character. We publish to day two certificates in its behalf one from Capt. McLean, of this town, and one from Rev. Mr. White, of Staten Island, a gentleman well known in Rahway.—
Capt. McLean believes the medicine to have saved his life, and Mr. White seems to entertain an equally strong confidence in its efficacy. Intelligent men like these would not praise so strongly what they did not fully believe to deserve it.

SCROFULA CURED .- This certificate was handed into Dr. Townsend's office this week, and con-clusively proves that his Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented. THREE CHILDREN .- Dr. Townsend - Dear Sir:

I have the pleasure to inform you that three ofmy children have been cured of the Scrolula by the use of your excellent medicine. They were at-flicted very severely with bad sores; have taken only four bottles; it took them away, for which I only four outcos, it could be seen obligation.
Yours respectfully,
ISAAC W. CRAIN, 106 Wooster st.

New York, March 1, 1847. REUNATISM AND THE PILES.—Dr. Townsend —Dear Sir: My wife has been for several years afflicted with rheumatism. She has tried many different remedies to obtain some relief, but all to no purpose. She was finally induced, by seeing your advertisement, to give your Sarsaparilla a trial. We procured some of it from your agent, (Mr. Van Buskirk) and it gives me pleasure to state that after using it she experienced great relief, and was in a very short time perfectly cured, I was also (together with another man in my employ) badly troubled with piles, and by using a small quantity of your Sarsaparilla, our complaint was completely cured. I consider it one of the best of medicines, and would advise all who are afflicted to give it a trial.

afflicted to give it a trial. GARRIT GARRABRANT.

123 Market street, Newark, Sarsaparilla is a sovereign and speedy cure for in-cipient consumption, barrenness, loucorahea, or whites, obstructed or difficult menstruation, incontinence of urine or involuntary discharge thereof, and for the general prostration of the system— no matter whether the result of inherent causes, or produced by irregularity, illness or accident.
Nothing can be more surprising than its invigorating effects upon the human frame. Persons all weakness and lassitude before taking it, at once become robust and full of energy under its influ-

ot barrenness.

It will not be expected of us in cases of so delicate a nature, to exhibit certificates of cures per-formed, but we can assure the afflicted that hunformed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases, where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with healthy offspring.

Dr. Townsend—My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described, I obtained a bottle of Extract of Sarsaparilla, and followed the directions you gave me. In a short time it removed her complaints and restored her to health. Being grateful for the benefits she received, I take pleasure in thus acknowledging it, and recommending it to the public.

NERVOUS DEBILITY.—Dr. Townsend's Sarsa-parilla is performing thousands of cures in Nervous Diseases, especially in nervous prostration and general debility of the system. It effects the most astonishing results. The patient frequently feels relieved in ten minutes. The following proof from a highly respectable gentleman is in point:

New York, Dec. 28, 1846.

Dr. Townsend—Dear Sir: I have been severely afflicted for a length of time with great physical debility and prostration of the whole nervous system. At times I have fallen in the streets by attacks of dizziness in the head, accompanied with singing in the ears. I also suffered with the dyspepsia, sickness at the stomach, and sensation of faintness. I read that your Sarsaparille was used for such complaints, and procured a bottle, and to my astonishment and surprise, before I had used the one bottle, I was like another man; indeed it cured me entirely; I have never been so surprised at any result in my life. I consider your medicine a great blessing, and will extend its use as far as possible. You are at liberty to publish this if you choose. I live and can be seen at No. 58 Prince street.

For sale by SETH S. HANCE, 108 Baifmore street, and corner of Charles and Pratt streets.

N. B. Persons in the Country enclosing any amount of money post paid to SETH S. HANCE Baltimore, will receive the medicine by the earliest conveyance. Please write your name and address as plainly as possible; no attention given to unpaid letters.
