ELECTION DAY. Thursday, 27th of April.

BO Col. ANDREW KEYSER will be supported as a Camilidate for the House of Delegates, from the County of Page, in the next Legislature of Virginia.

Do We are authorized to announce Mai, THOMAS BUSWELL, as a candidate for re-election to the Legislature of Virginia, from the county of Page.

REMOVAL.
The Office of the "STRIT OF JEFFERSON" has been removed to the Corner Building, of the House heretofore known as the Valley Hotel. This location is more convenient of access by our friends, than our former place of business, and we shall at all times be pleased to see them. In our new quarters, renewed efforts will be made to render our paper acceptable to its readers, and to discharge all business pertaining to the Office, in a manner that will prove satisfactory. As our Advertisers say, thankful for past favors we solicit a April 11, 1848. continuance.

THE CANVASS Saturday last, being a muster day at Shepherds town, Mr. GALLAHER, the candidate for Senator, and the Whig and Democratic candidates for the House of Delegates, were present. In the after noon, by previous appointment, Messrs. Gallaher and Worthington addressed the people at some considerable length, mostly in defence of their position as regards the School Bill. John A. Thomson, Esq , also addressed a few remarks to the meeting. It was perfectly apparent that there was trouble in the camp, even at this hitherto stronghold of Whiggery, and we are yet to learn that the labored efforts of Saturday, done much towards effecting a reconciliation. Saturday next being musterday at Smithfield, the candidates will be in attendance, we learn, at that place.

MR. CLAY.

The Hon, Henry Clay arrived at Ashland on Saturday week, in good health and spirits, after his recent tour of observations to the North. The Lexington Observer, which announces this fact, has an article singularly significant of his own views and prospects. "The Old Coon is not dead," that is certain; and the language of the Observer proves it incontestably. It says explic-

"Recent events have developed one fact, which "Recent events have developed one fact, which the most careless observer cannot fail to have marked; and that is, the wonderful affection that the Whigs entertain for Mr. Clay. It is, we believe, without a parallel in the history of any public man. * * * * It is not to be denied that much of this enthusiasm would have been displayed even if Mr. Clay had positively declined being a candidate for the Presidency. But it is equally true that much of it proceeds from the inexpressible desire that the Whigs feel that he shall again be their standard-bearer in the Presidential contest. The present appearance of things certainagain be their standard bearer in the Presidential contest. The present appearance of things certainly indicates that he will be called upon as the Whig candidate for the Presidency. There are some who doubt Mr. Clay's election, but who would greatly prefer him to any other man. We are by no means sure that Mr. Clay is not, in every point of view, the most available candidate, if we should select a candidate upon the principle of availability."

IT We have received communication nominating Chas. B. Hardiso, Esq., to the consideration of the Central Corresponding Committee of Richmond, as Elector for this District, in place of Win Lucas, Esq., resigned. The Committee have given notice that the appointment will be filled, so soon as it is known what number of vacancies exist on the ticket, throughout the State

THE STEAMER'S NEWS - Effect on the Markets. -The advices by the steamer Washington, have had no material effect upon our market. No change of moment has been produced in the prices of any staple commodity. On Saturday, holders of Howard st. flour were contending for \$5,871, without finding buyers. Wheat and corn are unchanged. At Philadelphia and N. Y. the markets are unsettled, and dealers were patiently awaiting the arrival of the Boston steamer, fully due, with four days later news .- Balt. Clip.

A STRIKE .- We learn from the Pittsburg Post that " a strike" has occurred at the U. S. garrison at that place, in favor of the ten hour system. Major Craig, the Post intimates, took advantage of a slack time to re-inforce the " sun to sun" rule, after having once submitted to the ten hour sysADJOURNMENT.

The bill directing a survey for a Railroad between the Shenandoah and the Potomae, and from Alexandria to Harpers-Ferry, was postponed in the Senate, on motion of Mr. Witcher, various other surveys being appended.

Both Houses passed the bill increasing the number of Directors in the New Shenandoah Company—and the bill to change the time of holding the terms of the Circuit Superior Court of Clarke county, from the 24th March and 24th August, to the 12th day of May and the 12th day of October.

A bill was passed, appropriating a certain sum of money for the benefit of the officers and soldiers of the Virginia Regiment of Volunteers.
The bill to increase the number of Directors in the New Shenandoah Company to ten was passed through both Houses previous to adjournment.

TRIAL FOR MURDER. The trial of John I. Johnson, for the murder of John M. Elliott, in Warren County, during the last winter, has just terminated. The case created intense excitement, and we learn that From Royal was never more crowded than during the progress of the trial. The counsel for the defence vore Messrs. G. B. Samuels, of Shenandoah, and R. Conrad, of Winchester. On the part of the Prosecution were Philip Williams, Esq., Commonwealth's Attorney, and Hon. Jas. M. Mason of the U. S. Senate, employed by the friends of the deceased. Able arguments were delivered on both sides ; and the concluding speech on the part of the Prosecution, is said to have been one of the

ablest efforts ever made in this section of the State.

SUPERIOR PLOUR.

We are indebted to Mr. James C. WHITEHILL, of the Opequon Mills, near Smithfield, for a barrel of his superior Family Flour. In quality, it is hard to beat, and will compare favorably with the best brands in the Valley. Mr. Whitehill, we learn, has introduced into his Mill improvements which but few others possess, and by this means, as well as the care he exercises in the selection of his wheat, is enabled to manufacture the most choice quality of Family Flour. We commend all who are in want of a good article, to give him a trial.

SHENANDOAH IMPROVEMENT. The work goes bravely on in our sister county of Page. Public meetings are being held at all points, and the people are coming forward liberally to sustain this great enterprise of the Valley. A correspondent furnishes us the following :

Shenandoah Iron Works, Page Co , ?

The Bill for raising an additional number of Volunteers, to serve during the continuance of the Mexican War, is now prominently before the Senate. The resolutions in regard to France, have elicited considerable discussion in both Houses, and after various amendments, the following were passed by the Senate, yeas 31, nays none, viz:

Resolved by the Senate and House of Representatives of the United States of American in Congress assembled. That, in the name and behalf of the American people, the congratulations of Congress are hereby tendered to the people of France upon their success in their recent effort to consolidate liberty, by embodying its principles in a republican form of government.

Resolved, That the President of the U. States be, and he is hereby, requested to transmit this resolution to the American minister at Paris, with instructions to present if to the French government.

How does the good cause progress in the lower counties? Let the people speak, and let us all put our shoulders to the wheel, by laying hold of the work, and not cease until we have the sum required by the act of incorporation, to enable us to organize, appoint our President and Directory, and immediately proceed with the great work. What say you, friends in Jefferson, Clarke, Warren, &c.? Are there no more of you, who like our fellow citizen, Col. Castleman, will take it upon yourselves to labor in the good cause, by going to see the people and urging them going to see the people and urging them to sub-scribe to the Improvement? Do let more of us imitate his example. I will state in conclusion, that I heard Col. Castleman say that he would be glad to purchase as much of the Old Stock as he can get. Please excuse haste,

"THE CAMPAIGN?" Under this title Messrs. Ritchie & Heiss, of the Vashington Union, have issued proposals for publishing an Extra paper, during the approaching canvass. Its publication will commence on the 16th of May next, and continue six months, preceding the Presidential election, and will be devoted exclusively to the political subjects connected with the issues of the great struggle. It will be just such a paper as should be in the hands of every man, who desires to have correct information upon all the questions which will be in volved. We subjoin the terms, believing that many will patronise the undertaking:

The last number of the "Campaign" will be published after the election, and will contain the official returns of the canvass in every State. The Hon. JOHN A. BLACK, member of the

resent Congress from South Carolina, died on the 4th instant. On Wednesday Mr. Butler pronounced a brief eulogy upon the public services and private character of the deceased. This event he said, was well calculated to arrest attention and inspire serious reflection. It was the fourth death which had occurred within the four months of the present session, and the ninth for which they have been called upon to go into mourning -three in the Senate and six in the House of Representatives.

BT CHARLES B. HARDING, Esq , we learn, adressed the Smithfield Democratic Association on Saturday evening last, in accordance with an invitation previously given. His remarks we'e mostly on the subject of the Mexican War, and the action of the Whig party in reference thereto His speech was an able and eloquent vindication of the Administration, and its entire policy.

FRANCE.

Message from the President. On Tuesday, 4th inst., the President of the U. States cent to the two Houses of Congress the following Message, recognizing the Independence of France. The Baltimore Sun very appropriately remarks, that the Message is at once honorable to Mr. Polk, and most becoming to the nation which he represents in its chief official position. It was well-timed withal, and made its appearance as a seasonable example for the action of a disputalous Congress upon the same subject. If the Republic of France is not to be promptly recognized and encouraged by the people of America through the suitable expression of their national legislature, where, in the wide world, is France to look for the cordial support of a sincere sympathy? Let us stand aloof, and with cold and calculating preciseness await some period of the remote future, at which we shall be satisfied that he people of France are capable of self-government, before we congratulate them upon their great achievement, and a precious commentary we shall offer to the world upon our appreciation of that grand "experiment," in which it has been our boast, heretofore, to have taken the initiative. and successfully to have established its practicability. What will France think, and what will the world think of our pretensions? Is not our hositancy in such a matter the virtual negation of our confidence in the system of popular governnent? Or, if not this, it is certainly a direct imoutation against the sufficiency of the people of France for the responsibility it involves. Those who have doubts upon this matter may cherish them if they please; but for the sake of humanity and our common interest in the extension of the domain of popular freedom, let not our doubts take the form and usure the importance of discourage ments to the career of a nation, newly born to the glorious aspirations of liberty, and now under the baptism of its earliest influences.

To the Senate and House of Representatives of the United States: I communicate to Congress, for their informaion, a copy of a despatch, with the accompanying documents, received at the Department of
State, from the envoy extraordinary and minister
plenipotentiary of the U. States at Paris, giving
official information of the overthrow of the French
monarchy, and the establishment in its stead of a
"provisional government, based on republican
requests."

inciples."
This great event occurred suddenly, and was accomplished almost without bloodshed. The world has seldom witnessed a more interesting or sublime spectacle than the peaceful rising of the French people, resolved to secure for themselves enlarged liberty, and to assert, in the majesty of their strength, the great truth, that in this enlightened age, man is capable of governing himself.

The prompt recognition of the new government, by the representative of the United States at the

French court, meets my full and unqualified approbation; and he has been authorized, in a suitable manner, to make known this fact to the constituted authorities of the French republic stituted authorities of the French republic

Called upon to act upon a sudden emergency,
which could not have been anticipated by his instructions, he judged rightly of the feelings and
sentiments of his government and of his countrymen, when, in advance of the diplomatic representatives of other countries, he was the first to recognise, so far as it was in his power, the free government established by the French people.

While this wise policy will be maintained towards France, now suddenly transformed from a monarchy into a republic, all our sympathies are naturally chlisted on the side of a great people, the instantant our example, have resolved to be naturally enlisted on the side of a great people, who, imitating our example, have resolved to be free. That such sympathy should exist on the part of the people of the United States with the iriends of free government in every part of the world, and especially in France, is not remarkable. We can never forget that France was our early friend in our eventual revolution, and generously sided us in shaking off a foreign voke, and becoming a free and independent people.

We have enjoyed the blessings of our system of well regulated government for near three-fourths of a century and can properly appreciate its value. Our ardent and sincere congratulations are extended to the patriotic people of France, upon their noble, and thus far accessful, effort to found for their future government liberal institutions similar to our own.

HONORS TO THE BRAVE.

On 1st instant, in the House of Delegates, Mr Floyd, from a select committee on the subject, reported resolutions voting swords to several officers, natives of Virginia, who had distinguished themselves in the war with Great Britain, (and who had not heretofore received such an honor.) and to numerous officers distinguished in the war with Mexico. We notice in the list the following names, known in this region of the State:

Thos. Beverly Randolph and Francis Otawa Byrd, (of the war with Great Britain,) and Cap tains Robert E. Lee, Francis Nelson Page, Chil-ton, Patrick Galt—and Lieut, Neill, (of the Mexi-can campaign.) and to Wm. Bertrand Alburtis, infant son of Capt. William Alburtis, killed at Vera Cruz.

monstration in honor of Republican France, in that city, on Monday week, was a grand affair.

that city, on Monday week, was a grand affair.

A salute of 100 guns was fired in the park at sunrise. The flags of all nations were displayed all day, and the City Hall was brilliantly illuminated at night, as well as a large number of other buildings.

Three stands were erected in the Park for English, French and German speakers. The best bands in the city were engaged, who played the Marseilles Hymn, and a hymn composed for the occasion was sung by the whole audience.

At 10 o'clock in the morning, the Italian and French military companies attended in full uniform, the French It. C. Church, in Duane street, where prayers were offered up for the souls of those who fell in the streets of Paris, during the revolutionary conflict on the 22d and 23d of February.

The Park was filled from one extremity to the other with men of all nations, and the speaking was kept up at all the stands until after night, the greatest enthusiasm prevailing.

A correspondent of the National Intelligencer writing from Buena Vista, early in March, fur resent condition of the Virginia Regiment:

present condition of the Virginia Regiment:

Four Companies of the Virginia regiment have just been ordered to get in readiness to march to Parras, on duty connected with the collection of revenue under recent orders. Parras is a considerable town, of about five thousand inhabitants, situated in a southwesterly direction from here, and distant some one hundred and twenty miles. The companies detailed on this service are as follow: A light infantry company, Capt. Harper, and companies C, D, and K, under the respective commands of Lis. Bryan and Garnet, and Capt. Rowan. Capt. Adams's company of Texan Rangers will also form part of the expedition—the whole to be under the command of Capt. Harper. From the known peaceable and rather friendly disposition of the population of Parras and the adjacent country, no hostilities or resistance to the execution of the orders of the government are expected.

The regiment continues to progress at a steady pace in discipline; the general health of the men is very good. Its excellent commander, Colonel Hamtramck, spares no pains or precautions which will tend to the attainment of either of these objects. As an evidence of the high estimation in which he is held by those under his command, a proposition made a few weeks since to present him with a superb sword and sush, to be paid for by the individual subscription of all, of all classes in the regiment, was received with universal acclamation. The necessary amount (about two hundred dollars) was at once subscribed and the

Correspondence of the Baltimore Sun.

Warmston, April 7, 1848.

A letter of a decidedly important character has been received in Washington, by gov. Brown, of Mississippi, and it gave rise to a very animated conversation in the House. It appears from it that Gen. Taylor is for the tariff of 1846; is opposed to an "obsolete idea"—thinks the war just and honorable, and that it should be vigorously prosecuted until the Mexicans are brought to terms—that the Rio Grande, and not the Neuces, is the Western boundary of Texas; that he was the cause of the marching of the army from Corpus Christie to the Rio Grande, and by inference the war was not "unnecessarily and unconstituthe war was not "unnecessarily and unconstitu-tionally begun by the President of the United States." This tailles with another expression of Gen. Taylor, that "No friend of mine is opposed to the war." The General is also opposed to Wilmot's proviso. THE TREATY IN MEXICO .- "Mustang," of the New Orleans Delta, in a letter from the city of Mexico, dated March 18, says :-

There are fifty members of Congress, at present, at Queretaro—there are fifteen at this place who will leave on Monday for the seat of Government will leave on Monday for the seat of Government—there has been an order issued by the Mexican Government for the holding the elections in the States from which no delegates have been elected. I hear not a doubt expressed among the Mexicans in reference to the ratification of the treaty. I have heard several of the Puro party say that they would vote for the ratification, and if possible, pat an end to the war. I am of opinion that the vote in favor of ratifying the treaty will be a very strong one. If the treaty should come back from the United States amended, there will, probably be a good deal of debets and delay. will, probably, be a good deal of debate and delay.

THE ALEXANDRIA FISH MARKET .- The Gatette, of Thursday, says: "We learn that the catch of shad and herrings at the Potomac fisheries is now very good, and that considerable quantities are received daily at the fish wharf in this place, fresh from the landings. Now is the time for the country trade. The fish are in fine condi tion, prices low, and the supply abundant."

strong Testimony.—Cassius M. Clay is high authority with the Whig party. In 1844, as the political missionary to the North in behalf of H. Clay's cause—and in '48 an equally active partizan of Gen. Taylor, his word cannot be gainsaid by the Whigs. For ourselves, while we do not like the man nor his principles, we are free to say that he has borne himself very gallantly in the Mexican war—liaving suffered imprisonment and bitter hardships in the service of his country. At a festival in Richmond (Ky.,) this strong Whig thus repudiated the Whig clamor, that the President had brought on the War with Mexico:

"Though a Whig, I do not stand here as a partizan. I shall speak with the freedom of history. I have no sympathy with the late outcry against President Polk as bringing on this war. I shall do the President the justice to ray, that in all Mexico, I never heard the first man allege the march of Gen. Taylor to the Rio Grande, as that cause of offence, or of the war."

Affairs in England, Scotland and France have generally regained their tranquility. Ireland however, continues in a state of excitement almost amounting to insurrection. Monster meetings were to have been held at Cork and Dablin on the 20th, and the most extensive preparations were making among the people to attend them. The government of England fearing that incendary results would grow out of them, have been despatching large bodies of troops and several steamers, to overawe and if necessary to put them entirely down. Collisions between the military and the people were looked for, and the crisis was awaited in painful suspense.

In France, though every thing pecuniary were rather a gloomy aspect, the population were quiet, and the functions of the provisional government exercised without the least opposition or disturbance.

A large force was being organized with the supposed object of operating against Austria; and

REMEDY FOR BRONCHITIS.

Boston. May 25th, 1847.

Mr. Seth W. Fowle, Dear Sir:—There are so many quack medicines at the present time, and each one has more or less certificates from real or imaginary indviduals, that I have for some time had doubts of the propriety of giving any testimony in favor of your medicine.—But being assured that I have been benefitted by its use, and feeling satisfied that by giving in my testimony in regard to its medicinal qualities, I may, perhaps, be the means of saving some one similarly afflicted, I therefore cheerfully add my testimony in favor of the medicine that I know has done me great good. I have been stillicted with the Bronchitis for a number of years, and by the use of a couple of bottles of WISTAR'S BALSAM OF WILD CHERRY. I am happy to say that I am almost free from the above troublesome disease.

If this should be the means of saving even one of my fellow beings from that most troublesome and painful disease, (Bronchiis,) I shall be fully paid for my trouble in writing the above communication.

Respectfully Yours. B. COVERT, Vocalist, 27 A fresh supply of the above Balsam, on hand and for sale by THOS. M. FLINT, Charlestown, HENRY. S. FORNEY, Shepherdstown, and JOS, G. HAYS, flarpers-ferry

BERRYVILLE TURNPIKE. It will be seen in another column that

a meeting of the Stockholders and Directors of the Berryville and Charlestown Turnpike Company will be held in this place, at April Court. But a small additional amount of stock is required to insure the project to be carried out, and for the credit of all concerned, we hope the work will not be stopped after the State has been so liberal in making an appropriation. Come to the meeting and consult as to what had better be done: Whether the work which promises to be of such infinite advantage to all concerned, should abandoned, and the last and only hope of be ever getting a good road between this place and Berryville, given up. Can it be possible that business men, who are generally alert to their own interests in other respects, will allow this means of increasing their business to pass by without taking advantage thereof? We shall see.

MERCHANDIZE,

N Saturday the 8th day of April, 1848, I commenced selling my stock of handsome Goods consisting of one of the best assorted Stocks in the Valley, at cost, for cash, good paper, or country produce—or on the usual credit at small profits. Those wishing to purchase will do well to examine the stock, as it comprises almost every article in use in this neighborhood—all in prime order, and mostly bought within the last two years. I would very much like to sell the entire stock, with the Store-house, to some active, energetic man, who would attend strictly to business. The terms would be such as to afford as good an opportunity to realize a fortune, as has ever been offered in the country. Having determined to relinquish business, I commenced on the day above mentioned, to sell off the stock, or any part thereof, on the above mentioned terms. Selling Off at Cost! of, on the above mentioned terms.

Shemandoah Paper Manufacturing Company.

To the Editor of the Spirit of Jefferson::

The Charter of this Company having been favorably reported upon and passed by the Legislature of Virginia, it is due of the community that a full and concise statement of its features, objects, intentions and engagements, be laid before them, that those disposed to aid or participate in an enterprise so useful in itself, and highly so beneficial to the community, may do so understandingly.

The Corporation are entirely distinct as a body, from the purchasers of the Gulf Mill Property, except as purchasing a lot and so much water power from them as may be necessary for their specific manufacturing operations—which the said proprietors of the Gulf Mill Property agree to furnish, inclusive of lot for Factory, at a rate equal to a rent of ten dollars per annium for each horse power requisite for driving the Factory—and to take the principal, which would be \$166 per horse power, in alock, in the Company. This is a rate of only about one fifth or fice hundred per cent less than the cost of Water power at Manayunk, Lowell, Lawrence, Trenton or Patierson, the great seats of our Eastern manufacturing establishments. Although the proprietors of the Gulf Mill property are, and must be at a very heavy outlay of cash capital in the purchase, and will be in the improvement and development of the water power necessary for the Factory; yet they put the power thus low to the Shenandah Paper Manufacturing Company, to encourage them in the opening and commencement of manufacturing improvements in this great valley.

No part, therefore, of the funds or stock subscribed in this. Valley, will be diverted to the purchase of, or improvement of Water power or lot for Factory. But every dollar will be strictly and faithfully applied to the exection of Factory—purchase of machinery, and to form a husiness capital for the Company, as may be seen by Section 9th of the Charter.

The expense of sixteen rag engines and f

ted at \$18,000 four Cylinder and Foudrineer machines, and all the other apparatus and fixtures, about 22,000 dollars, and

will require about 100 horse power for operation, A business Cupital not exceeding 10,000 will be requisite,

Forming a capital of \$50,000 besides the water power, \$50,000. The machinery will be capable of manufacturing upwards of 6,000 lbs. of paper per day—or about \$200,000 worth per year. And although this amount may seem a large amount, yet when we consider the vast daily consumption of paper in the United States, we should be inclined rather to increase capacity of the mill, than to fear a want of market for the paper, as a market for a large amount of what we shall be able to manufacture is already engaged. Those disposed to take stock in the Company, can do so by applying to the Editors of any of the papers published in the Valley, to Robert T. Brown or John H. Strider, of Jefferson county, or Hiram Ellis, General Agent of the Company.

The We are desired to request each editor in the Valley to consider himself fully authorized to receive subscriptions for stock.

Winchester Republican and Virginian, Romney Intelligencer, Woodstock Sentinel, Harrisonburg Republican and Register, Stannton Democrat and Spectator, Lexington Gazette and Star, insert the above one week as comm. and two weeks as an adv., and send copies of their papers and bills to Hiram Ellis, Agent, Harpers-Ferry, Va. Map of Jefferson County.

FELLOW CITIZENS:—Having been called upon publicly in the Free Press, and privately by many individuals, to publish a Map of Jefferson County, and having been referred to the Map of our mother county, Berkeley, just published, by Mr. Kearfoot, Surveyor of said county, as a matter of great public utility, &c., I have determined if I meet with sufficent encouragement, to press the matter to a completion at some early day.

I have, as I stated to you in the Free Press, been preparing myself with materials for a number of years, but the press of business has caused delay: I have associated my son with me in the project, and will be able not only to attend more promptly to surveying than has been in my power for some time past, but will have it in my power to present you with a complete Map of the garden spot of Virginia, with all its ways, waters, &co., and pledge myself that neither labor nor care shall be spared to render it desirable to each one of you. We are advised to publish it by subscription, and having no experience in the matter, avail ourselves of that advice—therafore, we will place in many public places throughout the county, subscription papers, so that those who may wish to encourage for as many copies as they may wish to encourage for as many copies as they may wish. I have, as I stated to you in the Free Press, been

papers, so that those who may wish to encourage the matter can manifest the same by subscribing for as many copies as they may wish.

As our county is called the garden spot of Virginia, and having more towns and waters, smaller farms and less mountains, than Berkeley, we shall have more work to perform than our neighbor Kearloot, yet, natwithstanding any difference there may be in that respect, we will publish at the price for which he sells his, viz: 31 50.

As we have been urged to hurry the business we would earnestly request all those who wish to subscribe, to do so by the first day of May.

JAMES M. BROWN, S. J. C. April 4, 1848.

NOTE.—Very frequently when I return home, my family informs me that gentlemen had called to see me on business. My business necessarily calls me much from home, yet I get there sometimes, where I shall be glad to see you. But to save often long rides and disappointments, let me suggest the following method:—communicate will me through the Charlestown Post Office—specify and be assured you will be attended to promptly. THE ARMED PORCE OF PARIS For several years past Louis Phillippe has paid great attention to the fortifications and garrison of his capital; and so apparently efficient has been his military organization, that his throne was con-sidered imprognable. That he might be more certain of their aid in an hour of need, they were divided into three separate, independent divisions, between which a certain degree of rivalry was encouraged, though all were taught to cry " Vive

The Regular Army of France is raised by conscription—a lottery in which every young man of France is forced to take his ticket; and a certain proportion, who draw fatal numbers, to serve for seven years, or purchase a substitute, which few have the means to do. The new levies are first sent to Algeria, where they are well drilled, often in action, and as martial law reigns there, acquire habits of implicit obedienc. Then they are one year on garrison duty at Paris, changing their quarters every two months, in order to prevent fraternization with the populace. One hundred thousand of these troops were in Paris and quartered in the vicinity, under the command of Marshal Bugeaud, whose hatred of civilians is known, and who has little regard for human life. He had at his command fourteen detatched forts, whose heavy artillery could reduce Paris to ruins in a day, as every house is in a range with their pieces—while the arsenals, commissariat department The Regular Army of France is raised by con day, as every house is in a range with their pieces

and guard-houses were all well supplied with provisions and munitions of war.

The Municipal guard is a police force, consist-

ing of nearly seven thousand picked men, who are divided into cavalry and infantry, probably the most servicable corps in the world. Though most of them have served in the army, they consider themselves above the line, and are insufferably vain. In former troubles they have been found very efficient in emerges, and are expectable. found very efficient in emeutes, and are generally

married into the families of the working class.

The National Guard enrols every man established in business or who is a householder, and is thus established a militia, composed of the citizens, who have an interest at stake. They are well uniformed and equipped, as infantry and cavalry, and have generally been called out about five days in the year, as one legion is, in its turn, on guard at the Palace. They ballot once in five years for candidates for each office, from which the Ministers commission one, and have thus managed to ters commission one, and have thus managed to et in their supporters. They number about sixed by General Jaqueminot. Their annual ex-penses for music, staif officers, guard-houses, &c., are about \$125,000, and the individual expense are about \$125,000, and the individual expense for uniforms, are large. Not very soldier-like in their deportment, this train-band has been a standing butt of ridicule with the regular force; but in the recent troubles, the King's policy of keeping them apart seems not to have succeeded, as the troops of the line have sympathised with them and the people. The Municipal Guard have resisted with valor worthy of a better cause.

A Caution to Fighte Dansels—We learn from the Keene (N. H.) Sentinel that a novel case of breach of promise, was tried this week before the Court of Common Pleas, in that town. An the court of Common Pleas, in that fown. An action was brought by a young gentleman against the lady for damages—a most ungaliant act, had not the circumstances been of a peculiar character. The parties both resided at Bellows Falls, in Vermont, when the engagement (of some time standing) was entered into—and ample evidence of it was presented to be into—and ample evidence. in vermont, when the engagement (of some time standing) was entered into—and ample evidence of it was presented to the jury. The pareuts and friends of the lady were opposed to the match—but love reigned triumphant in the bosom of the parties and led upon the opposition, until, as it appeared, an acquaintance of the lady's connections—a "Cwebs in search of a wife"—from N. York, made his appearance in that quiet village, and love to the lady. The representative of the upper and lower ten thousands of the Empire city, by his blandishments, soon produced a fluttering in the "dove cote"—the country swain was discarded and the lady was "off with the old love and on with the new." She married the man of her second choice, (not an uncommon thing, we apprehend, except in novels.) and the parties started for the city. They were arrested both in Vermont and in this State, on the suit of the disappointed and discarded lover. The jury gave a verdict against the lady and her husband of \$1,000 dam sges; as from the testimony it was made quite against the lady and her husband of \$1,000 dam ages; as from the testimony it was made quite evident that the successful suitor was well aware of the previous engagement. The jury doubtless looked upon it as a decided case of trespass, and therefore the verdict. The plaintiff touches the \$1,000 as the only "unction" for his wounds which the law can give him; but there is consolation for this loss. There are more flowers by the way-side.

DR. SWAYNE'S Compound Syrup of Wild Cherry THE GREAT REMEDY FOR CONSUMPTION,

CONSUMPTION,

Colds, Coughs, Spitting of Blood, Bronchitis, Difficulty of Breathing, Ashma, Pain in the Side and Breast, Whooping Cough, Croup, and all Disorders of the Liver, and Lungs, Broken Constitution, &c., &c.

Thills "Celebrated Remedy" has now, by its intrinsic virtues, acquired a celebrity which can never be shaken by the many quack "Nostroms" with which the country abounds. "The public are fast learning that this is the only remedy that can be relied upon for the speedy and permanent cure of all Diseases of the Lungs. It is literally sweeping Consumption from the land; wherever it is introduced and becomes known, all others dwindle into insigniferance. The public have been "humbugged" long enough, and now resort to a medicine which the testimony of the most eminent physicians in the land has placed beyond the reach of criticism.—It requires no bolstering up, by publishing columns of forged certificates—but it is enough to let the public know where it can be obtained, and one trial will convince all of its great efficiency in caring those distressing diseases above named, which have baffled the skill of the most learned practitioners for ages heretofore.

DR. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY was the first preparation from that valuable tree which was ever introduced to the public, and ample proof is afforded of its success by the country being flooded with "Blasams," "Candies," and "Mixtures," of Wild Cherry, not one of which is prepared by a regular physician, although they have assumed the names of respectable physicians to give currency to their "Nostroms." Therefore the public should be on their guard, and not have a worthless mixture palmed upon them for the original and genuine preparation, which is only prepared by DR. SWAYNE, N. W. corner of Eighth and Race streets, Philadelphia.

Kanbe & Gæhle's Piano Pactory.

In calling the attention of the public to this manufactory, the undersigned is impressed with the belief that he is rendering a service to the lovers of music and conferring a favor upon the public, as by so doing he brings to notice an establishment of unquestionable merit. During my stay in Baltimore, I have had an opportunity of examining its interior arrangements, and can, therefore, conscientiously give the assurance, that in all that imparts de-patch, efficiency and power, combined with beauty in design and execution, the factory of these gentlemen is unexcelled by any other in the United States.

The instruments made by Messra. Knabe & Gæhle, are built with the most consummate care, taste and judgment; their finish is exquisite—their tone at once full, clear and brilliant. In a word, it is but justice to these gentlemen when I say—that, while by their genius and acquirements, they are competent—their industry, zeal and ambition, are such as to ensure to the elaborations of their skill a degree of mechanical nicety, as

The GRAND PIANO, which Messrs. K. & G. had the politeness to furnish me for my recent Concert, was of their own manufacture. The execution of that splendid instrument elicited universal admiration—its superiority was acknowledged by every judge present, and won for its constructors that applanse which discriminating minds never fail to award to distinguished merit.

UNITED STATES OFFICER.

Captain G. W. McLean, member of the New Jersey Legislature, late of the United States Navy has kindly sent us the following certificate. It tells its own story: Rahacay, Jan. 25, 1847.

A year since I was taken with the influenza and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attributed it entirely to the said Sarsaparilla. I have continued taking it, and find that I improve every day. I believe it saved my life, and would not be without it under any consideration.

G. W. McLear. sideration.

THE EDITOR.—John Jackson, E-q. Editor of the Rahway Republican, published the above certificate, and remarks in an editorial as follows:

The success of Dr. Townsend's preparation of Sarsaparilla appears to be of the most extraordinary character. We publish to day two certificates in its behalf one from Capt. McLean, of this town, and one from Rev. Mr. White, of Staten Island, a gentleman well known in Rahway.—Capt. McLean believes the medicine to have saved his life, and Mr. White seems to entertain an his life, and Mr. White seems to entertain an equally strong confidence in its efficacy. Intelligent men like these would not praise so strongly what they did not fully believe to deserve it.

SCROFULA CURED .- This certificate was handed into Dr. Townseud's office this week, and con-clusively proves that his Sarsaparilla has periect control over the most obstinate diseases of the blood. Three persons cured in one house is

nprecedented.
THREE CHILDREN.—Dr. Townsend—Dear Sir: I have the pleasure to inform you that three of my children have been cured of the Scrofula by the children have been cured of the Scrottia by the use of your excellent medicine. They were afficied very severely with bud sores; have taken only four bottles; it took them away, for which I feel myself under deep obligation.

Yours respectfully, ISAAC W. CHAIN, 106 Wooster st. New York, March 1, 1847.

RHEUMATISM AND THE PILES .- Dr. Townsend RHEUMATISM AND THE PILES.—Dr. Townsend —Dear Sir: My wife has been for several years afflicted with rheumatism. She has tried many different remedies to obtain some relief, but all to no purpose. She was finally induced, by seeing your advertisement, to give your Sarsaparilla a trial. We procured some of it from your agent, (Mr. Van Buskirk) and ir gives me pleasure to state that after using it she experienced great relief, and was in a very short time perfectly cured, I was also (together with another man in my employ) budly troubled with piles, and by using a small quantity of your Sarsaparilla, our complaint was completely cured. I consider it one of the best of medicines, and would advise all who are afflicted to give it a trial.

afflicted to give it a trial.

Garrit Garraneart.

123 Market street, Newark.

GREAT FEMALE MEDICINE .- Dr. Townsend's whites, obstructed or difficult menstruation, incon-tinence of urine or involuntary discharge thereof, and for the general prostration of the system— no matter whether the result of inherent causes, or produced by irregularity, illness or actident. Nothing can be more surprising than its invigo-rating effects upon the human frame. Persons all weakness and lassitude before taking it, at once become robust and full of energy under its influ-ence. It immediately counteracts the nerveless-ness of the female frame, which is the great cause

It will not be expected of us in cases of so deli-

It will not be expected of us in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases, where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with healthy offispring.

Dr. Townsend—My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a senention of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described, I obtained a bottle of Extract of Sareaparilla, and followed the directions you gave me. In a short time it removed her complaints and restored her to health. Being grateful for the benefits she received, I take pleasure in thus acknowledging it, and recommending it to the public.

Corner of Grand and Lydius sts.

Albany, August 17, 1844.

NERVOUS DEBILITY.—Dr. Townsend's Sarea-parilla is performing thousands of cures in Nervous Diseases, especially in nervous prostration and general debility of the system. It effects the most astonishing results. The patient frequently feels relieved in ten minutes. The following proof from a highly respectable gentleman is in point: NEW YORK, Dec. 28, 1846. A highly respectable gentleman is in point:

New York, Dec. 28, 1846.

Dr. Townsend—Dear Sir:: I have been severely afflicted for a length of time with great physical debility and prostration of the whole nervous system. At times I have fallen in the streets by attacks of dizziness in the head, accompanied with singing in the ears. I also suffered with the dyspepsia, sickness at the stomach, and sensation of faintness. I read that your Sarsaparilla was used for such complaints, and procured a bottle, and to my astonishment and surprise, before I had used the one bottle, I was like another man; indeed it cured me entirely; I have never been so surprised at any result in my life. I consider your medicine a great blessing, and will extend its use as far as possible. You are at liberty to publish this if you choose. I live and can be seen at No. 58 Prince atreet.
