COMMUNION WITH NATURE.

Go and wander on the mountain,

In the valley by the rill, Mark the forest pine trees waving: Hear the wild bird sing at will;

Gaze upon changing seasons, And the gifts to earth they throw,

As they come and as they go.

Let the holy voice of nature,

To your inmost spirit speak-In the blade, the leat, the blossom

As in thinking man you'll find, There are voices, there are beauties.

For the eye and ear and mind.

Who with mighty hearts and sinews,

Work so bravely, work so well,

Bringing from the world of matter,

Properties and wonders rare,

Is there nothing on the mountain,

In the valley and the flower,

Far beyond their merely serving,

Go and ask those spirit teachers,

AN EXQUISITE STORY, BY LAWARTINE.

In the tribe of Noggdeh, there was a horse,

whose fame was spread far and near; and a Bedouin, of another tribe, by name Daher,

desired extremely to possess it. Having offer-

ed in vain for it his camels and his whole

wealth, by which he hoped to gain the object

of his desire, he resolved to stain his face with

the juice of an herb, to clothe himself in rags,

to tie his legs and neck together, so as to ap-

pear like a lame beggar. Thus equipped, he

went to wait for Naber, the owner of the horse,

who he knew was to pass that way. When he

saw Neber approaching on his beautiful s ced,

he cried out, in a weak voice, "I am a poor

stranger; for three days I have been unable to

move from this spot to seek food. I am dving:

help me and Heaven will reward you." The

Bedouin kindly offered to take him up on his

horse, and carry him home; but the reguere-

A FACT FOR LADIES .- According to the resent appearances, in the Virginia Peritentiary, there is no such thing as crime amongst the females of our State. There are two hun-

Sentinel, which, the reader will perceive, is characterized by equal vigor and originality of argument, throws much light on the relations of the New York factions, and the antecedents

of particular individuals: NON-INTERFERENCE BY FOREIGN GOVERN-MENTS-THE WAR OF THE SHELLS.

The interference of the European powers in American affairs, either by new colonization or by diplomacy, may be considered as at an end, so far as the will of the people of the United States can settle the question. Parties and men may differ as to the details—but the emphatic announcement of the last inaugural met with a quick response from the American heart, when it denounced such interference as L-ends a warmth to thy heart that will glow in return; E-'en the pride that would smile at the trifle I offer, "wholly inadmissible." Our particular views upon this question have been proclaimed al-E-ver blest be the day, when the heart, full of feeling, ready-and we do not now propose to dwell

upon them.

But if we are prepared to oppose by protest, and if need be, to resist by arms, European interference in the general affairs of the continent, for how much stronger reason should we meet the foreign invader of our domestic concerns, not by conciliation or diplomacy, but by force. The jealousy of foreign intermeddling with our home interests is instinctive in the heart of every true American-and has been inculcated with an earnestness, which has made the instinct a holy sentiment by every President from Washington to the present Chief of the Exe-

cutive department. This feeling has, of late years, been once stifled by the baneful breath of fanaticism. As we have never seen it the subject of commentary by the press, we propose to publish this leaf from the volume of our past history; and to expose to a merited condemnation some of those who permitted fanaticism to control the promptings of patriotism, and sought to introduce, as the fatal Grecian horse into the Trojan city, the influence of an alien enemy upon the rights and interests of the Soutliern States of the Union. We do not desire to re-open the controversy in respect to the Territories, in which the free soil agitation, especially in New York, in 18-48, insisted upon attaching the Wilmot inhibition of slavery forever, and was only defeated by the resolute and patriotic course of the Dickinsons—the Casses—the Douglasses of the north. We do not propose, except incidentally, to show who were the disorganizers of the Democratic party then, and would have ruptured the Union upon that question; except for the men who are now denounced by these pseudo friends of order, as the promoters of party dissension, and as unworthy of party trust.-We only intend to show that while some, who now claim to be the "Simon Pures," and the orthodox expounders of Democracy in the diocese of New York, were inviting the aid of a vanquished enemy in their sectional crusades against the Southern States, those we have named, as unworthy of all honor, combined with the south in a patriotic phalanx to crush the home faction, and to spurn with contempt the intrusion of its foreign ally. We shall show, that northern whigs and democratic free

soilers, combined in a strange coalition, to pledge to a foreign government the public faith of the country, to carry out the schemes of free soilism, in the exclusion of slavery from the ceded territories; and that this was done with the evidence staring them in the face, that the foreign government had not demanded it as a condition, but had cheerfully given up every such Our readers are aware, that upon every vote

But no soon-er did Daher feel himself in the saddle than he mendment to the "three million bill," the State of New York was divided -Gov. Dickinson being against it and Gen. Dix voting for it. By out as he did so, "It is I, Daher. I have got the horse, and am off with it." Naber called the aid of such northern Democrats as Mr. Dickinson, the Wilmot Proviso was defeated after him to stop and listen. Certain of not as a law. Foiled in every effort, the anti-slabeing pursued, he turned and halted at a short very faction turned with disgust from the coundistance from Naber, who was armed with a sels of their own country, and sought to attain spear. proceed to explain. In February, 1848, President Polk sent to the Senate what was known as the Trist treaty, with the documents explanatory of the negotiation leading to it.

the cause of many refusing to perform an act of charity, for fear of being duped as I have In a letter from Mr. Trist to the Secretary of State, dated Sept'r. 4, 1847, he states that the question of the exclusion of slavery had been mentioned by the Mexican negotiator as desirable. Mr. Trist thus strongly states his emphatic and patriotic response:

"I concluded by assuring them that the bare mention of the subject in any treaty to which the United States were a party was an absolute impossibility; that no President of the United States would dare to present any such treaty to the Senate; and that if it were in their power to offer me the whole territory described in our project increased tenfold in value, and in addition to that, covered a foot thick all over with pure gold, upon the single conditio that slavery should be excluded therefrom, I could not entertain the offer for a moment, nor think even of communicating it to Washington .-The matter ended in their being fully satisfied

that this topic was one not to be touched, and it was dropped with good feeling on both sides." This letter demonstrates, that in the opinion of the negotiators of both parties, the proposi I to exclude slavery by a treaty stipulation with a foreign government was abhorrent to every At the latter price a superb set with diamond centres can be obtained. The finest shirts on true American-that no demand was made by Mexico for it, and that every such idea was wholly abandoned by the Mexican negotiator,

and with good feeling on his part. It was on account of this reply that no provision in the treaty sent in by Mr. Polk looked to the exclusion of slavery. It is scarcely necessary to add that Mr. Polk never would have sent to the Settate a treaty containing such a provision—a provision subjecting the domestic concerns of the States to the supervision of our them under the care and surveillance of

power'ess and vanquished people. But what Mr. Trist dared not to do, what Mexico dared not ask, what the one peremptorily refused, and the other willingly relinqu ed—an American proposed upon the floor of the Senate of the Union! What Mexico gave without qualification, he proposed to take with conditions -conditions suggested by fanaticism, and proposed in entire violation of the duty of an American patriot.

Mr. Baldwin of Connecticut, (Whig) pro posed to add to the fifth article of the treaty this proviso-substantially the "Wilmot Pro-"Provided, There shall be neither slavery for involuntary servitude in the territories her

ceded, otherwise than in punishment of crimes, hereof the party shall have been duly con-To the honor of the Senate, and the dishonor of the vote in the affirmative, this proposal, instead of receiving the required number of two thirds of the Senste, was defeated by more

than that number. It is not singular that in the ranks of the affirmative should be found the name of Mr. Clayton, the negotiator of the Central American treaty in the cabinet, and its defender in the Senate, or that of Mr. Corwin, the champion of Mexico during the war, and the opponent of the acquisition, by treaty, which has given us an empire on the Pacific, or that of Mr. Dayton, the endorser of General Scott in It is not singular that in the ranks of the the Baltimore Whig Convention, or of "hon-

THE POLITICAL DIFFICULTIES IN NEW YORK. est John Davis." Nor is it surprising that upon such a question, the whole northern Whig vote cast was thrown into the scale against the South, and in opposition to the interests and honor of the country.

Nor is it on the other hand wonderful that

upon such a proposition there should be found in the negative such men as Cass, Douglas, Bright, and last, though not least, the patriotic Dickinson, whom those, then untrue to the Constitution and the country, now seek to prescribe as a factionist.

It is a matter of profound satisfaction that the entire free State Democracy voted in the negative except three, of whom one was the late distinguished Senator from New York, the leader of the Van Buren party in 1848, and the abolition candidate for Governor at that election, and the present head of the so called "soft shell" faction, John A. Dix, Esq.

Here then was an attempt to bring assistance from abroad to home fanaticism in its tinhallowed war upon the constitutional rights of onehalf of the States of the Union; for suppose the proposal had been carried, the faith of the country would have been thus plighted to the government ceding the territory, that slavery should be perpetually excluded from it. Had California, under this Mexican decree, registered by the American Senate, been admitted as a free State, and had subsequently by law permitted slavery, what would have been the result? Mexico would have demanded of the federal government to enforce the treaty within a State, by putting an end to slavery. Thus either slavery would have been abolished in a State by Federal authority, or there would have been a breach of the condition of the cession of the territory, upon which the territory of the State would have been forfeited to its original owner. Thus would a sovereign State of the Union have been subjected to the insolent demand for abolition by a foreign power, made through the federal government.

This monstrous proposal, thus conceding far more than the Monroe doctrine was ever designed to meet-in the interference of foreign powers in concerns domestic in their character -pledging the honor of the country to register and enforce the foreign will against the reserved rights of a State of the Union, and dangerously involving the concession of a power in the federal government over slavery in the States—this proposal of attempted treason to the Constitution and to the Union, stands in a merited and dishonored solitude upon the records of the country. Free-soilism, abolition, where their schemes begin and end in our own council chambers, are nothing, when compared with the introduction of the dangerous foreign element in the conduct of our internal policy. The country and its affairs are and must ever remain unsafe in the hands of men who prostitute power to the purposes of fanaticism, and intrigue with foreign governments to attain their improper ends at home. But when such men rise with an effrontery

which is only commensurate with their past, though not forgotten, public offences-and with complacency, which forces upon the mind the remembrance of the famous Buffalo gathering, by which the defeat of the party was secured in the election of Gen. Taylor-when such men denounce as a factious renegade from the true democracy of the empire State, the man, who, with a rare consistency, has preferred the constitutional union of the States, to a miserable fanaticism-and has maintain d the rights of the South under this Union against free soilers and abolitionists at home, and their a'lies abroad, then it becomes the duty of every man, and of every press in the land to sound the alarm, to denounce the enemies and sustain the true friends of party organization and of our country. Free-soilers seek, by recurring to the past course of Governor Dickinson, to disparage him and discredit his noble consistency. We have not sought this controversy. The breach was made at Syracuse. Dickinson is decried, his past course impeached by anon-ymous correspondents, and his opponent sustained, while he is damned with a modicum of faint praise. If history is summoned to testify for the softs against the hards, we, too, must and will use it in the defence of the latter, and if its recorded truths shall bear with severity upon the former, we shall seek an apology in

the remark, "They would have it so." But it becomes the more necessary for another reason. It is obvious from the course of England, France, and Spain, that a foreign conspiracy to make Cuba valueless as a part of this Union, by making it a Jamaica or St. Domingo, is probably in the future, if it does not exist at present. The facts which we have mentioned in this article will put the country upon their guard against trusting our foreign nterest to those men whose patriotism is limited by the more powerful suggestion of a wretched fanaticism, and who might reconcile their consciences to the surrender of our foreign policy to the demands of a sectional or-

ganization at home. We say again, as we have said before, let the country applated its true friends and reward them, and condemn and punish its open foes, or those who, under the mask of party fidelity and genuine patriotism, conceal motives and feelings as dangerous to the peace of the demoocratic organization as it is to the honor and safety of the Union.

POWERFUL REASONING.

At a young men's debating society, in a town in Indiana, the question for discussion was, which is the greatest evil, a scolding wife or a smoky chimney?" After the appointed disputants had concluded the debate, a spectator arcse and begged the priveledge of making a few remarks on the occasion. Permission being granted, he delivered himself in this way :-"Mr. President, I've been almost mad listening to the debates of these 'ere. youngsters .-They don't know nothing at all about the subject. What do they know of the evils of a scolding wife? Wait till they have had one enemy, and humiliating to the heroes of the for twenty years, and been hammered and jam-South, apon the fields of Mexico, by placing med, and slamed, all the while; and wait till they have been scolded because the baby cried, because the fire would'nt burn, because the oven was too hot, because the cow kicked over the milk, because it rained, because the sun shined, because the butter would'nt come, because the old cat had kittens, because they some too soon for dinner, because they were a nimute too late, because they sung, because they tore their trowsers, because they invited vomen to call again, because they got sick, or because they did anything else, no matter whether they could'nt help it or not, before they talk about the evils of a scolding wife; why, Mr. President, I'd rather hear the clatter of stones and hammers on twenty tin pans and nine brass kettless, than the din, din, of a scoldng wife. Yes sir-ee, I would; to my mind, Mr. President, a smokey chimney is no more to be compared to a scolding wife, than a little nigger to a dark night."

.... Young man, look here! You are ambitious, are you! You want to get up in the world, do you! Well don't try it by wondering how other people not half so active as yourself, have done it, but watch your chances, keep your eyes open, and when you find a chap sleeping on the road to fame, hustle him off into the ditch and go ahead; never stop, never wait, but like a perpetual amotion, keep moving

FEARPUL WARNING TO HARD KISSERS

Jno. McDonnell, a young white man, with an open, prepossessing countenance, was brought up for stealing a lady's bonnet from a millinery, store in Second street. It is not a common event in the course of human affairs for at young man to steal a bonnet-indeed, the case was singular enough to excite general curiosity; the mayor himself seemed anxious to know why John's flippers should have fallen on a bounet rather than a hat-For that headpiece he wore was entitled to repose after long and faithful service.

UNCLE BEN'S RAM. BY BILLI BRAMBIE.

Uncle Ben was a queer old man; A queer old man was he; He owned a ram-a butting ram; In fact his butting propensities prompte to butt every thing buttable he could see.

Uncle Ben had a fat old spouse; A fat old wife was she; Who used to feed and pail his cows, That came up so regular into the lawn every night and stood under a large pear tre.

This fat old wife ne'er used a stool To milk, would ne'er sit down; And though old Ben called her a fool, Yet she would never hearken to his advice. but to reciprocate the favor, she said he was a clown. But one sad morn as Brindle stood

Old Ben's wife, in merry mood Was milking her-occupying her usual position: with her posterior extremity a little elevated The ram and Ben the fact espied, And loudly Ben did shout "Squat down! squat down!" he sternly cried But she did'nt hear him, and before he could

Then like a heavy pendulum, He swung the mighty rock; Which seemed to say, "I'm up to fun, Mr. Ram, so just 'come in,' will you, an

went to bed, he was still butting like all sin. But when old Berr arose next day, And went into the lawn, The ram had butted himself away, And every thing under heavens but about two inches of his tail was used up-completely gone, WHAT HE DIED OF.

We overheard once the following dialogue between an alderman and an Irish shoplifter: "What's gone of your husband, woman ?" and he's gone dead."

"Ah! Pray what did he die of?" "Die of, your honor? He died of a Friday." "I don't mean what day of the week, but what complaint?" "Oh! complaint, your honor; faith and it's

nimself that did not get time to complain." "Oh! oh! aye-he died suddenly?" "Rather that way, your honor."
"Did he fall in a fit?" No answer.

"He fell in a fit, perhaps?" "A fit, ver honor? Why no, not exactly that. He fell out of a window, or through a cellar door; I don't know what to call it." "Aye, aye, and broke his neck?" "No, not quite that, your worship."

"What then?" "There was a bit of a string or chord, or that like, and it throttled poor Mike."

ill temper. A man never gains anything by exhibiting his annoyance in his face, much less by bursting into a passion. As it is neither manly nor wise to yield, like a child, pettishly to every cross, so it is alike foolish and absurd controt. There never was a man in any controversy who lost his temper that did not come near losing his cause in consequenc. If ever a person plays the game of his enemies, it is when he is in a passion. Acquainters a when he is in a passion. Acquaintances shun men of proverbially ill temper; friends drop away from them; even wives and children generally learn to fear them more than to love. Thousands of men owe their want of success in life to neglecting the control of their temper. Nor have they the excuse that it is an infirmity which cannot be restrained; for Washington, though naturally of a most passionate dis-position, disciplined himself until he passed for a person utterly impassive. They have uttered that last and melancholy word farewell.

The train of misfortunes which have render ed dark and gloomy the paths of these young and beautiful ladies—for such they are—is peculiar and mournful. We will not name that circumstance, so dreadful, but ending in death, which deprived them of a father. From that event we desire to draw no verl. And now, before the robes of mourning had been exchanged; before the deep fountain of grief had been dried up, death, insatiate and almost cruel, has prostrated the form of a mother. The grave has closed over her, and she too sleeps in eternal repose by the side of him who went before

The mourners in their youth and beauty, has now gone. The ocean is to seperate them from the sacred spot of homes. They have bid a farewell to whatever was dear, never more to return. Such is the phrase of life-more of shadows than of sunshine.

.... Fanny Fern says, "If there was but one woman in the world, the men would have a terrible time." Fanny is right, but we would ask her what kind of a time the women would have if there was but one man in existance?"

What kind of a time would they have !-Why of course, no grass would grow under their slippers! .... The following paragraph, which we find floating in the newspapers, is rather "hard" upon the ladies:

In our times, all women when in love are actresses; they feign coldness which they do not mean.

In the days of patriarchs a woman's conduct was the index of her heart. When, for example, the father of Rebeckah asked her if she would go with the servant of Isaac; she immediately replied, "I will go." Had she been a daughter of the 19th century she would, I believe, have answered in this manner: "oh pshaw! go with him! Why, Mr. Isaac mu t be sick. Go with him! Of course I won't." And then -she would have gone with him.

The editor of the Dundee (N. Y) "Record" has lately made a tour through Canada, in the course of which, he visited a large number of fugitive slaves, at their residences, and cor v red freely with them on their position and prospects. The tone of their remarks, generally, was that of disap-pointment at the reception which they had met, and the estimation in which they were held in the country where they were sojourning. The inhabitants, they allege, neglect no opportunity to defraud them and render their situations uncomfortable. They declared that were it not for fear of ponishment by being sold to Texas and Mississippi stave dealers they would gladly return to their "old plantations" and spend the remainder of their days with their old masters where they were more happy and lived easier than they do now. One expressed his de ermination to return to his mistress, in North Carolina, as soon as he can get money to do so and ron the risk of punishment, as he had got a friend to write to his mistress, asking pardon, and begging for a passage ticket home; he felt in hopes he should get back to the "Old North State" before cold weather set iff .- Lancaster Ex. and Herald.

"NAKED TRUTH."—The late eccentric John Holmes used frequently, in his addresses to different juries, to explain the meaning of the phrase "naked truth," by relating the follow-

> Don't Know Him .- A good anecdote is related of John Price Wetherell, the popular merchant, who lately died in Philadelphia, leaving an estate of nearly \$1,000,000. On one occasion, two city bucks drove out to his country seat to visit his daughter. Seeing Mr. Wetherell at the yard gate, dressed very shabbily, they mistook him for a servant, and ordered him to open the gate. 'Of course,' said he, I will do that, and sulting the action to the word, he opened the gate, and the foung dandles drove in throwing him a quarter as they passed. He quickly picket up the quarter and pocketed it, and a short time afterwards appeared in the parlor, and was introduced to the voting men, by the daughter, as her father! The reader can imagine how they felt.

FRENCH FARMS.

Hon. W. C. Rives, of Virginia, delivered an eloquent address at the Agricultural Fair o-New York, recently. We take from it the foll-lowing description of the minute division of anded property in France:

"In the country which is separated from Eng-land by a narrow sea, and yet more by a strong-ly contracted national character, institutions ly contracted national character, institutions and manners, the discouragements of agriculture are of a precisely opposite nature. There is not the monopoly, but the extreme and unnatural sub-division of landed property and the diminutiveness of farms, almost to the verge of the infinite divisibility of matter, that opposes the most serious obstacle to the general progress of agricultural improvement. What would we think on this broad continent of ours, of a field measuring one and a half yards by would we think on this broad continent of ours, of a field measuring one and a half yards by two, and a farmer owning and cultivating a single furrow, and that by no means a long one. And yet in Lorraine there are examples of the farmer attested by the authority of a grave and respectable young writer, and in Brittany the common name applied by the peasant to his possession is sillon or farrow, and it is, in fact, often nothing more. It is estimated that there often nothing more. It is estimated that there are about a million and a quarter of proprietors in France, none of which hold more than two nectures, or five acres of land, and dividing the whole area of the country by the total number of proprietors of every grade, the average size of the farm is about eleven and a half acres. This inordinate sub-division of landed property, encumbered, too, for the most part with hereditary mortgages which have descended with the land from father to son, must, it is evident, in much the larger instances, leave neither the space nor the capital necessary for an improved system of husbandry. There are, notwithstanding, examples of high and successful farming in France."

ATTEMPTED OUTRAGE.

Negro Charles, the property of George B. BEALL. Esq., of this county, was committed to the Jail of Jefferson county, on Monday last, charged with an attempt to ravish a respectable white female of this town, on Sunday morning last, on the Railroad, about a mile below town. THE GREAT STATE FAIR.

This is expected to be one of the greatest gatherings ever seen in the Capitol of the State, even excee Whig Convention of 1840. Almost every County in the State will be represented, either by stock or imple-

ments of agriculture.

Some of the Rail Road Companies have offered to carry free not only the members of the State Agricultural Society, but every thing offered for exhibition. The Richmond and Fredericksburg Directors did not feel themselves authorized to go quite so far, the job being likely to prove too heavy for their means; and Mr. Ro binson, the President, has felt himself called upon to make the following explanation, which we deem satis-

of the Agricultu al Society, to and from the city of Richmon d, f ee of charge, on the occasion of their approaching e chibition.

Independent of its serious interference with our regular course of business, and the probability that a precedent might be established thereby applicable to large meetings of every description within the City, if not in every quarter of the State, the Board of Directors of this Company, although as much alive as any to the interest of the society, do not feel at liberty to do more than already intimated on their part to the General Agent of the Society, which a free transport over their route between. Washington and Richmond for all stock or articles of any description presented for exhibition.

To do more than this would be, in the opinion of the Board, a doubtful exercise of power, and a sacrifice of the interest of their stockholders, who have a right to expect, as they are often subjected to the vicissitudes incident to dull seasons, that the advantages of any unusual assemblage should not be lightly thrown away.

In making these remarks I do not wish to be understood as censuring, or in the slightest degree criticising the action of other railroad authorities. They occupy a different position. To a great extent their capital has been subscribed, and heavy loans made them on the part of the State, and their roads penetrate sections of it exclusively devoted to agricultural pursuits, the further development of which is all important to the Commonwealth. With this Company the case is widely different—in it the State has but a slight interest, and the residute much in an Agricultural point of view to its resources, whilst being the raute for all in their passage though the State, the adoption of the system referred to would necessarily result in a serious sacrifice of the revenue of the Company without any corresponding benefit to the Society.

With sentiments of respects,

to the Society.

With sentiments of respects,
I remain your obedient servant,

INCREASE OF CRIME IN VIRGINIA.

From an exhibit made in the Richmond Enquirer of the 4th instant, it appears that the number of criminals confined in the State Penirentiary, has increased upwards of one hundred per cent. since the year 1847. On the 1st of October, 1852, there were 220 convicts in that Institution—141 since the year 1847. On tha 1st of October, 1852, there were 220 convicts in that Institution—141 white males; no females; and 75 colored males and 4 females. There were received during the year ending September 30th, 1853, 81 white males; 26 colored males and 2 females—making 169; and a total of 320. There were pardoned curing the year ending 30th September, 1853, 4 white males, and three colored do. Died during the same period, 6 white males and 2 colored do. Discharged in the same time, 35 white males, 114 colored do., and 1 female. Whole number in the institution on the 30 hor September, 1853, including 20 slaves for transportation, 270. The highest number, in the institut on at any one time during the year, was 274.

The number of prisoners received into the Penitantiary during the year ending 30th of September, 1847, up to the same date in 1853, is as follows, which will exhibit the ratio of increase: Prisoners received into the Penitentiary year

CHARLESTOWN:

TUESDAY MORNING, OCT. 25, 1853. RELIGIOUS REVIVAL

Quite a general revival is now, in progress in the Methodist Episcopal Church of Kabletown, under the pasterial charge of the Rev. Messrs. Eggleston and Wilson of the Jefferson Circuit. Some twentyodd have already professed conversion and connected themselves with this branch of the Christian Church, The meeting is still in progress and the indications cheering as to yet greater fruits from its labors.

ANOTHER SALE OF LAND.

The farm of Mr. Jacob Foreman, of this county, but a short distance East of town, on the Harpers-Ferry Turnpike, was sold a few days ago, to Mr. S. Howell Brown, at \$65 per acre. It contains 194 acres, and having very fair improvements. Colonel FRANCIS YATES, we learn, is to get that portion adjoining the lands which are already in his possession, and North of the Shepherdstown road. THE FAIR.

The Printer was not forgoten in the choice Pro ducts exhibited at our recent Agricultural Fair.

We acknowledge, with great pleasure, (as meat has become very scarce, money with printers very rare and the price of all kind of provisions very high,) schoice piece of both roast and stake of the Premium Beeves. These were two three year old steers, raised by Mr. John Lock, Sr. of this county, and slaughtered by Mr. SAMUEL C. YOUNG of Charlestown-

Mr. William Johnson, another of our Butchers, and who spares no expense or pains to supply the market with the best article the county can furnish, also sends us a surloin of a most beautiful steer on exhibition at the Cattle show, raised by Mr. Francis Gardner of this county, and whose gross weight was 1776, whilst his neat weight was 1164. The Tallow weiged 111 lbs. and the kidney fat 75. The Hide weighed 125 lbs. This was one among the largest, no less than finest Beeves, we have ever seen at

We also received from Mr. Thos. S. Johnson, one smong our most practical and industrious farmers, two mammoth Pumpkins, one of which weighed 76

Mr. WM. SIMPSON sends us a basket of Sweet Potatoes, among the very finest we have ever seen, and two of which weigh six pounds. These Potatoes were raised at Harpers-Ferry, and demonstrate the fact, that with a little care and attention, the sandy soil of our county is as well adapted to the growth of the Sweet Potatoe, with a market always at hand, as any portion of Eastern Virginia or North Carolina. No crop is more profitable, and on a visit of the Hon. Henry A. Wise to this county during the farmers of his section of country realized one hundred dollars per acre from the growing of Sweet Potatoes, after paying expenses of transportation to Bal-

THE LADIES FAIR.

For the benefit of the Methodist E. Parsonage, of Charlestown, and which was continued for several days during last week, was not only a grand affair as to its arrangement, but eminently successful as to its results. The display of articles, and the zeal manifested on the part of those who were connected with its management, we have never seen surpassed. The receipts of the Fair, with a large portion of its articles unsold, was considerably over \$400, which we hope will not only pay the debt on the Parsonage, but leave a balance in the hands of the Treasurer, as a starting point for the enlargement and improvements which are contemplated as to the Methodist Church. The necessity of the congregation, no less than the community at large, very much need this improvement, and will,no doubt, cordially co-operate in carrying it through.

Not to be invidious, we but speak the sentiment of all who were in attendance, in awarding the highest meed of approbation to Miss Sagau and Cobina BEALL, for their Refectory Table, which was certainly most varied and extensive, and arranged in a style that we have never before seen surpassed. The chief merit, however, of this table, consisted in the fact, that the Cake, Jellies, Ice-Cream, &c., were the products of the ladies own hands, and there are no two to be found any where, who can excel them,

The "weather wise" in all sections of the country prognosticate a hard winter, from the signs which appear. The unusual growth of persimmons, the shedding of chickens, the huddling of partidges around the towns, the heavy mists and dews, no less than the prolongation of the fall, are all regarded as un-

To our own notion, the great scarcity no less than the advance in Coal, betokens more severity and more suffering from the winter blasts, than from any other indications. This fuel can now scarcely be obtained at all in our region, and whilst an advance of 50 ctsper ton has already been paid, there will no doubt be a still farther advance, and much greater scarcity, as the Baltimore and Ohio Rail-road has given notice that they design to raise the transportation of Coal from Cumberland to Baltimore, 50 cts. per ton. The means of transportation even on this road, is by no means equal to the demand, and with every season, is the difficulty of transit, so as to supply the

demand, becoming more and more difficult. P. S. Since the above was in type, to our own curprise, no less than the consternation of the "oldest inhabitants," yesterday morning (Monday) opened with a regular snow-storm which continued during almost the entire day. The ground was quite warm and of course the snow mostly melted, though at the hour of writing this paragraph, it will fully average six inches upon the level. Not less than ten to fourteen inches has fallen, which but rarely happens thus early in the season.

There' is scarce estimating the amount of damage which has been done to the forest and fruit trees, as they were generally in full leaf, and the large accumulation of snow which had fallen, has broken down all the outside limbs and in many instances the trees themselves. We are informed by a gentleman who came to town on yesterday, that his life was in jeopardy in passing through the woods adjacent, as the limbs were falling in all directions, and he could scarcely avoid them by the most dexterous movements. Many of the trees in the gardens of the town have also been seriously injured, and those on our own premises, not the least among them. . Should the snow go off suddenly, as is most likely, quite a serious freshet is to be apprehended.

AGICULTURAL ADDRESSES

The gentleman selected to have delivered the annual Address before the Valley Agriculture Association, being unavoidably absent, the duty was imposed upon Lewis W. WASHINGTON, Esq., of Jefferson, the President of the Society, and the REV. Mr. BEN-TOE of Londonn. They both acquitted themselves with great credit, and their remarks, (much more comprebensive than could have been anticipated for extempore addresses,) were eminently useful and practical in all their bearings, no less than happily conceived and eloquently expressed. Mr. W. is no less a practical than a scientific farmer, and one whose untiring exertions have been called into requisition, to promote the best interest of our Valley Association. As President of the Society, he has done every thing in his power to prosper its growth or add to its usefulnees, for which he should receive the thanks of the farming interest generally. Mr. Berton is so favorthe Agricultural interest, and whose labors and exertions have been so cheerfully rendered, and so eminently successful, that nothing is necessary at our hands, to commend his remarks to the public, when they shall be published, or elicit a higher meed of approbation, than they received during their delivery,

We publish in another column, the award of pre-

miums at our Valley Agricultural Exhibition, held on Wednesday and Thursday of last week. The exhibition of horses, cattle, sheep, hogs and chickenss, was not only greatly larger as to numbers, but of a quality which far exceeded any other of our exhibitions. The Ladies fell very much short of what they should have done, in the Liousehold Dopartment, and with a few honorable exceptions, our mechanics did comparatively nothing, in the display of Agriculturall implements and their various handierafts, in which no county in the State can or should surpass. The attendance of strangers and others was quite large, and everything as connected with the exhibition, passed off to the pleasure and satisfaction of all It is designed to continue the Fair the next season -most of the old officers being re-elected-and we hope from this day forward an impulse, an energy and concert of purpose may be infused, that will insure an Exhibition next year; such as has never before been witnessed in this section of the State. All have an interest in the matter, and we beseech you to go to work so as to do justice to yourselves and credit to your County-

BALTIMORE CATTLE SHOW.

This exhibition will commence on Tuesday and terinateon Friday. It will no doubt be quite a grand affair, and its interest and improvement increase in proportion to its age, this being the fifth year of the aryland State Fair. As usual, there will be a large mber in attendance from this section of the Valley, and we therefore call attention to the Advertiseent in our paper of to-day, proposing on the part of the Baltimore and Ohio Rail-road to give return tickets for the week, to those who may wish to be in at-

At Harpers-Ferry on Saturday, we noticed a variety of fine stock of Col. Josiah W. Ware and others from the Valley, on its way to Baltimore. Jefferson will no doubt be represented, as we are sure there are many articles in the way of machinery and stock, which will fully equal the best products of even the Baltimore Show.

THE STATE FAIR.

The first exhibition of the Virginia "State Agricultural Society" will be held in the city of Richmond on the 1st, 2d, 3d, and 4th days of November, and it is highly gratifying to witness the deep interest that is taken by the people of the Valley, in this very ommendable enterprise. The following Companies it is understood, have tendered a free conveyance to members of the Agricultural Society, and for all stock and articles for exhibition at the Fair:

The Manassas Gap Railroad Company; The Orange and Alexandria Railroad Company; The Virginia Central Railroad Company; Richmond and Danville Railroad Company; Richmond and Petersburg Railroad Company;

Richmond, Fredericksburg, and Potomac Railroad Company (for stock and other articles only;) Powhatan Steamboat Company, (line between Baltimore and Richmond.) And other Roads on the South side of James Riv-

er are expected to extend the same liberality. The arrangements of the Agricultural Society will be found of the most ample and satisfactory kind for

the reception and protection of stock and all articles sent for exhibition. No pains or expense have been spared to render the present Fair, in every respect vorthy the old Dominion.

General Richardson, the Secretary of the State Society, was present during the last week atour County Fair, and gives the most encouraging accounts as to its prospect. Jefferson has done by no means, what she should have done in the commencement of an enterprise so important as this to the best interests of the whole State. She has furnished, it is true, many valuable members, and will have on exhibition upon the one hand, or its superiority upon the other We hope that during the present week, very many who have not heretefore scarcely given a passing thought to the matter, may be induced to be not only products which may in the slightest degree add to the interest of the exhibition or serve to develop the vast resources of our good Old Commonwealth. This s our first united and determined effort, and we hope the State pride of our people, and the inexhaustible

The efforts of General Richardson and his son in behalf of this enterprise, have been most indefatigable and untiring, and they will be very justly entitled to a large share of the credit which may be truly claimed for its successful issue. Their epistolary correspondence, (and we hope it may hereafter appear,) will furnish a vast deal of information as to the diversified resources of the State, and infuse a new effort and a new zeal in realizing for Virginia what she

MARYLAND ELECTION.

The elections in this State, come off on the 1st Wednesday in November. A Governor, and all othbers of Congress. As to the executive officers of the State, there is but little apprehension to befelt, and as o the election of Ligor as Governor; Roberts, Lottery Commissioner | NELSON, to the Board of Public Works and WHYTE, Comptroller of the Treasury; (all Democrats,) but little apprehension is felt. Not so, however, as to the Congressional nominations. In the Frederick District, one of the most angry and excitthe one hand, and Ex-Gov. Frank Thomas on the other. Mr. Hamilton was the late representativere-nominated again as the candidate of the Districtand should be supported with unanimity and zeal by every Democrat of the district. We had opportunity of knowing something of his service in Congress, no less than his devotion to the interests of his District, and Maryland never had a man of his age of more service to the State. A feud has also arisen in the Baltimore City District, as between Mr. Vansant, the egular Democratic nominee, and Mr. Preston, who is unning as an independent. Things have gone so far, that Mr. Vansant, in one of the most dignified. manly and patriotic addresses that we have ever seen under similar circumstances, preremptorily withdrawn from the canvass. Several Ward meetings have been held, and the withdrawal of Mr. Vansant efused to be acquiesced in. Thus matters stand.-The election is just now at hand, and we hope Mr. Vansant may be induced to continue as a candidate. and that the Democramy of Baltimore may triumphantly elect him. DECLINE OF FLOUR.

There has been a decline in Wheat during the last week of ten cents per bushel, and fully 50 cts or more per barrel on flour. Whilst we are eager and anxious at all times to keep our farmers posted as to the changes in price, yet we can only say now, as we have said heretolore, that there is no telling "what a day bring forth," and when they are ready to sell, they should avail themselves of the best price that sought after in Baltimore for manufacturers use, and they should avail themselves of the best price that may be offered.

PUBLIC SALE.

The sale of the personal property belonging to the estate of the late Felix Seymour came off on londay last. A large crowd was in attendance, and the bidding was quite spirited. The stock sold re-markably high. Sixteen 2 year old brought \$42 per head; 10 yearling \$25 122 per head, and 12 calves \$14 05 per head. The sheep, and hogs sold well.— The cows 12 or 15 in number, brought from \$28 to \$70. The household property was purchased by the heirs at the appraisement.—Hardy Whig.

We (the Printer) would take this medium thro' which to offer our most unfeigned thanks to those ladies (?) of the Fair, held in the Court-house last week, who readily availed themselves of an acquaintance with us seemingly for no other purpose than to satisably known to the people of the Valley as a friend to fy their whimsical propensities, Believing in the golden proverb, "a hint to the wise is sufficient," we simply throw it out, intending, that whoever the cap fits.

We are indebted to a friend (says the Fredericksburg Herald, of Thursday last,) for the particulars of a most tragic affair which occurred in Tappahan-nock on Monday last—the deliberate shooting of Dr. Wm. L. Waring, a gifted and popular gentleman, by an old fellow named Isaac Fisher. Our correspon-

"We had the most atrocious murder committed in our community this (Monday) morning, that ever I Isaac Fisher, an old scamp who has been going about preaching in the country for some time, and who is said to be crazy, deliberately shot Dr. Wm. L. Waring, while on his way to Court. Dr. W. had gotten in town opposite the old church, when he was shot. He died about $2\frac{1}{2}$ o'clock this afternoon. Fisher said that he was determined to kill an Odd Fellow, a Muson or a Son of Temperance, and therefore wished to shoot Muscoe Garnett, or Howard Montague or Lewis H. Garnett, but Muscoe had his laughter with him, and Lewis, when he saw Fisher, umped out of the buggy and ran, and thus both escaped. When Dr. W. came by, Fisher took aim at him, the Dr. raised up in his buggy and remarked that he was not the man, but it availed nothing.— Fisher fired and shot him in the face, head and side. The Dr. was a great favorite with the folks down this way, and was on his way to Bowling Green, to get his license to get married. The most intense excitement now prevails in this place, and they talk very strong of taking Fisher out and hanging him, and should not be surprised to hear of it at any moment. Indeed they went so far as to procure a rope. I should not wonder if we have a repetition of the Gravson affair."

DEMOCRATIC VICTORY IN PENNSYLVANIA.

The latest news we have received authorizes us to say that this victory achieved by the Democratic party of Pennsylvania is among the most brilliant on record in that noble old Commonwealth. The State ticket has been elected by a majority of upwards of twenty thousand! And there will be a gain in both branches of the Legislature. This result will secure a Democratic majority in the Senate, which has been under Whig misrule, by an accidental majority of one, for several years—and will ensure a large majority on joint ballot. Pennsylvania can now be endorsed by acclamation-by one universal burst of enthusiasm from the border States of the Eastern Atlantic to our young sisters of the Pacific-and from the "keystone of the Federal Arch." She was honored with that significant name at the early Democratic christening of States, and nobly has she maintained it. It is cheering in these times of cliques and factions to speak of Pennsylvania and her lion-hearted Demorracy! If we had room, we could write columns Instead of lines, in tracing their sterling integrity their unalloyed devotion to principles and measures, since the first battle was fought upon a Democrati selves to the present, and ask our friends in other States to rejoice with us in the glorious victory achieved in the "Key-Stone State," which will have the effect of putting down, forever, the last vestige of free soil or abolitionism within its borders. Pennsylvania's Democracy was temporarily borne back by one of those political avalanches which saidenly overthrew every thing unwartly opposed to them; but the moment the national convention of 1852 placed a new commander in the field, it gallantly prepared the approaching contest.

Although the Democratic yeomanry are willing to be called a plain, simple-minded people, yet they claim to be possessed of common sense, as well as a proper share of discernment, and they at once, with a united voice, united hearts, and strong, pervons and united arms, took into their embrace the gallant leader given to them as the nominee of the Democratic party. They saw in Franklin Pierce the firmness, the stern integrity, the sparks of fire which mined the character of Andrew Jackson, whose name and fame still rests in the heart's core of their affections, and they buckled on their armor and fought for Gen. Franklin Pierce as they had fought in the days of Old Hickory.

Gen. Pierce carried the State by a majority of 19,-000! Seven trying months of his Administration have now passed away, and he is strong as everfirmly seated in the confidence of her true-hearted Democracy, who have just given the best evidence of the fact, by re-endorsing the principles of Democracy upon which his administration is based. The flagstaff of Pennsylvania is now firmly planted as the ocean-rock—its colors are flung to the breeze, and on its ample folds there is inscribed: "No North, no South, no East, no West, under the Constitution-but a firm adherence to the common bond, and a sacred maintain er State officers are to be elected, no less than mem- ance of the common brotherhood!"-Washington Sen-

THE RESULT IN GEORGIA.

The battle has been fought between the political parties in Georgia, and victory perches upon the democratic standard. The trophies of the war are a Democratic Governor, a Democratic Legislature, six out of eight Representatives in Congress, a United States Senator, two Supreme Court Judges as the leitimate result, and Democratic ascendancy in the State Government for two years.

The chief issue in the canvass was the character of the President's appointments. The Conservative party charged that he had conferred offices upon Secessionists, Abolitionits and Freesoilers. The Democracy admitted that a great number of the Southern appointments were given to Southern Rights Democrats, but contended that Union Democrats, in portion to their numbers, had received a fair share of the spoils of office. They denied that the President had appointed any man to office who is now a Freesoiler or Abolitionist. The conduct of the great body of the Democratic party in this canvass is matter of sincere congratulation. Under pressure of the severest party exigency they have adhered to the faith. No States Right Democrat has denied the right of secession; in the very heat of the canvass, Cushing's peech asserting the right was extensively published d heartily endorsed by the press of the party. Nor did they fail to express disapprobation of Freesoilers or Abolitionests as warmly as in the heated warfare of 1850. It is true that they defended Dix, Vroom, and Brown, from the false assertions of their opponents; but in no instance have they commended iny man to public favour to whom the suspicion of

The Conservative party attempted to make an issue with Democracy upon the Pacific Railroad, but entirely failed to effect their insiduous purpose. The leading presses and politicians of the party adhered to the ancient land marks and condemned this wild Federal heresy. The Democracy of Georgia have again set the seal of their disapprobation upon the system of Internal Improvements by the Federal

This triumph, therefore, is doubly dear to us. We have achieved victory without the surrender of a single principle dear to us as Southern men and Democrats.-[Columbus (Ga,) Times.

CUMBERLAND COAL.

"The prices of this favorite coal has lately been again increased about twenty-five cents per ton in the railroad and canal combined are still unable to transport more than half the quantities wanted by half the companies. The amount brought down upon the Baltimore and Ohio Railroad this year will reach, it is said, nearly a half a million tous, being an immense increase over the last transporta-tion of last year. In view of the heavy expenses of the road, it is thought that the Company may advance their charge for transportation from \$1,75 to \$2,00 per ton.—Baltimore Sun. From the above facts we may learn the importance

of another Railroad from the seabord to the coal beds of the Alleghanies. These facts are evident to those familiar with the vast and increasing demand for that article. A Railroad, with proper grades, from the seabord to Alexandria, to the coal fields in Hampshire, is demanded by the commercial interests Hampshire, is demanded by the commercial interests of the country and the section of the State through which it would pass. The coal alone would be an endless source of desirable tonnage, and freight, which would seek a passage over it, would make it an improvement whose stock would be highly valuable.

THY HORSE FAIR AT SPRINGFIELD.

SPRINGFIELD. Mass., Oct. 19 .- The first Nationa Springfield. Mass., Oct. 10.—The first National Exhibition of Horses opened here yesterday, and there are three or four hundred fine horses on the ground, from various parts of the country, but chiefly from New England. The fair ground is about a mile from the city, and covers 24 acres. Everything is very well arranged. A track for trotting, half a mile around has been laid out. A judge's stand and seats for 4000 people have also been creeted. Wright's mammoth tent, which will hold 3000 people, has been erected, and here the banquet and the speech making will take place, Many fine horses of the Morgan and Black Hawk breeds are here. Also some superior animals from Canada, a couple of Shetiand

ary of the Company, performed the duties of that Lewis McKenzie, Esq., the energetic President of e road, laid before the meeting the first annual re-ort, the substance of which is as follows:

REPORT. The President states, that on the 9th of June last, the board elected Charles P. Waring, Esq., chief en-Since the 19th of July, five parties have been and still are actively and effectively employed in a care-ful examination of the entire country below Alexan-

cria and the coal fields of Hampshire county. Their progress gives assurance that in all the month of January next the chief engineer will be able to make an accurate and reliable report upon the different routes contemplated by the company's road.

Thus far the information derived from the surveys justify the board in saying that a good line can be obtained, and that the company will be able to make a road into the coal region at a moderate cost, considering the mountainous nature of the country throwhich much of it must pass—a road calculated for the profitable transportation of coal at moderate rates of charge, as well as for the accommodation of the rich and populous counties in which it will be locarich and populous counties in which it will be loca-

The President adds that the importance of the coa nterest in those parts of Virginia which the company's road will penetrate, and in the adjacent counties of Maryland, cannot easily be over-estimated. The demand for their coals is rapidly increasing, and is already ahead of the supply. This point is argued by reference to the operations on the Chesapeake and Ohio canal—showing the superiority of this road for certainty of speed. The Baltimore and Ohio railroad is also brought to view, and the opinion expresser that until a double track between Baltimore and Cum berland is laid, the transportation of produce, me chandise and passengers will occupy the road to such an extent that the company will be compelled to postpone the demands of the coal business for others nore urgent and profitable.

Statistics of the Reading railroad are also furnish

ed, and show the unexampled increase of the coal trade in Pennsylvania, with the vast benefits which t has conferred upon her and her cities. With similar exertions and means, like results to Virginia and Alexandria in particular, may be brought about.— The increased wealth of Maryland—Camberland and the surrounding counties—has been increased greatly, even with the limited amount of coal now sent from Allegany county. It is not to be believed for a moment that the invaluable mineral wealth of Hampshire and Hardy will be permitted to be locked up and useless in their hills for the want of adequate means of transportation to market, where it so much

needed in our work-shops and steamers. Recent movements in New York look to the employment of large capitals in the development of these mines of wealth. If this road upon full and fair examination shall prove to be adapted to the advantageous transportation of this all-important mineral (of which, so far, there appears no reason to doubt) parties interested will gladly contribute to its con-

The urgent need of this road to the coal interest is strikingly shown by the fact that while the Baltimore and Ohio railroad and the Chesapeake and Ohio canal, together, cannot for many years carry over 2,-000,000 tons, the most intelligent and well informed parties interested estimate that not less than 5,000,-000 tons must be annually taken to market from their mines. No smaller business will satisfy the demands of the capital invested, or furnish supplies adequate to the wants of the country.

Independently of the coal trade, the reports ask special attention to the agricultural resources, as yet but half developed, of the rich and populous country through which this road will ness Its extent varie productions, the opulence and industry of its people justify the belief that the trade and travel of the terhemselves, in a few years, if not at once, pay a band-Census statistics, a letter ence of other Virginia railroads, are furnished in support of the opinion last expressed.

"The probable construction, at an early day, of a railroad from our western terminus, through the coal fields of the upper Yohiogenny to Myer's Mill in Som erset county, Pennsylvania, there to connect with the Connellsville road to Pittsburg, which will soon be inder construction, (the necessary capital being subscribed) is a matter of the greatest interest and importance to this company. By it we shall be brought into connection with the vast rallway system which centres at Pittsburg, and by means of the Hempfield road, which crosses the Connellsville, with that of Wheeling-systems which traverse Western Pennsylvania and New York-and through the entire length and breadth of Ohio, Indiana, Illinois, Michigan, and other States of the Northwest. There can e no reasonable doubt of the early construction of road a great and profitable travel, which will be attracted by this more direct and agreeable route to the seat of the national government, and through here to the cities of the East."

"This subject naturally suggests another, namely, a branch of our road to Washington city, which, we trust, the stockholders will concur with us in regarding as indispensible to the completeness of our design, and as calculated to promote the best interests of Alexandria and the country upon our entire line as well as of the railways now terminating at that city, by improving the traveling facilities between the North and the south. As this branch will sunply the only deficient link in the grand railway chain extending from Maine to Texas, and destined soon to be extended to the Pacific, there can be no hesitation, the board think, on the part of the stockholders in at once authorizing its construction; and they therefore recommend the adoption by this meeting of a resolution conferring upon the board the necessary powers for the purpose, including the authority to call upon Congress for the requisite aid and facilities, and to borrow money for its construction upon a mortgage of the branch, if found expe-

The Board are awaiting the definite results of the surveys before calling for an increased subscripion to the stock of the company. When that call is made, they feel assured it will be met by a spirited and liberal response, "for while we have every reason to believe that our great undertaking will invite aid and co-operation from abroad, it is not the less indispensable that we should first putonr own shoulders to the wheel, and place the work upon the firm basis of a liberal subscription at home." Statements of the company's accounts, compensaion to the employees, &c., are submitted. The above reports of the president and board of directors, with that of the chief engineer, were read

BRANCH ROAD TO WASHINGTON. On motion of John Bruce, Esq., of Winchester, one of the State proxies, a resolution was adopted with but three dissenting stockholders, authorizin the board of directors to survey and locate, withou delay, the branch of the Alexandria, Hampshire and Loudoun railroad to Washington city; and they are further authorized to make all such arrangements therefor as they may deem necessary towards raising the funds by mortgage or loan. The meeting then proceeded to the annual election of officers, when Lewis Mckenzie, Esq., was unanimously re-elected President, on the part of the stockholders; Cassius F. Lee, of Alexandria, and James Mellhany of Loudoun, were chosen Directors. The Board subsequently and unanimously re-elected Reuben Johnson, Secretary. The meeting throughout was harmonious, and after thus disposing of all the

business before it adjourned sine die. MERCURY. LOVE AND HOMICIDE.

C. G. Martin, a school teacher was shot dead Jefferson county, Ky., a few days since, by a young lady named Shaw. It is related that Martin and Miss Shaw were engaged to be married, but that she had postponed the marriage on account of reports she had heard. Soon afterwards, she heard that he had announced his intention not to marry her, and made statements ruinous to her character. He subsequently called to see her, and her brother and he got into a fight, in which the latter was likely to be adly beaten. At this stage of the proceedings, Miss. Shaw shot Martin with a pistol and killed him.

FRONT ROYAL

The neighborhood of this thriving town is now the scene of busy enterprise. The stem connecting it with the Manassa Railroad is nearly graded; and within a mile, at the junction of the North and South Forks of the Shenandoah, there are three bridges in for travel, form part of the works of the Front Royal and Winchester Turnpike Company. The other, the piers of which are rising above water, is in rapid progress towards completing the remaining link of Railroad between Alexandria and Strasburg.— They form an interesting sight from a point on the turnpike from which all three can be seen, along with the stretch of the Railroad penetrating the heart the Valley .- Win. A TALL DALLIA.

Mrs. WM. M. Sheets, of this place, has a Dallia which measures in height eight feet nine inches; around the stalk, five and a half inches,—and has upwards of a hundred Dallias and buds. This beats the Massachusetts Dallias, noticed in our last, which is seven feet some inches in height, and contains seventy buds and blossoms.

ALEXANDRIA, VA., Ocr. 21.—Agreeably to adjournment, the stock holders of the Manassas Gap railroad assembled last evening at Lyceum Hall. A committee of seven gentlemen, appointed to examine any charges which might be brought against the president or any other officer of the company, reported in terms highly commendable to President Marshall and his assistants. By unanimous votes the president and directors were re-elected for the ensuing year. During the evening the andience was edified with several spicy speeches.

This morning the stockholders again met, but one or two committees not being ready to report, no other business was transacted, and an adjournment took place until 7 o'clock this evening.

It would be an infraction neither of this policy nor of strict propriety for a Cabinet officer politely and confidentially to suggest to the Collector at New York, that the President would prefer such a distribution of subordinate places in the Custom House as would best promote the harmony of the party. And if Mr. Gurthrie had made this his intimation with tact and dignity, we should have had no indignant response from Collector Bronson and no denunciation from the public press. But he did the thing clumsily. His letter is minacious in its tone and offensive to the feelings of so honorable a gentle men as Judge Bronson. A French diplomatist of proverbial dexterity, thought a blunder worse than a crime. We apprehend Secretary Guthrie might have done a much worse thing than write the letter to Bronson, and yet have escaped with a tithe of the denunciation with which he is now assailed. ZIMMERMAN'S THRESHER AND CLEARER.

From the Illinois Central Times. TO THE FARMERS AND MECHANICS. Our farmers are particularly requested to read a unication, with annexed certificates, from W. A. M. Arney and others, in relation to a new and im proved Threshing Machine, entitled, "Zimmerman's Virginia Thresher, Seperator and Cleaner." We were called on some time since to witness the practical operation of this Machine, and have no hesitation in saving, that for simplicity of construction, speed in threshing, cleanliness of the grain when threshed, and the amount of power required to work the same, it stands unrivalled by any machine that has ever be-

fore come under our notice. As an evidence of its speed, we would just say, that it threshed 10 bushels of oats in 8 minutes, by the watch. This may look to some of our farmers, who are in the habit of cleaning their grain in " the good ritory which will be drained by this road would of old way," like a hard yarn, but it is nevertheless true. We are authorized to say that the right to make and vend said machines in this State is for sale. Mechanics, look to your interest—they are bound

For the Times. Mr. EDITOR:-It is a great advantage to a Farmer, after he has labored to raise a crop of grain, to have the facilities for threshing, cleaning and preparing it for market. A valuable invention for the purpose has been lately introduced in the States of Maryland Pennsylvania and Virginia, by G. F. S. Zimmerman, of Charlestown, Va. This Machine received the first premium at the Maryland State Agricultural Fair in 1852, over the Pitt Cleaner, from New York, and several others that were present. Mr. Zimmerman State, and for this purpose he has forwarded one them here, which will be exhibited at the State Fair at Springfield, next month. I have threshed my crop of grain, about 1400 bushels, with it, and find it to be the best I have ever used. It threshes fast, cleans the grain perfectly, and with less waste than any machine I have threshed with; and in consequence of the simplicity of its construction, it can be manufac tured for about one half the cost of any other cleaner, consequently can be sold at a reduced price, thus leaving no chance for competition. Mr. Zimmerman will sell the right of this machine for this State, as he

wishes others to receive some of the benefits from so valuable an invention. McLean county, Ill.

THE GLOBE: THE OFFICIAL PAPER OF CONGRESS AND NEWSPAPER FOR THE PEOPLE. It is to be lamented that the editors of the different are the Union do not more generally and more precisly finstead of stuffling their papers with scurlity and nonsensical declamation, which few would they were apprised of the contents) publish the sin Congress on all great national questions.—
incipies upon which the difference of opinion as well as the decisions, would then come fully the public, and afford the best data for its judgither and afford the best data for its judgither willings of Washington, vol. 10, p. 84.

THE DAILY GLOBE

THE DAILY GLOBE

AND

THE CONGRESSIONAL GLOBE.

In surrendering my interest in the organ of a great political party, I cherished the purpose of continuing the Congressional Globe, and, if possible, in time, to perfect it into a full history of the action of Congress, giving the debates accurately and fully with the proceedings—all stamped with the verity of an official record. From the passage in the letter of General Washington, which I have quoted, it will be perceived that he thought this office might be combined with that of a regular newspaper; and it is certain that the avidity of the public for news of the less important kind greatly contributes to give wings to the weightier matter which may be called Congressional news.

Having succeeded in my purpose of perfecting the reports of the debates in Congress, and giving them the official stamp, I now propose to send them abroad, in connection with the news of the day, in such haste as shall outstrip full and accurate intelligence sent from the seat of government in any other form whatever. It will even anticipate the scraps of news forwarded to cities within two hundred and fifty miles of Washington by telegraph. Before the events thus transmitted are published in the morning papers. (for instance, of the city of New York) the Grobe containing them will have reached the post office of that city by the Express Mail of the previous night. The process by which this will be effected I now lay before the public.

I will have a corps of 16 Reporters in Congress; each

I will have a corps of 16 Reporters in Congress; each in succession will take notes ouring five intuities, then retire, prepare them for the press, put them slip by slip in the hands of compositors, and thus, while a debate is going on in Congress, it will be put in type, and in a few minutes after it is ended, it will be in print. I shall by this means be enabled to send it by the Express Mail of five o'clock, p. m., for the East, West and North, and by that of 9 o'clock, p. m., ior the South, all the proceedings of Congress up to the ordinary hour of adjournment. Thus the debates of Congress will reach the cities two hundred and fifty miles from the Capitol before their morning papers are in circulation. I will have a corps of 16 Reporters in Congress; ca

The miscellaneous news I shall be careful to gather from remote sections of the country by telegraph. will obtain from the Executive Departments, through official sources, the matters of moment transacted in them, and, through agents employed for the purpose, air the city news of consequence in sufficient time to be put into the Globe and mailed in the Express Mail be put into the Globe and mailed in the Express Mail trains. In this way I hope to create a new cra in the dissemination of news from Washington. Hitherto newspaper has attempted to give authentic accounts of things done in Washington before the public mind at a distance had received its first impressions from irresponsible telegraphic dispatches, or by letter-writers biased by pecunar views.

Washington has now become so great a centre of political interest during all the year—the proceedings of the Exernive Departments and the information collected by them even during the recess of Congress is of so much importance to the interests of every section of the country—that I shall continue the publication of the daily paper permanently, with a view to become the vehicle of the carliest and most correct intelligence.

It is a part of my plan to reduce the price of the daily paper to half that of similar daily papers; and anus! hope to extend its circulation so as to invite advertisements. I will publish advertisements of the Government. To subscribers in the cities! I hope to submit such terms as will induce them to advertise their bases. their business in every village throughout the Union, where the Globe is sent daily under the franks of members of Congress, all of whom take it, and some of

the action of a Democratic Executive. The new 190d-eling of the fariff; the new land system; the question of giving homesteads, and making every man a free-holder who may choose to become one; the approxi-mation of the Atlautic and Pacific oceans by a national railroad across the terrifory of the Union; relorm in the Army, Navy, and civil offices—all these great questions, with a thousand minor ones, deeply affecting multitudes of men and every State in the Union, will, now being matured by public opinion, come up for the Government's decision. These new issues, cooperating with ole ones, coming up to be disposed of by new actors on the scenes at Washington, will be antio modify greatly, if not after essentially, the parapt to modify greatly, if not alter essentially, the par-ty organizations of the country.

To these elements of interest another is likely to be

introduced by the interposition of the agitations of Europe. After nearly lorty years of peace in Europe there is an erident restlessness that now seems fraught with tendencies threatening war; and if war comes, in all likelihood there will follow such universal change that the United States can scarcely hope to escape its vortex. Indeed, from late events it is apparent that our Government is already drawn into European-difficulties. These circumstances are calculated to draw the public mind towards the next Congress with much THE DAILY GLORE will be printed on fine paper

double royal size, with small type, (brevier and nonpareil) at five dollars a year.

The Congressional Glore will also be printed on a double royal sheet, in book form, royal quarto size, each number containing sixteen pages. The Congressional Globe proper will be made up of the proceedings of Cangress and the running debates as given by the Reporters. The speeches which members may choose to write out themselves will, together with the messages of the President of the United States, the reports of the Executive Departments, and the laws passed by Congress, be added in an Appendix. Formerly I received subscriptions for the Congressional Globe and Appendix separately. But this has not been found satisfactory, masmuch as it gave an complete view of the transactions in Congress; therefore I have concluded not to sell them apart, considering that neighbors can have the advantage of both by clubbing in case individuals shall find it too onerous to be at the charge of both.

To facilitate the circulation of the Congressional Globe and cheapen it to subscribers, Congress passed last year a joint resolution making it free of postage. I annex it, as the law may not be accessible to postdouble royal sheet, in book form, royal quarto size,

I annex it, as the law may not be accessible to pos Joint resolution providing for the distribution of the Laws of Congress and the Debates thereon.

With a view to the cheap circulation of the laws of Congress and the debates contributing to the true interpretation thereof, and to make free the communication of the laws of the communication of the contribution of the communication of the communication of the contribution of the contribution of the communication of the contribution of the contribut

dies:

Be it resolved by the Senate and House of Representatives of the United States of America in Congress assembled. That from and after the present session of Congress, the Congressional Globe and Appendix, which contain the laws and the debates thereon, shall pass free through the mails so long as the same shall be published by order of Congress: Provided, That nothing herein shall be construed to authorize the circulation of the Daily Globe free of postage.

Approved August 6, 1852.

As I sell the Daily Globe at half the price of similar publications, so the Congressional Globe and

As I seil the DAILY GLOBE at half the price of similar publications, so the CONGRESSIONAL GLOBE and APPENDIX is sold for half the cost of so much composition, press-work, and paper. This I can afford to do, inasmuch as the subscriptiou of Congress almost covers the cost of composition, and this enables me to sell for little more than the cost of press-work and paper. It requires the sale of about 9,000 copies to reimburse expenses. If 500 only were sold, the cost of each copy would be about \$104! The debates in the English Parliament cost about eleven times as much as I charge subscribers for the debates in Congress, equal in quantity, and as well reported and printed.

The next seasion of Congress will be a long one; and it is believed the Congressional Globe for it will reach 4,000 royal quarto pages, as the last long session made 3,842; and the long one before that made 3,901 royal quarto pages—four large volumes each session. If subscribers will be careful to file all the numbers received by them, I will supply any that may miscarry in the mails. This work increases in value as it grows old. The first seventeen volumes will now command three times, and some of the subscribers over their old. The first seventeen volumes will now con three times, and some of the subsequent ones twice, their original subscription price.

The subscription price for the Congressional Globe (including the Appendix and the laws) is six dollars.

Complete indexes will be made out and forwarded Complete indexes will be made out and forwarded to subscribers soon after the session is ended.

Subscribers for the Daily should have their money here by the 5th, and for the Congressional Globe by the 15th of December. The money must accompany an order for either the Daily or the Congressional Globe. Bank notes current where a subscriber resides will be received at par. JOHN C. RIVES.

THOUGH averse to a Newspaper controversy, yet the advertisement over the signature of T. F. Nelson, Esq., requires a passing notice. The popularities of the communication alluded to, seem rather to have been prompted by an arrogant disposition of defiance, or a desire to coerce measures, than from any principles of fairness.

As Mr. Nelson appears to feel himself peculiarly situated under existing circumstances, we doubt not, if he does not imagine himself properly included in that category of individuals to whom is applicable a good old common-place, and well known proverb.—And, as the Caps probably bears heavily upon him, we think it may, with propriety, be inferred that this accounts for Mr. Nelson's way of understanding the merits of his cause,—else why should be volunteer to be a witness against himself and so thoughtlessly admit to the public at large, what we could have so much desired?

We believe our Caution to the Pularic implicated no

desired?

We believe our Caution to the Pu!.'ic implicated no one specifically,—and now that Mr. N. feels so ill at ease within himselt, he is hereby informed, that ere long we will comply with his invitatio, to test the merits of our cause, through the virtue of L nv, in a "direct way," if not availing ourselves of an "immediate opportunity" further informing Mr. N. that we presume the privilege as much ours to Caution the Public against infringing on what actually and virtually belongs to us, as that of Mr. N. or any other individual is entitled to put forth cautionary notices or forewarning against violating rights to individual, property, chattels, etc., etc., is at least sanctioned by common sense equity.

chattels, etc., etc., is at least sanctioned by common sense equity.

Probably Mr. Nelson may gather some useful hints from a careful perusal of the 7th Section, lives 7th, 8th and 14th of the Patent Laws of 4th July, 1836, relating to priority, use, &c., &c. This reference, if not a direct reply to the question, if "a pending Patent bars use," must at least develop one starting fact that a Pending application of a known and practically tested Invention, having priority of existence, will necessarily vitiate (any) title and claim advanced for a Patent, for any imitation or subsequent similar Invention.

Ur Invention. Basorc closing, we ask that the readers attention be directed to the fact, that notwithstanding Mr. Nelson asserts a claim, he fails entirely to show fair-Nelson asserts a claim, he laits entirely to show and ly, publicly, and descriptively the principles and construction of his alleged Guano Attachment. Nor does he date the origin of his Invention; whilst we have fully described our apparatus, and again refer to the advertisement of Messra. O'BANNON, HENSON of the advertisement of Messra. Charlestown, Oct. 4, 1853—3t. Charlestown, Oct.4, 1853-3t. MR. EDITOR:

THE communication of Messrs. Henson & Roffa, in the Free Press of yesterday, with regard to the Guano Attachment to the Wheat Drill, calls for a brief notice from me. I will merely state that a direct and immediate opportunity of enforcing the law to its utmost extent against persons using the above mentioned fixture willout their consent, is now afforded them; ed fixture wilhout their consent, is now afforded them; as I am using and intend to continue to use two of S. M. Pennocks Wheat Drills, with Guano Attachment to each one; such Attachment having been affixed by my direction, and being my own invention.

I presume the question of right, between Messrs. Henson & Rohr, and myself, will be decided at the proper tribunal, the Patent Office. If a pending Patent bars use, how do Messrs. Henson & Rohr, sell Guano Attachments whilst my patent is pending?

In conclusion silow me to express my sincere hope, that all who adopt this Attachment with the Drills of Messrs. Henson & Rohr, S. M. Pennock &c. may have their expectations of benefit therefrom fully realized. Sept. 30, 1853.

ATTENTION, FARMERS.

MESSRS EDITORS: I beg leave to advertise through your paper, an invention of my own, for which there has been a patent pending, and of which there has been a model for some time in the Patent Office at Washington. I claim as my invention a machine called a Guano Attachment, to bear fixed to any wheat drill whatsoever. The design this attachment is to sow a diminished quantity. Guano through the drill teeth with the seed wheat and thus cover the Guano and Seed Wheat up togeth er, having been long well assured that it was highly important to put a moderate quantity of guano where it would be immediately appropriated by the roots of the wheat; and that it is exceedingly injudicious to spread large quantities of a fertilizer so costly, and so volatile, over the whole surface sown in wheat. In a few-days there will be in the Counties of Fauquier, Charke, Frederick, Jefferson, &c., a number of the Drills of S. & M. Pennock, with this attachment affixed to them. Farmers and Mechanics who take an interest in this matter are invited to examine them.

The attachment works with great regularity, having on a recent trial, sowed several times, without any perceptible variation, at the rate of 50 lbs guano to the acre, then 25 lbs., 15 lbs., 10 lbs., 4½ lbs. In fact the machine will sow from 5 lbs. to 500 lbs. per acre; or the guano can be shut off altogether. Should famers who have previously purchased Drills, wish to use this attachment, I can have it affixed to any kind of Drill whatever.

THE subscribers respectfully call the attention of the farming community to their very large assortment of FARMING IMPLEMENTS, comprising every kind of implement used by the farmer to facilitate and cheapen his operations, including our celebrated Patent Premium Thresher and Cleaner, which received the first premium over the New York Pitt Machine and several others at the Maryland State Agricultural Fair last full; also, at the Washington County Fair, Hagerstown, Maryland, and at our Valley Fair, Charlestown—which for simplicity, durability, and capacity has no equal in the world. By a recent improvement we can make the machine rean all kinds of grain perfectly clean for market, taking out all cheat, smut, and light wheat if wished, saving altogether the use of a Wheat Fan; thus saving the farmer two-thirds his expense over the common thresher, requiring but eight hands and from six to eight horses to thresh from 200 to 400 bushels per day, perfectly clean for the mill. This has never been accomplished by any other machinist but ourselves, and all sceptio minds can have their doubts removed by trying one and if they cannot do what we have represented we will take the machine back without charge.

HAMPTON'S VEGETABLE TINCTURE

The Great Restorative & Invigorator,

RHEUMATISM, DYSPEPSIA, SCROFULA, &c.
THIS Medicine is altogether from the Vegetabl
Kingdom, and may be used by any one withou Kingdom, and may be used by any one without injurious consequences.

By a wise choice and combination of so, ne of the best of each class of co-operative simple reme lies, it fully reaches all the essential organs of the burnan system, and thus it has proved itself so effectually carative of the whole round of CHRONIC AFFECTION.

This article was discovered by Dr. Jesse H. Ampton, now in fine health in the 79th year of bisage. He was born in Virginia in 1775, emigrated to Kentuck v—then a wilderness—with his inther, in 1779. In early manhood he was so reduced by disease as to be almost wrecked in constitution. He spent much of his living for medical advice and attention, and grew in thing better, but worse. Finding no relief from his i hysicians, he resolved to try the restorative powers of the then dwelt in the midst of the Red Men of the Western wilds. Having heard much of their skill in the in 3 of vegetable remedies of the forest, and knowing their mode of inedicinal practice must be one of practical experience and not of theoretical speculation, he made hinself acquainted with their remedies, and also with the practical medicinal knowledge of the early settlers of Kentucky, had obtained from the 'medicines men' of the Indians.

He carefully studied the nature of the medicines

of Kentucky, had obtained from the 'medicine men' of the Indians.

He carefully studied the nature of the medicines used by them, combined them according to the light he had received, used them as he had been taught, and had the cheoring satisfaction of finding disease driven from his emacated body, and vigorous health given in its stead. His case was of no ordinary kind, but astenishing to his friends and neighbors. The tame of it spread; the people far and near sent to the doctor for his successful and wonderful combination of Indian remedies; which was freely given them, until the cases became so numerous and the demand so great that the doctor was advised by his friends, and induced through justice to himself, to put up his Vegetable Tincture in bottles, and charge a price for it which was freely given. Finding its way into the first and most intelligent families, and astonishing all by its wonderful cures; commanding certificates and testimony in its favor from the leading and some of the most talented men of the country.

UNPARALLELED SUCCESS! UNPARALELED SUCCESS!

The many cures made by it, and the great demand, have induced the proprietors to offer it to the afflicted in this city, with the honest conviction that the same happy results will follow its use here, as in numerous other places. HON. HENRY CLAY AND HON. R. M. JOHNSON have certified to its merits. CAPT. GANOT, brother of the celebrated physician to the EMPEROR OF FRANCE, was cured by it of Chronic Inflammatory Rheumatism of seven years duration, after the skill of the physicians of Paris, London, and of this country had failed Rev. Vernon Eskridge, chaplain U. S. Navy, was cured by it. Also, Judge Davies, Hon. T. H. Shelby, members of Congress, with members of the State Department, Washington, and hundreds of others, who give their testimony to this wonderful discovery.

PHYSICIANS

have cured themselves, and the members of their families, by its use, after their own remedies had failed; and some of them are so generous as to recommend it to their patients.

It has shown itself most powerfully curative of

to their patients.

It has shown itself most powerfully curative of NERVOUS DISEASES

in their various forms, giving new life and vigor, re-storing the shattered constitution, and thus infusing hope in place of despondency. Thousands will testify to cures on themselves, wives, children and friends, after all other remedies had failed. We give below a few extracts.

WE REQUEST ALL to call and get pamphlets (gratis,) and see history o the discovery of this medicine, and read the certificates of its cures, showing a mass of testimony, such, as we believe was never given to any other medicin.
LIVER COMPLAINT, DEBILITY. Extract from James Harris, Esq.s., Letter, Alexandria Virginia.

After speaking of wonderful cures on himself, he says: "Mrs. H. has been suffering with the liver complaint and with inability, constantly complaining from weakness, through her whole system. She now enjoys better health than for thirty years, being entirely restored by the use of Hampton's Vegetable Tincture." DISEASED SIDE, BREAST, EYES. Extract from a Letter from J. Grimes, Esq., Londoun county, Virginia.

"My wife has been for years afflicted with great weakness; pain in the breast, side and back; palpitation of the heart; feebleness of the nervous system; loss of appetite; complexion sallow: the sight of one eye almost gone, the other very weak. I am pleased to say, Hampton's Tincture has restored her to perfect health. Her eyes are as good now as ever they were."

RHEUMATISM, 33 YEARS.

Mrs. E. Bagwell, of Virginia, suffered from Rheumatism from her 12th to her 50th year of age; at times entirely helpless. Being wealthy, she employed the best medical attention, and tried many medicines, but was custed attention, and tried many medicines, but

was cured only by Hainpton's Vegetable Tincture. CHRONIC INFLAMATORY RHEUMATISM. The wife of Thomas M. Yeakle, 76 Pearl stree was a great sufferer for eight years. Restored to perfect health by Hampton's Vegetable Tincture.

MERCURIAL RHEUMATISM!

Mr. Jarrett Plummer, 153 East Baltimore street, suffered this disease intensely six years; could not sleep; dreadful ulcers formed on his limbs, from which splinters of bones issued. His physician pronounced him incurable; but Hampton's Vegetable Tincture cured him. HEREDITARY SCROFULA!

A boy in the family of Hon. W. P. Thommasson, once member of Congress from Kentucky, was a mass of sores from head to foot. His eyelids turned inside out, protrading over the cychalls so as to produce blindness. He was cured by Hampton's Vegetable Tincture. DYSPEPSIA, NERVOUS DISEASE, &c. Mr. Wtn. Oldham, of Baltimore custom house, suffered these complaints for eighteen months, with both body and mind seriously affected. He was cured by Hampton's Vegetable Tincture, after other things failed.

COUGH, CONSUMPTION, &c.
Mr. Henry C. Winn had a cough for five years, great weakness, eet.; had, in all, five or six physicians; tried all their remedies, but was cured only by HAMPTON'S VEGETABLE TINCTURE. 65-Sold by MORTIMER & MOWERAY, 240 Bal-more st., Baltimore, and 304 Broadway, New York.

The valuable Medicines, above named, have recently been introduced, with the approval of a number of the Medical Profession in the city of Baltimore, and clsewhere, and in practice have succeeded most admirably in curing the diseases for which they are prescribed. They are offered to the country practitioner, as medicines which he can in all respects depend upon, as prepared in agreement with the experience of some of the most learned and jedicious physicians, and strictly in conformity with the rules of Pharmacy, and as especially serving his convenience, who cannot so readily as the city physician have his own prescriptions compounded by a practical Pharmaceutist.

See the descriptive pumphlets, to be had gratis of all who have the Medicines for sale, containing recommendations from Doctors Martin, Baltzell, Addison, Pryne, Handy, Love, &c.

Dr. S. B. Martin says—"It gives me much pleasure to add my 1-vtinnony to that of others, in favor of the extraordinary, efficacy of your Diarrhea Cordial," &c., and of the Expectivant, "I have no hesitation in recommending it as a "vost valuable medicine," &c.

Dr. R. A. Paynesay, he has used the Diarrhea Cordial in his practice "with "e happiest effect, and thinks it one of the most convenient and efficient combinations ever offered to our profes, 'ou."

Dr. L. D. Handy writes—"I have administered your Anodyne Expectorant, in several cases of Bronchial affection, with the most happy results, a drom a knowledge of its admirable effects, I can with the greatest confidence recommend it," &c.

Dr. W. S. Love writes to us that he has a ministered the Expectorant to his wife, who has had the Bronchia for fourteen years, and that she is fast rect. MARRIAGE, HAPPINESS AND COM-PETENCE. WHY IS IT? That we behold many females, scarce in the meridian of life, broken in health and VV in the meridian of life, broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the causes of her sufferings at first—perhaps years before, perhaps during girthood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be henefitted by our knowledge, we

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. IT IS MELANCHOLY AND STARTLING To behold the sickness and suffering endured by many a wife for many years, from causes simple and con-trollable, easily remedied—or better still—not incurred IF EVERY WIFE AND MOTHER Pessessed the information contained in a little volume.
(within the reach of all) which would spare to herself YEARS OF MISERY,
And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of accurring that competence which bis exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children. happiness of himself, wife, and conducts.
SECURE THE MEANS OF HAPPINESS By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a lit

tle work entitled The Married Woman's PRIVATE MEDICAL COMPANION. BY DR. A. M. MAURICEAU.

Professor of Diseases of Woman.
One Hundredth Edition. 18mo., pp. 250. Price 50 cts.
[ON FINE PAPER, EXTRA DINDING, \$1.00.]
First published in 1847, and it is not surprising or wonderful, considering that every Female, whether married or not, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symploms, and that nearly half a million copies should have been sald. It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

heart, or that of his own pecuriary improvement.

(CF Upwards of one hundred thousand copies have been sent by mail within the last few months.

CAUTION TO THE PUBLIC, BE NOT DEFRAUDED! Buy no book unless "Dr. A. M. Mauriceau, 129
Liberty street, N. Y.," is on the title page, and the
entry in the Clerk's Office on the back of the title
page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of convright. LET EVERY WIFE AND HUSBAND PONDER! LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the indispensable necessity of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing full Title-page and Index of Contents, together with extracts from the book, will be sent free of charge to any part of the United States, by addressing, post-paid, as herein.

When knowledge is happiness, 'tis culpable to be ignorant.

When knowledge is happiness, 'tis culpable to be ignoraut.

(Go On receipt of One Dollar (for the fine Edition, extra binding,) "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is sent (mailed free) to any part of the United States. DOASTING COFFEE BY STEAM .-- T that can be brought into a family. Roasing Coffee by steam with his Roaster, preserves the entire strength—making it at least one-third stronger than when roasted in the ordinary way. It prevents all escape of the aroma, adding greatly to its flavor, and requires only fifteen or twenty minutes in roasting it fit for use. It is very simple and economical, and the price brings it within the reach of every familty. Coffee cannot be roasted with as much regularity in the ordinary way. May 31, 1853.
