[From the Sc entific American] SIMPLE BUTTER COOLER.

Melted butter is all very well in its right place, but when butter is put upon the lea or breakfast table, having the appearance of being just out of he oven, it is anything but credita le to the house eper, and far from satisfactory to those who eat Dry toast is positively spoilt if spread with off butter; indeed, it butter cannot be brough; to table at least firm, if not hard, it is better to keep it away altogether. Fortunately, however, it is not necessary to proceed to such desperate measures, as butter can be kept nice and cool in the hottes weather, and that in a very simple manner. Procure a large, new flower por of a sufficient size to ver the butter-plate, and also a saucer large e nough for the flawer-pot to rest in upside down ;lace a trivet or meat-stand (such as is sent to the when a joint is baked) in the saucer, and put on this trivet the plate of butter; now fill the sauer with water, and turn the flower-pot over the utter, so that its bottom edge will be below the water The hole in the flower pot must be fitted with a cork; the butter will then be in what we n av call an air-light chamber Let the whole of us-ide of the flower pot be then thoroughly grenched with water and place it in as cool a spot ou can. It this be done over night, the butter be as firm as a rock" at breakta-t time; or placed there in the morning, the butter will be quite hard for use at tea hour. The reason of this is, that when water evaporates, it produces cold; the porous pot draws up the water which in warm weather quickly evaporales from the sides arthus cools it and as no warm air can how get at the butter it becomes firm and cool in the hostest SEPTIMUS PIESSE.

THE GUANO TRADE.

The important part which the guano trade is performing in the commerce of the world, and its influence upon shipping interes's, (says the Philadelphia American) is but imperfectly understood. Vessels carrying cargoes to our West Pacific coast former v were obliged to depend for return treights upon Ch na and the East Indies alone. Now they are directed to the Chinchas, which furnish cargoes at high rates, for toreign and American vessels to a very Jarge extent. Nearly 400 000 tons of guano are required for Great Britain and Ireland, and 250 000 tons for the United States -Every sea is explored to obtain this valuable fertilizer. The aggregate value of the different varieties now in use in the markets of the world cannot be less than one hundred and forty millions

For Liberia.

We see that our contemporaries notice the passage through this place of over a hundred negroes, formerly the property of Gen. Mckay, for many years the distingui hed Representative in Congress from this district. The negroes are on their way to Norfolk to be sent to Liberia; in pursuance of a will made many years since. The question with reference to these negroes turned upon the interpretation to be given to a portion of the wil'-whether the slaves inherited from the estate of the General's father meant simply the individual slaves themselves or included their descendants. The Supreme Court, upon an issue submitted, decided in favor of the latter construction; and Mr. Robeson, the administrator with the wil annexed, carried it out promptly and faithfully. All this is characteristic of the parties, and exhibits indisputably the fact that in such cases, Southern men, Southern communities and Southern courts, scrupulously guard and respect all b quests in favor of or rights supposed to appertain to the feeblest classes, whose claim is upon the generosity and fair dealing of the dominant race; and this, too, at heavy pecuniary sacrafices. [Wilmington Journal.

The climate of Chili is regarded as one of the healthiest in the world. Near the sea the temperature of the atmosphere is exceedingly agreeable, and s not subject to extreme variations. The bottest months in the year, are January and February, when the thermometer frequently rises to 90 and 95 degrees in the shade; but the air is cooled by refreshing breezes after sunset and during the night. The rainy season is from June to September, during which the whole country throughout the more favored regions is decked with flowers. The rain often last several days, and are so excessively heavy at times, as to cause a general suspension of business In the mountainous regions of Chile, snow falls during the winter months, and the more lofty regions of the Cordileras are covred with it. In the central paris of the country storms of hail, appalling thunder, and vivid lightning are frequent in the Win-

In the northern part, rain does not fall for years in succession. The principle articles exported are cop er silver, wheat, hides, wool and hemp. The ly Review. mercantile tonnage is about 20,000 tons. Its imports for home consumption in 1851 was rearly exclusively in cells and cloisters; but goes among \$10,000,000, and its exports for the same year to va- men not to frown on their happiness but to do them rious countries amounted to \$10,287,055. The ex- good. She is familiar and cheerful at the table and penses of the journey from New York to Valparaiso. by the way of Panama, cannot be made for less than

We regret to announce that on Monday las, James Gibson, son of James Sheetz, Esq., of Sheetz's Mill, this County, was drowned in the race attached to his father's mill. The little boy was about five rears of age. The unfortunate and distressing accident occurred as follows : The little boy after dinner, instead of taking his usual nap, started off to the mill race, taking with him his fishing, tackle. It is supposed, that as he sat fishing, he fell asleep, and slipped into the race. The working of the wheel of the mill becoming obstructed, the miller's attention was directed to the race; seeing the child's hat in the water, he became alarmed and after a little search found the body under the gute. Mr. Sheetz was in this pl ce attending Court, when the distressing accident occured. To the mourning and afflered parents, we tender our heartfelt sympathy .- Romney Int.

A HINT .- The simplest and best way of preserving woolens through the summer from the destruction of the moths is to rap them well up, after brushing and beating them, in cotton or linen cloths .-The moth can pass neither. Two covers, well wrap ped around and secured from the air, will be effectual. An oid sheet will answer, and save all expense of camphor, &c.

.... Ex-Governor Philip Francis Thomas late Collector of the customs at Baltimore, is about to remove to St. Louis, where he purposes to take up

A Beautiful Classical Allusion. Mr. Wiothrop, of Massachusetts, in his address at the Musical Festival in Boston last week, alludes to the contemplated submarine telegraph in these

on Ohristmas Eve, in the year 1814, the Treaty of Peace between England and the United States res signed at Ghent—a worthy commemoration of that blessed event when the Herald Angels were singing to the shepherds on the Plains of Bethlehem . Peace on (earth, good will towards men.' But that treaty was not known on this side the ocean for six or seven weeks after its date. The great battle of New Orleans, as you well know, was fought at least two weeks after that treaty of peace was signed Our modern system of railroads and steamers, and telegraphs might have saved that effection of fraternal blood, might have deprived in vidual heroes, might have deprived our country as . its history of of all the glory which belonged to it it really great victory, if that gigantic Ocean Harp, which is at this moment in process of being strung, whose deep diapson is destined to produce a more magical music on the sea than mythology or modern fa le eyer ascribed to siren, mermaid, or Arion; if the mysterious game of that profound subm rine chord had been in successful operation then, as we hope it soon will be, between St. John's and Valentia Bay, those cotton-bag ramparts at New Orleans might never have been celebrated in history, while of those wno so gallantly defended them many would not have been laid so low, an I some perhaps would hardly have risen so high."

Salt Lake and the Mormons.

John Hyde, Jr., late of the Mormon church, but who, because of his renouncing the faith of the "Latter Day Saints," has been by Brigham Young and his followers delivered over to Satan to be buffeted in the flesh, has delivered a very interesting lecture at San Francisco on Brigham Young, Salt Lake and Mormonism generally. He spoke of the Lake as being 4,000 feet above the level of the sca-70 miles long and 50 broad-and that three gallons of it, boiled down, would deposite one of salt . A negro bathing in it, said he, would come out perfectly white with the incrustation of salt. No buman body could sink in it, and myriads of grasshospers, which had been blown therein, had been thrown upon shore, imbedded and preserved in crystals of salt. In speaking of the city, he said: Salt Lake City contains six miles square, inclosed with a wall. All kinds of manufac ures are carried on, and all kinds of industry that can conduce to comfort and wealth are prosecuted there .-Fifty thousand people, the most industrious in the world, live in that city, shut out from the world.

In speaking of Brigham Young, he described him as a polite, shrewd man, well dressed, and tall and stately-one who had the faculty of leading weaker men. Brigham's age is 50, and his food is bread and milk. He accuses the Missourians of spoiling his appetite, and says "Uncle Sam, the old cuss," gare him great trouble. He always carries his revolvers, and awears by the Eternal that he cannot

The lecturer spoke of the great immorality and indecency of the system in which so many people lived, and of Brigham's claims to infallibility .-Brother Kimball had preached that a man's soul was as sa'e in the hands of Brigham as in those of the Almighty. The lecturer said that the only means to stop the progress o. Mormonism was to open the great avenues of travel through the middle of the confinent, and suffer the flood of enlightenment to flow through that benighted country. Thousands of Mormons, said he, were ready, as soon as fitting opportunities should present, to leave Utah and renounce their errors; but they were shut up in their mountains, and nursed their infatuation because they had no hope in any thing else .- Sac. Bee.

Important Decision.

On Monday a case invo ving the responsibility of railroad companies in the particular which follows, was brought before Justice Bixter. Jacob Waltermyer, of Piedmont, Va., brought an action against the Baltimore and Ohio Railroad Company for the recovery of the value of a lot of shad and herring spoiled, as the plaintiff alleges, in their transmission from Baltimore to Piedmont. The damages were laid at \$100. The ground assumed by the plaintiff was that the company held itself responsible for the arrival of freight goods at their destination within the hours prescribed by the time-table of the road, and turthe maintained that in this instance it was 24 hours later, and that the fish were spoiled in consequence of the delay. The defence produced by the counsel for the company was that the company had expressed itself irresponsible for the safe transmission of such freight as is perishable in its rausmission, and quoted from the rules and regulations of the company wherein such contingencies were expressly provided for. The action results in a nonsuit for the plaintiff, who appealed to court. [Baltimore Patriot.

We have seldom read a more flaished description of this he venly principle in easy I nguage, than the following, extracted from the English Month-

"Religion-the messenger of heaven, dwells not the fireside of the happy; she is equ. lly intimate in the dwelling of poverty and sorrow; she encourages the innocent smiles of youth and kindles a glow of the bedside of the sick, when the attendants have ceased from their labor and the heart is almost still; she is seen at the house of mourning, pointing upward to the "hous- not made with hands;" she will not retire so long as there is evil that can be preuntil the last duty is done, that she hastens away and raises her altar in the wilderness, to that she

may not be of men. Raffling for a Baby.

The Dubuque Express relates that a woman recently went to the Minnesota House, in Dunleith, with a young child, and after stopping a day or two suddenly left, minus the baby, and did not return The landlord happened to be over to Dubuque, and mentioning the circumstances to a couple of friends married, but childless, one of them proposed to adopt the little one as his own. The other immediately made the same proposition, when a dispute arose as to which of the would be "parents" should have the intantile waif. Finally, an appeal was made to the dice box. Quite a number of people gathered around the table, interested spectators of the singular contest, and the winner, named, Bester, was greeted with a shout of applaus. The child. is a pretty girl, three weeks old, and its new-found parents are brimming over with hap iness.

.... An Irshman was challenged to fight a duel, but declined on the plea that he did not wish to leave his ould mother an orphan .

Improved Breeds of Cattle.

The interest which some of our wealthy and enterprising agriculturists are manifesting in the improve-ment of the stock and breeds of cattle, are already felt and appreclated by many of our citizens, al-hough the efforts in this direction have been confined to but comparatively few. No department of the agriculturists occupation is more interesting, and exhibitory of a finer taste, for the beautiful in nature, than an admiration of handsome stock, neatly formed and well developed cattle, gay and useful horses. This taste is general; but the number is not numerous who liave the pecuniary means of gratifying their tency in this way. A goodly number of our farmers have turned their attention to the improvement of their stock, and have been amply repaid for their exertions as was shown by the Fairs held here a year or two ago. Our fellow-citizen, Mr. R. H. Dulaner, has contributed more to the improvement of the stock of the County and State than any other gen leman in the Commonwealth .-Possessed of a large and ample fortune, and ambitions of rendering material service to his fellow-citizens-as well as to gratify an enviable taste for fine stock-he annualy contributes imported cattle and horses to the breeds of the rounty, selected from the best stocks of England. We had the pleasure, a few weeks ago, of publishing an article from the Southern Planter, from the pen of an admirable judge, descriptive of his stock. Wealth thus used is not only a source of pleasure to the possessor-which is always the most refined and exquisite when it springs from acts and efforts to benefit those around us as well as ourselves-but it confers an enduring benefit upon the County, and ultimately the State. The beneficial effects of a cross with the best foreign bloods can be traced to distant descendants, and when added to by regular annual importations must have a speedy and widely diffused beneficial effect. Such efforts to improve the stock of this large and wealthy County cannot be two highly estimated by

our agriculturalists. We are pleased to learn that Mr. R. H. Dulaney and Col. R. L. Wright are this Spring importing, several of the best breeds of cattle from England.— We wish them success, and hope they will soon enjoy the pleasure of seeing the benefits they have conferred upon the County by the improvement of our stock .- Leesburg Washingtonian.

Agricultural. The Roston Traveller has the following priate remarks regarding the neglect of Agriculture, and the complaint of duliness in commerce

" The complaints of the pre ent season are no caused so much by the deficiency of business as by the redundency of traders, and the over supply and ruled with a despotic power by Brigham Young manufactured articles furnished by the improved machinery which has been brought into operation within a few years. These are altogether disproportionate to the agricultural pr ducts of the coun-

and other pursuits in large cities :

We cannot 'ook for any substantial and permanent reaction till larger amounts of capital and a much greater number of energetic young men are withdrawn from other pursuits and concentrated npon agriculture.

The general depression in commerce and the active demand and high prices for aimost all great agricultural staples, offers an excellent opportunity. for the profitable transfer of a large amount of capital and labor to the cu tivation of the soil.

A Method of Cultivating Potatoes.

We give the authority of Mr. D. W. Naill, of Frederick county, for the follow method of cultivating potatoes. He allows them to stand, as the practice is, until they show about six inches or growth above the ground; by which time the grass is pretty well started over the whole surface Instead of the usual method of working with the plough and carefully hoeing, and picking the grass from about th- vines, he puts in the plough, and as he says, " ploughs them down;" that is, he runs up and down the row, throwing the arth with the mon d-board from each side over the potatoes, covering them up entirely. The effect is, that the enemy is put under the sod, the grass is entirely smothered out without resort to the hoe, and in a few days the potatoes push out again, and go on their way rejoicing. The next thing, is to break out the middles and this concludes the cultivation

We do not learn that Mr. N. has 'ested this method of cultivation in its final results as compared with the ordinary moder foultivation, but he speaks unqualifiedly as to its efficency in destroying the grass without injury to the potato. This is the most important and most laborious part of the mere cultivation of the plant, and those who have not the faith to adopt it, should at least give this method a fair and careful trial. The after working may be more or less, as each one judges best.

Scarcity in the Valley.

We copy the following significant paragraph from the Staunton Spectator :

Owing to the severity of the late winter, and backthan usual was fed to cat le in this section of country, and consequently the price of corn, which was during the winter 50 to 55 cents has advanced to \$1. In some of the counties West of us great scarcity prevails, and fr several months past the people have been sending to this county for grain. It is creditable to some of our farmers who have corn to spare that they refuse to sell it by the quantity to dealers, but dole it out to their destitute neighbors at a reduced price. Several bundred bushels of corn, however, were delivered at the Distillery near seremity on the front of age; she is found too, at | this place, last week, at 60 cents per bushel, the contract having been made some months ago. If millers and others continue to send off flour, the probability is that we shall have to import it from Richmond before the new crop comes in.

A late number of the C untry Gentleman has an elaborate article by Levi Bartlett, of New Hampshire on bone manure. He concludes that there is no other manure whose effects are so lasting as an application of ground bones. Besides the increase of crops be supplies phosphate, which the grasses gererally lack, on old and long grazed fields in New Fingland, and the want of which, cause what is called "bone disease" in cattle. Mr. W. recommends that the b nes be pounded, and thus broken to pieces, boiled or ground and then spread evenly over the soil, and mixed with it. He has a field that was thus dressed years ago, and the effect is yet very perceptible on the clover.

Good PRACTICAL ADVICE. -Be content as long as ronr mouth is full and body covered; remember the poor; kiss the pretty girls; don't rob your neighbor's hen-roost; never pick an editor's pocket, nor entertain an idea that he is going to treat; kirk dul care to the duce; black your own pantaloons, and be sure to take a paper and pay for it.

.... What's best to prevent old maids from despairing ?" "Pairing."

Good Night, Good night ! how sweet its music falls In soothing cadence on the ear, And every gentle feeling calls Responsive to its earnest cheen; No lip so rude or light of tone Can rob it of its magic thrill, Speak but the simple words alone, In any voice, its Good Night still.

Strong are the charms that in it dwell For all who may its accents breathe; And conjured by its potent spell,
The mists of fancy slowly wreaths
Into the dear familiar forms Who crowned it with a halo bright, And lent it half the glow that warms The heart that hears a fond Good Night.

'Tis sacred with a mother's kiss ? It cheers the path of parting guests, And fills the heart with happiness Its soothing influence, lingering, floats
Where pillow'd innocents repose,
From quivering chords, as fade the notes, As lingering perfume near the rose.

A father's blessing on it rests ?

Though parting be its constant theme, It holds not parting's keener sting; So short the time—'tis but a dream, And sweet reunion dawn will bring; t yields to Heaven's protecting care The loved ones till the morning's light; To him whose faith and trust are there, Though black the gloom, 'tis still Good Night.

Miscellaneous.

Dr. Johnson and Vicountess Keith.

The notice of Hesther Maria Viscountess Keith, entitled "Death of a friend of Doctor Johnson," which is now travelling about on the pages of our many newspapers, awakens many recollections and leads to many reflections. The pages of Boswell, wherein we can still see the man and hear him talk, a veritable portion of the past still living and present to us, bringing thoughts to us of the worth of man; kow a poor schoolmaster, "a dominie who kept a school," could, in spite of all hindrances, project himself into and through many generations, and become a problem and Such, and so far reaching is the life of man. But leaving this wider web of cause and effect, let us rather follow one little thread of it, and note how she, Viscountess Keith, this gifted and noble woman, grew up at the knee of that uncouth, ungainly, but every way noble and wonderful man. He purblind, fumbling, and grouping his way in this world of the senses, had inward vision, denied to most men. He called this child always "Queeny;" and she became a queen-like woman, standing beside the throne and fit to be in it. We can we.l understand the impression made on the slender child by this leviathan man, one of earth earth'y, but reaching upwards to the highest

Read that little notice of her life Ideserving to be enlarged) bearing in mind the "Queenv" of Boswell's book, and consider how she, listening to his rugged, vet viried and often graceful talk; to his bursts of anger and of love; to his muttered prayers and pious ejaculations, grew toward womanhood with some right feeling of her high vocation, and became one of the uoblest of Englishwomen,

wedded to an illustrious Englishman. Johnson, on his death bed, said to her? " \17 dear child, we part forever in this world; let us part as Christians should; let us pray together." "He then uttered a prayer of fervent piety and deep affection, invoking the blessing of Heaven upon his pupil" That prayer was heard, and the blessing came. She afterward, standing among England's poblest men and women, "frequently dwelton that death scene," and when she, this viscountess, nearly a century old, went to her long home, this was said of her, "Few ever did so much for others or sought so little for their praise."

How Some People Marry and Live.

A voung man meets a pretty face in ball-room, falls in love with it, courts it, marries it, goes to housekeeping with it, and boasts of having a home and a wife to grace it. The chances are pipe to one he has neither. Her pretty face gets to be an old story, or becomes aded, or freckled, or fretted; and as the face was all he wanted, all he paid attention to and all he sat up with, all he bargained for, all he swore to love, bonor, and protect, he gets sick of his trade, knows a dozen faces which he likes better, gives up staying at home of evenings, consoles himself with cigars, ovsters and politics, and looks upon his home as a very indifferent boarding-house. A family of children grow up about him; but neither wardness of the Spring, a larger quantity of grain he nor his "face" know anything about training them, so they come up hel er skelter; made tors of when babies, dolls when boys and girls, drudges when young men and women; and so passes year after year, an not one quiet, happy, homely hour 's known throughout the entire household.

> a "fortune." He waits upon it to parties dauces the polka with it, exchanges billet doux with it, pops the question to it, gets "yes," from it, takes it to the parson's weds it, call it "wife," carries it home, sets up an establish ment with it, introduces it to his friends, and says (poor fellow!) that he too is married, and has got a home. It's false. He is not married, and has no home; and he soon finds it out. He is in the wrong box, but it is too late to get out of it. He might as well hope to e-cape from his coffin. Friends congratu late him, and he has to grin an I bear it .-They praise the house, the furniture, the cradle, the new Bible, the new baby, and then bid the "fortune" and he who husbands it good morning! As if he had known a good morning since he and that gilded fortune were falsedeclared to be one!

Another young man becomes enamored of

Take another case. A young lady is smitten with a pair of whiskers. Curled hair never before had such charms. She sets her can for them : they take ... The delighted whiskers make an offer, proffering themselves both in exchange for one heart. .. The dear miss is overcome with magnanimity, closes the bargain, carries home the prize, shows it to na and ma, and calls herself engaged to it, thinks there never was such a pair of whiskers. before, and in a few weeks they are married. Married | ves, the world calls it so, and we will. What is the result ! A short honey: moon, and they unluckily discover that they are as unlike as chalk and cheese, and not to be made one, though all the priests in Christendom pronounce it so. . . . ed: entitle

New Haven Palladium.

Bayard Taylor with the Pinnish Girls.

Bayard Taylor has some novel adventures in his northern European tour, and meets with strange customs and curiosities. In his last letter he tells us about stopping a couple of nights with a very friendly old Finnish lady, where he got a bed with sheets. The first night the mother and her sons were so amazed to see him undress before retiring, that they were curiosity bound—and did not leave their stand point in the room until he was snugly covered up. The revelation of what they had

covered up. The revelation of what they had seen, to other members of the family, produced a most wonderful audience the second night. On this occasion he writes :- Three buxom daughters, of age ranging from sixteen to twenty-two, appeared about the time for re-tiring, and stationed themselves in a row near the door, where they watched us with silent curiosity. As we had shown no hesitation in the first case, we determined to be equally courageous now, and commenced removing our garments with deliberation, allowing them to fully inspect them. The work thus proceed ed in mutual silence until we were nearly ready for repose, when by pulling off a stock-ing and displaying the muscular calf, sudden-ly alarmed the youngest, who darted at the

door and rushed out. The second caught the panic and followed, and the third and oldest was obliged to do likewise, though with evident reluctance. The perfect composure of the girls, and the steadiness with which they

watched us, showed that they were quite un-

Natural Ice Cave at Decorah, Iowa.

concious of having committed any impro-

In company with B. Frank Jones, Esq., edi or of the Decorah Republican, I visited this great and singular natural curiosity. The mouth of the cave is at the foot of a high ledge of limestone rock, set in the high bluff or bank of the Upper Iowa River, north of the town. The entrance to the cave is from the side of the hill about forty feet above the level of the river.

An opening of about ten feet high and some six or eight feet wide, forms the entrance which descends into the rock at an angle of

about ferty-five degrees. The extreme length of this cave has never yet been explored, but it has been penetrated to a distance of three hundred feet in various directions. In the winter season this cave is warm and dry, but in the summer, fall and spring, is bitterly cold, and the temperature In the warm season vast icicles are formed in sufficient quantities to supply a large city.-Lt any time in the spring, summer or fall, any one with little labor, could cut down several tons of the purest crystal ice in a day, and just as soon almost as it is taken out it is replaced by fresh ice. At a party held on the side of the hill by the Decorah people on the Fourth of July last, over eighty barrels of fine solid ice were taken out, and scarcely any impression was made on the quantity in

The most singular feature of the cave is. that the hotter the weather becomes outside the more intensely cold the atmosphere becomes in the cave. Persons going into the cave in the war n season are obliged to put on their heaviest clothing, and even then become badly chilled.

Decorah will at least always have the luxury of plenty of fine ice, without trouble to lay it in .- Dubuque Express and Herald.

Crossing of Railroad Tracks.

The Court of Appeals, New York, lavs it down as a rule of law, that an individual on approaching a railroad track is bound to look strain is approaching. The Court says: Railroads are among the best improvements of this great age of progress. Public accommodation, convenience trade, commerce and the intercourse between one section of the country and the other, carried on upon railfoods, demand that the greatest facilities should be given to this method of conveyance and the highest a tamable rate of speed licensed. A railroad is a public affair, and none the less so b-cause it is constructed and operated by private capital and enterprise; and the per manent affairs of the public are not to be postponed to the concerns of individua's. In view of the great rate of speed demanded upon railroads by the spirit of the age, constituting one of the great advantages of railroad travelling, and in view of the imminent danger froid collision to the lives and limbs of the thousands of persons adopting this method of travelling. I hold that no one has a right to cross a railroad track without first taking every precaution to safety. The same reason that holds railroad companies to the strictest respossibility to the passengers imposes upon every one who crosses the track of these great public thoroughfares, more than ordinary care not to jeopardize the lives of those who are availing themselves of the benefit of this great modern improvement in the mode of travelling. It seems to me that he who, without pau-ing or even looking, will drive upon a railroad track is guilty of more than careless-

How the Bear came to have a Short Tail.

A Norwegian tale salisfactorily accounts for the short tail of a bear. The bear it seems, was once met by a fox who carried a load of fish, and who in answer to the question how he had obtained them replied, that he had caught them by angling. The bear expressed esire to know an art so useful; when the fox infermed him that he had only to make a hole in the ice and insert his tail. "You must stop long enough, and not mind if it hurt you a little (said the friendly adviser:) for a sensation of pain is a sure sign that you have a bile. The longer the time, the more fish .-Nevertheless, when you have a good, strong bite be sure you pull out." The credulous bear followed the instructious and kept his tail in the hole till it was frozen fast. When he pulled, the end of his tail came off; and hence the shortness of the appendage at the present day .- Frazer's Magazine.

... At a criminal Court lately, the counsel, dissatisfied at his mant of success with a witness, complained to the court, Here Paddy went in with a genuine Irish

The Great Railroad Celebration

From Baltimore to Cincinnati, from Ci cinnati to St. Louis, throughout the ent railroad route from the Atlantic to the premetropolis of Missouri, to say nothing of ateral roads, the most extensive arranger ire now making to give the utmost effect the great railroad celebration which is to reoff this week. The Baltimore Republic

"The festivities of the openions will participated in by thousands of people from the East and West, and the North and the South. The Chief Magistrate of the nation and the heads of the national department the civic authorities of several cities, the go ernors of a number of the States, and the directors and presidents of numerous railroad together with other public-spirited gentlemen have been invited, and most of them will prob ably be present. The citizens of Ginc mat and St. Louis, which cities are to be place of the ceremonies, have made ample provision to accommodate the guests in a most satisfactory and agreeable manner. In Cincinnati were held, and it was agreed that business should be suspended on the 3d and 4th of June, and the inhabitants requested to deco rate their houses; the fire companies and the military will parade, and the scholars of the public schools have a procession; carriages will be furnished to convey the guests throughout the city and environs, and the citizens gen-erally will open their doors for the entertainment of strangers.

"On the 5th and 6th the guests will leave Cincinnati for St. Louis, and there participate in another festive occasion on the 8th, for which the most complete arrangements have made. It is also in contemplation to extend the trip to Keokuk and Fort Desmoins, Iowa, if circumstances permit. The guests will then return to their homes by any route they may prefer, as nearly all the roads in the United States have agreed to pass them free at any time before the 13th, and it is supposed this time will be extended to the 20th proximo.

Results Outstripping Anticipations.

Mr. Calhoun, in the Memphis Convention of 1845, said: "You are now talking about connecting the Mississippi with the Atlantic by railroad. In twenty years you will be talking about connecting the Mississippi with the of cold increases to an almost insupportable | Pacific." And we well recollect with what extent as it is penetrated to a longer distance. | a stare of incredulity hundreds of the intelligent men then present, statesmen, judges, editor, &c., looked up to the great Carolinian and expressed in their countenances, almost as plainly as if they had embodied the sentiment in-words, 'that is another of Mr. Calbonn's vagaries.' The idea of the union of the Mississippi with the Atlantic by means of fron bands was considered by many grave and enlightened members of that body as little butter, than a Utopian dream, to be realized perhaps by a future generation or perhaps never But to talk about building a railroad to the Pacific they considered as one of the most ridiculous airy nothings suitable to be indulged in by poets and the inmates of mad houses in a state of partial convalescence. Well, what of the results thus far. This

convention was held in the fall of 1845. A period of little more than ten years only has therefore elapsed and the grand epiths amium that celeb ates the completion of the trat part of the work mentioned has been chanted .-The cars now run regularly from the shores of the Atlantic to the bluffs of the Missir lippi. Their waters are united. The vague and misty future has become the tangible and solid reality of the present, and glides rapidly, though we cannot say noiselessly, into the past. And the still future what of it? There be prophets of evil and they cry out, a dream, a dream We tell them nay; or, if it be a dream, it is one that will be realized, as the other has been, when we wake. Events crowd on. Mr. Calhoun said that in twenty years we would be talking about building a railroad to the Pacific and they thought him crazy for making such a prediction. One half of that period has elapsed, and the road has not only been talked about, but the rails have been laid down upon it at several points, and all the impor-Grande, far on towards the Pacific. Results outstrip anticipations, even of the most saga-cious, of those who penetrate farthest into the future. What it took ten years to perform when Louisiana was admitted into the Union is now accomplished in one. The journey that consumed a month twenty years ago is now made in a week And still the ratio of comparative rapidity is onward, still inward. Exch nge,

WINNING A BET .- A Georgia negro was riding a mule along, and came to a bridge, when the mule stopped. "I'll bet you a quarter," said Jack, "I'll make you go ober dis bridge," and struck the mule

over the ears, which made him nod his head suddenly. "You take de bet den," wid negro, and contrived to get the stubbe n mule. over the bridge. "I won dat quarter, any how," said Jack. "But how will you get your money," said a

"To morrow," said Jack, "massa gi a dollah to get corn, and I take de quarter out." A COMPLEMENTARY COACHMAN, -A Young lady, returning late from a concert at 10 was

man close by, unperceived.

raining, ordered the coachman to drive close to the side walk, but was still unable to step cross the gutter. I can lift you over, said coachy. 'Oh, no,' she said, 'I am too heavy."

'Lord, marm,' replied John, 'I am used to lifting barrels of sugar.' The coachman took the lady for a barrel of sugar because she was hooped.

'My dear sir,' said our friend Drumsticks to a young married gentleman who had just been made to feel the joys of paternity. "my dear sir, can you tell me in what your present status varies from that of the same in-

dividual one year ago?

'Can't say that I can, Drumsticks' I will tell you. One year ago you were a sighing lover-now you are a loving sire."

At a late duel one of the seconds in-terfered, and proposed that the combatants should shake hands. To this the other ap-peared to object as unnecessary; for, said he, their hands have been shaking this half hour. James B. Clay, son of the late

has been nominated for Congress by the Democrata of the Ashland district in Kentucky. It is said he has accepted the nomination.

Tuesday Morning, June 9, 1857.

THE RESULT IN THIS STATE

The result of the recent elections in this State, is a re-affirmation of that devotion to the Democratic party, which has been for years a distinguishing characteristic of Virginin. The facility with which new issues have been created by the opposition, under its numerous names, has failed to seduce her from the path of duty, and with a commendable fixedness of purpose, she has ever pursued the even tenor of her wan content that her desting should be wrought out, by an inflexible and undeviating adherence to the Constitution, and by an unchangeable advocacy of the rights of the States under that Constitution.

Since the formation of political parties, she has occupied but one position. Hers has been an unalterable attitude. Fanaticism has swent her sister States from their moorings, but like the pillar of cloud by day, and the pillar of fire by night, she has steadily shone out in the fury of the storm, cheering the friends of the Union, and rebuking fanaticism in whatever form presented.

In 1855 it was her province to arrest that pirit of bigotry and intolerance, which had effaced old land-marks and destroyed the identity of Constitutional parties in the North, and which had erected upon the ruins of defeated whiggery, a temple consecrated to the worship of Abolition deities. Maryland, her sister in the struggle for independence, hadbeen borne down under the weight of the invader, and the rowdyism which has every where proved itself part and parcel of the principles of the know-nothing party. With hopes flushed by victory, the assault was made upon Virginia, and those not familiar with the character of her people, viewed the attack with melancholy distrust. Some who sympathized with her, feared the result. The fight was looked upon by many as the attack of an irresistible force upon an impregnable fortress. But under the lead of the gallant WISE, the Democratic party triumphed, and hurled back the now discomfitted and broken hosts of the invincible and invisible conquerer, and restored confidence and trust in the timid and distrustful hearts of those who feared the result of the contest. In 1856 she re-asserted her position, and forcibly vindicated her honor and patriotism.

In the late contest, another string was played upon to deceive her, and seduce her from the ancient faith. Her cupidity was appealed to her present condition was dwelt upon in the most disparaging terms; her future ruin under her present policy, was pictured in the most heart-stirring language, and the feelings of those who desired to get possession of her, were expressed in the gloomiest forebodings. But all would not do; she knew but one partv, and she loved that party too well, to sacrifice it at the altar of mammon. She was rooted and grounded in the faith, and she knew no temptation which would induce her to backslide. She had fought many a fight against the concentrated and consolidated principles of Whiggery, and it was a mistaken notion of her foes, to select from that compact array of party tenets, one single issue with which to oppose her unterrified Democracy, especially as the one selected was the nearest of all to old and forgotten Federalism.

The result is just what might have been anticipated. A complete route upon a chosen issue. An overthrow upon a selected field .-In every Congressional district but one the Democracy have triumphed, and in that one they were only defeated by their own confidence. The Legislature is tremendously and overwhelmingly Democratie, and the State's position upon this galvanized dogma is emphatically defined

We send the greeting of Virginia to the Democratic party of the Union. She has once more unmistakeably declared her attachment to the Constitution, and in the midst of her rejoicing, calls upon the South to imitate her

THE LADIES PAIR

The ladies connected with the Presbyterian Church of this town, design holding a Fair on Thursday and Friday next, to liquidate a debt now existing on the new Parsonage. For an object so commendable, it is scarcely necessary to make an appeal to the liberality of the people of Charlestown and vicinity.

The ladies of the Presbyterian congregation have always been distinguished for their devo tion to the interests of their church, and their zeal to promote those interests, and the Fair which they now propose holding, is another indication of that spirit of church enterprise, which has crowned their former efforts with suc cess. We commend them for their energy in behalf of the Church, and sincerely hope they may realize abundant encouragement from the liberal people of the town and vicinity.

FOURTH OF JULY.

This anniversary of our national independence is fast approaching, and less than one month will bring it round. No move, that we are aware of, has yet been made by the citisens of this county, for its proper observance. We hope that measures will be taken by our citizens to have a celebration, such as will be a suitable commemoration of the Fourth of July, 1776.

Dr. John W. Geyer, for the last two years the proprietor and Editor of the " Mary land Union," published at Frederick, has disposed of the office to Bradley T. Johnson. Cha. Cole and Clark Koontz, Esqr's. The retiring editor abandons his editorial labors that he may devote his sole attention to the practice of his profession.

opposition press of this State, with that which characterized the distribution journals before the election. Pretending to believe that vintory awaited them, they prophesied the utter route of the Democracy, and the complete overthrow of the present eveten of things in the old Commonwealth. Now, however, they are not half so confident, and have wonderfully changed their note. Some of them abuse the Democracy for turning out so strong. others reprove their friends for not turning out in greater strength, while still others philosophise upon whatever subjects are presented o their minds, and with which from hard usage and disappointment they have become most familiar. We not unfrequently pick up papers on our table with editorials under such captions as "Adversity," "Disappointment." Uncharitableness," dro. The last Hardy Whig has a long editorial essay on "Man." from which we make the following extract, and commend our neighbors of the Whig for devoting a portion of their labors to so stubborn a subject as the one they have undertaken. and sincerely hope they may be more successful as moral essavists than they have been as political journalists :-

He is happiest, who bears with most cheerful esignation, the afflictions of life and the dispensations of Providence, in whose breast contentment reigns upreme, and who possesses in the greatest degree, he true spirit of Christianty. He who in the midst plenty, is continually repining and fretting at every little difficulty and obstacle that rises in way is a stranger to happiness, in comparison canty share of this world's goods and feels that, behind a frowning providence God hides a smiling face." Can wealth insure us happiness? behold

"Base miser who starves amidst, his store, Broods o'er his gold, and griping still at more, Sits sadly pinning and believes he's poor." The miser "loves no music but the dollar's clink."

Will fame and conquest bring peace, and conentment to the heart? Look at Alexand r who having conquered all the then known world, wept that there was no more to conquer. Will the pursuit of pleasure afford bappiness, alss disappointment, regret and remorse of conscience are the almost invariable consequences of such a course of folly And yet the great mass of mankind, with the light of truth shining around their path, and the revelation of God to guide and instruct them in one wast multitude rush on thoughtlessly in this mad career of folly and death, utterly insensible to the awful mportance of futurity. Though "Winged by

To fly at infinite; and reach it there, Where seraphs gather immortality." On life's fair tree, fast by the throne of God, yet ne is satisfied with the gilded trifles of earth, and ere, without a sigh, buries his celestial hopes, nor permits his pinioned thoughts, and desires, to pass beyond the narrow ver, e of life. And this is man noble in reason, formed in the image of God, the crowning master piece of creation, how fallen, aunihilation of human existence, or God unjust, then mig t man be excused for his blind in fatuation. All the works of nature, answer the great design for which they were created, but man, he with immortality, glory, and eternal happiness offered him, madly dashes aside the proffered blessings, and rushes on to misery and eternal death. Heaven calls but he refuses to hear; conscience upbraids, and reproaches, but he heeds it not, affliction and pain are sent to arrest him, but he regards them not, and this the poet has said is.

"Heavens last effort of good will to man, When pain can't bless Heaven quits us in distress.'

CROUT WEED.

A gentleman has left at our office, a specimen of this new enemy of the farmer. It is an ugly looking customer, and is said to be more destructive to the growth of wheat than the much dreaded Hessian Fly. In this region, it is a new thing, and we hope that its progress may be speedily arrested. We invite our farmer friends to call and examine the specimen with us, that they may be able to recognize it, should it make its appearance on

The following notice of this obnoxious weed. we copy from the Woodstock (Shenandoah)

"In this region and we understand in some of the adjoining countries-the Crout weed has proved more destructive to the growing wheat crops than all other causes combined. In some instances, the proportion of this noxions weed to the grain is as ten to one; and the consequence is, the grain will scarcely be worth the trouble and expense of barvesting. The backwardness of the season, by which the growth of the whest was greatly retarded promoted the growth of the Crout and it was hastened to maturity before the wheat recovered from the effects of the severe weather. Where the soil is heavy, and particularly where the wheat was drilled, the Crout has not proven so destructive.

ARREST.

On Saturday night week, a man named CAUGHMAN, who had been for some time in the employ of Miss HANNAH HURST, of this county, left this town, taking with him one of the fine carriage horses of Miss H. It being suspected on Sunday morning, that he had made off with the horse, and not returning in the evening, Jailor McGINNIS started in pursuit of him, and by telegraph, secured his arrest in Frederick city, Md. Previous to his arrest, he tried to dispose of the horse at that place, and we believe succeeded in finding a gentleman willing to purchase him, but who suspected all was not right, and consequently declined paying the money until he could as-

certain CAUGHMAN's right to dispose of him. On Monday morning week, Mr. McGINNIS proceeded to Frederick, and identified the thief and the borse he had taken, and had the former lodged in jail to await a requisition of the Governor. The horse was brought back and restored to its rightful owner. We have also learned that C., had given passes to one or two of Miss Hurst's negro boys, and from the indefiniteness of the manner in which these passes were written, it is strongly suspected that he desired to aid in their escape

We learn from the Indiana American, that the Rev. Bishop Ames, of the Methodist Episcopal Church, has purchased the Episcopal Church edifice in Indianopo'is, and presented it to the South street mission of that city. Bishop Ames resides in Indianapolis, and is, we believe, a gentleman of large

essrs. John L. Marye, Richard H. Coleman, Robert Mayo, Geo. W. Lewis, Wm. S. Barton, W. Newton, and other gentlemen, we believe, are named as candidates for the vacant Judgeship in the 8th Judicial Circuit.

The Wheat crop in that part of Southern Illinois, called "Egypt," promises to be finer than ever before. One farmer calculates to get thirty bushels per acre from his two hundred and fifty acres.

now that the valuable Brick, building in this town, known as Jefferson Hall is for sale -This is a most excellent piece of property, and its eligible location, and great convenience, make it particularly valuable. The building is three stories high, with a good basement.-The first story contains a fine store room: the second is occupied as the office of the "Spirit of Jefferson," and the third is finished off with one of the best and most complete publie balls in the Valley. In every way it is worthy the attention of those who wish to invest money in town property.

APPOINTMENTS BY THE PRESHORNT

William A. Richardson, of Illinois, Governor of the Territory of Nebraska, in place of Mark W. Izard, the present incumbents

Joseph A. Wright, of Indiana, envoy, extraordinary and minister plenipotentiary of the United States at the court of his Majesty the King of Prussia, in place of Peter D. Vroom. of New Jersey, recalled at his own rec lest.

Henry C. Murphy, of New York, minister resident of the United States at the Sourt of his Majesty the King of the Netherlands. in place of Auguste Belmont, of New York, recalled at his own request.

Isaac B. Diller, of Illinois, consul of the United States at Bremen, in place of Wm Hildebrand, the present incumbent.

William Thompson, of New York, consul of the United States at Southampton, (England,) in place of Joseph R. Croskey, the present incumbent.

Gabriel G. Fleurot, of New York, consul of the United States at Bordeaux, (France,) to fill an existing vacancy.

.... The Baltimore Sun says, "orders will be given at once by the Secretary of the Navy for the building of the five additional screw propeller steam sloops-of-war for which an appropriation of one million was made at the last Congress. Three of the sloops will probably be built at the navy-yards of Washington, Philadelphia and New York respecfively. The other two will be given to ship builders of merchant vesseis, as the act provides that they shall be built by contract or otherwise."

A number of our Maryland exchanges complain of the ravages of the fly in the growing wheat. The Easton Gazette says the fly is playing sad havoc in that county, and the Centreville Times declares that fields that short time ago presented a fair prospect are vanishing away. A number of farmers whose lands are good, and last fall were well dressed with guano and other fertilizers, having lost their whole wheat crop, are turning their cattle in to graze, while others contemplate plowing the wheat up, and planting the land

An industrial society of Swiss colonists advertise in the St. Louis Democrat that they are desirous of purchasing in some eligible part of Missouri, twenty five thousand acres of land, and have on hand a cash capital of more than a bundred thousand dollars available for that purpose.

The annual address before the Valley Female Institute. Winchester, will be delivered by Rev. Dr. MORRIS, of Baltimore, the latter part of this month. A rich li.erary treat may be expected from this distinguished di-

The old English game of Cricket, a healthy and innocent game, will hereafter be a feature in the neighborhood of Richmond. A club has been formed, of which Hon. J. M. Botts has been elected President.

The Fugitive Slave in Ohio.

The case as it now stands, confused and even con radictory though it may be, reveals a state of feeling among that class of people in Ohio who affect to be guided in their civil relations by a higher law than any recognized by the constitution which is calculated to excite a deeper feeling than that of apprehension, in the heart of every true patriot. We shall defer comments until we are in possession of all the facts in the case; and in the mean time the whole country may rest assured that the President will discharge his high constitutional obligations before the nation promptly, boldly, and faithfully, and uninfluenced by any other motives save the honor, the prosperity, and the integrity of the Union; or to use the language of Secretary Thomson, in his despatch to the United States Marshall of Ohio: "Execute the law. The President expects you to do

your duty, and he will do his." No official account of the affair, beyond a brief telegraphic despatch from the United States' Marshal, has reached the government; and until the President is fully and correctly advised in regard to the the true merits of the case, it would be uneasonable to look for any official interposition from this quarter .- Union .

The Flight to Europe.

There seems to be just now a mania for a voyage to Europe. The Asia which left New York a few days since, took out 175 passengers. The Mirror

" With a first class steamer leaving this port almost daily, all the best berths are taken for six | Price's Mill, weeks or two months ahead. Merchants go abroad to buy goods, and take their wives and daughters slong with them. Money borrowers are rushing over to the financial capitals of the Old World with their pockets full of Stocks and Bonds, hoping to re turn with their pockets full of 'rocks.' Pleasure seekers and men of Leisure go to 'kill time' and seek a new sensation. Upon figuring up the expenses of summer watering places at home, and comparing the bills with the cost of the 'grand Continental tour,' the difference presents no bar to the visit abroad. And then our 'fastest families' find it necessary, in order to be au courant with the fashionable world, to imitate the example of the lady we

'Mrs. Bill is very ill, And nothing can improve her, Until she sees the Tuileries, And waddles through the Louvre.'

The European complaint is a godsend to the owner of our Atlantic steamers, and the 'houses of Vanderbilt' have entered the race just in the nick of time to make a fortune,"

Delegates.

Rev. Wi-liam B. Edwards, D. D. of the ty Station, Method at Episcoal Church, has beer appointed by Bishop Wangh as one of the delege es to the British Conference to represent the churca in the United States. In a few days he will leave here, accompanied by Rev. William Hamilton, for Montreal, where the Conference will be held. Both ministers will officiate in the several cities enroute e and from the Conference.—Balt, Pat.

THE PIC-NIC PARTY.

On last Saturday the young gentlemen and their

junior associates of our town gave a most deligh:-

ful Pic-Nic Party to their young lady friends at

the Agricultural Fair Grounds. The whole

affair was gotten up with exceeding good taste .-

We deem it a just tribute of praise due the

which the whole affair was conducted is deser-

ving of the commendation of all present. A-

mong the Managers we were happy to notice the

names of our worthy Mayor, Dr. BLACKBURN and

WELLS J. HAWKS, Esq., whose kind offices on the

occasion gave appropriate countenance to the fes-

tival. The presence of several of our most esti-

mable matrons added also much of kindly interest

to the occasion. The young tolks behaved, during

the entire day, in a most becoming manner. Noth-

ing occurred to mar the pleasure of the happy

throng. Everything went off pleasantly. Innocent

games, and pastimes, together with dancing, and

leasting occupied the entire day. All nature seem-

ed to smile upon the happy throng of young and

inno ent ones. The day indeed was charming, the

rain of the two previous days having cooled the

Edward Craighill and T. D. Burnett the young

Misses and "wee lassie" are under many obliga-

tions for the pleasures and enjoyments of a day,

which in after years, they can all look back to with

pure delight. There are many, in every commu-

nity, who look upon the happiness and innocent

pastimes of the young with a frowning brow-but

what of that-it is an allwise ordinance of Heaven

that the young in years, be also young in heart .-

Woe be to stern Parents, who with mistaken zeal,

deprive their children of innocent pleasures-for

every day experience proves that the child who is

denied a participation in the innocent plays of

childhood will, when released from Parental care

at an advanced age, rush headlong into the vices

For our part, we could never see that any harm

ever resulted from gatherings such as that we had

the pleasure of attending on Saturday last. But,

we must stop and not even appear to read a lecture

to any of our townsfolk, or else we'd soon have a

Manifest Destiny.

Hon. Caleb Cushing, late Attorney General of the

United States, delivered a speech on his arrival at his

home in Newburyport, Mass., in which he advocated

the policy of indefinite annexation. He thinks it

No material obstacle can arrest our progress .-

We woo this fair nature which lies before us, and we

woo it as its couquerer, like the vi-kings of the old

times, winning their brides of the sea in open com-

bat. I say this in the same confidence of conviction,

as one who, seeing the sun set forth from the por-

tals of the East, many speak of its onward course to

the west. For the time was when the United States

were but weak little colonies of England, scattered

along the sea-shore. Then they overflowed the Al-

leghanies in the valley of the Mississippi. Next they

absorbed the vast domain of France from Lake Su-

perior all around to the Gulf of Mexico, and west-

ward to Oregon. Next they possessed themselves of

the two Floridas, and then of Texas. And finally

they have marched through New Mexico into re-

mote California. But in conquest of nature with

our stalwart arms, and with our dauntless bearts to

back them, it happens that men, nations, races, many

must, will PERISH BEFORE US. That is inevitable. -

There can be no change for the better, save at the ex-

pense of that which is-one generation gives place

to another. Out of decay springs fresh life. The

tribes of Indians who hunted over the land, with-

out occupying it, retire before us ike the hunted

deer and the buffalo themselves-deeper and deeper

into the innermost recesses of the continent. And

the Hispano Mexicaus, wasting away by apparent

incapacity for self-government, are suffering one

will happen naturally as follows:

dozen counter lectures and scoldings given us.

air to a most delightful temperature.

Messrs. Powell and Ball, Americans, elected to the General Assembly

province after another of heirs to felapse into pristine desolation, thus to become prepared to receive the people and the laws of the United States. All that is now history. Yet wise men saw long before that so it was to be. From the present they inferred the future, and spoke of it with the positiveness and precision of inspired prophecy. SHOT HIMSELF .- We regret to learn that Mr. H. B. P. Noland, of Middleburg, in this county, comty, committed suicide in the streets of that town on Saturday evening last, by shooting himself with a pistol. The ball entering the left side, and passing through the longs, produced death in a few hours. We have heard no reason assigned for this dep orable act. The deceased was a young man, just entering his 21st year .- Washingtonian. cases of protracted cough.

[From the National Intelligencer.]
The Washington Election Riot. ar behef that the election of the day arked by general quictness and freedom from dis-arked by general quictness and freedom from dis-arked by general quictness and freedom from dis-der, we were never more stucere. During the pre-seding four or five weeks which comprised the can-ass nothing like intemperance or bitterness of feelvass nothing like inten ing on the subject of the election was visible in any quarter amongst us, although it was evident enough that each of the parties seeking the control of the city government would do their best in a legitimate way to gain their point. And we still think not withstanding the unparalleled events of yesterday,

Of course we could not suppose that any arrange-ments had been made for the introduction of bands of intrusive strangers from abroad to interfere with the full and free exercise of that very moderate share of voting which falls to the lot of citizens in this District. By the earliest train yesterday morning, and, it is believed, by the subsequent train, bands of ill-looking men, mostly a year or two un-der age, with the generic and suggestive title of "Plug-Uglies," arrived from Baltimore, crowding our side-walks, and exhibiting, by their manner and speech, how well their employers had calculated in bringing them on to do any work that was MECKLENBURG — Mr. Brice, (Whig.) reported elected by 60 majority to Senate, and Dr. Jones, (Dem.) to the H. of D. designed to be criminal and disorderly.

The first fruits or this villanous importation were manifested between 9 and 10 o'clock at the first prefinet of the Fourth Ward. There can be no doub that all was quietly proceeding, the voters being drawn up in line, each patiently waiting his turn when a sudden attack was made upon a naturalized eitizen in the rank of voters, and an effort made to drive all such from the polls. In this onslaught, and the defence which was necessitated by it, several serious wounds were delivered as well upon native. as naturalized citizens. Mr. Richard Owens, Commissioner of the Ward, was badly, shot in the arm as well as wounded in the head; Mr. F. A. Klopfer struck in the forehead by a spent shot: Mr. George D. Spencer severely bruised on the left cheek by a stone thrown by a man not four feet distant : Justice Goddard stricken in three places with brick bats; Justice Donn stoned; Officer-H. Degges brujsed in the chin; Capt. Baggott, Chief of Police, Policeman Birkhead, and other policemen were wounded and driven from the field. The result of this was tha naturalized citizens were compelled to save limb and life by a general retirement from the scene; and it is a matter of certainty that fear and disgust at such doings have combined materially to diminish the vote that would have been otherwise polled. About half past ten o'clock the imported rowd es appeared at the lower precinct of the second Ward, and fired about a dozen pistol shots, one of them

taking effect upon the forehead of a bystander. It was a matter of astonishment to not a few that these impudent disturbers of the peace were allowed to range up and down without molestation. Representations having been made to the Mayor of the utter inability of the police and magistracy to keep the polls open at the first precinct of the

for adequate force for that purpose, which he did in

Fourth Ward to all classes of voters, he deemed it

proper to apply to the President of the United States

MAYOR'S OFFICE, WASHINGTON, June 1, 1857. To the President of the United Sales: SIR: Upon the representation of credible citizens that a band of lawless persons, most of them not residents of this city, have attacked one of the polls at which the annual election is now in progress, and after wounding some good and peaceable citizens, have riven the remainder from the polls and dispersed the Commissioners of Election; and threatened further violence in any attempt to carry on the election. I respectfully request you to order out the company of United States Marines now in this city to maintain the peace thereof, the civil authorties finding themselves unable to do so with the means at their disposal, and their being no other United States soldiers in this city at your disposal. I have instituted a personal inquiry into this matter, and find that the weapons used were various kinds of firearms, clubs, knives, and stones, and that the facts as stated in the enclosed certificate are just and W. B. MAGRUDER, Mayor.

This letter was referred by the President to the Secretary of the Navy, who promptly placed 110 Marines, under the command of Major Tyler and Capt Maddox, at the disposal of the city. were accordingly marched to the aforesaid precinct Gen. Henderson, of the same corps, accompanying the pasty, in citizen's dress. Before the Mar nes left their barracks Gen. Hende son addressed them as follows: "Soldiers, you have always done your duty in the face of the enemies of your country : I expect you now to do your duty in upholding the laws of your country, quietly but firmly." No sooner had the inte'ligence of a call upon the United young men constantly increasing as they went along, got possession of a six-pounder brass swivel, and, hitching a long cord to it dragged it along Pennsylvania avenue and up Seventh street, with the object, as avowed by their adherents, of resisting the Marines. On arriving near the polling place of the first precinct of the Fourth Ward, the Marines, with whom had gone from the City Hall the Mayor, the Corporation Attorney, Marshal Hoover, ex-Marshal Wa lach, Capt: Baggott, and several policemen and members of the Auxiliary Gaurd, found the swivel party on the ground, with their piece posted on the sidewalk, ander the shed of the Northern Liberties

The marines were then drawn up in the street in front of the polls, but the insults and daring any continued. They then marched on the sidewalk. but strange to say, the prevailing impression was that they would not dare to hre. They then proceeded to the sidewalks immediately in front of the Seventh street end of the market.

There a halt was ordered. During the showers of rain the rioters had taken shelter in the market house. They then loaded their cannon and made preparations for general resistance. The venerable Gen. Henderson remonstrated with them, and whilst doing so an individual, recognized as a Plug Ugly was seen by a marine aiming a pistol at his breast. The soldier stabbed his commander's assailant withloaded and pointed.

out doing him serious injury. The cannon was The Mayor walked up to the closet window of the polling place and gave the order to open the polis (which had been suddenly closed, as we presume, when the marines appeared) and resumed voting to which the only reply received was from persons outsice, who declared, using much personal abuse, that the polls should not be opened. The M yor then took a commanding position and proceeded to address the crowd, amounting to about twelve or fitteen hundred persons in a state of maddened excitement. The substance of the Mayor's remarks was that of admonition to good order and quietness and resumption of voting, calling upon those present as good citizens to restrain themselves within proper limits. In answer to complaints, that the marines were brought, the Mayor assured the assemblage that they were brought for no hostile purpose, but to protect citizens in the exercise of rights and elective privileges. Instead of quelling the passion and tumult of the crowd, the Mayor's presence and remarks seemed to have the effect only of exasperation. which was exhibited in every form of menacing short of actual personal assault. The party on the opposite side of the street, and about seventy or eighty yards above, were at this

time in a state of excessive agitation, bustling about in the most violent way and making demonstrations as to their purpose with their piece of artillery. At this time the order was given to disarm the party of their piece, and a section of the marines, under Major Tyler, advanced with fixed bayoness for the rpose. This movement induced the abandonment of the cannon, and the retirement of the party from it. They dealt, however, upon the soldiers in return volleys of stones and revolver shors. The marines on taking the cannon secured it in their hollow square, themselves the while being fired upon and one of their party shot through the jaw. He was immediately taken up by Dr. Boyle, placed in his carriage, and conducted away. His wound is quite severe. The order was then given the mar-rines to fire, which they wid. Two person immediately fell on Massachusetts avenue, and in other directions many were shot, severally mortally.

The crowd was now in full fight in all directions

leaving the field to the soldiery, who did not how-ever, long remain at the spot, but were marched back to the City Hall. Later in the day they were taken to the railroad depot to receive and it necessary take charge of an expected reinforcement of "Plug Uglies" from Baltimore, but who wisely kept at

Of killed we are able to pronounce, we believe with certainty as to Mr. Allison, aged 55 years; Mr. F. M. Deems, a clerk in the General Land Office and formerly of Cumberland, Md; M. Dowling, a baggage-master on the Baltimore and Ohio Barlroad : a colored man named Neale, of the Nort ern Liberties, and another colored man from George-town named Redding. Mr. Ebenezer Hughes was very severely injured and may have died. We learn also that an infant child was killed on English Hill earlier in the day by one James Slatford who himself was afterwards shot in the shoulder

and neck. A young man named Charles Spencer, was wounded with a revolver bullet; and snother named Biddleman, said to have been active in the disturbance, was struck with a ball. Others, more less severely wounded, where a young man namshot in the shoulder, but not dangerously. We have heard of other cases, but forbear from ex ending the list till we have opertunity of fully authen theating our statements. losing of The "Plug Uglies," finding themselves less ple is neity received than they had anticipated, saily stole away from the city, some by way of a walk to Bladensburg, and others by jumping on to the railroad train at the last moment before starting. Their presence here and their abettors v denounced, and it is well for them that

they excepted.

In consequence of the violent, threats uttered by many to avenge their discomblure on the persons of the Mayor, the military officers, the magistrates the marides, and even on the public property, it was deemed a precantion to bring hither an additional force of United States troops. This, there ore, was done last evening, and a strong body of Misjor French's Flying Artiflery from Fort Mullenry LATEN PROM TRE SUM. THE SE The floters bave pottained another canon, and

threates to destroy the houses of the Major and Capt. Tyler, of the marines. Their families and valuables have accordingly been removed to places of safety. There is great apathy on the part of good citizens, a d no steps are being taken by them to Wasnington, June 1 midnight - The city is now nearly quiet. So far eight lives have been lost and some aixteen persons wounded some seriously. An effort was made to renew the riot in the second ward to night, but it was checked by the appearance of the artillery from Baltimore.

The democrats have carried four out of the seven wards, and have elected most of their candidates. WASHINGTON, June 2-1 A. M .- All is now quiet No further outbreak is appr. hended. democrats have elected their collector, register, surveyor and a majority of the city conneil. A stong guard of artillerymen are posted in the ricinity of the mayor's residence and that of Capt.

Biography of Senator Butler.

The Charleston Courier of the 27th contains a bipraphy of the late Andrew Pickens Butler, the South Carolina Senator, who died at six o'clock on the evening of the 25th, of dropsy, at Stonelands, his residence, about five miles frem the village of Edgefield, in the sixty-second year of his age. From this obituary we derive the following

The deceased senater was born in Edgefield Disfrict in the year 1796. His fatuer was the late Gen. William Butler of Va., and his mother Behetbland Moore, of Edgeheld, the former having migrated from Virginia to South Carolina He had six bro hers, among them George, a gallant officer in the war with Britain who died young ; William Butler, M. D. formerly a surgeon in the United States navy, and member or Congress from South Carolina, and Pierce M. Butler, formerly Governor of the State, and afterwards Colone of the Palmetto Regiment, who died in the hour or victory at the head of that torps, on the memorabl field of Cherubusco. They were of patriot stock, il eir father having done revolutionary and warrior service in the war of Independence. Their mother, too; did patriotic service n the same cause, and was at one time taken p. is-

oner by the enemy. Senator Butler's sister was the first wife of the Hon. Waddy Thompson, and all his brothers having preceeded him to the grave, he now complet s the bituary roll. He was a publi of Dr. James Wad dell, at Willington Academy, and graduated at the College of South Carolina in 1817, having been awarded a third nonor. He commenced his official life in the popular branch of the State Legislature. whence he was transferred to the State Sepate; an ne made his mark as an able and eloquent debater in both houses. In 1818 he was admitted to the bar and almost contemporaneously appeared before a committee of the House of Representatives, in a couested election between Charles Bussy as d William Middleton, of Edgefield District. He soon rose to 1833, he was elected an associate law judge of the State, and is said to have worn the ermine with impartiality, uprightness and ability. In the year 846 he was elected United States Senator as the colleague of Mr. Calhour. His health be an to fail upwards of a year since, and his decline was doubtless, in some measure, hastened by the melanchois and-andden death of his roung kinsman. Prestor S. Brooks, whom he loved with almost parental afection. He left Washington at the close of the late Executive Session of the Senate in a very teeble state, having remained until the last moment at the post of duty; and returned to his home to mingle his mortal dust with that of his parents and kindred n his native State. His first wife was a Simpkins, who died childless shor ly after the r marriage; and his second wife was a Hayne, grand-laughter of the revolutionary martyr Col. Isaac Hayne-she, too, baving died in an early period of their wedded life, leaving one daughter, who survives to mourn her

Another bid for Martyrdom.

Rev. Dud'ey A. Tyng, the young clergyman who was voted out of his parish in Philadelphia for preaching "Slavery" instead of "Christianity," last Presidential campaign, is making quite a figure, we see, in the Boston (Anti-Slavery) anniversaries .-In a speech on Thursday he told us ardently, that the power of South Carolina was in Philadelphia, and its pointing flager had driven him from his church, but he was thankful, for it had been the means of giving him another church, that would be true to God and humanity. If it was the "power of South Carolina" that in Philadelphia compelled Mr. Tyng to resign, then it logically follows that South Carolina is all powerful likewise in the church of which he is a Presbyter. "Slavery" happens to be shut out of the general and Diocesan Conventions of that Church-on principle,-and if Mr. Tyng is "thrust out," we must infer it is because he is pursning a course that has all the appearance of revreancy to that "principle." There is, then, the most substantial ground for the belief that Mr. Tyng stands all alone-or nearly all alone-in his present position. It is sad to see so young a man so anxious to be made a martyr of, -so cheaply.

To be consistent, Rev. Dudley A. Tyng ought to throw off his surplice at once,-for how can a clergyman, holding such opinions as he has,-be in communion with a Church, fifteen of whose Bishops are residents of slave-holding States, and, if not actual slaveholders themselves, - are probably on good terms with the slave-holders and the "system." [N. Y. Express.

Land Speculation -- A Crisis Ahead.

An Iowa correspondent of the Boston Traveller, who has been for many years a resident of lows, expresses the following views about the prevalent land fever. We copy his statement and apprehensions, believing there is much truth in them :

"Have you made any computation of the enormous quantity of wild lands purchases of the government within the past five years? Have you thought of the vast extent of lands taken up by individuals during that period, in Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, Nebraska and Kansas? Of the many millions of acres thus purchased, how much has been sold, again and again, at constantly increasing prices, with no actual increase of value ! Haw many paper towns have been alluringly mapped out, conveyed and reconveyed times without number ! How all improved property throughout the West has advanced in price, repeatedly changed owners, and what an enormous indebtedness has grown out of unwarrantable speculations! If you have reflected upon these facts, you can hardly be surprised when you hear that times are tight in the West, and bid fair to become rapidly tighter. Nor will you be asturished if an almost universal insolvency should result from the speculative fever which, for several years, has been growing more and more general, until it has seized upon all classes and almost every individual among us.

Pay-day is coming. A short time since every body wanted to buy lands. A marked change has recently come over them. Now almost everybedy wishes to sell. The question to be solved is, where are the buyers to come from ? Some will some from the East no doubt, but not enough to avert the dis aster which is already impending. Wild lands will be wild lands still, and such are really worth noth ing. Until an owner lives upon it, a township of wild lands is utterly valueless; and after he has 5300 his residence upon it, its value only become positive n proportion to the labor he intelligently bestons

hicago limes says. g raised on lands in cultivation last year will be fully as great as the last year's crop, leaving the lands to add their first crop to the aggregate amount. In middle Illinois and further up north it s true that large quantities of winter wheat have ben destroyed, but the destruction has not been general, nor indeed half as extensive as has been represented. In many places, fields in which the wheat has been regarned as killed, have pu; on the green and are flourishing. It is true the fields will not veld in the proportion that they were expected to have done, still they will yield half crops, Oth rs, which have escaped the frost, will yield greater than an average. In lower Illinois the wheat will all be head before the first of June, and the losses will grove not only small in extent, but very small in preportion to the first amount sown.

Spring wheat rarely, if ever, fails in Illinois, and, though the winter wheat produced in the State may not receed last year's product, the spring wheat will in all probability, be nearly double that raised 1856. The actual cash returns, therefore, of the linois wheat crop in 1857, estimating at last year's es, and allowing for the difference between winer and spring wheat, will exceed that of the crop of

-A Sad Picture.

Crime looks doubly hideons at the hands of age, and the case of Carr, now on trial at Wheeling for mulder, is a case in point. It is alleged that Carr. a trifling quarrel with a neighbor, went home armed himself with a gun with which he rearned and shot his victim while seated by the side the ned and shot his vet the man against whom the indictment for this crime is pending, is bent down with the weight of many years, being about 88 east of age. His thin white bairs fell in stray ks over his wrinkled brow, but under his shaggy er ere trows, the eye, quick a d u casy, flashed with apprehension or curiosity as he crept painfully into Court, leaning upon a knotty staff.e reminds one of what Quilp might there been. ad he lived to wear gray hairs. An old blue coat can tightly over the bunch which aged had piled leiven his shoulders, as high as to the top of his med nearly, showed the damp and wear of nearly the months of prison life. His trembling hand with convulsive force his stick, as if to deal a Lax, and his feet, tottering as he crept into his sea, near his counsel.

Consumption can be Cured Sir James Clark, Physician to Queen Victoria, and one of the most learned and skulful men of the age in his "Treatise" on Consumption, says-" That Pulmonary Consumption admits of a cure, is no mager a matter of doubt; it has been clearly demonstrated by the researches, of Laennec and other modern Pathologists." The merc fact that such a disease is ever curable. attested by such unimpeachable authority, should

in-pire hope, and reanimate fallen courage in the heart of every sufferer from this discase. The remedy which we affer has cured thousands. Wistar's Balsam of Wild Cherry not only emanates from a regular physician, but has been well tested in all the complaints for which it is recommended SETH W. FOWLE & Co., 138 Washington Street Boston, Proprioetrs. Sold by their agents ever,

FEVER AND AGUE-AN INFALLIBLE CURE-We defy the world to produce any medi me which does not contain Quinine. Bark, Arsen-To, Mercury or any noxious or deadly compound to cure this annoying disease so effectually as Carter's Spanish Mixture. While it contains none of the above named dangerous articles, yet it posessaes a power in relieving and curing Fever and Ague which cannot be approached by any of them sepa-rately or in combination. It acts specifically on the Liver, Purifies the Blood, opens the pores of the Skin, and assists nature to expel from the system the seeds of Disease, or that is as bad the remains of the Mineral Drugs, which clog and finally destroy the constitution See the cure of Mr. Lougden of Virginia; He had | sale by the agents Chills twice a day for 3 years, nothing would re health, nor has he had a return of the disease since.

LETTER FROM HON. JOHN MINOR BOTTTS, OF VIRGINIA MESSRS, WM. S BEERS & Co. Richmond July 9. Gentlemen : - Considerations of duty to the afflicestimonial to the great value of CARTER'S SPAN

todalone promptime to send you this voluntary ISH MIX PURE, for that almost incurable disease, Without being disposed, or deeming it necessary, to go into the particulars of the case, I can say that

the astonishing results that have been produced by that medicine, on a member of my own family, and under my own observation and superintendence, after the skill of the best physicians had been exhansted, and all the usual remedies had failed, fully justify me in recommending its use to all who may e suffering from that dreadful malady. I do not mean to sa , that it is adapted to all constitutions, or that it will afford the same relief in all cases; for, of course, I can know nothing about

that-but from what I have seen of the effects I would not hesitate to use it in any and every case of Scrofula, with persons for whom I felt an interest. or over whom I could exercise influence or control. Respectfully yours, JNO. M. BOTTS.

TOM TELEGRAPH, THIS cerebrated Premium Horse will stand the

of March, and terminating 25th June, on Mondays. Tuesdays and Wednesdays, at George Johnston's stable in Berryville, and at Wm. Drew's, near Charlestown on Thursdays, Fridays and Saturdays.

TERMS.—Fifteen dollars the scason—twenty to insure a mare in foal, and fifty cents to the groom for each mare. Parting with the mare after having her insured, forfeits the insurance money.

PEDIGREE. This fine stallion, who took the Premium at the State Agricultural Fair of 1854, and the two preceding Fairs in Loudoun, is a beautiful dark bay with black mane, tail and legs, of fine action and appearance, going all gaits well, without eye having been gaited—is sixteen and a half hands high, and well proportioned for Saddle or Harness, and is ten years old this Spring.

He was sired by Tom Telegraph, who was gotten by old Maryland Tom out of the dam of Bachelor,

and was well known through Loudoun and Fauquier

as the sire of the best saddle horses of the present The dam of young Tom was sired by Lafayette, grand dam by Eagle out of a Loudoun sorrel mare, thereir combining the best crosses ever known in this section of the country, for beauty of size and elegance of carriage, together with long life and great endurance. I will add that Tom has proven himse! f well fitted as a stock horse, as his colts are now old enough to be used, turning out remarkably fine and sell at-JOHN W: LUKE. very high prices. March 31. AND BELLER & COOKE.

ATTENTION, FARMERS! Guano Ezdelled BY DE BURG.

IT is a settled point with all Chemists and scientific Farmers, that Peruvian or any other description of guano, does not supply to the sail one-third of the necessary constituents for the growth of all crops, on all soils; and the analysis of wheat, rye, corn, cats, potatoes, tobacco, &c., prove the fact, Every one who has had any experience in the use of guano; knows, that the land account of hausted and imperarished by its continued applica-The true secret of farming, as we understand it. s to furnish the land with the cheapest manufe stime will grow the largest crops, and at the same time Toc object of De Burg is to supply to the edit all, and every requisite required by the crop for its growth and maturity, and leave a surplus for its subsequent improvement. Not supplying year, costly manures for the one crop alone without a prospect for future benealt, but to grow as large crops of every description as grante, and acd permanently to the improvement and festility of the Dr. David Stewart, Professor of Chemistry at St. John's College, Annapolis, Md., and the Chemist to the Maryland Sts. e agricultgral Society—analyzes everylot of De Burg we receive, and says, in his reports to us: "De Burg's compound is much more generally valuable to the practical farmer than any mixture of phosphates and ammonia or manipulated guano.
"There are other elements in De Burg to which I attach as much importance as ammonia and phos-phates, and I cannot pass a cargo where one of these is absent, however much ammonia and pher

phates are present.

How, R. Y. Congad, Winchester, Va., saya, 18th.

December, 1856: "For two years I have applied Do

Burg to the corn crop; each time with very marked effect in increasing the product. That no mistake might exist as to the cruse, I have sen rows in the field, to which none was applied, and the differ ence of yield was perfectly obvious. I applied about a table aponful to each hill, before covering in mixed with said or earth, to about a handful. The FAUQUIER CO.—R. H. Dulany, Esq., applied December 1981. Burg on his corn and spring crops, and was much pleased with the result. It fully equalled Peruvian Guano. JOSEPH NEWMAN, Esq., Gordonsville, Va., 14th December, applied De Burg and No. 1, Peruvian Guano on corn, side by side, same rate per acre, and if there is any difference in the yield, it is in favor of the De Burg.

THE NOTICE .. Stray ... to her For the protection of our own and the farments to nterest, and to avoid any mistake on the part of the manufactures, every lot we receive is the roughly inspected and analysed, by Dr. David Stewart, Chemist to Maryland State Agricultural Society, who rejects all that does not come up to the fixed standard; thereby guaranteeing to the farmer a uniformity not to be found in Guano or any other fortilizers, and formers will also fertilizer; and farmers will also Bear in Mind,

a. wice tod

That it is only De Burg that produces the above results, and in consequence of the greatly increased demand—which is beyond all precedent in artificial manures—many imitations have been put upon the market, and palmed off for the genuine. market, and palmed off for five genuine. Farmers should therefore be particular, and butter none except from responsible dealers. The genuine is in barrels with white wears, stenoilled C. B. DE BURG's No. I AMMONIATED SUPER PHOS.

lay spring from her gay floral car, Bestrew thy path with roses, and sip ning summer round thee bring. All that her wealth discloses.

Hay Autumn's frost ne'er nip the leaves, Which on thy trees bloom greenly, Nor Winter's snows diffuse a dearth, Oler fields that smile secunely. dded to these may all thy joys, Which make of life a blessing, Se thine in richest plentitude, All varied and unceasing.

And Eva, when life's latest day, Has passed in blessings o'er thee, May Angels bear thy soul away To realms of bliss and glory.

Durjety.

A wise man will never rust out. As long as he can move or breathe, he will be doing something for himself, or his neighbor, or for posterity. Almost to the last hours of his life, Washington was at work So were Franklin, and Adams, and Young, and Howard, and Newton. The vigor of their lives was not decayed. No rust marred their spirits. It is a foolish idea to suppose that we must lie down and die because we are old. Who is old? Not the old man of energy; not the day laborer in science art or benevolence; but he only who suffers his energies to waste away, and the spring of life to become motionless; on whose hands the hours drag beavily, and to whom all things wear a garb of gleom. There are scores of grey headed men we should prefer in any important enterprise, to those young gentlemen who fear and tremble at arproach ing shadows, and turn pale at a lion in their path, a harsh word or a frown.

Unique Letter.

It is stated that a few days ago the President received the following unique letter:

CRAWFORD COUNTY, Mo., April 30, 1857. Mr. BUBBANAN, Dear Sir-Mr. is the postmaster at this place, and be has gone out west, and has been gone for three or four weeks, and he has no deputy here, but I have been opening the mails and attending to it sinc. he has been gone, as he left the key with me, and the postmaster told me that I must make a report at the end of every month and did not tell me who I was to write to, but I suppose it is to you we should make our reports, as we are all citizens of the government of which you are now President. If you are not the right one to receive the report please drop me a few lines, letting me know who I am to report to, and I will write

Report at the end of April-The weather is cold the season-provisio s scarce and very highbut notwithstanding all that we have regular mails once a week, good health, and the people of this country are universall pleased with your administration; this is all I know that would interest you; if there is any thing omitted in my report please let me know. My best respects to you and Mrs. Buch-

How Souls Dress in Heaven.

The New England Spiritualist, in a late issue, give s letter from "Our Lady Correspondent" in the spirit world who make revelations in regard to the

The males generally wear loose white garments, with a girdle made of different kinds of material, generally of gold or silver cord, some wear jewels, but this is not common. They wear their hair and beard long, and sandels of velvet of various hues. The females are more elaborate in dress; they have more taste that way, and are allowed to indulge it, for the motive of dress here is not the same as on earth. It is not for vanity or for any such motive but frem a love of the pure and beautiful, and a desire to do everything pleasant in the sight of

I generally dress in a light blue dress made loose and flowing: a silver cord around the waist, or a jeweled girdle I wear my hair long braided, and sometimes flowing, or bound with silver band .-I have also white dresses, of so fine a fabric. they look like air; this kind I am very fond of wearing. With such a dress I wear an emerald girdle, made in the shape of leaves, and forming a wreath, this is clasped by one large pearl. I bind my hair with a string of pearls when I wear such a dress. I wear white slip pers always.

Conundrums,

" Talking of conundrums," said Old Hurricane, stretching himself all over Social Hall, and sending out one of those mighty puffs of Havana smoke which had given him his name, " can any one of you tell me when a ship may be said to be in

"I can tell you-I can," snapped our Little Turtle. "Its when she wants to be manned." "Just missed it?" quoth Old Hurricane, "by a

mile and a half. Try it again. Who speaks first?" "I do, secondly," answered Lemons. "It is when "Not correct," replied Hurricane. " The question

"When she's a ship of great size," (sighs,) modestly propounded Mr. Smoothly.

" No," replied Hurricane. "When she's tender to a man of War," said the Colonel, regarding the reflection of his face in his

"Everything but correct," responded Old Hur-"When she's struck aback by a heavy swell," sug-

"Not as yet," said Hurricane. "Come, burry

"When she makes much of a fast sailor," cried Here there was a great groan, and Smashpipes was thrown out of the window.

When peace was restored, Old Hurricane "pro-"You might have said, "When she bugs the wind," or 'when she runs down after a smack,' or 'when

he's after a consort,' or something of that sort, but t wouldn't have been right. The real solution is his-when she's attached to a buoy !" Not long since a youth older in wit than

fGod replied, "Ma, I think there's one thing God an't do."

"What is it ?" eagerly inquired the mother. God can't make Bill Jone's mouth any bigger rithout setting his ears back.

.... A dentist presented a bill for the tenth time a rich skirflint.

"It strikes me," said the latter, that this is a pret-

"Yes, replied the dentist, "I've sent it around of-menough to make it appear so, and I have called ow to get it squared." Fred, the prince of wags, was getting home

ther late, and a little happy; when passing by dark all-v, a large two-fisted fellow stepped out id seized him by the collar, and demanded his "Money," said Fred, "money, I have none; but you will hold on a moment, I will give you my

ste for thirty days." A gentleman having lately been called on to bacribe to a course of lectures, declined, "because,"

It cares Nervous and Depilitated Sufferers, and removes all the symptoms, among which will be found Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languer, Universal Lassitude of the Muscular System, often Engrapeus Apartite, with Dyspentic Symp. often Enormous Appetite, with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Paltid Countenance and Eruption on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight; Want of Attention, Greet Mobility, Restlessness, with Hornes of Society. Nothing is more Desirable to most ror of Society Nothing is more Desirable to such Patients than Solitude, and nothing they more dread for fear of themselves; no Repose of Manner, no Earnestness, no Speculation, but a Hurried Transi-

ion from one question to another. These symptoms, if allowed to go on-which this medicine invariably remove—as soon follows LOSS OF POWER, FATUITY, and EPILEPTIC FITS in one of which the patient may expire. Who can by those direful discases—INSANITY and CON-SUMPTION? The records of he INSANE ASY-LUMS, and the melancholy deaths by CONSUMP-TION, bear ample witness to the truth of these as sertions. In Lunatic Asylums the most melau-choly exhibition appears. The countenance is ac-tually sodden and quite destitute—neither Mirth nor Griefever visits it. Should a sound of the voice

occur, it is rarely articulate. "With woeful measure wan despair Low sullen sounds his grief beguiled." Debility is most terrible! and has brought thousands upon thousands to untimely graves, thus blasting the ambition of many noble youths It can be cured by the use of this

INFALLIBLE REMEDY! If you are suffering with any of the above distressing ailments, the FLUID EXTRACT BUCHU will cure you. Try it and be convinced of its efficacy. BEWARE OF QUACK NOSTRUMS AND QUACK

DOCTORS,
who falsely boast of abilities and references. Citizens know and avoid them, and save long suffering, money and exposure, by sending or alling for a bottle of this popular and SPECIFIC REMEDY.

It allays all pain and inflammation, is perfectly pleasant in its taste and odor, but immediate in its

HEIMBOLD'S EXTRACT BUCHU is prepared directly according to the rules of PHAR-MACY and CHEMISTRY, with the greatest accuracy and Chemical knowledge and care devoted in its combination. See Professor DEWEES' Valuable Works on the Practice of Physics and most of the late Standard Works of Medicine.

One hundred dollars will be paid to any Physician who can prove that the Medicine ever injured a patient; and the testimony of thousands can be oroduced that it does great good. Cases of from one week to thirteen years' standing have been effected. The mass of VOLUNTARY TESTIMONY in pos session of the Proprietor, vouching its virtues, and curative powers, is immense, embracing names well known to SCIENCE AND FAME. 100,000 Bottles have been \$ ld! and not a single instance of a failure h ; be in re-

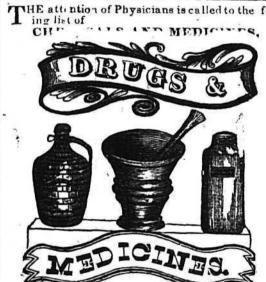

ported! Personally appeared before me, an Al erman of the City of Philadelphia, H. T. HELMBO, D, Chemist, who being duly sworn, does say, that his prepaation contains no Narcotic, Mercury or inju H. T. HELNBOLD, Sole Manufacturer. Sworn and subscribed before me, this 23d day of

November, 1854. WM. P. HIBBARD, Alder'n. PRICE \$1 PER BOTTLE, OR SIX FOR \$5, DE-LIVERED TO ANY ADDRESS,
Accompanied by reliable and responsible Certificates from Professors of Medical Colleges, Ciergy. men and thers. Prepared and sold by H T. HELMBOLD.

Practical and Anytical Chemist. No. 52 South Tenth St. below Chesnut, Assembly Buildings Phila.

To be had at C. E. BELLER & CO. and of all druggist's and Dealers throughout the United States Canadas and British Provinces. Beware of Counterfeits .- Ask for Helmbold's-Take No Other .- Cures Guarantied.

TERRIBLE DISCLOSURES SECRETS FOR THE MILLION DR. HUNTER'S MEDICAL MANUAL; Being an original and popular Treatise on MAN AND WOMAN: Their Physiology, Functions and Sexual Disorders of every kind, with never failing Remedies for the speedy cure of all diseases of a private and delicate character, incident to the violation of the Laws of Nature and

PRICE TWENTY FIVE CENTS THE Author of the above volume is a graduate of one first medical schools in the United States, and having devotin the United States, and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is able to compress into vade mecum compast the very quintessence of medical science on this important subject; as the result of the experience of the most emisent physicians in Europe and America is theroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Philadelphia alone.

The practice of Dr. Humter has long been, and still is literally unbounded, but at the carnest solicitation of numerous persons, he has been induced to extend of numerous persons, he has been induced to extend the sphere of his professional assigness to the com-munity at large, through the medium of his ! Medi-cal Manual and Hand-Book for the Afflicted." It is a volume that should be in the hand of every family in the land, whether used as a preventive of scoret vices, or as a gaide for the alleviation of one of the most awful and destructive scourges ever vis-

ited upon mankind for the sins of sensuality and impurity of every kind It is a volume that has received the unqualified re-commendation of the first physicians in the land, while many clergymen, fathers, mothers, philanthropists and humanitarians, have most freely ex-tended its circulation in all quarters where its pow-erful teachings would be likely to a instrumental in the moral purification and physical healing of multitudes of our people, among the young volatile and indiscreet, otherwise the pride and flower of the

The author argues particularly, most strongly against every species of self-defilement, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of physiological laws and sexual impurities and irregularities, whether exhibited by precocious development or arising from the vicious and corrupting examples of their school-mates or otherwise. To those who have been already ensnared to the "paths that take hold on hell," a clear and explicit way is shown by which they may secure a return of seund health, and a regeneration of the soil from its terri! le pollution. It is well known that thousands of victims are annually sacrificed at the shring of Quackery-especially those suffering from Venereal or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debility, and the numer us maladies which spring directly or less remotely from the indulgence of carnal passions and secret violations of Nature. In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Consumption-a large majority beng the victims of the voluptuous indiscretion of their rogenitors, agreeably to the Scriptural enunciation, that the sins of the parents are visited upon the children, even to the third and fourth generation. The Author, imbued with sentiments of enlarged philanthropy, will scarcely be censured for any effort to estrain the vices of the age, by the humble instru-menta ity of his Medical Manual.

One copy, securely enveloped, will be forwarded rec of postage to any part of the United States for 25 cents, or 6 cents for \$1. Address, post-paid, COSDEN & CO. Publishers, box 197, Philadelphia. Bookschers, Canvassers and Book Agents supplied on the most liberal terms. February 12, 1857—19

THE undersigned have just opened in Charles town in the store roon near the Bank, and opposite to the stores of Harris & Ridenour's, a choice and well selected assortment of DRUGS, CHEMICALS, PAINTS, OILS, DYE-STUFFS, &C., which have been most carefully selected, and all medicines will be compounded with the utmost care and attention. They desire, also, to keep in connection with their Drug Store, a GENERAL VARIETY, and FANCY STOCK, which will include every article that taste or the public necessity may require, if the want is suggested, and the profit will justify

Their means being limited, and the heaviest articles being obtained only for ca-h, they will expect all the loose change their friends can spare, yet in the language of advertisen ents since time immemo rial, they are always ready to sell "on a short time o punctual customers.' With the hope of receiving a share of public patronage, they pledge their best exertions and most persevering efforts, to render general satisfaction to

those who may be kind enough to give them their April 1, 1856. BELLER & COOKE. HALLTOWN ME subscriber has just received and is now open-ing the best stock of dry Goods and Groceries, that he has ever had the pleasure of offering to the people of this vicinity, and would respectfully invite them to an examination of the same, and he indulges a hope that the very lineral neouragement he has received the past year in his store, may be largely increased this fall, and but those who have hereto-fore manif-sted a wish for the welfare of the Halltown establishment, by putting their shoulders to

the wheel, may still find it to their interest to favor him with their custom, as he feels assured that every thing commonly kept in a well furnished country store, can be had here as good and as cheap, as any other store in the county. GEO. W. FOX. 15-I would take the present opportunity of informing the farming community, that I am putting up machinery at my Mill, for grinding plaster, and in a short time, will be able to supply them with that article on favorable terms. October 2, 1856.

Dr. C. M. JACKSON, Phila., Pa. LIVER COMPLAINT, DISPERSIA, J. LNDICALE Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach.

tion, Inward Piles,

DOCTOR HOUFLAND'S

Fulness or blood to the
Head, Acidity of the Stomach,
Nausea, Heartburn, Disgust for Food,
Fulness or weight in the Stomach, Sour Eructations, sinking or fluttering, at the Pit of the Stomach, swimming of the head, hyrried and difficult breathing, fluttering at the heart, chooking or sufforcations when in a laint sense fluttering at the heart, chooking or sufforcations when in a laint sense fluttering at the heart, chooking or sufforcations when in a laint sense fluttering at the heart, chooking or sufforcations when in a laint sense fluttering at the heart in the sum of the s cating sensations when in a lying posture, dimness of vision, dots of webs before the sight, fever and dull pain in the head, deficiency of perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Bark, Chest, Limbs, &c , Sudden Flushes of Heat, Burning in the Flesh Constant Imaginings an all +

Depression of Spirits. The proprietor in calling the attention of public to this preparation, does so with a feeling of the ut most confidence in its virtues and adaptation to the giseases for which it is recommended. It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac, published annually by the proprietor, and to be had gratis of any of his Agents, cannot but satisfy the most-skeptical that this remedy is really deserving the great celebrity it has obtained.

Principal Office and Manufactory, No. 96 Arch

of Evil and great

Street, Phila., Pa. Testimony from Virginia and Maryland. The Tenth Legion, published at Woodstock, Va. said:—"We have uniformly refrained from recommending to the public any of the various patent medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters, invented by Dr. Hoofland, and prepared by Dr. Jackson, in Philadelphia. One instance, in particular, in which the superior virtues of this medicine have been tested, has fallen under our observation. During the last Summer, a son of Mr. Abram Crabill, of this county, wa very seriously effected with Liver Complaint, and after trying in vain various remedies, he purchased a bot-tle of the bitters; and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is now restored entirely to

Dr. J. M. Wilson, said:
LEXINGTON, Va., Feb. 6, 1856—I am entirely out
of the German Bitters. They have become all the ge. Nothing else sells."
A. B. Sollers, said: Weston, Va., May 3, 1855—"I am pleased to inform you that I have used Hoofland's German Bitters, and have found them to be of incalculable ben-

efit to me." Fred White, says:
MECHANICSTOWN, Md., May 7, 1855-1 wish you to send me a fresh supply of German Bitters. It is the most popular renedy I ever kept, giving relie and performing cures in nearly every case." Chas Robison, said : Easton. Md., Jan. 9, 1850- My wife and myself

have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver Disease." Nathanial P. Luff, says: Frederica, Del., Aug. 2, 1953 - "I would inform you that I have used one bottle of your German Bitters for the Liver Complaint, and have found great relief therefrom. Please send me,a dozen of it, and some of the Tar Ointment." They are entirely vegetable, free from all injurious ingredients, always strengthening, and never pros trating the system. Solo by Druggists and Storekeepers in every town and village in the United States and Canadas. For sale by Beller & Cooke, and Hutchison & Burnett, Charlestown: Helvestine & Bro. Berryville: J. C. Clagett, Harpers-Ferry; Dr. E C. Williams, Shepherdstown; Wilson & Timberlake, Rippon; Hill & Myers, Kabletown; Fry & Beckwith, Smithfield; H N. Price, Martinspurg.

November 15, 1556-1y HOWARD ASSOCIATION

PHILADELPHIA. Important Announcement. To all persons afflicted with Sexual Discoses, such as SPERM . TORRHEA, SEMINAL WEAK NESS, IMPOTENCE, GONORRHŒA, GLEET' SYPHILS, the Vice of ONANISM, or SELF-ABUSE The HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual diseases, and the deceptions practiced upon the un-fortunate victims of such diseases by Quacks, have directed their Consulting Surgeon, as a Cheritable Act worthy of their name to give Medical advice Gratis, to all persons thus afflicted, who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of ex-

trome poverty and suffering, to FURNISH MEDICINES FREE OF CHARGE. The Howard Association is a benevolent Institution, established by special en lowment, for the re-lief of the sick and distressed, afflicted with "Viruent and Epi emic D s. ases." It has now a surplus of m ans, which the Directors have voted to expend in advertising the above notice. It is needless to add that the Association commands the highest Modical skill of the age, and will furnish the most approved Just published, by the Association, a Report on

modern treatment. Spermator hoes, or Seminal Weakness, the vice of manism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the Consulting Surgeon, which will be sent by mail, (in a sealed envelope,) FREE OF CHARGE, on the receipt of two staines for postage. Address, Dr. GEO. R. CALHOUN, Consulting Surgeon, Howard Association, No. 2 South NINTH Street, Philadelphia, Pa. By order of the Directors. GEO. FAIRCHILD, Sec'y. E. D. HEARTWELL,

HUTCHISON & BURNETT'S Compound Extract

Jamaica Ginger THIS Preparation possessing all the active prop-L erties of the JAMAICA GINGER in a concentrated form, in combination with other Vegetable Car-.ninatives and Anti-Dyspeptics, not only has the advantage over all Essences as a preventive, and cure for Dyspersia; but is more acceptable to the

Stomach in a debilitated condition, giving strength and tone to the digestive organs. As it possesses the properties of an Anodyne it is especially recommended in all nervous derange-Twenty-five or Thirty drops may be given three or four times a day in all ordinary affections. In cases of Cramps, Colic, Cholera-Infantum it may be repeated every fifteen minutes as the case Prepared solely by
August 2. HUTCHISON & BURNETT.

To the Pubic NEW ARRANGEMENTS.

THE GREAT PURIFIER OF THE BLOOD THE BEST ALTERNATIVE KNOWN

Not a Particle of Mercury in it!

An infallible remedy for Scrofula, King's Evil, Rheumatism, Obsidate Catanegus Eruptions, Pimples or Postules on the Face, Blothes, Boils,
Ague and Feyer, Chronic Sore Eyes,
Biogworm, or Tetter, Scald Lead,
Enlargement and pain, of the
Bones and Joints, Salt Rheum Stubbern Ulcers, Sylphiltic. Disorders, and all diseases arising from an injudi-cious use of Mercury, Imprudence in

This great remedy, which has become so rapidly and so justly celebrated for its extraordinary efficacy in relieving and curing many of the most obstinate and terrible forms of disease with which mankind is afflicted is now offered to the public, with the confident assurance that no Medical discovery the confident assurance that no Medical discovery ever made has been so eminently successful in cur-ing Scrofula, and all diseases of the blood, as Car ter's Spanish Mixture.

The roprietors are receiving by every mail most flattering and astonishing details of cures in all parts of the country, and in most cases where the skill of the best Physicians had been tried in vain. Its power over the blood is truly remark able, and all discourages are remarked to the seat Seat

all diseases arising from impurity of that great Seat of Life, have been relieved and cured without a sin gle failure out of the thousands who have used it .-Carter's Spanish Mixture contains no Mercury, Opium, Asenic, or any dangerous drugs, but is composed of Roots and Herbs, combined with other ingredients of known virtue, and may be given to the youngest infant or most debilitated invalid, without the least possible hesitation. We have only room for short extracts from the volumes of testimony in our possession, and all from gentlemen of the highest respectability, well known in their various localities. Please read for your-

We take great pleasure in calling the attention of our readers to the merits of Carter's Spanish Mixture as a remedy for diseases of the blood. It enjoys a reputation in this city unequalled by any other preparation.—Daily Dispatch, Richmond, Va. The Hon. John M. Botts, of Va., says he considers t a matter of duty to add his testimony to the virtues f Carter's Spanish Mixture, from actual personal

observation of its remarkable curative powers for the diseases in which it 's used. We have been cured of a violent and protracte Liver disease by Carter's Spanish Mixture. W know it to be all it.—Ed. Southside Democrat, Pe tersburg, Va.

We have found from personal trial, that Carter's Spanish Mixture is a truly valuable medicine. [Ed. Virgennes Independent, Vt. GEEAT CURE OF SCROFULA .- A pressman in our employ was cured of Scrofuls of a violent character by a few bottles of Carter's Spanish Mixture, after everything else had failed. Other cures which have come under our own observation, proves to us conclusively, that it is really a valuable me-dicinal agent We take great pleasure in calling the attention of the afflicted to its merits.

[Richmond Republican. SYPHILIS-I have seen a number of cures of Syphilis performed by Carter's Spanish Mixture. I believe it to be a perfect antidote for that horrible E. BURTON, Com. of Revenue for City of Richmond.

LIVER DISEASE-Samuel M. Drinker, of the firm of Drinker & Morris, Booksellers, Richmond, Va., was cured of Liver disease of several years standing by only three bottles of Carter's Spanish OLD SURES, ULCERS AND OBSTINATE E-RUPTIONS OF THE SKIN-See the cure of Mr. Harwood, and others, detailed in our Almanac .-

The number of such cases cured by Carter's Spanish

Mixture, precludes the possibility of inserting them

n an advertisement

EFFECTS OF MERCURY-See the cure of Mr. Elmore. He was caten up with Mercury, and could obtain no relie , funtil he took six bottles of Carter's Spanish Mixture, which perfectly restored him to NEURALGIA-Mr. F. Boyden, formerly of the Astor House, N. Y., but more recently proprietor of the Exchange Hotel, Richmond, was cured of Neualgia by Carter's Spanish Mixture. Since that ime, he says he has seen it cure more than a hundred cases of the disease in which it is used. He over fails to recommend it to the afflicted. RHEUMATISM-Mr. John F. Harrison, Druggist, Martinsburg, Va., writes of the singular cure of a violent case of Rheumatism. The parient could not walk. A few bottles entirely cured him. SUROFULA-Mr. Harrison also writes of a great ure of Scrofula, in the person of a young lady, (of hree years standing,) which all the doctors could Six bottles made a perfect cure of her. SYPHILIS-Dr. R T. Hendle, of Wastington, D. C., who cured an obstinate case of Syphilis by Carter's Spanish Mixture, says, "it acts specially

on the Blood, Liver and Skin, and is prompt and ef-Dr John Minge, formerly of the City Hotel, now of Alabama, says he has seen Carter's Spanish Mix ture administered in a number of cases with astonthe above statement correct. ishingly good effects. He recommends it as "the SALT RHEUM AND SCROFULA-Mr. Jos Robison, of Wooster, Ohio, was cured of Scrofula and

Salt Rheum of three years standing, by only three bottles of Carter's Spanish Mixture.

WM S. BEERS & CO., Prop're. 125 Main Street, Richmond, Va. Price \$1 per bottle, six bottles for \$5. For sale by -Beller & Cooke, and Hutchison & Burnett, Charlestown; Helvestine & Bro. INTERESTING NARRATIVE .. HAPPY RELIEF FROM SUFFERING. Miss Mary A. Schofield. BY THE AFFMOTED HEAR THE TESTING NY OF A LADY, -To those who have the oleasure of knowing her we need say nothing by the others we remark that a desire to benefit the out foring induces her than to speak. None can appear the foring induces her than to speak. None can appear ciate her joy and gratitude in being relieved from pain, after years of suffering almost unparalleled but those (if there be any) who have suffered like

TRUTH.

"Pale and wan she grew and weakly," Bearing all her pain so meekly,"

her, and the plant of our city-for the last two years has been successfully conducting a school at No. 630 Baltimore Street. The happy change in her health is a subject of astonishment and change in her nearth is right. We ask those inter-joy to her numerous friends. We ask those inter-ested to call on her. She will tell them more of her ested to call on her. She was test than hors of her cure by Hampton's Tincture than she has written.

Thus, it is, this remedy goes on giving relief to the sick. We refer the public to them. From more distant places we also her of the same happy results. distant places we also ne it of the same nappy result.
These facts, with the concurrent testin any of thou sands, should cause skepticism and prejudice to hid their heads, and concede that Hampton's Tincture in truth a wonderful discovery.

BALTIMORE, October 18th, 1855.
MESSES. MORTIMER & MOWRAY GENTS: I have

delayed entirely too long in writing to you in rela-tion to the virtues of Hampton's Tincture, I fear even now, that I cannot give the afflicted world a just idea of the good I have derived from its use; the benefits have been so great that I feel inadequate to the task. I was attacked with the chronic rheuma the task. I was attacked with the enronic ruetura tism, in its most malignant form, at the early age of two and a half years, and continued to be so afflicted until I crossed the Atlantic Ocean, on my way to America, at which time it changed its form into a gathering. I had at this time acquired my growth. and never expected to be well again, as the disease came, in the first place, of my being succinated from a child who lad the white swelling. When my gath ering first broke it did not discharge less than one quart, and so continued to trouble me every time I took cold or was in the least fatigued; my bodily strength was reduced to the weakness of inlancy; was several times very near the grave; my hip join had been out of place ever since I had the first attack. At the age of thirteen my hands became dislocated. These sufferings, and the general debility I feld from the constant discharge of my gatherings, caused moften to think that I should never be permitted to know how it felt to be free from pain and suffering even for one hour, until my poor body should be changed and become like unto "Christ's glorious

body." at least, until this mortal have put on im I had taken so many medicines, and received an ittle benefit, that I had confidence in none. I ad used of nearly all the celebrated liniments, and other external remedies I had heard of. I had been placed

by my friends undersome of the best Physicians of England, and all the relief I ever obtained was but of transitory duration. When I first heard of Hampton's Tinctur: 1 had not the slightest confidence in its efficacy, but I had a friend who had known Mr. Jarrett Plummer, when his sufferings were at the worst, and had witnessed the cure wrought upon him. To please her, I con-sented to try the Tincture, and I had not taken one bottle before I began to fee! its beneficial effects—nystrength returned—my appetite became good my complexion was clear—I feel like another person.—Through the influence of this friend, you became acquainted with my case, and requested to see me. you told me my case was such a peculiar one that you would like to see the effects of the Tincture fully developed in it, and if desired to take it, you would present it to me, if it was for the space of five years but only eighteen months have elapsed, and Thore last every symptom of my disease; I have become strong and hearty-I can stand as much and more fatigue than mest of my lady acquaintances. I have a healthful complexion, and all my friends say I am getting quite fleshy, one thing is certain, my lame limb is quite as large again as it was before, and

can trip all about home without a crutch.

I often wish my parents had known of this remedy when I was a child, as I believe I should have been saved the excruciating pain I have been subjected to, as we las the deformity of body I must carry to the grave, and my parents would not have been under such heavy expenses from doctor's hills. and in sending me, as they did, to the celebrated springs in England in search of health. 1, wish all the afflicted world could see me, and hear the benefits I have derived from this Tincture of Hampton's I try to make all acquainted with its virtues with whom I come in contact. Gentlemen, I am a thousand times obliged to you.

I remain, yours in gra.itude,
Many A. Scorizio. No. 630 W. Baltimore street. To Messrs. Mortimer & Mowbray, 220 Baltimore st. AN APPEAL TO COMMON SENSE. Let the Sick Hear the Truth. CAPTAIN BENJAMIN-Wherever known his ter-

and you are at liberty to use my name and case to

timony will be conclusive. But lest those who do not know the Captain should be skeptical, Dr. Pawson & Bro., with others of the best known and most highly respectable citizens of Easton, endorse-Wonderful courtesy.
HAMPTON'S VEGETABLE TINCTURE. Messrs. Mortimer & Mowbray-Gents: - I feel it ny duty to you and the public to certify to the effects of HAMPTON'S VEGETABLE TINCTURE. I was feet more than five years laboring under a disease Chronic Rheumatism and the great part of that to I was so helpless that I had to be helped from n ; beand dressed in myclothes. I became reduced to a merskeleten. All the medicines I took done me ne greet. and I continued to grow worse. I beard of HAMP

Rheumatism, but in a short time I was well of tha lisease. From the effects of your Tineture and the help of God I am now getting in good health. I wish all the afficted to try Hampton's Vegetable Tincture, as I have done, with the same effect that Your Obd't. Serv't. ISAAC PENJAMIN. We are acquainted with Isaac Penjamin: sold him some of Hampton's Vegetable Tincture, and believ

ox's Tixcruse and thought I would give it a trial

At this time I did not expect to live one day after

another. I did not take it (the Tincture) for the
