#### PIANO.

THESE Instruments having been before the public for the past thirty years, have upon their excellence alone, attained an UNPURCHASED PRE-EMI-NENCE that pronounces them unequalled Their TONE

combines great power, richness, sweetness, and singing quality, as well as great purity of intonation and harmoniousness throughout the entire scale. Their TOUCH

is pliant and elastic, and is entirely free from the stiffness found in so many pianos, which causes the performer to so easily tire. In WORKMANSHIP

hey cannot be excelled. Their action is constructed with a care and attention to every part therein that characterizes the finest mechanism. None but the best seasoned material is used in their manu-facture, and they will accept the hard usage of the concert-room with that of the parlor, upon an equal-ity—unaffected in their melody; in fact they are "NOT FOR A YEAR-BUT FOREVER." Gerrit Smith and the Doctrine of Treason.

Gerrit Smith has issued a circular to which he takes issue with Chief Justice Chase, of the Supreme Court, upon questions of constitutional law. He denies that the late war was prosecuted under authority of the Conthe contrary, that it was carried on by Congress in accordance with the laws of war, and that the vanquished party is not in any sense legally chargeable with treason. Mr. Smith regards the selection of leaders for punishment under the charge of treason as "better suited to feudal times than to our own, and to a despot-ruled country than to our own."-He says, while pleading for a more lhuient treatment of the South as the surest road to

of the Chief Justice would cover and justify by the labor of his hands in summer, and by the heart rendering and heaven-appalling | teaching school in winter.

The authority of the circular bases his argument not only on the plea of justice, but he fears that a persistence in the rigorous policy marked out by Chief Justice Chase will entail the dissolution of the Republican party. He says:

sadly low. It is, nevertheless, not so low as to leave it possible for a party to prosper, policy of cruelty."

He gives a very satisfactory answer to a question of the Chief Justice in the follow-

ing words: "The Chief Justice: "On what sound principle then can we say judicially that the levying of war ceases to be treason when the war becomes formidable?" I answer that when, in any instance, it becomes so formidable as to induce Congress to take it out of the jurisdictian of his court and to bring it under the law of war, he is then bound to say judicially' that this is an instance of levying war which is not treason, and with which his court has therefore nothing to do."

We can give only one more extract : "One reason why we should not call men traitors who are not legally and justly chargeable with treason, is that the traitor is looked upon as seeking personal and selfish ends, and as therefore worthy of our deep abhorrence.-Stonewall Jackson, killing men to serve personal ends, and active in a rebellious movement condemned of the people, would have been an abhorred and detested man. Gen. Lee's Report on School Discipline.

The Committee appointed by the Educational Association of Virginia, on "School Discipline," beg leave to report that, in their opinion, it is impracticable to establish fixed rules for the Government of Schools. Public sentiment is so divided on the subject, and the methods of family training are so various, that no uniform system can be well adapted to meet the general requirement. If the subject of Education could ever be of more importance at one period of our hissent; and that it may be advanced to the

It is, therefore, considered more advantageous to recommend for attention some general principles, and leave their application to the judgment and discretion of teachers.

The selection of proper persons for the office of teacher is a matter of the first importance, and as its duties require long and comprehensive preparation it should be regarded as among the most honorable and important professions, and be committed to those whose beneficial influence and instruction shall embrace morals and religion, as we'll as the intellect. The teacher should be the example of the pupil. He should aim at the highest attainable proficiency, and not at a pleasing mediocrity. Unless he can teach those com mitted to his care to think, and to work, and can impart to them vigor with learning, there can be no real advance. He must study the character and disposition of his pupils, and adopt his course of discipline to their peculiunder his charge that he he has their true interest at heart. He should look upon them not only as the parents of a new generation, but also as heirs of immortality, and while preparing them for usefulness in this life, instil into their impressible minds principles of piety and religion; for if it be true as taught by history that greatness depends upon virtue, it is equally true that religion is the support

of virtue. Should the daily business of the school be conducted on such principles, and the pupils be trained in habits of obedience, reverence and truthfulness, and be convinced that they are noble and lovely in themselves, and their practice manly and honorable, the main object

of Education will have been attained. In addition to these moral influences, teacher should be clothed with all the authori-

Wonderful Curiosity,

The Connecting Link Found-The Vegetable and Animal World United-A Marvelous Insect that turns into a Plant, and a Plant that Bears Insects, etc.

> COLUMBIA, Tyrrell Co., N. C., ) June 21, 1867.

To the Editor of the News. SIR :- A specimen of a natural production was shown to us a few evenings since that is neither fish nor flesh, beast nor fowl, animal, vegetable nor mineral. The "thing," for it is without a name, is both entomological and vegetable. When its entemological nature ceases, its vegetable nature commences; and when its vegetable character has arrived at maturity, its entomological character develops itself, and its vegetable existence disappears. In other words, it is alternately a lant and an insect. As an insect, it is pernaps about one inch in length, and threefourths of an inch in circumference. It is of a brownish color, shaped like a wasp, destitute of wings, head similar to a beetle, with two antennæ or horns; has near its head on either side a short leg, shaped like those of the mote, with broad, serrated extremeties, and intended doubtless, like those of the mote, to assist the insect in penetrating the earth. It has also two posterior legs, the purpose of which shall be seen. When the insect has attained its growth it disappears beneath the surface of the earth and dies .-Immediately after its death, the two posterior legs just spoken of begin to spreut or vege-

tate. These two shoots-soon appear above the earth, and the insect plant soon attains the height of about six inches. The extremities of the branches bear a bud, which contains in embryo neither leaves nor flowers, but an insect. As the insect develops and grows, it either falls to the ground or returns upon its mother plant, feeding en its leaves until the plant is exhausted, when the insect returns to earth again, and again the plant

shoots forth. The true nature of this insect plant vegetable insect-we know not what to call lished in the Charleston Courier of the 7th it-is entirely inexplicable to us. It may be surmised that an insect has here associated itself with the seed of a plant in such a manterday at a private view of this wonderful in. | ner that they reproduce and nurture each other; or it may be supposed that nature has invested this specimen of existence with attributes the nearest possibly assimilated to those of both the vegetable and animal kingdoms, yet belonging not exactly to either, nor entirely to both. It may seem to be the hinging point at which the animal kingdom merges into the vegetable, and the vegetable into the animal kingdom. It is certainly a wonderful curiosity, and we believe that it is not only entirely unknown to naturalists, but has never before been publicly described.

How SHE CURED HIM. -A little man in the west of Maryland rushed to the Potomac river last summer, swearing that he would drown himself. When he had waded in to the depth of his waist, his wife, who had followed him, seized him by the hair of his head, and then as a spectator describes it, "she led him back to a place where the water was about two feet deep, where she pulled him over backwards, sousing his head under, and then pulling his head up again. Drown. yourself, (down he went,) leaving me to take care of the children! (another plunge) get drunk! (another souse) and start for the river! (another dip.) ### OUR BIG SHOW.

In consequence of necessary absence from home the last week, our "big show" is omitted in this issue. On the same account we also omit our notice as to the "red mark," as, we shall require none to pay the next week from compulsion, but hope many will voluntarily come forth and "fork over," to cheer us in the unpleasant but necessary duty of exposing the "animals" to the execration of

#### THE COMING STRUGGLE

The indications are unmistakable that we are on the eve of a contest whose shock will startle even those who felt the throes of the bloody revolution through which we have just passed. The forces on either side have for long years been marshaling themselves under defiant banners, and now, ripe for the battie, they are about to take the field. This collision, even before the late civil war, was portended, and with the precision of prophecy it was pointed out by some as the great calamity that would befal the institutions of government in America. We distinctly remember the alarming warning contained in a friendly letter of the great historian Ma-CAULEY, who freely gave his views of the dangers which he believed surrounded the then happy republic of the United States .-Looking at the tendency of the people, as manifested in their history from the foundation of their government, to submit to the arbitrament of majorities, all questions arising in the administration of their affairs, he predicted that the ultimate result of this policy would be to cast into the arena of politics the rights of property, and place them at the mercies of the popular suffrage. The conduct of the faction that now rules the nation has been to precipitate the strife which must thus be inevitably engendered between wealth and numbers-capital and labor. In the recklessness of their mad career, and in that pursuit of plunder which has characterized their course, they have ignored the laws of he means by "protection to all" is the supjustice and planted themselves on the ban- port of an army of leeches in the South in dit's maxim-

" Let him take who has the power,

The schemes of confiscation which now threaten the property of more than one-third of the people of the country are in consonance with the determined purpose expressed by Wade and other magnates of the anarchists who rule us, to equalize the rights of labor and capital. The principle which will lie at the foundation of the partition of the lands of the South will be, that as they were acquired by the toil of the slave, and were made the source of wealth in which he did not equitably participate, he shall now under the dispensation of the " man and brother " era, have not only indemnity for the past but ample security for the future. He is to be put in possession of the property of his former master, not as an avenger of treason, but because he was the chief instrument of its acquisition, and is therefore, entitled to enjoy it. But the principle here applied is equally applicable elsewhere. Under a system of labor more oppressive and less remunerative than that which distinguished African slavery in the South, colossal fortunes have been amassed by the capitalists of the North, to which, by a parity of reasoning equally as forcible, the factory operative is entitled in the same proportion as that which is about to be awarded to his luckier fellow-sufferer of

The organizations of workmen throughout the country demanding higher rates of compensation and exemption from exactions oppressively imposed upon them, together with the restiveness of labor under the heavy levies of taxation upon its hard-earned fruits, are but the premonitions of the approaching storm. We repeat this contest is impending and it must come. What are to be the results, it is not for us to say. But that general disruption and anarchy are to be the first consequences we think all must believe to be inevitable. In such a condition of things the first impulse would be to seek personal safety, and that would be found only where the power of protection exists. Where that ability would reside it is easy to foresee. It must be in those military organizations to which colliding interests, without a common arbiter for their, settlement, must in the nature of things give rise. That organization will be the much-dreaded and fiercest of all governmental devices-a military despotism. And if the American Republic, like that of Carthage, finally falls under "the rule of him who wears the sharpest sword," its own folly will be justly chargeable with the causes that naturally lead to such a lamentable result.

### A CORRECTION.

In our "big show" article of last week, in referring to W.m. Johnson, the most notorious and vindictive radical in this township, we stated that he was connected with a tinning establishment in this town, from which he drew his support. The establishment to which reference was had, was that of J. H. Easterday, with which the whole community believed that Johnson had a silent connection. We have been authorized by Mr. Easterday to state, however, that Johnson is no partner of his, and that he is in no way connected with his establishment.

The advertisement of Mr. Jacob B. Brown, announcing the receipt of a new stock of goods, is necessarily omitted this week, as our transient advertisers bave favored us to an extent that we did not anticipate, and are scarcely able to fill, at the late hour at which they come to hand.

PROPOSALS are being advertised for, to rebuild the bridge over the Potomac at Shepberdstown, destroyed during the war.

PROFESSION AND PRACTICE.

Lately, in the Democratic State Convention of Iowa, held in Des Moines, the following resolution was adopted:

Resolved, That the maintenance inviolate of the rights of the States, and especially the rights of each State to order and control its own domestic institutions according to its judgment exclusively, is essential to that balance of power on which the perfection and endurance of our political fabric stands.

This resolution contains the very essence of the doctrine of States rights, and John C. Calhoun himself never claimed anything more. If the principles which it enunciates had been adhered to, and carried out in the administration of the government, we might to day have had a prosperous and happy country, instead of a chaotic mass, tending to anarchy and disorder. By the radical press of the country the Iowa Convention has been denounced for the passage of this resolution. and its members proclaimed "copper-heads," 'rebel sympathizers," &c. Now this is a rich joke, which some waggish fellow of the Iowa Convention evidently designed to perpetrate upon the radical party and press of the country, for a reference to the platform of 1860, adopted by the republican convention which nominated Abraham Lincoln, will show that this resolution was then and there assed, word for word, and sent forth to the country as an expression of the sentiment of

the republican party. This shows how unfamiliar the radicals are with their past professions, and how inattentively they have read the record of their own party. Only seven years ago its National Convention adopted a States rights resolution; now its representatives in the National Legislature favor the abolition of State lines, and enact laws for the abrogation of State governments. Truly, the age is progressive.

#### PROTECTION TO LOYALTY.

The following pungent criticism from the Columbus (Ohio) Crisis, protrays in vivid colors the true understanding of what "protection to loyalty" consists in :- Pop-in-Jay Colfax, Speaker of the Jacobin Rump, in a serenade speech eulogistic of the miserable faction over which he presides, uttered this impudent lie-"The key-note of the Congressional policy is protectian to all, and the vindication and triumph of loyalty." What their execrable and daring oppression and outrage of a helpless people. He means the disfranchisement of the whites, the confiscation of their property, and the incitement of the blacks to revolt and massacre. This is what Colfax means by protection to all. He plots the subjugation and butchery of the whites, and the success of a St. Domingo insurrection under the pretentious lie "protection to all." What he means by the triumph and vindication of loyalty, is more easily understood. Loyalty in his mouth means perjnry by Congressmen in disregarding their oaths to maintain and obey the Constitution, robbery by the pimps of Congres in capturing spoons, stealing cotton and confiscating plantations. Lovalty in his vocabulary means the plundering of the treasury, the establishment of an aristocraty upon the labor of the people, the confiscation of the public lands for the benefit of the lobby, the oppression of the Southern people for purposes of profit, and the overthrow of republican government, to make way for a military despotism or the absolutism of a faction of usurpers. This sort of loyalty finds its "triumph" in the hanging of an old woman, the admiration of Thad. Stevens, and in the recent reconstruction legislation of the Rump Congress, which is meaner and more despotic than the tyranny of the Czar of Russiau over the Poles. The "vindication" of this loyalty will never be effected until some of its advocates have appeased justice and "vindicated" decency by being publicly tried and condemned for the notorious crimes they have committed.

### BOTTS ON THE TURF AGAIN.

This political charlatan, who has been an ncubus on his State for the last twenty years -a dishonor to his name and disgrace to all parties-is out in another of his most remarkable productions, addressed to the negroes of Culpeper, who call upon him to know whether it will be congenial to his taste and in accordance with his sentiments, to become their candidate for the proposed Convention in Virginia. The Richmond Enquirer says, that he cooes like a turtle dove, in order to win the votes of the colored race, although he latey opposed allowing them suffrage at all .-When he comes to treat of his own race, he betrays a corresponding ferocity,-declaring, among other things, that "secession is not a blunder but simply. a crime to be punished." He declares himself for "a liberal and enlarged system of education for all, at the public expense:" opposed to the introduction of foreign white laborers into the State, though in favor of encouraging "Northern Republicans to settle among us" as property holders; and for perpetual proscription of all who spoke, wrote or preached in favor of the South. He praises the negroes for having united themselves in a distinct association, and yet, with his usual consistency and delicate truthfulness, charges the white with fo-

IMPORTANT SALE .- It is a matter of special congratulation to the people of Harper's Ferry, and of general concern to the county, the sale effected last week of the extensive property heretofore owned by Mr. A. H. HERR, on the Island of Virginius. The sale embraces the whole Island properties, with all its valuable water rights and privileges. The from A. Hunter, Esq., who prepared the papers, that the payments are to be as follows: \$5,000 payable in July 1870; the residue in equal annual payments of \$10,000 each, until-the whole is paid. The whole bearing interest from day of sale; the interest, except as to the first year, is to be payable semi-annually. The purchasers were Messrs. Jonathan C. Child and John A. Creight, of Ohio, who are represented as gentlemen of extensive means and great public enterprise. Mr. Wm. H. Cochraine, a gentleman of high reputation in the department of engineering and mechanics, has an interest in the purchase, and will superintend the general direction of its contemplated improvements. The first which is designed, as we learn, is to convert the extensive brick building heretofore used as a cotton factory into a Merchant Mill, the capacity of which for the manufacture of flour will be put to the utmost extent that the improvement of machinery can suggest. Other important manufacturing and mechanical establishmets are contemplated just so soon as practicable. We hope its valuable water power, (said to be scarcely second to Lowell.) may be developed in its utmost degree, and

LAND SALE .- On Friday last, Messrs. FAULKNER and WHITE, as special commissioners, sold in front of the Court House, at auction, the desirable farm of the late R. M. English, near Halltown. It contained 155 acres, fair improvements, and the purchaser was H. R. Riddle, of Baltimore, formerly of this town, at \$91 per acre.

THE ONE HALF of 136 acres of an undivided tract of land on Bullskin, in this county, formerly the property of Wm. McPherson, dec'd., was sold at auction on Saturday, by Messrs. Faulkner & Fouke, as special commissioners, for \$75.50 per acre. Messrs. Stouffer & Brennaman purchasers, who already own the other interest.

LADIES FAIR .- We have heretofore noticed the fact that the Ladies connected with the Presbyterian Church of this town, de signed to hold a fair for the improvement of their church, so soon after the harvest season as circumstances would permit. We learn that the particular time has been fixed upon, and its commencement will be on the 14th of August, at the spacious parlors of the "Sappington Hotel." Our neighbor very pertinently says, "the object contemplated in this effort of the Ladies-namely, the painting, &c., of the Church-is a laudable one, and as the recreation of an evening may be pleasantly as well as profitably spent, we doubt not the whole affair will prove a success, and would suggest to our readers in the town and county who are interested, that their co-operation and patronage will be gladly received."

King Among Bres .- As good or bad Providence has made our friend Mr. Samuel H. Wooddy, of this town, chief among men as he claims to be, of a particular physique, so he aspires as "some" among bees. His apiaries were mostly stolen and destroyed during the war, but since that time he has put himself to work and has now in healthy condition seventy five stands, and from all indications, experienced judges in such matters, estimate the yield at fifty pounds per hive .-Even at 20 cts. per pound this would nett the neat little sum of \$750. This is doing pretty well, as all must admit, and an example worthy of imitation by those having more favorable localities for the propagation of this useful insect, and greatly more leisure to give attention which is requisite to success. Mr. W. expected to have received yesterday, a "king-bee" from Butler county, Ohio, of a rare species, and for which he had paid \$15.

FERTILIZERS .- Our lands are rich but not inexhaustible-our farmers industrious and energetic, but not independent enough to disregard the laws of production and adaptation of chemical science. These advantages we have reason to believe have been secured in the Soluble Pacific Guano, furnished by Messrs. JOHN S. REESE & Co., No. 71, South Street, Baltimore, and for whom the firm of RANSON & DUKE, of the Agricultural Depot in this town, are the agents. Of the particular fertilizer advertised through our columns 193 73 by Messrs. Reese & Co., Ranson & Duke furnished many of the most practical farmers of the county hundreds of dollars worth for the \$15,909 89 last wheat crop, on most reasonable terms, and its remunerating results are evidenced by the following certificates which are herewith appended, as well as others innumerable thats 98 32 are to follow :-

JEFFERSON COUNTY, July 15th, 1867. The undersigned, farmers of Jefferson county, Va., having purchased Soluble Pacific from Messrs. Rauson & Duke, last season, most cheerfully add their testimony in its favor. Basing their opinion upon experience and observation, they believe that it has peen productive of from one-third to one half more wheat, than would have been produced without its application. July 24th, 1867. We used the Pacific Guano as prepared by Messrs. Reese, mixing bone dust and plaster to make it fall through the tubes of the drill and saving seventy-five or eighty pounds to the acre. The result has been most satisfactory; improving the quality as well as quantry of grain; perhaps fifty per cent., judging from the handling of the sheaves. The crop has not yet been threshed.

LEAVELL & MORELAND. The result of this fertilizer on our corn crop we have no opportunity as yet of judging, but from its prolific growth and promise of abundant yield. As to the gardens of the town many can already attest, from the mammoth vegetables that are daily to be found on the table. Our main dependence, the wheat crop, will soon again be in readiness for the sower, "if he expects to reap," and if many are not wise beyond their day, or penny wise and pound foolish, they will govern themselves by the experience of others and the teachings of common sense.

As a scholar, the principal of this institution ranks deservedly high. and he is assisted by Lt. CLEON MOORE, no less endeared to the community by his gentlemanly deportment and manly virtues, than for scholastic attainments in the post assigned. The school is permanently established-its standard of excellence similar to any in the State-locality healthy and board and tuition moderate, and why should it not be patronized by all at home and attract many from

> COME TO LIFE .- So far as the memory of man runneth to the contrary, a ragged look ing adventurer peregrinated our streets, designated as "Hard Times," and is said to have worked his way hither from the inhospitable clime of Santa Fe. He disappeared from view and was no longer the sport of the boys or the scare-crow to our dogs, but at length appeared again on Thursday last groomed and caparisoned, in front of the Daguerrean rooms of Mr. L. The artist, under the circumstances, was quite successful, and master, groom and donkey may yet long be perpetuated in the recollections and reminiscenses of our people.

#### [From our Special Correspondent.] Harper's Ferry.

Spiri: of Jefferson :

I understand there is a corner in you paper at the disposal of the Ferry. Thank you-I own up. We are anxious, as others, to see ourselves in print, especially in print that is so much read as yours. We are at present engaged in organizing our township, under the general township law. Hereafter, therefore, you will please to remember that we are a "body corporate." Even our dogs, whose name is legion, if worth nothing to any one else, will be worth fifty cents and a dollar —just as they happen to be ladies or gentle-men—to the township treasury. But are we to have a market house? That is now the question. Every one has taken his side in he discussion, which seems to me, to have been narrowed down to this: Is an extra snooze in the morning, worth the extra price you have to pay for butter, &c., in the stores or shall we get up early and buy it in a market-house? A nice question, I tell you.

The Catholic Sunday School had a pic nic at the Flowing Spring, on Tuesday. But, it was so largely attended from all ends of the county, that to say that it was a complete. success, and gave universal satisfaction to over a thousand mirth-loving people, would be a thrice told tale, by the time you go to press. The Rev. Mr. KANE, acted as policeman on the occasion, but he observes, that never in so large a crowd, was there so little occasion

for an officer of the law. There have been so many reports that Mr Herr had sold his Island property, here, to capitalists, who were in less than no time, to revolutionize the Ferry in the direction of prosperity and success, that I am afraid to venture on anything of that sort. And yet, I believe that at last the sale is an accomplished fact-or next thing to it. It is exceedingly warm-Tuesday and Wednesday; too warm to write. I therefore conclude with a question for young French ladies to puzzle out. What is the name of your correspondent? Its initials are, and

### LAST DAY'S OF THE RUMP.

Its Closing Scenes!

RECEPTION OF THE VETO MESSAGE.-The Vashington correspondent of the Baltimore Sun says:

"When the veto message was announced in the House on Friday, the galleries were well filled with spectators, and the members of the House were generally in their seats, such was the anxiety to hear what the President uvged as objections to the bill. It was listened to with undivided attention by all parties. No marked demonstrations were made, though here and there the democratic members gave each other signs of approval.

Notwithstanding the general quiet, it became evident by what transpired afterwards. that the message had acted upon a portion of the members something akin to the effect of a red rag upon the bovine genus. The impeachers fairly foamed with rage, and there was more of fury in their manner than can be extracted from their matter. Their special complaint was that the President had dared to say that he can "never willingly surrender the trust reposed in the Executive to see that the laws are faithfully executed." This the impeachers interpreted as meaning that Mr. Johnson will not execute the reconstruction

The discussion lasted an hour, and provoked a severe retort from Mr. Wilson, chairman of the judiciary committee, who deprecated this "hounding of members," as he characterized the behavior of the impeachers, for refusing to coincide with them in their chemes. The excitement during this debate was equal to the highest tension of any of the exciting scenes of the last session of Congress, and the speeches and manœuvers disclosed a very well-defined division of sentiment among the republican members on the subject of impeachment, the impeachers being decidely in the minority."

The Reconstruction bill, however, was passsed, over the President's Veto, by a vote in the Senate of 30 to 6-absent or not voting 17; and in the House of Representatives by a vote of 100 to 22. Mr- Reverdy Johnson,

in the Senate, voted to sustain the Veto. On Saturday, 20th inst., and the day of disbanding of the motley conclave, the Senate was taken up by a long and acrimonious personal discussion between Senators Fessenden and Chandler, originating from certain remarks made by the latter Senator referring to Mr. Fessenden of Maine, who in April last han so much confidence in the President as to believe that he would call Congress together if necessary. Mr. Sumner offered a resolution providing that when the Senate is sitting to try impeachment cases a judicial oath shall be taken by each member in addition to the oath already taken as Senator, and that before this oath shall be taken members shall be allowed to express their opinions openly in relation to said cases. It was laid on the table. The President, among other nominations, sent into the Senate those of Horace Greeley as Minister to Austria: John A. McClernard as Minister of Mexico; C. O. Loomis as Minister to Hayti, and Horace Capron as Commissioner of Agriculture, all of sequently, went over until next session. At 4:20 P. M. the Senate went into executive session, and at 4:30 adjourned until the 21st

of next November.

to send for persons and papers in the investigation referred to it, as to whether Kentucky and Delaware have governments republican in form : also to appoint sub-committees, with power to administer oaths. A resolution was passed directing the arrest of L. C. Baker for contempt of the House in refusing to appear before the Judiciary Committee to testify in reference to certain allegation, against the President. A resolution was adopted instruct ing the Judiciary Committee to report at once to the House all the testimony taken in relation to the impeachment of the President .-This, however, does not discharge the committee from the further consideration of that was instructed to enquire into the expediency of providing for the location of all the Indian tribes of the United States on a tract of land sufficient for their necessities, under the sua view to the education of such tribes and the protection of all their rights. A bill finally assed both branches of Congress in effect giving the colored people of the District of Columbia the right to hold office, sit as jurars, and in short, putting them upon a perfect equality in all respects with the white citizens. Mr. Eldridge stated that the chairman of the Judiciary Committee was ready to report, but before the report was received the hour of 4:30 P. M. arrived, and the House adjourned until the 21st day of November next.

SPEAKERS COLFAX'S SPEECH .- Mr. Thaddeus Stevens was serenaded by the Radicals in Washington, on Saturday night, He did not speak, but Gen. Farnsworth, Mr. McPhetson, Clerk of the House, and Mr. Speaker On learning the news at the colored church, | Colfax did. We copy an extract from Mr. Colfax's speech, to show what the Radicals think, and what they intend:

"In 1856, when President Johnson turned his back on the party which elected him, traversed the country making speeches, to be read by millions, denouncing us-with his whole Cabinet against us, with but one honmatricide occurred day befire yesterday at orable exception; [applause, and cries of "Stanton!"1 with the whole power and patronage of the Government thrown in the scale of our enemies, we appealed again to the ballot-box, winning the most magnificent victory ever known in our political history. [Applause.] But this will be eclipsed by the into the street, and, picking up a stone, threw | coming victory in 1868, when we shall place it into the group. The fatal missile struck in the offices of the Government those who will be faithful to liberty, justice and loyalty. We ask no more, and will except no less .-And this victory will be swelled by the votes of the reconstructed South.

When they return, as they will, in accordance with the terms prescribed in our legislation, they will return with magnificent majorities for the right. [Applause.] They will come back, led as they must be, by those rant, but the prominent men, who knew prosperity and progress, and we will join with better. them in so legislating that hearafter, in this noble land, there shall be no man so poor, so humble, or so obsure that he cannot look up to the American flag as his unfailing protection, and with the ballot, which shall vindicate his rights, in his own right hand. [Applause.] And all the loyal people shall say amen and amen. [Loud applause.]"

BIRTH.—Among the birth notices in the London Times of the 10th, occurs the folfowing: "On the 6th inst., at No 1, Northwick terrace, Maida-hill, the wife of Thomas Lane Carter, esq., of Virginia, of a daughter." ### VALLEY ITEMS.

— While four men were engaged in shocking wheat near Short hill, at the head of Buffalo river, in Rockbridge county, on the 13th inst., a storm came up suddenly, during which they were all struck by lightning.— One of the men, named Sorrel, was killed istantly, and every bone in him seemed to e crushed. Another of the men, named Wilson, was so badly injured that he is not expected to recover. The other two were severely shocked, one of them having his shoes torn entirely off, but both fortunately escaping without much hurt.

- The Rockingham Register is informed by Dr. S. A. Coffman, one of the directors, that there is no doubt of the speedy com-pletion of the Manassas Gap railroad to Harrisonburg. The iron has been procured, and money sufficient for the purpose is at the command of the directory. About \$150,000 of the mortgage bonds, represented by Messrs. Branch, of Petersburg, and Johe R. - New flour and grain are being crowded into Staunton at a rapid rate. The limited facilities of the Central Railroad for transportation compels a great deal of it to lie over before transhipment to Richmond. There were one day last week at least one hundred barrels of flour awaiting transportation. The wheat and flour market at that point is conequently fluctuating and sometimes depressed. Last Saturday wheat fell 25 cents in the bushel, and flour about 50 cents in the barrel.

- H. C. Chapman, of Franklin co., Va., in a card to the public, published in the Roanoke Times, advertises "the man calling himself F. E. G. Lindsey, Abingdon, Va., who has been advertising Egyptian Corn for sale throughout this State, as an unmitigated scoundrel and swindler." Mr. C. says "he is a mean, low, contemptible wretch, and makes it a business to swindle every body he can, and should have been in the penitentiary ten years ago."

-S. R. Sterling, esq., has furnished the Rockingham Register with the amount of internal revenue receipts for his district for the year ending 30th of June last, which makes a total of \$157,215, 68. This large amount of internal revenue tax, says that paper, has been collected for the support of the Federal government off the people of a district who have no representation in Congress.

A Young Lady returning to her country home, after a sojourn of a few months in the city, was hardly recognized by her friends. In place of a coarse, rustic flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal amperance an hundred fold. It is simple in its able acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. Charlestown, July 29th, 1867. Dear Sirs .- I have used the "John's Preservative Dear Sirs.—I have used the "John's Preservative Paint," upon the tin roof of my rebuilt dwelling house, which had commenced rasting, and am satisfied that it is the best and cheapest preparation ever introduced into this part of the country, and entirely efficacious for the purposes intended. I have also used it on several agricultural implements, and on the railing of a Cemetery enclosure, and am equally well satisfied that nothing better can be found for preserving the wood, and in the latter case, giving a beautiful imitation of iron railing.

Yours respectfully.

MESSRS, RANSON & DUKE: Messas. Ranson & Duke:

Gentlemen.—I used less than 2 gallons of "John's Preservative Paint" on a tin roof 23x35 feet, which leaked in twenty places. The single coat of 2 gallons stopped every leak. The Paint has great body—drying in a few hours, and forming a hard surface like enamel. It has been exposed several weeks to sun and rain, and I can see no change in it. I consider it a very cheap and a very excellent Paint.

NO HUMBUG.

Messrs. D. Humphreys & Co. Messrs. D. Humphreys & Co.

GENTS:—Having
tried several different kinds of Washing Macnines
and none of their giving me satisfaction, and hearing of your "King of the West," or "American
Champion," I borrowed one of them from a neighbor. I got the use of it for three weeks. The first
week I followed the printed directions. The next
week I used water not so hot, and found the machine did much better. I now think that my family
understand the machine completely, and we would
not take double its cost for it, provided we could
not get another of the same kind. I am tarming,
and have seen some of the worst soiled clothes that and have seen some of the worst soiled clothes that I ever saw in my life washed perfectly clean. I advise my friends to buy the machine by all means. Very respectfully, May 28, 1867. GEO. W. TABB.

GOOD INVESTMENT!

THE very extended use of this guano throughout the country renders it unnecessary for us to say more this season, than that its composition and quality are precisely the same as that heretofore sold by us for the Company.

We have sold this Guano from the beginning under a regular system of rigid inspection, at an expense to the Company of many hundreds of dollars annually. This is done for the protection alike of the consumer and the Company, as it is manifest to all who understand the trade in fertilizers, that it can not be safely conducted on any other principle.

The importance and extent of the trade demands We are prepared to exhibit Dr. A. Snowden Piggot's certificate of inspection for every cargo sold.—

"FLOUR OF BONE."

WE will give a money guarantee of the purity of this article It is pure unstramed unburnt bone, reduced to the fiveness of flour, which adds 100 per ct. to its value. It is as quick and active as acid dissolved bone, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. And the girl-her arms outstretching, As if begging them to stay—
Said, "I'm sorry, very sorry,
They so quickly fade away!"
But her brother looked right manly
As he shouted with delight, "It is easy, very easy,
To blow others just as bright!"

And he blew with such good fortune
That, before his task was done.
You might count a score of bubbles
Floating gaily in the sun,
Then her eyes with pleasure sparkled,
As the crystal phantoms played,
And she quite forgot her sorrow
That they each so mickly fade. That they each so quickly fade.

And she paused where I was resting
In the shadow of a yew,
And in tones of laughing wonder cried,
"Can't you blow bubbles, too?" And I knew not how to answer; So I left them at their play, Blowing bubbles in the sunshine

From a penny pipe of clay.

DEPARATOR CAPPILLI. Throw away your false frizzes, your switches, your Destructive of comfort, and not worth a fig; wig, Come aged, come youthful, come uglv and fair, And rejoice in your own luxuriant hair.

REPARATOR CAPILLI. REPARATOR CAPILLI.

For restoring hair upon bald beads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald beads in from two to three months. A few ignorant proctitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness But many will say, how are we to distinguish the getuine from the spurious? It certainly is difficult, as nine-tenths of the different preparations acvertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be exturned without charge. All orders will receive prompt attention.

SCROFULA. Important to Persons Afflicted with Scrofulous Diseases. A Positive Cure After Seven Years Suffering.

37 RUNNING ULCERS AT ONE TIME. Breast, Throat and Face One Continuous W. HORNOR, Esq., a prominent Lawyer in

West Virginia, writes to Dr. ANDERS as fol-

"PARKERSBURG, W. Va., Dec. 15th, 1866. "DR. H. ANDERS-DEAR SIR: "In reply to your inquiry in regard to my health, I am happy to say that I am now a well man, am attending to business, have a good appetite, and feel that I am entirely cured, and 'am free to say shat I owe my present health to your Iodine Water. "I suffered nearly seven years with Scrofula before I was cured. I had 37 Running Ulcers on me at one time; my entire breast, throat, all under my arms, all over my jaws up to my ears, on both sides, was one almo t continuous sore. I was confined to my room over 18 months, and was decided. ly the poorest object that you ever saw; at three different times the friends were called in to see me die. I accidentally saw a notice of 'Dr. Anders' lodine Water.' I sent for some, found it good, and continued to take it until I was restored to my usual health, for which I feel to thank God and take courage. I am satisfied your lodine Water saved my life, and I believe it to be the great desid eratum in medicine. I have resumed the practice of law in several counties in this section, and if you will send me some of your circulars I shall take pleasure in distributing them and calling the attention of physicians to your medicine wherever go. Anything I can do for you will be cheerfully done. You are at perfect liberty to use my name in any way that will be useful to the afflicted.

"Your's truly,
"J. W. HORNOR." DR. H. ANDERS' IODINE WATER, is a new discovery in medicine, being Pure Iodine in Pure Water, 11 grains to the ounce, uncombined with any other substance. A most powerful virilizing agent and restorative. Circulars free. For sale by J. P. DINSMORE, 36 Dey st., N. Y., and by ruggists generally.

BALTIMORE PRICE STORE! OPPOSITE BANK BUILDING, CHARLESTOWN, WEST VIRGINIA.

MAJORITY of those who read newspapers, never even give a hasty glance at a business advertisement, and if a MAN

actually has a choice variety of goods, which he is selling at the lowest Baltimore prices, it hardly pays him to publish the fact. Therefore, I have FOUND it best to simply invite every body to call and examine my stock and prices before purchasing elsewhere, and to say but little in regard to my ability and determination to make it advantageous to those who are not
