BENJAMIN F. DEAL, Editor. CHARLESTOWN, VA. Tuesday Morning, December 23, 1868.

By agreement with our neighbor of the Free Press, no paper will be issued from either office during the ensuing week. This is done to afford the employees of the offices an opportunity of one short respite at least, from the incessant labor and never-ending toils of their profession.

CONGRESSIONAL COMMITTEES.

Congress is appointing committees for the investigation of all sorts of frauds alleged to have been perpetrated against the Government—those against the radical party. The request is made that any of the irresponsible correspondents...

While Congress is doing all this for the degradation of Maryland, we would suggest that it turn its eye to this so-called State of West Virginia, and see if it cannot do something for the decency of the country.

If Maryland deserves such close scrutiny for the pretended wrongs against the few of its citizens, how much more is called for against the many and heinous outrages which have been, and are daily being, perpetrated against the many of this hallowed production of the war—the "West Virginia," which is controlled by a set of men that embraces some of the most consummate scoundrels that ever disgraced a people.

Our political animosities are never so unrelenting, as to prevent us from attributing merit to an opponent when it is deserved. By reference to another column, it will be seen that NATHAN S. WHITE, Esq., of this town, has been admitted to practice in the Circuit Court of this county, without taking the test oath.

COMMENDABLE.

Our political animosities are never so unrelenting, as to prevent us from attributing merit to an opponent when it is deserved. By reference to another column, it will be seen that NATHAN S. WHITE, Esq., of this town, has been admitted to practice in the Circuit Court of this county, without taking the test oath.

A CHANGE PROPOSED.—We learn that the canal contractors on the route from this point to Berryville, are endeavoring to effect a change, so as to substitute Summit Point instead of Charlestown. We hope no such change may be made, as it is Rippon and Kabletown, two important offices of the county, would be deprived of the facilities they now enjoy, greatly to the disadvantage of the people and the detriment of the Department.

RECONSTRUCTION A FAILURE! Georgia and Maryland.

The boasted "Reconstruction" of the Radical Rump, has proved a failure by its own showing. Thus early in the present session, nearly all its time is consumed in undoing what has been heretofore done to restore republican governments to the South and re-erect peace to the North, though in truth anarchy and ruin to the one, and inevitable destruction to the other.

In the Senate on Friday, Mr. Edmunds introduced a bill to repeal the act of June 25, 1868, admitting Georgia to representation in Congress, and to provide a provisional government therein, and for other purposes, which was referred to the Committee of the Judiciary. It provides—

That the Legislature of Georgia has violated the fourteenth amendment, by refusing to purge itself of ineligible members, and has, in violation both of the Constitution, and the fundamental principles upon which Congress consented to the restoration aforesaid, expelled a large number of its regular qualified members on the sole ground that they were persons of African blood, and that the local authorities of the State appear to be wholly unable or unwilling to protect the lives, liberties and property of its peaceful and unoffending citizens from lawless violence, and refrain purposely or from a want of power, from bringing such offenders to justice.

It is further provided that the Circuit and District Courts of the United States shall have concurrent jurisdiction with the Courts under said provisional government of all offences and suits, but such United States Courts shall not proceed therein unless the party injured, or some one on his behalf, (when his evidence cannot reasonably be obtained,) shall make oath before the Judge or Commissioner that justice cannot be obtained in said provisional Court.

Finally, it is made the duty of the President of the United States to cause to be stationed in said State such part of the land and naval forces of the United States as shall be sufficient to carry the foregoing provisions into effect.

Not content with thus remaining the reconstructed State of Georgia back to its territorial condition, because, forsooth, of the expulsion from her Legislature of negroes, whom its Constitution did not recognize as citizens, Maryland is to undergo the same ordeal, and the matter is now pending before the Judiciary Committee, unless she gives practical effect to the 14th amendment, and invests the deprived and ignorant negroes of her State with the ballot, so as to stiff the voice and palm the arm of her patriotic sons.

THE PURPOSE OF CONGRESS.

The Fortieth Congress is evidently at work preparing the way for Grant, and legislating with such due precaution as not to excite his jealousy or incur his hostility, whilst on the other they intend to use the wiles of Delilah as that she shall be shorn of all real strength, should be at any time become refractory in Radical harness.

It is plain, as we are told by the New York World's Washington correspondent, that the double desire to please and to guard Grant influences all measures offered or likely to be offered. For instance, Georgia is to be re-constituted, Virginia to be put in the moulds of incipient Statehood, Texas and Mississippi are to be stimulated into speedy reorganization. The Southern question is to be so fitted to this session as to require from the now administration only the execution of such acts of the Fortieth Congress as will not be left to the option of the next Executive.

A RELIG OF THE OPEN TIME.—Among the antiquities preserved by a Winchester lady is a pair of Fairfax's boots. The old-gentleman left them on one of his last—perhaps his last—visits to town, at Dr. Mackay's, another of our old-time notables. They are riding-boots, of the fashion familiar to us in Hogarth's prints, solidly, though clumsily made, with box-toes, of the style now in vogue again after the lapse of a century.

GENERAL NEWS.

The true figure as to the national debt is not seen in the present reported amount of it. It is increasing monthly, because, now that the Radicals have succeeded in the elections, there is no party end of turning the cold shoulder upon claims against the Government. It will continue to increase largely if all the legitimate demands upon the United States Treasury are answered.

EDITORIAL CLEANINGS.

Secretary McCulloch says in his report that about eight hundred and fifty millions in U. S. bonds, or one-third of the public debt, are now held in Europe. The gold interest on these bonds, amounting to at least fifty millions annually, goes out of the country and never returns, and the greater part of the principal will have to be paid in cash.

The Richmond State Journal says—We heretofore stated, upon reliable authority, that the State Law would be extended and a new report, for the benefit of all it may concern, that the law will not be extended. A general order suspending sales of personal property till the 1st of May next will soon be issued, but executions may issue after January 1st for all debts under \$100, and a new report, for the benefit of all it may concern, that the law will not be extended.

In the U. S. Circuit Court, in Richmond, on the 12th inst., Judge Underwood presiding, the case of Sallie Anderson, a colored woman, was brought on a writ of habeas corpus on the ground that one of the magistrates composing the court, which tried her, had held the office of constable before the war, and being thereby disqualified under the act of March 3, 1853, his proceedings were illegal and his proceedings voided. Judge Underwood sustained the prisoner's plea, and discharged her from custody.

A gentleman just from the plains informs the New York Times that buffaloes are at this time to be found in immense herds—estimated at 100,000—on the prairie west of the Missouri river, on the Kansas Pacific road, he passed through a herd covering a surface of five hundred square miles on the line of the road, shot by passengers and the engine men, and his party were informed that there is enough meat lying there at this time, easy of transportation, to feed all the poor people of America.

Accident on the North Central Railway.

Twelve miles from Harrisburg, on the North Central railway, leading from Baltimore, on Monday night, the engine Lady Washington was standing on the track and the engine man was looking at his watch, when the northward train ran around the curve. To avoid a collision there was impossible, and the engine man and fireman both jumped from the train. The fireman of the Lady Washington was instantly killed, and that engine was crushed. At this moment the collision of the boiler exploded, and only fragments of iron and brass could be afterwards found, though with them the ice in the river was literally strewn. The smoke stack was thrown to a distance of one hundred yards into the river, and the tender, a crushed and shapeless mass, was thrown down the bank and ran into the river. The train northward consisted of the locomotive and tender, three express cars, and several passenger cars. The locomotive was broken to pieces; the express cars, which were laden with oysters for the West, were destroyed; one passenger car was broken to pieces and several others crushed and run into each other. How many were killed and wounded could not be definitely ascertained last night, but the number was said to be thirty-five. The scene is said to have been appalling, and for some time there was little assistance, as the point where the catastrophe occurred is only a water station, and there are very few habitations around. The damage to the company will probably be between twenty thousand and thirty thousand dollars.—Baltimore Gazette, 16th.

A RELIG OF THE OPEN TIME.—Among the antiquities preserved by a Winchester lady is a pair of Fairfax's boots. The old-gentleman left them on one of his last—perhaps his last—visits to town, at Dr. Mackay's, another of our old-time notables. —John McCaughy, of Chesterfield county, Va., sentenced to be hung on the 18th inst., for horse-stealing, has had his sentence commuted to imprisonment for fifteen years. The sentence of death passed upon Polly Jennings, of Halifax county, Va., convicted of the murder of her infant, has been commuted to imprisonment for life.

IS IT TRUE?

The St. Louis Times is credited with the report that General Grant, when in that city last, intimated to friend his intention to offer General Lee a seat in his Cabinet. We are inclined to the opinion that it is nothing more than a report, but if it should prove true, there are many who will be greatly disappointed in the policy of the President elect, and many more who will be "on the contrary quite the reverse."

—Action of the Virginia State Executive Committee.—At a meeting of the State executive committee, consisting of the President, committee and consulting members from various parts of the State, held in Richmond on Tuesday, the following resolution was adopted: Resolved, That the chairman of this committee be and he is authorized to call on the LADIES of the State, and to request them to issue a call immediately, inviting the consulting members of the committee and the county and city superintendents to assemble in Richmond for the purpose of perfecting the organization of the conservative party in the State, and adopting such measures as the public exigencies may seem to require.

—Since the recent dreadful calamity on the Ohio river, which resulted in the loss of so many lives by the burning of petroleum on board the steamer United States, a bill is likely to pass Congress preventing that inflammable substance from being conveyed on passenger vessels. Had it not been for the presence of the oil very few lives would have been saved. The most frightful phase of that shocking scene was that in which men, women and children are described as perishing in a sea of fire, and filling the air with their shrieks. The burning oil is said to have flowed from the decks of the vessel, covered the surface of the water in which those unfortunate creatures were already struggling. Among those lost were two distinguished Episcopal divines, the Rev. Mr. Parvin, Secretary of the Evangelical Educational Society, and the Secretary of the Church Missionary Society of N. York—Ole Bull, the famous Swedish violinist, escaped by swimming ashore. Among those lost were Mr. George Hutchins and his wife, particularly Mrs. Hutchins, who is said to have been a widow of Mr. President Pierce, who it is said, was very near accompanying them on their fatal trip.

—General George H. Thomas has insisted that the resolution passed at Chicago by the representatives of the army be held, in favor of placing his status among those that are to surround the base of the proposed Lincoln monument at Washington, should be expunged from the records.

—ARREST OF THE MURDERERS OF GEN. HINDMAN.—A correspondent writes us from Clarendon, Monroe county, Arkansas: "The assassin of Gen. C. Hindman has been arrested in Viokburg, has confessed his crime, and implicates about twenty of the citizens of Helena, not only as accessories, but as instigators and promoters of the deed. I hope all will be brought to justice, and that the mob will be broken up. A number of men have been killed in this county this year, most of them by feuds engendered in families and family difficulties. Only two men were martyrs to principles, one a democrat, the other a radical."—N. Y. Sun.

—The Richmond Enquirer starts the question, whether, if Judge Underwood's recent decisions in the habeas corpus cases are sustained, marriages solemnized under licenses issued by disqualified clerks of court since the 28th of July, are not invalid and illegal?

LOCAL MISCELLANEA.

CHRISTMAS, good friends, like summer, comes but once a year, doing for the heart of man what the genial season does for Nature...

THE PROPOSED SALE of the Harper's Ferry property, known as that of the U. S. Army, has infused new life and hope in the people of that place...

TABLEAUX.—A number of young ladies friendly to the Temperance cause in our midst, have inaugurated a movement by which they intend to procure the funds necessary to purchase a banner...

HENRY DUMM, at his old stand, has a splendid stock of holiday goods. His windows look to the window, like the portals of fairy land, and visions of sugar plums, kitchen furniture, dolls almost alive, pop-guns, deafening trumpets and every conceivable kind of jim cracker and supply-jack, keep up a perpetual gallop in their excited little brains...

FINE PORKS.—The following is the weight of some of the hogs slaughtered in this town last week. Mr. G. W. Kellison two, 13 months old, weighing 711 lbs.; J. C. Kemp four, quite young, 1,047; Benj. Tullin one, six, also young, 1,208; J. M. Beller three, 598. Swine of this description would make good sausage, we should think, but as seeing is believing, and testing the naked truth, eat it say.

THE SHENANDOAH HOUSE at Harper's Ferry, heretofore under the direction of Mr. King, has gone into the hands of Messrs. Kirwin & Brown. We learn that it is undergoing thorough repair, and is to be re-opened as a first class hotel. Our acquaintance with one of this firm would fully justify the expectation.

RARE GOODS.—L. DINKLE has just returned from Baltimore, with a beautiful display of new and rich jewelry. Also silver ware, of latest design, in pieces of sets, plated and bronze do, with forks, spoons, glasses, &c. Fine watches, clocks, brackets, eye-glasses, and every article in or out of his line, that is wanted for a Christmas present. See advertisement and give him a call early.

FOR THE HOLIDAYS.—Blessing, as usual, has made special arrangement. See advertisement, in which he proposes to furnish Oysters, by the quart, gallon or more, of the best quality and in price as low as they can be obtained this side of Baltimore. At his restaurant, "Sappington Hotel Basement," front entrance, he is prepared to furnish by the plate, in any manner connoisseurs may desire, and with condiments to suit.

THE CIRCUIT COURT of this county, convened at Shepherdstown on the 14th, Judge Hall presiding. The Grand Jury found a number of indictments, and were discharged on Tuesday. We copy the following from the Register of Saturday:

State of West Va. vs. Baltimore and Ohio Railroad. Indicted for not fixing crossings on road in this county, in four cases. Plead guilty, and pay fine of \$1 and costs.

State of West Va. vs. the Board of Supervisors and H. C. Butler, by mandamus, at the instance of Geo. W. Chase. The petition in this case, for peremptory mandamus, to the Board, compelling them to issue the certificate of election, as Recorder, to Geo. W. Chase, was argued on Monday evening last, by Penick and Blackburn for petitioner and Deitzkoover for defendants. The Court gave its opinion granting the peremptory mandamus. The case will likely be carried to the Court of Appeals.

Our advertising columns will furnish a complete directory, to persons in search of Christmas goods. We have not the space to individualize, but in a general way would say, that never before have the people had a more favorable opportunity of supplying themselves from the most superb assortments. All you need now is the money, and you can enjoy the approaching festive season to your heart's content. As far as we are individually concerned, we anticipate no extraordinary degree of pleasure. We are without turkey, and without sausage, and without port, and with very little of anything else to make Christmas what it used to be, but we have the promise of two bunches of collyers from Messrs. Ranson & Duke, upon which we shall chew in solitude, and reflect upon the happy past, when the services of the editor were appreciated and his ladder kept well stored.

RELECTIONS FOR THE HOLIDAYS.—The following queries, at this particular period, are applicable: Does it cost anything to print a newspaper? How long can a printer afford to print a newspaper without pay? Do printers eat, drink and wear anything? If so, how do they get it? Do I owe for my paper? Is not this a first rate time to call and pay.
