Both men displayed extraordidary courage, animosity and endurance; and during the course of the bloody encounter neither was willing to give up the contest until both had to let their hands fall helpless to their sides from loss of blood and the pain of their wounds. RUMORS.

At the recent session of the Legislature West Virginia, an attempt was made to pass a bill making two judicial circuits of the counties of Berkeley, Jefferson, Morgan and Hampshire, now embraced in one. The bill was passed in the Senate, but failed in the House. On account of this addition to his circuit, and the increased amount of labor, without any provision for additional pay, it is reported that the present Judge of this circuit. E. B. Hall, has, of will refuse to qualify, and that a vacancy on the bench will occur. It is further reported that the Governor has signified his purpose to appoint James H. Furguson, a radical member of the Legislature from West Virginia to the position. This is another contemplated outrage. Why should a Judge from a remote part of the State be sent here to preside over our Courts ? Are there not lawyers in our own midst, well qualified to fill the position vacated by Sudge Hall? Where is Chapline? where is Stubbs? where is Faulkner? that a judge for this District has to be imported? Let us have a man who is in some measure identified with the interests of our people, and not a carpet-bag stranger, of whom we know little, and that little not to his credit.

WITTY.

We have a Senator from this District the Legislature of West Virginia, who would he witty if he could, but his attempts in this direction are most lamentable. His failures in this respect are as complete, and almost as notable, as those of Beast Butler in the recent war. This Senator, whose name is Hoke, recently introduced a Joint Resolution in the Legislature, " setting forth that : Andrew Johnson, President, had, by a late proclamation, extended a pardon to all persons engaged in the late rebellion, including Jefferson Davis, and resolving that he be requested to issue a like proclamation for Gens. Grant, Sherman, Ben. Butler, and all others, who aided, assisted or abetted in putting down the rebellion."

Reader de you see the point in this resolution? We don't, nor did the Senate of West Virginia, for the resolution was laid over, and so far as we know, was never called up again If the Senator had added Steinmetz and his accomplices, after Ben. Butler, his resolution would have had more point, and have been better understood. Then there would have been a motive for its introduction. As it is, it is neither wit or common sense.

VIRGINIA POLITICS.

During last week a conference of some of the leading men of Virginia, was held in the city of Bichmond, which had under consideration the present political status of the State. On Saturday night they agreed on a preamble and resolution, which sets forth that while the people of Virginia do not believe that the negroes in their uneducated condition-are as yet fit for suffrage, yet, in view of the expression of public opinion in the recent national election, and in the hope of restoring harmony and union, they are willing to accept universal suffrage coupled with universal amnesty.

In the progress of the meeting the following proceedings occurred : It was resolved that the Hon Alexander H. H. Stuart be requested to serve as chairman of the committee of nine persons appointed to visit Washington for the purpose indicated in another part of the proceedings, and that the chair be requested to appoint a committee of three. to recommend for the consideration of the meeting the names of eightother gentlemen, who, with the chairman, shall constitute the delegation referred to. In accordance with the foregoing resolution, the chairman named Messrs. John Echols, F. G. Ruffin and James F. Johnston as the committee, who, after a short retirement, reported, recommending as the delegation, in addition to the Hon. A. H. H: Stuart, Messrs. John L. Marye, Jr., of Fredericksburg; James F. To give effect to this purpose and to spare no efforts to effect a speedy and permanent restoration of union and harmonious relations between the portions of our country which have been for some years past alienated, the undersigned will appoint a committee of nine members from different parts of the State, and reflecting, as far as may be practi-cable, the public sentiment of the State, whose duty it shall be, at an early day, to proceed to Washington, and be authorized to make known the views and purposes hereby declared, to the Congress of the U. States, and to take such measures as they may think proper to aid in obtaining from that body such gislation concerning the organic law of Vir-mia as Congress in its wisdom may deem which commences next Sunday.

This report is signed by Hon. Alex. H. H. Stuart, and a number of others.

PRESIDENT PROCLAMATION

The universal amnesty proclamation issued by President Johnson, on the day before Christmas, is much commented upon, and various are the conjectures as to the bearing it is to have upon those whom it was designed to relieve. The Washington correspondent of the Baltimore Sun, in a letter dated January 1, says:

The effect of the President's amnesty pro clamation is yet the subject of argument and doubt among Congressmen and others, and it asked, "Does the proclamation remit or cancel all populties, and relieve against all

Among competent judges, there does not appear to be any doubt that it can be pleaded in bar to pending criminal prosecutions, and that it is within the power and prevince of the Executive to pardon, whether before or after a judicial conviction . but does the proclamation relieve as to the disabilities described in the new amendment to the constitution—the fourteenth? This is the mooted question: May those

who participated in the rebellion now hold office and vote; are the disabilities provided in the 14th amendment intended as penal ties; and if so, does not the President's pardon obliterate and remove the penalty? In answer it is claimed by some that not-withstanding the recently adopted fourteenth amendment, which provides for the removal of disabilities by a two-thirds vote of Cenress, the President's power is complete, and his pardon under the second article of the Constitution accomplishes exactly what the Congress may do under a two third vote: that the fourteenth amendment does not repeal the second article of the constitution, but at most only gives Congress concurrent power with the Executive in the subject named; that under the amendment Congress may do this thing by a two-thirds vote.

Under the second article, the executive can by his pardon accomplish the same result. Such is the substance of the argument held by some officials, legal men and Congressmen, and there is so much conflict of opinion on this important subject that in all probability ere will be no definite set a judicial decision shall be had.

LITERARY NOTICES.

The New Eclectic.

Mr. Morton's Defence of his Plan of

The Washington Chronicle pu letter from Senator Morton in reply to Mr. Greeley's criticisms of his plan of resumption The following are the principal points:

You devote yourself chiefly to the establishment of the proposition that the government can and should at once resume specie payments with only \$70,000.000 of gold in the treasury, and that the declaration of resumption would have the effect to bring the greenback currency

Your argument is excellent to prove that after the greenback currency has been brought to par it would be presented to gold, and but little of it would be brought to the government for redemption, but as long as the greenback currency is three cents under par, that margin would make it profitable to brokers to run it into the treasury from every part of the United States.

According to your plan, the banks must resume at the same time with the government, and the \$70,000,000 of gold in the treasury would fall short of their greenback reserves twenty or thirty millions. To make tions of our stocks, both at home and abroad. themselves strong, they would have to convert a The six per cents. of '81, as they are called, their reserves into coin, which would require more than the government could furnish at the time, which would result not only in a ple, and leave the currency in a much worse condition than it is now, and most likely bring on a crisis and crash.

But then you go on to say that you would not rely only on the \$70,000,000 of coin in the treasury, but would forthwith issue a new bond, to run one hundred years, to be untaxable, and to draw interest at the rate of four per cent.; and this bond, you believe, could be floated at par in gold. This belief, on your part, proceeds upon the fundamental error that by a declaration of resumption the greenbacks would be suddenly brought to par, for t would be preposterous to talk about selling four per cent. bond at par in gold while the currency is still depreciated, and bonds drawing six per cent. interest in gold are worth less than eighty cents on the dollar.

You rely upon a legislative declaration resumption to bring the greenback currency suddenly to par-a result which can only be effected by time and ample preparation for redemption. You rely upon sudden and spasmodic action where there should be no spasm violence, and where the great result should reached by gradual approaches from the adoption of measures that would command the confidence of the country without disturb-

ng its business. Again you say : "The one thing needful for resumption is provide some form of national obligation hich the holders of greenbacks will prefer to coin-in other words, some government security which will largely sell at some rate above specie par. Whenever we have that in the treasury. Without it we may fail to maintain specie payment though we begin with a coin reserve of two hundred millions.

Your first argument was that greenbacks vere so much more convenient and desirable than gold that they would not be presented for redemption. But here you state that we cannot safely resume even with \$200,000,000 gold in the Treasury, and that the one thing needful for resumption is to provide new bond, which the holders of greenbacks with ten millions of gold in the Treasury .-Here you would seem to make resumption impossible by requiring in advance a national security which will largely sell at some rate above specie par, which the holders of greenbacks will prefer to coin, and which you have before said should bear interest at the rate of four or five per cent. Such a bond could not be sold even at par, until after resumption is firmly established, much less in advance, as

a means of bringing it about. With such a bond, which the holders greenbacks would prefer to coin, the greenbacks would be funded, and it would result in large and sudden contraction, which would be in hostility to your first proposition that the people need the greenbacks and will keep them. Your policy, like that of the Secreta ry of the Treasury, resolves itself finally into contraction, and if, to the evils of immediate resumption, you add the calamities of large contraction, you will make short work of the business of the country.

In answer to Mr. Greeley's argument that the effect of resumption, gradual as well as sudden, would be a fall of prices and apprecia-

tion of debts, Mr. Morton says: If sudden resumption would involve the great decline in prices which you say it will it would be a vast calamity to the majority Beggars, Noted Churches of Paris, and other of the people of the United States. It would certainly bankrupt or suspend three-fourths The Poetry is by Dr. Ticknor, Judge of the business men of the country at once It would produce a suffering and desolation of which we have no record in this or any Business would be destroyed, the poor A young man named W. T. Branley left left without employment, people unable to Biddeford on Saturday evening to make a pay their taxes, and the government itself threatened with bankruptcy and dishonor, mebunk. He | and yet you say you want to make the plunge in the help of sleeping with a at once. If the private indebtedness of the people to each other on the 1st of February. 1869, amount to \$8,000,000,000, the capacity of the debtors to pay, by your lowest estimate, would be diminished to the extent of \$2,000,000,000. You may be ready to make the plunge, but the great body of the people

In reply to Mr. Greeley's argument that Mr. Morton's plan dooms all the business to thirty months of painful uncertainty-an argument which he illustrates by the action of Congress in checking contraction as soon as its influence began to be felt-Mr. Morton

"By fixing a time for resumption and mak ng the necessary preparation; all painful uncertainty would be ended, and the country would have a definite financial policy. The danger that the act would be repealed is one to which all the legislation of Congress is lia-able. The contraction of \$4,000,000 of about resumption by contraction, for while took place in Harrisonburg, in honor of the contraction was going on the currency grew worse. It seems difficult to make many people understand the simple truth that the way to bring the greenbacks up to par is by preparing to redeem or pay them according to the promise on their face. They insist on climbing up by some other way."

After recapitulating the arguments in fa-ror of his own plan, Mr. Morton says: Redemption could safely begin with two hundred millions of gold in the treasury under the provisions of my bill, but certainly not with seventy millions. If the people are satisfied that the treasury has gold enough to

government had the right to use the old of existing notes in payment of those bonds. This argument I prefaced with the declaration that the first duty of the government was to return to epecie payments, which would render this question unimportant, and denying the right of the government to issue new notes with which to pay those bonds.—
What was called the Pendleton theory, that notes with which to pay the five twenty bends. I have always condemed. If this position, is what you call the "greenback theory," the 'infamously dishonest proposition,' the criminal blunder,' you need not put me down as a repentant supporter. You have no evidence

Your statement that but for the talk of paying the five-twenties in greenbacks, the government would have resumed specie pay-ment and commenced funding our five twen-ties at a lower rate of interest long ago, is absurd. It is absolutely refuted by the quotathat were issued and sold before the passage of the statutes creating the legal-tender notes. and which nobody pretended should be paid panic among the banks, but among the peo- in anything but coin, and about which there has never been a question, have never been rated more than four cents higher than the five-twenties; and this was because the law creating them reserved no right on the part of the government to pay them before they fall due in 1881, and cannot be funded as the others may.

Since the passage of the bill for the sale of the Government property at Harper's Ferry, we have heard numerous inquiries in relation to the specific terms upon which the property was to be disposed of. For the information of those interested, we publish the bill as it passed the two houses of Congress, and as it appears in the official proceedings :-

AN ACT providing for the sale of the lands, tenements, and water privileges belonging to the United States at and Harper's Ferry, in the county of Virginia.

Be it enacted by the Senate Representatives of the United Sta ica in Congress assembled, That the tary of War be, and he is hereby, authorized and directed to make sale at public auction of the lands, tenements, and water privileges belonging to the United States at and near Harper's Ferry, in the county of Jefferson, West Virginia, except as hereinafter provided in such parcels as shall, in his opinion, be money therefor, on a credit of one and two years, taking bond and security from the purchaser or purchasers for the payment of the purchase money; and that the proceeds of such sale shall be applied by him as follows: Provided, That no such sale shall be made until the time, terms, and place thereof shall have been published in one of the principal news papers in each of the cuies of Washington, New York, and Cincinnati for sixty days prior to the day of sale :.
First, in defraying the expenses of making

said sale. Second, in refunding to the United States the principal sum of purchase money paid for said lands, tenements, and water privileges by the United States, and for the erection ofbuildings thereon.

Third, if any surplus remain, he shall deliver the same to such agent as the legis ture of the State of West Xirginia shall appear to receive the same; but upon condition t such surplus shall be received by the State West Virginia, to be set apart, held, invested used, and applied as a part of the school fund of that State, under and by virtue of, and in manner and form as provided in section first of the tenth article of the constitution of West Virginia, and for no other purpose.— And on making such sale of the said lands, tenements, and water privileges, or any part thereof, the said Secretary of War is hereby empowered and required, on receiving the purchase money in full, to execute all neces-

sary deeds therefor to the purchaser or pur-chasers thereof on behalf of the United States. SEC. 2. And be it further enacted, That the Secretary of War be authorized and directed to convey by deed to Storer College, an institution of learning chartered by the State of West Virginia, all those certain portions of the aforesaid property, namely: the buildings, with the lots on which they stand, numbered thirty, thirty-one, and thirty two, and also building numbered twenty-five; with enough of the lot on which it stands to give a breadth of ten rods on High street, otherwise known as Washington street, all of said buildings and lots being situated at Harper's Ferry aforesaid, being the same which have heretufore been assigned by the War Department to the Bureau of Refugees, Freedmen, and Abandoned Lands, for educational purposes; and also to convey by deed to the proper persons all such other lands and buildings, portions of the aforesaid property, as have heretofore been set apart by the proper authority for religious, charitable, and town

Approved, December 15, 1868.

The Legislature of West Virginia, will convene in the city of Wheeling on the 14th of the present month. If the newly elected Representatives be no better than the last conclave of fools, "God save the Commonwealth."

VALLEY ITEMS.

From our Valley exchanges we clip the following items:-- On Saturday the 19th ult., the house of Mr. David Hanger near West View. Augusta county, was destroyed by fire, nearly every thing in the house being consumed.

The fire originated from the chimney. - All the contracts for the building of the Winchester & Strasburg railroad have been given out, and the work will begin next month. It is the intention of the Baltimore. company to push it through with a rush.

- On Tuesday the 22nd plt., a celebration completion of the Railroad to that place .-Speeches were made by Col. Leggett, Jas. Kenney, Esq., Edgar Snowden, Esq., E. C. Marshall, Esq., and Dr. Samuel Kaufman, and there was a general jolly time.

— We learn, with great pleasure, the pro-bability that our distinguished and respected townsman, Hon. James M. Mason, will soon return to his former home, under the amnesty proclamation. Though residents, for years, of another country, he and his family have lost none of their attachment to Virginia. Winchester News.

Your committee feel that the success thus exhibited is a subject of congratulation, not only to the share holders, who are more immediately interested in its operations, and who have felt its benefits, but to the public at large, among whom have been expended, through the agency of this organization, large sums of money for the purposes of improvement-thus adding to the general wealth and increasing the basis of taxation-results manifestly beneficial to every tax-payer and prop-

erty holder in the county. Although the Association was established with some doubts as to the favor and support which it would receive, it has steadily vindicated its title to the confidence of its members and friends, until all misgivings, as to its usefulness, your committee take pleasure in believing have finally disappeared.

LOCAL MISCELLANY

An Imposing Edifice.

Decidedly the fluest building in this town—
and one which should be regarded with pride
—is the new edifice of Laters. HUMPHREYS & Hears, now rapidly approaching comple-tion. Located in the most desirable part of the town, adjoining the Court House square, and immediately opposite the Carter House, it is an ornament to that section of our once beautiful, but now devastated village, and serves in some measure to relieve the desolate appearance of our hitherto imposing Temple of Justice. With an enterprise creditable to them, and an energy that deserves commendation, the firm has pushed this building to completion, and now with their extensive stock of hardware, occupy one of the large rooms of the first floor. The building, which is a two-story brick, has a front of 47 feet, and a depth of 62 feet. The lower floor is divided into two store-rooms, each 211 by 60 feet, with a height of 15 feet from floor to ceiling. Both are well lighted from the elegant glass fronts, and have an aspect of comfort and commodiousness unsurpassed by any rooms in the Valley of Virginia, In the centre of the building is a stair-way, with front entrance, leading to the second story; at the top of which is a spacious landing .-From this landing there is an entrance to one of the largest and most complete rooms for a public hall that our town has ever been able to boast of. This room is immediately over the hardware store, and is 211 feet wide by 60 feet deep, with a height of ceiling of 14 feet. We understand that it is the purpose of the proprietors to fit up this hall in good style, so that hereafter, when our people need the use of a room for any public purpose, they will have one that will meet every want, so far as comfort and capacity are concerned .-Since the war, the want of such a hall has R. N. Duke, J. D. Staley, G. H. Turner and been sadly experienced. That portion of the building to the left of the landing, is divided into three rooms-the largest, an excellent room for any business purpose-18 214 feet wide and 37 feet long. The other two are smaller, but sufficiently large to make most excellent and comfortable offices, and will no doubt rent readily for that purpose.

In this connection, it is but just we should award the meed of praise so eminently due - and universally tendered, to the artizans engaged in the erection of this structure. The brick work was executed by those experienced contractors, the Messrs. Armentrout, of Tage county. The enterprising firm of Messrs. McKnight & McElroy, of this town, engaged to furnish all the material and execute or have executed, all the wood work necessary to its construction. By indomitable perseverance, and the aid of their steam factory, their contract was faithfully performed. To an J. D. Staley and H. C. Entler, were or-Messrs. Small & Heck, skilful and experienced mechanics of our town, was entrusted the erection of the building according to the ship. design of the draft, and the good taste and skill neatness and substantiality of workmanship displayed, will remain as long as the structure itself, a monument of which they may be proud. The inside work of the storeroom was executed by Messrs. D. H. Cocket rell & Son, and is unique in style, complete in finish and beautiful in appearance. The Plastering by Messrs. McIntyre & Bro., of Middleway, and the Painting by Mr. Kimes of this town. The roof is of tin, massive gutter ways, and the workmanship of that

Fixes -On Tuesday night, the 29th ult. the barn of Mr. L. F. CURRIE, in the Zoar neighborhood, this county, was destroyed by di e, with all its contents-consisting of seven handred bushels of wheat, six valuable horses and one colt, wheat reaper, drill, wind mill and an extensive lot of hay, fodder and other provender stored for the winter feeding of his stock. We have heard Mr. C.'s loss estimated at \$3,000, and if the destruction is as complete as represented, it must exceed that sum in real value—to say nothing of the deprivation of his live stock in mid-winter, and the serious inconvenience resulting from the burning of the fine team of horses. The friends of Mr. Currie will deeply sympathise with him in this loss, which comes at a period of such financial stringency. How the fire originated is only a matter of conjecture, as occurring in the night, nothing certain is known of its origin.

justly popular firm, Messrs. Miller & Smith.

- We have also a rumor, that Mr. Robt. B. Helm, sustained quite a loss last week, by the burning of several ricks of straw, on the farm occupied by him near Leetown. . Severe as is the winter, and generally scarce as is feed for cattle, it is to be regretted that the provident farmer should be subjected to such losses at this period.

SEVERELY INJURED .- We regret to notice an accident of a serious hature to Mr. BENJ. T. TIMBERLAKE, which occurred near his home on the Opequon Creek, on the day before Christmas. He had been to Martinsburg with a spring wagon and had reached his own place on his return, when feeling very cold, he got down to walk beside the wagon. his footing and slided under the front wheel of the wagon, which passed over him, breaking two of his ribs ad inflicting other injuries. We hope, however, that his injuries may not prove us serious as was at first apprehended.

OUR SCHOOLS were all re-opened on yesterday, both teacher and pupil, we hope, rejuvenated by the Christmas recess. Our Academy, we are gratified to state, is in a most flourishing condition, and with the excellent school of our young friend Mr. Mouton, for lads, we hope the winter may be profitably spent by our youth. Go to school boys, punctually-study, study hard, for be assured that is your rock of defence now.

A GOOD CHANCE.—See advertisement o Mr. Richard H. Brown, you who wish to be in readiness for the next sleighing season .-The article advertised, is really something pice in its way."

ACCIDENT. - We are pained to state that Captain John W. Rowan met with serious injuries by a fall from the sleet of Saturday morning. As he was leaving the residence of a near neighbor, his feet were thrown from under him, and being weak and feeble, was unable to recover until he fell with all his weight on a stone at the base of the steps. His left side and hip is considerably bruised and wrenched, and the arm hadly broken at the wrist. A similar misfortune befel the Captain the last winter, and as the preceding summer he had his hand mashed by the falling of a large stone, so as to disable him? from work during the whole season, he may truly be said to have been fated to a chapter of accidents. The community at large sympathise, most deeply sympathica with him in this last misfortune, but this we are reluctant to say, is not adequate to his present wants. Prostrate and disabled at this period of the year, with many pressing necessities, substan-tial regard is needed on the part of his friends, and we know that in former days their name was legion. This bare intimation of what the argency of the case demands, we hope may be sufficient.

MEETING OF BOARD OF SUPERVISORS. It will be seen by the following Act recently passed by the Legislature, that the new Boardof Supervisors are required to meet on to-day for the purpose of organization :-

Chapter 128. Au Act regulating the meetings of the Boards of Supervisors. Passed December 22, 1888. Be it enacted by the Legislature of West Virginia:

1. That the Boards of Supervisors of the several counties of this State shall meet statedly, at least four times in each year, at the court house of each county, and may hold special and adjourned meetings. Their stated meetings shall be held on the first Tuesday in January, the third Monday in May, the first Wednesday in August, and the fifth day after the annual State election in each year. A special or adjourned meeting may be held, if necessary, at another place in their county.

2. Every meeting shall commence at ten o'clock in the forenoon, or as soon thereafter as possible, unless a different hour be prescribed by an ordinance or order of the board. 3. The said boards elected at the last State election shall, at their stated meeting on the first Tuesday in January next, organize their respective boards by the appointment of a President and Clerk.

POSTPONEMENT - We are requested to announce that the Tableau exhibitions proposed to be held on Tuesday and Wednesday evenings last, were anavoidably postponed in consequence of the hall of Messrs. Humphreys & Hooff not being finished. They will be held some time during this month, of which due notice will be given."

SAD ACCIDENT .- We regret to learn that about a fortuight ago, a little daughter of Mr. Morris Cavenaugh, living near Duffield's Depot, in this county, was burned so badly as to result in death in a few hours. It seems that her mother had stepped out of the house to attend to something outside, leaving a fire on the hearth, and when she returned found the little girl almost burned into a crisp. She lingered in agony for about two days, when death ended her sufferings.

LIBERALLY PATRONIZED .- Both of the colored Churches of this town gave dinners, suppers, &c., during the holidays, by which The ground being quite slippery, he missed | quite a large additional sum was added to the fund needed for the completion of their respective edifices. They are both now ready for occupancy.

> ARRESTED .- On Monday night last, Capt. Moxley received a telegram from Harper's Ferry, stating that a mulatto calling himself William Thompson, guilty of the larceny of \$100 from John H. Washington, Esq., had left there on the 9.20 train. On the arrival of the train here Thompson was duly looked up and nabbed by the Captain and conveyed to the lockup, where he now is awaiting transfer to the Jefferson authorities.

TBerkeley Union.

BELLIGERENT .- The free citizens of African descent, had a general and free fight among themselves, during the Christmas holidays, in Shepherdstown. The ring leaders were arrested and fined accordingly. Cause more whiskey than brains.

IMPOSING .- By far the most recherche affair of the season, came off at the colored Baptist Church of this town on Thursday last. It was the nuptial ceremonies of some loving twain, who long had leved, "if not too wisely," being united together by the silken chord of matrimony. More than a hundred were in attendance to witness the imposing ceremonies, the damsels, like "sister Dinah," in most "gorgeous array." We only learned the name of one of the happy pair, and as that was Blue, we presume the other was Black. We learn that the utmost decorum was observed, and all things passed off "merry as a marriage bell."

SAD ACCIDET .- We learn that Clayton Spangler, son of Mr. John Spangler of this County, aged about 16, years, was crushed so severely, at Kerneysville, on Wednesday night last, on the B. & O. Railroad, by a train passing over his body, as to cause his death in about three hours after the accident occurred. It appears that he was standing upon the track and did not observe the approaching train until too late to make his escape.

OFFICERS: CLARENCE H. CLARKE, President JAY COOKE, Chin's Finance and Ex. Comm. HENRY D. COOKE, Vice-President. EMERSON W. PEET, Secretary and Actuary. This Company, National in its character, offers

by reason of its Large Capital, Low Rates of Prenium and New Tables, the most desirable means of insuring life yet presented to the public. The rates of premium being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the compliations and uncertainties of Notes, Dividends, and the misunderstandings which the latter are so apt

to cause the Policy-Holder. Several new and attractive tables are now pro sented, which need only to be understood to prove acceptable to the public, such as the INCOME-PRODUCING POLICY and RETURN PREMIUM POLICY. In the former, the policy-holder not only secures a life insurance, payable at death, but will receive, if living, after a period of a few years, an annual income equal to ten per cent. (10 per cent.) of the par of his policy. In the latter, the Company agrees to return to the assured the total

amount of money he has paid in, in addition to the amount of his policy. The attention of persons contemplating insuring their lives or increasing the amount of insurance they already have, is called to the special advantages offered by the National Life Insurance Com-

SHRINER'S BALSAMIC COUGH SYRUP

Will cure the ASTHMA, BRONCHITIS, BLOOD SPITTING, DIFFICULTY OF BREATHING. PAIN and WEAKNESS IN THE CHEST, TROUBLESOME COUGHING AT NIGHT, &c. It will effectually remove the Cough that frequently follows Measles, and any affection of the respiratory organs, no matter of how long standing, or whatever the age of the person. It acts as a specific, is purely vegetable, and is pleasant to the taste. Its effect is soothing, alloying the violence of the cough, facilitating expectoration, quicking the nerves and exhilirating the system. Mothers, Save Your Children!

No child need die of CROUP, if this Syrup is used in time: this is a fact demonstrated by experience. No family should be without this Syrup, as that fatal disease, CROUP, comes like a thief in the night, to steal away your little ones, when regular medical aid cannot be obtained. Prepared only by
