LONDON! OCT. 1. Despatches of the 23d ult. were received at the Foreign-office in Paris, on Tuesday from M. de Rayneval, the French Ambassador in Madrid, in which a most alarming account is given of the state of things in that capital The excessive exertions of M. Mendizabal had injured his health, and he had not been able to apply himself with his accustomed energy and perseverance to the great object he had unddrtaken. General Alva had accepted the Foreign Department ad interim, but it was believed that he could not, or would not remain in the Ministry. The chief difficulty which M: Mendizabal had to encounter in constructing his Cabinet arose, according to the French Ambassador's account, from the jealousy of English ascendan-

By a telegraphic despatch Monday's Moniteur, which with the rest of the Paris papers we have received by express, it appears that General Mina has been appointed Captain-General of Catalonia, and that on the 22d inst. when the news reached Barcelona, the city had been illuminated, and Riego's hymn had been sung at the theatre. The despatch is dated brothe 25th, from Narbonne, and intimates that new disturbances were feared at Barcelona. A letter of the 19th, from Valencia, is also quoted in the Monteur, stating that after a commotion in that city the Conde de Almodovar had been compelled to seek refuge on shipboard. Armed peasants, to the number of 1,500, had entered the town on the 18th, and pillage was

Bilbon, Sept. 22 .- Private Correspondence. The Carlists continue in this neighbourhood. Don Carlos was, at noon on Saturday, at Ochandiana, with one battalion of Guides.

The Carlists are stated here to have lost much courage, since the arrival of the Britsh legion, and the defeat of the column on the frontier of Catalonia.' The change of Ministry at Madrid is also considered favorable to the cause of the Queen, for much confidence appears to be put in the integrity of General Alava; and in the abilities of Senor Mendizabal.

There are daily desertions from the Carlists to this town. Yesterday morning 8 came over, and in the evening more. I saw two this morning, who assured me that the greater part of the Carlists, who have been forced to enter the ranks, are only anxious for an opportunity to return with safety to their homes; an opportunity which the presence of the British troops insures to many of them. There are also several corps of volunteers who have offered their services to fight un-der the command of the British Gen-

In relation to the quarrel between he settlers in Texas and the governnent of Mexico, and to the spirit and intentions avowed by numbers of our Southern citizens in reference to it, we find the following sound views expressed by the Baltimore Chronicle: ."The citizens of the United States

Jesse Grindstone, running, under great disadvantage in the first heat, complained in left fore foot, and was evidently not in a situation to run; though his performance in the first heat won him many friends. Drone was not in the least listressed, and calculations were made on his taking the purse. At the sound of the bugle the riders mounted, and coming up very quietly to the stand, the judges tapped the drum, and the the judges tapped the drum, and the five sprang forward, whilst the cry of "they're off" burst from the crowd. The run for the first half mile was beautiful: Camsidel being about a length ahead, and the others strung along behind her, "like herrings on a stick." It soon became apparent that Drone was wideawake, and that he was unwilling to yield the prize to Sally without astruggle-he therefore made for the lead, which was after a short parley yielded to him by Gimerack and Camsidel, and thus they passed the stand the third as it is unquestionably one of the best time. THURSDAY, NOVEMBER 5, 1835. Ourselves - Our Patrons - Our Prospects. After many years of incessant toil and apnaturity and permanency which he thinks no ordinary circumstances can affect. A newspaper is a thing not to he built up in a day. It requires an unusual degree of perseverance, and much, patience under disappointment. is the object of every body's criticism, and its editor is expected to shape his course to suit very body's whim. If he attempt to plans

other, and if he should aim to minister to the palates of both, he is pretty sure to gratify neither. What then is to be done? Why simply this-(and we speak from some experience)--He must follow the dictates of an lionest judgment-expecting, like all other mortals to do much that is wrong, and to commit many errors in moments of haste, for which, if he could, he would willingly make atonemer and having done the best he could, trust t time and reflection to do him justice.

In our case, "pursuing the even tenor of our many good friends; but we have left them a free to pursue their own judgments and feelings as we were ourselves. Sir—My wife lately had a distressing attack of the Mumps, from which she was confined to her bed near a week. In mentioning her case to my neighbor, Mr. John Cole, he told me his miller had been so seriously afflicted with it it was with difficulty he could swallow. The family became quite uneasy about him—they tried different things without success, until they applied Mr. Herstons' Ointment. In fifteen minutes after applying it the pain ecased—he continued mending from that time till perfectly oured—in two or three days he attended to his mill and business as usual. Having confidence in Mr. Cole's statement, I applied the ointment in my wife's case. I am pleased to inform you it acted with the same twocess—it made a perfect cure. This disease has prevailed extensively in our neighborhood this winter and apring CHRISTOPHER LONG.

The statement above given of my miller's case is a correct one—he was severely afflicted, and was relieved by applying Mr. Herstons' ointment. This circumstance induced many of our neighbors to apply the ointment in this disease, then prevailing.—I have understood its effects were uniformly successful.

HENRY LOUTHAN,

Frederick Co., Va.

Dear Sir—I have used the Balsam of Health which I procured from you, with great benefit, if not with entire relief. When I procured it, I was sorely afflicted with Dyspepsia, attended by all its distressing symptoms, head ache, giddiness, heart-burn and the thousand herrous affections which secondary it, in its worst stages: 'At times, such was the debility occasioned, that I was best ridden. I think I can say that the first relief, if not the entire sure, was produced by the use of the Balsam.

ISLAND MILL,

NEAR HARPERS-FERRY.

THE undersigned is now ready to receive GRAIN, and to grind in a superior style. He will give one barrel of Flour for every 300 pounds of merchantable Wheat, and will stand the inspection in any market to which it may be sent. From his experience as a miller, and the excellent order of the mill at present, he feets great confidence in being able to produce first-rate Flour.

He will buy Wheat for cash, at fair prices; and those who wish to get rid of the trouble of sending their Flour to market, can be accommodated by him at the lowest possible rate.

During the Flaister season, he will always be ready to grind that article; and will generally keep a supply on hand for the accommodation of his customers and farmers generally.

Aug. 13, 1835—tf.

THE subscribers take this method of informing the customers of the FORD MILL, and farmers generally, that they have entered into partnership in the Milling business, (at the Ford Mills on Shenandosh River, near Keyer's Ferry,) in the name and under the firm of DANIEL SNYDER & SON, commencing or the 1st day of the present month, (August,) and that they are now ready to do business on such terms as cannot fail to be satisfactory and advantageous to farmers. From the advantages which this mill possesses, in point of power and a sufficiency of water at all times, as also the easy transpectation of Flour from the door, we are induced to believe that we can pay as high prices for wheat, at all times, as any other millers. Farmers generally will consult their interest by giving us a call when they are ready to dispose of their wheat. To our old customers we say, that a continuance of their business will be expected, as no pains shall be spared in accommodating them.—Those who grind their wheat on toll, and wish advances, shall be accommodated; and the trouble of sending their flour to market need give them no uneasiness, as we will attend to it at any time when they wish it, by giving us when wanted, will be furnished at cost. A few days' notice previous to the time it is wished, will be necessary.

VALLEY HOTEL, Charlestown, Jefferson County, Virginia

In January last, acting as agent for a joint stock company, I opened a House of Entertainment,

At the commencement, it was my intention to keep literally a "Temperance Hotel;" but for considerations not necessary now to mention. I have kept and shall continue to keep the best liquors the country affords.—Nevertheless, I hereby pledge myself to the public that there shall be no intemperance in a house over which I have control. I have heretofore done business for ready money only, and by doing so, have found reciprocity of interest between my patrons and myself. I keep no book at my bas, at this time, nor shall I ever keep one. Of course no credit will be expected; certainly none will be given. Under all the circumstances before stated, I sak and solicit's continuance of public patronage.

THE Editors of the Compiler.

It is compiled to the paper, to give it a sprinking of politics. They know there is such a thing as surfeiting the reader with political matter, yet a paper entirely devoid of politics, is like a dish without seasoning; or, as has been apply said, "a pudding without satter," it has no charms for people who take su desided an interest in public affairs as the people of Virginia usually take.

Hichmond is looked to as the centre of the political system, the point where, at least during the Legislative sittings, the concentrated power of the Statgresides; and it is from this point that intelligence is expected to be scattered over every part of the Commonwealth.

We shall, therefore, take a desided, though decorous part in the politics of the day, in our paper for the country, which we present ander the title of "The Richmond Contrier and Semi-Weekly Compiler." We shall, as we have already stated, battle for the principles of Virginia and a Constitutional Union. We believe that both are now imperilled; and, under that belief, we shall raise a varsing voice so long as we have any hope that our country men can be awakened from the fatal security in which they now soem to be reposing.

With this brief exposition of our views and
