Notice to Farmers. HE subscribers take this method of in-forming the customers of the FORD MILL and Farmers generally, that they have entered into partnership in the MILLING BUSINESS

at the Ford Mills on the Shenandoah River near Keyes's Ferry, in the name and under the firm of FORD & SNYDER, commend ing on the first day of the present month, (July.) and assure all those who are disposed to do business with them, that they are determined to pay the highest market prices for WHEAT and other kinds of GHAIN, defor WHEAT and other kinds of GRAIN, delivered in their Mills, or delivered at any receiving point on the Rail Road, or at any convenient point on the River. From their confidence to all those who have Wheat to dispose of, that it will be greatly to their interest to give them a call before they make a disposition of the same; and they earnest ly request their former customers not to make any disposition of their Wheat without first seeing them, as they are wall satisfied that no miliers west of the Blue Ridge can afford to pay better prices than them selves. To any of their customers that may prefer grinding, liberal advances will be made, and strict attention paid to their instructions. The Bullskiff Mills, formerly belonging to John staines, dec'd, and Mr. John Myers, will still be carried on by the undersigned, and one of said Mills kept expressly for the reception of Rye and Corn; for which kinds of grain the highest markst price will at all times be paid. Fish, Salt, price will at all times be paid. Fish, Salt, and Plaster, will be kept at the mills, for the accommodation of their customers and those disposed to deal with them.

In closing this brief notice, they should be acting ungrateful to their feelings were they not to offer their sincere thanks for the very liberal encouragement they have here tofore received, and hope, by promptness, and a strict attention to business, to merit a continuance of similar favor. ontinuance of similar favor. ON EDUCATION.

Men's throughts, says Lord Bacon, are much according to their inclination; their discourses and speeches according to their learning and infused opinions; but their deeds are after as they have been accustomed. Hence the necessi ty of keeping a child at good customs until the habit is formed, and he will then, as a matter of choice, continue in the right. Choose that, says Addison, which is best, and custom will seen make it the most agreeable. Machiavel observes that there is no trusting to the force of nature, nor to the bravery of words; except they are strengthen ed by custom. The predominancy of custom is every where visible. The youth who learns deceit, boasting, and lying, will, a hundred to one, continue to be a boaster, a liar, and a hypocrite. You may hear a man give great words, make declarations of violence, swear that he would walk ten miles to chastise men for offences, brave the storms and encounter the savage wilderness of Texas, and then do just as he had done before. In Hindoostan, the inhabitants lay themselves on piles of wood, and are consumed by fire; wives volun-tarily commit themselves to the flames, to be burned with the dead bodies of their husbands. In this country the doctrine of christianity prevails; consequently, widows have a better custom-Generally, they get married as soon as they can find an opportunity.

Many examples might be given of the force of custom, both upon-the mind and body. Therefore, says the wisest, who has also been called the basest of men, since custom is the principle magistrate of man's life, let men by all means endeavor to obtain good customs. Certainly custom is mos perfect when it beginneth in young vears. This we call Education, which is in effect but an early custom.

So we see, in languages, the tongue is, more pliant to all expressions and sounds, the joints are more supple to all feats of activity and motions, in youth, than afterwards. .

and separate, be great, the force of custom, copulate and conjoined, and col-

emulation quickeneth, glory raiseth; so as, in such places, the force of custom is in its expltation. Certainly the great multiplication of human nature resteth upon societies well ordained and disciplined; for commonwealths and governments do nourish virtue grown, but do not much mend the seed. But the misery is, that the most effectual means are now applied to the ends least to be desired. Therefore, if we wish our children to gain the good custom of attention to their books, we must be careful that they do not become accustomed to roaming at night, to violating the Sabbath, and keeping bad company.

THE SUN OF HUMAN HAPPINESS. "Were I offered my choice," said Lord Byron, "either to live my life over again, or to live as many years more onward, I should prefer the first; yet my young days have been vastly more unhappy than I believe those of othe men-commonly are. I once attempted to enumerate the days I had lived which might, according to the common use of language, be called happy; could never make them amount to more than eleven, and I believe I have a very distinct remembrance of every. one. I often ask myself whether, between the present time and the day of my death, I shall be able to make up the round dozen." Such is the sun total of human happiness. Gibbon tells the story after him, and boasts that he had exceeded the commander of the faithful—he does not state by how much, perhaps by double. Were I to choose my lot in life I would not be a poet, though it is possible for a poet to get through life tolerably easy; yet the chance is against him. After all, a bustling man of business, one who has

"Quantity of PINE WOOD, to be delivered at their Depois at Cameron's Spring and the present time and the day of the present time and the divergence by the list of September next, or earlier if practicable. The wood is to be cut in engths of 4 feet, and to be corded up at the expense of the contractor.

Any person wishing to contract, will please furnish the subscriber with his proposition, on or before the 10th of August next, stating the whole amount he will furnish, the price of the contractor.

For further information apply either personally to the subscriber on the line of the Railroad, or by letter addressed to him at Winchester. one. I often ask myself whether, bebustling man of business, one who has not leisure to think of the ills of life. nor any great acuteness of sensibility to expose him to their attacks, such a man has the best chance of happiness. Some Frenchman, I forget who, has stated that, to enjoy this world, one must have a good stomach and a bad heart. I think a man may have both and be very miserable."
