Upon being toasted, Mr. Fox replied

as follows:
GENTLEMEN I am overcome with gratitude which you have been good enough to drink my health. I want words to express my sense of your kindness. The friendly, and I may say, the affectionate welcome which I have met with in America, can never be efficed from my recollection. If my conduct, as British representative in this accurate. with 11 America, can never be effeced from my recollection. If my conduct, as British representative in this country, shall in any, way contribute to strengthen the ties of friendship which now unite America to England, that will indeed be the most fortunate circumstance of my life. Gentlemen, it has been my destiny, in the public service, to be many ryears absent from my native country. But I assure you, that I have felt, upon landing in America, as if I were at once returned to my family, and my home, and my native land. I have found myself among men who speak the aame language, who have the same thoughts, habits, and feelings—who are governed, almost, by the same laws and institutions—who look back with pride upon the same pages of history—who delight in the fame of the same poets and orators—in short. I have found in America another England.

Gentlemen, you have been kind enough to allude to the name which I bear, and to the affection with which that name is cherished in America. I thank you most cordially for that friendly allusion. I feel, indeed, in this country, a peculiar pride in being related by birth to a British Statesman, Mr. Charles Fox, who was the truest and carliest friend to America that appeared aunongst my countrymen.

Among the points raised by their argument, was, that the law to punish offences of this character had expired with the charter of the Bank on the 3d of March last. The jury, in consequence, found a special verdict— "Guilty," provided, &c., leaving the point of law to be decided by the point of law to be decided by the judge. On Monday, the question was argued before the Court, and on Tuesday morning Judge Caldwell delivered his opinion, that the law was no longer in force, and rendered judgment on the verdict accordingly in favor of the prioner.

A general demurrer was then entered by Dinge's counsel to the other indictments, which was sustained by the Court, and the prisoner discharged.

VIRGINIA ELECTIONS. Les County .- Mr. Collier (V. B.) elected over Mr. Caldwell (Whig.)

ablican says that Mr. Fairfax is "a sterling Democrat, and no Whig"-that is, a democrat according to the modern acceptation of the

term-like Mr. Taney. If Mr. Fairfax be a Whig, then the parties in the House of Delegates will stand thus: Van Buren 76, Whig 58-total 134. Senate: Van Buren 20, Whig 12-total 32.

This apparent disparity, in favor of the Van Buren party in the Legislature, might, at first view, seem discouraging; but let it be remembered that the large Whig majorities are distributed in a few counties, whilst those of the other party are dispersed throughout many .--For instance—the country from Richmond city to the scaboard, between James River and York River. can give the Whig ticket 1000 majority-the Eastern Shore counties (Accomack and Northampton) 1000; Loudoun 800 to 1000; Augusta 1200; Bedford, Pittsylvania, and Campbell 400. On the other side, flah fax and Mecklenburg may give 500; Shenam doah and Rockingham together 1200; Monon galia 1000; and Harrison 1000. These are liberal allowances to our opponents. Elsewhere we may admit the accounts to be balanced, and still we shall have enough to beat the

Northern candidate. But we shall endeavor to render demonstra tion more complete in a short time, by the preparation of a table shewing the actual popular vote at the late elections; though this task will be somewhat difficult, owing to the fact that in some counties there was no regular opposition, and in a few no proper test of party strength was made.

It is well known that we are not of the most sanguine temperament; our friends sometimes upbraid us with looking on the dark side of the picture; but we feel a perfect confidence in picture; but we feel a perfect confidence in taking the opinion that the Whigs can carry the State triumphantly in November, if they but resolve to use their strength. Catching a Flea.—An English lady who lived in the country, and was about to have a large dinner party, was ambitious of making as great a display as her husband's establishment, a tolerably large one, could furnish; so, that there might seem no lack of servants, a greatlad, who had been employed only in farm-work, was trimmed and ordered to take his stand behind his mistrees's chair, with strict injunctions not to stir in farm-work, was trimmed and ordered to take his stand behind his mistress's chair, with strict injunctions not to strict on the place, nor do any thing unless she directed him; the lady well know ing that, although no footman could make a better appearance as a piece of still life, some awkwardness would be inevitable if he were put in motion. Accordingly, Thomas, having thus been duy drilled and repeatedly enjoined, took his post at the head of the table behind his mistress; and for awhile he found sufficient amusement in looking at the grand set-out, and staring at the guests. When he was weary of this, and of an inaction to which he was so little used, his eyes began to pry about nearer objects.

PERFORMANCES.

Tyrant has run nineteen races, winning ten. In his races, run at different distances from one to four mile heats, he has displayed remarkable speed as well as enduring bottom. He won, at 3 years old, a sweepstake, Det. 26, 1833, at Middleburg, 2 mile heats, beating Betsey Baker and others, in two heats with case. Time, 3m 53a.—3m. 55s. Course said to be eighty yards over a mile. He at 4 years old won Oct, II, 1833, the Jockey Club-purse of \$500 at. Washington City, D. C. four miles and repeatin two heats beating the miled gelding Backetor, by Tuckshoe, and Reform by Marylander, Bachelor dropping in his distance the first heat. The 2d heat was run in 7m. 57s., the best 2d heat ever made over that course, and remarkable, considering that the track was forty feet over a mile, and very heave at the time.—The following week, at the Central Course, Md., four mile heats, for the Jockey Club purse of 1000 deliars, he contended with Wm. R. Johnson's celebrated race mare, Trifle, and others. In this race he evinced—great fleythess sailastingness, three heats were run before the contest was decided in favor of Trifle. Fime, 7. 54s.—7m. 57s.—8m. 2s. Tyrant was beaten about a beingth the 1st heat—sia the 2d he was next to Trifle, and in the 3d heat was third. In the Spring of 1531 he ran evered races and was heaten. Although laboring under the disternier, as was after wards discovered, he made very quick time in two instances. On the 8th May, 1834, at Washington City, D. C., Busiris, one distance with parked the best sons of Northern Ectipse, and Tyrant, Tyrant carrying three pounds and a half more than his proper weight, iran 2s heats of three miles each by the extraordinary time of 5m. 48s. In the 2d heat was pursued in the distance—run in 8m. 6s—the 3d heat run in 7m. 59s. Tyrant, in the third mile thereof, came up, challenged, and passed Mr. Garrison's horse and Mr. Johnson's mare, only 18 inches, the heat being made in the extraordinary time of 7m. 48s. In the 2d heat he dropped, and was distanced.

A more full and complete detail of Tyrant's racing career may be found in the Turf Regis-In justice to Tyrant his owners do not he heat

to justice to Tyrant his owners do not hepitate to assert, that he never ran in any race in condition, except at Middleburg.

Tyrant is not the only one of his dam's family that has become distinguished for his tracing performances; Veto, his full brother, has acquired a high reputation on the turf—having won three out of four races in remarkably quick time, showing no lack of bottom. And his full sister, who has been trained, is pronounced to be one of the most promising fillies in the lower part of Virginia.
