Copy of Mr. Bailen's Letter. NEAR NOTTINGHAM, Prince George's County, January 26, 18:37.

Sir—I received yours of the 14th, making inquiry respecting the "Mary-land Gorn," which you understood I hadraised. I have the pleasure to say, that I have brought this corn to a high state of perfection, by carefully select-ing the best seed in the field for a long taking only that which appeared sound and fully ripe, having a regard to the deepest and best color, as well as to the size of the cob. In the spring, before shelling the corn, I examined it again, and selected the best in all respects. In shelling the corn, I omitted to take the irregular kernels at both the large and small ends. Thave carefully followed this mode of selecting seed corn for twenty-two or twenty-three years, and still continue to do so.

Mr. Hunter replied to these several years before I could discover rather singular remarks of Mr. C., and conmuch benefit resulting from my efforts; however, at length the quality and Messrs, Cooke and Lucas, furnished no corquantity began to improve, and the improvement was then very rapid. At present I do not pretend to lay up any seed, without it comes from stalks which bear four, five or six ears. I have seen stalks bearing eight ears.—

Early last spring, I let George Law,
Esq., of Baltimore city, have some of
this seed corn; he sent it to his friend in Illinois, with instructions how to manage it. A few weeks since he informed me that the increase was one hundred and twenty bushels on an acre; that there was no corn in Illinois like it, and that it produced more fod-der than any other kind. I have supplied many friends with seed corn, but some have planted with other corn, and will, I fear, find it degenerate. I have lately been inquired of, if

In the for-mer, there will be found more damp-ness in the cob, although the kernel may appear equally ripe in both. In the two last years, the wet seasons have injured much corn that was too early "lofted" or housed.

I believe I have answered most of your inquiries. I hope I have not ex-aggerated—I have no motive for doing so. I raise but little corn to sell, as tobacco is my principal crop. Should I fail to send you some seed this spring, I will next summer, gather some stalks with the corn, fodder and tassels, and ell, as they grow, and send to you, that you may judge yourself of the superi-ority of this over the common kind of

The original bill, providing for the creation of several new banks, was lost, and a substitute offered by Mr. Randolph, placing the increase of capital in existing banks, adopted in its stead. The provisions of the substitute are said to be much more favorable to the interests of the West, than were those of the original bill, or of the first subtitute, offered by Mr. Steuart. Another termination of the war, and another re-newal of hastilities.

There appears to be no end to the riliculous rumors set affoat by Gen. Jesup, of his ability to put an end to the war with the Indians by treaty. An express, of date Feb. 25, from Gen. This very celebrated and unsurpassed English Race Horse and Stallion,

English Race Horse and Stellison,

B ECENTLY selected by me in England

B for his briliant career on the turf, his fine hone and size, his gkeedingly rich, fashionable, and running pedigree, and many other recommendations not often met with, is a remarkably rich and handsome bay horse, near 16 hands high, with fine hone and seitom, great power and sibelance, excellent and clean limbs, and a mocommonly full carease. Is blood, performances and power as a liase livree, he has no superior as a cross for our American mares, heing of a lamily celebrated both for its speed and its game, and combining the best blood of all England-ens Prunells, from whom see descended Waxy Pope, Whalebone, Whisker, and a host of others; I oung Giantess, from whom came Priam and Muley; and from Selim (lie sire of Sultan, now covering at \$250.) own brother to Rubens (the grand sire of Cansarine, and Castrel (grand) sire of Queen of Trumps, only winner of both Osks and St. Leger, and running back to Matchem's grand dam.

Gentlemen are invited to examine Felt's history in the American Turf Register, vol. 7, page 398, from which the following extracts are made:

"FELT, fonded in 1826, was by Langer, (a sign), who sold for near \$25,000, Famine, Flame, Ples. Poam and others, own sister to Starch by Was and Starchy, vinwer of the great St. Leger, Singo, Harefoot and other winners)—Langar was by Selim (brother to Castrel and Rubeus) dam by Selim (brother to Gastrel and Rubeus) dam by Selim (brother to Selaror). Langar is nearly the same blood with the celebrated Sultan (now the same blood). the same blood with the celebrated Saltan (now-covering at \$430.) heing got by the same horses, their dams by own brothers—Langar is the sire of several first rates—Elesnor, best mare of her day and the pray winner of both Derby and Oakw, dam of Muley; g. d. of Lusborough, Margrave, and Levisthau. Waxy Pope was by Waxy; his dam Prinnella, (dam also of Penelope, Parasad, Pelisse, Podargus, Ploneer, Pleelope, Parasad, Pelisse, Podargus, Pope, called also Lord Sliga's Waxy, was not only winner of the Derby, but first as a runner and stallion in his day. Felt, at 4 years old, won 7 races out of 9 starts, being best short distances and winning the extraordi-A years old, won 7 ruces out of 9 starts, being best short distances and winning the extraordinary number of five cups which I do not remember to have been done by say other horse—he best many espital runners, among them Bolivar, Robin Hood, Clotilda, Frederick, (winner of the Derby,) Stoforth, Retriever, Lawnisleeves, Perseverance, Dr. Faustus, (21 times winner,) Halston (22 times winner,) Terror, (17 times winner,) Mona's Pride, Cistercian, Gulide, &c. To very many of these horses he gave weight—won at fashionable crures, and generally made play, relying on his great stoutness and game."

Extracts from authentic English Registers and

"Felt started this year 9 times, and won 7 important races, 5.0, which were Gold Cups, and ran second in the 8th race, being beat by a head, and beating the winner three or foot times on other occasions. He won in cups and stakes \$15,000, and lost in all his racing career only four times. A most extraordinary and splendid performance, especially when it is considered that he frequently carried heavy extra weight." The following strong evidence of his high character, is taken from the Sporting Magazine for

1850:

"Having this year recruited his stable with Lord Worcester's Relt, his Lordship has beed a gallant winner—having with this horse carried off both the great Tradesmen's Cups at Chester and Liverpoot; and a Cop or two elsewhere. I wish he had another mag or two in his stable like Pelt." "That Pelt is a first rate one, will not, I fancy, be denied by any one"—pp. 66, 256,—He beat more than 300 horses!"

"Pelt's career on the turf was so brilliant in Empland, that it caused his sire. Langar, to

I sak it to be borne in mind, that the colts of all the horses which we have imported, that are old enough and have been tried fairly, are windered, and many of them capital winners in England, as Chatean Margaux, Luzborough, and Plexible. I will also call the attention of breeders to the running of the colts of such imported horses as have them old enough to run, and they will see them winning all over the United States, under every disadvantage. I see that the only filly of Charcau Margaux, that has run in-American best at three bests with very great case Vertunnus by Eclipse, and Hobe by Gohanna and Sally Jenkins, over the Charleston course, winning the two last heats hard in hand in the exection of the blood horse any longer doubt the superi-

A. T. B. MERRITT.

It will be seen by the annexed terms, that Dr.

Felt to make a sesson here much lower priced
than he did last year in a country where he was
justly a favorite, and had a crowded sesson. He
will stand this season (which has commenced,
and will end the last July) at my stable about 25
miles cast of Battletown, in Clarke country, Virginis, at \$30 the lesp, if paid when the service
is performed, if not, then it will be considered

paid on or before the 2d day of July next; and
\$75 insurance, to be paid as soon as line mare is
known to be in final, parting with the mare, or
irregular attendance at the stand, forfeits the insurance; and 50 ceats cash to the groom, to be
sent with the mare. Pasturage can be furnished at 50 cents per week, but I will not be secontable for scaldards or secapes. Gentlemen wishing their mares fed on grain will give written
directions to that effect, as it will be purchased
