THE FREE PRESS.

CHARLESTOWN.

TUESDAY, MAY 15, 1837.

WILLIAM K. BOND, or Ohio.

We have been requested to publish a speech delivered by this member in March last, in the House of Representatives, on the motion of Mr. Hopkins of Virginia, to divorce the Government and the Press. Relating this speech complete with important and authentic information, that it reveals a collection of astounding facts long withheld from the mass of the people; that it is temperate in style, and judicious in statements, and well calculated to do much good, we have concluded to give it a short and neat edition, in pamphlet form, of this useful production, in a few days. We request the aid of our friends in diffusing so forcible an exposition of the former prosects and present practice of the powers that be, that they may be sold at 15 cents, and the dozen at 30 cents—and a still greater reduction for larger quantities.

It is desirable that orders be handed in the post-office, to enable us to furnish you of the number which may be required.

NATIONAL CONVENTION.—It will be agreed, in due course, that the Whig members of Congress have settled upon a time and place for holding a National Convention for the purpose of nominating candidates to be supported by the Opposition, for the next Presidency and Vice-Presidency.

As to the composition of the proposed Convention, we agree with our colleagues, that it should consist of delegates from each State, answering in point of numbers, to its Senators and Representatives. Each Congressional District should, by a Convention, depute one delegate, and the Whig members of the State Legislature should appoint two delegates, to answer to the two Senators. In States where the election for members of Congress is by general ticket, a Convention of the whole State would have to be resorted to.

In this mode, the sense of the people of the several States would be fairly and fully ascertained. Intrigue and pre-arrangement would be almost impossible. No Rucker could possibly gain entrance to such a Convention.

OHIO.—A State Convention, for the nomination of a Whig candidate for Governor, will meet at Columbus, Ohio, the 31st of the present month. It will be an unusually large assembly. Some of the counties have four or five hundred delegates.

The Cincinnati Express exhorts the Whigs of Ohio to nominate Gen. Harrison immediately for the Presidency. We think that the Convention of the Ohio Whigs might be induced to act in this regard in the election of a National Convention. It gives no sincere pleasure to us, that no other paper in the whole State, so far as we are informed, votes with the Express in this. There certainly can be no doubt of the adoption of the policy, and we have not a doubt that Gen. Harrison approves and deprecates it as heartily as we do.—*Louisville Journal.*

NEW YORK.—The Whig Members of the Legislature of New York assembled on the evening of the 13th of April—and

Resolved, That a WHIG STATE CONVENTION be held at Utica, the second Monday in September, for the nomination of candidates for Governor and Lieutenant Governor; and that each county be requested to send delegates corresponding in number with their respective representatives in the Assembly.

Resolved, That we do concur in the Democratic Whigs throughout the Union, in assembling a NATIONAL CONVENTION, at such a time and place as the Whig members of Congress may designate, to nominate candidates for President and Vice-President of the United States.

Resolved, That notwithstanding our individual preferences for the distinguishing characters of our party, and by their principles and their country amid the corruption and dangers which have surrounded and assailed them, we will yield them all, and give to the candidates nominated by such convention our united and most cordial support.

Trial of Dr. Vaughan for the murder of Mr. Flewatt.—The Richmond Whig of Saturday last says:

An ineffectual effort was made yesterday, by the counsel for the prisoner, to postpone the trial until the November term, on the ground of the absence of a witness deemed material. The application was rejected, but the court adjourned to the next day, and the defense had time to secure the attendance of the witness, who lived within 35 miles of this city. The Judge, however, very properly agreed to allow reasonable time to procure the attendance of the absentee, and awarded a recess accordingly. The case, though set for today, will probably not be fully entered upon until Monday. The trial excited much interest, and crowds attend the Court-house, before the trial comes up with time. One witness was captured, from whom Col. H. learned that Sam Jones had made a junction with the Whig party, and that the Whig and Democratic parties consisted of 35 Alcibiades and 27 Seminoles.

MISSISSIPPI.—Prestis is "unbowed." elected. There is still some doubt about the election of Word. The contest between Claiborne and Ward has been close. The general belief, however, that Word is elected. The election of the gifted Prestis is glory enough for one election.

P. S. All doubt removed.—Prestis and Ward certainly elected.—The Baltimore Patriot, of Maryland says: "We concur that both Prestis and Word are elected; and it is believed that the majority of the former will turn out to be about 1000, and that of the latter about 300. Average Whig majority between six and seven hundred." At the election, only nine months ago, the Whig majority in Mississippi was near 4,000."

This Abolition Hall, destroyed by a mob in Philadelphia, on Tuesday last, was a large building, capable of containing 3,000 persons. It was just finished, at a cost of 40,000 dollars. It was first opened on the 14th inst., and it is said that meetings were held and addresses delivered in it by the Abolitionists, every day and evening up to the time of the burning.

The mob did not rest satisfied with the destruction of "the Hall." On Friday night the Abolition School House, a large four-story brick building, was broken into by the mob, and set on fire. The firemen, however, in this instance, succeeded in arresting the flames and saving a portion of the building.

These occurrences, however much they may be regretted, cannot create surprise. Whenever the Abolitionists attempt to put in practice their abominable and disgusting doctrines, they will find the moral sense of the people everywhere revolting against them.

The Baltimore and Ohio Rail-Road Company have made a contract for the construction of the Rail-Road so as to avoid the inclined plane at Park's ridge.

VIRGINIA ELECTIONS.

THE FINAL RESULT.

Randolph—Mr. Sturms, V. B. elected.

Jones—Mr. Farley, V. B. elected. Rep-

sented last year by a Van Buren man.

Preston—We learn from the Wheeling

Times that William Carroll, V. B. is elected.

The above were the last counts to be

heard from. They give the Administration

party in the House of Delegates 61, including

the Conservatives, several of which 73,

including the vacancy in Buckingham, (caused

by the death of Mr. Jones, a Whig) and the

vacancy in King George.

The Clarkburg Countryman, a thorough-

going Van Buren paper, sets down the dele-

gates (Hissom and Clayton) from Monong-

alia and Whigs. If this be so, and we have

no right to doubt it, it gives the Whigs a gain

of one—Mr. Haymond only having been

claimed by us.

This gives the Whigs 74 in the House of

Delegates, independent of the members from

Fayette and Nicholas (who, it is stated, will

give Whig votes) and the Conservatives, and

reduces the Administration party, allowing

for the loss of Jones, to 61.

Thus, we have a majority of 13 in the House of Delegates, and a majority of 2 in joint ballot.

To realize the extent of the Whig gain, it

is necessary to bear in mind that the

Administration had last year a majority in the

popular branch alone, of Forty 1. The Whigs

now have a majority of Twelve, (and proba-

bly Fourteen, or more). Total gain 52.

In the Senate, we have lost two Whigs, whose

places are supplied by Conservatives. Only

one of the Senators were required to under-

go the ordeal. Had the whole body been

brought before the People, the reform would

have been complete and overwhelming. As

it is, the Senators from Albemarle and Caro-

line districts, are instructed in a voice that

can scarcely be misunderstood by them; and

several other members of that body have re-

ceived significant hints, which they will do

well not to disregard.—*Richmond Whig.*

MR. TYLER.

Mr. John Tyler, having been called upon in the Richmond Whig, for an exposition of his sentiments, has replied, in his usual frank and manly manner. I always:

have a disposition to conceal my opinions on any political question from the public, and therefore answer that I am not an advocate of the Sub-Treasury Scheme, and that I regard it as a continuation of that series of disastrous measures which have plunged the country into its present state of difficulty and embarrassment—that I regard it as a part of that humbuggery which has been played off, but too successfully, for the last five years.

He adds:

If the Administration party at Washington rejoice at the prospect of my re-election to the Senate—your paper brings me the first intelligence of the fact. I stand where I did three years ago, and there I shall always stand—if that party deserves my election, it must arise from the apprehension that they cannot elect a man of their own party, and their preference for me, if felt, of which I am not aware, arises solely out of a mere personal preference. Or, that I have no cause to complain—but

that is not the case.

DESTRUCTION OF PENNSYLVANIA HALL.

From the Philadelphia U. S. Gazette.

During most of the day, (Thursday,) large numbers of persons were standing round the Hall, and it was evident that there was a purpose of injury.

Some of the leading members of the State, who owned this building, and represented to them the great danger of continuing to hold their meetings, and especially urged upon them the propriety of not assembling that evening, as he had every reason to believe that there was an attempt to break up the meeting, and perhaps injure to the building—and crowded as the walk must be by the company, this could not be done without personal injury and loss of life.

It was agreed to forego the evening meeting, and the mayor took the keys, and went out and addressed the persons who were stirring every nerve to con-

flict with the Mayor, and the police called upon the people to sustain the Mayor, and the unutterable horrors of having their dearest feelings outraged, violated and dishonored. Much sympathy be-

ing aroused and protection afforded those

who claimed that not a hair on their head

shall be touched with impunity, while

they conspire the ruin of the largest

portion of our land, and the peace and

happiness of our Union?

They were assailed with clubs, and almost

every one severely wounded. Col.

Watmough, the sheriff, also made an

attempt to restore peace and safety to the

building, but he was attacked, severely

bruised and narrowly escaped.

We learn that the persons inside

gathered on the benches, chairs and

books in a heap, set fire to them and

then left the Hall. The engines hastened

to the conflagration, but the firemen

were not allowed to play on the

building, but directed to play upon

those houses endangered by the flame,

so that before ten o'clock the whole

wood work of the Hall was entirely de-

stroyed; and shortly afterwards the

crowd, which consisted of many thou-

sands, began to disperse.

We give the above statement as we

gathered it at a late hour. We have

no time to indulge in any reflections

upon the Jaws and the city's character.

A Correspondent of the Herald says:

"At the celebration of the opening

of the Hall, young white females were

seated beside young colored men, and an intermingling of colors and sexes, apparently prearranged, took place."

When the elections about a year ago commenced going against the administration by such large majorities, the Van Buren editors assured their readers, that the whole thing was merely "the result of spasmodic action." Don't they think the spasms last a long while? [Preston.]

The Administration all at once pro-

fesses to be exceedingly friendly to

the banks. "Beware of counterfeiters!" [Louisville Journal.]

Mr. Boon says if the Administration don't repeat the Treasury Circular, they will lose the whole West! Hence he seeks to drive the party into the adoption of a resolution to that effect. Mr. Boon never pulled out of harness before, and he draws awkwardly. [Alex. Gaz.]

The Adminstration all at once pro-

fesses to be exceedingly friendly to

the banks. "Beware of counterfeiters!" [Louisville Journal.]

The Mississippi papers announce that Mr. Clifton is about making an excursion up Red River. We think that he has hardly time to get back from the head waters of Salt River.

The editor of the Pa. Democrat of

Col. Harvey is about to make an excur-

sion to the head of the Ten-

nay nail upon the success of Mr. Van Buren.

We desire the wagons

not to be hard currency against the

Government.

The calling of the roll, which omitted

the names of the delegates within

the limits of the Synod cut off by the

last assembly, and the 3d Presbytery

of Philadelphia, being finished, a number

of these delegates presented their

complaints, which were rejected. Mr.

Cleveland of Michigan, then read a

motion to the use of the Abolitionists.

In order correctly to conceive what pro-

ceeding the following view of the fact is necessary. The policy, the boasted

policy of this restless and reckless class

of misguided and misinformed people

of "commencing the game" on!

Baltimore Patriot.

A bill has been made for effect the *Specie Circular*—see question where old expect such a movement. Mr. Boon, of Indiana, moved on the rules for the purposing a resolution, providing shall be no discrimination the first of June, 1839, if and description of currency in payment for public lands, and the dues of Government, did Cambreleng object!—if he call upon Boon to withdraw in vain did one of the in call for the ayes and nays, cast in his motion. It renews of two-thirds. It obtain 30, nays 33—not enough—to

be informed of the results of Congressional business, fact that in the House up-subsidized private bills as the order of the day on next. One hundred and fifty-four bills introduced in the House of the Whole on the State and national subjects, were introduced, and among them are of great importance.

The general impression, that the session will close on or before July, so that we have now but ten weeks to debate and decide of the important measures claimed the attention of our Legislature. If we may judge past and present state of parties, we are not warranted in expecting much from the short period remains.

Every day a general smile passes the faces of the members of the when Mr. Adams was not in—a circumstance which had since Mr. A. was first to Congress some five or six years. But scarce had the name been before the old gentleman coming up the avenue, and was in his place.

Islandia Gazette.

CLAY's resolution, having for the reception of the notes of paying Banks for dues to the mint, it will be recollect, was to the Committee on Finance, chairman of that Committee, on May, presented a report in opposition to the resolution, the ability importance of which Report are拭去 by the Globe, and must ordinary indeed, to judge from number of copies (30,000) ordered printed by the Senate. From will be seen that the administrationists in the scheme, which every where the marked division of the people.

General Intelligence.

New Orleans Bulletin, May 10.—
TADE.—Another American vessel ordered off by the blockaders, before Tampico—the Essex, Capt. Cottrell. She arrived this port yesterday morning.—which officers conducted them with the courtesy characteristic of.

Although intercepted port of her destination, she was still communication with the and ordered off after all her papers had been endorsed. The same is meted out without partiality to vessels of all nations. A brig, the *Louisa*, from Bordentown also for Tampico, met a reception on the same day. The vessel, however, had the to break the blockade. She quire heavily laden, and the not likely to miss a chance at dash through the blockquadron, and succeeded in running into port.

The passengers arrived hero day last by the splendid steamship; we notice the name of Wilmer, Esq. Past Grand the Grand Lodge of the United Independent Order of Odd Fellows, is now on a tour visiting cities throughout the southern section of the United

His arrival was very opportune. The Brethren were assembled Lodge room prior to joining the procession for laying the Corner the New Theatre.—From the his reception and the high he is held by all who have of his acquaintance, we doubt his return with us will bring him a sensible reward.

It has been heard at the name of that persevering Wilmer, associated with every respect and esteem by the city. Gentleman looks as well and as he did when he visited jeans five years ago.

New Orleans Courier.

Hab's Murder.—On Thursday, the Mr. James Bullard, of Mount Township, in this county, was to jail, upon the charge of murdered his own (natural) boy about three years old. It is that the night previous to the he and the child slept in the bed—early in the morning he took the child out to the wood knocked it down, and then split it open with a axe. A few afterwards the child was discovered in this situation, already dead. Was immediately charged with omission of the crime; he confessed, and stated that he had done it that he might be hung—that life of living, and had on several attempts to commit suicide his courage always failed. He hoped he would now be able to get rid of this world. It is by many that he is insane.

Grenville (Pa.)—A

THE GREAT ARCTIC PROBLEM SOLVED.

One of the most important geographical discoveries of the age," says the N.Y. Journal of Commerce, "is made known to us through the London Morning Chronicle of April 16th. It is no less than a solution of the long pending problem whether or not there is a communication by water from the Atlantic to the Pacific Ocean, around the northern portion of the American continent. It is now ascertained that there is such a communication. The narrative of its discovery is published in the Morning Chronicle."

The following abbreviation of the contents of this interesting narrative is copied from the New York Evening Post of Monday:

"The scientific expedition undertaken at the expense of the Hudson's Bay Company, to survey the extreme northern coast of America, has, in part, fulfilled its object. Messrs. Dease and Gidson, with ten attendants, reached Fort Good Hope, the northernmost settlement of the company, on the 14th July last, and descended Mackenzie River, which they crossed on the 9th of July, and proceeding westward followed the line of coast to Point Barrow. They had completed the survey of the coast between the extreme points laid down by Capt. Beechey and Capt. Franklin."

"They passed a few days with the Esquimaux at the Point, and setting out on their return, reached Fort Norman on the 1st of September, having been sixty-four days absent. From Fort Norman, they were, at the time the despatches were sent, preparing to proceed to a settlement which had been got ready for them at the east end of Great Bear Lake. Here they were to winter, and in July next to resume their labors. Proceeding to the eastward, they hoped to connect the discoveries of Franklin and Back, and then complete the survey of the whole coast of North America."

The Richmond and Petersburg Rail Road is now in use.—In a few weeks, the noble bridge over the James River will be finished, when the formal opening of the road will be celebrated. There is now a continuous Rail Road from Fredericksburg to the Roanoke—a distance of about 145 miles. In North Carolina, there are two Rail Road lines diverging from the Roanoke—one to Wilmington, a distance of about 150 miles—the other to Raleigh, about 90 miles in length. Of the first, some forty miles are now in use; of the latter, fifty miles will be used by the 4th July. Both works are prosecuted with great energy. A passenger, leaving this place at 5 A. M. finds himself on the banks of the Roanoke at 4 past three P. M., and, when the road to Wilmington is completed, he may reach Charleston in 24 hours more—making thirty-six hours and a half from Fredericksburg. This calculation is made upon the moderate speed of 15 miles on the Rail Road, and a liberal allowance for delays.—*Evening.*

BALTIMORE AND OHIO RAIL ROAD.—We learn from the Wheeling Times of Tuesday, that the corporate authorities of that city completed on Saturday last, with the provisions of the late law of Virginia, concerning the Baltimore and Ohio Rail Road, by subscribing one million of dollars toward its completion. The subscription is said to be in accordance with the stipulations previously agreed on by the Board of Directors of the Road, and a delegation from the City Council of Wheeling. The Times states that the act of subscription was sanctioned by the citizens in town meeting assembled for that purpose on Saturday afternoon, and now only waits the ratification of the Stockholders of the Company, to close entirely the negotiation—and thence enable the Company to avail itself of all the means appropriated by the States of Virginia and Maryland, and the city of Baltimore, which exhibit an aggregate large enough to construct that work to the proposed termination of the Ohio.

(*Baltimore Patriot.*)

The tenth vessel which has been sent by the Maryland State Committee to Maryland's Liberty-ship, from this port to London, on the 15th instant, will be the *John Franklin*, carried out thirty-six emigrants, and a passenger, Mr. E. L. Stansbury, connected with the Episcopal Mission at Cape Palmas. They were well-pleased with all the arrangements necessary for their comfort, and embarked in high spirits. The services on the occasion were highly interesting and well performed in the presence of a large and respectable collection of citizens.—*Balt. Pat.* May 19.

STEAMBOAT TRAVEL.—The second Yarrow exploded her boiler on the 7th instant, while on her way from Mobile to New Orleans. Mr. Kerley, a passenger, who was formerly first engineer of the Roanoke, was instantly killed, but no one else was injured.

CENTRAL COURSE, RACES.—First Day—Saturday, 1st Instinct, male heats, 14 entries, 3 started.

Gen. L. Shattock's & Sam. Br. won, 2nd Heat, and the second best, 1st Heat, by 10 lengths, 1st by 10 lengths, 2nd by 10 lengths, 3rd by 10 lengths, 4th by 10 lengths, 5th by 10 lengths, 6th by 10 lengths, 7th by 10 lengths,
