AT HARPERS-PERRY, VA. MHIS TAN-YARD, with all its appendages, is offered for rent. It is supposed to be one of the best locations in Virginia for carrying on the Tanning business on an extensive scale, as there is ample room. A number of Vats are under cover. It has egery necessary building. The yard is furnished with water, and the bark ground by water power. An abundance of bark can be got convenient at a fair price, and a great number of hides can be procured at the place, as there is no tannery within several miles of it. There is also every facility for getting hides from the cities, and for sending them off when tanned, either by the rail-road or canal. Another inducement to a renter is, that a large quantity of Leather is used at the Ferry in the course of a year. Immediate possession can be given.

"A German coin, value 75 cents.

We hereby state, that when Dr. Louis Offon Goe-lieke first came before the German public, as the preteaded discoverer of a new doctrine and a new medicine, we held him in the highest contempt, be-lieving and openly pronouncing him to be a base im-poster and the prince of quacks. But, on hearing so much said about the Sanative, against it and for it, we were induced, from motises of suriosity merely, to make trial of its reputed virtues upon a number of our shost hopeless patients, and we now deem it our bounden, duty even at the expense of our self-interest) publicly to asknowledge its effica-cy in ciring not only consumption, hat other fastful maladies, which we have heretofore believed to be incurable. Our sontempt for the discoverse of this medicine was at once awallowed up in our utter as-tonishment at these unexpected results; and,

WALTER VAN GAULT, M. D. ADOLPHUS WERNER, M. D. Germany, December 10, 1836, It appears by the following information given to the public by Dr. Howland, that the much talked of Matchiess Sanative is indeed what it professes to be an effectual and valuable mediatine, worthy the way

nion, and so are all who know her remarkable ease, that ahe owes her life to the Sanative alone; and as there are profably many consumptive persons in the United States, who have not yet heard of this medicine, measures ought speedily to be adopted to have it more generally known.

A number of persons in our and a second have it more generally known.

A number of persons in our neighborhood, I understand, are taking it for other serious come laints, with very great benefit.

I think of going to the South, with my family, resource this fall, and in case I do I will preclaim the virtues of the Semetre an that quasars. He provides the latest that the serious description is a south of the Physicians here are actively opposed to it, I do sheerely believe it saved my wile from an opening grate.

If you think this letter will serve the public good, you are at liberty to publish it.

TRATITIONN No. 5.

THE MATCHES SANATIVE.—By an article in our paper to-day, it will be seen that this middicine has lost none of its virtues by crossing the Attentio—for it appears to be working stuffler cures in America to those which have astimished Europe.
