THE PAIR.
Ten years ago, the Ladies of Jefferson invoked the aid of our Muse, to string together the attractions of their Fair. The following verses were imperfectly arranged; but the author has been gratified to find, that they not only served that occasion, but have frequently been reprinted for the benefit of similar exhibitions in various parts of the Union. Thus endorsed, he does not hesitate to use them for the approaching Fair, confident that their imperfections will be overlooked in consideration of the cause they are intended to serve.

PILES, &c. HAYS' LINIMENT.

HIS extraordinary chemical composition the result of science, and the invention of a celebrated medical man, the introduction of which to the public was invented with the solembity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Gridley's less typesages, that the sleepers confession, that "he dared not die without giv-ing to posterily the benefit of his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the nis friend and attendant, Solomon Hays, the secret of his discovery.
It is now used in the principal hospitals, and the private practice in our country, first and most certainly for the cure of the PILES, and also so extensively and effectually as to baillo redulity, unless where its effects are witnessed. Externally in the following complaints?

FLORENCY T.

FLORENCE, Alabama, Sept. 28,
A gentleman of the highest standing in this lowly, who has been dreadfully afflicted with the Blind Piles for the last 26 years, called upon me and freely confessed to me his situation. After describing the severity of the complaint, he remarked he had not been so well for 20 years past as he was at that moment. He had used one bottle only of Haya' Liniment. To use his own words, he said "the whole human family, who were thus efficient webs. thole human family, who were thus afflicted, ought to be made acquainted with this medicine."

HAYS' LINIMENT. Mrs. Mswansa, of Jamsica, L. Dilas Denney Smalling all Saves Phete.

Piles, Dropsy, Swellings, all Sores, Rheu malism.

It is absolutely asserted; on the most positive proof, that the above complaints are arrested and circul by the timely use of Hays' Liniment. It is ampossible to find room in this paper to present those proofs which are conclusive and convincing.—
They may be seen, at length where it is sold.

Constitute Course, so well known as Editor of maliam. Gen't Derr Gurke, so well known as Editor of he late Washington Tulegraph, is referred to for he truth of the following:

General Green a few days since asserted in a pub-lic place, that he had med Haya' Liniment, for the Piles, and that the effect was very autonishing, and that he felt it his duty to make known as far as in his power, to his suffering fellow men that such an extraordinary article was in existence. He said he would cheerfully lend his name, and aid in extending its usefulness. This is but one of, we may safely say hundreds, who have given like testimony.

WONDERFUL!!

An Astonishing Fact! Hays' Liniment has now been used in some thousand cases, and no failure, can be found. It will care every and all cases of a J.CAUTION.... None can be gentine without opendid engraved wrapper, and the written signasire of Comstock & Co.
