Horrible Degradation of Women and Children .-- The attention of the humane in England has recently been called to the practice of employing women, and children of both sexes, in the cosl mines; and, incredible as it must appear to those who have unbounded faith in English philanoffer, therefore, the following amendment third of the tens of thousands employed in the coal mines are under eighteen, and one-third of these less than thirteen years of age!

It also appears that at five years of age very many of these children are buried in these mines, and that cases have occurred where children of only three years of age have been daily taken to the mines, and kept there during the entire working hours to hold a candle for the pare moment there are probably fifty thousand ny instances toiling all day long, and drawing immense weights on their hands and feet, without even getting an opportunity to stand erect! Girls of eleven years of age are made to carry from 110 to 150 lbs., and women frequently 300 weight. Husbands have even been known to severely injure themselves in lifting in the London Quarterly for June, and the Westminister Review for July, from the report of the Commissioners, appcinted in relation to this subject, to Parliament, exhibit a state of things in collieries as much worse than Slavery has ever been depicted in the West Indies, as it is possible for the mind to conceive. We are pleased to learn, however, by the last arrival from Europe, that Lord Ashlev's bill, to ameliorate the condition of the colliers, has passed the Lords, and will doubtless become a law. In some parts of the mines, where the seams of coal are thick, the miner's life is comparatively an easy one, as horses and asses are used to draw the coal out of the seams. But in most of the mines the seams very from two to four feet in height. and of course all the labor of men, women, and children, is done in a sitting posture-frequently in an almost horizontal position .- Baltimore American. PROSPECTUS FOR THE SECOND EDITION OF THE

"HISTORY OF THE VALLEY."

HE undersigned has devoted much time and pains in revising, correcting, improving, and extending to the present period, the "History of the Valley." In fact, the second edition, when completed, will be far superior. in every point, to the first.

It is deemed unnecessary at this time to refer to the contents of this book. Suffice it to say, that it is precisely what its name imports, a of its setitlement; a correct detail of those thrilling and interesting events and incidents that are, or at least ought to be, familiar to all

Many testimonials, from gentlemen of known and acknowledged respectability and high standing might here be adduced to prove the value and importance of the work ; but the undersigned prefers testing it by a much more satisfactory way ;-let the public judge for them-

I have had repeated and urgent calls, from various quarters, to come out with the work but not being able, from the infirmities of age, to see the people personally upon the subject, and not having the pecuniary means to publish it. I have been unable to do so, as much as I desire to issue it.

My object now is, first, to ascertain, as far as possible, the extent of patrorage that can be obtained ; and in the second place, if sufficient to justify its publication, to make some arrangements to raise the funds necessary to purchase paper, &c., for its publication. It is of the enterprize. Respectfully, SAMUEL KERCHEVAL.

HENRY GLAV .--- The Democratic Review, the ordant, par excellence, of in party, in its last num-ber, has an atticle headed, "Clay in the field a-

gain." The article thus opens: "Clay is a fine fellow .- He is so bold, he is so brave, and in the political melee, he rides thundering along at the head of his hosts, in the van of the strife, so gallantly, and with so haughty a crest! Like the panache of Henry IV, wherever the fight is hottest and the blows the heaviest, there streams its white flutter as the signal to his friends of the point of pressure, and the direction to which they should follow. He is a man every inch of him -worth fighting, worth beating."

And it is thus that the novie and gallant " Harry of the West" extorts admiration even from his bitterest political opponents. They cannot belp yielding him the tribute of their praise .- Alexandria Gazette.

The 'ghost story' related by the Concord Statesman, the scene of which was laid in Benton, turns out, as we presumed it would, to be somewhat like the distinguished statesman from which the town derives its name-all humbug. Our friends of the Statesman, however, insist that there, was a 'morder' and a 'confession' in the case, or at least, the ninetenths of the good people of Beaton and the region roundabout believe there was: and that the two men who swore they saw the 'ghost,' honestly thought they did. Even the enemy, in ascending the Potomac in 1814 to fire the capitol, forgot for a moment his savage intent, and paused to honor the resting place of Washington. It is a ceremony which we hope will continue through all time. There is sublimity in the echoing of the cannon's roar around the resting place of the hero and the patriot; and the associations it calls up are lofty and ennobling.

Remarkable Discovery .- In Africa, a discovery has been made, not far from Boussissis, of an ancient bridge, spanning by a single atch, the stream of the Oned Herbiba, which has given rise to many speculations. It is in perfect preservation; and a comparison of the cement used in its construction, with that found in the ruins of Hippona, is said to sugges an antiquity of not less than thirteen or fourteen centuries.

A Gingerbread Fortune .- Lady Dorothy Milbank was the favorite of Mary Queen of Scots, but got into disgrace or the affair of the murder of David Rizzio, in which, her husband was concerned .--She soon afterwards fied, and cold gingerbread upon a bridge upon Burwick-upon Tweed, by which, and the additional bounty of her customers, she actually saved £S00, with which she purchased the L'alnaby Hall estate, in Yorkshire, now it? the Milbank family , and with the proceeds of the rent (for she lived very sparingly, dying at the age of 83) she purchas- mouth a successively, and posted at the front door of ed the estate in Durham and Northumberland, the rent of which, a few years ago,

Mannis 3 if any one in the company would compose a verse of poetry presenting as strong reasons against drinking as one he would recite in favor. The challenge was accepted, and the young gentleman gave his verse from Anacreon :

"When I drink I feel, I feel, Vision of poetic zeal ; When I drink, my sorrow's o'e",

I think of doubts and tears no more '

The above was instantly answered as follows: "Thus sung the old bard, and on his couch sunk, As mellow as grapes in October;

WOOLLEN FACTORY.

AVING erected an extensive building at the Mouth of Buliskin, on a good location, with the best water power in Virginia for the purpose, (being on a stream that is never injured by freshet, ice, or drought,) we will soon have is operation a very superior WOOL-LEN ESTABLISHMENT, to be conducted by WILLIAM JOBE, under the name and firm of JOBE & CO. We expect to have our Carding Machine ready to card Rolls for country custom between the 1st and 15th June, and to be fully prepared between the 1st and 15th July, for manufacturing Wool in all its branches, such as

Cloths, Cassinetts, Fulled and Plaid Linseys, Flannels, Blankets, &c.

Our Machinery is of a superior order, and will consist of the latest improved Carding Machines, clothed with as good Cards as can be selected in the United States-one of the best and latest improved Spinning Machines with 200 spinilles; and the latest improved Power Loems, manufactured by a man who stands higher in the es-

or CAUTION .- The above design is found on the envelope of every bottle of this Valuable Medicine. Furchasers will therefore please obtimation of manufacturers, for the workmanship and dur_bility of his looms, than any one in this country. Principal Office, No. 19 North Eighth Street,

The whole establishment is to be conducted by an experienced workman, who has ample testimonials of his qualifications.

From the location of the Factory, with a constant supply of water, and the fact that no expense has been spared to procure machinery and materials of the best quality, we have some reason to flatter ourselves that we can turn out as good articles as any establishment in the Valley, and hope thereby to give full satisfaction to all who may give us a call for manufactured

goods, or favor us with their work. Our friends in Loudoun will readily appreciate the advantages of this Establishment. It is bout a mile above the Shannondale Ferry, and Road is about to be opened from the latter point along the River to the Rock's Ferry.

We will exchange Goods for Wool on the most accommodating terms, and purchase Wool FITHERE can be bit little, if any doubt what for cash when in operation. ever, that the article sold under the name
