Mr. Stanly, in a debate in the House of Representatives, reported in the Intelligencer of the 18th of March last, whether you had said on a former cossion that you were sutherized by the President to deay the truth of the statements, or some of them, made by Mr. Ewing in his letter of resignation, that "you would always be found ready to respond when that question was propounded to you is a proper way and by a proper person." Mr. Ewing has supposed that you could feel and difficulty in recognising his note as a proper mode, and himself as a proper person, to make the inquiry it contains.

I shall be happy, if agreeable to yourself, to be made the medium of communicating to him your answer.

SIR :- My attention has been called to a newspaper paragraph, in which you are reported to have said in a public speech same time last autumn, that you were authorized to deny the truth of the stateyou were authorized to deny the truth of the state-ments contained in my letter of resignation. Will you please advige me whether in that particular you are correctly reported? 1 am, very respectfully, yours, The Hon. Mr. Mallor. T. EWING.

WASHINGTON, TURBDAY, MAY 3, 1842. DEAR SIR:—I herewith enclose you an answer to the note of Mr. Ewing of the 2d of April, transmitted to me your letter of the 30th ult., which reached me on Saturdey last.

WASHINGTON, MAY 3, 1842. Sin:-I received, on the 30th April, your note Mr. Webster called on him on the same day, of the 2d, addressed to me under cover of a let- and professed to give to him orally what the ter to the Hon. Mr. Mason, of Ohio, to which I should have responded more immediately but ing; and that Mr. Webster then gave assurances itated me for a time. Mr. Mason, in a letter accompanying your note, refers to a reply of could not have given if he had not received from mine to an interrogatory of the Hon. Mr. Stanly the President the very commission which I aver upon this subject, on the 18th of March last, and expresses the expectation that I will recognise the question in your communication as having been put by the proper person and in the proper manner." I certainly admit your right to be upon this subject, on the 18th of March last, and in my letter that he and myself did on that day been put "by the proper person and in the proper manner." I certainly admit your right to be informed as to the truth of my having made any er the reference to my response to Mr. Stanly, all that occurred there on that day."

I stated in my letter as a matter ply a sense of injustice towards you in my refution, not of personal knowledge, that after the

My course was certainly approved by the President. That it was so I approved by a desire to do instinct to all of the provented to the President. approved by the President. That it was so I tainly governed by a desire to do justice to all of the parties conserned. The remarks which were the subject of inquiry, were made during the last autumn, and involved an issue of fact between the President and yourself. They were the subject of comment in many newspapers of the day. You had possessed all the facilities which the mail affords for addressing me in relation to them, and you were in Washington for lation to them, and you were in Washington for weeks during the last winter, where I was at all apon which I relied; and I had no right to pursue further an inquiry affecting your personal character, unless you yourself desired the authority for my remarks. And whilst I did not feel justified in gratifying the curiosity of third persons in relation to an issue of fact between the President and yourself, I held myself, bound to the propriety of holding with us that information, promising to inform as of the stated the same time to the result by a note to be sent in the course of the three course of the three other gentlemen, members of the Senate three other gentlemen, members of the same time to the result by a note to be sent in the course of the three other gentlemen, members of the stated the same time to the result by a note to be sent in the course of the three other gentlemen, members of the stated the same time to the result by a note to be sent in the course of the three other gentlemen, members of the stated the same time to the result by a note to be sent in the course of the three other gentlemen, members of the same time to the result by a note to be sent in the course of the three other gentlemen, members of the same time to the course of the three other gentlemen, members of the same time to the c

HARPERS-PERGY MOTELS.

It will be seen, by the notices in to-day's proper, that the new arrangement for the Baltimore and Ohio Rait Road will afford to praveilers from the West, who remain over night, a few thich has become so noted throughout the country. And we can vouch, from persona! knowledge, that the Hotels at that place will affect all the comforts and attention that any reasons. ble man may desire.

There are two trains a day, East and West; days has been fair Soles of hid. white at \$3 and our little Branch Road, by way of Charles a 54 cents. We quote Md. Quts at 35 cents, and town to Winchester, will convey the traveller through a region as fertile and fascinating as any the eye has ever seen, or the imagination can picture.

DISTREMING ACCIDENT.

On Monday night the 6th, upon the arrival at Harpers-Ferry of the night train of cars from Baltimore, Mr. Joseph M. CRONWELL of Ken-tucky, stepped out upon the Bridge at the junction, and, unaware of the point of danger, fell from the platform in rear of the U. S. Hotel a distance of 15 os 20 feet upon the rocky bed below. He was taken up senseless; and although every attention was paid to him by the host and attending physicians, his bruises were so severe as to cause his death on Wednesday morning. Mr. Cromwell was about 72 years of age-a most amiable and excellent man, whose fami-ly reside in Kentucky, whither he was returning from his old abode in Frederick county, Maryland. The uncertainty of life is strongly illusrated in this afflictive event. Mr. C. had been but a .ew days before in this office, performing with his accustomed punctuality the duty of a faithful patron-left here in fine health, visited his friends in Maryland, and on the fatal evening supped with his brother near Frederick, and then set out for the bosom of his beloved family in the West. The public sympathy has rarely been more strongly awakened than in this melancholy

It is proper to state that a temporary railing has been erected, and that a permanent protection from a similar mishap will soon be erected by the Rail Road Company.

DEATH OF GOVERNOR BARBOUR. Last evening's mail brought us the sad tidings of the death of the Hon. JAMES BARBOUR, one of the noblest of the sens of Virginia; who had filled with honor the highest trusts which his State could repose in him, successively during many years Speaker of her House of Delegates, Governor of the State, and her Senator in Congress: and in the General Govern ment had sustained with ability the offi-

county, Virginia, on the 8th instant, at greater inducements to Farmers and others hanoon. Had he lived till the 10th he ring Wheat to dispose of, than has ever been ofwould have been-67 years of age. He possessed his mental faculties to the last, and was perfectly conscious of his approsching dissolution .- Nat. Int. June 10.

Assistant of Nature.—De. Brandreth does not profess that the Brandeth Pills are other than an effectual Assistant of Nature: he knows that if she effectual Assistant of Nature: he knows that if she be not entirely exhausted, they cannot fail to sure: and be it remembered they may be taken at all times without fear of other than good results. In truth, is this city, where five hundred and thirty-five thoucand boxes have been sold, there is little occasion for saying any thing in their favor; for it is clear that \$000 boxes would never have been sold had they not been good! Every fourth individual in this city has made trial of them. It may be observed, that their object is to restore the Constitution to a state of health, and the result, when they have been perseverd with, has fully established their power for so grand a consummation. In other words, it is the Blood which has to become perfectly purified, as on its parity depends entirely the health of the whole animal machine.

Dr. Benjamin Brandreth's Vegetable Universal Pills are indeed a universally approved medicine, which, by its peculiar action, cleaness the blood of all impurities, removes every pain and weakness, and finally restores the constitution to perfect health and vigor.

A crowd collected on the shore, but no person would venture to the relief of the sailors, who were clinging to the sinking vessel. What no man would risk attempting, a weak woman boldly undertook. She seized a rope, threw herself into the raging sea, and, after numerous failures, at last succeeded in swimming to the vessel. At the moment of her arrival, the captain, who was holding on, found his strength give away, and fell into the sea. She caught him as he rose to the surface, and bore him to the land before life was extinct. Such conduct in a man would have been admirable, but in a woman it was sublime.

HE subscriber still continues the above business at his shop near the Depot of the Winchester and Potonac Railroad Company where he is prepared to execute all orders in his line with despatch, having a large assortment of Patterns suitable for Merchant, Grist and Saw Mills, and Threshing Machines. He also manufactures Steam Engines, Corn and Cob Crushers and Ginders, Cutting Boxes, Plaster Breakers, CornShellers, &c.

TO MILLERS: The subscriber having secured an interest in Ighnson's approved Smit Machine, in the counties of Jefferson, Freddick, Berkeley, Morgan, Hampshire, Hardy, Clarke, Loudoun, Fauquier, Rappahannock, Shenandoah, Rockingham, Warren, Page, and Rockbridge, is now manufacturing this highly approved machine at a reduced price. It has stood the test, and has surpassed all other machines for effectually cleansing grain of garlic, smut, and other impurities. It requires one-third less power to do the same work than other machines now in use, and is warranted to perform well or no sale.

He also manufactures and keeps constantly on hand, Baldwin's approved Corn and Cob Crusher and Grinder. This machine is now in use, and gives general satisfaction, saving much in eeding stock, and is easily attached to water or horse powers of threshing machines.
He also manufactures woodcock's Self-Sharn-more in use.

I wish to inform the afflicted, through the medium of the public press, of the wonderful efficacy of that truly valuable new discovered Medicine, viz: Dr. Harlish's Compound Strengthening and Aperient German Pilis. I feel, and consider it my duty, in order that others may receive relief from son County, two miles west of Charlestown on the turapike road leading to Smithfield, and on the Winchester and Potomae Railroad, containing 226 ACRES. The dwelling is of stone, large and commodious, having four rooms on the first floor, three of them large. There are all necessary outbuildings, including a good ice-house with a handsome office built as the lead of the same source. For two years I was subject to that peace destroying disease, dyspepsia, and its accompaniments, Obstinate Consupation of the Bowels, Flatulency, pain in the side and stomach, sickness in the head, &c. and used medicine until I began to think there was no help for me. I had little faith in published remedies until I called on some of thos: who have been cured by the above ice-house, with a handsome office built over it.

There is running water in every field, (seven in procured the medicine and used it for three weeks. number.) and in the barn-yard. Also, a well of when my health was entirely restored. It is now.
