Mrs. Mary Bowers, wife of Henry Bowers was for a length of time afflicted with a "Pulmonary Complaint," which defied the united skill of several eminent physicians. She hear-ing of the "Expectorant Relnedy," was induced to give it a trial. Her symptoms were those of Phthisis Pulmonalis, or Pulmonary Consump-tion, viz: a dry hacking cough, pain in the breast and side, impaired appetite and great thirst, hectic fever and night sweats, with much debility and weakness. She is happy in saying that after using three bottles of the Expectorant Remedy, she began to have hopes of a speedy recovery ; her strength gradually increased until she had used three bottles more, when she felt entirely restored, it now being eight months since, and no symptoms of the complaint appearing.
