Four Days Later from England .- The packet ship Montenums, at New York from Liverpool, brings advices to the Sth ult. inclusive.

In the case of O'Connel, the special jury were drawn on the 4th uli-48 in number, of whom 24 were to be fixed on next day-among those cognizant of the political feeling, the jurors thus rank : 37 Con servative, 11 Radical.

The process of striking a Special Jury for the trial of Daniel O'Connel, commenced on the 3d uit. On the 5th the process was complete.

Great complaints are made that the Crown should have struck off every Catholic that turned up from the ballot-box, which is equivalent to packing a jury, as the traversers will now be tried by a jury composed entirely of Protestants.

Mr. Steele has given instructions to have Sir James Graham, the Duke of Wellington, Sir Robert Peel, and Lord Lyndhurst, immediately summoned to give evidence on his trial.

There is no further intelligence of any mport from the Continent.

No reduction is contemplated by Government in the duty on tobacco, but it is said that some altercation in the excise law affecting it will be made.

Three Days Later From Europe .-- We are again indebted to the New York Herald for an extra containing intelligence from Liverpool to the 16th January, brought by the packet ship Europe. We copy from it the annexed items :

Cotton has advanced since our last accounts full 2-3d of penny sterling-being one cent per pound in one week. In the previous fortnight the aggregate advance in cotton was two cents per pound, being equal to an advance in the value of the coton of America fully twenty millions of dollars.

Another most important piece of news is the semi-official anouncement, by the London Morning Herald that Mr. Packenham is coming out with full instructions to settle the Oregon question. Here s it :--

PHILADELPHIA, May 10, 1838. Dr Jayne-Dear Sir : 1 feel that I can hardly say enough in favor of your Hair Tonic. My hair had been falling off for about two years, and had become very thin, threatening speedy baldness when I commenced using your remedy. In about one week it ceased to fall off. I have used it now for about three months and have as full and thick a head of hair as I can possibly desire. I have recommended its use to a num-THE subscriber wishes to purchase at the ber of my friends, who all speak well of it. HAMILTON, Feb. 15, 1840. Dr. D. Jayne-Dear Sir :-- I had not finished the first bottle of your Hair Tonic, before a de-

cided change was manifest over the bald part of the head to which it was applied. A new growth of fine glossy hair, much like that of an infant's appeared, and has continued to increase, so that tions, United States Readers, No. 1 to 3 and 4, I have had it cut two or three times.

I began the use of the Tonic with little or no faith that it would ever be successful on my head; and I was as much surprised as delighted when I saw the effect. You recollect the appearance of my head when in your office. I assure you the hair has been nearly, if not quite, an inch long at the times I have had itcut, on those parts which were nearly destitute of any when you saw me. It was, however, very fine, though uite thick. Respectfully yours, &c.

[From the Somerville (N. J.) Whig] Some time since I called upon Mr. P. Mrson, of Somerville, for Dr. Jayne's celebrated Hair Tonic, to restore my hair, which was then falling off daily. I procured one bottle, and applied its contents according to the directions. When the bottle was exhausted, I discovered to my great surprise and satisfaction, that the young Hair was starting handsomely; I therefore pur-chased another, and soon till I had used threa botties, and now, as a compensation, my bair in as thick as ever.
