For fulfilling duties so imperative, Mexico has thought proper, through her accredited organs, because she has had represented to her the inhumanity of such proceedings, to indulge in language unknown to the courtesy of diplomatic intercourse, and offensive in the highest degree to this Government and People. Nor has she offended in this only. She has not only violated existing convections between the two countries by arbitrary and unjust decrees against our trade and intercourse, but withholds instalments of debts due to our citizens, which she solemnly pledged herself to pay, under circumstances which are fully explained by the accompanying letter from Mr. Green, our Secretary of Legation. And when our Minister has invited the attention of her Government to wrongs committed by her local authorities, not only on the property but on the persons of our tellow

citizens engaged in prosecuting fair and honest pursuits, she has added insult to injury, by not even deigning, for months together, to return an answer to his representations. Still further to manifest her unfriendly feelings towards the United States, she has issued decrees expelling from some of her provinces American citizens engaged in the peaceful pursuits of life, and now denies to those of our citizens prosecuting the whale fishery on pears to indicate the success of Santa An the northwest coast of the Pacific the na, and his triumph over the opposition privilege which has through all time.
