THE subscriber would respectfully inform the public generally that he has secured the right of making and vending the above named STOVE in several counties. A model of the Stove can be seen at the Harpers-Perry Iron Foundry, and in the course of a few weeks I shall have a number of the Stoves on hand .-I deem it unnecessary to say much concerning this Stove in my advertisement, as I have no fears but it will recommend itself to every person that will examine it. I will merely state that it is adapted either for the burning of coal or wood, and that it is so constructed that in case the cooking is required to be done very soon, a portion only of the Stove need be heated-that is when the family is not very large. The price of the large Stove is \$33, the small one \$22, complete. Person who may want a Cooking Stove are requested to give me a call, and after trying the Stove if they are not pleased with it, I will take it back.

Its original size, when found connected as it is with its dross and impurities, would be about the average of a peck measure to a \$5 piece of fine gold—sod in auth proportion can the medicinal properties of roots and plants be extracted and concentrated from their drops and impurities.

Every body knows that nine grains of sulphate o quinine contains all the medicine to be found in 450 grains of Peruvian bork, from which it is extracted, and those nine grains may be put up in the form of two small pills, so that we have in two pills all the efficacy of one ounce of bark stripped of its useless particles. In like manner are the ingred ents which compose Stainburn's Vegetable Extract Pills, stripped of impurities, and nothing enters their composition but the true medicinal properties of such plants, roots and bark as have been proved by experience on possess a curative virtue for the various maladies incident to the human frame.
