#### PROSPECTUS Of the Richmond Times.

HE undersigned have united themselves for the purpose of erecting the TIMES AND COM-PLER into a journal of a more active political cha-racter, with the hope of enlarging its circulation and extending its influence, and thereby contributing to propagate more widely and settle more firm-Cash advances. ly the great principles of the Whig party. In the month of August, 1844, the editors of the Times and Compiler abandoned the neutrality which they had preserved, and avowed themselves the open and zealous advocates of the measures of the Whig party and of the election of Hanar Clar. Since that time, they have steadily adhered to the great Whig cause, which they believed to be the cause of the country, and have opposed the measures and principles of the Democratic party. They have been encouraged to go on in their undertaking; they have received the support and cordial good wishes of many influential friends; and now, with addi-Briscoe, H T M tional editorial strength, they appear before the Bramball, Wesley public under a different name, with more extended views, and with a more determined resolution to deserve the confidence of the Whig party. Whilst it will be a paper thoroughly Whig in its course, it will not use the liberty of the press to drive from the party those who may differ with it on individual or unimportant questions. Where such differences unhappily exist, it will seek to compose rather than widen them.

In conclusion, we are utterly opposed to the doctrines, but still more to the practices, of the Demo-eratic party. We shall constantly endeavor to show

that the chief danger to our Government is to be found in the tendency of the leaders of that party to prostrate every principle of order to the madness of popular excitements, whilst it has been the glory of the Whigs that they have ever been the supporters of the laws, and have acknowledged the validity of the obligations of the States. With these views we present ourselves to the pub-

#### DREADFUL EARTHQUARE At the City of Mexico !

The City of Mexico was visited on the 8th of April with a most awful earthquake, desolating that beautiful city. It lasted about two minutes. Seventeen persons had been taken from the ruins, at the time the correspondent of the Bee wrote.

Destruction of the Bowery Theatre, New York .- The New York Post of Saturday says : - About six o'clock last evening the bells began to sound the alarm of fire, and the firemen hastened to the place designated by the ringing of the bells, and found the Bowery Theatre again wrapped in flames. Such was the rapidity with which the fire extended, that it was impossible to save any thing of value. The inside of the building, scenery, wardrobe, machinery, and a large quantity of private dresses, were entirely destroyed. We understand that the actors and actresses were inside of the theatre when the fire broke out, preparing for the performances of the evening, and many of them had narrow escapes.

This is the fourth time the Bowery Theatre has been burned, and we understand that it was not insured.
