### MISRULE IN VIRGINIA :

It is a matter well worthy of consideration, and werth as much reflection at this time as any other, that for nearly twenty years Locofocolam has ruled the destinies of Virginia without cessation. This fact has recently been forcibly presented by the Richmond Whig. It is time, therefore, that we were looking around and spending some-thought as to whether we are as happy, as prosperous, and as independent, as other States, that have been governed under a different system of policy; and whether we stand as high as they in point of intellectual

I was attended eighteen months by a regular and skilful Physician, assisted by the advice and counsel of one of our most able and experienced Surgeons without the least benefit whatever. All the various methods of treating cancer were resorted to; for five weeks in succession my breast was burned with caus-tic three times a day, and for six it was daily sy-ringed with a weak solution of nitrie acid, and the envity or internal ulcer was so large that it held an cance of the solution. The Doctor probed the ulcer and examined the bone, and said the disease was alvancing rapidly to the Lungs, and if I did not get speedy relief by medicine or an operation, the result would be fatal. I was advised to have the breast and open and the bones examined, but finding no re-Def from what had been done, and feeling that I was capidly getting worse, I almost despaired of recovery and considered my case nearly hopeless. Seeing various testimonials and certificates of cure by the use of "SNDS'S S 184 FRILL" in cases siinitar to my own, I concluded to try a few bottles, several of which were used, but from the long, deep seated character of the disease, produced no very decided change; considering this as the only probable cure for my case, I persevered until the disease was entirely cured. It is now over eleven months since the cure was completed; there is not the slightest appearance of a return. I therefore pronounce myself well, and the cure entirely effected by SANDS'S SARSAPARILLA, as I took no other medicine of any kind during the time I was using it, nor have I taken any since. Please excuse this long deferred acknowledgement, which I think it my duty to make. Your valuable Sarsaparilla cured me with the blessing of Divine Providence, when nothing else could, and If eel myself under lasting obliga-
