LAUNCH THY BARK. BY W. LEANDER DIFFENDERPER. Now launch thy bark upon the wave-The sea is spreading wide-

Nor fear to stem the tide : Ha ! shrink'st thou from the silver spray ! The sky above is clear. And kindred spirits lend a voice

To battle with the fear. "No coast I see within the sight, To make assurance firm, And shall I venture in that bark -That flagnting bark, this germ-Upon you wide, uncertain wave? Oh! something in my heart

Assails my faith, subdues my nerves,

To feel the coward's part.". Keep high thy heart, and firm thy trust, And spure the frowning wave-No dangers harms the conscious strong, Nor conquer's o'er the brave : Does not this sweeping, mighty world,

Speed in a space immense? 'Tis will commands and mind that guides, And they can guard you hence. Thy watchful bark, from fancies free, Shall meet no devious way .-

Then steer it, like a :rusty shaft, Along the dashing spray : Let truth and honor steer the helm, And let your motto read-"I never swerve from duty when There's justice in the deed."

CHARLESTOWN: THURSDAY MORNING. October 0, 1845. CROWING FOR NOTHING,

After all the crowing of the Localico they have gained nothing substantial in Maryland. The Whig majority in the Legislature is 7 in the Senate and 4 in the House-11 in all, and quite enough for all practical purposes.

In the Congressional elections, it is true, the Whigs have suffered. Mr. Kennedy's election was lost by the running of a Native American ticket, Mr. Wethered's district was always Loco Foco; it has only put itself into its old position of darkness; the Comberland district was lost by a thin vote; and the fifth district, (Harford, &c.,) was lost by an artful move upon "Constitutional Reform," &c. Whilst the Locos had the offices in Maryland, they saw no need of Reform; but as soon as these were lost, every ng in their eyes, needed renovation; ome Whigs, as usual, were found

THE MARYLAND ELECTIONS.

It is now pretty certain that the running of the Native American ticket in Baltimore, was the cause of the defeat of the Hon. John P. KENNEDY for Congress-one of the ablest men in the country,-but the "Union," Mr. Polk's organ, claims that the result is a decision against the Tariff of 1842, of which Mr. Kennedy was a prominent defender.

The Baltimore Amreican says the organ may be right in its conclusions, on a prima facie view of the matter, yet it infers from other cirumstances that this is not exactly so. It says :-

Mr. WETHERED's defeat in the adjoining disin Congress,' says the Union, will be occupied by Thomas Watkins Ligon, a democrat elected especially to aid in reducing the tariff of 1842, to the revenue standard-to make the burdens of the government fall equally upon all classes of our

zens,' their meaning will be better understood when things approach to a starvation standard, and burdens of distress fall equally or unequalmeasures will stand.

When Mr. Polk shall have subverted all that the country now enjoys of Whig measures and Whig policy, and shall have introduced his own reduction was the theme! system, saturated as it is with Van' Burenism,

This Farm English Grammar, with Composition and Epistolary Writing, History, Natural Philosophy, Chemistry, Botany, &c. The Discipline of the Academy is strictly

parental and with direct reference to the development of the moral principle. The situation is one that is remarkably healthy, and is peculiarly calculated to promote the object in view. Being retired and private, it is not subject to many objections that present themselves in a School in a town

There will be Divine Worship sufficiently near for the pupils to attend every two weeks. The Scholastic year consists of two sessions of d months each. Terms \$60 per session, including Boarding and Washing, payable in advance. Pupils will furnish their own Towels, which, with their clothing, should be conspicu-

ously marked. Those pupils whose parents may desire it, will be taught the elements of Vocal Music. MRS. MARTIN will instruct such young ladies as desire it, in Ornamental Needle-work, Wax Flower Making, Mezzotinto and Poonah Painting, at moderate charges.

LECTURES, on scientific subjects, will be deivered before the pupils during the winter months, with experiments, illustrative of the branches taught. As it is intended to have a limited number of pupils, it is desired that application be made

Alexandria, D C Sept 11, 1845.

THE preceding figure is given to represent the great EVACUATION for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface, which indicates BATION. It never requires any internal medicines to cleanse it, as it always purifies itself by its own heat and action, and throws off all the offending humors, through the Insensible Perspiration. Thus we see, all that is necessary when the blood is stagnant or infected, is to open the pores and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface.-Thus we see the folly of taking so much internal remedies. The Thompsonian for instance steams, the Hydropathist shrouds us in wet blankets, the Homopathist deal out infintissimals, the Allipothis bleeds and doses us with mercury, and the bluster-

much cheaper. All goods bought at this con-cern delivered free of expense along side the the blood, and other juices giving place to the new and fresh ones. To check this therefore, is to retain in the system five-eighths of all the virulent matter that nature demands should leave the body .-And even when this is the case, the blood is of so active a principle, that it determines those particles to the skin, where they form scabs, pimples, ulcers

and other spots. By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and disease beins at once to develope itself. Hence a stoppage of this flow of the juices originates so many com-It is by stopping the pores, that overwhelms man-

diseased slightly or severely.
It has POWER to cause all external sores, serofulas, humors, skin diseases, poisonous wounds, to discharge their putrid matter, and then heal them. Consumption - It can hardly be credited that a salve can have any effect upon the lungs, scated as they are within the system. But we say once for all, that this Ointment will reach the lungs quicker than any medicine that can be given internally. Thus, if placed upon the chest, it penetrates directly to the lungs, separates the poisonous particles that are consuming them, and expels them from the system. I need not say that it is curing persons of Consumption continually, although we are told it is foolishness. I care not what is said, so long as I can cure several thousand persons yearly.

who had it regularly every week, so that remiting Often took place.

Deafness and Ear And are fielped with the like success, and rights in the Face.

COLD FEET.—Consumption Liver complant, pains in the chest or side, falling of the hair, one or the other always accompanies cold feet. It is a sure sign of disease in the system to have cold feet. The Salve will restore the Insensible Perspiration and thus cure every case. In Scrofula, Erysipelas, Salt Rheum, Piles, Asth-

For Burns it has no equal in the world. Sore Eyes - The inflammation & disease always lies back of the ball of the eye in the socket. Hence the virtue of any medicine must reach the seat of the inflammation or it will do little good. The Salve, if rubbed on the temples, will penetrate directly into the socket. The pores will

be opened, a proper perspiration will be created and the disease will soon pass off to the surface, PIMPLES ON THE FACE. MASCULINE Skin, Gross Surface, Old Sores, Scald Head, this Ointment makes clean work of them all. Worms .- If parents knew how fatal 50 bales soft shell Almonds and Filberts, Pecon they would be slow to resort to them. Especially most medicines were to children taken inwardly, mereurial 'lozenges,' pills, &c. The truth is, no one can tell, invariably, when the worms are present. Now let me say to parents, that this salve will always tell if a child has worms. It will drive every vestige of them away. There is probably no Medicine on the face of the earth at once so sore and so safe in the expulsion of worms. It would be cruel, nay wicked, to give internal, doubtful medi-cines, so long as a harmless external one could be

Toiler .- Although I have said little about it as a hair restorative, yet I will stake it against the world! They may bring their Oils far and near, and mine will restore the hair two cases to

DISEASES IN CHILDREN - How many thousands are swept off by giving internal medicines, when the young bodies and tender frames are unable to bear up against them! Whole armies are thus sent to their graves merely from pouring into their weak stomachs powerful drugs and physics ! Such cases as Croup, Cholic, Cholera Infantum, Worms, and all Summer Complaints, by which somany children die, the Ointment will remove so speedily and surely, that a physician will never be needed. Mothers! throughout all this land, we now so'emply and sacredly declare to you that the All-Healing Ointment will save your children from an early grave if you will use it. Knowing as we do that vast bodies of infants and children die early, which is supposed to be inevitable and impossible to prevent, we hold up our warning voice, and declare in the face of the whole world, CHILDREN NEED NOT DIE MORE THAN OTHERS!! RHEUMATISM -It removes almost immediately the inflammation and swelling, when the pain of course ceases.

FEMALE COMPLAINTS .- Inflammation of the kidneys, of the womb, and its falling down, weakness, and irregularity, find ready and perma-nent relief. We have had aged ladies tell us they could not live six months without it. But to females about to become mothers, if used some weeks antecedent to their confinement, very few of those pains and convulsions which attend them at that period will be feit. This fact ought to be known to the Merchants and other purchasers, that we have to world over. Corns - People need never be trou-

bled with them if they use it.
