Insensible Perspiration.

THE preceding figure is given to represent the INSENSIBLE PERSPIRATION. It is the great EVACUATION for the impurities of using Logarithms, Theory and Practice of Sur- this Court, and answer the bill of the plaintiff, nothing to act so infallibly as your preparation, the body. It will be noticed that thick cloudy mist issues from all points of the suchace, which indicates that this perspiration flows uninterruptedly when we are in health, but ceases when we are sick. Life GEO. B. SCHRINER." cannot be sustained withont it ; it is thrown off from he blood and other juices of the body, and disposes by this means, of nearly all the impurities within us. The blood by this means only works itself pure .-

Dear Sir.-I wish you would send me one gross of your Vermifuge. The gross I bought Life." If it ever becomes impure it may be traced of you when in your city, (in February last,) is directly to the stoppage of the INSENSIBLE PERSPIall gone some three weeks since, and I have no doubt, I could have sold nearly the same a-heat and action, and throws off all the offending humount in the time I have been out. I have no mors, through the Insensible Perspiration. Thus hesitation in saying, it is one of the most valu- we see, all that is necessary when the blood is stagnun t or infected, is to open the pores and it relieves altogether among their hands, and a planter, itself from all impurity instantly. Its own heat and told me sustanday who works about 150 hands, vitality are sufficient, without one particle of medicint; except to open the potes upon the surface .-Thus we see the folly of taking so much internal remedies. The Thompsonian for instance steams, or five gross. Our physicians recommend it as the Hydropathist shrouds us is wet blankets, the equal to any Worm Medicine, and in fact buy Homopathist deal out infinitissimals, the Allipothis bleeds and doses us with mercury, and the bluster-

ing quack gorges us with pills, pills, pills. To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewenhock, and the great Boerhauve, ascertained that five-eights of all we receive into the stoof the said N. S. White, Administrator de bonis non of said R. Waters, deceased. And it is Signed, JOHN MALLONEE." we eat and drink eight pounds per day, we evacuate five pounds of it by the Insensible Perspiration.

This is none other than the used up particle of the blood, and other juices giving place to the new and fresh ones. To check this therefore, is to retain in the system five-eighths of all the virulent matter that nature demands should leave the body .-And even when this is the ease, the blood is of so active a principle, that it determines those particles do not consider that its fame is in any respect, to the skin, where they form seabs, pimples, ulcers

By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and disease begins at once to develope itself. Hence a stoppage of this flow of the juices originates so many complaints.

ing counties from individuals who would be It is by stopping the pores, that overwhelms kind with coughs, colds and consumptions. Nine tenths of the world die from diseases induced by a stoppage of the Insensible Perspiration. Let me ask now every candid mind, what course seems the most reasonable to pursue, to unstop the pores after they are closed. Would you give physie to unstop the pores? Or would you apply some-thing that would do this upon the surface, where the clogging actually is ? Would not this be common sense ? And yet I know of 10 physician who makes ing that if it did not act well as a worm destroy- any external application to effect it ; the reason I aser I would pay them back their money. Strange | sign is, that no medicine within their knowledge is capable of doing it. Under these circumstances I present to physicians and all others, a pre paration that has this power in its fullest extent. It is .Mc-Allister's All-Healing Ointment, or the World's Salve. It has POWER to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, whether diseased slightly or severely. It has POWER to cause all external sores, scrofulas, humors, skin diseases, poisonous wounds, to discharge their putrid matter, and then heal them. CONSUMPTION -It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system. But we say once for all, that this Ointment will reach the lung or Flux, also in the destruction of Worms. I after this, recommended it to my friends, who quicket than any medicine that can be given inter-nally. Thus, if placed upon the chest, it penetrates directly to the lungs, separates the poisonens partieles that are consuming them, and expels them from the system. I need not say that it is curing persons of Consumption continually, although we are mess. I care not what is said. so HEAD ACHE .- The Salve Bas further persons of the liesa Acne of 12 years standing, and who had it regularly every week, so that vomiting often took place. JOHN SHAW." Deafness and Ear Ache are helped with the like success, as also Ague in the Face. COLD FEET -- Consumption Liver complaint, pains in the chest or side, folling of the hair, one or the other always accompanies cold feet. It is a sure sign of disease in the system to have cold feet. The Salve will restore the Insensible Perspiration and thus cure every case. In Scroula, Erysipelas, Salt Rheum, Piles, Asihma, turning Sore Throat, Bronchittis, Despepsia, Live Complaint, Broken or sore Breast, sore Nip-Liss, Complaint, Broken or sole Inflammations, Feword never saw so great a remedy.
