POETRY.

HAPPINESS. HY POLLOCK. True happiness has no localities ; No tones provincial, no peculiar garb, Where duty goes, she goes; with justice goes,

And goes with merkness, charity, and love, Where'er a tear is dried ; a wounded heart Bound up; a bruised spirit with the dew Of sympathy anointed; or a pang Of honest suffering sooth'd; or injury Repented of, as oft by love forgiven; Where'er an evil passion is subdued, Or virtue's feeble embers found ; where'er A sin is heartily adjured and left—
There is a high and lofty place, a spot
Of sacred light, a most religious fane
Where happiness descending, sits and smiles.

FORGET THEE!

Perget thee !- oh ! my spirit's westy, With its long, unbroken chain ! Forget thee !- oh ! were life more dreary, Still thine image would remain, Blending with each fancy vision, Thoughts of leve too false and frail-

Leaving manhood to bewail. Thine eyes of light, and face of beauty ! Come they with a wildring spell, To mock my dreams of love and duty,

Youthful hopes that had arisen,

With thy raystic fare thee well ! Forget thee !-oh ! though lost forever, Fondly loved through vain regret-With a charm time nisy not sever, Memory round thee lingers yet.

April 30. THE OREGON QUESTION.

The New York Journal of Commerce stated the day after the arrival of the steamer Great Western, that letters had been received from high sources stating ing? Why, now-a-days, it is not "fashionable," that the Oregon question was SETTLED, at least nearly so, on the following terms : The 49th degree of latitude to the Straits of Fuce, and thence through said Straits to the Pacific, leaving the whole of Vancouver's Island to Great Britain and the navigation of the Columbia for a term now, one and all, let's have no more of thisof years, &cc .

have no reason to believe either of them. It is ferther our impression that Great Britain will make no offer until she hears of the disposition of the question of notice by Congress. The prograstination which has marked our coussels. has probably had its effect upon the British poliey. If Congress had passed the naked notice in December last, we might by this time have witsessed a much more decided and cheering state of our relations with England. There is no knowing how far she expected, the resolution of notice to be defeated, or how much she calculated on our divisions. As at present advised, we hear of nothing to justify the above state-"New York Journal of Cemmerce."

This statement from the "Official," puts the question at rest, if it is an "offi-· cial" statement. But it has happened so frequently of late that the Union has been official and unofficial, in the eyes of its party, that it requires an acumen of no ordinary strength to distinguish in reference to the character of the communications which emanate from the pen of its editor.

THE FOREIGN NEWS.

The news by the Great Western is not of a very important character. There can be nothing decisive in reference to the Whip, and T. A. Moore. The imputation in the paragraph quoted, that the Whigs of Shepherdstown-that good old precinct wedded to Whig principles - had manifested a desire to grope their way in ignorance, without education, is an idea unworthy of being entertained for a moment. And believing that Shepherdstown, from the fact of her being the citadel and strong fortress of correct principles, could not have cast her Whig vote against the "school bill," we obtained. through the politeness of a friend, the following analysis of the vote of the two parties on the Education question, at the

THE NATIONAL PAIR.

Our readers are already apprised of the contemplated Fair in Washington on the 20th of May, for the exhibition of American fabrics. A correspondent of the Na. Williamsburg, &c. pared with former years. The quantity tional Intelligencer thus describes the Charlotte building now in process of erection for the Accomae accommodation of the Fair.

"It is in the form of a T; the top of the T is 160 feet long by 60 wide, and the shaft of the Harrison T is 240 feet long by 60 wide, making the whole are 15 feet high. It contains an area of 30,000 ed me of the Dutchman's barn, which was said to have more room inside than out. It is lighted by 36 large windows in the roof. The roof is to be covered with painted canvass over the boarding, of which it will take 4,222 square yards. There are two sheds, one each side, 240 feet long and 20 wide, which cover an area of 4,-00 square feet, making the entire area covered 34,860 square feet, which is a much larger covered area than has been occupied at either of the Fairs in Boston, New York, or Philadelphia "

This Fair bids fair to be a grand affair, and will no doubt have a wholesome influence on our National affairs. The affair of the Tariff should excite a lively interest in all who regard the National welfare. Assisted by fair means, the Tariff of 1842 cannot be disturbed; and we have no doubt that the National Fair will show that our country, can fairly compete with confirmed by the U. S. Congressional Proceedings

The proceedings of both Houses of Congress during the last week are uninteresting to the general reader. Both Houses adjourned from Thursday till Monday, in order that the Hall might be put in proper trim for Summer use, which is a pretty fair indication that they intend

The House on Wednesday, the 29th inst., labored in committee and out, in perfecting and passing the bill to establish the maithsenian lastitute in the city of Washington.

The bill gives the sum of \$515,169,00 as the The New Orleans Tropic expresses the bequest of Mr. Smithson, "for the diffusion of to be put to interest by the United States at 6 per cent., from the first of September, 1838and directs that the interest of said sum, smeunting to \$242,129,00, or so much of the same as may be necessary, shall be appropriated for the the appointment of the Trustees and Officers of the same, as well as for their safaries, also eut of he accruing interest-and defines what the gevernment of the Institute shall be.

The bill was very considerably amended by adopting the propositions of Mr. Hough of New York, as amended by Mr. Marsh of Vermont, so purchase of books to constituts said Library .-The section for a course of public lecturer disring each session of Congress, was striken out.

After the Committee had risen, the bill as amended passed the House by a vote of 85 to

And then, on motion, the House adjourned. In the Senate en Thursday, on motion of Mr. Speight, his bill to grant land to the State of Mississippi to aid in building a rail road from Jackson in that State, through Branden to the Atabama line, was taken up.

Mr. Speight offered an amendment to the bill which was adopted. He then stated the object of the contemplated railroad. It was to run to sea to Montgomery the capitals of the two States. When the road is completed, there will be a grand railread communication from Besten, in Massachusetts, to Vicksburg, on the Mississippi

Mr. Bagby opposed the bill upon constitutional grounds. It was withholding the proceeds of the sale of 190,000 acres of the public land-the amount asked for-from the Treasury, which he conceived the same as taking out the same amount from the Treasury and giving it to Massachusetts or any other State where there are no public lands. To the Farmers who are or may be in want of Shoes for their Negroes, I would say, I keep constantly on hand, a large assortment of coarse and strong Kip shoes for their use, and also

furnish them, perhaps, on better terms than any other establishment in the county. ALL RIPS RE SEWED GRATIS, which is an advantage you cannot obtain from any other dealer n Eastern Work. All sorts of Country Produce will be taken for

work at cash prices, which is another advantage worthy of consideration. I would also return my most sincere thanks for past encouragement, and promise for the future that all that industry, low prices, and a disposition to oblige gonerally can do, shall be done to merit a continuance.

Insensible Perspiration

THE preceding figure is given to represent the INSENSIBLE PERSPIRATION. Ities the great EVACUATION for the impurities of the hedy. It will be noticed that a thick cloudy miss issues from all points of the surface, which indicates that this perspiration flows uninterruptedly when we are in health, but ceases when we are sick. Life cannot be sustained without it ; it is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us.
The blood by this means only works itself pure.— HOUSE, at Shepherdstown, recently oc- directly to the stoppage of the INSENSIBLE PERSELwe see, all that is necessary when the blood is star-nant or infected, is to open the porce and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medieine, except to open the pores upon the surface.—
Thus we see the folly of taking so much internal
remedies. The Thompsonian for instance steams,
the Hydropathist shrouds us in wet blankets, the Homopathist deal out infintissimals, the Allipothia bleeds and deses us with mercury, and the blustering quack gorges us with pills, pills, pills,

To give some idea of the amount of the Insensi next term, and answer the bill of the plain- Heirs, inte his own large new Stone Ware House, ble Perspiration, we will state that the learned Ur. Bewenhock, and the great Boerhauve, assertained that five-eights of all we receive into the stomach, passed off by this means. In other words, if we cat and drink eight pounds per day, we evacuate five pounds of it by the lasensible Perspiration. This is none other than the used up particle of the blood, and other juices giving place to the new and fresh ones. To check this therefore, is to retain in the system five-eighths of all the virulent matter that nature demands should leave the body.And even when this is the case, the blood is of so active a principle, that it determines these particles to the skin; where they form scabs, pimples, ulcers

and other spots.

By a sudden transition from heat to cold, the pores HAVE the pleasure of informing my friends are stopped, the perspiration ceases, and disease be-I am to be regularly supplied with the best Eas- this flow of the juices originates so many com-

Would you give phyic to unstop the pores? Or would you apply somehing that would do this upon the surface, where the elegging actually is? Would not this be sommen sense? And yet I know of no physician who make any external application to effect it ; the reason I sesign is, that no medicine within their knowledge is capable of doing it. Under these oircumstances 1 present to physicians and all others, a preparation that has this power in its fullest extent. It is Me-Allister's All-Healing Ointment, or the World's Salve. It has POWER to restore perspiration on the feet, on the head, around old sores, upon the make them to order, on short notice, and can

chest, in short, upon any part of the body, whetl'er liseased slightly or severely. It has POWER to cause all externel sores, sereulas, humore, skin diseases, poisonous wounds, to lischarge their putrid matter, and then heal them. Consumption .- It can bardly be credted that a salve-can have any effect upon the lunge, eated as they are within the system. But we jay once for all, that this Ointment will reach the leng quicker than any medicine that ers be given intersally. Thus, if placed upon the chest, it penetrates lireatly to the lungs, separates the poisonous partieles that are consuming them, and expels them from he system. I need not say that it is curing per-

ions of Consumption continually, although we are told it is foolishness. I care not what is sold, so ong as I can care several thousand persons yearly. HEAD ACHE -The Salve has cured ersons of the Head Ache of 12 years standing, and he had it regularly every week, so that vomiting

Deafness and Ear Ache are helped with the like uccess, as also Ague in the Face. COLD FEET .- Consumption, Liver complaint, pains in the chest or side, falling of the hair, one or the other always accompanies cold feet. It is sure sign of disease in the system to have cold feet. The Salve will restore the Insensible Perspiration and thus cure every case.
