POETRY:

SOMETHING CHEAP. BY CHANCES SWAIK.

There's not a cheaper thing on earth, Nor yet one half so dear; 'Tie worth more than distinguished birth,

Or thousands gained a year; It lends the day a new delight, "Tis victues firmest shield; And adds more beauty to the night Than all the stars can yield.

It maketh poverty content-To-morrow whispers peace ; It is a gift from heaven sent Por mortals to increase. It meets you with a smile at morn. A flower for peer and peasant born,
An everlasting rose.

A charm to banish grief away.
To match the frown from care;
Turn tears to smiles, make duliness gay, Spreads gladness every where; And yet 'tis sweet as summer dew, That gems the lily's breast;

As ever man possessed. As smiles the rainbow through the cloud When threat'ning storm begins-That still its sweet ways wins-As springs an arch across the tide, Where waves conflicting foam, So comes this scraph to our side,

A telisman for love, as true

To guild the scenes of home. What may this wondrous spirit be, With power unheard before-This charm, the bright divinity?
Good TEMPER -nothing more! Good temper-'tis the choicest gift That woman homeward brings;

And can the poorest peasant lift To bliss unknown to kings. LOVE.

There is a love that softly throws Its shadow o'er the laver's soul, That in the bosom mildly glows, ... And yields to reason's wise control.

There is a love that seeks to twine, A garland 'round the spirit's brow & That kneels at passion's sacred shrine. And breathes a prayer and makes a vow. There is a hopeless love, that speaks

In burning sighs and gushing tears ; ... An anguish that the bosom breaks, And brooding woes and gloomy fears.

Insensible Perspiration.

THE preceding figure is given to represent the INSENSIBLE PERSPIRATION. Itie the great EVACUATION for the impurities of the bedy. It will be noticed that a thick cloudy mist issues from all points of the surface, which indicates that this perspiration flows uninterruptedly when we are in health, but ceases when we are liek. Life cannot be sustained without it; it is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us. The blood by this means only works itself nure .-The language of Scripture is in the BL OD is the Life." If it ever becomes impure it may be traced directly to the stoppage of the INSENSIME PERSPI-BATION. It never requires any internal medicines to cleanse it, as it always purifies itself by ite own heat and action, and threws off all the offending humors, through the Insensible Perspiration. Thus we see, all that is necessary when the bleed is spagnant or infected, is to open the pores and it relieves. itself from all impurity instantly. Its own hear and vitality are sufficient, without one particle of medieine, except to open the pores upon the surface.— Thus we see the folly of taking so much internal remedies. The Thompsonian for instance steams, the Hydrepathist shrends us in wet blankets, the Homopathist deal out infintissimals, the Allipothis bleeds and deses us with mercury, and the bluster-

ing quack gorges us with pills, pills, pills. To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewenhock, and the great Boerhaave, ascertained that five-eights of all we receive into the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds of it by the losensible Perspiration. This is none other than the used up particle of the blood, and other juices giving place to the new and fresh ones. To check this therefore, is to retain in the system five-eighths of all the viculent matter that nature demands should leave the body .-And even when this is the case, the bleed is of so

By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and disease begins at once to develope itself. Hence a stoppage of this flow of the juices originates so many complaints.

It is by stopping the pores, that overwhelms mantenths of the world die from diseases inqueed by a stoppage of the Insensible Perspiration. Let me ask now every candid mind, what course bughly furnished with new and elegant furniture and all the accommodations to be found in any Hotel in the east.

Comprising about 650 cases, as follows: any external application to effect it; the season I assign is, that no medicine within their knowledge is capable of doing it. Under these circumstances I present to physicians and all others, a preparation that has this power in its fullest extent. It is Mc-Allister's All-Healing Ointment, or the World's Salve. It has POWER to restore perspiration on

the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, whether diseased slightly or severely.
. It has POWER to cause all externel sores, serofulas, humors, skin diseases, poisonous wounds, to discharge their putrid matter, and then heal them. I need not say that it is suring persons of Consumption continually, although we are told it is foolishaess. I care not what is said, so

long as I can cure several thousand persons yearly. HEAD ACHE -The Salve has cured persons of the Head Ache of 12 years standing, and who had it regularly every week, so that vomiting often took place. Deafnes and Ear Ache are helped with the like success, as also Ague in the Face. COLD FEET .- Consumption Liver com-
