Pupils will have the benefit of the personal instructions of the undersigned, and as only a limited number will be admitted, each pupil will receive such attention as must secure atisfactory progress.

Heretofore, the expense, in most institutions, has been so great as to deter parents from sending their daughters from home to enjoy the advantages of good education. Anxious, as far as practicable, that this difficulty should be obviated, young ladies will be admitted into this sion at an average expense not exceeding \$120 for the scholastic year of 10 months, or \$100 to pupils under twelve years of age, and \$100 to pupils under twelve years of age, and in the case of two or more pupils from the Makes advances in cash on consignsame family \$100 each. THE EXERCISES OF THIS INSTITU TION WILL BE RESUMED ON TUESDAY, IS

SEPTEMBER NEXT. The splendid Seminary building was erected expressly for a Female Collegiate Institution, at an expense of more than \$15,000, and sofar as we regard beauty and elegance of structure, the perfect adaptation of all its parts to the purpose for which they were designed, the elegance of his furniture, the comforts and conveaiences of the boarding department, we confidently believe it is not surpassed by any simifar Institution in the Southern States. Parents and Guardians are particularly invited to call and examine for themselves.

Music! Music!! I get dry !' LARGE assortment of Music at two A cents per page, for sale by J H BEARD.

And all the friends I've loved and lost, From earth, in youth or age, Are hovering in the misty air, Life's troubles to assuage : The spirit leaves all meaner cares, To bathe in streams of love,

Pervades the realms above. The juring discords of the world Are quickly lulled to rest, And all the storms of passion sink To quiet in the breast: The soul, in fancy-flights, ascends To that sublimer :ealm,

Makes love's bright diadem. Oh, in life's wilder moments, think Of fashion's fleeting joy,
And strive to gain the better land, Where nothing can alloy: Life's dreary moments then will flee, Like wild clouds in the even. And all thy serrows be removed. By blissful dreams of Heaven!

Insensible Perspiration.

THE preceding figure is given to represent and William Henry Show, not having enterod their appearance, and given security acthe INSENSIBLE PERSPIRATION. It is
the great EVAGUATION for the impurities of the blood and other juices of the Jody, and disposes with inserted in some newspaper published in The language of Scripture is in the BLOOD is the this county, for two months successively, and Life." If it ever becomes impure it may be traced RATION. It never requires any internal medicines to cleanse it, as it always purifies itself by its own heat and action, and throws off all the offending humors, through the Insensible Perspiration. Thus we see, all that is necessary when the blood is starnant or infected, is to open the pores and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the porce open the surface.—
Thus we see the folly of taking so much internal remedies. The Thompsonian for instance steams, the Hydropathist shrouds us in wet blankets, the Homopathist deal cut infintissimals, the Allipothis bleeds and doses us with mercury, and the blustering quack gorges us with pills, pills, pills.

To give some idea of the amount of the Insensilate partners contracting under the blel Perspiration, we will state that the learned Dr. Lewenhock, and the great Beerhave, ascertained that five-eights of all we receive into the stony, Alfred McGeath, Thomas Nich- mach, passed off by this means. In other words, if ols, Isaac Nichols, George Gregg; we eat and drink eight pounds per day, we eracuate five pounds of it by the Insensible Perspiration.

This is none other than the used up particle of

the blood, and other juices glving place to the new and fresh ones. To check this therefore, is to retain in the system five-eighths of all the virulent matter that nature demands should leave the body .-And even when this is the case, the blood is of so active a principle, that it determines those particles

opres after they are close !. Would you give physie to unstop the pores?. Or would you apply some-thing that would do this upon the surface, where the elogging actually is ? Would not this be common And yet I know of no physiciah who make any external application to effect it; the reason I ascuit superior court of law and chancery for capable of doing it. Under these circumstances I Jefferson county, the first Monday in August, present to physicians and all others, a preparation that has this power in its fullest extent. It is . He-Allister's All-Healing Cintment, or the World's Salve. It has POWER to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, whether

diseased slightly or severely.

It has POWER to cause all external sores, serofulas, humors, skin diseases, poisonous wounds, to sell, John H. Allstadt, Dolphin Drew, Francis discharge their putrid matter, and then heal them. CONSUMPTION. In collect upon the lungs, THE Defendants, Elias Lockwood and to once for all, that this Ointment will reach the lung quicket than any medicine that can be given inter-Hot II we say are within the system. DISEASES IN CHILDREN. - How many thousands are swept off by giving internal medi-cines, when the young bodies and tender frames are mable to bear up against them! Whole armies are unable to bear up against them? Whose armies are thus sent to their graves merely from pouring into their weak stomachs powerful drugs and physics! Such cases as Grosp, Cholie, Cholera Infantum, Worms, and all Summer Complaints, by which so many children die, the Ointment will remove so The House at Shepherdstown, recently oc-All-Healing Ointment will save your children from All-Healing Ointment will save your children from an early grave if you will use it. Knowing as we do that wastbodies of infants and children die early, which is supposed to be inevitable and impossible to present, we hold up car warning voice, and declare in the face of the whole world, CHILDREN EEND NOT DIE MORE THAN OTHERS [1] RHEUMATISM .- It removes almost im-

rediately the inflammation and swelling, when the pain of course ceases. FEMALE COMPLAINTS .- Inflammation of the kidneys, of the yomb, and its falling down, weakness, aid irregularity, find ready and permanent relief. We have had aged ladies tell us they ould not live six months without it. But to females about to become mothers, if used some weeks anteand convulsions which attend them at that period will be fell. This fact-ought to be known to the Corns -People need never be trou-

bled with them if they use it.
