SEPTEMBER NEXT. The splendid Seminary building was erected expressly for a Female Collegiate Institution at an expense of more than \$16,000, and so far as we regard beauty and elegance of structure, the perfect adaptation of all its parts to the purpose for which they were designed, the elegance of its furniture, the comforts and conve- po and scales have been provided to receive niences of the boarding department, we confidently believe it is not surpassed by any simifar Institution in the Southern States. Parents and Guardians are particularly invited to call and examine for themselves.

This Institution comprises three separate and distinct departments-the JUVENILE, where the elementary principles of an education are commenced the PREPARATORY, where the pupils are thoroughly grounded in the substantial branches of education, namely-Spelling. Reading, Writing, Grammar, Geography and Arithmetic-the COLLEGIATE, where all the higher branches of a finished Female education, both useful and ornamental, are pursued to as great an extent as they are in our best Northern Schools. THE PRICE OF FLOUR.

A year ago there was a sudden rise of Flour, and our farmers, thinking it was likely to continue, held back their crop and were accordingly disappointed. have no great reliance upon our own judgment,) to warn the farmers not to hold on with the exand our reasons for saving so are these :

It never has happened that a failure has been general throughout Europe, and most of the accounts at this period of the year are always exaggerated. The present very small advance on Flour and Grain is more the result of a temporary want of supply in the regular markets, than any thing else. The farmers in a large portion of the country have not yet prepared their grain for market. Many of them have been somewhat disappointed in the quantity of it, and have been by no means in haste to test its value. There is always a suspension of operations in is evidently the only alternative now left, mond, to be used during the sessions of thrashing and cleaning up until after seeding Being in for it, the more vigor the better. the Legislature-after the fashion of the time, and thus it may well happen that, with no inducement in the price, there was less than the usual supply in the cities. But when it is remembered that the aggregate amount of Wheat in the country is 20 to 30 per cent. greater than last year, it is evident that the price cannot be much enhanced over the present rate, if indeed it be maintained when supplies are thrown in .-It would require a greatly increased demand abroad, to preduce much effect on our markets; and long experience has proved that, as a rule, the best time to sell is always when the furmer is

As to any effect from a modification of the British Corn-Laws, that will be found to be mere fudge. Whatever advantage has been given by the act, will prove to be in favor of European, and not American Wheat-growers .-And the Tariff of '46 has reduced the duty on Foreign Wheat coming into this country, from 27 per cent. to 20. Sore Eves -The inflammation & disease always lies back of the ball of the eye in the socket. Hence the virtue of any medicine must reach the seat of the Inflammation or it will do lit-James M. Brown, The Bank of the penetrate directly into the socket. The pores will be opened, a proper perspiration will be created and the disease will soon pass off to the surface.

PIMPLES ON THE FACE, MASCULINE Skin, Gross Surface, Old Sores, Scald Head, this Worms .- If parents knew how fatal most medicines were to children taken inwardly, they would be slow to resort to them. Especially mercurial 'lozenges,' pilis, &c. The truth is, no one can tell, invariably, when the worms are present. Now let me say to parents, that this salve will always tell if a child has worms. It will drive every vestige of them away. There is probably no Medicine on the face of the earth at once so sure and so safe in the expulsion of worms. It would be

eruel, nay wicked, to give internal, doubtful medicines, so long as a barmless external one could be Toiler .- Although I have said little about it as a hair restorative, yet I will stake it against the world ! They may bring their Oils far

DISEASES IN CHILDREN - How many thousands are swept off by giving internal mediines, when the young nodies and tender frames are unable to bear up sgainst them! Whole armies are thus sent to their graves merely from pouring into their weak stomachs powerful drugs and physics ! Such cases as Croup, Cholic, Cholera Infantum, Worms, and all Summer Complaints, by which so many children die, the Omtment will remove so speedily and surely, that a physician will never be venport, deceased, —, the children of the first named John Davenport, S.
