'He says that in 1844 he "brought forward the glaring fact that in above fifty years existence of this federal government, the democracy of the North had given but one President to the Union, and that one for but a single term ; aud this (of late) from a Southern opposition to Northern men. And I ther took it on myself to say that this course of things would have to be changed, otherwise there would be an end to the Democratic party, or any party founded on political principles, and expressed my gratification that Mr. Polk's early end voluntary self-denjal had cleared the way

for a Northern Democratic candidate in 1848 " Mr. Benton has always been identified with the Albany school of politiciens, and was one of the most gleatfinst friende of Mr. Van Buren, even when the political fortunes of that gentleman were on the wane. The quotation we make from Mr. B.'s letter, clearly identifies him as still belonging to the same school, and an advocate for the nomination of Silas Wright for the Presidency. Mr. Wright, however, is a "Wilmot Troviso" man, and the Richmond Enquirer, with its Southern allier, are pledged to support no man who entertains such sentiments as are em- ceedings of the celebrated Hartford Conbodied in the Proviso, which they declare, are vention.

This pass will now become the great point of interest, as it is evident, the enemy intend to make a stand there, and that we shall have another severe battle. . A gentlemen who has travelled through the country, and is familiar with the pass, describes it to us, as much more formidable than that of Cerro Gordo. It goes through nearly three miles, the road, with high and rugged sides, is only sufficient to admit the passage of a single wagon at a time. There is, we are informed, no possibility of turning it, and no mode of when the army comes to Rio Frio, some other plan of attack will be more practicable, then by marching through a single gorge of the mountain, for two or three miles, under the fire of an enemy, on the steep sides of the road.
