We have just learned that the last of the train which left here on the 4th for the capital, was attacked by a large guerilla force at Santa Te.

For some cause, not understood here, a portion of the train was unable to leave their cheampment, near this city, until this morning. In dragging through the fleavy sand the train and tack mules, of which there was a large number, became much scattered, so thuch so that the rear guard, which consisted of Capt. Walker's little party of thirty men ; who, finding it impossible to send forward to the advance, sent'n messenger to this city stating nearly as above. Subsequent mest sengers, two or three of whom are men of the company, and who were in the fight, state that Ruli's company had been surrounded and nearly every man cut off that Lieut. Walker had been killed, and that some sixty mules had been driven off by the guerillas.
