THE AGE OF INVENTIONS.

We mean by this, not any new discovery ia mechanism, nor any new developments which science is daily disclosing, but to the last-probably the last-issue from the Locofoco press, that Gen. Taylor had written a letter to New Orleans denying ted for being too strongly identified with the authority of the Louisiana Delegates Northern feeling, and in the North he is in the National Convention to nake the opposed because they say he is too Southexplanations which they did relative to ern in his feelings! This ruse of Whig candidate for the Vice Presidency? the Locofocos might be easily understood, We shall never hear them say a word a and it is strongly indicative of the fear | bout the bill Mr. Fillmore reported to pay that has already seized upon their souls, the owner of a slave for his loss-thereby thus to catch up an idle rumor and blazon recognizing the principle of the slaves beit forth as truth. But they were not ing property-a position denied by the quite as smart as many of them supposed Abolitionists. they were, for the very next mail brought a "Card," which has dampened all their May-day delight, and chilled, as with an icicle, so pleasing a story. Read the following, and hide your diminished heads, ye ers of New York had been admitted to retailers of public scandal.

From the New Orleans Picagune of June 25. The undersigned, whose names are affixed to the card hereto appended, make this publication Zachary Taylor himself. From sundry articles which have appeared in several of the public parnals of the city of new Orleans, Gen. Taylor is given to understand that persons claiming to speak for him have produced the impression that and the other members of the Louisiana delegation to the National Whig Convention who acted with him, saw fit to say and do in that body in his (Gen. Taylor's) behalf, and that he repudiates such acts and savings. Did these rumors would not trouble the -public concerning them; but as they affect, whether so intended or not, the good report and candor of gentlemen whose parand suspicion, he feels constrained, by a sinse of duty and justice, to authorize them to be met by a distinct and peremptory denial.

A Carp .- We are authorized by Gen. Taylor to say that the course of the Louisiana Delegation in the Whig Convention lately assembled at Philadelphia meets with his entire, full, and unequivocal approbation. It appears that rails have been placed on the track at various periods, and several negroes charged as guilty, who determined to watch, in order to relieve themselves from suspicion. One story is, that Wilson was discovered by two negroes whilst throwing the rail across, and when remonstrated with, would not desist. Another version is, that a negro informed the Supervisor of the road that Wilson had said he designed placing a rail over the road that evening; the supervisor and negro immediately started off, and discovered the accused placing a rail across the track, and then hastily decamping-the Passenger Train just coming in sight at the time. The Cars reached the spot before the signal could be given, but the " cow catcher" took up the rail which was thrown before any injury was done.
