DR. FRANKLIN'S PAY AS MINISTER.

Mr. Hale, on Monday week, offered an amendment to the appropriation bill, making the salary of the American Ministers to France, England and Russia \$16,000, instead of \$9,000. Several Senators, amongst them Messrs. Butler and King, warmly sustained it, but a majority seemed adverse to passing it, and Mr. Hale, on Tuesday, withdrew it, giving notice that he would renew it, if he should be alive, at the next session. In the course of the debate upon the subject on Monday, the following passages took

Mr. Wescott. Mr. President, I am' not going to make a speech by any means. I merely wish to state what I once heard Gen. Jackson say on this very subject. I once heard that illustrious man talking about the expenses of foreign ministers, their salaries, &c., and he used these words. He said that "Old Ben Franklin, with his Quaker hat, shad-bellied coat, and blue yarn stockings. laughter.] commanded more respect for imself and for the character of his country. than all the other foreign ministers we ever had." Now, sir, that was so; even all the girls in Paris were running after the old Philosopher. [Renewed laughter.

MANUFACTURES, COMMERCE, AND NEGROES. FOR THE SPIRIT OF JEFFERSON. Mr. EDITOR: The Report of the Select Com-

ttee of the Virginia House of Delegates on the subject of the laws respecting fugitive slaves, of which Hon C. J. Faulkner was chairman, on page 7, asserts :

"The New England States especially, notthstanding the admitted, nay, boasted sterility of their soil, and the ungenial character of their climate, have in view of the extent of their population become the most wealthy communities in the world."

Allow me to ask, Mr. Editor, is there truth in the above statement? Are the New England Sistes so much ahead of the Old Dominion, that this should be admitted by the most intelligent of Virginia's sons, and be enrolled among her legisive records ?

If it be true, which I doubt not, there must be a lanse, and that cause must be adequate to the effect. Is it attributable, as the report seems to suggest, to their vast shipping and commercial erests? This may be in part ; but as they onexceed Virginia by about ten millions, not more than two millions a year of which can be fit, we must look further for the real cause I link, Mr. Editor, the committee pointed to it," though as a subordinate one, enclosing it in painthesis is as though it might as well have been ommitted, (" now become great manufacturing communities by the help of a free market at the South.") [See same page.] Let us look at the balance sheet on this last chuse. As long since as 1840, the manufacturers of New England were more than eighty two and a half millions, while those of Virginia were but eight and one-third millions, or were but one teath those of New England. Allowing one-fourth for material purchased abroad, and we find over sixty millions for the earning and profit of New England, against six millions for Virginia, or fitty-tour millions an-nually in favor of New England-and as this dif-Frence has been and is increasing with acceleraed velocity-the actual difference at the present time must be eighty millions a year. If this be prodigious effect-capable of calling forth the sentence quoted in the report-and that it is so no one who has at ended at all to the statistical rowth of our country can deny. But why, Mr Editor, may not Virginia enter he lists-supply her own markets-and compete successfully for some share of so large a prize? Is there any natural obstacle in the way? Are ot the natural advantages manifestly in her taor ? Then if others thus prosper, why supinely old our hands and proclaim that "slavery is a nestion of life and death with us?" All wrong, Ir. Editor, as I intend to show. The tendency f such sentiments is, a lethargic feeling to all other interests and improvements, which the comnittee did not intend. But, if other communities have thus eminently rospered, under another system-as the comnittee have so fully attested—would it not have been well for grave statesmen to have suggested, hat possibly we might live, and even improve our condition, like them, by getting machinery to work which would not, like negroes, runaway -Why, Mr. Editor, I knew one of those thrifty lankees, who employed some twenty men, (at that is called mule spinning.) when the men reused to work without an advance of wages, he iscarded men, mules, and all, and purchased ther machinery which dispensed with the men's abor altogether, and yet performed more work han before. Better, far better, Mr. Editor, that he committee had recommended to sell one half the negroes, and convert the price into the most improved machinery, which by the aid of our great water-fails might constantly run, and the more they run, the more they would earn. But which would run continually and never runaway. Phough this might not have been within the specific line of their instructions. If the committee were not discharged I would respectfully suggest hat they solicit the enlargement of their powers, o inquire into and report upon the expediency of the plan last suggested. But as I presume that the committee are discharged, I would recommend for each citizen to inquire into it for himelf. Would not those who adopt this plan first,

I had in fact reached the pie which still lay there, for the servant had not sufficiently recovered from her fright and loss of breath, and stood staring at the masterpiece of cooking dashed to pieces on the floor without an effort to remove it.

All at once, while engaged in making a fresh inclination, my unfortunate left foot wandered into the pastry. I saw nothing, for all had become dark before my eyes --Disgracefully, but naturally enough, my foot slid from under me; in an instant, political and personal balance were lost, and down I came, measuring my whole length, just five foot seven, upon the floor, to the no small alarm of some, and the irrepressible laughter of others of the large and worshipful company there assembled.

In falling I brought down two chairs, with a young and pretty female, who, in all probability was at that moment about to seat herself, but now with a speed equal to that of her chair, came rolling on the floor beside me. Gracious heavens ! it was Barbara A terrible clamor arose, and as I lay there, I roared lustily too, for seeing in addition to myself a lady and two chairs, stretched out on the floor, I felt persuaded that a shock of an earthquake must have taken place. The Cousin treated the whole affair as an excellent joke. It was very well for him to joke, but I could have wept, nay,

died with shame, with vexation. I went to the mantel piece without offering one word of apology, but as all were laughing and giggling around I laughed too, and threw from time to time stolen glances at the cause of my misfortane. At last we took our seats at the table .---

The Cousin was so gallant as to place me next Barbara. I had rather have been sitting near a volcano than at the side of this amiable and pretty creature. I felt most extraordinary sensations whilst thus in juxtaposition with my future bride. Of the assembled guests I ventured only to take a rapid glance at intervals.

Soup was served round, Barbara offered me some-but how could I accopt it? Mr Webster. What salary did Franklin receive?

Mr. Westcott A very indifferent sum, believe; just enough to pay his expenses. Mr. Webster. I beg your pardon, sir .-His expenses were allowed him by Congress. He kept his own accounts, and his expenses were paid, whatever they were.

Mr. Westeott. Mr. President, I see no necessity for this increase of salaries. These men go to these courts to do business. and not o expend money in giving parties and minging in society.

Mr. Webster. Will the Senator inform me what he supposes Dr. Franklin was paid when in Europe ? Mr. Westcott. I do not know, but he did

not make money. Mr. King. I will tell the honorable Sen-

ator. Dr. Franklin received twelve thousand dollars a year with his Quaker hat. [Great laughter.]

Mr. Westcott, I never heard of Dr. Franklin's making any great display among the aristocracy of Europe; nor do I now care to have our ministers vie with the aristocrats of the Eastern continent in expediture and extravagance

In explaining his amendment, Mr. Hale made the following hit at Mr. King, who, we believe, is a bachelor : "I have proposed that amendment for the purpose of following out the suggestion made by the honorable Senator from Alabama, (Mr. King.) whose experience on the subject assures us that the salaries of the ministers to these courts are actually unequal to paying their expenses. I think this highly discreditable to our Government, and I think it should be remedied immediately. I believe that the honorable Senator from Alabama, when he was a minister abroad, had not a very large family to take care of, [laughter.] and his expenses, therefore, must have been much less than those of ministers not so unfortunately situated as himself, [renewed laughter.]

A PATIENT MAN.

Forty years ago, in St. Paul's Church yard, that famous place in the metropolis of England, there was a dry goods store, the favorite resort of ladies. The partners of the house, and all their clerks, were known but one of the clerks had earned the appellation of "the patient man." He had never been known to lose his temper or polite attention, under the trying tedium of a lady's whims-a thing, of course, remarkable.

A lady of title and large fortune determined she would test his patience. She induced another lady to accompany her, dressed in courtly style, drove in her elegant carriage, with coachman and two footmen in

She desired to see some satins, and after handing down all that were there, none of them suited her. She then requested to be shown the velvets. A GAME OF POLKA IN CALIFORNIA.

The Cincinnati Chronicle tells the following story on the authority of a friend "just up from New Orleans" : It appears that four persons had seated hemselves in the mines to play a game of poker,-the ante, as a substitute for money. being a handful of gold dust. They continued playing some time without either side winning much. At length one of the party, who had a good hand, went a handful "better." "I see that and go a pint better," cried another, who also had a "strong" hand. "I see that," responded the first, "and go a quart better." "Well, I see that and go a gallon better," responded the other. This rather disconcerted his adversary for a moment, as it "over sized his pile"-but confident in the superior strength of his hand, he collected together all the gold dust he had left, and

REPORT ON GEN. SHIELDS' CASE.

The select committee on the eligibility of Gen. Shields to a seat in the United States Senate, made their report, declaring his election null and void. A lengthy debate ensued, in the course of which Gen. Shields addressed the Senate, mainly in defence of the imputation cast on him by his unfortunate lefter to Mr. Breese. The further consideration of the case was finally postponed until yesterday.

"A FACT BRIEFLY EXPRESSED."

Under this head the Savannah Republican remarks, that one plank in Mr. Cass's Nicholson platform was-that the people in the territories should be allowed to determine the slavery question for themselves - that Mr. Cass was run in the South on this platform, and that Mr. Calhoun mounted it so far as to permit South Carolina to vote for him .-"The Charleston Mercury winked at it, the Constitutionalist lauded it, the Macon Telegraph said it was well, and the other Locofoco presses in Georgia eried out, Amen! Well, several bills have been introduced this session, authorising the people of California to decide the question according to their wishes; but Mr. Calhoun says it will not do-the Mercury says it will not do-the Constitutionalist and Telegraph, not having the Nicholson letter before their eyes, say it will not do-and the other Cass organs having caught the tune, echo back it will not do! They say that neither Congress nor the people in the Territories have the right to act upon and adjust the subject. The power therefore to settle the question exists no where . For what is all this done ? Why, to keep the question open that they may agitate! agitate! and do nothing but agitate ! If it were settled, Othello's occupation would be gone."

The business of the past week is full of interest. The South Western Railroad bill has been passed by both Houses. Also, the bill to Tunnel the Blue Ridge; and the bill giving another fifth to the Alex-

This gentleman addressed a Circular to his Fellow-Citizens of Berkeley county on Monday last, in which he savs:

"In relation to my being a candidate for Congress this Spring, no man is authorized to speak for me, and no one, so far as I am informed, has undertaken to do so. My determination on that subject I shall reserve, until I have discharged the trust with which I am at this time cluthed by the People. When that trust is fulfilled, I will then announce my determination to the District, and be that determination what it may, it shall be formed upon my own independent judgment of my duty to my fellowcitizens and to my country."

IMPROVEMENTS IN VIRGINIA.

We have recorded with great pleasure (says the Alexandria Gazette.) the recent action of the Legis-

internal improvement bills. The true policy of the State, in respect to fostering internal improvements, county, or from the head of steamboat navigation we hope is now settled, and we trust that the future career of the Commonwealth will show the wisdom of this policy. Virginia is one of the richest States in the Union in all that nature can do to increase public prosperity. A fine cli nate, a fine soil, an abundance of coal, iron, sait &c., &c., &c. All that are wanting, are means of communication and transportation, and thriving cities on the seaboard, where MARKETS for the products of the lands and the mines, can be reached with little cost of money or time. At last, then, we repeat, the true interest of the State has been seen, felt and acknowledgedand a liberal hand has been extended to the great

work of INTERNAL IMPROVEMENT. May our fondest expectations be more than realized ! RECEPTION OF THE DIPLOMATIC

CORPS BY THE PRESIDENT.

On Monday last, pursuant to previous arrangement, the President of the United States, surrounded by his Constitutional advisers, received the salutations of the Representatives of Foreign Governments at Washington on the occasion of his accession to the Chief Magistracy.

The whole number of the Members of Foreign Legations present was, we understand, thirty-two, all in their official costumes.

The address, on behalf of the Diplomatic Corps was delivered by the oldest Member of that Corps present, Gen. Don Carlos Maria de Alvear Minister Plenipotentiary and Extraordinary of the Argentine Confederation.

DOGS. Mr. Epiron :- Permit a subscriber to invoke the The Hon. Henry Clay has written a letter to the attention of the good people of Jefferson, to a sub-ject of importance to many of them. I mean the destruction of sheep by dogs. Within a compass of two or three miles, on the southwestern line of the county, not less than one hundred sheep have been killed or wounded, within the last week; and there each a second side in attinuing the less nembers of the Kentucky State Convention, on the subject of emancipating slaves. there can be no exaggeration in estimating the loss in this county alone, at not less than one, thousand dollars annually. What benefit results to any por-tion of our entizens, in return for this loss? I defy

any man to point out one single good arising from the possession of his dog. True, his dog may show great attachment to him; and so will his sheep, in a more awkward way perhaps; or his dog may bark at a squirrel or for, or point at a bird, or he may bay the moon. The huntsman traces that his dog is of no ralue to him, and that his fellow citizens run the risk of heavy loss, that he may indulge his hamor or caprice.

But most men say, dogs guard their property by night. From what ! Not from other dogs at least. A s dog kills B's sheep, and B's dog returns the fa-yor to A. and each suffers from the folly of the other. assert there are not five men in the county whose dogs are any safeguard. Thieves and robbers fear either their bark nor their bite; and what instance s on record of dogs having exhibited as much vigilance as the geese in the Roman Capitol ? Even a Cerberns could be pacified by a sop. But the pre-vailing argument is, that the dog is the poor man's friend, his companion, and should not be stricken •from his narrow sphere of enjoyments. This is all cant, to gain favor. If the poor must have a pet, let the farmers sapply each with a lamb or pig; he will be a gainer, and have his *peuchant* gratified al-But what moral right has any man, rich or poor, to indulge his humor at such cost to others ? man has the same privilege to keep a tame wolf, as to keep a dog; and I boldly assert that more sheep have been killed in Virginia, in one year, by dogs,

than have been killed by wolves and all other wild casts, (as we call them.) since 1607. Now, Mr. Editor, I ask my fellow citizens to conider the evil I complain of, and to devise a cure .a default of any other suggestion, I would earnestrecommend that the Legislature be asked to give he School Commissioners of this county the power to tax dogs, and to require them to assess a tax of not less than one dollar nor more than five dollars upon each dog, annually; and that the owner or employer of every slave possessing a dog, shall be assessed therewith. The district school system is a boon to the poor, and if the poor are shorn of their enjoyments in one way, they will be recompensed in another. I ask the attention of the public to this 1 roposition. Let something be done speedily. P.

FRIGHTFUL LOSS OF LIFE IN A THEA-TRE.

On the night of Saturday, the 17th ultimo, the Theatre Royal, in Glasgow, (Scotland,) took fire in the upper gallery, from a leakage in the gas pipes. The fire was soon extinguished ; but such was the alarm of the people that in the rush to get out, sixty-five persons perished. The panic was principally in the upper gallery, where there were about five hundred people, the price of admission being only three pence. The crowd rushed down the stairs in the terror of some undefined calamity, and fell one over another at the foot, thereby making a barricade of a compact mass of prostrate human beings a-

Its late able editor, Thomas Turner, deceased, was probably one of the earliest advocates of Gen. Taylor in Maryland.

THE NEW ADMINISTRATION.

The Washington Union has already broken ground against General Taylor. It ridicules his inaugural, speers at his cabinet, and can find nothing good in any thing he does or says. We expected this, says the Richmond Whig, and were prepared for it, nor do we call attention to it now for any other reason than to warn our friends of the necessity of supporting the man whom they have chosen, as strenuously as possible. They see that opposition is already organized, and that every thing Le does is to be resisted. The only way they can give effect to their support now, is to choose men to represent them, who will go to Washington determined to yield him a hearty support. In doing so, they cannot be doing wrong, for they may be sure that unless Gen. Taylor was in the right track, he would not be opposed at the outset by Locofocoism.

WONDERS OF THE TELEGRAPH.

The Philadelphia Ledger says that the inauguration address, delivered on Monday at noon, in the Capital of this great republic, was at five o'clock in the afternoon of that day, being circulated in extras at Dubuque, Ill., and by the same time had doubtless been promulgated to the citizens of Charleston, S. "C., through the medium of the various telegraph lines that are now extended throughout the length and breadth of the Union.

FIRE IN MARTINSBURG.

The Hotel formerly kept by Capt. W. L. Boak, body, with instructions to inquire into the eligibility

gitive from justice, which was ordered to be laid on the table and printed.

On Saturday, the bill concerning the Smithfield, Charlestown and Harpers-Ferry Turnpike, (subscribing three fifths instead of two fifths of the stock,) was read a third time and passed : An engrossed bill to incorporate the Alexandria

and Valley Railroad Company, f-ubscribing for the State \$1,250,000, being three-fifths of the capital proposed.]

Mr. Thomson opposed the bill as one of the wildest schemes ever proposed. It would break down the Stantton and Winchester Turnpike, and the Winchester and Harpers-Ferry Railroad, and utterly annihilate the town of Winchester. Mr. Harper advocated the bill as necessary to secure to the people of the Valley a cheap outlet to market, and to build up a Virginia city rather than Baltimore.

Mr. Wood opposed the bill, because it created a rival improvement to several others in which the Washington on Monday evening. He has taken State is interested, and also because the country interested is already accommodated.

> Mr. Scott advocated the bill; he said that this road would restore to Alexandria a trade which the legislation of the State had diverted from her, and the loss of which had caused her present impoverishment. Mr. S. went for competition, the life of trade, and against monopolies. He was for internal improvements, not for the profits they vielded to the stockholders, but for the benefits in opening the resources of the country. The region to be accommodated by this road was one of the most productive in the State. The gap in the ridge was low and easy to be crossed

> Mr. Thomson defended his views of internal improvement. He had been opposed to railroad schemes, because he thought railroads not the proper species of improvement for the State, and because he saw the mode in which they were carried through the House.

Mr. Martz said his county was deeply interested in the bill, and appealed to the House to pass it. Mr. Worthington said he had voted for nearly every improvement proposed to the House; but he was constrained to oppose the bill on account of its interference with other important works.

The question being taken on the passage of the bill, was decided in the affirmative by the following vote-aves 58. navs 47.

Car On Saturday last the Virginia House of Delegates rejected (81 to 21) the bill authorizing a subscription by the State to the stock of the Louisa Railroad Company, to enable said Company to extend their road from the Junction to the city of Richmond. The bill incorporating the Alexandria and Valley Railroad Company, was passed by a vote of 58 to 47.

CONGRESSIONAL PROCEEDINGS.

On Friday, the Vice President laid before the Senate, a letter from the Hon. Reverdy Johnson, re signing-in consequence of his appointment by the President as Attorney General of the United States -his seat as a Senator in this body.

Nothing of interest transpired on Saturday. On Monday, in the SENATE, Mr. Webster present ed a resolution, which was in effect, that the President of the United States be requested, if not, in his judgment, incompatible with the public interests, to transmit to the Senate any instructions which may have-been given to the Minister of the United States in London, offering a further extension of reciprocity and equality in the laws of navigation, and especially such instructions, if any, as contemplate the opening of the coasting trade of the United States to the ships and vessels of other nations. ALEXANDRIA TRADE.

We again call attention to the advertisement of McVEICH, BROTHER & Co. CHIEF CLERK.

Mr. Goddard, of Ohio, has been appointed chief clerk of the Home Department, by Mr. Ewing. The Legislature passed a resolution last week to adjoun to-day.

The Richmond Times, of Thursday, says: "In the House of Delegates vesterday, the bill es. tablishing and regulating the rates of Pilotage, was taken up and discussed by Messrs. Segar and Mayo. In the midst of the discussion, a call was made for a physician to attend Mr. Allen. Clerk of the Senate, who had been taken suddenly ill and had fallen from his seat. The House immediately adjourned.

LAND SALE.

On Thursday last, the fine estate of the late MATHEW FRAME, near Charlestown, was sold at public auction, by Mr. WM. H GRIGGS, to JAMES L. RANSON, of this county, for the sum of \$25 018 20. The farm contained 410 acres, and was sold for \$61 03 per acre.

I have at different times been aillicted with severe colds, which produces in my case, the Asthma. I have, on these occasions, used Dr. WISTAR'S BALSAM OF WILD CHERRY. Two years ago I was quite sic't, so much so that I could not rest at nights. I procured of the agent in this city, a bot tle of this Balsam of Wild Cherry. Before I had taken the whole of it I felt relieved. I continued taking it until I had used three or lour bottles, which completely cured me. The present season I took another severe cold, and immediately resorted to this Balsam, and a part of one bottle had the desired effect. I therefore cheerfully recommend my friends and all others who need it, to try this medicine for their coughs and colds, and particularly the Asth-ma. Respectfully yours, WM. McGRATH.

the said Jas. Shields to such seat-report That having given due notice to said Shields, he appeared before them, and they took the subject ino consideration.

They further report that the said certificate of eection declares that the said James Shields was cho sen a Senator of the United States by the Legislature of the State of Illinois, on the 13th day of January last-that it further appears and is admitted by the said James Shields that he is an alien by birth and the only proof before the committee of the nat-uralization of the said Shields in the United States, is contained in the copy of a certificate of naturali-zation in the Circuit Court of Effingham county, in the safe State of Illinois, which is annexed to and made part of this report, by which certificate it ap-pears that the said James Shields was admitted by said Court a cilizen of the United States on the 21st

day of October, 1840. The committee therefore report the following resolution : Resolved, That the election of James Shields to be a Senator of the United States, was void, he not having been a citizen of the United States the term of years required as a qualification to be a Senator of the United States.

Mr. Webster held most incontestibly that the election was void. The constitution required that he should be eligible as a Senator for six years from the 4th of March-and it might with just as much propriety be said that he could have been elected when he had been only six years a citizen of the State as when he had been eight years. His object in rising, a candidate for re-election to the House of Delegates, to give rise to further debate, that the subject be posthowever, was to move, as the resolution was likely from the courty of Loudoun. Mr. Harrison has poned until to motion, The motion prevailed, and been a valuable representative, and we regret that the Senate then protected to the consideration of performed. NEED not tell you what I have on hand, all oyou citizens and countrymen. Here is the place to obtain all kinds of merchandize. My stock is entirely too large to enumerate; come one, come all, and see before buying elsewhere, as I intend to sell to every customer who will favor me with a call. If I don't get my price, we will meet half way, in all cases; if that won't do, I will sell any how, if I can, so that I get the cash. I can do more than a credit store, as you all can judge for yourselves, for I am enabled to sell at one, one-half, or less profit for cash, as I expect to lose nothing by crediting goods out to pay day, six and eighteen months, and then lose it. So here goes, citizens, for

a cash system, at one-half the usual profit, or else at cost. Another Miraculous Cure.

QEAD the following letter, and then, if you

are troubled with any disease of the lungs,

DR. HASTINGS' COMPOUND SYRUP OF NAPTHA .

Mr. Harrison : Sir-I will trouble your patience a few minutes by informing you of the great triamph which your Naptha Syrup has obtained in the case of my brother. He increased the dose as you directed,

and the result was that he began to raise very freely

and it scented so badly that it was impossible to stay

in the room where he was, on the fifth day after the in-crease of the dose. In a day or so after, he began to

get better, and at this present time is quite revived, has a good appetite, and don't cough a quarter as much as he did previously. A severe cough and immense ex-pectoration were the prominent symptoms of the dis-

ease. I think his case was a singular one : none of the physicians here had ever heard or seen any thing of the

kind before. I mention all these particulars, as I am firm in the belief that, had it not been for the Naptha

Syrop, he could have expected nothing but a speedy grave, as there was an immense number of inbercles

formed on his lungs, which the medicine took immedi-ate hold of, and in a few days he threw them up by the

quartity, some of them were as large as a bean. If he improves as fast as he has done, I do not think tha

Modest .- "My dear, don't say tale, say narrative," said a modest lady to her little son, who was relating a very interesting tale he had just read in the newspaper. While the little fellow was thinking of his mistake the old nouse dog walked in shaking his tale. and looking quite familiar at the boy when he exclaimed : "Ma, make Sancho quit shaking his narrative."

Tom," said a girl to ber sweetheart, "you have paid your distresses to me long enough; it is time you were making known your contentions, so as not to keep me in expense any longer."

DUELLING .- The editor of a newspaper at Perth being challenged recently, coolly replied that any fool might give a challenge, but that two fools were needed for a fight.

II-Mrs. Partington says she intended the consort of the female cemetary last evening. and some of the songs were extricated with touching pathagoras. Parson's Universal Plough Cultivater and Seeder,

For Corn, Sugar Cane, Potatoes and Tobacco. THE undersigned begs leave to inform the agri-L cultural communi y generally, that he has purchased the sole right of making and vending the above Plough, which can be metamorphosed into a great variety of shapes, by the transposition of its shares, which consists of a right and lett hand share. It finishes a row by once going hrough, by throwmg the dirt to or from the rows or plants, and can be arranged to suit any desirable width. Thus, any man and horse can plough eight or ten acres in a day, and perform the work in the most ad-mirable manner. This Deleirated Plough and Cultivator

Combines the qualifications of performing double work in all branches of Agriculture for which it is recommended, with case to the horse, and almost without any effort to the operator, by the adaptation of the shafts and the application of two or three shares at a time, thus giving it the self-sustaining principle, which greatly recommend it to an enlightened public, seeking the advancement of the usual arts.

Its different modes of application are thus described : In furrowing, the ploughs can be applied for making two rows at a time. Then, in cross-furrowing, they can be arranged to cover one row and furrow the next. The first and second ploughing of corn. &c., the Ploughs can be arranged to plough both rows, and throw the dirt either to or from them. The proprietor could, if it were necessary, procure a host of the most indubitable evidences from the most prominent 'Farmers of the States of Indiana, Onio, Kentucky, Western Pennsylvania, Illinois, Iowa, Michigan and Wisconsin. But of what avail are such testimonials to practical demonstra-

Farmers and Mechanics: to satisfy yourselves that it is no humbug, but practical reality, as demonstrative as the many advantages derived from the aid of steam power, the power loom, or the press, come and examine with your own eyes, and handle with your own hands, and you will most assuredly give it that meed of praise which thousands before you have bestowed upon it, as being the cheapest, simplest, and most general agricultural implement in its various application now extant. The aforesaid Plough will hereafter be manufactured and sold by JAMES M. HESSEY, in the following counties : Jefferson, Berkeley, Frederick and Shenandoah. He is engaged in making them at Shepherdstown, where he will be prompt in filling all orders, either by forwarding or delivering the Plough. JAMES M. HESSEY. Shepherdstown, Feb. 15, 1849.

PURIFICATION.

It is a settled creed in all correct medical jurisprudence, that unless the blood is kept free from imarities, the whole system must inevitably become diseased. When the blood becomes clogged, thick,

and moves through the veins and arteries with a sluggish motion, we may rest assured that sickness, with its concomitant train of evils, is about to ensue. The utmost care and greatest precaution are therefore necessary, and the system should be closely watched. Those who generally provide themselves with mild and aperient physic, should give a preference to such as are of a strictly vegetable nature. Brandreth's Vegetable Universal Pills appear to be the universal favorite, as they are composed entirely of Vegetables and co-operate so ef-

fectually-cleansing the system-purifying the blood and removing all andue biliary secretions. For sale by
