Fron the Liuisville Journal. AUTUMN. BY J J. BARRICK. The summer days have passed away Upon the greath of flowers, White with held timeral comes decay In autumn's sobir hours;

And oh! hot solemn now, to view The cartin with beauty strown; * To watch the sky whose deepening blue A sadder shade must own. My heart was touched with pensive care, To see in greve, and lawn The change, wrought in silence there, Since sommer stosy dawn; The voice of untile hymned to me A dirge of the decay,

And joined in saddest symphony, The moments had away. Oh it were said to wander by To hear the firds in autumn's sky, The death of summer grieve: To hear the waves in music flow, A stiller, s'idder stream,

And feel these rests on all below, A melancioly dream. Yes! it were sad to roam the dale, In evenings languid hours, And hear the wanten winds bewail The death of submer flowers;
To see how trooping nature wears
A mournful factor care.
And hear no more the joyous airs
Of birds is summer there. But why in sorrow murmur now? Since God has nade it so?
Why wear alweart, pensive brow,
The shade of thought below?
Oh learn how life must pass away,

With all of human form, As fades the seautiful and gay, In autumn wind and storm. And like this folemp, serious time, In gloom and shiddw east, The gorgeout hars of summer's clime, Thus fade our lives like summer's sky, In evenings holy light. While memories on our spirits lie,

The stars of mortal night. MISCELLANY.

BEAUTIFUL SENTIMENT.

John G. Whittier, the Quaker poet, in writing about the Irish emigrants among us, says:

SOWING GRASS SEED.

It seems now to be very generally conceded, that the fall is a more suitable time to sow grass seed than the spring. If sowed before a rain or snow, it will be carried into water, and covered sufficiently deep to ensure its germination as soon as the atmosphere has acquired sufficient warmth in the spring. TROUT FISHING.

We have a friend who is a somewhat practical joker, residing in a pleasant country residence near the ocean. Some time since he had a visit from Professor ----, of poetic memory. The Professor is a keen trout fisherman, and seeing a pend at some distance from R's residence, he inquired-"Can you fish for trout in that pond?" "Oh yes," said R., "as well as not."

" Possible !- where's your rod?" "I have none. I'm no fisherman. But it you want to try, we'll go over to S-, and get tackle, and you may try your hand at it to-morrow."

It was thereupon agreed to do so, and the day was passed by the worthy professor in preparations for angling. The next morning early, P. drove him over to the pond, and he whipped it all aound to windward and leeward, finally wadd in up to his waist and threw his flies most killfully, but never raised a fin. It is well known that a victorious party in a to apathy, and repose upon its laurels. This is especially the sase with the whig party. A great proportion of its members cannot be kept in a continual state of exchament, and it is therefore only upon a great occasion, like that of a Presidential election, that they will work up in full strength, to beat the ad-

We know excuses for defeat are usually laughed at-and the true one is considered to be that the defeated party had not rotes enough, but in most cases it will be found that the disaster to whige is not on account of any great increase of Democratic votes, but of the fallure of whigs to attend the polls. The late contest la Baltimore city is a case in point.-There, the cores of both parties were far short of the number posted at the Presidential election, but whilst the Democrats lacked only about 700 of their usual number, the Whigs were deficient nearly 2000. This roves apalby-not change.

It is true, this apathy, under existing circumstapees-wife the danger of losing a majority in the House of Representatives before them-does not speak well for the patriotism of the absentees, yet it proves that the Democrats have in reality gained no numerical strength, except the natural increase that a year brings forth.

Another fact is to be considered-that the party coming into power has great difficulties to encounter in the dispensation of patronage. Whilst the majority of the people do not seek or desire offices, there are always many of the leaders and aspirants who do, and s ho, when disappointed, create a temporary disaffection. Thus far, notwithstanding the clamors of the Locofoco press, the Administration has not turned the patronage to any account. Evers if he had been a Democrat, and ruled up to a falfilment of his "pledges," he could not have been the President of the Nation, if he had continued the exclusion of Whigs, and perpetuated a monopoly of the spoils in the hands of the incumbents. THE TESTIMONY OF F. P. BLAIR. Nobody, we presume, will suspect Francis P.

Blair, the renowned editor of the Washington Globe; the besom friend of Jackson; the unwavering supporter of Van Buren, the very Bulwark of the Democratic party, of having the slighest leaning towards Whiggery. It is, therefore, with pleasure that we lay before the public his opinions with regard to the late funture between the Cabinet and the French Minister. They are the opinions of an enemy-yet of an energy who has the understanding to comprehend, the impartiality to appreciate, and the magnanimity to represent, in its true colors, the conduct of an opponent. It says much for the patriotism of Mr. Blair-much for his candor-and much for his good sense .- Rich. Whig. From the Washington Globe.

A few words as to the merits of the question .-We believe our Government to be decidedly in the right, and M. Poussin to be decidedly in the wrong. If M. Poussin's notes are accurately translated, we can believe nothing less than that the insult offered was intentional and studied, without imputing to the minister a degree of ignorance and obcaseness which, in our opinion, certainly cannot be justly imputed to him. He is permitted to withdraw one offensive note, which is followed soon by other notes, however, about as offensive as they could well be, not to be couched in terms absolutely indecorous and indecent. For this we know not how to account, unless it is that M. Poussin, being a young diplomatist and an old soldier, lost his temper, and forgetting the swaviter in mode, was betraved into a display of military brusquerie which might have passed in a French camp, but could certainly not ter, that he "called on the Cabinet of Washington to address a severe reproof to that officer of the American navy, in order that the error which he has committed on a point involving the dignity of your [our] national marine might not be repeated. It is reported that 'his gentleman is to receive an appointment from the Federal Government, and if he desires any thing, we hope the report may be true. He has undergone more hard labor in the Whig cause than almost any member of the party in the State, and there is no one whom Whigs generally would rather see honored and rewarded. TARIFF AND IRON INTEREST.

In the last Fincastle Democrat, as usual, we find two or three articles devoted to the abuse and slander of the iron interest of this country. No doubt some individual engaged in the business, has given some personal offence to the editor. It appears to take him an exceedingly long time to reap his vengeance. If our neighbor, however, will only be patient, we think there is now a very great probability, if not in fact, a certainty, that his cherished object-the stoppage of every Iron Furnace in Botetourt, will be attained about the end of the present year. We shall take special care to preserve the articles which be is now furnishing his readers, to see how they will look, when republished twelve months

We are assured that not less than fifty thousand dollars has been expended by the different Iron establishments in the county of Botetourt during the past year. Nearly every dollar of this money has gone into the polkets of the farmers and mechanics of the country. This enormous amount, let it be remembered, has been dug from the earthand that too, from the most worthless and inst., for the purpose of framing laws, &c., for the barren mountains and hills of the country --But for the existence of these institutions in the county, this vast amount of wealth would new be lying dormant and, worthless in our What have the farmers and mechanics of

"The barque Hebe, Capt. Stetson, of Baltimore, attempted to pass through the Straits of Magellan. While she was becalmed at the eastern entrance the Captain allowed some of his crew and passengers to land for the purpose of gunning. A gale sprung up while they were on their return, and the vessel dragging her anchors was compelled to put to sea without them. They were subsequently picked up by a schooner and brought to this place, where I have seen them. The Hebe has not yet arrived—the last accounts we had of her she had put into Valparaiso."

Shipping at San Francisco.-Cur San Francisco correspondent, writing under date of 1st ult., says: "There are now in port about 150 sail of vessels, amounting to nearly 50,000 tons .-The arrivals from the United States alone during the month of August, were 40 vessels, some of the largest class-the Memnon, from New York, over 1,000 tons. There are several vessels, with large numbers of passengers on board, out over 100 days from Panama, and have not been heard from since they left that port. The New Grenadian ship Humboldt, (formerly the Bremen ship of that name that traded to Baltimore.) of

800 tons burthen, has just arrived in 102 days from Panama -- she had 360 passengers, among whom were a number of Baltimoreans. The ship Brooklyn, which arrived here from New York on the 12th of August, had eighty of her passengers down with the scurvy, owing to the bad provisions furnished them-so the passengers say. They have entered suit against the Captain and owners to a large amount. Our Government ought to see that vessels leaving the States for these distant regions are preperly found, and not

SAN FRANCISCO, Sept. 1, 1849. person has arrived here who has not said something about the delightful climate, the production of the soil. &c. but for my part i have yet to experience even a moderate pleasant day, and as for the production of the soil, I can only say that having been here a month, in all that time I have not seen onehundreth part of the vegetables that I have frequently seen in your markets on the poorest market day. There are about three hundred good houses in the city of San Francisco, the balance, about five hundred in number, are composed of light frames covered with cotton cloth and duck; there are also numerous tents of all sizes and descriptions, around the doors of which goods of all kinds may be found. There are very few warehouses capable of holding much storage, and every description of goods are piled up in the street or in the rear of the stores and ients, exposed to the weather.

The retailers are making all the money, paying

and asking what they please for their goods. Funk" is here in all his glory, and going! going! gone! is heard on every side day and night. Property is beyond the reach of any man without large apital, and I would not recommend any one comr here to establish unless he or they could command at least \$5000 in eash. Rents are enormous and payable in advance; stores commanding from \$500 to \$1500 per month, clerk's wages from \$200 Let our farmers look to their interests in this res- probability is that they will rise even beyond that to \$300 per month; porters' wages \$150a\$175; drayage from \$1a\$2 per load; labor \$1 an hour o \$6a37 per day when employed by the day; the cost of landing goods is enormous, so you see from this that a man must have something to go on. Money is very scarce and will command from to 8 per cent. a month with good security; gold dust is taken for goods at \$16 the cance, but is only worth in the market \$154; every thing seem helter skelter, head-over-heels-no regularity in business; and a person brought up to regular business habits. on landing here fancies himself amongst a party of madmen. This state of things cannot last—a reaction must and will take place ere many months roll over. There are several flourishing towns up the river, viz: Stockton, Benecia, Sacramento City, Suttersville, New York, Boston, Springfield, and numerous others, but this is, and will be the place. Persons are coming in from the mines caily, very few of whom have averaged over four dollars a day net since they left, and this obtained by the hardest labor, living during their stay in the mines more like wild beasts than human beings. It is utterly useless for any to undertake mining who are not accustomed to hard labor and who are not men o iron constitution; since I have been here, I have seen Lawvers, Doctors, Preachers, Clerks, &c men unaccustomed to bard work, go off to the "dig gins," many of them never to return. On their landing here they are told what they may expect and what they have to contend with, yet so strong is the thirst after gold, that even the prospect of a miserable death will not deter them. We are now about forming a Government for ourselves, we have already elected a city Govern-

> State of California. There is a military company just formed here composed of the oldest and most respectable merchauts of this place, for the protection of the townit is called the "1st California Guard." This wil be followed by several others. They will no doubt have plenty to do the coming winter, as the place will be flooded by the rabble from the mines. There is more law and order here at the moment than in any of the Western States, and justice can at all times be obtained. The reports you have of persons wearing arms is all nonsense. I have not seen a knife or pistol on a man since I have been here. All is law and order, and the most feeble can traverse the city from one end to the other at any time of the night without fear of being molested, and this in a place of about 10,000 souls.

ter, in the flower of youth, having sustained but for a little time the tender relations of a wife and mother, at a time when the sphere of her usefulness had been so greatly widened, and the importance of her life, humanly specking, so much increased, with all that could make her continued existence an object of desire to herself and to others, she has been called to sleep in the tough. But she has left a rich legacy of hope to those who weep for her. After enduring a protracted and painful illness, she left this vale o tears, in the triumph of Christian faith, testifying with her dying accents that she was resting on a Sa viour's arm in the awful hour, and that death had

Norton's Patent UNIVERSE COOK STOVE.

THE subscribers being appointed Agents for the sale of NORTON'S PATENT UNIVERSE COOK STOVE, and having received several as samples, are now prepared to fornish them of any size, at Baltimore prices, adding transportation.
This Stove has Am-Tight and Hor-Am principle combined, which gives it an Oven more perfect than any Stove now before the public. The castings are made with a view to durability, being much heavier than the Cook Stoves now generally in use. It is very simple in its construction, having but one damper, which, if desirable, can be dispensed with. It performs equally well with wood They can give 30 or 40 references in Charlestown and neighborhood as to its utility. KEYES & KEARSLEY.

Dr. S. P. Townsam—I verily believe your Sarsaparilla has been the means, through Providence, of
saving my life. I have for several years had a bad
Cough. It became werse and worse. At last I raised
large quantities of blood, had night sweats and was
greatly debilitated and reduced, and did not expect to
live. I have only used your Sarsaparilla a short time,
and there has a wonderful change been wrought in
me. I am now able to walk all over the ciry. I raise
no blood, and my rough has left me. You-can well
imagine that I am theakful for these results. Your

Fits! Fits!! Fits!! Dr. S. P. Township, not having tested his Sarra-parilla in case of Fib. of course, never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County;

County:

Fordham, August 13, 1847.

On. S. P. Townsent—Dear Sir: I have a little girl, seven years of oge, who has been several years afficited with Fits; we tried almost every thing for her, but without success; at last although we could find no recommendation nyour circulars for eases like hers, we thought, as she was in very delicate he with we would give her some of your Sarsapardin, and are glid we did, for it not only restored her strength, but she has had no return of the Fiz. to our very great pleasure and surprise. She is fast becoming rugged and healthy for which we feel grateful.

Yours respectfully. JOHN BUTLER, Jr.

Female Medicines. On. S. P. Towisene's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barren-ness, Prolapsus Uteri, or Falling of the Womb, Cos-tiveness, Piles, Largorrhoss, ac Whites, obstructed or voluntary discharge thereof, and for the genera tration of the system -no matter whether the result of inherent cause or causes, produced by bregularity. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its in-fluence. It immediately counteracts the neaveless-ness of the female frame, which is the gridatense of Burrenness. It will not be expected of us in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have then reported to us. Thousands of cases where ramilies have been without children, after using a few bottles of this involuable Medicine, have been blessed with fine, healthy offspring. Great Blesslig to Mothers and Children.

It is the safest and most effectual medicine for purifying the system, and relieving the conferings at-tendant upon childbirth ever discovered. It strength-ens both the mother and the child, prevents pain and disease, increases and enriches the food; those who have used it, think it is indispensable. It is highly use-ful both before and after confinement, as it prevents diseases attendart upon child-birth—in Costiveness, Piles, Cramips, Swelling of the Feet, Despondency, Heartburn, Vomiting, fain in the Back and Lions, Fulse Pains, Hegsorrhage, and ju regulating the secre-False Pains, Hemorrhage, and in regulating the tecretions and equalizing the circulation, it has no equal.

Dr. S. P. Townsen.—Dear Sir: I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not eat, sieep or walk. I had the utmost distressing pains, and my limbs were terribly swellen. I have used four bottles of your Sarsapaulla, and they have done me more than one thousand dollars worth of good. I am so much better—indeed I am entirely relieved. You are at liberty to use this for the b-nefit of the afficied.

Yours respectfully, JAMES CUMMINGS. . The Rev. John Seger -

Of Jersey City, an old and highly respectable clergy-man of the Baptist Denomination, handed in the fol-lowing certificate at Dr. S. P. Townsend's office. It speaks for itself. DR. S. P. To SERNO-Dear Sir : I am constrained to give you a statement of the benefit I derived from using your Sarsaparilla, believing, by so doing, I shall render a benefit to those who are suffering as I have been. It was reduced for many months by the Dyspensia, so such that it was with much difficulty for me to was, or keep about. I had also a tetter, which covered the most part of my head—which was extremely troublesome and sore; it got to be almost a scab. I used quite a number of remedies for both the complaints but received little or no benefit until I took your Saysaparilla, which, through the kindness of Providence has restored me to more than my usual health, as I am now enjoying better than I have for a number of yeers. I am now 60 years of age. I believe it to be ch invaluable medicine and recommend it to my nufacrous enqualitances, which is very large, as I have been a minister a great many years. I hope this highly sketch may be as neach benefit to you as your readicine has to me.

The following was sent to our Agent in Rahway, by the Rev. J. O., TUNISON, of the Methodist Episcopal Church—dae of the most learned and respected in the connection—and is another evidence of the wenderful effects of Dr. S. P. Townsend's Sarsaparilla or FRIEND PRAESON - Having for some time past, as you are aware, experienced great general debility of my system, alterded with constant and alarming irritation system, attended with constant and ala ming irritation of my throat and lungs, I-was, at your instance, and in consequence of having rend Captain McLean's decided testimony in its behalf, induced to try Dr. S. P. Townsend's Prismed Sarsaparilla. I tried it, I confess, more in the hoje than in the confidence of its proving effications; but I am bound is candor now to acknowledges that I had not tried it long before I began to experience its salatary effects; and I may now say, with Captain McLean, "that I would not be without if on any consideration." It has done me more good that are previous remedy I had to tried, and if good than any previous remedy I have tried, and if this statement is decreed by you of any importance, you have my full consent to make it public. Nevember 9, 1848-1y Caution is the Parent of Safety I OW often do we see persons afflicted with a slight Cough and Cold, who go on neglecting it until it settles on their lungs, and brings on AN ATTACK of PULMONARY CONSUMPTION, which may eventually cause their death; when, if they had

procured a bottle of Hance's Compound Syrup of

Hoarhound,
in the heginning, they never would have experienced
any ill results from their cough, but have been cured of
it immediately Therefore, all those who are troubled with a slight cough, will recoiled that delays are dangarous; for what may appear trivial in the beginning may lead to the most dreadful consequences. Hance's Compound Syrup of Hoarhound may be used by persons in the most delicate state of health, with periods safety, as its effect on the system, although cartain, is very mild. L are troubled with any disease of the lungs, go and get a bottle of DR. HASTINGS' COMPOUND SYRUP OF NAPTHA ST. JOHNSVILLE, New York, Feb. 5, 1848. Mr. Harrison : Sir-I will trouble your patience a few minutes by informing you of the great triumph which your Naptha Syrup has obtained in the case of my brother. He increased the dose as you directed, and the result was that he began to raise very freely, and it scented so badly that it was impossible to stay n the room where he was, on the fifth day after the inrease of the dose. In a day or so after, he began to get better, and at this present time is quite revived, has good appetite, and don't cough a quarter as much as the did previously. A severe cough and immense exation were the prominent symptoms of the dise. I think his case was a singular one; none of the vsicians here had ever heard or seen any thing of the ind before. I mention all these particulars, as I am irm in the belief that, had it not been for the Naptha yrup, he could have expected nothing but a speedy we, as there was an immense number of tubercies and on his lungs, which the medicine took immedie hold of, and in a few days he threw them up by the pantity, some of them were as large as a hear, If" e improves as fast as he has done, I do not think tha e will need any more than the six bottles I now send or. Enclosed are five dollars. Direct the box as before o Jonas Snell. Care of Charles Kingsland, Railroad epot. Yours respectfully, JONAS SNEL After rending the above, who can doubt that Hast-
