\$1,024.38 when all collected. In the Revenue tax of 1851, is included the sum of \$172.95 cents, as a collateral tax on the real estate of the late Isaac Strider, which is chargeable for ore year only. The above sum of \$81.65 cents is a similar tix on personalty, and charge tole for the year and not afterwards. A report of the 'action of the Board," and "a statement of the receipts and disbursement of the cem er, 1818, and published in the newspapers of the C muty in the Spring of 1819; and also published in the documents of the General Assembly of the session of 1848 and 1849. A further report con-

the session of 1848 and 1849. A further report containing a similar statement, was made December 23d, 1850, and published in the documents of the Assembly of the session of 1850 and 1851. On the 2nd of January, 1852, a similar statement was sendered to the Anglish. dered to the Auditor, and is now herewith submitted JEFFERSON COUNTY, Jan. 2, 1852. The Board of School Commissioners of the counrespectfully report to the President and Directors of the Literary, fund, the following

statement, viz: That, as reported in December, 1850, there was in the hands of the Treas'r, There has been received since, from the Anditor and from taxes and levies, and from tuition bills or fees,

Making the sum of There have been expended since in build ings, salaries of teachers, of commissioners, and of furniture and fix 10,173.63

Balance in the Treasury, The Board here with submit also a copy bond of the Treasurer, duly certified by the Clerk of the County Court of the County of Jefferson.
In submitting this, their annual report, the Board are not aware that there is any special statement of their proceedings or the operations of the system called for. The reports, furnished by the different commissioners, justify the declaration that there is every reason to believe that it is and has been sucs children in regular attendance on the kend bran-them daily instruction s given in the usual branches of an education, a. . . with commendable attention by teachers and commissioners, the pupils

are improving.

The branches taught are leading, writing, arithinetic geography and grammar. In some instances, the higher sciences are taught, but most generally the higher sciences are taught, but most generally the ordinary branches of an Euglish education con-The teachers have been examined, and in attain-

anonts and character have been found worthy. The books used are, McGuffy's Sp lling book and series of readers; Mitchell's and Morse's geo-graphs; Comley's spelling book; Walkers dictionery; Parke's, Pike's and Ray's arithmetic; Marray's and Smith's grazamar.
The price paid for influent is 50 cents per quarter.

The sessions of the schools are from January 24 to June 25th, and from July 10t, to December 24th of each year—the intermed ate periods are vacation.

The Board have found to cause to suspect that great public advantage will not arise from a continuation of the system. On the contrary, its action and success commend it to their confidence, and entitles it to receive, to a greater extent than it does, the aid and support of those whose position and circumstances suggest the encouragement of an itsti-tution designed and calcu ated to make men better. The County is now generally provided with "good and sufficient school-houses." Children are daily instructed by competent teachers, and their conduct and deportment constantly observed by the Commissioners. With confidence the prediction is made, that, in time, results will be made manifest, exhibiting the blessings of an educated community.

The numbers who have felt this truththe numbers still feeling it to the heart's core-are incalculable. They recognize it as the great mistake of their lives. The chain is not to them a silken one, but a cable of iron, that tightens around them more and more, crushing out all hope and energy, substituting hate for love, and eating out, with its rust, the very inner life of the soul. Boys and girls now marry to a greater extent than ever before, instead of waiting until they become full grown and matured men fuz gathering on his upper lip-and the

and women. The young dandy, as soon as he gots out of short jackets, and finds a little young miss, as soon as she emerges from the nursery and abbreviated frocks-think they are well qualified to assume the most solemn responsibilities of life. And so, if 'Pa' and 'Ma' won't consent, they post off to some Gretna Green, and there take obligations that, in ninety-nine cases out of one hundred bitterly repent.

Marriage should never be the result of

fancy. The ball-room and the evening party

rarely develope real character. Under the exhilerating influence of the dance, the glare of lights, and the merry quip and joke, the dissolute young man may appear amiable, and the slatternly scold loveable. Matches made at such places, and under such circumstances, are not of the class that originate in Heaven They more generally are conceived in the opposite place, and bring forth on-ly iniquity. The true way to learn each other is to do it at home, in the parlor, in the kitchen, and on occasions that test the temper. We see the result of these unequal unions in the almost daily divorces that are taking place-in the running of husbands, and in the elopement of wives. Not only this, but we witness it in broken spirited men, made old in the prime of life, struggling on for mere food and clothing and shelter, and in women, cross, dirty and

GEN. SCOTT.

The Democratic Review for March is said to contain a very ferocious attack upon Gen-Scott, in which it undertakes to strip him of all the laurels he achieved in the Mexican war. This is but a foretaste of what may be expected should he be nominated as the the Whig candidate. Although not prefering Gen. Scott as the Whig nominee, we must protest against such injustice to a man who has faithfully served his country in the field. His political opponents exhibit neither gratitude nor wisdom in such a course. The fierce attacks upon the military reputation of Harrison and Taylor only increased their strength with the people.

EFFECTS OF LOCOFOCO POLICY.

It is stated in the Cumberland, Md Journal that John F. Winslow, Esq., President of the Mount Savage Iron Works, has purchased in England ten thousand ter- o heavy T rails for the Bellefontaine and Indiana Railroad Company, five thousand tons of which are to be of the Compound pattern of Mr. Winslow's patent. The Journal

The policy of our Government, in refusing protection of our own manufactures, has thus forced the President of one of the most splendid rolling mills in the country to purchase rails in England, of a form the patent of which is held exclusively himself. With sufficient protection, these 5,000 tons of Compound Rail might have been manufactured in superior style at Mount Savage, in this county. To what extent our farmers, merchants, mechanics, and operatives generally, would be benefitted thereby, we leave the people of the country to calculate.

TO " LEGION."

We have received a communication over the signature of "Legion," calling upon the candidates for the offices of the Circuit and County Clerks, to answer interrogatories in reference to their views on certain Constitutional Reforms. Having established rules requiring all candidates for office to pay for their announcements, we cannot comply with Legion's request, except upon the same terms. Were these goutlemen candidates for positical offices we would deem it part of our duty to insert the inquirles gratis. But we cannot see how an individnal's fitness for office, of this kind, is involved in any

peculiar notions of Reform. Rev. Lewis Eichelbergen, of Winchester Va., has been appointed Professor of Theology in the Ev. Lutheran Seminary, in Lexington, S. C., in the room of the venerable Dr. Hazelius, resigned, and has accepted the appointment.

A CONTRAST. The Richmond Republican refers to the threat of a Democratic letter writer from Massachusetts. soon after Van Buren's defeat, that "the South having thrown herself into the embraces of the Whigs and Anti-Slavery party of the North, must hereafter take care of herself." This, says the Republican, was not an empty fulmination. All subsequent agitation is traceable to the revengeful feelconsisted in nothing but a regard for the spoils. "How different (says the Richmond Republican) the life of Millard Fillmore, from that of Martin Van Buren! The latter came into power under the auspices of the Southern Democracy, as a "Northern man with Southern principles." He has proved himself to be politically a traitor, and personally without principles of any kind. The former came into power, advocated by the Whigs of the Union as a Northern man with American principles, lut denounced by the Southern Democassuming the reins of authority in the most bitter war of sections which the country has ever experienced, has conducted public affairs with such wis-Northern popularity, nor the threats of Northern displeasure, have relaxed for one moment his fidelity to the Constitution and the Laws. " Let the South look to her Whig friends. Yes, she is looking to them even now, -with gratitude, with faith, with hope,-as the mariner looks to beacon flame which has guided him through roaring breakers and is pouring a broad flood of light upon the harbor's mouth."

THE CUBAN TRIALS.

The Jury at New York for the trial of John O'-Sullivan, for being concerned in fitting out a hostile expedition against Cuba, was unable to agree upon a verdict, and it's members were accordingly discharged. The proof was conclusive as to the respondent's agency in the expedition. The New York Herald, in commenting upon the result, says: "One very important result will probably follow from the singular termination of this trial in New, York, in combination with the New Orleans trials. From this time forward, we may expect to see expeditions started in this country, either in the South or Southwest, openly and above board ramelle to or southwest, openly and above board ramelle to No American jury can be found, it seems, that will convict an American sympathizer of getting up such an expedition in the most public way against the present government that exists in Cuba. It has been tried, and the fact is realized in the two principal cities of the United States-New York and New Orleans. Hereafter, our own government, and the government of Spain, may look out for squalls and expeditions without number; nor do we see any repressive remedy in prospect. We fear, therefore, that filibusterism will rise to par before next November. What then is to be done ?-What is the use of laws or treaties? How is Spain

or the Jnited States to act hereafter ?" DEFEAT OF THE SMALL NOTE BILL.

The reader will perceive from the report of Friday's proceedings in the House of Delegates, that the bill authorizing the Banks of the Commonwealth to issue notes of a less denomination than five dollars, was, on motion of Mr. Goode, indefinitely postponed. We presume this decision will create no surprise in the mind of any one at all con-

versant with the policy of our Democratic rulers. Whilst the bill was under consideration, an incident, somewhat unusual and verging on the ridiculous, occurred in one of the galleries of the House. Mr. Goode having moved to postpone the bill to the 23d Nov. 1853, and the ayes and noes having been ordered on the motion, the Clerk was about to call the roll, when a citizen seated in the gallery, rose, and in the most ardent manner, insisted upon being allowed to amend the motion. The earnestness of his manner, added to the unusualness of the interruption, attracted the undivided attention of the whole House. Even the Clerk paused for a moment, and Mr. Speaker himself appeared to sit uned to call the roll, when the citizen shouted out amend that motion!" The Speaker directed the Sergeant-at-Arras to remove the offender; the amateur legislator was accordingly speedily but politely requested to withdraw, and upon complying, the clerk proceeded to call the roll, when it was decided that Mr. Goode's motion had carried, and the Small Note Bill received its quichs.

P DEMOCRATIC RULE.

ast week, let fall a remark in the bodies an idea, that has been lurks of a great many other people.ect, that judging the Democratic ia by its fruits, it was not pre-emigovern the destinies of the State .present condition will very clearly truth of this assertion.

cratic party have had unchecked control of the State for years. We are in debt about nineteen millions of dollars. Of this amount, eleven millions bear interest, and require the constant attention of the Legislature.

Enormous taxes have to be raised-such, indeed as the people of Virginia have never known before-But oppressive as these taxes may be, they will only produce a sufficient amount to keep the wheels of government going-to pay interest on the public debt-the salaries of office-holders, and the other economies of the party. Not a cent, it is estimated, will be left for the prosecution of Internal improvements, for equeation, or future relief.

Mr. Good the Chancellor, of the Exchequer, announced that the Treasury was empty, and it is provision must be made, by way of loan, deserve the credit of Government. This, in brief, is our present condition, under wise De nocratic anistration! Is it not high time to change it? Is not some amendment in our condition demanded by every consideration of patrioticm and sound policy? What prospect does Democratic rule hold out of such improvement? They have no measures which promises relief. Next year, according to their own showing, the taxes will be greater than they are this; and still no work of Improvement sen be aided. Two increased taxation will be required to pay interest on the debt, the salaries of office-holders and other current expenses !-And so it will continue for 36 years, until the public debt is extinguished. The people for all that time will have to pay taxes simply for the pleasure of being governed by Democrats. What, in the meanwhile, will become of the works of Internal Improvement already commenced, and those projected, we leave to their several friends to determine.

The Whigs contend, and we think justly, that our condition would now be far different from what ings of Martin Van Buren. The boasted "natural it is, if their policy with respect to the public lands alliance" of the Northern and Southern Democracy | had been adopted. The 4th instalment under the Distribution Act of 1836, would alone have given to Virginia upwards of \$700,000. That went by the board when the Democrats gained the ascendency; and since then, Mr. Senator Douglas' grabsystem has prevailed, and the public lands are being appropriated to the States in which they lie.

By arresting this iniquitous system, and giving to Virginia her due portion of the public domain, the Whigs think that all our wants would be relievcv as an abolitionist of the darkest dye. This man, ed. We published some statistics last week, which showed that Virginia's share in the public lands, still unappropriated, would amount to about 583 for? Virginia is as much entitled to it as to any money in her treasury-or rather ever was in her treasury-for there is none there now. By a change of men and measures, she may stand a chance to obtain it. Certain it is, that she will never get the first cent of it, if for the honor of being ruled by Locofocos, we leave it to be seized upon by squatters. Richmond Whier.

RESOLUTIONS OF THE VIRGINIA DEMOCRATIC CONVENTION.

The Democratic Republicans of Virginia, in Convention seembled, following the time honored usage in de aring the principles which bind them together as a party, do resolve:

1. That the true relations between the States and the Federal Government, and the true rules for the construction of the Constitution, are correctly set forth in the resolutions and report of 1798 and '99, of the General Assembly of Virginia, and the doctrines therein expounded and hereby adopted and re-affirmed.

2. That Congress has no power to appropriate, directly or indirectly, the proceeds of

poses of internal improvement. 3. That specific duties, taxing, as they do, the low-priced necessaries of the poor as heavily as the costly luxuries of the rich, are unequal, unjust, and odicus; that duties designed for protection, foster one branch of industry and cherish one section of the country at the expense of others, and are utterly inconsistent, with justice, sound policy, and Democratic principles; and that we are opposed to any increase of the duties on inports, especially on articles of general and necessary assumption, such as iron, coal,

sugar, salt and coarse cottons. 4. That the Federal Government ought to adhere in its foreign policy to the maxims inculcated by the father of his country

and by the Father of Democracy. 5. That we re-affirm the resolutions of the Baltimore Conventions of 1844 and 1848, as far as applicable to the present condition of

the country. 9. That we recommend to the Democracy of the several Congressional Districts, to send, each, not more than four delegates to the Baltimore Convention.

7. That we approve of the mede of voting heretofore pursued by the Virginia delegates in the Baltimore Conventions, and recommend that they continue the rule of casting the whole vote of the State by a majority of

the districts. 8. That the vote of the State in the Baltimore Convention ought to be given for such candidate as will command the greatest strength in the Democratic party throughout shall and shall not be assessed by the Commissionthe Union, and whose principles are known ers of the Revenue for taxation, was considered in derstood to be (though not pledged) for Buchanan. "Stop! stop, I say! I insist upon being allowed to to conform most strictly to the cardinal tenets of the Democratic Republican faith.

The Richmond Whig, in referring to the above

"They set their traps to catch fish going up or coming down stream. They are the party of all sorts of principles, and none in particular. Old Virginia, crushed to the earth with taxes, has a great abhorrence for those politicians, who are robbing her of her portion of the public lands-here, therefore, it is the height of Democracy to enveigh against that policy; but Mr. Douglas, the man who originated the policy, is daily pursuing it, and owes to it all the consideration he enjoys, is a fit and proper person for President! A Tariff on the necessaries of the poor, is abhorrent to Virginia Democracy; but the great a vocate of it, in the person of Mr. Buchanan, would make an admirable Chief Magistrate!

The truth is, the Democracy of every shade and stripe, seem to be intensely eager for the spoils, drink; they are empty, and they must be filled."

TRAVEL ON THE CANAL.

The packet Boats, Belle & Fashiou, are now making daily trips between Harpers-Ferry and Alexandria, with large numbers of passengers,-The satisfaction given is general-whilst the economy is very great. The Hon. Henry Bedinger is said to have made the most felicitous and happy speech that was of 1850, was taken up, and discussed. delivered before the Democratic State Convention: Henry is a whole team on the stomp, and deserves well at the hands of his party. We observed that he came "down" on the recusants who delivered his District into the hands of the enemy at the late election. Wonder how a certain Frederick delegate stood the fire? HORRIBLE ASSAULT.

On Saturday night, between eleven and twelve o'clock, a citizen named Benjamin H. Hall, formerly of Annapolis, Md. was cruelly dealt with, near the northwest corner of F and Fourteenth streets, Washington, A gentleman who was passing at the time, and witnessed the close of the proceedings, immediately ran in search of police officers, who headed by their chief, Captain Goddard, soon made their appearance, and succeeded in arresting James Rigsby, (who is charged with the assault, and who had retreated to his lodgings near by,) and conveyed him to the watch house. Mr. Hall was supposed to be in a dying condition. Dr. Stone, who lives in that neighborhood, having been attracted to the scene by the alarm and excitement which prevailed, caused the wounded man to be conveyed to his office, where, on examination, he discovered that Mr. Hall's skull was badly fractured just above the left temple, and the scalp extensively torn. The sufferer was subsequently conveyed home, and his condition, we learn, was considered extremely critical. - Republic.

PUBLIC SALE. RARE opportunity is now afforded to per-A sons, or both sides of the Shenandoah river, who may wish to obtain Wood Lots to supply

them with rails, building material, fire wood and

pasture grounds. I will sell to the highest bidder, on the first lay of March Court next, before the Court House door in Charlestown. A Tract of Land lying on the east side of the Shepandoah river and about one-tourth of a mile from it, generally knownas the "Wilt Lease." It adjoins the lands of

Messrs. Lucas, T. B. Washington, P. Coons, Wm. Clendening and Dennis and Wm. McSherry. It contains about 70 Acres, about two thirds of it is in wood, and on it is a tolerable Dwelling, some fruit trees, spring, &c. Mr. C. Scarl t who resides on it will show the boundaries to any person wishing to examine the property.

And, also, at the same time and place, I will sell A LOT OF WOODLAND, containing 321 Acres, lying between the Forge and Furnace—adjoining the lands of T. B. Washington, Geo. W. Little, &c., it being the lower half of the "65 acre lot," it is quite desirable. Mr. G. W. Little will show this lot to any one wishing to see it. The third and last tract now to be offered by me

lies between the Furnace tract and Mrs. Jane Washington's tract of 855 acres and extends from the Loudoun line to the Shenandoah, running with the river 140 poles. The entire tract contains, 5764 acres and will be

ivided into lots of various sizes. The first lot binding on the river will embrace the cleared land and a sufficient quantity of Woodland to support it-together making-acres. The residue will be laid off in lots containing from 25 to 50 acres, as circumstances may indicate. The sale of this tract will take place on Thursday, April 1st, at the house on the premises, commencing at 11 o'clock - a plat will be exhibited at the sale. TERMs .- One-third of the purchase money to be paid in hand-the balance in two equal annual instalments with interest from the day of sale. The deferred payments to be secured by deeds of trust or bonds with approved personal security, at my option.

JOHN A. WASHINGTON, by JAMES M. BROWN, Agent.

February 26, 1852. Postponement. The above sale is postponed until Thursday 8th of April, when the three tracks will be sold on the large farm as stated above. J. M. BROWN, March 18, 1852.

Public Sale. WILL offer at Public Sale, a my residence, about one mile from Lectown, on the road leading to the Sulphur Springs, on Wednesday April

14th 1852, the following property, to wit; 4 Horses, 1 Colt; One Fresh Milk Cow and Calf; 16 Head of Hogs, two first-rate Brood Sows; 1 good four Horse Wagon, Bed new; One 2 Horse Wagon;

3 Barshear Ploughs; Double and Single Shorel do.,; Four Sets Wagon Gearing; Hoes, Forks, Rakes and Spades:

A lot of Plank; About 40 Acres of Wheat in the ground. TERMS .- Six months credit on all sums of five dollars and upwards, the purchaser giving bond and approved security; under that sum, cash will be required. No property to be removed until the terms

of sale are complied with. Sale to commence at 10 o'clock, A. M. JEFFERSON JOHNS. April 1, 1852. Gardner & Rohr's Wheat Drill, OR

SEED PLANTER. THE undersigned having purchased the right to

manufacture and sell this unequalled Drill in the counties of Loudoun, Clarke, and the southern half of Jefferson, are now fully prepared at their establishment in Charlestown to farnish to order any number of Drills, made in the most substantial manner. All orders promptly attended to. This Wheat Drill performs the triple work of Drilling, Sowing and Covering by the same movement thereby saving much time and labor. It will plant point rows, and all irregular shaped fields,

with a saving of from 10 to 15 per cent, in labor. It will, with ease for two horses, plant from 8 to 10 acres per day of Wheat, Barley, and other small grains. This Machine has been in use two seasons, and wherever it has been introduced has given entire satisfaction. This Prill took the first premium at the Valley Agricultural Exhibition in October last. Also, the

first premium at the Agricultural Exhibition for Belmont county. Ohio, October 23, 1851. O'BANNON, HENSON & HUNT.

We have in our possession a large number of certificates, recommending this Drill to the farmer as having no superior. Among the number the fol-

I have used on my farm and am still using one of the Wheat Drills, patented by Gervis S. Gardner and George Rohr, and now sold by Messrs. Henson, O'Bannon and Hunt. I do not suppose any intelligent farmer would now dispute the advantage of drilling over broadcast sowing; I also consider the above Drill altogether equal to any drill now in use, and the advantage of applying a compost box to it, makes it very desirable. The compost part of the drill acts well in every porticular and is one of the greatest inventions of the day for the farmer; it might well be called the farmer's friend, as it saves both time and labor. MARTIN EICHELBERGER.

We have for sale a fine lot of Mould Boards and O'BANNON & CO.

VALUABLE PROPERTY situated at Duffield's Depot on the Baltimore and Ohio Bailroad, in Jefferson County, Virginia, embracing the Store House, Depot and Dwelling, and also four Houses and Shops conveniently and well situated for residences and for the business of Mechanicks. These houses are in good repair and sufficiently large for the purposes desired. To those unacquainted with the location, it may be necessary to state, that the stand for a Mercantile Establishment is regarded as among the very best in this section of Virginia, being in the midst of a thickly settled population, and one of ample means and disposition to patronize liberally. The depot is nearly central, situated between the points of Charlestown and Shepherdstown and very conveniently to Harpers-Ferry. It is advantageously located for the purchase of wheat and other agricultural produc-tions. At the same time and place, I will offer for sale, about

Thorn-Hill for Sale.

THE undersigned, as attornies in fact of the widow and heirs of John Bowyer, dec'd, offer for sale that SPLENDID FARM, called "THERN-Hill," situated in the County of Rockbridge, two miles South-West of the town of Lerington. This Farm contains about

1,400 Acres, lying on either side of the Valley Junction Plank Road connecting the town of Staunton with the town of Buchanan, in the County of Botetourt .-This tract of land is celebrated at once for its fertility and beauty. The MANSION HOUSE is spacious and elegant, and commands a most imposing view of the Blue Ridge and North Mountains, the town of Lexington, Washington College, and the Virginia Military Institute. The soil is of the best quality of limestone, and the land is undulating without being at any point too steep for cultivation. More than 300 bushels of wheat were sown during the last Fall, and the greater part of the cleared land is well set in clover. There is an extensive WATERED MEADOW of more than 100 Acres, to which a large addition can be made at a moderate cost. There is a spacious NEW BARN, erected within the last two years, and the necessary OUT-BUILDINGS are generally in good condition.

Unless it is previously disposed of by private sale, we will offer the above tract at public auction, on the premises, on the 1st day of June next. An accurate survey of the entire tract will immediately be made, and it will be sold in one, or divided into three or more tracts to suit purchasers .-Every field is well watered, and there are about

400 ACRES OF TIMBER, of the very best quality. The improvement of the North River by canal and slack-water navigation, connecting Lexington with the James River and Kanawha Canal, which is now in progress, will afford every possible facility for transporting the crops of the farm to the Richmond market. The terms of sale will be, one-fourth of the purchase money in hand, and the balance in three equal annual instalments with interest from the date, secured by deed of trost. The privilege, however, will be reserved to the purchaser or purchasers of retaining the one-third of the entire purchase money during the ratural life of Mrs. Elizabeth Bowyer, on condition of paying interest annually to her on that amount

Immediate possession will It viven.

CURE OF ALL DISEASES ARISING FROM

AN IMPURE STATE OF THE BLOOD,

OR HABIT OF THE SYSTEM. The value of this Medicine is now widely known, and every day the field of its usefulness is extended. It is approved, and highly recommended by Physi-cians and admitted to be the most powerful and searching preparation from the root, that has ever been employed in medical practice. Its operation extends to the remotest parts of the system, and consists in removing diseased action in the absorbing and secreting organs. In man, Nature seldom effects, unassisted, the cure of any virulent disease, but requires the aid of a stimulant, alterative, or antiseptic medicine. In diseases of the skin and flesh, a combination of these three classes of medicinal agents is highly desirable. All these properties are combined in this preparation; and instead of operating successively upon the system, as they must necessarily do when taken separately, they operate simultaneously, and in perfect harmony when administered in this form. Its tonic property strengthens the digestion, and improves the appetite. Its alterative tendency carries off the accumulations

CURE OF BRONCHITIS OR MINISTER'S SORE THROAT. FAIR HAVEN, Mass., Aug. 22d 1850. Messrs. Sands.-I regard it but justice to your-selves, and humanity to all similarly afflicted, to say, that your Sarsaparilla has cured me of the Chronic Laryngitis.

Its uniform success in curing and relieving the va-

tablished by a multitude of attested facts.

It would be difficult for me to describe the alarming condition of my throat and vocal organs previous to the use of your invaluable remedy. During nearly three years I was forced to desist from the public duties of my profession; and having ma. e use of a great variety of professed specifics, besides submitting to more than thirty extremely painful caustic applications, I had abandoned all hope of relief when, as a dernier resort, I was led to the tri-

al of your Sarsaparilla. My disease was of so long standing, and had so obstinately resisted the best medical skill, that I am conscious it cannot truly be said, my "faith hath saved me," for I had none; but I trust I feel in some appropriate degree grateful for the favorable result above named. I have now been able to attend to the duties of the pastorate for more than a year, and having proved from actual experiment the thoroughness of the cure, I could not feel justi-120 00 | fied in longer withholding this statement I am accustomed to keep a bottle of your Sarsaparilla at hand, and whenever exposed to colds, or Very gratefully yours,

SANDS: Gentlemen .- This is to certify that I have been afflicted more or less ever since my birth, with Scrofula, which continued to increase until last February. In January, my legs were so swoller I could not get on a boot or stocking, and I had several large sores on me all the time. In this situation. I was about to give up in despair, when I was advised to try Sands' Sarsapassita. I had not much faith in it, but I sent to your agents in Augusta, Me., and procured a bottle, which did me so much good, that I sent and got another, and continued un-til I had taken five bottles. I am now perfectly well. If any person who may read his letter is afflicted with any disease of Scrofula, I would most sincerely recommend and advise them to make use of Sands' Sarsaparilla. If any person wishes further information about my case, by calling upon me, I can convince them of the healing power of this medicine. STEPHEN C. HAYWOOD. P. Prince Street Wharf. WATER. TEW subjects deserve more attention than the necessity of obtaining a copious supply of water, but in looking to quantity of supply, quality "My drawers miss " ejaculated the young has been thought of less importance; there could man, glancing downward at his dress to see | not be a more gross error or one more fatal to domestic comfor, and economy. We propose to explain some of the serious inconveniences which result from an injudicious selection of hard water for demestic purposes. The water found in springs, &c., has its primary origin in rain, which falling on the soil percolates through it, and the porous beds beneath and gushes out in the form of springs whenever it meets an impervious bed which refuses it a passage; pits sunk down to the latter, detect it there, and form wells. In its passage through the pervious rocks, it takes up soluble impurities varying in their amount and character with the geological formations; these impurities being principally "What! you just ready to report verbatim, | mineral ingredients, may be lime chalk, gypsum, phonetically, and cau't do that? The salts of lime and magnesia communicate to water a quality termed hardness, a property difficult to describe, but which all understand; the most common giver of Horace Mann thus sums up a few of hardness is carbonite of lime. For making Coffee and Tea the evil is still more obvious; it is extremely difficult to obtain a good infusion of either with hard water however much may be wasted in the attempt. The effect of hard water on the health of the lower animals is very obvious; horses, cattle. &c., refuse it whenever they can obtain a supply of soft water, they prefer the muddlest pool of the latter, to the most brilliant and sparl ling spring of the times more serious diseases, the coars of horses drinking hard water become rough, stare, and they soon fall out of condition. COFGHS. COLDS. HOARSENESS. BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

This invaluable remedy for all diseases of the throat and lungs, has attained a celebrity from its remarkable cures, never equalled by any other medicine before .-Other Preparations have shown themselves palliatives, and sometimes effected notable cures, but none has ever so fully won the confidence of every community where it is known. After years of trial in every climate, the results have indisputably shows it to possess mastery over this dangerous class of diseases, which ould not fail to attract the attention of Physicians, Patients and the public at large. See the statements, not of obscure individuals and from far distant places; but of men who are known and respected throughout the country.

The widely celebrated Surgeon, Doct. VALENTINE Morr, of New York; City, says: "It gives me pleasure to certif, the value and effica-cy of 'Aven's Curnay Pecronal,' which I cousider culiarly adapted to cure diseases of the throat and DR. PERKINS, the venerable President of the Ver-

and this case is from his own observation. HILLSDALE, MICH., Dec. 10, 1849 Dear Sir: Immediately on receipt of your CHERRY PECTORAL, I carried a bottle to an acquaintance of mine who was thought to be near his end with quick consumption. He was then unable to rise from his bed and was extremely feeble. His friends believed b must soon die, unless relief could be obtained for him and I induced them to give your excellent medicine : trial. I immediately left town for three weeks, and you may judge of my surprise on my return, to meet him in the street on my way home from the cars, and find he had entirely recovered. Four weeks from the day he commenced taking your medicine, he was at work at his ardeons trade of a blacksmith. There are other cases within my knowledge, where the CHERRY PECTORAL has been singularly successful but none so marked as this. Very truly yours.

HEAR THE PATIENT.

Dr. J. C. Aven, Lowell—Dear Sir: Feeling under bligations to you for the restoration of my health, I send you a report of my case, which you are at liberty to publish for the benefit of others. Last autumn 1 took a bad cold, accompanied by a severe cough, and made use of many medicines without obtaining relief I was obliged to give up business, frequently raised lood, and could get no sleep at night. A friend gave me a bottle of your CHERRY PECTORAL, the use of tions. I have just purchased the fifth bottle, and am nearly recovered. I now sleep well, my cough has ceased, and all by the use of your valuable medicine. E. S. STONE, A. M.

Principal Mt. Hope Seminary. HANOVER. ONIO, April 3, 1850, Dear Sir: I wish I could tell all that suffer with a cough, what your CHERRY PECTORAL has done for me. It does seem they might be benefitted by the information. I had a lung fever which left my lungs weak and inflamed. Being very feeble and unable to gain strength at all, my friends thought I must soon sink in consumption. I had no appetite, and a dreadful cough was fast wearing me away. I began to take your beau-tiful medicine, by the advice of a clefgyman, who had seen its effects before. It eased my cough at first, and gave me rest at night. In less than a fortnight I could eat well, and my cough had ceased to be troublesome, my appetite returned, and my food nourished me, which soon restered my strength. Now, after five weeks. I am well and strong, with no other help than your Cherry Pectoral. Yours, with respect, JULIA DEAN. I hereby certify that the above statement of my

Hampton's Vegetable Tincture. THE world cannot produce stronger evidence than this, kindly handed to us by J. Stockbridge, Esq. of the Fountain Hotel, Light street, a

gentleman extensively and favorably known. The writer of the letter, Captain Canot, is the brother of the celebrated Physician to Louis Napoleon, President of the French Republic. Numbers of our most respectable citizens will give equally strong testimony in favor of Hamplin's Vegetable Tincture. It is a certain cure for Dispepsis, Seroiala, Liver Complaint, &c., and all diseases from impure blood.

BALTIMOAN, June 4th, 1851.

Mr. Stockbridge, of the Foundain Hotel, Light street, Balt.

Dear Sir: Being on the point of leaving the city, I avail myself of a few idle moments to thank you kindly for the medicine you sent me, and which has restored me to the use of my limbs. I beg you to send me four bottles more to carry on my voyage. Since I had the fortune to use Dr. Hampton's Vegetable Tincture my confidence is so strong that, in gratifude to the proprietors of said medicine. I beg you to present my respects to them, and induce them to make it more publicly known as a sare Rhuemalic cure. Having called on me on the 19th of April last, and seed me prostrated on my bed, useless in all my limbs, you can appreciate nearly as well as myselethe prompt telief I received from Dr. Hampton's Tincture, and I am positive had it not been for your strong and tereible recommendations I should

still have been in bed. It is really a pity this specific should not be approved f by medical men, and like all patent drugs it should suffer the imputation the public generally give to such proparations. I myself, who was always apposed to a patented specific, took this medicine with reluctance, and without confidence in it, and it was only through your disinterested, friendly recommendations, and my critical situation, that induced me to try this really beneficial Vegetable Tincture.

You may inform Messes, Mortimer & Mowbray that they are at liberty to make use of my name in the support of the good effects of Dr. Hampton's Vegetable fincture, as it has cured my in five weeks, of a Chronic Inflammatory Rheumatism, coatracted under tropical climates, and of seven years' periodical duration. I have only used three bottles, and find that even the deformedparts of my hands are fast returning to their former natural appearance. I have been under the treatment of several physicians

in London and Paris, without any apparent benefit; also, while in New York, having tried the Thompenian and Home pathle remedies, after having been tormented with gulvanic batteres, cold and aromatic baths, and hundreds of internal and external medicines, all to no effect, I am, so fur cured by this Hampton's Vegetable Tracture only. Therefore, my dear sir, accept of the assurance of my gratitude, and believe me your well wisher.

[Signed] THOMAS CANOT.

General Agents, 240 Bultimore street, Bultimore. The following certificate is from an eminent lawyer of Kentucky, who is known in all of the States, having for a number of years represented his State in Congress. It affords me pleasure to state that Dr. Hampton has effected a most extraordinary cure of my slave boy Al-bert. The patient was three years of age, and had the scrould. His father is scroulded. The boy was a moving mass of sores from head to foot. The upper lids of the eyes were much swallen and turned inside out, exhibiting horrible mattering ulcers, and protraded over the eyeballs so as to produce blindness. It is strange, yet true, this child—that I felt resigned to see die as relief from suffering-has been restored to health under the treatment of Dr. Hampton

W. P. THOMASSON. Louisville, March 20, 1851. The Great Discovery of the Age. HAMPTON'S VEGETABLE TINCTURE-Superior to any of the preparations now in use for the cure of disease, it exerts a powerful influence in renovating and purifying the blood, and freeing the system from all impuri-

ties. Whilst thus acting as an alterative, it also stimulates the liver to a healthy action, and exerts a pleasant and wholesome influence over the bowels, urinary organs and shin. In all diseases peculiar to females, operation, though mild and pleasant, is powerful in searching the system of all Morbid Matter, etc. Thus those, all Weakness and Lassitude, at become Nobust and Healthy and full of energy under its influence. It unteracts the weakness of the female frame, wheih when taken as directed, will cure all Chronic diseases. Disease, Piles, Fistula, with all the other diseases arising from impure bleed.

Baltimore, June 24th, 1851. Messrs Mortimer & Mowbray : Gentlemen-A sense of gratitude, and a desire that those suffering under disease be induced to try Hamries's Vigeranie Tinc-ture, has infinenced me in making the following state-

ment of facts of my case-On he 14th of November, 1836, I was attacked with what is called Inflammatory Rheumatism; my gains were so integes that, for three months, I could not rest night or day. I lest all desire for food, and became very weak. At this stage of my dis ase my physician had a consultation with one of the most eminent of the profession in Bultimore. They gave me a large amount of medicine, none of which had any good effect on me-my sufferings every day becoming more intense. my Silver Spoons, made from pare coin and manuright ann, right knee and left knee, from each of which splinters of hone came out. After years of suffering, my physician pronounced my disease deeply seated and trable. My pains at this juncture were so great that I had not one moment's relief from them, and se under the influence of an opiate. Many of my friends knowpersuaded me to try the Thompsonian Swents; also, the Homepathic medicines, which I did without effect. After this I also tried a large number of Panaceas and Liniaments, all represented as certain cure all's, but from which I derived no benefit, rather growing weaker every day, suffering, if possible, more after every new reinedy I tried.

In the early part of August, 1842, you first introduced Dr. Hampton's Thatture to me. Well do I remember that morning: it was after a sleepless knight of great suffering. By your advice I commenced, as a last resort, to my Hampion's Venetable Theture, and I am hap y to say, before I had taken one bettle, my pains grewless, my appetite increased. Hope began to spring Cloaks, Pants, Vests, Drawers, Shirts, Gloves, Suspenders, Boots, Shoes, Hats, Caps, Trunks, and all articles belonging to gentlemen's ware, of every every hour. In the space of a few mouths my pains healed, and I was combled to lay aside my cratches; and when August, 1843, came around, it four d me without pain, and in the enjoyment of health, which, for years before, I was a stranger to. I am glad to say now, though nearly eight years have elapsed, that the cure in my case was unde with Vegetable Timetone. A large number of my relatives and friends can testify to the truthfulness of the above
