WATER. DEW subjects deserve more attention than the recessity of obtaining a copious supply of water, but in looking to quantity of supply, quality has been thought of less importance; there could not be a more gross error or one more fatal to do-mestic comfort and economy. We propose to ex-

plain some of the serious inconveniences which result from an injudicious selection of hard water for demestic purposes. The water found in springs, &e., has its primary origin in rain, which failing on the soil percolate through it, and the porous beds beneath and gushes out in the form of springs whenever it meets an impervious bed which refuses it a passage; pits sunk down to the latter, detect it there, and torm wells. In its passage through the pervious rocks, it takes up soluble impurities varying in their amount and character with the geological formations; these impurities being principally mineral ingredients, may be lime chalk, gypsum, salt and different other compounds, which impress peculiar qualities on the water. The salts of lime and magnesia communicate to water a quality termed hardness, a property difficult to describe, but which all understand; the most common giver of hardness is carbonite of lime. Any earthy salt decomposes soap and prevents its action as a cleanser. Soap consists of an oily acid eve bined, generally, with soda, when added to water containing lime that earth unites with the oily acid forming an insoluble soap of no use as a detergent ; this insoluble lime soap is the curd which appears in hard water during washing with scap. Hard water is of no use as a cleanser until all the lime has been removed by uniting with the oily acid of soap. Every 100 gallons of water of this kind usually destroys 30 ounces of soap-this is an enormous waste. If persons observe their habits in washing, they will perceive that the principal quantity of the water is used by them not as a cleanser, but merely or the purpose of rinsing off the very sparing amount employed for detergent purposes. We do not wash ourselves in but out of the basin-the process of washing with soft water is quite different, the whole quantity be ng then applied as a cleanser, the value of soft water for washing will, by experiment, be at once recognized. Now, although the soap may be economised in personal ablation by the uncomfortable method described, it is impossible to obtain the economy in the washing of clothing, &c. The labor required to wash in hard water is very much greater than when it is soft, and the additional tear and wear is a very important consideration. We now draw attention to the inconvenience of hard water in cooking; it is well known that greens peas, beans and other green vegetables, loose much of their delicate color, become vellow,

Here is a little golden tress

Of soft unbraided hair,

The all that's left of loveliness

That once was thought so fair ;

Yes! from this shining ringlet still.

That melts my heart and sends a-thrill

Through all its trembling strings;

For eighteen years, like sunshine, slept

I think of her, the loved, the wept,

Upon whose forehead fair,

This golden curl of hair.

" Her memory still within my mind

It is the perfume left behind.

To whisper of the flower ;

Bound up this sunny curl,

Her step was like an April rain

Her voice the prelude to a strain

Closed ere the shades of even,

That opes the gate of Heaven.

Her life it was the half-blown flower,

Her death-the dawn, the blushing hour,

O'or beds of violets hung,

Before the song is sung;

A single shining tress of hair

I lay it on my heart :

A ringlet of my hair.

CONGENIAL SPIRITS.

That our readers may know the congeniality of sentiment between these high functionaries of the locofoco es they ! party, we insert the following choice extracts:

Resolved. That we are opposed to shavery in any form and COLOR and IN FAVOR OF FREEDOM and FREE SOIL WHEREVER MAN LIVES THROUGHOUT GOD'S HERITAGE."-B.F. Hallett, " Chairman of the National Democratic Committee.

"I have been asked if I liked this Fugitive Slave Law. Tanswered No. I LOATHED IT. I HAVE A MOST REVOLTING FEELING AT THE GIVING UP OF A SLAVE-THE LAW IS OPPOSED TO HUMANI-TY."-Gen. Pierce, 2d January, 1852.

"That the penalty, under such circumstances, should be death, though perhaps authorized by the letter, is, I believe, against the spirit of our laws and of the age, as it is contrary to mercy and humanity, which are designed for and extended only to the unfortunate and the guilty."-Goe. Joe Johnson's reasons for commuting punishment of the negro murderer.

"AGREEABLE ENTERTAINMENT."

Mr. Charles James Faulkner, who promises to demolish Gen. Scott on the subject of slavery, (reader, don't laugh before you hear all.) writes us that he has derived very "agreeable entertainment" from two of the late numbers of the Free Press, and desires to be furnished with one that he missed through the Mails.

We have gratified the facetious little gentleman, and may, perhaps, have occasion to "tickle" him frequently before the Presidential campaign ends. But we never knew a man who affected to be cheerful at the exposure of his tergiversation, who did not always exhibit himself in the ridiculous attitude of "laughing on the wrong side of his mouth."

Really, our Representative must belong to the school of laughing philosophers, since he is able to make broad grins at the publication of clear proofs of his shameless, but long premeditated, apostacy!

But, let us give a sample of the fanny mood of this modern David, who promises to slay the giant, when the subject of the right to vote away slave property by an ordinary Legislature was under discussion in 1832.

Mr. Brodnax of Dinwiddie proposed a scheme to pay the slaveholders for their property-Mr. Jefferson Randolph favored the postnati principle, declaring all children of slaves to be free who might their household goods, and find among the luxuri-

never contradicted or impeached until Gen. Pierce was put up for Southern as well as Northern support. Then it was found necessary to deny that he had used such language, and the prints in which the speech first appeared were denounced as " infamous Abolition sheets." Among the witnesses called upon, we find the names of Moses Norris (new a Senator) and Charles H. Peaslee (a Representative) from New Hampshire. But the Legislative record of the States proves that both these gentlemen had voted for Anti-Slavery resolutions almost as strong as Pierce's speech. They voted against the admission of any more slave territory, and in favor of the abolition of slavery in the District. Pretty witness-

But there is a record against Gen. Pierce which swift witnesses cannot wipe out. It is found in the Congressional Globe, 25th Congress, 2d session (1840.) only eight years after Mr. Charles James Faulkner uttered his philippic against slavery, and was willing to abate it as a muisunce. Here is the extract :

" I have no hesitation in saying (say Gen Pierce) that I consider slavery a social and political evil, and most sincerely wish that ithad no existence upon the face of the earth : but it is perfectly immaterial how it may be regarded either by you or myself; it is not for us to sit in judgement and determine whether the rights sccured to the different States by the Constitution are ings or otherwise; it is sufficient for the argument that they are rights which the inhabitants do not choose

The whole tone of Democratic Conventions in New Hampshire, from 1832 up to 1850, was decided and violent a rainst slavery -and in October 1850 the following sentin ents were uttered at a meeting in which the New Hampibire Patriot says the "utmost enthusiasm and harmony prevailed," to wit:

" Resolved, That the holding of human beings in a state of bondage is a curse to any country ; that we are opposed to slavery, black or white, in all its forms, and der whatever circumstances."

This, it should be remembered, was from the "Old Hunker Democracy," of which Gen. Pierce is a leader. Why this is almost as rank as Faulkner's denunciations. Hear him :

"You might as well attempt to chain the ocean, or avert the avenging thunderbol's of Heaven, as to drive the people from any enquiry, which may result in their better condition. This is too deep-too engrossing a subject of consideration. It addresses itself too strongly to cherish the heroes who have already defended both. to our interests-to our passions, and to our feelings. So will Giddings say-and so will John Van Buren, Rantoul, Sumner & Co-

In reference to the freedom with which some of the

politicians and presses (Father Ritchie among them) spoke in 1832. FAULKNER uttered the following rhaprodies "Honor, sir; to those who dare speak the truth in

the worst of times. Thrice honored they, who, in de-claring that truth, have to Brave the Lion in his den,

The Douglas in his Hall."

"If slavery can be eradicated, in God's name, let us get rid of it. If it cannot, let the melancholy fact he distinctly ascertained ; and let those who have been told, are now awaiting with painful solicitude, the result of your determination, pack up be born after the 4th of July, 1840. In regard to the ous forests and prairies of the West, that security and repose which their native land does not afford.

increasing in volume and force until it has borne the chosen of the people to the high position of official honor commensurate with the high place he already holds in the regards of his country men. We observe the Washington Union is alarmed at the

grand demonstration just signalized at Luniv's Lane : and for want of other means to break the imposing effect of that great gathering, it undertakes to dispute the title of Gen. Scott to be regarded as the hero of the memorable battle fought on that spot. This mode of disparagement argues a degree of desperation which foretokens the anticipated loss of a declining cause. We do not care to go into any expositica of the fact which the

Union denies-since the records of history and the hearts of the people can bear sufficient testimony to the achievements of Gen. Scott on that occasion. It was the inauguration of his glory ; and whatever share of the honors of that victory may be due to others-and there were honors enough acquired to confer fame upon every one who then and there so nobly sustained the American name-the part which Gen. Scott had in the conflict is too well known to admit of any controversy as to the pre-eminent distinction won by him on that bloody field. But the grand celebration at Lundy's Lane is but the

beginning of a series of great gatherings of the people in immense masses ; and if such meetings are made the occasion of military reviews and encampments, to add to the zeal and to the perfect discipline of our volunteer soldiery, the interest of such scenes will be much enhanced. No doubt we shall hear a great deal from adverse journals in reprobation of the military feeling-a great deal in the way of denunciation against military chieftains, because of the enthusiash which must be excited in favor of Gen. Scott by these reviews, 'encampments and mass

meetings, and because of the want of military prestige on the part of Gen. Pierce. Still the movements will go on -the masses will meet, and the hero who has exalted the giory of the American flag in he hard fought battles of the Canadian frontier during the last war with England, and more recently in the perilous fields of Mexico, will become more and more endeared to the American. people. No one can tell how soon the country may be called upon again to have recourse to the military prowress of her gallant soldiers for the vindication of her rights and her honor ; and in the meantime she will know how

AUGUSTA COUNTY.

The Whigs of this great county held a Rat ficaion meeting last Monday week. The Courthouse was densely thronged-and enthusiasm was the order of the day. Admirable resolutions were adopted, and then, says the Spectator, " lond and repeated calls were made upon Col. Baldwin, who accordingly took the stand and entertained the meeting for some 'two hours with a speech which we should like to lay before our readers as it fell from his lips. We regret that time and space prevent us from giving even a synopsis of his masterly effort. A more forcible, searching, effective and unanswerable speech we have seldom heard from he stump. It was thus characterized on all hands,

We copy from the Republic (says the Richmond Whig,) important confirmatory testimony of the correctness of the reports of General Pierce's New to us overwhelming-and we suspect it is so refrom the track. He was fairly entered, and he must run, or his backers mus pay the forfeit. It is contrary to all the rules of fair and honorable sport to start a horse, break him down in the first heat, and then bring forward a fresh steed. No, no-we cannot submit to any such jockeying as that .-The Democracy staked their pile upon an ob cure and unknown Yankee, and they must abide the result. If he is without speed or bottom, that's their

misfertune, not our fault. We invite attention to the proof which follows :

From the Washington Republic. GENERAL PIERCE AND SLAVERY

There is nothing to be gained in controversy by recourse to vituperative language. The Union may exhaust the vocabulary of abuse, without persuading any one that the Republic circulates statements which it disbelieves, or that it has any sympathies with Abolitionism. We have published two reports of General

Pierce's speech at New Boston. The Union attempts to discredit these reports on the ground that they come from the Freesoil wing of the Democraev, and are therefore unworthy of belief. The New York Post, on the other hand a Democratic journal of the highest ability and pretensions, the organ of the most influential and celebrated Northern Democrats-of the Van Burens, Butler, Dix, Cleveland, and a host of others, without whom the Northern Democracy is nothing and nowhere-the Evening Post gives full credence to the reports, commends the sentiments attributed by them to General Pierce, and calls upon us to produce further testimony of the same sort. The legislative records of New Hampshire, the resolutions of her State and County Conventions, show that the Democrats proper of that State have for years held the same language that is ascribed to General Pierce; and the witnesses: produced by the Union o rebut the evidence of the Manchester and Concord Democrats, are distinctly proved to have given their personal endorsement to the same sentiments and to stand in consimili basu with the witnesses who are denounced by thei Union as vile and infamous Abolitionists. The difference that we can find between Mr. Norris and Mr. Hale is extremely thin. Mr. Norris disayows his local sentiments on the subject of slavery when he reaches Washington : Mr. Hale has the manliness and courage to adhere to them. Mr. Peaslee and Mr. Hibbard do not carry out their convictions to the same conclusions precisely with the editors of the Manchester and Concord Democrats; but they stand committed on the records to sentiments as justly offensive to the South as any which those journals have

avewed. We have two or three documents of interest to sire his attention to them. One is an affidavit from Mr. Foss, the reporter of General Pierce's speech. This gentleman, we understand, is a preacher of the Baptist persuasion, a man of good character and unimpeached veracity; but as fanatical, we dare say, on the subject of abolition as the editors of the Ecening Past, as Rantoul, Floyd, Preston King, Molony, Campbell, Cleveland, the Van Buren's, Butler, Dix, and the numerous anti-Compromise men who are now co-operating with For-

remarks upon slavery alleged to have been made by Gen. Franklin Pierce at New Boston, New Hampshire, in the month of January last. With a view of shielding Gen. Pierce from the responsibility of the remarks imputed to him, our colleagues in Congress, Messrs. Moses Norris, jr., Ches. H. Peaslee, ard Harry Hibbard, have published a letter intended to discredu the two newspapers in New Hampshire-the Manchester Democrat and the Independent Democrat -- in which a report of Gen Pierce's speech was published at the ime. Their letter was published in the Republic of the "9th inst, and we call your attention to the following paragraph, contained in the same :

" They (the Munchester Democrat and the Independent Democrat) are known to us to be now and to have long been, avowedly and bitterly opposed to the principles and organization of the Democratic party generally, and particularly vindictive and unulacious in regard to General Pierce, before and since his nomination at Baltimore .-Theiricharacter is such as to render any contradiction of their untounded statements an unnecessary labor wherever their reputation is known." On the subject of the anti-slavery resolves, in-

structions to members of Congress, the anti-slavery professions and protestations, now attributed in the public papers either to Gen. Pierce or to our colleagues, we have nothing to say. But when our colleagues, in a sort of official communication seek to protect any man from what they consider a grave charge, by attempting to demolish the repatation, at the seat of government, of two respectable newspapers in our State, and consequently the reputation of the conductors of those papers, we

deen it our duty to indicate our own judgment in the premises. The wholesale charge of mendacity and infamy of reputation, wherever known, contained in the above extract, has astonished us, and will, we doubt not, astonish all the people of New Hampshire whose political animosity has not got the entire control of their understandings. If the above vilification of the fair character of George G. Fogg. E-q, editor of the Independent Demoerat, and of John H. Goodale, Esq., editor of the Manchester Dimoural, had first appeared in any New Hamp shire newspaper, we should not have thought any notice required from us. But being made here where Mr. Fogg and Mr. Goodale are little known, and is a semi-official manner, we think it demanded of its to enter upon the record our denial of the charge made by our colleagues. That the papers in question have been " malignant," or " mendacious," or that "their character is such as to render any contradiction of their statements as unne cessary labor, wherever their reputation is known" we deay as emphatically and positively as our col leagues have made the charge; and for the decision of this issue we appeal to the sober minded peopl of New Hampshire. Political hostility and part san differences of opinion may destroy the judg ment of some men; but we have confidence that the great majority of the people of our state will form a just opinion, and condemn the attack which our colleagues have made.

John H. Goodale, Esq., has always professed to be a Democrat, and though his paper has given elficient support to all the Democratic nominations for the Presidency since 1840, and has always had submit to our contemporary this morning. We de- at the head of his columns the names of the Democratic nominees for Congress, including the names of our colleagues, for the seats which they now o cupy. In 1848 he made as spirited a fight against John Van Buren, Henry B. Stanton, and many other of the present supporters of Gen. Pierce, a did any one in our State. He has, for a year past or more, been in a controversy with his late Democratic brethren. Our colleagues say, in a part of their letter not published above, that his paper has long been an abolition organ. We are not aware syth. WHAT THE CANADIANS THINK OF

WISTAR'S BALSAM. the Montreal Transcript, July 22, 1848. We think it but due to Dr. Wistar that we should add our testimony to numerous others as to the extraordinary metits of his medicine in certain cures, particularly where the patient has complained of pain in the side, or

in cases of an asthmatical character. We are personally acquainted with many persons who have experienced immense relief from the use of this medicine, when laboring under the diseases above mentioned ; and as in the changeable climate of Canada these diseases are more than usually common, any medicine calculated to counteract them must be of value. We are aware that it has a large and still increasing sale, and has been very generally and beneficially used since its introduction into Canada three years ago-and the very fact of its having stood the test of three years

experience is proof of its value. We are not in the habit of recommending patent medicines unless the benefits conferred by them have come under our own observation ; but in the present stance we can recommend WISTAR'S BALSAM OF WILD CHERRY, as a medicine worthy of the confi-dence of the public in diseases of the Chest and side

Valuable and Productive JEFFERSON FARM FOR SALE.

THE subscriber proposing to leave the county, offers for sale, on advantageous terms, the FARM on which he now resides. It is surfated on the Winchester and Shepherdstown Turnpike road, about two and a half miles from the Kerneysville depot of the Baltimore and Ohio Railroad ; and is distant about 7 miles, by turnpike, from Shepherdstown and the Canal, and about six miles from Charlestown. The Farm contains about

THREE HUNDRED AND FIFTY-FIVE ACRES of superior Limestone Land, which has been farmed for the last 8 years chiefly with a view to its improvement; and is now in a highly productive and improving condition. About one-fo inth of the whole tract is in WOODLAND. The

DWELLING HOUSE is most sub-stantially built of Stone and Brick, roughcast, 53 feet by 40 in size, con-sisting of two main stories, a back , and finished garret, and is covered by a superior Slate roof, with a large plazza in front and rear.

Among the outbuildings attached to the House are a Wash House, Sinoke House, Ice House, Wool-shed &c. besides an untailing pump of limestone Water. There is a large cement Cistern near the Kuchen door, which affords a supply of soft water, collected from a slate roof. Attached to the Farm are, an Overseer's House, Barn and Stable, Corn House, Cabins, Tenant's House and more than the usual amount of farm buildings -The place is well supplied with truit, part of it of

Under what head could be define the rights, which the slaveholder has to that which may or may not come into potential existence ten years hence !

I must confess it is too attenuated for my legal apprehension to grasp -and I think it would puzzle the learned doctors of St. Omers to give us a satistactory solution. Is it a right executed or a right executory? Is it an interest accidental, an interest the culpable recklessness of the persons in command of incidenial, or an interest substantial? Or is it a right in presenti, habendum in futuro ? Sir, says the gentleman from Brunswick, it is a right vested-No, says his able coadjutor of Dinwiddie, it is a right contingent. - " 'Tis faith." rejoins the one ;
- "'Tis FIDDLESTICKS," cries the other."

"Twas out ordinary fun for delegate Faulkner in 1832 to cut the gordian knot of slavery. It will be absolute ecstacy for him to "cut up" Gen. Scott for uttering sentiments "inimical to the institutions of filteen States of the Union !"

THE LEAP TAKEN.

Notwithstanding a writer in the Winchester Virginian (believed to be the member himself) undertook to correct the Republican upon a matter of fact, certain it is that Mr. Charles James Faulkner made positive his declaration of apostacy on Monday last. He is doubtless busily engaged in preparing his diatribe for the press, and we shall shortly hear him develop his own shame in his own words.

The leading Democrats are chuckling over the treason, but laughing in their sloeves at the idea that they are likely to have any use for its author after the occasion passes by. When the time comes for a nomination they'll whistle the little trimmer down the wind as unceremoniously as they would brush a musquito from their nose. Where is he to look for support? Will the Whigs "touch him with a forty-foot pole?" Why, in a race between him and Henry Bedinger to-morrow, the latter, with all his secession notions, would beat him two thousand votes in the District. We long for a trial of speed between them. We think we can promise that the Whigs will let no candidate of their own interrupt the sport.

A very suitable supporter of Pierce truly, and a very " fit spoken" gentleman to take Gen. Scott to

APPALLING CATASTROPHE.

Tha magnetic wires on Wednesday week, caused an electric shock of a most severe and awful character, by announcing through the land the horrible fact, that not less probably than one hundred male and female passengers, men, women and children had perished by "fire or blood," on board or close to the Steam boat called the Henry Clay, near the village of Youkers on the Hudson river. The catastrophe (for accident it would be improper to call it) was caused, as we are informed, by two rival steamers, the Henry Clay and the Armenia, which commenced the dangerous sport of racing as soon as they started from Albany, and so continued until the time of the sad catastrophe, in spite of the entreaties and remonstrances of the passengers in the ill fated boat .emplary punishment of those commanders and officers, who wantonly peril the limbs and lives of their passengers and fellow citizens. We unite with the public voice, in denouncing this act of culpable recklessness and in calling for a thorough and searching investigation.

HONORS TO HENRY CLAY.

The citizens of Winchester paid appropriate honors to the memory of Mr. Clay on Wednesday week. Col. H. H. Lee was chief marshal of the procession, which was quite and imposing one, and Joseph Tidball, Esq., delivered a beautiful culogy in the Lutheran Church. The Taylor Hotel and many private houses were draped in mourning, business suspended, and the bells tolled during the ceremonies. A similar mark of respect took place at Lewisburg, Virginia, on the 24th ultimo. Col. Mc-Pherson was chief marshal of the procession, and Dr. Wm. H. Syne delivered the eulogy.

SHANNONDALE SPRINGS.

This beautiful, romantic and improved watering place, has gone into the hands of Capt. G. W. Sappington, a prince among landlords and an accomplished gentleman. Shannondale is in Jefferson county, Va., about five miles from the Winchester and Potomac Railroad. We have long been of the opinion that this watering place, both as it regards the universal qualities of the water, the healthfulness of the locality, and the comfort of the accommodations, is unsurpassed by any other in Virginia. These are the blessings which we enjoy ; but are not that representatives have promised. Fairmont, True Virginian Is there no redress for such evils? Mr. Maupin of Rockingham, the ' walking political library' and ' the man that deals in facts' was called to the stand, and made one of his up-and-down, matter of fact, impregnable speeches, much to the satisfaction of the audience. However distrustful he may molestly be, of his abilities as a public speaker, we can assure our friend and brother Editor, that the Whigs of Augusta consider him a

whole team." We sincerely regretabat we cannot give a more detailed account of both speeches, and indeed of the entire proceedings on Monday. The Whigs of Old Augusta are thoroughly enthesed, and are going to do, perhaps, a little better for Scottsand Graham than they have ever done yet for any officer men -If the Whigs throughout the State go into the canvass with the same spirit, we don't begin to give her up. Why should we? She ought to, and with" proper effort will, endorse Winfield Scott, than whom, to use his own language, 'she has no more loval son.""

THE PUBLIC PLUNDER.

The audacious and unprincipled manner in which the public treasury is plundered by the representatives of the people is justly rebaked in the following article from the Baltimore Clipper :

NON-ENFORCEMENT OF LAW .- Our Washington corespondent complains of the non-enforcement of corporation laws by the city authorities; but they have high example for this neglect; no less than the National Legislature. This fact was disclosed by Senator Hunter, in some remarks which he made on Monday last, on the objection of the House to the amendment of the Senate. by which the sum of \$50,000 was placed in the Deficiency bill, to pay constructive mileage of Senators, &c. Mr. Hunter appears to have been indignant at this inter-ference by the House with the affairs of Senators, and intimates that the Senate might retaliate. He said : "I will further take occasion to say here, that I think it would be dangerous for either House to interfere with

the personal conduct of members of the other. Suppose, sir, that we were disposed to carry on such a war, could we not retaliate? There is a law, I believe, which forbids any member from receiving his pay except on those days on which he is actually in attendance. We know very well that this rule is not observed ; and suppose that, with this knowledge, we were to move to cut down the appropriation for their pay, upon the plea that much of it was for time when they were absent from duty, and therefore not entitled under the law, would they not have cause to complain of us as having violated that courtesy which is due from one branch of the Government to another? Surely they would think such a course of procedure on our part very unbecoming.

So, there is a law which prohibits members of Con gress from receiving their per diem excepting when in actual attendance on their duties. And yet this law has been constantly violated by men whom it would be an insult to address excepting by the title of honorable .-Members make a just and proper law bearing upon themselves, but utterly disregard it. But they are not so lenient or charitable to other violations of law. Nor will they, whilst thus illegally thrusting their owa hands into the public purse, tolerate another who may undertake to follow their example. Nay, the honest creditor of Government is compelled to stand at the door, cap in hand, begging for justice year after year, without being regarded, whilst honorable Senators are pocketing their thousands for journies never performed and members of both houses are receiving their per diem contrary to law. And this is called justice under a republican system of government. An old soldier, who risked his life in defeace of his country, has a gratuity of forty acres of land bestowed upon him for his service, from which he can realize, after much trouble, about thirty dollars-and this is called liberality; whilst a Senator takes thousands from the treasury for a construc-

tive jaunt home and back again through the air. Notwithstanding these abuses are open and palpable, the people appear to be in a profound slumber-and are only occasionally aroused to shout "party, party," and only occasionally aroused to shout "party, party," and again fail to sleep; whilst politicians continue to plunder them of their substance and abuse their confidence...

Letter of Mr. Goodale. MANCHESTER DEMOCRATIC OFFICE, JULY 26, 4852.

Editor of the Republic : Sta :- I noticed in the Washington Union some days ago a statement that a report of the speech of General Pierce at New Boston on the 2d of last January had been republished in your paper; and the Union, on the authority of Messrs, Norris, Peastee, and Hibbard, pronounced said report to be totally filse, and the paper in which it appeared to be "infamous."

As you have no knowledge of me, it will be proper for me to say that I ain a Democrat-have ever been an oppopent of the Whig party-and am opposed to the election of General Scott. I state this that you may understand that I write to you solely to defend my self and maintain the truth.

Until the passag . of the Compromise measures I was in full fellowship with the Hunker Democracy, and had a personal acquaintance with General Pierce. In common with a portion of the Democratic party, I opposed the Compromise, and in 1851 supported Mr. Atwood, the anti-Compromise candidate for Governor. At that election the Compromise Democratic candidate was defeated by the people by over 3 000 majority.

In order to regain their power with the people. The accuracy of the report was not denied by a single paper until the recent manifesto of the Washington Union. As the Democrat had not only the largest circ dation in the city, but also in the county, it would have been folly to have published any other than a true report of a speech which was listened to by hundreds. It is no trivial evidence of its accuracy that its correctness was not

Shenandoah Iron Foundry.

HIS Foundry, situated on the Winchester & Potomac Railroad, 11 miles' from Harpers-Ferry, has been rented for a term of years by the subscriber, who would respectfully inform the public that he is now prepared to do, in a style of workmanship, which cannot be surpressed if equalled, in this Valley, every description of Machinery and Plough Castings, at short notice.

Having been engaged in the business for many years in the largest fou. dries in the United States, and being now determined to devote his whole attention to the business, he is confident that those who favor him with their work will at the same time, be favoring their own interests, as his prices for Castings shall be as low as at any foundry in the Valley.

Orders, from all in want of Castings of any description, are respectfully solicited. Old Iron taken in exchange for Castings.

Wx. CULLOM, for valuable public documents.

The Presbyterian, a religious paper, publishes a letter, said to be from the pen of Dr. Junkin, of Washington, from which we ascertain these facts : Gen. Scott is a Protestant Episcopalian, and worships at St. John's Church, of Washington. Mr. Graham is by birth and education a Presbyterian, though not a communicant of any church, and as his lady is a member of the Baptist Church, he worships, part of the time at least, with that denomination. Gen. Pierce is by education a Congregationalist, though not a member of the church. Mir. King is a Protestant Episcopalian in his preferences.

DISCUSSION.

We are requested to state, that a political discussion between A. R. BOTELES. Whig Elector, and J. R. TUCKER, Locofaco Elector, will take place at Harpers-Ferry, on Saturday the 7th iastant, at S o'clock, P. M.

THE FISHERY QUESTION .- It is stated that desparches have been received at Washington from Mr. Webster, containing assurances that the fishery difficulties would be promptly and satisfactorily settled. as would be likely to suit the peculiar views of the Society of Friends respecting slavery and war, and would induce them to vote for General Scott, to be used among the members of the Society located in North Carolina. Mr. Smith not knowing the person, applied to Mr. Stanly, of that Stare, stating that he did not believe it came from a Whig. The letter was sent to Weldon by Mr. Stanly, and there the trick was discovered and exposed. The man was an unprincipled Locofoco, seeking to obtain, by this discreditable expedient, documents that might be used among the slaveholders of the State against General Scott. Another object was to use the

frank of Mr. Smith to send Lobofoco documents to vari-ous places. The Richmond (Va.) Whig, in noticing the affair, says that, as soon as the facts became known, they excited intense public indignation at Weldon, and throughout Northampton county, N. PRESIDENT FILLMORE AND GEN. SCOTT .- The Philadelphia American says the following is an extract of a private letter dated the 19th instant, from President Fillmore to a warm personal friend :

"I was not disappointed, nor had I any thing to regret, in the result of the Baltimore Convention. The approbation which that Convention expressed of the pol-icy which I had pursued, in the resolutions which it adopted, was more gratifying to me than to have received the nomination.

"I cannot doubt that General Scott intends to carry out the principles of the Whig party in good faith if elected, and it seems to me that he is justly entitled to the support of every true Whig. I am therefore grati-fied to lasm from your letter that you intend to give him a cordial and hearty support."

TESTIMONY OF A PHYSICIAN I will say, that your Mustang Liniment is about the best I ever used. I have used it in my own case, along the lower part of the spine, for spinal irritation, with complete relief. I used it a few nights ago, when I was perfectly crocked, and my back in complete torture, from what the books would call Opisthotonic condition of all the the muscles; which you know, is about as bad as " lock-jaw." It gave immediate relief, and, in the morning, I could bend like a gutta percha man, and with as little pain. The medical profession, you know, have a great aversion to these kinds of remedies; but from a knowledge of the ingredients of the Mustang Liniment, I would have no hesitation in recommending it wherever a rem-edy to relieve pain is desired. I have recommended it in a number of cases in my own practice, and, as far as I can learn, it has acted with equal celerity and certainty, as in my own case. Hoping that it may be used for, and drive away pain, wherever it exists, and that it may re-

By the aid of this preparation, the pains and evils Indigestion and Dyspepsia are removed, just as hey would be by a healthy Stomach. It is doing onders for Dyspeptics, curing cases of Debility,

Emaciation, Nervous Decline, and Dyspeptic Con sumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree curious and remarkable. SCIENTIFIC EVIDENCE,

BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calt, in which various articles of food. as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. PEREIRA, in his famous treatise on "Food and Diet," published by Flowers & Wells, New York, page 35, states the same great fact, and decribes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. COMBE, in his valuable writings on the Physiology of Digestion," observes that a "diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia; and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successful. Dr. GRAHAM, author of the famous works on

'Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise dif-

THE world cannot produce stronger evidence than this kindly handed to us by J. Stockbridge, Esq. of the Fountain Hotel, Light street, a gentleman extensively and Gyorably known. The writer of the letter, Captain Canot, is the brother of the celebrated Physician to Louis Napoleon, President of the French Republic. Numbers of our most respectable citizens will give equally strong testimony in lavor of Hampton's Vegetable Timeture. It is a certain cure for Dyspepsia, Scrofula, Liver Complaint, &c., and all diseases from impure blood.

BALTIMONE, June 4th. 1851. Mr. Stockbridge, of the Fountain Hotel, Light street, Balt. Dear Sir: Being on the point of leaving the city, 1 avail myself of a few idle moments to thank you kindly for the incidic ne you sent me, and which has restored me to the use of my limbs. I beg you to send me four bottles more to carry on my voyage. Since I had the fortune to use Dr. Hampton's Vegetable Tincture my confidence is so strong that, in gratitude to the propriconnence is so dicine. I begyou to present my respects to them, and induce them to make it more publicly known as a sure Rhuematic cure. Having called on me on the 19th of April last, and seen me prostrated on my bed, useless in all my limbs you can appreciate nearly as well as myself the prompt relief I received from Dr. Hampton's Tim ture, and I am positive had it not been for your strong and tercible recommendati us I should still have been in bed.

It is really a pity this specific should not be approved of by medical men, and like all patent drugs it should suffer the imposation the public generally give to such preparations. I myself, who was always opposed to a natented specific, took this medicine with reluctance, and without confidence a it, and it was only through your disinterested, friendly recommendations, and my critical situation, that induced me to try this really beneficial Vegetable Tincture.

You may inform Messrs, Mortimer & Mowbray that they are at liberty to make use of my name in the support of the good effects of Dr. Hampton's Vegetable Cincure, as it has cured me in five weeks, of a Chronic Inflaminatory Rheumatism, contracted under tropical climates, and of seven years' periodical duration. I have only used three bottles, and find that even the deformed parts of my hands are last returning to their former natural appearance

The boy was a moving mass of sores from head to foot. The upper lids of the eyes were much swollen and turned inside out, exhibiting horrible mattering ulcers, and protruded over the eyeballs so as to produce blindness. It is strange, yet true, this child-that I felt resigned to see die as relief from suffering-has been restored to health under the treatment of Dr. Hampton. W. P. THOMASSON.

Mr. WILLIAM THEMBON, No. 6 Carroll Hall,

The Cincinnati Commercial tells a good story of a man in that city who had all the brass nocessary to make a dashing speculator, and which he has used with great effect where he was not particularly well known He went to Boston, where the impression prevailed that he was of undoubted commercial standing, where he operated to a large amount on a hypothecation of his own notes. The result is thus given :

The financier not fulfilling his stipulated agreement, the merchant became indignant at his want of punctuality, and meeting him one day in State street, remarked :

'Look here, Mr. ----, if you don't replace me in tunds as you promised, I will sell your notes in the street, if they bring no more than fifty cents on the dollar ;' supposing, rs this course would ruin the credit of any one in good standing, he could alarm his creditor.

'Will you ?' hurried y enquired the finan-

cier. 'I will, by heavens !'

"Oh, no you wont !"

'I will, sir, I will, indeed,' excitedly retorted the merchant.

'Well, I'll tell you what,' coolly observed the financier, 'if you will, we'll go into partnership, and I'll make enough even at twenty cents on a dollar, to absorb all the capital in Boston'

WHEAT FANS.

THE WHEAT FAN, known as the "Genessee L Farmer," has superseded the use of almost every other Fan in the State of New York and other Wheat growing States. It is adapted to cleaning every description of seed, and as a Clover Seed or Timothy cleaner has no superior. This Fan has been most fully tested, and every where elicited the highest commendation. It has taken the premium

at several of the best Northern exhibitions, and for superiority of construction, capacity for working, and economy of price, stands unrivalled. The following certificates from some of the most intelligent and successful agriculturists in the Valley of Virginia, attest its merits wherever tried. This list, were those offered not deemed sufficient for all reasonable men, could be extended to an indefinite JAMES RUNYAN. extent.

James Runyan's Wheat Fans and I have no hesitation in saving that it cleans better than any one I have used since I have been farming, and a number of my neighbors were present when I used it

ferent from the natural digestive process." Professor DUNGLISON, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont on the Gastrie Juice obtained from the living human stomach, and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. JOHN W. DRAPER. Professor of Chemistry in the Medical College of the University of N. York. in his 'i ext Book of Chemistry,' page 386, says: It has been a question whether artificial digestion could be performed-but it is now universally admitted that it may be."

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most narvellous effects, in curing cases of Debildy, Emaiation. Nervous Decline, and Duspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but anthenticated certificates have been given of more than two hundred remarkable cures, in Philadelphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonerful, but permanent. It is a great nervous antidote, and particularly

seful for tendency to Bilious disorder, Liver Complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS There is no form of old stomack complaints which t does not seem to reach and remove at once. No matter how bad they may be, it gives instant relief. A single dose removes all the unpleasant symptoms and it only needs to be repeated for a short time t make these good effects permanent. Purily of blood, and vigor of body follow at once. It is particularly excellent in cases of Nausea Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c. Dr. HOUGHTON'S PEPSIN is prepared in Powder and in Fluid form-and in prescription vials for the use of Physicians.

Private Circulars for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this

Baltimore, June 24th, 1851. Messrs Mortimer & Mowbray : Gentlemen-A sense of gratitude, and a desire that those suffering under disease be induced to try HAMPTON'S VEGETABLE TINC-TURE, has influenced me in making the following statement of facts of my case-On the 14th of November, 1836, I was attacked with

what is called Infianmatory Rheumatism ; my pains were so intense that, for three months, I could not rest night or day. I lost all desire for food, and became

very weak. At this stage of my disease my physician had a consultation with one of the most eminent of the profession in Baltimore They gave me a large amount of medicine, none of which had any good effect on me. my sufferings every day becoming more intense, my pains continuing night and day, ulcers forming on my right arm, right knee and left knee, from cach of which splinters of bone came out. After years of suffering my physician pronounced my disease deeply seated and incurable. My pains at this juncture were so great that I had not one moment's relief from them, unless under

the influence of an opiate. Many of my friends know-ing my sufferings, and kindly sympathising with me, persnaded me to try the Thompsonian Sweats; also, THE undersigned having enlarged their Store L Room, have now on hand at their Clothing Emporium the most superior stock of READYthe Home pathic medicin's, which I did without effect.
