POETRY. NIGHT.

The day is done, and the darkness Falls from the wings of night, As a feather is wafted downward From an eagle in his flight.

I see the light of the village Gleam through the rain and the mist, And a feeling of sadness comes o'er me, That my soul cannot resist.

A feeling of sadness and longing, That is not akin to pain, But resembles sorrow only As the mist resembles the rain.

Come, read to me some poem, Some simple and heartfelt hy, That shall soothe this restless feeling, And banish the thoughts chilay. Not from the grand old masters, Not from the bards sublime,

Whose distant footsteps echo Through the corridors of Time. For, like strains of martial music, Their mighty thoughts suggest, Life's endless toil and endeavor;

And to night I long for rest. Read from some humbler poet, Whose songs gush from his heart As showers from the clouds of summer, Or tears from the eye-lids start.

Who, through long days of labor, And nights devoid of ease, Still heard in his soul the music Of wonderful melodies.

Such songs have power to quiet This restless pulse of care, And come like the benediction That follows after prayer.

Then read from the treasured volume, The poem of thy choice, And lend to the rhyme of the poet The beauty of the voice. And the night shall be filled with music; And the cares that infest the day Shall fold their tents like the Arabs,

And as silently steal away. MISCELLANY

THE SOUL IMMORTAL.

"The sun is but a spark of fire, A transient meteor in the sky; The soul, immortal as its sire,

EX-GOVER FOR LUCAS FOR SCOTT.

The following correspondence, (says the Chio State Journal) which we take from the Iowa Re- war of 1812 down to close of the Mexican war .publican, of Septeniber 8th, explains itseif. Governor Lucas is known in this State as a genuine Democrat, and he well knows the difference between Democracy and Locofocoism, and points out that difference so plaibly in his letter below, that he that runs may read. We call the particular attention of our readers to it, and ask them to " read and | I am not a progressive Locofoco, and the editor of circulate." It will lead to right thoughts, and right the Reporter ought to know the difference that I bethoughts will lead to right action :

Iowa Ciff, September 2, 1852. Ex-GOVERNOR ROBERT LUCAS - Honored Sir: I have, within the last few weeks, seen it stated in a number of the Whig papers of Iowa and elsewhere that you have expressed yourself in favor of the election to the hext-Presidency of General Winfield Scott, and that you would support him with your vote and influence.

I assure you, sir, that I was much pleased to learn that this was the position you occupied. But within the last few days this report has been contradicted in some of the Democratic papers of this State. My object, therefore, in addressing you at this time, is to learn from you, over your own signature. what are your feelings and views in relation to the fitness and qualifications of the two prominent men now before the American people as candidates for the high and pre-eminently responsible position of President of these United States; and whether or not you design supporting General Winfield Scott for that office.

An answer from you at your earliest convenience will very much oblige your friend and obedient servant, S. M. BALLARD. To Ex-Governor Lucis, near Iowa City, Iowa.

Paum Grove, Sept. 3, 1859. DR. S. M. BALLARD : Dear Sir-Your letter of yesterday in relation to statements " in a number of Whig papers of Iowa and elsewhere," concerning the position which I now occupy, and your enquiries as to my "feelings and views," towards Generals Winfield Scott and Franklin Pierce as candidates for the next Presidency, is now before

And, in answer to it, permit me to say to you, that it is with no ordinary interest I view the contest now going on between the friends of General Winfield Scott and General Pie: ce-the two prominent men now candidates for the Presidential chair of the Union, the one nominated by a Whig National Convention-the other by a Convention of the Democratic party. I have, sir, as you know always been a Democrat; I was boin a Democrat, and I expect to live the balance of my days as such,

I supported Thomas Jefferson for the Presidency. I supported Mr. Madison two terms, Mr. Monroe twice, and was one of the electors in Obio that yeted for Monroe at the time of his second election .-In 1821 I was placed at the head of the Jackson electoral ticket in Ohio: in 1828 was chosen an ebetor in that State, and gave my votes as such, for

General Andrew Jackson. I was President of the Democratic National Conention at Baltimore, in 1832, which nominated neral Jackson for re-election, and that recomdad Martin Van Buren as a candidate for Vice voted for General Cass in 1848, and should freely vo.e for him again were he a candidate. A GOOD ANECDOTE.

Congress of any other public states prosperity, has been an agonistical to those which were advocated and dearly cherished by those eminent states men whose election to the Presidency I most heartily and coreffect, that the waters on which these improvements their capacity for trade among the States, form no criterion for a just demand upon federal protection. His political history as collected from his action in Congress, no less than from his letter to the committee of the Convention, accepting his nomination to the Presidency in the terms set forth in the Platform, turnish evidence of his hostility to all the

prominent measures which tend to Western prosperity, of which Internal Improvements and Domestic Industry are the most important. As a Western man, therefore, and as an original Jackson Democrat, as a friend to Internal Improve-. ments, and to the Protection and encouragement of Hampshire Democracy on the slave question .-American Industry, I cannot and I will not support such a man as Franklin Pierce for the Presidency. And as there is now but two prominent candidates before the American people, namely: General ginia Legislature on this subject. They have not Winfield Scott and Franklin Pierce, one of whom shall most cheerfully and freely give my vote and industrial states Sente.

The Enquirer will in vain seek to hide and disinfluence to General Scott. I believe him by far guise the untrustworthiness of its men and party by the best Democrat of the two, and one whom every friend to the West particularly, and to Internal Improvements, and to the promotion of American industry, ought to prefer and to cordially support. Before I conclude I wish to call your attention to a short article which is taken from the Iowa Capi-

tol Reporter of the 1st inst. It is as follows: EX GOT. LUCAS AND GEN SCOTT. We see the Waiz papers are glorving over what they suppose to be one instance of a Demo-crat who will support Gen. Scott. Honesty, faithfulness, and unswerving integrity, as well as enlarged capacity, have ever been considered as essentials upon the part of their officers, and no true Democrat should ever knowingly support such as do not possess these qualifications .--On the contrary, Locolocoism selects such men and advocates such measures as will insure to the leaders the seven principles referred to by John C. From the Congressional Globe, June 12th, 1834. "The rest of the day was consumed in considering and passing a bill for the relief of Edmund Brooke of Georgetown, to enable him to bring two negro boys " into the District, after the time restricted by law had expired, that they might be in his family with their 'mother, instead of being sold to negro dealers.

"After repeated motions to postpone the bill indefinitely to a day certain, and to lay it on the table, and after debate of the character which always occurs "when the subject of slavery is touched in the House, the bill was passed by ayes and nays, 106 to 47?" From this it appears that the vote was deliberately and not inadvertantly given. The following is the bill:

The efforts of the Enquirer to produce an issue between Seward and the people of Virginia is the best evidence of the weakness of its cause, and evidently testifies the alarmed state of his party:--Each successive day that paper warns the people of Virginia against Seward; while it is silent on the position of Van Buren, Hallett and their associates among the "New England Democracy."-But this is a vain hope; it will not suit the exigencies of the times. We extract the above from a correspondent of the Union, from New York. In a long letter, the writer is arguing to show that it is impossible for Scott to get the State of New York, because of the indifference of Seward and his followers, to his election. Yet, in the face of this declaration, the Union contains an elaborate article to prove that Sewards is the leader of Scott and the Whig Freesoilers: and this, too, when Hale, the Whig Freesoil candidate, is expected to concentrate on himself the entire Whig Freesoil vote—while Van Barren is to carry to Pierce the entire Democratic Freesoil vote. Will the eyes of the South never be opened?—Will the senseless, vapid expletives of these political scare-crows never cease to be rung, on a credulous, popular car? And this glaring effort is made to deceive the South—when the Whig Freesoil vote is in open opposition to Scott—because of his devotion to the "rights of the South;" while the Democratic Freeso I vie is drilled under Van Buren and Sunner, to sustain Pierce. drilled under Van Buren and Sumner, to sustain Pierce—because "THE MEN WHO WOYLD DISSOLVE THE UN ON did not HATE SLAVERY MORE THAN HE DID" and when this very man, SUMNER, moved in his place in the United States Senate, but the other day, TO REPEAL THE FUGITIVE SLAVE LAW. Verily, the faith of the Union in the credulity of the South increases, as the

On referring to the "record," we find the General to be not only a Free-soiler, but, according to Democratik reasoning, "an Abolitionist of the strictest sect and an enemy to the ins itutions of the South." It will be seen, by refer-

Tried by a similar test, how stands Frankin Pierce? We suppose it will be conceded that, if we show that he did precisely what in the opinion of the Democracy made Mr. Fill Mone an Abolitionist and an enemy to the South, we establish beyond all controversy the charge of Abolitionism against General Pience. Now for the evidence. On the 3d of January, 1839, a memorial was presented "praying Congress to abolish slavery in the District of Columbia and the Territory of Florida." A motion was made to lay the motion to receive upon the tatle, upon which motion Franklin Pierce's name stands recorded in the negative; thus voting, as did Mr. Fillmore, to receive such petitions, and for which the latter was denounced by all the Loco press and speakers

PRINCIPLES NOT MEN. Mr. Stephens, of Georgia, made a Webster speech at Crawfordville a few days ago. Our Democratic opponents have heretofore quoted him largely. We in turn make the following extract from his Crawfordvillespeech, "The Democratic convention, by which General abolitionists, secessionists, tarificand anti-tariff men, internal improvement and anti-internal improvement men, the advocates of intervention and nonintervention-politicians of every shade and complexion found a welcome to this mongrel asceriation. Mr. Stephens would say nothing in disparagement of General Pierce. A TIGHT FIX.

The following amusing incident we copy from the New Orleans Picayune. This is a strange world, and many strange things happen in it;

"We read from a notice in a St. Louis paper an account of the perils and distress of a young man, who went one evening at the witching hour of midnight. The place of meeting was the flat roof of the house next to that where the young lady resided. She and her sister came out, and the three sat down on the roof to chat on subjects appertinent to such a rendezvous. After a while the voice of the young lady's father was heard in dangerous proximity to the group, and all three started to rise hastily and abandon the spot. "But they couldn't rise!" The roof was of asphatum, and as the day had been uncommonly warm, that pitchy substance was rendered soft enough by the sun's rays to receive and retain any impression that might be made upon it. The young man found his unmentionables fastened, or rather stuck tight to the roof, and the young ladies' dresses in the same predicament The matter resulted in the young man being obliged to crawl out of his pantaloons, and jerking the ladies to their feet by force! We merely mention this incident to observe with proper effect, that in such a "Mr. Seward has even resolved for deceney's sake, case many of young backs would and it difficult to e-awl out of certain ean't do-withoutables, which shall be nameless, so easily as in the above case. OUR PROSPECTS.

The signs of the times strongly indicate the triumph of Scott and Graham. One month ago, we were apprehengive our party was not alive to the interests involved, and that there was a probability of the masses being infinenced (to a sufficient extent,) by a few ambitious and disappointed "would-be political leaders," to render our success doubtful. But every day's experience convinces us we were wrong in that impression.

Apathy and indifference have given way to a glorious | portion of the community. enthusiasm. The people, despite the dictations of these renegades, are rising in their majesty to the aid of a gallant soldier, an enlightened statesman and honored patriot. The result of the recent elections in Maine and Iowa have betokened to the opposition that there is danger a-head. Vermont, latety doubtful, is now conceded to us and oven the former stay taking to encourage them in New York, Pennsylvania and Ohio," and yet a few weeks since there was no doubt expressed of the result in all of them.

Maryland, Tennessee and North Carolina, from some cause, no longer appear in the Locofoco pyramid, and even Indiana and Michigan are the subjects of long and ardent appeals.

The Richmond Examiner, warns the laithful that all is not safe in Virginia, that to ensure success in the citadel, there is work-and a good deal of it-to be done. Whigs of Virginia! if you will only do your duty, your whole duty, and nothing more than your duty, we honestly believe you can take the state. A defeat of Locofocoism in Virginia, would be a downfall of that party in the Union.

MUCH TRIBULATION.

Our neighbor of the Spirit is in much tribulation because Gen. Scorr, in the discharge of an important duty placed upon him, is receiving the enthusiastic greetings of the People. Our readers are aware that Gen. Scott has gone to the Blue Licks, in Arkansas, in company with two other officers of the army, for the purpose of selecting, under a late act of Congress, a site for a new Military Asylum. This task was imposed upon him by the Government, and the public service required its immediate execution. On his route he has been met by the People with an enthusiasm rarely equalled, and he has been compelled to respond to the masses gathered to receive him. For thus responding to the people, for civilities shown, he is charged with "making electioneering speeches!" Now, neighbour, steady your nerves. You had better begin early, lest the shork, after the Presidential elect'o , be beyond endurance. Don't let the General's speeches disturb you so. He made a few more,-for the PEOPLE would hear him-which you ought to transfer to your columns. Give us his Columbus speech, published in the Baltimore Sun of Monday

GOV. ROBERT LUCAS' LETTER.

We call the attention of our readers (on the 1st page) to this powerful production. Gov. L. is a son of the "Old Dominion," and was born in this county. There is no man in the Union who has "acted a more conspicuous part in the ranks of the Democracy;" and so unexceptionable is his moral character, that no one can doubt his political honesty. The editor of the "Union Democrat" says, "we cannot and will not believe that Gov. Lucas has determined to support Gen. Scott until we see the announcement over his own signature. FACTS FROM THE RECORD.

The National Intelligencer is showing up, in a series flang-whangers as Judge Douglass in reference to "Waig That veteran paper, rarely at fault in its statement of

facts, presents the following striking instances in disproof of the allegation of extravagance against Whig Administrations

the two Houses actually appropriated the sum of \$33,-032,577-being \$7,035,712 more than was asked for in the Estimates! The Intelligencer says the "original amount demanded from Congress for the annual appropriations for the

current fiscal year, was, above stated, The permanent appropriations under former acts of Congress for civil list, expenses of collecting the revenue, arming the mi-

Making, together, Which would have been the full current expenditure from the Treasury for the fiscal year, had not Congress voluntarily added more than seven millions of dollars to this amount! This additional expenditure no one will pretend that the Administration, or any body but the Democratic majority in Congress, is responsible for .-Congress has ordered the expenditure, and the Executive has only, under his Constitutional oath and obligation, to see that its Laws "be faithfully executed." So much for Democratic "extravagance" against Whig economy. The honorable Senator from Illinois must excuse us if we retort upon him, in the terms of his own querry: Is this "that system of economy in our expenditures in the various branches of the Gevernment, which we had a right to expect if we placed confidence in

Democratic professions?" The Intelligencer, after establishing these sins of commission by the Democratic Congress, points out one of omission, of signal importance, viz: "the neglect to authorize the surplus means of the Treasury to be applied to the extinguishment of the Public Debt, which subject was so earnestly brought to and pressed upon their at-

By investing ten millions in the purchase of the public lebt, an annual saving on the interest of that sum would have been effected of \$500,000, or nearly \$1,500 daily! The editors further show off the ludicrous assertion of Senator Douglass in regard to bringing "the government back to that honest system of economy which has distinguished Democratic Administrations!" The five years. embracing 1812, 13, 14, 15, 16, (which included the war,) involved an expenditure of \$126,466,581. The expenditures of the three last years of Gen. Jackson's administration, and the two first of Mr. Van Buren's, amounted, exclusive of payments on account of the public debt, to the sum of \$145,463,535, being a balance against Democratic rule of \$19,001,954!

Mr. Adams expended an annual average of \$12,575,-477-Ger. Jackson an annual average of \$18,224,092and Mr. Van Buren \$37,135,661

The Intelligencer further shows off the ridiculous asumptions of the Democracy on the subject of peculation. It brings to mind some celebrated cases of defalcation in the times of Mr. Van Buren-one of a Receiver of Publie moneys at Columbus, Mississippi, who was allowed to remain in office after he was known to be a defaulter, until his whole deficiency amounted to \$123,884.70 .-His successor, nominated by himself on the ground that he was "an ardent supporter of the Administration," was appointed by President Van Buren, and he went out of office a defaulter to the tune of \$100,175!

Senator Douglass must suppose the people have a short memories as his own, to attempt to palm upon them his stuff about "Democratic economy!" There never was anything in the annals of impudence so glaring as this; yet the babblers repeat their audacious statements so often as to impose upon the ignorant or prejudiced

A GLANCE AT HISTORY.

To correct the errors of political disputants we In the proceedings of the Senate of the Congress of the United States as reported in the National In osition consisted of "a series of resolutions," the

7th of which is as follows-"7th, Resolved, That more effectual provision ought to be made by law, according to the requirement of the Constitution, for the restitution and delivery of persons bound to service or labor in any State, who may escape into any other State or Territors in the Union.

This "series of resolutions" and other propositions were by order of the Senate referred to a Committee of thirteenof which Mr. Clay was Chairman, and that Committee reported on the subjects referred to it on the 8th day of May, 1850, at the report is published at length in the National Intelligencer of the 11th of that month. In that report the adeption of "the fugitive bill pending in the Senate was recommended with amendments, one of which was incorporated in the act of Congress and is in section 10th of the act approved Sept. 18th, 1850 .-[See Statutes 31st Congress first session-1819,

The Committee further say that "one of the views and recommendations" may be stated. That there should be "more effectual enactments of law o secure the prompt delivery of persons bound to service or labor in one State under the laws thereof who escape into another State."

With such facts as these within their reach is it not surprising that persons who undertake to instruct others should so far allow themselves to be such a ere partizans as to attempt imposition? If they were informed, it is a wilful perversion of history to say, as public orators have said, that there was no reference to the fugitive slave law in the resolutions of "Compromise" as offered by Mr. Clay or in the report and resolutions " f the Compromise Committee." If they were not informed on the subject ignorance has been brought to the aid of impudence.

I, Phillip N. Little, of Satton, in the county of Merrimack, and State of New Hampshire, depose and say, that I attended a political meeting at Bradford, January 23d, 1852, which was addressed by General Franklin Pierce, who spoke at length on the subject of negro slavery and the Fugitive Slave law. He represented slavery as having ever been a disturbing element in our Confederacy, and instanced various historical facts to prove it. He repelled the charge that the Democracy of New Hampshire were disposed to favor, in any way, the interests of Smthern slavery, and asserted, on the ontrary, that they were as much and as truly opposed to that institution as any political party in the State. He repeatedly expressed his aver ion to slavery and the Fugitive Slave Law, in language of great force, and declared that his heart revolted at the surrender of fugitives under the provisions of the law. The entire remarks of General Pierce on this subject were of a decided character, and well the South was in the first instance horribly aga lapted to promote the unity of the Democratic party, by proclaiming the anti-slavery sentiments of that party in general, and of himself in particular, and the aversion of both to the Fugitive Slave aw, the execution of which, he and his party acmissed in as being necessary to the preservation PHILIP N. Justice of the Peace. BRING OUT THAT LETTER!

The question has been asked a thousand times, "did Mr. Pierce answer Robert G. Scott's, letter?" Th's has been denied, in so an evasive and unsatisfactory a manner, that the opinion now prevails that either Mr. Pierce's law partner, or some one cise, did reply to Captain Scott's letter. The opinion that a letter has been received from that quarter is materially strengthened by the recent colloquy at Lousia C. II., between the man who went to bed a private and rose a Captain, and his opponent in the discussion, W. C. Scott, a gallant

In the course of the discussion, W. C. Scott, Esq., comnented upon the fact that General Pierce had refused to answer Mr. R. G. S.'s letter, and asked him if he had not received a letter from Gen Pierce analysizing for the Empirier, in which I stated that I had received no answer from Gen. Pierce?" Mr. W. C. Sgott-"Yes, sir, and I do not mean to puestion what you have stated in that card at all; but I

wish to know whether you have not received a letter from Gen. Pierce, apologizing for not answering your letter?"
Mr. R. G. Scott-"YOU HAVE NO RIGHT TO ASK THAT QUESTION." Mr. W. C. Scott contended that he had a right to ask

the question, as the fact of the correspondence had been made public; but Mr. R. G. Scott refused to answer. Here we have what is tantamount to an acknowledgment that a letter has been received—a letter too which does not dance up to the music set by R. G. Scott, but one apologetic for not seplying to his carnest inquiry, whether he, Mr. Pierce, in case of an election to the Presidency, and in case of a repeal of the Fugitive Slave Bill by Congress, whether he Mr. Pierce would veto such repeal! An apologetic letter because he did not previously answer! What was there to prevent an answer to the inquiry in the apologetic letter if Mr. Pierce meant to deal fairly with all sections of the country?-Why allow so favorable an opportunity to pass when it was so easy a matter to set himself right before the South on this question of momentous importance. But Mr. R. G. Scott wouldn't answer so fair an inquiry as that addressed by W. C. Scott, on the grounds that he had no right to ask him! Will the South be content with any such evasion, on the part of Mr. Frank Pierce, or h's man Friday, Mr. R. G. Scott?-Fred. Herald.

As this letter is but the forerunner of another, promised at an early day, we for the present forbear comment, and will await the Second edition, so as to have all "the reasons" before us at once. We design no attack on Mr. Lyons. But if that gentleman thinks himself privileged to publish pronunciamentos against the Whig party, their candidate and their position, with impunity, he is mistaken. So far as Ir. Lyons himself is concerned, we would allow his opposition to Scott to pass unkeeded and uncared for. But when he undertakes to furnish the Democrats with his testimonials of the soundness of the "New England Democracy," we must be pardoned for investigating the sources of his information. When Mr. Lyons is seen in company with those, who, in 1843 rallied under Van Buren, in support of the Democratic Freesoilers, and of whem the Union thus wrote, we can but feel and express

most sanguine had made of their strength. And why should not Gen. Scott do the same? In every qualifica ion he is the decided superior of either of those men. He has fought more battles, achieved more brilliant triumphs and in every re:pect is a more renowned military chieftain. In civil qualifications he is their superior. His settlement of the nullification difficulty, his adjustment of the Canada controversy, and the Maine Boundary question, with other testimonials of high civil ability commend him in infinitely stronger claims

The Son h will not support him for the reason that Seward and Greely advocate him. So that between these two fires he is to be destroyed certainly .-Well, it may be so. We have no means to ascertain the extent of these influences. We know that at the South this appeal to popular prejudice has been weakening with every day the agitation has continued. The popular mind in this section of grieved by such imputations. Seward is a Blue-Beard, whose touch is contagion, and whose courtenance is death. And so were Martin Van Buren and his hopeful sprout John, -so were Allen, and But er, and Wilmet, all of whom were clamoring for Pierce. The people saw these things, and examined for themselves, when they arrived at the conclusion that "deep in the mire as might be Scott forty times deeper in the mud was Pierce." These things have been weighed and appreciated, and the effect is seen in the annihilation of that prejulice which resulted from misapprehension. Scott, we think, has strengthened every day since the omination, while Pierce has obviously declined. We know intelligent Democrats who say they will not vote. We believe there is no man, who intends to be a Whig, who will not vote for Scott. . We have said that New York and Ohio, will vote for Scott. Our reasons for thinking so are: 1st. EX-GOVERNOR FRANCIS THOMAS-A MARYLAND FREE-SOILER SUP-PORTING PIERCE.

Min. Emron: For several weeks our citizens have seen it announced that Ex-Governor Francis Thomas and others would address the Democracy in Hagarstown, Frederick, and other places. This. announcement recalled to my mind certain events in the political life of Mr. Thomas which it may not be uninteresting to recover from the past and again lay before the public, which events will afford the key to Mr. Thomas' present position. I allude to Mr. T's advocacy of Van Buren and Adams the Free-Soil candidates in 1848.

On the 20th of August 1818, Mr. Thomas wrote a letter to the Free-Soil Central Committee of Mayland, in which he came out openly for those doctrines which are looked upon as dangerous in a slave-holding community, so dangerous that were a Yankee to utter them in our midst his life would be in danger. He knew " of no public question, to decided in the approaching Presidential election, of o much moment as that particularly involved in the nominations at Buffalo, or better calculated to awaken his preference for the Electoral ticket you prepose to have nominated."

I send you a copy of Mr. Thomas' letter which you will oblige me by publishing, for the special sent of Virginia and Maryland slave-holders who are weekly invited to attend Pierce Mass Meetings to be addressed by this champion of the slave holding interest. It must be regarded as rather cool to say the least of it to extend to Virginians an invitation to listen to the political teachings of one so deadly hostile to the peculiar institutions of the South .-Those opinions have never been retracted, and he is now following in the footsteps of his particular filend Mr. Van Buren, and both viewing "the pubquestion involved in the nominations at Buffalo" f more importance than all others, the conclusion is irresistible that both regard the election of Franklia Pierce as best calculated to promote their pecu-SOUTHERNOR.

From your letter I learn that the principal object of the proposed Convention will be the formation of an Electoral ticket, to be voted for by the people of Maryland, favorable to the election of Mr. Van

I have not participated in the proceedings of any political meeting, large or small, since my canvass or the Chief Magistracy of Maryland closed, at a public meeting in the town of Cumberland, early in October, 1811. I am, therefore, under no obligation, express or implied, to support or vote for eine of the nominees of the National Conventions held by the whig and democratic parties, respectively. Being free to make choice of a candidate to be voted for from the three gentlemen who have been brought before the public through the agency of others, I shall most certainly, if I live; and can attend the polls, vote for that electoral ticket which shall stand pledged to vote for Mr. Van Bufen for the Presidency, and Mr. Adams for the

Having neither leisure nor inclination, at this time, to elaborate my reasons for this determination I shall content myself with saying, that I have great confidence in Mr. Van Buren as a tried Statesman, eminently qualified for the duties imposed by the Constitution on our Chief Magistrate; that in my opinion the whole country owe to him much for his distinguished agency in giving roud predominance to those great measures of pubpolicy, to the success of which my own political ife was, in a very small sphere, devoted; and that my proference for him, arising from these considerations, instead of being diminished, is increased by the pledge he has given, to follow in the foot steps of those illustrious patriots and philanthro-pists who, by a lopting the Federal Constitution that clothed Congress with power to prohibit the African slave taade, signified, distinctly, their desire to have the further extension of slavery arrested, and who, by adopting the celebrated ordinance of 1787, torbidding the introduction of slavery into all the territory then held by he United States, se an example that ought to have been followed by their posterity. were interposed to prevent it; which will not te

Fowle :- Having seen many certificates published in relation to Dr. Wistar's Ba'sam of Wild Cherry, I take this opportunity of offering a word in its favor, which you are also at liberty to publish. A few months since my wife's lungs became so much affected by a swiden cold, that she lost her voice, and suffered by a sudden cold, that she lost her voice, and suffered severely from pains in the breast. Her situation caused her friends much alarm. Having heard your Balsam strongly recommended by those who had used it, I purchased a bettle of your agent in this place. She took it according to directions, and it produced a wonderful effect. Before using one bottle she had completely refect. covered her voice, the pains subsided, and her tealth was soon fully restored. Yours truly.

CATTLE SHOW AND AGRICULTURAL AND HORTICULTURAL EXHIBITION

Valley Agricultural Society, To be held near Charlestown, Jefferson co., on the 20th, 21st and 22d of October, 1853.

The second Annual Exhibition of the Valley Agricultural Society of Virginia, will take place on Wednesday, Thursday and Friday, the 20th, 21st and 22d of October next, half a mile from Charlestown, in a beautiful grove enclosed by the Society for the purpose. The Society, encouraged by the success which

attended the first Exhibition, is stimulated to renewed exertion to have the present one on a much more extended scale. The officers pledge themselves that no exertion, on their part, shall be spared to give increased satisfaction to all, and most especially the ladies; for, without their attendance, no matter however well all other departments may be filled, that one will be wanting, which has never yet failed to bring with it success and prosperity. Therefore, we say unto them, especially, not only to come thempertains to their department. Be not deterred from bringing them because you may presume others may be there, which may prove superior to your own; it is only by comparison that their relative merits can be determined. Let every member of the Society seed comething to be exhibited, and do not again do, as many did last year-go from the Fair, saying to themselves, "I have a much be'ter cow, sheep, hog, or other articles at home." It was a contradiction upon their part, if they had, they would have exhibited them. Now, we say to one and all, bring whatever you may have with you-enter the list for a fair and honorable competition, and if defeated, you will enjoy the great satisfaction of knowing that others had finer stock and better articles, and were more entitled to success than

To the manufacturers of Agricultural Implements and Tools, we extend a cordial invitation to be present. Your interests enjoin upon you the propriety of making a good exhibition of ; one various machinery. It is the very best medium through which you can make known to the farmer, their various advantages. If you fail to make the exhibit, and thus deprive the farmer of comparing them with others, it will be construed into an acknowledgment, on your part, of their interiority. We say to you be present with your machinery, and show to the world, no matter how others may differ as to their relative merits, that you are neither ashamed nor alraid to com pare the workmanship or test the advantages of

Farmers of the Valley of Virginia! in the advancement of the agricultural interest, each one of us owes a duty to all the rest. Let us now filled in separate scaled envelopes for delivery , try, and prevent any of us from being the last to

THOMAS G. BAYLOR. July 1, 1852. A WELL IMPROVED FARM FOR SALE.

OFFER at private sale the FARM upon which I reside, situated about four miles northwest of Charlestown, Jefferson county, Va., adjoining the lands of W. T. Washington, R. Worthington, Geo. L. Washington and others, and containing about 260 ACRES OF LAND,

thirty of which are in timber, the balance in arable

land, divided into nine fields, all under good fencing, mostly post and cap-fence. The improvements consist of a large, convenient and newly built Dwelling, containing seven rooms, with cellars under the whole—smoke house, ice house, servants' houses, stabling, corn house, and a large granary divided into garners, capable of holding 2000 bushels of wheat. All the buildings necessary for the comfort and convenience of a family have been erected within a few years past and are in good repair. There is upon the farm a variety of choice fruit selected from the best norseries and most of them now bearing, viz: apples, peaches, cherries apricots, plums, &c. The land has been farmed exclosively with a view to its improvement, clover and plaster has been freely used, and it is now in a fine state of cultivation. The Winchester and Potomac Railroad 1) miles distant, and the Baltimore and Ohio Railroad 4 miles distant, offer great falities for the transportation of the produce of the arm either to the Baltimore or District markets,-

CONSUMPTION, FEMALE COMPLAINTS, LOSS OF APPETITE, GENERAL DEBILITY, &c. In this preparation we have all the restorative properties of the root, concentrated in their utmost strength and efficacy; but while Sarsaparilla Root forms an important part of its combination, it is, at the same time, compounded with other regetable remedies of great power, and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. It acts simult meously upon the stomach, the circulation and the bowels; and thus three different kinds of medicine, are carried on at the same time, through the instrumentality of this one remedial agent, which gently stimulates while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Its great merit is that it meets and neutralizes the active principle of disease itself, and when that is gone, the symptoms necessarily disappear; and we have only to point to the accumulated testimony of multitudes who have experienced its effects, to convince incredulity itself of its real value.

The Proprietors submit to the public the following

certificate from a highly respectable source, of a cure

made by using their preparation of Satsaparilla :--Снатнам, Mass, July 28, 1850. Messrs. A. B. & D. Sands:

Gentlemen—So truly valuable do I consider your Sarsaparilla, that I feel it to be my duty to state for the benefit of others, the cure effected on myself .-Previous to 1845, I had a disease of the throat, which destroyed the tonsils, and was then attacked with violent pain in the head. This soon resulted in severe infl mmation, and immense quantities of blood and matter were discharged. For six weeks the disease continued in the head, and then pervaded the body generally, attacking all the limbs. I was confined to a sick bed, from which I never expected to arise .-Many physicians attended me, and the most skillful pronounced me past cure. In short, tongue cannot express my sufferings; and in this condition I heard of your Sarsaparilla, purchased six bottles, and renounced all other remedes. I did expect to take all I bought, so debilitated had my system become. Contrary to all expectation, my health almost immediately began to improve, I was able to attend to my domestic du-ties, and soon could walk out, a thing I once thought would be impossible. My gratitude I cannot express, feeling satisfied that nothing else could have relieved me of the misery and suffering I then endured. I most cheerfully recommend Sands' Sarsaparilla to all suffer-

ing as I have done. Respectfully yours, REBECCA MAYO. Knowing the above statement to be strictly correct, and being near neighbors to Mrs. Mayo we cheerfully testify to the same. WARREN RODGERS, ESq. Mrs. PRISCILLA L. DODGE,

JOHN HALLET. Mrs Refecca Smith, ANOTHER REMARKABLE CURE. NEW YORK, Jan. 8, 1850. Messrs. Sands.-Gentlemen-I have great pleasure in acknowledging to you the great benefit I have received from the use of your Sarsaparilla. A subject of pulmonary disease, I made a voyage to Europe, but while there continued to be afflicted. A few weeks after my return, I was seized with a violent hemorthage of the lungs and from the debility and great prostration of strength that followed, with the protracted difficulty of respiration, I am entirely relieved by the use of your Sarsaparilla, which I consider a most important and truly valuable discovery in the healing art. I feel that I have not for fourteen years enjoyed so good health as at present. Gratefully yours, S. E. SAYMORE. Prepared and sold, wholesale and retail, by A. B & D. DIGESTIVE FLUID OR, GASTRIC JUICE.

DREPARED from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia, Pa. This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Conplaint, Constipation and Debility, Curing after Nature's own method, by Nature's own Agent,

the Gastrie Juice.
Half a teaspoonful of Persin, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach. PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice-the Solvent of the Food, the Purifying, Preserving, and Stimulating Agent for the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect institute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspepties, curing cases of Debility Emaciation, Nervous Decline. and Dyspeptic Consumption, supposed to be on the verge of the grave.

in the highest degree curious and remarkable. SCIENTIFIC EVIDENCE, BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calt, in which various articles of food as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

The Scientific Evidence upon which it is based, is

Dr. PEREIRA, in his famous treatise on "Food and Diet," published by Flowers & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira. Dr. COMBE, in his valuable writings on the 'Physiology of Digestion," observes that a "diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia; and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved com-

pletely successful " Dr. GRAHAM, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process.' Professor Dunglison, of the Jefferson College, Philadelphia in his great work on Human Physi ology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice obtained from the living human stomach, and from animals, are well known. "In all cases." he says, "digestion occurred as perfectly in the artificial as in the natural

Dr. John W. Draper, Professor of Chemistry in the Medical College of the University of N. York, in his 'Text Book of Chemistry,' page 386, says: "It has been a question whether artificial digestion could be performed-but it is now universally admitted that it may be." Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of scientific eridence, similar to the above, together with Reports of remarkable cures, from all parts of the United

AS A DYSPEPSIA CURER. Dr. Houghton's Persin has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than two hundred remarkable cures, in Philadelphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent. It is a great nervous antidote, and particularly useful for tendency to Bilious disorder, Liver Complaint, Fever and Ague, or badly treated F ver and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the

too free use of ardent spirits. It almost reconciles Health with Intemperance. OLD STOMACH COMPLAINTS. There is no form of old stomach complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gires instant relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of blood, and vigor of body follow at once. It is particularly excellent in cases of Nansea. Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Snieide, &c. Dr. Houghton's Persin is prepared in Powder and in Fluid form-and in prescription vials for

the use of Physicians. Private Circulars for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a secret remedu, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price ONE DOLLAR per bottle. WINCHESTER ACADEMY,

WINCHESTER, Va. THE REV. WILLIAM JOHNSON, A. M., Principal. THE Trustees of the Winchester Academy take I pleasure in stating that this Institution has been under the care of the Rev. Mr. Jounsen for the last twelve months; and they are fully persuaded, from their personal knowledge of Mr. Johnston and his mode of teaching and governing the boys committed to his care, that for efficiency and sound scholarship and tact in discipline he has few superiors .-We have seldom known a gentleman who possesses to as great a degree the qualifications of an accemolished teacher and diciplinarian. His government is mild, but firm. His method of teaching is thorough. The recent public examination of the pupils, together with an occasional attendance upon the school during the year, has given us a high opinion of the advantages of this Institution. It is our candid and deliberate judgment that no private school or Academy in the State affords greater facilities for a complete academical education. Mr. Johnston will be assisted by BENJ. F. I have used on my farm and am still using one of the Wheat Drills, patented by Gervis S. Gardner and George Robr, and now sold by Messrs. Henson, O'Bannon and Hunt. I do not suppose any intelligent farmer would now dispute the advantage of drilling over broadcast sowing; I also consider the above Drill altogether equal to any drill now in use, and the advantage of applying a compost bex to it, makes it very desirable. The compost part of the drill acts well in every particular and is one of the greatest inventions of the day for the farmer; it might well be called the farmer's friend, as it saves both time and labor. Many years of trial, instead of impairing the public confidence in this medicine, has wen for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabic of the American Peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, Cherry Pectoral is known as the best remedy extant for diseases of the Throat and Luce and in many foreign countries, it is oming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany. where the medical sciences have reached their highest perfection, therry Pectoral is introduced, and in contant use in the Armies, Hospitals, Alms Houses, Publie institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs, Also in milder cases, and for children it is safe, pleasant and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacions in cases particularly incidental to

MEXICAN HUSTANG LINIMENT: WITH A HEALING BALM WE COME TO

GREET YOU!!! THE action of this Liniment is one of the most Its action of this Limitach is one of the industrial persect remedies ever offered to the afflicted.

Its action upon the organization is truly wonderful. Its volatile, penetrating, soothing and healing properties diffuse themselves to the very boxes. It enters into the circulation of the blood—gives a new impulse to the whole nervous system to the very extremities of the fingers and toes—stimulates the absorbents and secretions, and thus assists nature to throw off and rid herself of any diseased action of the nervous cheeds or ligaments. diseased action of the nervous chords or ligaments, ma-king it equally applicable to sores of any kind, Rheuma-tism, PAINS IN EVERY PART OF THE BODY. from a diseased action of any of the structural porti. as of the system. WHILE IT IS PERFECTLY HARM-LESS to healthy flesh, skin or bone, it has the property of entering into cocabination, and dissolving any of the organic tissues when they are diseased, or their vitality is destroyed. Pessessing these poculiar powers, is the REASON WHYIT IS EQUALLY EFFICACIOUS in so many different complaints. It acts upon scientific principles and FIXED LAWS OF THE CREATOR! principles and FIXED LAWS OF THE CREATOR!

The large number of cases in which this Liniment has proved its varae, in the short time it has been before the people of Virginia, is sufficient to give the greatest confidence that its virtues are incomparable in the cure of Rheumatism, Bruises, Strains, Burns, Wounds, Swellings, Perlan on Caked Breast, phi Sogra or Pains in any part Broken or Caked Breast, old Sores or Pains in any part

Stone and Cartwright and other Physicians have had him in charge most of that time. He was in Dr. Stone's Hospital a long time, under constant treatment. Dr. Stone pro-nounced his case incurable. Large lumps, of a hard boay substance, had formed on his hands, verists and other parts of the body, and his lower extremities were drawn cut of shape, and be could not move about without assistance. Mexican Mustang Liniment left me five weeks ago, are all sold. Sold me thirty dozen imnediately. The Mustang Liniment has performed some wonderful cures here. Dr. W. W. Nevil says it is the greatest Liniment in the world. He had a negro girl that was nearly deaf and blind—his renedies did her no good—a few ap-plications of the Liniment cured her entirely. It is also curing James W. Cov's log, which has been a running sore for forty years. It has not failed in a single case here, so far as it has been tried.

ARTHUR HUDSON. AN EDITORIAL RECOMMENDATION. In the Savannah Republican of December 21, 1851, edited by A. K. Moore, Esq., he speaks in the following manner of the Mustang Liniment : "This Medicine is now offered to the people of Georgia for the first time. Our personal experience enables us to recommend it to the people with confidence, as we have felt the good effects upon a sprained ancle, which

received great benefit from one application, and has been almost cured by an occasional use of it for a week." TESTIMONY OF A PHYSICIAN. [Extract of a letter, dated Pittsburg, Jan. 12th, 1852:]
I will say, that your Mustang Liminent is about the best I ever used. I have used it in my own case, along the lower part of the spine, for spinal irritation, with complete relief. I used it a few nights ago, when I was perfectly crooked, and my back in complete torture, from what the books would call Opisthotonic condition of missory Notes, Certificates of Deposite, Letters of the muscles; which you know, is about as bad as " lockjaw." It gave immediate relief, and, in the morning, I could bend like a gutta percha man, and with as little pain. The medical professior, you know, have a great aversion to these kinds of remedies; but from a knowledge of the ingrédients of the Mustang Liniment, I would have no hesitation in recommending it wherever a rem-edy to relieve pain is desired. I have recommended it in a number of cases in my own practice, and, as far as I can learn, it has acted with equal celerity and certainty, as in my own case. Hoping that it may be used for, and drive away pain, wherever it exists, and that it may re-

numerate you well for your exertions for bringing so valuable a medicine before the public, I subscribe myself, truly yours.

GEO. H. KEYSER, M. D. HIS WOUNDS ARE HEALED. John Shirley, Poseyville, Indiana, Dec. 30, 1851, says: "The Mustang Liniment has performed a great cure for me. On list Saturday week, I, by accident, ran a red hot rod of iron through my hand, entering through my thumb and fore finger, passing through the thick part of my hand, and coming out on my wrist, between the two large leaders. I immediately applied the Mustang Liniment, and continued its use. On Saturday aext af-
