LIFE'S HARVEST. Ho, Resper of Life's Harvest. Why stand with rusted blade,

Until the night draws mund thee, And day begins to fade? Why stand ye idle, waiting For respers more to eme? The golden morn is passing,

Why sit ye idle, dumb? Thrust in your sharpened sickle. And gather in the grain; The night is fast approaching, And soon will come again.

Thy Master calls for reasers, And shall be call in vain ?-Shall sheaves lie there is gathered, And waste upon the f. in? Come down from hill, a a mounta In morning's ruddy glow, Nor wait until the dial,

Points to the noon below, And come with the strong sinew. Nor faint in heat or cold; And pause not till the evening Draws round its wealth of gold. And mount the crumbling watch towers,

And herald on the truth; Preach out the golden precepts, To wild and wayward youth, · Mount up the heights of wisdom And crush each error low;

Keep back no works of knowledge That human hearts should know, Be faithful to thy mission In service of thy Lord, And then a golden chaplet Shall be thy just reward.

THE WORLD AS IT IS. The world is not so bad a world As some would like to make it; Though whether good or whether bad, Depends on how we take it: For if we scold and fret all day, From dewy morn till even,

This world will ne'er afford to man A foretaste here of heaven. This world's in truth as good a world As e'er was known to any Who have not seen another yet-And these are very many;

And if the men and women too Have plenty of employment. Those surely must be hard to please Who cannot find enjoyment. The world is quite a clever world, In rain or pleasant weather,

If people would but learn to live In harmony together; Nor seek to burst the kindly bond By love and peace cemented, And learn the best of lessons yet, To always be contented.

Then were the world a pleasant world, And pleasant folks were in it. The day would pass most pleasantly To those who thus began it;

And all the nameless grievances, Brought on by borrowed troubles. Would prove, as certainly they are, A mass of empty bubbles.

Set me down for a scold ! No, no; we wouldn't have you a scold for all the snakes in Ireland, as they used to say before St. Patrick's time. That frown is far from becoming. Let us speak with candor; the fairest face, the softest tongue, the most winning manners, lose all their witchery in the possesion of a sceld.

That smooth brow crimpled with frowns! Those blue eyes, placid as heaven, flashing flames of anger! Those beautiful lips made for the most flowing accents, love, poetry, cloquence-pity, compassion-pouting with the venom of malice! Miserable object! we turn from the sight

with horror beyond expression. Come-we will show you a scold. Yonder is her home-and no garden near it you may be sure, for flowers need smiles, as well as sunshine. There she is-feast your faucy upon her amiable countenance. See the red rings about her eyes, the pinched nose,

the puckered lips, the sharp, blue outline of the whole face. The family are at breakfast. Every tongue is mute but hers. The milk is sour, and she is seolding about that. She says the thunder did it-her husband has his own private opinion that it was her face.

Breakfast is over, and the children fly from the tempest, for they know that that sun is always under a cloud. The husband receives his daily benediction, and holds his breath till he gets into the street. That is the only way he avoids a quarrel. The cat and the dog slink inte corners, the very chairs look conscious as if they merited a scolding.

SUMMER OF STREET

TIM WIGGINS AND THE D.L.

Tim Wiggins had spent a jolly evening at the village grocery, and, as he had been the winner in two matches at "odd or even" for two pints of whiskey, he very naturally imbibed an extra quantity of the beverage which, to use his own expressive language, "cuts the last cobweb from the the thirsty throat, and agreeably exhilarates the senses

without collapsing an idea."

At eleven, Mr. Wiggins started for his home, a mile and half from the village. He was quite mellow, and as a loud disputation had been carried on about theological ques- prised to hear our friend shout out, with tions, that evening, he felt religiously in-clined, and sang familiar psalms and hymns as he marked out a line of Virginia fence on

his way benigward. When he teached the lower end of the village, the whiskey acceded to his brain, and he became conscious, just before he became unconscious, that lecomotion must, on his part, be deferred to a more convenient season. The village blacksmith's shop, usually so dark and dismal, invited him with carelessly left open door, and Mr. Wiggins turned in thither, and incontinently pitched head foremost under the big bellows, murmured something about "shadew of a great rock in a weary land," and was soon engaged in the pleasant amusement of dreaming of flowing punch-bowls and foaming tan-

The village blacksmith was an industrious fellow, and he came with his "helper" before daylight, as he had a large amount of forgery to de.

The clanking, groaning, wheezing bellows seen rivalled the stentorious breathing of the recumbent loafer beneath it, and Mr. Wiggins, whose potables had evaporated, leaving their least agreeable effects upon the brain, partly awoke. He heard the wheezing of bellows a few inches above him, the roar of the wind forced into the cracking coals, and peeping forth, he saw two ghastly forms satud in the blueish firelight, whose fitful glare gave a demon-like appearance to the mysterious beings, and augmented the blackness of the shadows that enveloped everything outside of the circle illuminated by

the infernal bonfires. The question of the existence of a hell had been discussed the previous evening at the grocery, and Tim Wiggin's voice was leudly raised in the negative; but to his half-awakened senses it now seemed more evident that there was a hell, and, furthermore, that he was in it, and further still, that he had not the slightest prospect of a drink from that time forth.

The fire was kindling faster and faster, the diabolical enginery was getting into active operation. Mr. Wiggins utetred a groan of despair-a grean which, sounding at a pause in the wheezing of the big bellows, reached the ear of the smith and his assistant. The master plucked from the forge a huge iron, heated to a white heat, and, brandishing it before him in lieu of a torch, deeming himself in the presence or tue me mertal enemy of mankind!

"Who-what are you? roared the blacksmith, who had been prodigiously frightened by the unearthly grean from Wiggins, and had assumed a fierce aspect to conceal his own fright. The now thoroughly dis-spirited Wiggins

meekly sobbed out-"When-I was on earth-I was a-psalm singer and-a Christian ; but now I'm inhell. I'll be anything your majesty wishes to have me !" "Get out of my shop, you drunken fool of a Tim Wigginst If I'd a-known it was

you, I'd 'ave run this hot iron threw ver !" And so saying, the smith seized the poor fellow by the collar, dragged him forth, and, after, bestowing sundry inverted blessings upon him, started him toward home to reflect apon the "shadews of that night," and the consequences of drinking bad liquer. It is proper we should add that Timothy Wiggins: Esq., is now a Son of Temperance and a respectable member of society. [Boston Saturday Museum.

IT'S WHAT YOU SPEND.

'It's what thee 'il spend, my son,' said a sage old Quaker, 'not what thee 'll make, which will decide whether thee's to be rich or not.' The advise was trite, (remarks the Philadelphia Ledger,) for it was but Franklin's, is another shape: 'Take care of the pennies, and the pounds will take care of themselves.' But it cannot be too often repeated. Men are continually indulging in small expenses, saying to themselves that it's only a trifle, yet forgetting that the aggremade up of petty grains of sand. Ten cents a day even is thirty-six dollars and a half a year, and that is the interest of a capital of six hundred dollars. The man that saves ten cents a day only, is so much richer than him who does not, as if he owned a life estate in a house worth six hundred dollars. Every sixteen years ten cents a day becomes six hundred dollars; and, if invested quarterly, does not take half that time. But ten cents a day is child's play, some will exclaim. Well then, John Jacob Aster used to say, that when a man, who wishes to be rich, has saved ten thousand dollars, he has won half the battle. Not that Astor thought ten thousand much. But he knew that, in making such a sum, a man acquired habits of prudent economy, which would constantly keep him advancing in wealth. How poor-house. E DE STORE OF SVANTED.

The Boston Port contains the following perpe-"Since the commencement of the Sontag operas, an enthusiastic friend of ours, and his wife, have become so carried away with the furor awal ened by attendance two nights at the opera, that it is the hardest thing in the world fer them to restrain their disposition to sing every thing—the more se be-cause they are both preficients in musid.— The other mooning, while ordering his dinner, the butcher-a sedate man-was sur-

FARMERS! TAKE A NEWSPAPER.

We slip the following sensible advice from late number of the Dollar Newspaper: "If non-subscribing farmers could ever be convinced of the importance and profit of taking a newspaper, we think the present very sudden rise in the prices of previsions, grain and in fact every article of agricultural production, would convince them. Corn has gone up to about 90 cents per bushelfew weeks ago it was sold in any quantities at 60. Wheat has as suddenly jumped from \$1,15 per bushel. Flour from \$4,37 to \$5121 per barrel. Add so of onts, ryo, barley, beef, perk, etc. Speculations in these several articles are all the time traversing the country; and how is the non-reading farmers to be pretected against them, except by subscription to a well conducted newspaper? We have no don't thousands of farmers, within the last fertnight have realized on the sale of a single crop a hundred fold the cost of a newspape, simply by being advised of this rise in the market; and many who were so penny-wise and proud-feelish, have lest enough by their unadvised sales as would furnish them and their children the newspaper for a half contury. ELECTION RESULTS.

The Richmond Times remarks that the returns of the late elections in this State come in with upprecedented slowness, but enough is known to justify the belief that the Democracy have succeeded in carrying every Congressional district Some doubt, it is true, seems still to hang over the result of the contest between Messrs Snowden and Smith, but the chances appear to preponderate decidedly in favor of the Democratic candidate. In the Harrison district one Whig is running against two Democratic candidates, but the general impression seems to be that the Whigs will lose the day. The eleven remaining districts have certainly returned Democrats to Congress. These results will create no surprise. They are but the legitimate fruits of the Gerrymander, and could hardly have been averted by any amount of exertion on the part of the Whigs. Our or ponents have reaped the full benefit of their scandalous and unconstitutional measures for the disfranchisement of the Whig party of Virginia, and as their consciences are of the toughest kind, we suppose they will enjoy their ill gotten gains with unalloyed zest and satisfaction. In respect to the elections for the Legislature, the political changes appear to have been more dications that parties will stand in the next General to the Fresident from distinguished gentlemen through-

VIRGINIA APPOINTMENTS.

The President has done something for the Virginia Democracy at last (says the Richment Wing) according to fresh rumors from Washington. We hope the telegraph has not been playing off another hoax upon them, for if so their sufferings will have become intolerable. They have lived in fond anticipation long grough—been tantalized between hopes and doubts until they had been well nigh driven to despair, and we trust that they have gotten something rather more substantial than fancitul imigrations to feed upon. They have received no Gabinet appointment nor full foreign mission, as they expected, but four out of the host of aaxious expectants have been provided for in of anxious expectants have been provided for in the way of small favors that may perhaps pay ex-penses. The lucky ones, is will be seen from the list of foreign appointments we published yester-day, are Shelton F. Leake, Commissioner to the Sandwich islands; Henry Bedinger, for Denmark; R. G. Scott, for Rio; and R. K. Meade, for Sardinia. Most of them struck considerably higher and those appointments are a considerable come flown, but we suppose they will be thankful for what they have got, inasmuch as it was very doubtful whether they would get any thing at all. We were told the Virginia Democracy did not want office. That was when the chances were extremely doubtful whether they would be able to get any. We shall see now if they do not take what they can get—such as they are. Our tewnsman, R. G. Scott, Esq., is considered as having drawn the prize ticket of the four, in getting the Consulship to Rio; but we are disposed to think that the Lieutenant Governor has been the most fortunate, in getting the commission to the Sandwich Islands. In view of the prespects of the annexation of those Islands to the United States, under the auspices of Progressive Democracy, and the fulfilment of "manifest destiny," he may some day become the Senator of the United States from the Sandwich Islands.— That consideration may be some comfort to the Lieutenant Governor in not getting the post it was understood he wanted. A Northern man got that. Mr. Meade, it seems, was also disappointed in not getting a full mission to Chili and was put off with a Chargeship to make way for an Ohio Democrat a take the Chili mission. Mr. Bedinger was more ortunate than the latter two-he, perhaps, expected but little and was not disappointed

SOMEWHAT DISAPPOINTED.

We should judge (says the Richmond Whig.) that he Hon. R. K. Meade and his friends are somewhat appointed over the post assigned to the ex-Congressman in the foreign appointments, or as they say, "no little chagrine I and mortified." They think it very doubtful whether he accepts so obscure a chargeship as that to Sardinia; and it is understood in Washington that he is in a pet over it. He had better have retained his seat in Congress. It is very probable that his old constituents would have sent him back, and thereby done more for him than the President. An Ohio Free-Mr. Meade of Virginia couldn't get it. The Southside Democrat is quite wrathy over it, and says: "By reference to the list of our newly appointed representatives abroad, it will be seen that the Hon. R. K. Meade has been assigned the chargeship to Sardinia. Whether he will accept, we know not. One thing is certain, that the appointment has occasioned in this city no little chagrin and mortification. Few men's names ever went before the executive for a high diplomatic station more powerfully backed and urgently supported than that of Mr. Meade. In addition to strong letters in his behalf from twelve of the fifteen of the Virginia delegation, and personal solicitation from both of our Senators in numerous than usual. We think from present in- Congress, numerous letters, unsought, were forwarded Assembly pretty much as they stood in the last.—
The following is a list of the losses and gains thus

out the South, entarging upon the means, to an important diplematic position. Such an appointment would have been hailed with general satisfaction inroughout the State—and so the Administration were assured from the lips of more than one reliable gentleman; but to such representations they have been induced to turn a deaf ear, and here cartailed the proportions of a full mission into those of a chargeship.

"Weindulge in these remarks in no faultfinding spirit. We simply speak of the expectation that Virginia was to be henored in the selection of one of her sons to carry

on important negotiations of our government abroad, and of the disappointment attending the same." THE CHARGE SARDINIA.

When the news reached here on Tuesday that Mr. When the news reached here on Tuesday that Mr. Meade had been appointed Charge to Sardinia, a shock of great surprise was felt throughout the city, and especially by Mr. Meade's political friends who calculated with great confidence on a full mission for him, and were greatly mortified to find that after so long a delay, the President had condescended to tender to Mr. Meade a half instead of a whole loaf of bread. The thing is certainly, well calculated to mortify Mr. Meade for there can be no doubt that he had reason to expect a full mis sion instead of a half one. But, "put not your faith in Princess," Mr. Meade is old enough to know, is a true maxim as the word of God can make it, and we con end bim to a calm and philosophical appreciation of it,

this consideration deters us from offering it, as we could with great sincerity.

But Mr. Monde is not the only appointed in the last batch from Virginia. Lieutenant Governor Leake, turning his eyes from the paltry honors of the Old Dominion, (!) has fixed them upon the more glittering hires of the Federal Government. This, if we are not mistaken, is the first instance of any man holding such an office under the sovernment of Virginia regions his mistaken, is the first instance of any man holding such an office under the government of Virginia resigning his post for the purpose of arraying himself in the livery of the Federal Government, and is a striking and melancholy proof of how rapidly the powers and attractions of the Federal Government, and overshadowing the influence of the States. Every man now who is ranked either by himself or his too partial friends above tenth rate, if he condescends to take a State office at all, takes it as a more stepping stone to a Federal post. rate, if he condescends to take a State office at all, takes it as a mere stepping stone to a Federal post. And we hear the Democratic party twaddling about State Rights—Resolutions of '93' '99, and relying upon them to bridle the Federal Government and check its progress towards unlimited dominion, while there is not one in a thousand of them who does not stand ready at any time to be a standard of them who does not standard on the standard of them who does not standard on the standard of them who does not standard on the standard of them who does not standard on the standard of them who does not standard on the standard of them who does not standard on the standard of them who does not standard on the standard of them who does not standard on the standard of them who does not standard on the standard of them. of them who does not stand ready at any time to leave the service of their State, no matter how honorable that service may be, to be the servant of Uncle Sam.

THE WHEAT CROPS.

We are sorry to observe as we did on our recent trip to Richmond, the irreparable injury done to the wheat crops, by the fly and joint worm in every county, along the road from here to Richmond. In some places, inthe road from here to Richmond. In some places, indeed, it is a perfect failure—there being scarcely a stalk left, to tell the tale of its destruction. What can our farmers do to arrost the ravages of these destructive insects? is becoming a frequent question. We know of no means, by which their destructive waves may be stayed; but hope that our good friends the farmers, will yet discover one. Let us have your opinions, gentlemen, if not your experience, upon this subject.

AGRICULTURAL INSTITUTE.

We have received a small pamphlet containing the announcement of an "Agricultural Institute and Chemical Academy," to be opened in Loudoun county, near Aldie, on the 1st of March, 1854. The object of the in-Addie, on the 1st of March, 1854. The object of the institution is a most praiseworthy one, combining as it does practical agriculture with the usual course of school tuition. The proprietors are Messrs. Benton and Gulick. We knew Mr. Benton, some years ago, as the Principal of a flourishing academy in Loudoun, and we cannot doubt his entire competency to manage an institution such as he proposes. We hope he will succeed. The terms for board, tuition, &c., &c., are \$200 per session of ten months. Soil analysed for \$20—Marl or other minerals for \$10.—Piedmont Whig.

andria, in Tuesday week, for the purpose of regu-larly organizing the Company. The Company have he most dittering assurance of the speedy compleion of the road, by a statement made to the meeting from a gentleman who represented the capitalists of New York. He stated that capitalists were will ling and ready to subscribe at once the required amount, with the State's subscription, to finish the road to the Shenandoah, and from that point they would build the road to the coal fields without the aid of the State. The following proceedings of the meeting we take from the Gazette :

The Sto kholders of the Alexandria, Londoun and Hampshire Railroad Company, heid their first meeting yesterday, at Sarepta Hall. The usual buisines attending an organization was transacted, and a very interesting discussion of the policy and prespects of Company took place, upon a resolution n relation to the surveys for a route, which was finally laid upon the table. Lewis McKenzie was unanimously elected Pres-

ident of the Company, and James McIlhany, of Loudoua, and George H. Smoot, of Alexandria, Directors on the past of the Stockholders. Messes, Robert H. Miller, of Alexandria Noble Braden, of Loadoun, and John Bruce, of Winchester, were appointed the Committee to examine nto the affairs and proceedings of the Company. and report thereon at the general meeting to be held in this place on the third Thursday in October

The by-laws of the Manassas Gap Railroad Cempany wete adopted, as far as applicable; and Messes Cassius F. Lee, David Funston, and A. Sidney Tabbs, were appointed a committee to report to the next meeting such changes therein as hev may deem expedient. THE LUTHERAN SYNOD.

The General Synod of the Lutheran Church in the United States assembled in this place on Saturday morningilast, according to the adjournment in the city of Charleston, S. C. three years ago. The Rev. Dr. Schuckers, the presiding officer of the last Synod took the Chair, and the Rev. Mr. Denn. filled the Secretary's place. The Synod, was permanently organ-ized in the afternoon, by the election of the Rev. Dr. BACKMAN, of Charleston, S. C., as President, the Rev. C. A. Hay, of Penn, Secretary, J. D. Martin, of Ohio, Assistant Secretary, and P. S. Mickler, of Pennsylvania, Treasurer. No other business of importance was done on that day. Previous to the morning adjournment, the Church Extension Society, formed in Frederick, Md., and proposing to raise \$50,000 as a ouilding fund, held a meeting, over which the Rev. Dr. Mobilis, of Baltimore presided. On Monday, there were several interesting discus-

sions on matters connected with the welfare of the Uhurch. Reports from the district Synods were received, and other important documents were procented and received. The district Synods of Western Penns Ivania, Northern Illinois and Texas were taken into connection, according to applications made to that effect.

Tue day Sue discussion upon the application for a connection of the Synod of India with the General who was terminated by the expression of a readiness to receive that Synod into connection whenever its delegates should present themselves. The diseasthe expression of the liturgy drew out expressions of opinion from several leading clergymen of the Church, but there was no decisive action in reference to the question.

The meeting of the foreign Missionary Society was held on Monday evening. A number of addresses were belivered, and a fine collection afterwards taken up. The Home Missionary Society met on Tnesday night and, after the delivery of the addresses, the splendid sum of \$1000 was raised by contibutions for life memberships, in addition to which there was supposed about \$100 in the boxes. Much of this success was owing to the ability with which the Rev. Dr. Kurra conducted this practical part of the proceedings .- Winchester Republican.

THE HESSIAN PLY.

We alluded last week (says the Staunton Spectater.) to the ravages of the fly upon the Wheat crop of this county. Since then, we learn that its dep edations are more general and destructive than we had supposed. It attacks every variety of wheat, some of which, as the Mediterranean, have more and who was accounted the dy, takes from the Abstract of the Seventh Cer us:

In 1776, there was entailed upon this country an enduring calamity, in consequence of the introduction of the Hessian or wheat fly, which was suppose I have been brought from Germany in some straw employed in the debarkation of Howe's troops, on the west end of Long Island. From that point this insect gradually spread in various directions at the rate of twenty or thirty miles a year, and the wheat of the entire regions east of the Alleghanies is now more or less intested with the larvæ, as well as in largesportions of the States bordering on the Ohio and Mississippi, and on the great lakes; and so great have been the ravages of these insects that, the cultivation of this grain in many places, has been abandened.

SMART, IF TRUE.

The Milwaukie Wisconsin relates the following as an authentic transaction of the managers of Rock River Valley Union Railroad :

"It is said that the agent of the company made a contract with an English house about a year since. He was to pay half cash and the other half in bonds of the road. How to pay the half cash was the question, and the company had no money. A lucky thought struck him-iron would probably advance. He ordered just double what the road would want; 500 tons instead of 250; 1,000 tons instead of 500 and so en. Half the iron, before its arrival, was sold to the Southern and Michigan Company for cash at a trifle under the price, by reason of the advance in iron, affording a small profit to the agent. Thus the English house was paid one half cash, and the road got what iron it wanted, and had a little cash left to pay for a f w miles."

AFFECTIVE BEREAVEMENT .- An industrious Irishman, residing in Bo-ton, had accumuntilated and saved money enough from his earnings, to secure and furnish a enug little terement, and to send for his family to come over and occupy it. They took passage in the ship Moses Wheeler, which arrived last week, after a stormy and tedious voyage, having then long and anxiously expected. Bay after day he had watched for their coming, until hope deferred had made his heart sick, when the welcome announcement that the ship had arrived reacted his, ears. He immediately proceeded to meet and greet his loved ones, and convey them home; but was met by the terrible announcement that his wife and six children had died during the passage over, and he was left alone! It is seidom that we are called upon to chronicle a sadder bereavement. Alas!

Mot Shor BY a Woman .- Mrs. Earnshaw, a woman considerably advanced in years, has been committed to jail in this county, charged with shooting a man named James King, residing near Crowlsville. The pistol was loaded with buck shot, and fourteen entered his right breast and arm. Mrs. Carnshaw is a married woman, but from all accounts does not live happily in the conjugal state. She went to the house of King in quest of her hisband, believing he was concealed in it, and insisted on seer hing it. To this King object d, and on her entering he thrust her out, when she turned on her entering he thrust her out, when she turned upon him, and firing the pistol, its contents lodged in his arm and side, inflicting dangerous wounds.

Two Young Men Drownen .- On Saturday afternoon a party of five young men belonging to South Weymouth were fi-hing from a small boat off Colasset, when one of the party caught a large cat fish and drew it into the boat. Another of the party in endeavoring to kill the fish by striking it with an our, store a hole in the bottom of the boat, which immediately filled and sank. Two of the party were drowned, and the others were rescued by another boat which came to their circumstance.

Company by the State. The case excited considerable interest, and there was quite an array of learned Counsel on both sides. For the Company, Messrs. Michie, Stuart, Fultz & Shands, and for the applicants, Messrs. Bald vin. Allan, Strayer. Bryan, Woodson and Harris. The Judge refused the application for the rule. The ground on which the application was based was, that the Directory, by requiring contractors to take a certain necessary. by requiring contractors to take a certain per cent-age of their contracts for work in the stock of the Company, practized a fraid on the State, and so'd the stock at less than its par value. The Judge, we are informed, decided that in eases of this sort the State must be a party, as the whole State is interested. DR. DE LAMEY'S CELEFRATED -

Carative Enstrument, THE only refallible cure for that dreadful discusse known as 8 sermatorrhea or Involuntary Nocturnal Emissions, so harassing and destructive of so much mischief of the ner rous system, incapacitating the man for business, society, and matri-

mony.

This Instrument is simple, comprehensive, and meter-failing, and riay be used without the slightest inconvenience or the knowledge of the most intimate friend. It is to be used externally, producing no pain or injury whatever, not preventing any one from attending to his business; and while in use not a single emission can take place, invigorating the organs, in a worst time, to such an extent that they regain their principles of releasing the loss of which, caused by early abuse, is the disease in question, and the sause of the thousand concomitant complaints, viz. Nervousness, Prostration, Dyspepsia, Pain in the Head and Dimness of Vision, Weakness of the Back and Lower Extremities, Affections of the Eyes, Impotence, Pimples of the Face, Premature Decline of Virility, Weakness of Memory and Power for Mental Application, Dejection, Avenion to Society, Timidity, Self-Disjection. Ave sion to Society. Timidity, Self-Distrust, Love of Solitude, &c. All these complaints invariably is ppear as s on as the source is stopped from which diev emanated.

This In transit has been examined and approv-

ed of by the dighest authorities in Europe and A-merica, is shoommended by the cost prominent Physicians of all countries, as the only certain remedy existing for those complaints, and has now completely superseded the use of drogs, the bougie eauterization, &c., not to mention the thousand advertised nostrums of the day, as cordials, anti-Be it also remembered, that those complaints are

but little understood by the profession in general, and that all the medicine in the world never has, and never will, stop those losses, which, if allowed to continue unchecked, are sure to produce the most distressing consequences.
It has been a matter of surprise to some, that any one of respectability and of professional attainments should devote his attention to diseases which people of every description pretend to cure so easily. If, however, but the one thousandth part of the miseries these people bring upon society were known, a very different opinion would be formed. And it is not only the present misery and dejection, preying on the mind as well as the body, that is deplored but some are of such a nature as to affect posterity, and even to destroy the reproductive faculty, altogether. It is a fact that, when not preperly treated, they may remain so dormant in the constitution as to appear in no other way than in their effects upon posterity; yet, if properly understood, are most easily and speedily removed. The above, so in-

a great measure, contribute to check the evils of quackery, so prevalert in this class of diseases, throughout the Union. The price of the complete instrument, carefully secured against all observation in a box, is only \$10. It can be sent, by express, to any address in THREE most illustrious Statesmenany part of the United States, Canada, &c., according to order, accompanied by full directions, the expenses, even to the remotest parts of the country, being very triding. The unexampled success this Instrument has obtained since its introduction in America, has induced some unprincipled persons in New York, Philadelphia, Albany, Boston, &c., to get up some

geniously contrived instrument, will doubtless, in

ridiculous things, called "Instruments," which, men. however, bear not the slightest resemblance, neither. TRICOPHEROUS, or Medicated Compound I for beautifying curling, preserving, restoring, and strengthening the hair, relieving diseases of the skin, caring rheumatic pains, and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief .-Professor Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order in quantities of from half a gross upwards, during the year 1852, was within a trifle of

It is unnecessary to present at length the evidence of the wonderful properties of the tricopherous when the public have furnished such an endersement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation tle advertised itself. The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States four d they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind. From the above analysis the waters of Shannondale inzy very properly be classed among the Saline Chalybeates-a combination of the most valuable description in the whole range of Mineral waters. It may therefore be positively asserted, without eraggeration or fear of contradiction, that no mineral water within the limits of the United States, possesses the same constituent parts, or is a more salutary and efficient purgative than the waters of Shannondale Springs. This water acts as gently as the mildest aperient, without giving rise to those unpleasant sensations of pain and de-bility so often occasioned by ordinary cathartics, prepared by the most skillful physicians.

The free use of this water, acts almost immediately upon the skin and kidneys, temoves worms, relieves the convalescent from bilious or other fevers, dyspepsia, dropsical swellings, calculous affections, hemorrhoids, scrofula, indigestion rheumatism, loss of appetite, exhaustion, general debility, gravelly concretions, strictures, and a variety of other diseases to which man is subject, and it is freely acknowledged by all who have been afflicted with any of the above diseases that the free use of Shannondale waters have effected permanent cures. Stabler's Diarrhea Cordial

1S a pleasant Mixture, compounded in agreement with the rules of Pharmacy, of therapeutic agents, long known and celebrated for their peculiar efficacy in Curing DIARRHEA, 4 similar affections of the system. In its action, is allows nauses and produces a healthy condition of the LIVER, thus removing the cause at the same time that it cures the disease.

The valuable Medicines above named have recently been introduced, with the approval of a number of the Medical Profession in the city of Baltimore and elsewhere, and in practice have succeeded most admirably in curing the diseases for which they are prescribed. They are offered to the Country Practitioner, as medicines which he can in all respects depend upon, as prepared in agreement with the experience of some of the most learned and judicious Physicians, and strictly pecially serving his convenience, who cannot so readily as the City Physician have his own prescriptions compounded by a practical Pharmaceutist.

See the descriptive Pamphlets, to be had gratis of all who have the Medicines for sale, containing recommendations from Doctors Martin, Baltzell, Addison, Payre, Handy, Love, &c.
Doct. S B. Martin, says "I do not hesitate to recom-

John Addison, says "It gives me much plea-sure to add my testimony to that of others, in favor of the Extraordinary efficacy of your Diarrham Cordial." &c.; and of the Expectorant, "I have no hesitation in recommending it, as a most valuable medicine," &c. Doct. R. A. Payne, says he has used the Diarrhea Cordial in his practice with the happiest effect, and thinks it one of the most convenient and efficient combinations ever offered to our profession " Doct. L. D. Handy, writes, "I have administered your Anodyne Expectorant, in several cases of Bron-chial affection, with the most happy results, and from a knowledge of its admirable effects, I can with the greatest confidence recommend it." §c.

Doct. W. S. Love, writes to us that he has adminis-

Bronchitis for fourteen years, and that she is fast re-covering from her long standing malady. It has in a few weeks done her more good than all the remedies she has heretofore used under able medical counsel. Sixteen of the best Apothecaries and Pharmaceutists in the City of Baltimore, write "We are satisfied the preparations known as Stabler's Anadyne Cherry Exectorant and Stabler's Diarrhaa Cordial are med cines of great value and very efficient for the relief and cure of the diseases for which they are recommended, they bear the vidence of skill and care in their preparation and style of putting up, and we take pleasure in recommending them.'

His great success in those long standing and difficult cases, such as were formerly considered incurable, is sufficient to commend him to the public as worthy of the extensive purrouse he has received. Within the last eight years Dr. S. has treated more than 21,500 cases of Private Complaints, in their different forms and stages; a practice which no doubt exceeds that of all the other physicians new advertising in Baltimore. and not a single case is known where his directions strictly followed, and medicines taken at reasonable time, without effecting a radical and permanent cure; therefore persons afflicted with diseases of the above nature, "no matter how difficult or long standing the case may be," would do well to call on Dr. SMITH at his effice, No. 16 S. FREDERICK ST., and if not effectually relieved no remuneration will be required for his services. His medicines are free from Mercary and all numeral poisons; put up in a neat and compact form, and may be taken in a public or a private house, or while travelling, without exposure or hindrance from business, and except in cases of violent inflammation, no change of diet is necessary.

STRICTURES Dr. Smith has discovered a new method by which he can cure the worst form of stricthre in a very few days, and that without pain or in-convenience to the patient. Irritation of the urethra, of prostrate gland, or neck of the bladder, is sometimes mistaken for stricture by general practitioners

or charlatans, and others afflicted with Seminal Debility, whether originating from a Certain Destructive Habit, or from any other cause, with the train of bodily and mental evils which follow, when neglected, should make an early application, thereby avoiding much trouble and suffering, as well as expense. Zollickeffer? Anti-Rhoumatic Cordial.

For the Cure of Deflammatory and Chronic Phenometric Gout, Neurolpia, Sciolica, London St., Sc., Sc.

OF ail diseases incident to the human family, there is none perhaps which occasions so much intense suffering and physical disability, and none that appears to elicit so little commiscration and sympathy as Rheumatism in its various modifications. Medical writers and the faculty in general have entertained different views as to the cause of this spinful maintage and hance the various of the cause of this painful malady, and hence the variety of com-pounds of one kind or other, which have been prepounds of one kind of other, which have been presented to the public as curatives. This is a preparation originating entirely with the subscriber and he can therefore recommend it as perfectly safe, as well as efficient, being wholly free from any deleterious substance whatever. As proof of its valuable efficacy, read the following certificates:

March 22nd, 1850.

Respected Friend : About four years ago I was attacked with Inflammatory Rheumatism to a degree that it involved my whole body with an amount of pain that I was unable to walk, or even help myself. Having heard of thy Anti-Rheumatic Cor-dial, I procured a bottle of it, and before I had inken half of it, I was able to attend to my ordinary business, and have remained free from the diseass
ever since.

DANIEL McCARTHY,

92 Swanson st, below Almond, Phil.

Harpers-Ferry, Va., August 27, 1851.

Mr. Zollichoffer - Dear Sir: It affords me great Zollickoffer's Rhenmatic Cordial. Having been afflicted with Rheumatic Gout, or as it was termed by some physicians, Inflammatory Rheumatism, for the last ten years of my life, almost without intermission, and the pain was greatly increased by the prevalence of wet weather, so much so, as 'o ie almost insupportable: furthermore, I was frequently confined to my bed for three months at a time -After having tried various physicians and remedies without number, I was induced through a friend to try your invaluable medicine, and I am happy to inform you, that after taking one bottle, I feel perfectly well of Rheumatism, and I also find

that my general health has been much improved.

Very truly yours,

Harpers-Ferry, Nev. 14, 1851.

I take great pleasure in testifying to the excellent qualities of Mr. Zollickoffer's Anti-Rheumatic Cordial, in effecting what is claimed for its Cordial, in effecting what is claimed for it. I was prostrated with Rheumatism so as to be entirely unable to attend to my business, and indeed could scarcely walk or move. Soon after I commenced the use of the Cordial, I felt its beneficial effects upon my system, and non find that it has well nigh eradicated the disease. I walk with ease, the swelling and stiffness has gone out of my limbs, and I feel assured that I shall soon be free from the dominion of my enemy. JOI: N J. ALLEN.
Being familiar with the facts above stated I subscribe myself, C. W. BUTTON, P. M. Prepared only by Henry M. Zolliekoffer, corner of Pine and Sixth street, Philadelphia; and sold in bettles, \$1 each, by T. D. HAMMOND, Harpers-Ferry. Va., upon application to whom, numerous certificates of its efficacy can be seen. February 17, 1853.
