The piece passed off very well, eliciting much applause, and enlisting the sympathies of the audience in behalf of Tell, as they took'several occasions to cheer the patriot on. When the shooting scene came, great excitement was manifested among the group of the hardy sons of Kentucky-they began to think the thing was real. MASONIC CELEBRATION.

Friday last (says the Stassten Vindicator) was the day set apart for the dedication of the new Masonie Hall and the laying of the corner stone of the Latheran Church about to be erected in our tows. A large number of persons was drawn together to witness the imposing ceremonies, many of them from a distance. It was a galaday and mirth and hilarity abounded. We regret our inability, being pressed for time, to give a more perfect sketch of the interesting ceremonies. It was a proud day for that time-honored Fratemity, the Masons. The M. W. Grand Lodge of Va. was opened in ample form at the old Masonic Hall by the Grand Master, M. W. EDMUND P. HUSTER, assisted by D. G. Master Leitch. The procession numbering about 200 was then formed by the Marchail, R. H. Kinney, Esq., and proceeded to the new Masonic Hall, where the solema ceremonies of the Masonie dedication were performed by the Grand Master. The colks were sung by a choir under the leadership of Messrs. Engelbrecht and Price, which added in no small degree to the impressiveness of the occasion. After the dedication, Levi L. STEVENson, Esq., the orator, selected for the occasion by Staus ton Lodge, delivered an address which received the most marked attention from the large audience assembled in

GEN. PIERCE'S APPOINTMENTS.

If any evidence was wanting to show that the Demo erats were disaffected at the appointment of Free Soil Ceoliticaists to office, we find it in the zeal and assurance with which some of their presses dear the fact, and in the testy, passionate paper in which others treat those who show conclusively that such appointments have been made. The Washington Union, Gen. Pierce's organ at Washington, Cenies the faci; his organ at Concord, New Hampshire, not being able to demediately at the junction of the Winchester with the | ny that such appointments have been made, a tempts to Baltimore & Ohio Railroad, and at which all the pas- | whip those into the traces trio murmur; while the sengers by the former and the Western train of the | Lowell Advertiser, a waspish little paper, and lesser light in the Democratic firmament, falls to abusing every one who has the independence to spread the facts before the public. All this clearly shows that they are all sensible that Gen. Pierce is pursting a course which will not stand the test of examitation .- Boston Atlas.

WHAT CAN THE MATTER BE!

Mr. Coxley, a member of the State Schate of New York, has been walking right into his democratic brethren of the softshell sub genus, with an ardor of truth-telling quite above his affection for the prejudices of party attachment. After complimenting a brother Democrat as being the perpetrator of "a branen outrageous barnburner lie," he turns towards the fleshpots of Egypt, and with commendable cand r says that " it seems to be the policy of Pierce to lavish most of his paironage on those who have labored to create dissension between the North and South-or political regegades, to the neglect of faithful national democrats."

The Union having descanted most loftily on the complaints of the Whig Press" of Gen. Pierce's appointments, is "took up rather short's by the Evening Post, as follows:

"We have heard nothing of any Whig com-

plaints about the administration, except from the Washington Union. That print has been laboring with superfluous zeal for some time to make the country believe that the President has about as much as he can do to get alogg against the current of opposition which the Union is helping him to stem. The fact is no better exidence of the strength of the Administration could be required than may be found in the slightness of the impression which the Union's constant defence of it has produced upon its popularity. We do not see out it is just as strong now as it was before the Union commenced telling the country, what nobody else had heard of, or would even have suspected, that the Whig press of the country was making terrible ravages upon its character. We remember once to have heard a famous wag of this city say, during the closing year of Tyler's Administration, that he fel that his country was safe, for, said he, 'a Governmen that can stand such a President as John Tyler, can stand any thing.' We might say with equal propriety, that an Administration that can st and the kind of support that President Pierce has been receiving of late from the Union, is equally levend the reach of danger

If Mount Vernon were nearer the Capitol, so that it might be made a resort similar to the Jardin Mabille or the Chateau Rouge, where gatlantries might be conducted, of spring and summer afternoon, during the long sessions, sur la paide, we should greatly apprehend Congress would heartily approve the conversion, as likely to minister to their personal com-fort. In saying this, we speak of our Congressmen in the mass. Can we trest, then, that Mount Vernon will be bought by Congress hrough a patriotic impulse?"

We have heard from many other quarters a sim ilar account of "the private life of the law-makers of the country." Their public life is bad enough, in all conscience. It is deplorable that French morals should be introduced into a body which has neither the wit nor refinement of Paris to gild its festering corruption .- Richmond Mail.

PROPOSED PURCHASE OF MOUNT VERNON.

As our readers were apprised some days ago, an arrangement has been made for the sale of Mooat Verject that hallowed spet to the unworthy purpose of private speculation. The Petersburg Express says it is thought that the purchaser has barguined for it with the view of converting the home of Washington into a mere pieasure garden, where the indiscriminate public chance to see cocks fight and bears dance. however is contingent upon the refusal of Corress to

The Express doubts whether Congress will have soul mough to make the purchase, and sugge ts that, in case of its refusal, Virginia should take measures to possess the grave of her illustrious son. Was should rejoice to see this highly appropriate result, but we are reluctant to believe that Congress will have any hesitancy about the purchase. It is true, the majority of the members are in all probability incapable of appreciating the mer its of George Washington, but they are quite of making a show of a virtue which they do sot posess. The purchase of Mount Verson would give an opportunity to the speech makers to let off a great deal of superfluons gas, and to the whole body to actuire, at a cheap rate, a reputation for patriotism, good sense, and good-taste.—Richmond Mail.

A HAPPY BARRIEY.

The Washington Union in an article on the position of the Democratic party, after cologizing Hon. D. S. Dickinson, of New York, assumes that all branches of the party are now harmonionaly naited on the Baltimore platform, and says:

"There is no longer a Barnborner party'-there is no longer a 'State Rights party'—there is no songer a 'Constitutional Union party;' for all these terms are forgetten in the happy reconciliation which railed the entire organization under the banner of 'the Natirnal Democracy.' States long distracted by bitter feuds among former friends have become harmonious. answers to victory from every corner of the land; and the joint influence of Democratic principles and concert among Democratic brethren pervade and strengthen our

With regard to this assumption of the Washington organ, the New York Evening Post, a Democratic paper of the Barnburner stripe, says very constically? "It is understood that all the members of the Democratic party are to be taken up scriatum by the Union, from the highest unto the lowest, and placed fair and square upon the Baltimore platform, without regard to their kicks or struggles. We hope the refractory will see, by the case with which Dickinson has been rectified," that there is no use scratching and biting, and that party discipline is like spring medicine, and the sooner it is taken the better for all parties."

DISTRESSING OCCURRENCE.

The Bankirk Journal relates the narrow escape from death of a woman and infant who fell between the cars of the State Line railroad, while the train was in motion. The woman had sufficient pressure of mind to remain flat on the ground between the rails, holding the child in the same position; and when the drain had passed, the horrified passengers, who expected to behold the mangled remains of two human b dies, found both the mother and child unharmed. THE NEWSPAPER PRESS.

An able writer upon this subject (says the Richmond Mail.) has expressed the opinion that, without the facilities for conveying information which are afforded by the joint action of the great modern improvements in loco notion and printing, the existence of a Republican Government among a population so thinly scattered as ours, over so vast a territory, would have been entirely impossible. This is one of the benefits of the press. Every citizen is enabled to become a student of the theory of the Government, and also of every thing connected with its practical operation, with elections, with the day on which they occur, and with the princi ly, placed before the eyes of every man. A Congressional steaker delivers an address at twelve o'clock. At breakfast the next day he reads

it in the morning papers. The agency of steam carries it from the centre of the Republic to the exremities in a few days. There may be only a few hundreds who hear him in Congress, but his real audience is composed of twenty-three millions of people. Perhaps we should set this down as an evil of the press, for we question whether there would be so much speaking in Congress, were it not for the notoriety thus given to Congressional orations

There are no doubt many abuses of the power of the press, and it oftentimes proves itself as potent for evil as for good. There is much that is frivoous, mischievous, narrow, coarse and even brutal in a portion of the periodical press. But there is scarcely a single junroal in the land which does not contain valuable information and innocent entertainment. The newspaper gives both the body and spirit of the age. "It will be necessary that the top of the car, in-stend of being covered with boards, should be covered with thin cloth or canvass, through which any human head of onligary thickness, or skell, will penetrate with perfect ease. I would also suggest. as a further improvement, that a parachute be placed directly over the head of every passenger so that, in being fired up through the top into the atmosphere, he will find himself provided with one of those convenient title articles, used by all bat-loonists, for descending to the ground from any height, at pleasure."

MUSICAL VISIT. The "Ciclian Brass Band," of Martinsburg, Va., Mr. John H. Blondel Leader, paid our town a musical visit on Saturday evening last, and treated our citizens to a number of favorite airs, performed with great skill and precision. Their entrance produced quite a stir, and, as their wagon, drawn by four fine horses, moved down German street, the side walks were crowded with admiring listeners to the sweet sounds which fell upon the ear. Shortly after their arrival they were escorted to the room of the "Shepherdstown Brass Band." by some of its members, where a short time was spent in friendly char, when they returned with each other to the hotel of Mr. D. Entler, both Bands playing as they marched along, accompanied, by his time, with a large number of spectators. Arrived at this place, a very handsome boquet was resented to the Band by the Ladies, through A. R. Boteler, Esq., as an evidence of their high appreciation of the compliment paid our town. The remarks of Mr. B. were brief, but most appropriate and belining the occasion. He assured the Band that, although the flowers which composed the boquet might tade, the recollection of their visit would be perential. Mr. Blondel, upon receiving the bonet, observed that though the Band had no orator to give expression to their thanks in words, yet they could and were determined to discourse in return some of their best and most choice music. A number of cheers were given by the multitude pre- newspapers." sent at the close of the ceremonies of presentation, which, with other incidents of the visit, was of a truly pleasant and agreeable character throughout. As they were assured by Mr. Boteler, in his remarks, the "Shepherdstown Brass Band" will, we doubt not, repay our Martinsburg friends with a similar visit at an early day .- Shepherdstown Reg

EXECUTION OF JOHN S. WORMLEY,

LAW.

John S. Worniley was king at Chesterfield ourt-House, Va., on Friday last, for the murder of Althon? P. Roblett, his son-in-law. The exethe prisoner addressed for about a quarter of an our. He confessed the murder of Ropios, remarked that under similar circumstances he would repent the crime, and then gave the following account the facts which led to the unfortunale event: The evening of the fatal day he was in his yard with his gun, when Robiou was in the act of passing; and as he imagined the wagot was approaching the side of the road next to his nouse, the idea hashed across his mind that Robiou was about to dashed across his mind that Robica was about to stop and indulge in some abuse towards him and his family, as had been his practice. Without thought or deliberation he raised his gun and she him, and so in pulsive was the act that he did no raise the weapon to his aboulder, but fired without taking any aim from the eye.

Nor was it true that his daughter, Mrs. Robion, entertained any deadly hostility towards Robion, notwithstanding his gross abuse of her. Neither she nor Reed, or any other person, ever used any language or employed any efforts to stimulate him.

language or employed any efforts to stimulate him to the commission of the act, on the evening of that fatal day. And when, in an unguarded moment, be killed her husband, she exhibited the most profound sorrow, and showed all those tender feelings usual to the sex at the loss of a husband. He had taken a father's pains with his daughter, (Mrs. R.) and he telieved she was an injured woman. The remors put in circulation by her husband, Robiou, in relation to her intimacy with Reed, he believed to be false. In the presence of his God he selemnly daclared his firm belief in her entire virtue and into cence. In his (Wormley's) absence, Robiou, a than 45 years of age, had married his daughter, a girl of only about 14 years, without his knowl-edge; and such was the disparity in their years, that the state of things that followed might well have been anticipated. The charges which Robion had made and industriously circulated agains his daughter were too gross and indelicate for him to repeat, particularly in the presence of ladies, (the prisoner turning and painting to some females near the gallows) Those charges had been attempted to be proved, when the depositions in the divorce case were taken; but there was an entire failure to substantiate any of them. He had taken pains in rearing his daughter, and endeavored to nstil into her mind correct principles. He did not seek to alienate her feelings from her husband, or to produce a separation. He was ab-

sent when the marriage and when the separation took place, and Robiou had written a letter to his (Wormley's) sister, attributing the cause of their separation to Mrs. Wormley, the mether, and ex-pressing a wish that he, her father, would return, o bring about a reconciliation. He did return in July, 1850, with no feelings of resentment towards tobion or any other person in the neighborhood; for he had been absent long, and Robiou and Reed, and all in the neighborho d were then strangers to him. He admitted, however, that his feelings were mbittered against Robiou, in consequence of the gross charges he had made against his child-a aughter whom he loved and believed an innocent and injured woman. Only a week before the tatal Robiou came to his (W.'s) house to see his (R.'s) child, and while there repeated his charges, and declared that his (W.'s) house was a place of bawdyism. Such charges and language did excite him, he admitted, but it did not cause him to form a determination to take the life of Robiou. He also tunk occasion to expende James & Reed, who had been tried as an accomplice of his, from all participation in the murder. Reed, since

county, Va. and on concluding, he bade the specialors an affecionate farewell. In a few minutes after the drop fell, and his lifeless body was suspended in the air. He met his doom with extraordinary fortitude and

SINGULAR ADVENTURE.

In looking over an old journal we once met with a story which has such a striking moral that once read, it can never fade from memory. A young traveller entering a stage coach, found himself in the midst of half a dozen passengers, five of whom appeared to be men of extreme age, with bent forms and white flowing locks, the youngest of whom could not have seen less than four score years. The sixth passenger seemed to be much younger than the other five; there were fewer wrinkles upon his cheek: his hair was thick and but slightly sprinkled with gray; his form was robust and erect : there was a pleasant smile upon his still ruddy countenance; his voice was strong and cheerful, and, when he laughed, it was with a merry music that bespoke an easy year, 6 menths and 7 days. conscience, and awoke jocund echoes in every nook and corner of your heart.

Our young traveller observed that all his

fellow-passengers were a mild and happy aspeet and he determined to ascertain from them the secret of long life, and of a comfortable old age. The first, to whom he addrested an inquiry upon the subject, and who was apparently the oldest, told him that he had uniformly led a remarably regular and abstemious life, eating vegetables and drinking water. The second said that he had always lived like a fighting cock, eating roast beef and plum pudding, drinking champagne and brandy and water, and had gone to hed regularly tight for several years Every thing, he added, depended on regularity. The third old gentleman declared that he had prolonged his days by minding his own business, and abstaining from office-seeking; the fourth bad avoided all political and religious controversies ; the fifth had regularly gone to bed at sup-set and risen at dawn. The sixth and most youthful looking of the old men, astounded them all when they learned that he was by ten years the oldest man in the coach .-· How is it," exclaimed the young traveller in profound astonishment, " hew is it that you have thus preserved the bloom of existence? Your countenance is smooth and ruddy, while that of your judiors is sunken and furrewed; where you have one gray hair each of them has fifty; tell me, I beseech you, your secret of long life?" " It is no such wonderful mystery," said the old man. "I have drunk water and drunk wine; I have eat meat and vegetables: I have held a public office, and written a religious pamphlet; I have sometimes gone to bed at sun-set and sometimes at midnight . I have gotten up at sun-rise and at noon : but I have always paid promptly for my

Though the heart's dearest tres be riven; Though her body rests in earth's cold bed, Her spirit lives in heaven. OBITUARY.

Departed this life, on Saturday morning. June 5th Miss MARY VIRGINIA RAWLINS, daughter of Thomas Rawlins, Esq., of this place, aged 23 years and 19 months, In the death of this young lady it has been demonstrated tous most clearly, that "in the midst of life we are in death." For some time past she had been laboring under an affection of the heart, and so frequent and violent, sometimes, were the attacks of her disease, that her friends were in constant dread, lest she should e suddenly taken from them. But while there is life there is hope, and every means had been resorted to, both by her friends and physician, to arrest the progress of her disease; and so desided, ed the improvement in her health, that toth her self and friends had began to hope that she should see better days. On Friday evening she walke I out in company with a sister, to visit some of her as ociates, when she expressed herself as "feeling peter han she had done for eighteen mentl's past.' home about dusk, retired to rest, and soon fell into a sweet slumber; but about 10 o'clock, was taken with another of those severe acticks. During the whole of the night, every thing possible was done to relieve her, but in vain; and about S o'clock on Saturday morning exhausted nature gave way, and she sank beneath the power of the destroyer.

She is gone but we sorrow not as those who have no She is gone—but we sorrow notes those who have an hope. About eight years ago she gays her heart to God, and experienced the perdon of her sins; she intendiately united with the Methodist Episcopal Church, through whose influence she had been brought to Christ, and continued as assistent as other thereof, maintaining the confidence of all, until she left us to join the church in Heaven. TO THE PUBLIC

In the "Spirit of Jefferson," of April the 26th and May the 3d, 1853, I offered to the public what I call a Check, or Rubber, to be used on Canal Boats. And in order to be able to smitall classes of Boats I now offer two more which I shall describe as briefly as possible. And first, On each side of the Boat is a rubber, bolted fast by one end, so as to open and close when required, withle which, is an Iron Sentcheon allowing the troud tarob the Mason-work of the look; Vertically to which is an Iron rod passing up through the fruders of the Boat to the top of the deck. On the top end of the rod is a lever, working like the valve in the purpose. Another has its rubbers belied fast to the Boat as above described, with its levers working on the deck, and entering a wedge under the rabber so as to produce the required operation .-the bulk of the Boat or ressels but operates entirely on the outside, effecting what is required by a direct and easy force. The above Checks are now ready to be applied to use, by Mr. Saw't W. Struder, Agent for the

A Blacksmith Shop is being erected on the wharf at the Old Furnace, where all orders for the above articles addressed to the aforementioned agent, will be promptly attended to. JOHN BARNETT. June 23; 1853 I will also mention here, that I have invented

a fixture which may be termed an ALARM, to prevent the collision of trains on Rail Roads. It consists of a piece of Mechanism operated on by the motion of the train, and a driver passing up through the Rail its machinery runs under the track, and will strike an Alarm, or point to figure indicating the distance that the train is from the place of stopping. The Bell to strike the alarm on, or the board with the figure on to tell the distance, may be placed in a house or on a bridge, or any other secure place that the company may elect. They may with safety be placed the entire length of the road, and so arranged as to tell at all times where the trains are passing. This being something of great importance, I wish to experiment on it more

THIS health-giving and beautiful Watering L Place will be under the personal superinten-dence of the undersigned during the coming Sum-mer, who will use every effort in his power to render it one of the most attractive and agreeable watering places in Virginia. It is situated on an elevation or spur of the majestic Blue Ridge Mountain, in the county of Jefferson, five miles south of trust on the premises. RICHARD H. LEE, Charlestown the county seat.

Passengers leaving Baltimore or Washington by the morning train of cars, will arrive at Harpers-Ferry at half-past 11 A. M., from thence in the Winchester and Potomae Railroad cars, ten miles

to Charlestown, where a twelve-passenger Coach will receive and convey them into Charlestown, and if desired to the Springs to dinner, over a good road and through a lovely country. The Analysis made by the late Dr. De Butts from 100 grains of the water from the main fountain, afforded 63 grs. of Sulphate of Lime, 101 grs. DR. DE LANEY'S CELEBRATED Curative lustrument, THE only infallible cure for that dreadful dis-Lease known as Spermatorrhea or Involuntary

of so much mischief to the netwoon system, incapa-citating the man for business, society, and matti-This Instrument is simple, comprehensive, and never failing and may be used without the slightest inconvenience or the knowledge of the most intimate friend. It is to be used externally, producing no pain or injury whatever, nor preventing any one from attending to his business; and while in use not a single emission can take place, invigorating the organs, in a short time, to such an extent that they regain their primitive power of retention, the loss of which, caused by early abuse, is the disease in question, and the cause of the thou and concomitant

complaints, viz : Nervousness, Prostration, Dyspepsia, Pain in the Head and Dimness of Vision, Weakness of the Back and Lower Extremities, Afections of the Eves, Impotence, Pimples of the Face, Premature Decline of Vivility, Weakness of Memory and Power for Mental Application, Dejection, Aversion to Society, Timidity, Self-Distrust, Love of Solitude, &c. All these complaints invariable disappear as so on as the source is stopped from which they emanated.

This Instrument has been examined and approved of by the highest authorities in Europe and America, is recommended by the most prominent Physicians of all countries, as the only certain remedy existing for those complaints, and has now completely superseded the use of drugs, the bongie, cauterization, &c., not to memion the thousand advertised nostrums of the day, as cordials, anti-

dottes, &c., &c. Be it also remembered, that those complaints are but little understood by the profession in general, and that all the medicine in the world never has, and never will, stop those losses, which, if allowed to continue unchecked, are sure to produce the most distressing consequences. It has been a matter of surprise to some, that any

one of respectability and of professional attainments should devote his attention to diseases which people of every description pretend to cure so easily. If, however, but the one thousandth part of the miseries these people bring upon society were known, a very different opinion would be formed. And it is not only the present misery and dejection, preying on the mind as well as the body, that is deplored, but some are of such a nature as to affect posterity, and even to destroy the reproductive faculty, altogether. It is a fact that, when not properly treated, they may remain so dormant in the constitution as to appear in no other way than in their effects upon posterity; yet, if properly understood, are most easily and speedily removed. The above, so in geniously contrived instrument, will doubtless, in a great measure, contribute to check the evils of quackery, so prevalert in this class of diseases throughout the Union.

The price of the complete instrument, carefully secured against all observation in a box, is only \$10. It can be sent, by express, to any address in any part of the United States, Canada, &c., according to order, accompanied by full directions, the expenses, even to the remotest parts of the country, being very trifling.

The unexampled success this Instrument has oba young clergyman, it is theighboring town, who, after having come exhed preaching on a warm Sunday, lost his a mon rather suddenly and unexpected you A gust of wind swept through the aislast of the church, took which are as similar to them as night is to light. tained since its introduction in America, has inwhich are as similar to them as night is to light -Every attempt to sell such 'Instruments' for mine of the window Two cacons gave chase, and after a half hour's result, returned with the last leaf only of the windering document, the remainder having estaped from them entirely. Old Things done away and all things become New. THE subscribers respectfully call the attention 1 of the Farming community to their very large

Farming Implements, comprising every kind of implement used by the farmer to tacilitate and cheapen his operations, inluding our celebrated Patent Premium Thresher and Cleaner,

which received the first premium over the New York Pitt Machine and several others at the Maryland State Agricultural Fair last fall; also, at the Washington County Fair, Hagerstown, Md., and at our Valley Fair, Charlestown-which for simplicity, durability, and capacity, has no equal in the world. By a recent improvement we can make the machine clean all kinds of grain perfectly clean for market, taking out all cheat, smut, and ligh wheat if wished, saving altogether the use of Wheat Fan; thus saving the farmer two-thirds hi expense over the common thresher, requiring but eight hands and from six to eight horses to thresh from 200 to 400 bushels per day, perfectly clean for the mill. This has never been accomplished by any other machinist but ourselves, and all scentive minds can have their doubts removed by trying one and if they cannot do what we have represented we will take the machine back without charge. Within the list eight years Dr. S. has treated more than 29,500 cases of Private Complaints, in their different forms cases of Private Complaints, in their different forms and stages; a practice which no doubt exceeds that of and stages; a practice which no doubt exceeds that of all the other physicians now advertising in Baltimore, and not a single case is known where his directions strictly followed, and medicines taken at reasonable time, without effecting a radical and permanent cure; therefore persons afflicted with diseases of the above nature, "no matter how difficult or long standing the case may be," would do well to call on Dr. SMITH of his class. No. 16 S. FREDERICK ST. and if not at his office, No. 16 S. FREDERICK ST., and if no effectually relieved no remuneration will be required for his services. His medicines are free from Mercury and all mineral poisons; put up in a neat and compact term, and may be taken in a public or a private house, or while travelling, without exposure or hindrance from business, and except in cases of violent inflam-mation, no change of diet is necessary. STRICTURES Dr. Smith has discovered a new ethod by which he can cure the worst form of stric-

convenience to the patient. Irritation of the urethra, f prostrate gland, er neck of the bladder, is sometimes mistaken for stricture by general practitioners. or charlatans. YOUNG MEN and others afflicted with Seminal Debility, whether ginating from a Certain Destructive Habit, or from my other cause, with the train of bodily and mental evils which follow, when neglected, should make an early application, thereby avoiding much trouble and suffering, as well as expense. And efforts rift be made to obtain seeds from every part of the United States and from Foreign Countries. In addition to two commodious dwellings already on present year. The Latoratory will be furnished with an extensive collection of the largest, the andsomest and best apparatus in the United States. The museum will contain Geological specimens, Minerals, Fossils, Shell and also Models Draughts and Catalogues of Agricultural Machines, Implements and Tools. And for the convenience of making and repairing apparatus a workshop will be fitted up with Turning Lathe, Stide Rest and all necessary tools for working in wood, iron and brass. Full courses of Lectures will be delivered, which will be illustrated with several housand useful and interesting experiments. The instruction will be thorough and practical, embracing Mathematics, Mechanics, Chemistry and other branches of Science and Art, in their application to Farming and Farm purposes. Particular attention will be paid to Agricultural Chemistry-Preparation of Pure Chemicals-Man-

agement of water courses-Principles of irrigation -Analysis of Soils-Construction of Farm Buildings-Estimates of Lumber-Planting, Budding, Grafting, Pruning and cultivation of Fruit Trees -And in fine every thing important to the practical farmer and men of business. To complete the designs of this Institution will require an outlay of 40 to 50 thousand dollars, and f it receives that patronage which is hoped for and spected, no expense will be spared to make it the best institution of the kind in the World. If now the advocates of improvement are really in earnest they will take this enterprise by the hand and help it along, by giving a good list of students at the commencement. It is hoped that every county in the State will send at least one student the first session. And that the different Agricultural Societies will ascertain how many students can be sent from their respective districts and forward a list of the same by the 1st day of December next.

The Institute will be opened for the reception of Students on the 1st of March, 1854. Terms, including all expenses except Books and Stationery \$200 per session of ten months. Dear Sir : For three years I have been afflicied with a Cough, so distressing that I frequently dispaired of recovery; much of the time I was obliged to sit up all my chair, as my cough would sufferate me when I had down. Having used many remedies without much relief, I at last tried the CHERRY PECTO-RAL which under Providence has cured me altogether,

I am with gratitude yours, , JAMES M'CANDLESS. This isone of the numerous Cures of Asthma which Lave been accredited to Cherry Pectoral.

ALBANY, N. Y., April 17, 1848.

DR. AYER, Lowell. Dear Sir .- I have for years een afflicted with Asthma in the worst form, so that I have been obliged to sleep in my chair for a larger part of the time, being unable to breathe on my bed. I had tried a great many medicines, to no purpose. until my physician prescribed, as an experiment, your Cherry Pectoral.

At first it seemed to make me worse; but in less than a week I began to experience the most gratifying relief from its use; and now, in four weeks, the disease is entirely removed. I can sleep on my bed with com-fort, and enjoy a state of health which I had never ex-pected to enjoy. GEORGE S. FARANT, Commission and Forwarding Merchant.

Zollickoffer's Anti-Rheumatic Cordiel.

For the Cure of Inflammatory and Chronic Rhamation Rhammatic Gout, Neuralges, Scialica, Lumbago, &c., &c., &c. OF ail diseases incident to the human family there is none perhaps which occasions to much intense suffering and physical disability, and none that appears to elicit so little commiseration and sympathy as Rheumatism is its various medifica-tions. Medical writers and the faculty in general have entertained different tiews as to the cause of this painful malady, and hince the variety of com-pounds of one kind or other which have been presensed to the public as cure aves. This is a preparation originating entirely with the subscriber and he can therefore recomment it as perfectly safe, as well as efficient, being whiley free from any deleterious substance whatever. As proof of its valuable efficacy, read the following certificates:

March 22nd, 1850. Respected Friend: About four years ago I was atacked with Inflammatory Theumatism to a degree that it involved my whole body with an amount of pain that I was unable to walk, or even help my-self. Having heard of the Anti-Rheumatic Cordial, I procured a bottle of it, and before I had taken half of it, I was able to attend to my ordinary business, and have remained free from the disease ever since. DANICL McCARTHY, 92 Swanson st, below Almond, Phil.

Harpers-Ferry, Va., August 27, 1851. Mr. Zallichaffer-Dear Sir: It affords me great easure to add my testimone to the beneficial effect Zolliekoffer's Rheumane Cordiel. Having been afflicted with Rheumatic Gint, or as it was termed by some physicians, Inflammatory Rheumatism, for the last ten years of my life, almost without intermission, and the pain was greatly increased by the prevalence of wet weather, so much so, as ofe almost insupportable : furthermore, I was frequently confined to my bed for three months at a time .-After having tried various physicians and remedies without number, I was induced through a friend to try your invaluable medicine, and I am happy to inform you, that after taking one bottle. feel perfectly well of Rheninatism, and lalso and that my general health has been much improved: Very truly yours, JOHN SELLERS.

Harper-Perry, Nov. 14, 1851. I take great pleasure in testifying to the excelent qualities of Mr. Zollickoffer's Anti-Rheumatic Cordiel, in effecting what is claimed for it. I was prostrated with Rheomatism so as to be entirely unable to attend to my business, and inde-c could scarcely walk or move. Soon after I commenced the use of the Cordial, I felt its beneficial effects upon my system, and now find that it has well nigh eradicated the disease. I walk with ease, the swelling and stiffness has gone out of my limbs, and I feel assured that I shall soon be free from the do-JOHN J. ALLEN. minion of my enemy. Being familiar with the facts above stated I subscribe myself, C. W. BUTTON, P. M. Prepared only by Henry M. Zollickoffer, corner of Pine and Sixth street.
