COOL AND CONSOLATORY.

We have not been disappointed in the course of things at the Armories. The shadow has been changed, but not the substance. The Ordnance Department still having the control, are, as we predicted, not likely to surrender their power as readily as some persons expected. We copy the following from a Boston paper. It is by no means encouraging to those who have labored for years to bring about a change. It is probable the same orders have been issued at Harpers-Perry : CHANGE IN THE ARMORY SUPERIN-

The tollowing Circular issued by the Superintendent of the National Armory at Springfield shows how little actual change will result from the change in the system of superintendence that has been so loudly clamored for. Mr. E. S. Allen, the present superintendent, in a manner highly creditable to himself, furnishes incontrovertible testimony to the excellence of the management of the Armory under his predecessor,

The editor of a Southern paper lately went off to get married, and left a friend in charge of his columns during his absence. The pro tempore editor, after four weeks' experience, gives a doleful account of the trials and troubles of the position .-After describing many of them, he says:

"But an editor "knowled are the tell you let the black" off your grocer 'till an other and a new coat has ing a new coat, but an editor for two yes by a desperate effort, we berieve him. THE NEXT GOVERNOR.

The scribblers for the Democratic prints continue to urge their favorites for the Gubernatorial nomination, although Governor Johnson has seventeen months to serve. A new name has been presented-that of James A. Sennon, formerly a representative in Congress from the Richmond dis. trict. It is pretty strongly intimated that these busy-bodies are over-acting their part, as the people are likely to take the matter into their own hands. Conventions are getting into disrepute, as ther are generally the work of managers who get themselves appointed. The Whigs, by common consent, will be able to present a man suitable for the position, without the agency of wire-workers The election will not take place vatil May, and

it will be time enough to put up the triumphant candidate in January.

FACING TO THE NORTH.

Many of the Democratic presses, now that Northern elections are at hand, are proving that the Nebraska and Kames bill is, in the language of Judge Douglass, a bill for freedom. They seem to think the South has "made nothing by the motion." So the whole country has been agitated; and the anti-slavery sentiment strengtheacd, by a measure that helps nobody but the profes-

The opponents of Dr. Gwin. one of the Senators whose term expires in March. are in favor of David C. Broderick. Other aspirants will no doubt appear before the next Legislature closes its session. For the information of our distant readers, we take pleasure in stating that we had a most glorious rain in Charlestown on Sunday afternoon last. Some hall also fell. The atmosphere has been greatly improved by it, and we have every reason to hope that all local cause for discase has disappeared.

SPEAKING OUT.

It is encouraging to find that some of the Dem ratic journals of the State, those that are not fed at Uncle Sam's erib have the indeper dence to speak out boldly in regard to those who are occupying high places. Speaking of Jone W. Ponney, the Lynchburg Republican says-"It is known to our readers that like all other

gentlemen we have a disgust for this individual.— The author of the Roberts letter was necessarily a dog. It would have been impossible for any man having the feeling, to say nothing of the principles of an honourable man, to have written that letter. There were however some crimes which we did not expect him to commit—not that he was too good to commit them, but that he was too cautious and too sensible. But it seems that we were mistaken in even our low estimate of him. He was caught towards the close of the session in an absolute alteration of the words of an act of Congress, and the act was admitted. Mr. Hunt, so outrageous was Forney's conduct, moved the following resolution. Col. Forney is the clerk of the House of Representatives as is known to our readers.

tatives as is known to our readers.

"Resolved, That John W. Forney, the Clerk of this House, by directing and causing to be made the alternation of House ball No. 342, entitled "An act to aid the Territory of Minnesota it the construc-tion of a railroad therein," mentioned in the report of the special committee of this House, has falsi-fied a record of this House is violation of the parliamentary law and of his sworn duty, and that he said John W. Forney, Clerk of the House of Representatives, should be, and is hereby, removed from the office of Clerk of this House.

For this resolution four of the Virginia delegation vote_ viz: Powell, Letcher, Caskie and Millson. The three first stand deservedly high in the confidence and affections of the Republican party— the last acted very badly and very ridiculously on the Nebraska bill, but he is said to be a gentleman Bench should have clean hands; it has remained and impure, what moral weight can his in the Nebraska bill, but he is said to be a gentieman in the private relations of life. We doubt not that all of the Va. delegation would have sustained all of the Va. this resolution but for the fact that the session was thin a few hours of its close, and they considered that even Forney was entitled to the benefit of a calm and dispassionate trial. We admit the force were those who voted against this resolution. We have not a doubt that had there been sufficiently time John W. Forney would have been removed from his office, and the Republican party rid of the odium attaching to his occupancy of the high position to which, in an hour of error, they elevated him. We hope that the next session this resolution will be renewed and carried.

We claim the right of speaking frankly of For-ney, or any other leading democrat. Particularly do we claim it under the present administration for at a time when it seemed that the whole South blinded by their just affection for D ckinson were about to array themselves against the administration, we vindicated it against the known position of many of our friends, and pointed out what we considered the wrong of such a course.

SICKNESS IN CHARLESTOWN.

We had occasion to visit, very recently, our na tive place, Charlestown. A mortality most dreadful and fatal in its effects, seems to have laid its withering touch upon almost every family. The dysentery in its worst and deadliest form has prevailed to a most alarming extent. Neither the vigor of youth nor the sternness of a more advanced age, has been able to withstand its vital grasp; both the young and the old have shared alike the same sad

The results of that excedition were published in this paper as drawn up by the explorer himself, and great stress was laid upon the discovery of this Pass, as being excellent in itself, and north of the Walker and the Tejon Passes, and therefore more in the straight line from St Louis to San Francisco, and opening directly into the rich San Joaquin Valley near the southern go'd mines. Col. Fremont judged that Pass to be about latitude 37; but the importance which be attaches to it as a point in the Central route to the Pacific Ocean induces him to go to it again to fix its position with a precision which the exhausted condition of his narry and resources did not admit of when he went through it .- Baltimore American.

BATTLE OF BLADENSBURG.

Forty years ago, yesterday, was fought the battle of Bladensburg, Maryland. The British, on that occasion, from a vast superiority of their numbers, were victorious; but their loss in killed and wounded was two hundred and forty-nine, while that of the Americans was but eighty. The troops of Gen-Ross burnt not only the Capitol, which was in an unfinished state, but its extensive library, records, and other collections, appertaining not to war, but to peace and civilization. The public officers, and the President's house were wantonly sacrificed, together with many private dwellings; the loss amounting to two million of dollars. These same British, however, were signally deteated on the 12th of September, 1814, when they made a desperate attempt to capture the city of Baltimore. It was during the bombardment, that Francis S Key wrote the soul stirring patriotic song of the 'Star Spangled Banner."- Wash Sent'l. of Friday.

AN EDITOR'S DISTRESS.

We have just ended a career of five years in the ablishing line, in this growing city, and we do think that gentlemen who have taken our paper all that time without paying for it ought now to think about forking over, if they do nothing more! We are a modest man, and can't dun either subscriptions, dues for advertising and job work, but we can tell our generous pairons how easy they could render our life, by enclosing us just what they owe us. We know it is for reflection they are at all in ar- day. If so, and they can be broken down by fifteen rears with us. Could they bear our better half scraping the bottom of our old meal tub-could they hear our little dog types crying for bread-aye, could they see our distressed condition, all creation rould not hold them back from paying up! When our man is tull, we write good humored articles - when our stomach is empty, we are mulish and ill na ur-ed, and say hard things. How could it be otherwise? Come, men, fork over, one and all, and we'll fork to those we owe: This may look to you like dunning, but if you could see us dodging from our creditors, because we can't face up, you would style this brief call the highest of modesty!

We noticed, in a Democratic paper, an art le declaring that "Massachusetts has faller into degradation." It accuses the "Whigs and Freesoilers" of that State with forming a co. I tion, an I says that the Democrats there are true as steel .--That is rich, when you come to think that these same "Massachusetts Democrats" have, for years, formed annual "coalitions" with these same "Massachusetts Democrats" have, for years, ling for them to come, and enjoy sachusetts Freesvillers" and that Chas. Sumner was elected to the United States Senate by the success of a coalition. That success was hailed as a great "Democratic triumph over Whiggery." Gircum stances, we suppose, alter cases.—Quincy Whig.

EFFECTS OF BATHING -It is said to be a fact re corded that during the visitation of cholera in France, out of nearly 15,228 subscribers to the public baths of Paris, Bordeaux, and Marseilles, only two deaths among them were ascribed to cholera. There does not exist a more effectual preventive of isease of every kind, and a greater promoter of pool, health at all times, than the practice of daily athing.—New Orleans Crescent.

PAGE COUSTY, August, 1854. Mr. Editor : In these latter days of mash room precity, many the many things which have spring into ce some appears to create some consternation than this new and unique order. Some Solemons ap-pear to know a great deal about them and to have ferretted out their enormous musticisms, and fully expounded their inhuman outles, obligations, intentions and illegations. I have supposed their sadden birth and nightly growth were too weak to withstead such deadly missiles directed by skilltul marksmen; but strange to accredit and wonderful to record, these sham rencontres only lend to expand their borders by awake-sing carionity and enlarge their numbers for the sake of knowledge and gratification of said ignited cariosity. It is producing unheard-of eractations among old for

To show how difficult it is to as ertain snything about them, I'll sketch my experience. Not long since as I was wending my was through some street, my attention was directed to a paper stuck upon a post, having a harrow and other rude apaped imelements, supposed to be a synonym of those preserved by Noah in the Ark! Upon the upper marg a I noticed "F. G." I looked and the more I looked the less I knew and the more my curiosity was aroused. I passed on, asking every body I met for information about the pesky thing! Some said "the harrow" was to rake out all the old fogies and revise the remainder," and some surmised it was to consolidate p-a-r-t-i-e-s ! The "F. G," I was informed, stood for "Free Government;"

while others staked "their lives, fortimes and sacred

honor" that it meant "Fat Girl !" I retired to my room in a state of high nervosity, with my curiosity several degrees above the boiling point, and not a whit wiser by my untiring investigations. I cogitated upon the (heretofore) unseen chirography and finally concluded it was no "leaf from Fanny Pern," but must have been obtained from Crusoe's laborezory and of this argument and can easily see how it could carved by his man Friday! In this conclusion I re-influence, as it did, as good and true democrats as mained in statusquo, until, lo and behold! another, and yet another of these carricatures made their appearance! This aroused my latent ideas and truly showed me the fallability of my supposed solution. By diet of querying and observation, I now learned it was a sign of Know-Nothingism!" "At 30 man suspects himself a foolknows it at 40," which case was somewhat triple, as I thought it foolish to enquire, and when I learned it was a notice of Know-Nothingism, I realized myself not only

foolish-but fooled! Determined to know more of them, I watched arrow ly the manageuvres of supposed ones, but soon they were equally as mysterious of demonstration as was their insignia. Some went this way and others another, and no one could ascertain where they convened for the performance of such deeds as caused wheel-horse demitgogues to "real to and fro," and young aspirants to "dream

It appears then, if the correspondent of the Spirit be orrect, (and we would not doubt him for a monient,) that this new party has been organized in opposition to the Know-Nothings. This is a declaration the great leader of the Iron Headed Democracy, (for we readily recognise the correspondent of the Spirit as such, by his rain bow of I quid fire,) would hardly make at home .-We know him to be a Democrat of some aspiration, and generally likes to steer clear of snags. It was hardis fair of our friend Beiler, thus to announce the fact-pasticularly, as the letter was not intended for publication, and as such opposition was positively denied at home. We were not more surprised than pleased, to hear of

their success, (they have now the 15 spoken of by the Republican.) Pleased, because I am, as you know friend Gallaher, a member of that party that had a Washington for its founder, a Clay for its defender, and a Faulkner for its reviler, and am not willing, as yet, to renounce all allegiance to it. As a Whig, then, I am pleased to see the Democracy of Clarke county come out before the world and acknowledge that they have no longer any confidence in the great Democratic party of Virginia. We are willing always to give up sive Whigs for fifteen Democrats; and if it be that these five Whigs have thus gone forward and sacrificed them silves for the good of their party, then their memory should be embalmed by their party, and their names recorded side by side with Clay and Webster. We are infirmed that this party is taking like a Western Prairie outlire, (this we are not inclined to dispute, in fact, we have they are taking, but what is it they are taking -we would

not like to say,) and we only fear they may be consumed in about the same space of time. But they say, they will first break down the Kany. Nothings. Ha! ha! Rich! decidedly good! Whe I really do bolieve they must be the veritable, genuite, natural born Know-Nothings. I have heard it said, but I know not with what truth, that these rescally Know-Nothings who have taken things into their own hards, and have elected none but horest men to office, are about as strong as either of the great political parties of the ken down Democratic Iron Heads, of White Post,

then they should go down forever and forever. Bat, Mr. Editor, we should feel some compassion these fifteen forlorn Democrats. Faulkner is to b He drove them out of their party when he jumped two years since. They then renounced and donose their party—and have been looked upon as stroys nince. All that I am afraid of is, that Faulkner hear of this fatal disease other has broken out in Democratic party of Clarke, and come down and put a stop to it, for he has no idea of the "great Democr. party" being broken en so soon after his entrance into it. In regard to the much abused Know-Nothings, against whose principles these Iron Headed Democrats so bit ly war, we can only judge of them by the men elect to office-against them no man can say a word. I have never understood that they were for exclude

He says that this is the first time he ever experienced such heat, at that distance, and never before hid he perspire when so far up. This shows that we have warm hearts and warm suns in Virginia. THE GREYTOWN AFFAIR

[Comments of the London Times]
We have never professed to consider the species of protecterate exercised by the British government for a long series of years over the Mosquito Coast as a possession of practical advantage to the interests or the honor of this country, and we learnt with great satisfaction about four years ago, that a treaty had been signed at Washington, by Sir Henry Bulwer and Mr. Clayton, the American Secretary of State, for the purpose of placing the communication between the Atlantic and Pacific Oceans by cation between the Atlantic and Pacific Oceans by way of Nicaragua under the joint protection of the maritime powers most interested in the prosecution of that undertaking. The spirit of that treaty was perfectly fair and just; and, if any exclusive rights had ever been claimed or exercised by the British government in its former relations with the Mosquito Indians, as far back as under the Spanish dominion over Central America, those rights were cheerfully, and, we think, wisely, relinguished in exchange for a positive engagement from the Uniexchange for a positive engagement from the Uni-ted States government that they would co-operate with ourselves in the only object which gives a pe-culiar value and importance to that part of the globe—namely, the opening of a secure line of com-munication between the two oceans, and the establishment of two tree ports for all nations at each extremity of the canal. For this purpose the commercial stations at which this transit trade is carried on would naturally become important free ci-ties, like the Hanseatic towns of Europe, having an political character or strength, but respected by

interests of society.

This being the principle which the British Government has for some time past proclaimed and actgua, with the full concurrence of the United States, it is with considerable surprise and regret that we learn that Greytown, at the mouth of the river San Juan, has recently been attacked and destroyed by one of the most extraordinary outrages ever committed by the commissioned officers of any civilized State. Greviown is not a British possession, if it had

been measures would have been taken to repel so wanted and barbarons an attack; but we have a Fifther States in religious Fasebox.—The this time no further interest in the place than that bars of Augustine and George Law, of Loudoun co. which results from the commercial under akings in which British subjects may be engaged there. It is impossible, however, to lose sight of the fact, which stands recorded in a solemn treaty, that Great Britain waived and relinquished her rights to the protectorate of the Mosquito Coast and of Greytown, its principal trading station, on the express stipulation with the United States that they would, in conjunction with ourselves, "guarantee the neu-

trality and security of the passage." The object of that treaty was to promote "the construction of the communication between the two oceans for the benefit of mankind, on equal terms to all, and for the protection of the same." It is certainly a most extraordinary violation of the spirit of that treaty that an American ship of was should have presumed, in defence of at best a very doubtful cause, to attack and destroy the principal com-mercial station on that very line of communication which the American Government is expressly bound to maintain and protect. The act of Cantain Hollins speaks for itself. It is, indeed, without a parallel in any history with which we are acquainted, for the place was wholly incapable of firing a shot in its defence, not a man was killed or wounded in the attack, and enterprise was one of mere destruction. The American papers from which we have extracted these details record them with the strongest expressions of shame and regret, and we cannot doubt that the public of the enlightened classes in the United States will condemn these procerdings as strongly as the judgment of every other part of the world. There is in this case no war and no prevocation to account for or to palliate such a measure.

Far from being at war with the States of Central America, the Government of the United States has always affected to regard them with peculiar interest; and the first proof given of this interest is an act of violence which would have disgraced a buccanier. Indeed, considering the species of protection established by the Treaty of 1850, and the engagements contracted by the United States towards this country and the whole world for the security of passage, this outrage of Captain Hollins' is a contempt of the authority of his own Government, and a gross breach of faith to every nation which may have mercan ile transactions carried on across the

Commissioner of Deeds. BLUE RUIN .- We verily believe that much of he sickness now prevalent in this and neighboring localities, is attributable to intemperate indulgence in poisoned whiskey. Much of the whiskey now sold about Staunton is a vile compound uefit to be taken into the stemach of a hog. A gentleman of veracity in this place, states that he recently purchased an empty whiskey barrel, for some purpose, and upon knecking out the head found in it two full grown twists of tobacco. We learn that it is common to find in those blue headed barrels any quantity of fish berries, and a white sediment in appearance resembling line. The whiskey is polsoned, and consequently those who drink it to excess die .- Staunton Specialor.

THE RAILRUAD CONVENTION, in session at the White Sulphur Springs in Virginia, was addressed on the 25th instant, by T. Dunn English, Capt. Morris, Judge Bayly, Ex-Governor Smith, and others; after whi h the business committee reported in part, that the Covingion and Ohio Railroad ought completed by the State, without delay; that the faith of the Stae is piedged for its completion; that the value of said road is enhanced by its light and favorable grades, and its connection with the James River Canal, the Central Railroad, the Orange and Alexandria Bailgoad, and the Kanawha river and its tributaries; that the James River Canal ought to be extended to Covington, and that the Kanaw-ha river ought to be improved to the highest practical point for steam navigation.

WINCHESTER AND STRASBURG .- The railroad meeting at Strasburg on Saturday was quite a spirited affair. A convention was called to meet at Winchester on the 3d Saturday of September text; and we hope it will be well attended. My Patent Premier Threshirg, Separating, Cleaning and Bagging Crain Machine, is for sale, which received the first premium at the Crystal Palace, New York, over all Threshing. Separating, Cleaning and Bagging Grain Machines on exhibition—thus proving conclusively that simplicity in construction, the apneas in price, and durability in my machine, is being fully appreciated and the old and new costly inferior complicated and the old and new costly inferior complicated separating Machines, must yield their places to a superior Labor Saving Machine. The celebrated Machine for Threshing, Separating, Cleaning twice, Screening and Bagging Grain by one simple operation. The greatest labir saving Machine in the world for separating all pure and impurities. This Machine throws the straw to itself the chaff to itself, the wheat in the bag, the screenings to itself, and the smut and chear to itself. Everything has a place and everything is in its place. to itself, and the smut and chent to itself. Everything has a place and everything is in its place to suit the conveniences of the farmer. For simplicity, durability, cheapness, and capperity, it has no equal in the world. As for what has been stated in the different papers concerning Mr. Zimmerman's Machine ecciving the first premium at the Crystal Palace, New York, he false, and not true. It is also stated but Mr. Zimmerman received a number of presidents. number of premittins at -- and other fairs. That I know nothing about perhaps he did; but it is very easy to win the race, as the boy said when he rar by himself. But the honorable friends, this was not the case at the World's Fair, New York. Mr. Zimmerman had a number of other boys to run with, besides himself, which made the race more difficult for himself, which made the race

VARIETY

An intinerant preacher recently travelled among the North-Western Counties of this State. He was mounted on an animal whose appearance betokened very bad keepingthe mere frame-work of what had once been a horse. Riding up to the door of a country inn, he enquired of the langlord the distance to the next town. The host coming out was so forcibly struck with the appearance of the animal upon which the querist sat that he walked around him twice before giving the enquired information. He then enquired : "Who might you be, if it is a fair question?"

'I am a follower of the Lord,' he answered. 'Follerin' the Lord, eh!' demanded the host. 'Well I'll tell you what it is, old fellow,' (eyeing the horse again) there is one thing sartin-if you stop often on the road, you'll never ketch him with that hoss!'

The Poughkeepsie Daily Press says As a dusty looking 'colored child' about 40 years of age, and from the country, was passing under the scaffolding of the building now being erected on the corner of Main and Catharine streets, the other day, a brick came down, struck upon his head, and broke in two. He was stunned for a moment, but soon recovered sufficiently to get off the following and leave those who had gathered around him in a roar of laughter: 'I say, you white man up dar, if you don't want yer bricks broke jes keep 'em off my head.'

A poor Irish woman applied a few a dime. Sinking on her knees, she devoutly thanked God, and then turning to Mr. Longworth, continued, and when in another world I see you in torment. I will remember your kindness, and give you a cup of cold water for this that you have done to me.' Mr Longworth felt more obliged for her good intentions than complimented by the anticipation of his state in futurity .- Cin. Col. A lady once consulted Dr. Johnson

on the degree of turpitude to be attached to her son's robbing an orchard. 'Madam,' said Johnson, 'it all depends upon the weight of the boy. I remember | Virginia, to Wit: my school fellow, David Garrick,-who was orchards with impanity ; but the very first | gust, 1854.

'Come down!' 'I will not!' was the rep!y. 'Then stop unt: I ask you a second time.' The gentleman having ne desire to retain his position till that period, came down from

the chair, and the party won the wager. A female member of Dr. S's church, having safely passed through her nineteenth accouchment, her husband sent the Rev. Dr. the following note to be read before the con-

'Mrs. A. having been safely delivered of her nineteenth child, she, with her husband, would return hearty and unfeigned thanks to the A!mighty God for his great favor, and humbly ask for a continuance of his blessings.'

His counsel tried to prove that the note was not worth five dollars, it being at a discount. The prosecutor said he knew that thief was the meanest man in the State, but he did not think he was so all fired mean as not to be willing to steal Indiana money at par. THREE DAYS' SIGHT -- A Frenchman, unacquainted with business, received a draft payable on three days' sight at a certain bank .-The first day he presented himself at the counter, and taking the draft from his pocketbook, extended it before the paying teller, and to his astonishment said, 'You see that once,' and folding the draft he walked away. The next morning he appeared again, and going through the same form, said, 'You'see that twice.' The third day he appeared

Chemical Academy. THIS is not a manual labor school; but it is called an Agricultural Institute, because thorough instruction is given in all branches of Mathematics and Science useful to the farmer and man of business. The students are not taught the theory only; but they are instructed in the practical application of their studies to the every daj affairs of life. They ero made acquainted with the phenomena or nature—taught the properties of the soil—the requirements of plants—the composi-tion of rocks—the properties of the atmosphere, &c. The advanced students receive practical inin the lecture room-in the laboratory and on the

struction in surveying farms—levelling water courses—laying out roads—making maps—analyzing soils—classifying minerals, &c. Agricultatal chemistry is thoroughly taught and illustrated by thousands of interesting experiments farm. The pare chemicals are prepared at the establishment. The work-shop is furnished with a ten years of age. In a word the invention needs furnace, turning lathe, and a great variety of tools only to ter working in wood and metal. Hence the stu-utility. dents have an opportunity of witnessing all the branches of mechanism from the felling of timber to the polishing and finishing of handsome and costly apparatus, every part of which is familiarly explained. Their attention is not confined to the class book; but they are taken into the laboratory, the work-shop, the garden and the field, and they are made to understand hundreds of operations which everybody sees but few can explain. The design of the Institution is to prepare young men At Kules held in the Clerk's Office of the Clivuit for business; and to ac omplish this desirable purpose neither pains not expense is spared in obtaining everything necessary for full and complete illustration. The course of instruction is varied to suit the farmer, the merchant and the engineer. The establishment is delightfully located and has all the advantage of purity of water, salubrity Barnes & Garrett. Thomas Boteler, Barton Bolof atmosphere and beauty of scenery.

The regular sessions commence on the first of October and end on the first of August. Young men wishing to enter as stadents should, if possibie, make application before the closing of the previous session Terms for the session of ten months \$200; one

hall payable in advance and the remainder on the 1st of March. This includes tuition, board, lodging, washing tuel and lights. The students in the classical department are charged \$20 per session extra; to be paid in advance. Sons of preachers and editors are charged only \$150 per session. MEDICAL HOUSE, No. 16 SOUTH FREDERICK ST. BALTIMORE, MD.

Established in order to afford the afflicted sound and sci-Dit. J. B. SMITH has for many years devoted his whole attention to the treatment of Private Complaints, in all their varied and complicated forms. His great success in those long standing and difficult cases, such as were formerly considered incurable, is sufficient to commend him to the public as worthy of the extensive patronage, he has received. Within the last eight years Dr. S. has treated more than 29,500 cases of Private Complaints, in their different forms and stages; a practice which no doubt exceeds that of all the other physicians now advertising in Baltimore, and not a single case is known where his directions were strictly followed, and medicines taken at a reasonable time, without effecting a radical and permanent cure; therefore persons afflicted with diseases of the above nature, " no matter how difficult or long standing the case may be," would do well to call on Dr. SMITH at his office, No. 16 S. FREDERICK ST., and if not effectually relieved no remuneration will be required for his services. His medicines are free from Mercury and all mineral poisons; put up in a neat and compact form, and may be taken in a public or a private house, or while travelling, without exposure or hindrance from business, and except in cases of violent inflammation, no change of diet is necessary. STRICTURES - Dr. Smith has discovered a new method by which he can cure the worst form of stricture, and that without pain or inconvenience to the patient. Irritation of the urethra, or prostrate glands double and single Carriage and Buggy Darness, or neck of the bladder, is sometimes mistaken for

stricture by general practitioners or chariatans. YOUNG MEN and others afflicted with Seminal Debility, whether originating from a Certain Destructive Habit, or from any other cause, with the train of bodily and mental evils which follow, when neglected, should make an early application, thereby avoiding much trouble and suffering, as well as expense. By his improved method of treatment, Dr. S. can safely guarantee a speedy and perfect cure in all cases of this complaint.

TO FEMALES. -All diseases peculiar to Females, (such as Suppressions, Irregularities, &c.,) speedily and effectually removed. The efficacy of his remedies, for the cure of the above affections, have been well tested in an ex-tensive practice for the last twelve years. PERSONS AT A DISTANCE may consult Dr. S by letter, post paid, describing case, and have medi-cine securely put up and forwarded to any part of the United States, always accompanied with full and ex-plicit directions for use. Communications considered strictly confidential. Office arranged with separate apartments, so that patients never see any one but the coctor himself. Attendance daily, from 8 in the torning till 9 at night. N. B. Persons afflicted with any of the above com-plaints will do well to avoid the various NOSTRUMS and SPECIFICS, advertised by Apothecaries and lruggists, as a certain cute for any and every disease. hey are put up to sell but not to cure, and frequently o much more harm than good, therefore avoid them A word to the wise is sufficient Address

ding our celebrated Patent Prenium Thresher, Cleaner and Bagger,

Which received the First Premium at the Crystal

Palace, New York, this making 10 Premiums in two seasons, in competition with the celebrated Separators of the day; proving conclusively, that simplicity in construction, cheapness in price, and durability in machine, is being fully appreciated and the old complicated costly separators must yield their place to a superior machine. This Machine, for threshing, separating, cleaning twice, screening and bagging. (by one simple operation.) all kinds of Grain—the greatest labor saving machine extant, for simplicity, durability, cheapness and capacity, it has no rivel in the world. It is capable of turning out, ready for the mill or for seed, from 300 to 500 bushels of Wheat per day, with 6 or 8 horses, and 8 hands—or from 500 to 800 bushels with 12 horses and as many hands, doing the work cleaner, and breaking less grain, than any machine now in use. This machine received the first premiums at the Maryland State Fair, Ba't. in 1852, and 1853; the Washington Co., Mi., Fair; Valley Agricultural Fair, of Va , in 1852 and 1853; the Rappahannock Agricultural Society, at Port Royal, Va; the first premium at the Illinois State Fair, 1853, at Springfield, and a Silver Medal at the Indiana State Fair, at Indianopilis, 1853. This machine is so simple in construction, that the one ian and shoe completely cleans and bags the grain, dispensing with all the complicated ma-STOCK OF GOODS chinery (and consequent liability of derangement) he has ever offered at this place, all of which has in all other separators, hus making it have desira-
