It is our opinion says the Globe, that not more than \$400,000, if that much, can be made out of the whole of the assets put down in the schedule ; and if so, the creditors must lose-largely, for the trustees admit that the company owes \$800,000. It is believed that it owes more than they know of. We have heard from what we consider good authority, that it owes the State of Virginia alone, that sum for stock it has received from her, disposed of, and made no refere. An elaborate opinion in the carnet Charles Wer-ner rs. the United States, on appeal from the judge-ment of B K. Morsell, E-q, a magistrate of the county of Washington, was the morning render-ed in the United States circuit court by Judge

Monselle. Under the late law of the Corporation of Wash-ington, forbidding the sale of "spirituous or fer-mented hignors, wines, cordials, and all other is-tomealing liquors, in quantities hes than a plat." Mr. Wetner, the treper sin favera, was condemns ed to endure the penalties imposed. The evidence and arguments in this case all familiar to the pub-ling, and the opinion of the court as index erlic; and the opision of the court, as to-day ex-presed, is to the effect that, under the authority conferred by our charter, the corporation has the power to license and regulate the various branches of trade, but not to prohibit any of them-that the power to license a pursuit implies permission and not prohibition, and that prohibition being the na-ture of the law in question, as it relates to laverns, which sell in quantities icss than a pirt if at all, it is null, though potential as to groceries and all de scriptions of ti, pling houses .- Daily Globe.

MANUFACTURE OF PAPER.

It is stated that a company is shortly to be formed in New York city for the manufacture of paper. from saw-dust and shavings Experiments have been gone into, and some of the most beautiful paper made from these materials. It is estimated that saw dust can be purchased for five dollars perton, and that the process through which it will go in the production of paper will bring the price of the latter down at least twenty per cent.

We should like to hear of an early consumation of such a result, for it is with great difficulty that . we can get paper at any price. Our paper now costs as \$1,50 per ream more than it did a year ago, and yet some of our pations gramble if we exer an o'errance of cur pilces Under such circumstances, we must not only adhere to our rates, but greater promptness in payment.

The Sale of Mount Vernon. Mr. John A. Washington writes to the Virginia Central Mount Vernon Association, that however willing he may be to sell the Home and resting place of the Father of his Country, to either Virginia or the United States, he is unwilling to dis-pose of it to that association. Mr. W. says that the only reason he has for desiring this disposition of the property is, that is may be preserved from the lot that mast eventually befall is, as a private pos-session, in the dispersion of families and changes of ginia or the United States, he is unwilling to dissession, in the dispersion of families and changes of fortune almost necessarily attendant upon our form of government. That it would cause him the greatest regret, if amid such changes, from any act of his or his descendants, Mt. Vernon should be per-verted to uses, inconsistent with the veneration due to the memory and character of him with whos life it is so intimately connected. That he cannot help foreseeing, that, as the property of any private person or association, this lomentable result must

sooner or later occur. The Association formed in Richmond, is compose of Ladies, and they designed appealing to the South
