

Virginia Free Press.

BY GALLAHER & CO. THURSDAY MORNING. SEPTEMBER 24, 1857.

CONFLICTING VIEWS. The Enquirer declares (says the Petersburg Intelligencer) that the President's response to the Silliman Address follows its own position in the Walker controversy. The South, holding the precisely opposite position, avers, that the President, in that same document, expresses the very opinions that itself holds with regard to Walker's illegal and high-handed doings. This is a curious case. Here are two journals which for months have been furiously belaboring one another in a quarrel about Walker, one contending that he was acting precisely in conformity with his duty and the other insisting that he was abusing in the grossest manner both the letter and the spirit of his trust—one avers that the course was approved by the President—the other that it was not approved—and these two journals in the midst of their hostilities, pounce upon the utterances of the President in the Silliman Address and respectively pronounce their confirmation of their antagonistic assumptions and arguments. Why, what a feeble document it must be to secure the equally cordial approval of the Enquirer and the South!

Very, this thing called Democracy is a marvellous compound. It possesses an almost miraculous virtue, affecting, as it has done, the fierce and fiery disputants who have been mauling one another at the gates of the Enquirer and the South. The fact that the President fully approves both their respective positions, they nevertheless, at the same time mutually charge the direct inconsistency, and broadly maintain the same antagonistic views of Walker's official course which first set them by the ears! The President approves of what Walker has done, says the Enquirer, and the President repudiates it, says the South—and the proof on both sides is to support this glaring contradiction is the President's reply to the Silliman Address! Now we suppose they will wrangle over their opposite interpretations of this wonderful White House epistle. It is impossible that either can concede his interpretation to be in the slightest degree erroneous, and therefore this new clashing between them can only add fuel to the controversial fire which has so long been burning.

LIBERIA A FAILURE. We learn from the New York Commercial Advertiser, that information has been received at the Methodist Episcopal Mission House in Liberia, attributable in a great degree, to the laziness of a large portion of the population, who cannot be induced to work, even by the prospect of starvation. This intelligence was communicated by the Rev. Mr. Rogers, a Missionary, who adds that the prospect for the future is fearfully gloomy, and that the end of all things out there is near at hand.

We regret this communication, (says the Richmond Whig) for more reasons than one. We regret it for the sake of the illustrious names, now no more, who were actively instrumental in promoting the colonization of Africa, and who were stimulated to the task by the most sublime philanthropy. We regret it, because there is no prospect that a similar enterprise will ever be undertaken in all future time. But most of all we regret it, because it proves beyond all doubt, what we have for many years more than suspected, that the African race cannot exist as freemen, and that as soon as the restraint of slavery is removed, it retrogrades at once to its primitive savage condition. This century has seen the experiment fairly tried, and the result has always been the same. San Domingo was, sixty years ago, the most beautiful, the most flourishing, the healthiest island, that the sun ever shone upon. Its production of sugar, and of those tropical articles of commerce, was immense. It fell into the hands of a free black population, and while they themselves are scarcely above their brethren of Congo, or the Ivory coast, in the arts of civilized life, they have converted the Paradise around them into a sterile, and appalling waste. Not one pound of sugar is exported from the island, and nothing is cultivated, but such crops as are necessary to keep body and soul together. In less than a quarter of a century, the free negroes have contrived to make Jamaica a fair match for San Domingo, and last of all, Liberia, which—promised so fairly, has disappointed the hopes of its sanguine friends, and confirmed the worst predictions of those who always looked upon the experiment with distrust.

PEACHES. Many of our brethren of the Press are acknowledging the receipt of fine Peaches from their friends. A late visit to "Rion Mall," the residence of the Hon. WILLIAM LEVINE, enabled us to procure a large supply of the finest Peaches we have ever seen in any section of the country. He has them of every species, of the largest quality and of the most delicious flavor. Mr. L. has given his personal attention to the culture of the choicest varieties of the fruit. His lawn contains some ten or fifteen acres, is filled with every kind of fruit, strawberry and forest trees, of hundreds of varieties.

Mr. L. has in his house about 13 hundred acres—enough for all peasant purposes.

SALE OF MILL FARM PARTY. The interest of ANNA H. HAINES, (being one half) in the Mill Property, and 30 acres of land, and dwelling house, situated near the head of Bullhite, in this county, was sold on Friday last, by Messrs N. S. White and T. C. Green, Commissioners. The Mill Property brought \$9,100. Thomas Phillips and others purchased by Wm. GOSWELL.

CONSULSHIP TO LIVERPOOL.

The appointment of Mr. Beverly Tucker to the Consulship of Liverpool, (says the Petersburg Intelligencer) does not meet the approbation of the entire Democracy of this State. We are ourselves of opinion that it was an appointment "not fit to be made." Mr. Beverly Tucker belongs to that class of men, unfortunately numerous in this country, whose whole scheme of life is to billet themselves on the public, and live by the favor of those in power. We are aware of no qualification he has for such a post as that to which he has been appointed, requiring as it does systematic business habits and capacity. Nor are we so fortunate as to know any distinguished service rendered the country by Mr. Beverly Tucker, entitling him to be taken care of at the public cost. There is a peculiar feature about this appointment, which may or may not have significance in it. The late incumbent of the Consulship at Liverpool, Mr. Hawthorne, was a warm personal and political friend of President Pierce. He wrote a biography of that gentleman, after his nomination for the Presidency, that contributed no little towards his election. On the other hand, Mr. Beverly Tucker was one of the bitterest enemies and most unsparring opponents of President Pierce, that any party afforded. Could so ungracious an act, as requiring Hawthorne to give way to Tucker, have been committed without special intention to wound the Ex-President?

Referring to certain mysterious agencies brought to bear in securing this appointment, the Martinburg Republican (Democratic) says: "We think we are in the presence of a mystery, and we are sure that the machinery of the Executive Department is not so simple as it is represented to be. We do not doubt that the appointment of Mr. Beverly Tucker, like one of our other executive appointments—recently made from the South Western portions of the State, was the result of a recent coalition among some few high in authority, and that their fickleness and selfishness will suffer no abatement until rebuked by the Legislature of Virginia, at the next session, in the triumphal election of the veteran statesman to the United States Senate, over democratic opponents."

MAKING DEMOCRATS. I am sure we will go far to say, that we will read into the compilation the Editor of the Free Press, provided he will first confess the error of his ways, and give up his position as Editor of a Democratic paper. It is not fair to say that either can concede his interpretation to be in the slightest degree erroneous, and therefore this new clashing between them can only add fuel to the controversial fire which has so long been burning.

THE BERRYVILLE GAZETTE. The last issue of this excellent journal, the first of the first volume, announces that the late Mr. Boyce, had disposed of an interest in the establishment of Mr. Alexander Parvins, of Clarke county, well known to our readers as a gentleman of education, talent, and ability as a writer. The title of the paper is to be changed to the "Berryville Democrat and Advertiser," and other improvements to be made. The associate Editor will make his bow to the public in the next issue. (Winchester Virginian.)

A POINTED PRAYER. On the third day of the recent Kansas Constitutional Convention, the President introduced the Rev. John G. Magee, who made the following laconic but appropriate prayer: "May the Lord God, in his infinite wisdom, inspire the Convention and each of its members with the same spirit with which He inspired the sages, Jeremiah, Adams, and the immortal Patrick Henry."

LOSS OF AN EYE. A gentleman of our acquaintance thinks that "epitaphs" is a matter of consequence. His wife becoming possessed of several sets of hoops, he was obliged to sell off a part of his household furniture to make room for them.

LOSS OF AN EYE. A gentleman of our acquaintance thinks that "epitaphs" is a matter of consequence. His wife becoming possessed of several sets of hoops, he was obliged to sell off a part of his household furniture to make room for them.

NEW BEGGY. We noticed passing through town, for an adjacent county, on Tuesday last, a handsome beggy from the establishment of our friend WILLIS J. HAYES. The fine reputation Mr. H. has gained throughout the State, is fully sustained by the handsome and durable work which he is continually turning out.

SUGAR CANE. Mr. UMAN B. KRAMER, near Kearneysville, in this county, has half an acre of Chinese Sugar Cane growing upon his farm. It measures nearly fifteen feet in height. Edmund L. Lee, Esq. has had molasses made from the sugar cane, which is represented as clear and good in all respects.

LARD SALE. We learn from the Valley Star that James M. HANCOCK, Esq. formerly of this county, has disposed of his farm near Lexington, Rock bridge county, including some other property, to Mr. MATSON, from New Orleans, for forty-seven thousand dollars. The farm sold at the rate of fifty dollars per acre.

ANOTHER EMINENT CITIZEN DEAD.

Gen. GEORGE RUSSELL died two o'clock Friday morning, at the residence of Coleman Yellott, Esq., in Baltimore. The deceased was a native of Loudoun county, Va., which in his earlier days he frequently represented in the Legislature. He also filled, during the administration of General Jackson, the position of Superintendent of the Government Armory at Harper's Ferry. During the war of 1812 he was one of the volunteer defenders of Baltimore, and won much credit for his gallantry, on that occasion. Much of the life of the deceased was passed in Maryland, and especially in Baltimore, and both in Maryland and Virginia he would be hard to find any individual who had more numerous or warmer personal friends. He was in the seventieth year of his age.

CURIOSITY GRATIFIED. A party of ladies who were proceeding to bathe in a beautiful cove in Wisconsin, discovered a young farmer in the thicket watching them, and gave him a sound beating with the hazel bushes in which he was hid. We think it will be a long time before he again attempts to take astronomical observations in ambush. He discovered that the curious ones are not excessive.

A SEVERE LOSS. Mr. CHARLES GATRELL, a boatman of Shepherdsboro, had the misfortune to lose his team of three horses, on last Monday week, while going around "clock water" on the C. & O. Canal. His loss is estimated at about \$400. Some of our philanthropic citizens have taken the matter in hand, and are trying to reimburse Mr. Gattrell by appealing to the liberality of the community.

SALK OF THE BERRYVILLE AND CHARLESTON TOWNSHIPS. It has been found necessary in consequence of a recent resolution of the Legislature, to postpone the sale of this valuable property until the 1st day of January next, as will be seen by the new advertisement in another column of this paper.

A WHEAT-GROWING REGION. The Rockford (Ill.) Register puts in a claim for Wisconsin as the banner wheat-growing county in the State. One township alone raises 150,000 bushels. It is estimated that 65,000 acres of wheat were put in, in that county, producing, at the least calculation, one million six hundred thousand bushels!

SHOW TIME. The Delaware Republican says that owing to the high price of cotton, the low price of goods and the deranged monetary condition of the country, the manufacturers on the Brandywine have reluctantly concluded to work half time, and but for the sake of their hands, many of them would cease operations entirely.

DEAD. Rev. Addison M. Lewis, is native of Spottsylvania county, Va., died in Hanoverville, Mo., on the 26th ult. He was well known in Virginia and Kentucky, having been a Baptist minister for forty years, and former president of Georgetown College, Ky. He died from a fracture of the leg received in a fall.

THE BERRYVILLE GAZETTE. The last issue of this excellent journal, the first of the first volume, announces that the late Mr. Boyce, had disposed of an interest in the establishment of Mr. Alexander Parvins, of Clarke county, well known to our readers as a gentleman of education, talent, and ability as a writer. The title of the paper is to be changed to the "Berryville Democrat and Advertiser," and other improvements to be made. The associate Editor will make his bow to the public in the next issue. (Winchester Virginian.)

LOSS OF AN EYE. A gentleman of our acquaintance thinks that "epitaphs" is a matter of consequence. His wife becoming possessed of several sets of hoops, he was obliged to sell off a part of his household furniture to make room for them.

LOSS OF AN EYE. A gentleman of our acquaintance thinks that "epitaphs" is a matter of consequence. His wife becoming possessed of several sets of hoops, he was obliged to sell off a part of his household furniture to make room for them.

SUGAR CANE. Mr. UMAN B. KRAMER, near Kearneysville, in this county, has half an acre of Chinese Sugar Cane growing upon his farm. It measures nearly fifteen feet in height. Edmund L. Lee, Esq. has had molasses made from the sugar cane, which is represented as clear and good in all respects.

LARD SALE. We learn from the Valley Star that James M. HANCOCK, Esq. formerly of this county, has disposed of his farm near Lexington, Rock bridge county, including some other property, to Mr. MATSON, from New Orleans, for forty-seven thousand dollars. The farm sold at the rate of fifty dollars per acre.

THE HUBBARD AT THE SOUTH.

The storm which occurred on the Southern Coast towards the close of last week, says the National Intelligencer, was a severe gale, that has been recorded for many years, and has been especially disastrous to the steamers plying between Northern and Southern ports which were exposed to its fury. Two of them, the Central America and the Norfolk, were totally lost, and three others, the Columbia, the Empire City, and the Soudanier, were barely to have escaped a like fate. We give a few particulars of the disaster. The gale was especially disastrous to the steamers plying between Northern and Southern ports which were exposed to its fury. Two of them, the Central America and the Norfolk, were totally lost, and three others, the Columbia, the Empire City, and the Soudanier, were barely to have escaped a like fate. We give a few particulars of the disaster.

THE STEAMER NORFOLK. The steamer Norfolk, Capt. Kelly, left Philadelphia for New York on Saturday last, with a full complement of passengers and crew. She was bound for New York, and was expected to arrive on Monday morning. She was, however, never seen again, and it is believed that she was wrecked on the coast of Virginia. The Norfolk was a fine vessel, and was well equipped for her service. She was, however, never seen again, and it is believed that she was wrecked on the coast of Virginia.

THE STEAMER COLUMBIA. The steamer Columbia, Capt. McGowan, left New York for Baltimore on Saturday last, with a full complement of passengers and crew. She was bound for Baltimore, and was expected to arrive on Monday morning. She was, however, never seen again, and it is believed that she was wrecked on the coast of Virginia. The Columbia was a fine vessel, and was well equipped for her service. She was, however, never seen again, and it is believed that she was wrecked on the coast of Virginia.

THE STEAMER NORFOLK. The steamer Norfolk, Capt. Kelly, left Philadelphia for New York on Saturday last, with a full complement of passengers and crew. She was bound for New York, and was expected to arrive on Monday morning. She was, however, never seen again, and it is believed that she was wrecked on the coast of Virginia. The Norfolk was a fine vessel, and was well equipped for her service. She was, however, never seen again, and it is believed that she was wrecked on the coast of Virginia.

DEATH OF PARSON BROWNLOW UPON DOGS.

The dogs of Knoxville having broken the rest and otherwise disturbed the equanimity of brother Brownlow of the Knoxville Whig, he thus narrates his grievances: We are unable to say what the dog population amounts to in Knoxville, but it is a safe calculation to estimate that it exceeds the population of the city. The dogs are a great annoyance to the city, and are a source of much trouble to the citizens. They are a source of much trouble to the citizens, and are a source of much trouble to the citizens.

AN ATROCIOUS CRIME.

The Buffalo Livings give the particulars of an atrocious poisoning case recently discovered at Danville, Livingston county, New York. Some time since, a young man named Isaac L. Wood, a native of Danville, and possessed an estate worth about \$10,000. A short time ago his wife and children were taken ill, and he was obliged to leave the city for a short time. He was, however, never seen again, and it is believed that he was wrecked on the coast of Virginia.

THE DEMOCRACY DAGUEROTYPED.

The Madison (Wisconsin) Patriot, a zealous Democratic paper, gives the following graphic picture of his own party. As remarked by the Louisville Journal, it is indeed a most striking likeness. The daguerotyping must have been done under the most favorable circumstances—when the artist and his machinery were exactly in the right condition and when the sun was shining all brightly upon the scene. The picture was taken on the 10th of August, 1857, and is a most striking likeness of the party.

A SINGULAR FACT.

A stock raiser of Fayette county, Ky., lost a colt one season, four of them through-bred, and four of them common scrub stock. He happened to find the colt, and he was very much surprised to find that the colt was a through-bred. He was very much surprised to find that the colt was a through-bred. He was very much surprised to find that the colt was a through-bred.
