POETICAL.

Judge Gently.

O there has many a tear been shed,
And many a heart been broken,
For want of a gentle hand set forth,
Or a word in kindness spoken.
Then, with brotherly regard,
Gentle every subject's lot,
From each one of love his heart
New hope, new strength shall borrow.
Nor torn—with cold and aching eye
From him who hath offended;
But let the hardness of reproach
With kinder tones be blent.
The seeds of grief are everywhere;
And, in the gauntlet bosom,
Bund by the quickening rays of love,
Purify their tender blossom.
What many a soul hath been
To deeds of evil hardened—
Who felt that bitterness of griefs—
The first few unpardon'd.

Pretty Fan.

There's magi in a lady's look
And well the ladies know it—
And she who has a pretty one
Is pretty sure to own it.
At times you, too, are marvied by
The sweet little smile,
That shoots an arrow through the eye,
Within the heart to rankle.
But when it tips along the street,
Through wind and mud and vapor,
By sheer accident you see
How beautiful they taper;
And as it steps upon the walk,
Amid the crowd to mingle,
Two roguish eyes look up and say,
"I wonder if he's single!"

A well-known lawyer a few days ago served a summons upon a debtor, at the instigation of his client. The debtor took the summons and endorsed the following lines, returning it to the legal gentleman:

"Against your claim upon this suit
I've no defense to make, sir;
To save your client's precious time
I'm ready to make, sir."
Until my prospects brighten up,
I am not worth a damn, sir."

Complaint is unnecessary.

Fault Finding.

What are other's faults to me?
I'm not a virtuous' bill
To peek at every law I see,
And make it wider still.
It is enough for me to know
I've follies of my own,
And on my heart the case bestow,
And let my friends alone.

VARIETY.

NEVER GET THE CAN BEFORE THE HORSE.

About thirty years ago there resided in the town of II., a certain Dr. M., who became very much enamored of a beautiful young lady who resided in the same town. In due course of time they were engaged to be married. The Dr. was a strong and decided Presbyterian, his lady love was a strong and decided Baptist. They were sitting together one evening, talking of their approaching nuptials, when the Dr. remarked:

"I am thinking, my dear, of two events which I shall number among the happiest of my life."

"And pray what may they be, Dr. I remark the lady.

"One is when I shall call you wife the first time."

"And the other?"

"It is when we shall present our first-born for baptism."

"What! to be sprinkled?"

"Yes, dear, my sprinkled."

"Never shall a child of mine be sprinkled."

"Every child of mine shall be sprinkled."

"They shall be?"

"Yes, my love."

"Well, sir, I can tell you then, that your babies won't be babies. So, good night."

The lady left the room, and the Dr. left the house.

The sequel to the story was that the Dr. never married, and that the lady is an old maid.

—

Two darkies one a Baptist, the other a Universalist, got into a controversy about the origin of man. The Baptist said God made Adam out of clay, pinched it into the right shape, set it up on its fence to dry, and afterwards blood birthed him to be born.

"Stop! you're a Baptist," you say.

"I'm not the last," said the Universalist.

"Well, do just tell a feller what dat are fond come from?"

"Hub" said the other darky—questions like dat must not be axed; dey would split all deology in two!

—

A waggle fellow, somewhat troubled with an impediment in his speech, while one day sitting at a post-table, had occasion to use a porter-hole. After shaking it with all due reverence, and uttering it in various ways, he found that the proper was in no wise inclined to come forward.

"T'is this p'popper box," he exclaimed with a saucious grin, "is something like myself!"

"Why so? I asked a neighbor."

"Poo poor delivery," he replied.

—

We slip the following from an exchange and insert it for the benefit of our players.

—

At a costume party at Bradford, not long since one of the company had over-sized his stomach with fish, sausages, and ham. He felt like going out to vomit, but sprang his rising to leave the large hall and the "dreaded" His costume was a sailor's suit, and he said, "I'll dash you."

No, replied the unfortunate "big"—

"I'll dash you."

—

A physician in New York who recently conducted the post mortem examination in a case of infanticide, reported that he was unable to discover whether the child was alive or not at the time of its death.

That was probably the same doctor who advertised his having "removed from the place where he now resides."

—

WELL EXPLAINED.—God made Washington childless, that a nation might call him father. Can any one explain why God made Buchanan childless?

An exchange answers: "That we might not look upon his like again."

—

Mrs. Snooks was advised to get his life insured. "Won't do it," said he; "it would just be my luck to live forever, if I should."

Mrs. Snooks merely said, "Amen! well I wouldn't my dear." With a twinge, that
