CHARLESTOWN.
THURSDAY MORNING,
JUNE 7, 1860.

OUR PLATFORM.

THE CONSTITUTION OF THE
COUNTRY,
THE UNION OF THE STATES.

THE Enforcement of the Laws.

FOR PRESIDENT,
JOHN BELL,
OF TENNESSEE.

FOR VICE PRESIDENT,
EDWARD EVERETT,
OF MASSACHUSETTS.

MR. EVERETT'S LETTER.

We publish to-day Mr. Everett's letter of acceptance, of the nomination for Vice President, lately made by the Union Constitutional Convention at Baltimore, and in laying it before our readers, we adopt the language of the National Intelligencer, and say, that it is beautiful and impressive, and while it will excite a profound interest and pride in the ranks of the political supporters, it cannot fail to inspire both respect and solicitude in the breasts of all patriotic and thoughtful men of every party. The reluctance which Mr. Everett avows in yielding his acceptance of this nomination is evidently sincere, and all who are sincere, and all who are especially acquainted with his personal habits, circumstances, and pursuits, will be fully satisfied of the depth of this reluctance, and the sacrifice which he makes to a sense of public duty. We can only hope that the sacrifice may be rewarded by the approving voice of his country calling him to the high trust for which he was nominated with so much unanimity and enthusiasm.

ROUND TRIP TICKETS.

The Baltimore and Ohio Railroad Company have made prompt and extensive arrangements for the transportation of visitors to Baltimore during the time of holding the National Democratic Convention there, on the 18th instant. It has been the first to do the same upon its own road, and to arrange, also, with its numerous connecting lines in the West and in the North and South-West, for general and joint reduction through round trip-tickets.

BALTIMORE & OHIO R. R.

It will be seen by reference to time table in another column that an additional train of Cars has been placed upon the Baltimore and Ohio Rail Road for the accommodation of the travelling public—thus enabling upon the part of that enterprising company a determination to keep pace with the progress of the times. This road is now the great thoroughfare from east to west, and its management is not equalled by any other in the Union. The run is made with mathematical accuracy from all points.

Does Wealth Constitute a Christian Community?—This query forcibly presented itself to us yesterday in seeing the remains of a human being deposited in its last resting place. We had our doubts whether we inhabited a Christian or Heathen community. We insert a verse, sung on the occasion alluded to above, which is not, perhaps, often heard; and although not a teacher nor a professor of religious tenets, we nevertheless give it as a subject of reflection for the few considerate:

"Princeps, this day must be your bed,
In spite of all your honors;
The fall, the wise, the reverend head
Must lie as low as ours."

BANK OFFICERS.

The following gentlemen constitute the new Board of Directors for the Branch of the Valley Bank, located in this town:

By the State. By the Stockholders.
Wells J. Hawks, Capt. John Moler,
Robt. W. Baylor, John C. Wilshire,
Thomas C. Green, John W. McMurtry,
Thomas Rutherford.

New Directors.

The former faithful and efficient officers of the Bank are retained, and their condition is represented as never being in a safer and sounder condition than at present.

LADIES' DINNER.

To liquidate a Church debt, the Ladies of the Episcopal Church of this town will have prepared, on to-morrow, the 8th, at the Court-House, a Dinner—tickets fifty cents—to, which they invite the attention of the public.

Certainly those interested in church matters, and particularly in the ladies concerned, will not withhold their contributions. Remember the Dinner at the Court-House, between the hours of 1 and 2 P. M. on Friday.

ROWDYMEN.

After the storm on Monday night, we had quite a sprinkling of rowdymen. We will not specify persons or acts, but do hope for the quiet and peace of the town, we shall no more have occasion to refer to similar manifestations of the spirit of Bacchus.

REV. DR. DORSEY.

The Rev. Dr. DORSEY, for several years pastor of the Lutheran Church in Martinsburg, has resigned his position in that church and accepted a call to Columbus, Pennsylvania. Dr. D. had endeared himself to the people of Berkeley, and much regret is expressed at his change of residence.

J. W. W. ALLEN, Esq., of Hardy county, has been elected Judge in the Shenandoah District for the Circuit Court, by 503 votes over Judge Keeney, and 406 votes over Giles Cook.

Mr. ISAAC PROXON has been appointed Postmaster at Glenavy, Berkeley County, vice John D. Barney, resigned.

ANNIVERSARY.

Our citizens have enjoyed a season dear to the heart of every Christian—an exhibition of the "mystery of the Lord"—the Sunday School.

On Sunday last, the Sabbath School attached to the Presbyterian Church of this place, held its anniversary meeting, and the hearts of all engaged in this work were greatly strengthened and encouraged. At 3 o'clock the Sabbath marched to the body of the Church, taking possession of the middle block of pews. The services were opened by Dr. DUNTON, Pastor, who gave out from the "Spirit" and from the "Matthew Republican" in order that our readers may contrast the views of these organs.

POETICAL.

"Many persons think of Hogn only as a master of jests, forgetting that the necessities of his life forced him to the manufacture of what he could dispose of at the highest market price.—Here is a specimen of his genuine poetry:

H. T. AKA.
By Thomas Hobbes.

The stood broad—high amid the corn,
Clasped by the golden light of morn,
Like the sweethearts of the sun,
Who many a glowing kiss had won.

On her cheek an autumn dash
Deeply creased—such a blush,
In the midst of brown was born
Like red poppies grown with corn.

Rebuked her eyes her tresses fell,
Which were blushing white could tell,
But long lashes veiled a light
Which had been all and bright.

And her hair, with shaggy bloom,
Made her tress forehead dim—
Thus she stood amid the stocks,
Begging Child with sweetest looks!

Sure, I said, Heaven did not mean
Where I leap thou shouldst gleam,
Lay thy sweet down and come
Share my heaven and my home.

VARIETY.

A COLOURED DIVINE.

A negro preacher, who, like some other preachers, was in the habit of using big words, but did not always succeed in getting hold of the right one, made a funny mistake once. His text was,

"Broad is the road, that leadeth to death, and many there who go there; but narrow is the way that leadeth to life, and few there who take it."

"Beloved brudahs, that are two roads, eb' body goes in one orudder ob'um; that's a one road, and dat am broad road, and dat leads right down to destruction; and dat graw many goes in it; but, den um ander road, dat leads straight up to perdition."

"If you de case," said an excited colored brother in the congregation, "dis niggas cuts for dis wood."

A village schoolmaster announced one day to his scholars, that a visitor was coming in soon to examine. "If he questions you in geography," said he, "the 'prob'ly will ask you what is the form of the earth, and if you do not remember, you have only to cast your eyes toward me, and I will show you my snuff box that is round." Now the teacher had two snuff boxes, one round which he used on Sundays, and the other square, which he used on week days.

The master, as the visitor, as the master had foreseen, asked one of the scholars the form of the earth. He at first was a little embarrassed, but looking towards the master who showed his snuff box, he immediately answered wit out hesitation:

"Sir, it is round on Sundays and square in the rest of the week."

Mr. Keefer having lost his wife by death, Mr. Keefer's son the following mediations strain to the newspapers:

My wife has left my bed and board,
For a few days, for a few days;

She left of her own accord,
When I was out from home.

I caution all to this account,
Nowadays, nowadays;

Don't trust her on my account,
For she's never coming home.

MARTIN KEEFER.

GEOGRAPHY.

How many Poles are there?

Three, the North Pole, South Pole, and the Pole which knocked down persimmons.

"Right."

Next? Which is the principal sea in Europe?

The sea of Rome.'

"Very good."

Which are the principal Pases in the United States?

"The capes of fashion."

"Good."

What kind of fish are the most common?

"Codfish aristocracy."

A young lady of extraordinary intellectual capacity recently addressed the following letter to her cousin:

DENN KRIZZEN.—The wether whar we is air kold and I suppose whar you is air kold. We is all well, and mother's got the his Terri, brother Tom has got the Huspin Kaugh, and sister Suzin has got a babe, and I hope these few lines will fid yu in the same conditun. Rite aune.

Yours affectionately Kusseen.

A down east editor says he has seen the contrivance our lawyers use, when they wax up with the subject! He says it is a glass concern, and holds about a pint.

Henry IV, being told by his gardener, that there were several spots at Fontainebleau, where nothing would grow requested him to plant a bold of asturries, for they would flourish anywhere.

The best lip-sav is creation is a swed kiss. The remedy, however, should be used with great care, as it is very apt to bring on an affection of the heart.

Mr. Thomas Fuller once said, in reference to written and extempore sermons, that he preferred to give his friends cold meat well prepared and on the table, to use meat warm from the spit, half roasted.

A Hottentot got up a painting of heaven. It was enclosed with a fence made of sausages, while the centre was occupied with a fountain that squirted out pie!

Premio says he has heard of but one old woman who kissed her cow, but he knows of many thousand young one who have kissed very great calves.

Why there are more women than men is explained by Dr. Quincy: "It is in conformity with the arrangement of nature; we always see more of heaven than earth."

To make excellent jam—quince six or eight women, now-a-days, in a common stage couch.

Many poems are set to music, why not poetry?

Every husband thinks that he can tame a shrew, except the poor fellow that has her.

A great many drop a tear at the door of poverty, where they should drop a six pence.

MEDICAL HOUSE.

Established in order to supply the medical and scientific medical and, for the suppression of Quackery.

DOCTOR SMITH, the new Restorative Engineer, has a new apparatus, has for many years devoted to whole attention to the Treatment of Private Complaints, in all their varieties and complexities. His great success in those long hard years, has enabled him to command his time, and the public no longer to be interested in the extensive catalogue, which he has received, than in 25,000 cases of Private Complaints, in their different forms and stages: a practice which so doubtless deserves the highest commendation, as advertising in Baltimore, and not a single case known to him, has ever been followed, and medicines taken at reasonable times, without effecting a great improvement in the case, nor, has he ever failed to call on the patient again, "no matter how difficult or long the case may be." He would be well to call on Dr. Smith, the Restorative engineer, for his services.

The affiliated school here, Dr. Smith, is the only regular physician advertising, who has for many years past, given his attention to the treatment of death.

His medicines are free from Mercury and all mineral poisons, put in neat and compact form, and may be easily carried about, and are perfectly checked, without expense or hindrance from business, and are without risk of violent inflammation, no change is due to them.

We are called upon every day to cure Chronic diseases which were supposed to have cured years ago, but have not been fully checked, often with great difficulty, by means of Mercury, and other poisons, and seem to be well fit in a longer or shorter time, by some slight cause, and it is worth many difficulties to get rid of them, and to find a good physician, who makes the case extremely difficult to treat, particularly strangers, to whom it is often difficult described by false advertisements of boasting quacks, who make promises which cannot be fulfilled even in the name of the truth.

He can be called upon to give a thorough practical treatment in the first stages of disease, may cause, particularly to strangers, to whom it is often difficult to describe his skill.
